4. LIEMPTY-11 has an Operational Approval granted on 14 September 1955 for use on the LIPSTICK team. The Station assumes that this OA will allow his use on the LIEMBRACE team. If this is not the case, the Station requests that his OA be amended to allow for such usage.

SUBJECT
LIEMPTY Progress Report 1 August through 31 October 1967

ACTION REQUIRED - REFERENCES

ACTION REQUIRED: FYI

REFERENCE : HMMA-32721, 7 August 1967

1. On 25 July 1967, Raymond H. GERENDE, principal agent for the LIEMPTY project, was introduced to his new case officer, Vincent P. RIZZUTO. The major reason for the change in case officers was to bring the LIEMPTY project into the section which it is largely designed to support, the REDTOP section. In the three-month period covered by this progress report, GERENDE was met by the case officer 32 times. Meetings were normally prearranged, with times and sites varied (with the introduction of the new case officer, most of the former regular meeting sites were dropped and new ones substituted). Meetings were occasionally arranged via telephone, in which case a prearranged code was used. Due to GERENDE's MHRAVEL activity (see below) it was not always possible to stick to a fixed meeting schedule.

2. GERENDE met with LIEMPTYs-4, 9, and 13 on a twice-a-week basis, and LIEMPTY-6 once per week during this period. These meetings were prearranged. As explained below, GERENDE no longer meets LIEMPTY 10.

	CLASSIFICATION SECRET	HQS FILE NUMBER 50-6-74/3

3. There were no known security incidents affecting the LIEMPTY Project or its assets during the period of this report.

LICALLA

what is done with these

4. LIEMPTY-9, the operator of the LICALLA base house, provided 1,289 operational photographs during this period. In addition, he provided fixed surveillance reports, sighting reports, and special notes and comments. LIEMPTY-9 has proven himself to be a reliable and perceptive reporter of the events he observes. For this reason, he has been asked to provide special coverage on various individuals of interest, or on particular days when coverage is desired. The Station has found the LICALLA reports to be consistently useful in determining the presence, activities, and personal associations of target personnel. In part this is due to the location of the LICALLA base house, but it is also due to the interest, effort, and judgement of LIEMPTY-9 himself. [illegible]

LILYRIC

these too

5. The LILYRIC base house has been a prolific provider of operational photos, 4,014 having been submitted in the period under review. While there is occasionally superfluous coverage of visiting sports and cultural delegations (and LILYRIC personnel have been instructed to be more selective in this respect) the blanket coverage afforded by this base house guarantees that nothing will be missed during normal working hours. The fixed surveillance reports are voluminous, highly accurate, and quite valuable. On three separate occasions during the reporting period LILYRIC alerted the Station to the presence of American visitors at the target installation.

LIMITED

6. The efficiency of the LIMITED base house has suffered a slow decline. LIEMPTY-6 has been out of action for short periods because of illness and a physical examination. The physical, however, showed that he is in good health and we look for an improvement in his performance in the next reporting period. His surveillance reports are not entirely reliable due to a tendency to assume that the normal occupant of a certain car is, in fact, in that car. His photos, however, continue to be useful. 314 were provided in the period under review.

and these

LIENTRAP

7. As noted in HMMA-33279, 13 October 1967, the LIENTRAP photo vehicle, operated by LIEMPTY-10 and LIEMPTY-11, is now in direct contact with LIEMBRACE-1, leader of the LIEMBRACE surveillance team. This arrangement, which began in mid-August 1967, has proved to be a very happy one operationally. In addition to permitting more flexible use of LIENTRAP for Station requirements across the board, it has left GERENDE more time to devote to other duties (see below).

PHOTO LAB

8. LIEMPTY-4 has continued to process the photos taken by the base houses, and in addition made 269 enlargements in the period under review. During this period, the photo lab was moved to LIEMPTY-4's office because of renovations going on in GERENDE's house. LIEMPTY-4 processes the photos after working hours, and keeps the equipment and photos locked away during the day. As LIEMPTY-4's office is in his home, the equipment and photos are not left unguarded over night.

GERENDE

9. As reported in reference, GERENDE had been developing

a possible access agent to LIRING. This eventually culminated in an attempted recruitment of the prospect by GERENDE. Although the attempt was unsuccessful, GERENDE exhibited considerable resourcefulness and operational skill in developing the target to a point where the recruitment attempt was possible. We plan to use GERENDE in similar roles in the future as opportunities arise, and for this reason we plan to document him with a set of false Mexican documentation as well as a set of false American documentation. GERENDE is collecting exemplars and getting the background information needed, and once the necessary data are assembled, Headquarters (WOACRE) support will be requested.

10. GERENDE has continued to provide support for the JMROD operation as needed.

11. In September and October 1967 GERENDE was employed by the Mexican MHRAVEL committee. He was able to get assigned as aide to the DIZTAG delegation. In this capacity he was able to supplement very nicely the information and support being provided by Jeremy S. HODAPP. This foot-in-the-door came in very handy, and is expected to be even more valuable in 1968, if GERENDE can get the position again. While the job was rather time-consuming we believe that it was well worth it.

12. In connection with his duties with MHRAVEL, as well as in connection with the fact that his WOFIRM activities are nearly 100% against the FJSTEAL target, GERENDE was given a very general briefing on the Station's REDTOP program. It is our hope that, in having a better idea of what the Station is trying to do in this field, GERENDE will be able to make an even greater contribution to that program than he has in the past.

LIEMPTY/Progress Report for the Period 1 May through 31 July 1967

ACTION REQUIRED - REFERENCES

Action Required: For Your Information

Reference : HMMA-32068, 23 May 1967 (Previous Progress Report)

1. From 1 May through 31 July 1967, 26 operational meetings were held with Raymond H. GERENDE, Principal Agent for the LIEMPTY Project. With the exception of one unscheduled meeting, meetings during this period were prearranged and meeting times and sites were varied. The unscheduled meeting was arranged via telephone using a prearranged open code. During the absence of GERENDE, two operational meetings were held with Oliver G. SCANTLING, alternate Principal Agent for LIEMPTY, and four with LIEMPTY-4, photo lab operator. All of these meetings were prearranged.

2. GERENDE met with LIEMPTY-4, -9, -10 and -13 on a twice a week basis and with LIEMPTY-6 on a once a week basis during this period. GERENDE's meetings with these assets were all prearranged. SCANTLING met with LIEMPTY-9 and -13 on two occasions and with LIEMPTY-6 once during the absence of GERENDE.

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NUMBER HMMA - 32721

3. All assets involved in the LIEMPTY Project performed in a satisfactory manner during this period. Effective 1 July 1967 LIEMPTY-4 and LIEMPTY-11 were given slight salary increases, because of their increased activity.

4. There were no known security incidents affecting the LIEMPTY Project or the assets involved during the three months under review.

LICALLA

5. This basehouse, the operator of which is LIEMPTY-9, provided 1277 frames of operational photographs covering the patio and garden area of PJSTEAL. LIEMPTY-9 also prepared fixed-surveillance reports, sighting reports and special notes and comments.

LILYRIC

6. The LILYRIC basehouse, which is staffed by LIEMPTY-13, -14 and -27, produced 2854 frames of operational photograph during the period. The LILYRIC basehouse operators continued to prepare fixed-surveillance reports on each member of PJSTEAL and turned these in on a weekly basis. LIEMPTY-27 resumed his duties on 1 July as scheduled and this basehouse has now reverted to its normal hours of coverage. (See reference relative to the absence of LIEMPTY-27.)

LIMITED

7. The LIMITED Basehouse, operated by LIEMPTY-6, produced 279 frames of operational photographs plus weekly fixed surveillance reports on each of the members of PJSTEAL. The LIMITED basehouse was closed from 17 through 22 July because of the illness of LIEMPTY-6. During this period LIEMPTY-6 did very little radio-alerting for the LIEMBRACE surveillance team because of the variation of the surveillance team's activities.

LIENTRAP

8. The LIENTRAP mobile photo vehicle had a decrease in activity during this period because of the dismantling of the old LIENTRAP vehicle and the modification and installation of equipment in the new vehicle. The old LIENTRAP vehicle was used to cover photographically all of the residences of opposition elements in Mexico City. As in the past LIENTRAP provided photographic coverage of addresses of the local Communist parties, residences of members of other Hemisphere parties and several PBRUMEN targets. A total of 332 frames of operational photographs were provided by LIENTRAP.

PHOTO LAB

9. LIEMPTY-4, the operator of the LIEMPTY photo lab, processed all of the operational photographs mentioned above as well as providing from 2 to 6 enlargements of 299 frames of photographs of special interest taken by the basehouses. LIEMPTY-4 does the photo processing on Tuesday and Thursday nights.

10. Raymond H. GERENDE started the development of a possible access agent to LIRING and also continued to provide support for the JMROD operation. These task being aside from his regular LIEMPTY duties. GERENDE was on vacation from 25 May through 4 June 1967.

11. There will be one administrative change during the coming period when Vincent P. RIZZUTO will assume the Case Officer responsibilities for GERENDE/LIEMPTY. No problems are envisioned in this change over. No other significant changes are planned.

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NUMBER HMMA - 32068

4. There were no known security incidents during the period covered in this report. As a precautionary measure, the LIEMPTY basehousekeepers were instructed to maintain increased vigilance in their respective areas and buildings and to be prepared to evacuate any incriminating equipment and papers on a moment's notice. This was done because of the renewed interest in the assassination of President Kennedy which in turn brought forth comments in the press about photographs taken of Oswald during his visit to Mexico. On three occasions during this period, LIEMBRACE-3 surveilled the operational meetings between GERENDE and LIEMPTY-6. This was done in order to try to ascertain if any FJSTEAL personnel were taking measures to verify the activities of LIEMPTY-6. LIEMBRACE-3 reported that all of the meetings he covered appeared to be clean of hostile surveillance. (NOTE: Headquarters is aware of the interest FJSTEAL has taken in LIEMPTY-6. LIEMBRACE-3 does not know the exact location of LIMITED/LIEMPTY-6, although he is aware of the existence of this asset because of the radio alert system used by the surveillance team when working the FJSTEAL target. In order to avoid LIEMBRACE-3 surveilling LIEMPTY-6 to the exact address, LIEMBRACE-3 was instructed to surveill GERENDE when he departed the meeting site and to report to GERENDE after LIEMBRACE-3 was convinced that there was no hostile surveillance and after they had departed the meeting area.)

LICALLA

5. During this period LIEMPTY-9, operator of the LICALLA basehouse, provided 1112 frames of operational photographs covering the patio and garden area of FJSTEAL. All photographs provided by LIEMPTY-9 were accompanied by fixed-surveillance reports, sighting reports and special notes. LIEMPTY-9 is a perceptive individual and his special notes and comments are considered to be of great value by the interested section in the Station. LICALLA coverage was suspended during the period 19 through 25 March while LIEMPTY-9 was taking a well-deserved vacation. The cover of the LICALLA basehouse appears to remain good, with no undue attention devoted to it by FJSTEAL personnel.

LILYRIC

6. This basehouse, which is staffed by LIEMPTY-13, -14 and -27, produced 2553 frames of operational photographs during the review period. LIEMPTY-13 is employed full-time and most of the coverage is provided by LIEMPTY-14, and -27, although during this period, LIEMPTY-14 carried the largest share of the workload. In March the hours in which LIEMPTY-27, a medical student, attended school were changed from the afternoon to the morning. This schedule change will remain in effect until the end of June 1967. LIEMPTY-14 does not have the mental composure to remain on the job for the hours needed to provide full-time coverage and her homekeeping duties often interfered with her working hours. In order to alleviate this problem, the working hours of LIEMPTY-6/LIMITED were increased and those of LILYRIC/LIEMPTY-14 decreased. No serious loss of coverage resulted from this temporary change in working hours. The salary of LIEMPTY-27 was cut in half for the period of time in which he will not be providing continual assistance to the Project.

7. LILYRIC remains as the main source of information on WOLADY and other foreign visitors to FJSTEAL.

LIMITED

8. LIEMPTY-6, the operator of the LIMITED basehouse, provided 684 frames of operational photographs during the three month period. LIEMPTY-6 also spent a great deal of time alerting for the LIEMBRACE surveillance team during this period because of the AEQUALITY-1 operation. LIEMPTY-6 was on vacation from 8 through 23 April and coverage from this basehouse was suspended during this period. As mentioned above, LIEMPTY-6 now is working longer hours in order to relieve LIEMPTY-14. LIEMPTY-6 does not know why his hours were increased.

9. On one occasion during this period LIEMPTY-6, while alerting the LIEMBRACE team on an FJSTEAL target, noted that a WOLADY subject had entered FJSTEAL on foot. He alerted the team and they were able to surveill the subject and identify him through records at the hotel where he was staying.

CS COPY

CONTINUATION OF DISPATCH	CLASSIFICATION	DISPATCH SYMBOL AND NUMBER
	SECRET	HMMA - 32068

LIENTRAP

10. The LIENTRAP photo surveillance truck was targetted against a purported forged document processing center, members and addresses of the local Communist parties and their front groups, members of other Hemisphere parties, BEDOX personnel in Mexico City and the DIZTAG Commercial Office. In covering these targets, 948 frames of operational photographs were produced. LIEMPTY-10 and LIEMPTY-11, LIENTRAP operators, serviced, on a thrice weekly basis, over 20 postal boxes which are used as accomodation addresses by the Mexico City Station, other field stations and Headquarters.

11. LIEMPTY-4 who operates the LIEMPTY photo processing lab, processed all of the above mentioned operational photographs as well as providing from 2 to 6 enlargements of 227 frames of photographs of special interest.

12. Raymond H. GERENDE continued to provide support for the JMROD operation as well as carrying out his duties as the Principal Agent for the LIEMPTY Project.

13. GERENDE is planning to take a 14 day vacation starting in late May. During his absence Oliver G. SCANTLING will replace GERENDE as the Principal Agent and contact for LIEMPTY-6, -9, -10, -11 and -13. The Station Case Officer will be in contact with LIEMPTY-4. SCANTLING knows all of the assets whom he will handle and has worked with them in the past, but has not met LIEMPTY-4.

14. As approved by Headquarters, the present LIENTRAP vehicle will be replaced by a new Ford "Econoline" truck in the near future. Before the old LIENTRAP vehicle is sold, it will be used to cover residences of the FJSTEAL/NYXIS opposition who are living in Mexico City.

15. No significant operational or administrative changes, other than those mentioned in this dispatch, are planned for Project LIEMPTY for the coming period.

SUBJECT Project LIEMPTY
Progress Report for the period 1 November 1966 through 31 January 1967

ACTION REQUIRED - REFERENCES

Action Required: For Your Information

References :
A. HMMA-30687, 28 November 1966 (Previous Progress Report)
B. HMMA-30956, 28 December 1966 (SGSWIRL of LIEMPTY-10)
C. HMMW-15157, 13 January 1967 (Project Renewal Approval)
D. HMMA-31164, 24 January 1967 (LIEMPTY Security)

GENERAL

1. Project LIEMPTY is a support project which provides information of CI/CE interest on the FJSTEAL installation, FJSTEAL personnel, visitors to FJSTEAL, both indigenous and foreign, and photographic coverage of various targets deemed of interest by the several operational sections within the Station. The Project has eight active agents plus Raymond H. GERENDE, Principal Agent; two vehicles, GERENDE's QPV and the LIENTRAP photo truck; a photographic processing laboratory; and, three basehouses, LILYRIC, LIMITED and LICALLA. LIEMPTY-10 and LIEMPTY-11, operators of the photo surveillance truck, also acquire and service P. O. boxes used operationally by the Station, Headquarters and other Stations.

2. On 9 December 1966 Luke B. MARSCHALEK (p) assumed Case Officer responsibilities for the LIEMPTY Project. MARSCHALEK was introduced to GERENDE in true name and GERENDE is the only member of the LIEMPTY complex whom MARSCHALEK has met. There were no problems during the change of Case Officers and none are envisioned in the future.

CONTACT AND COMMUNICATIONS

3. During the period under review, 30 meetings were held with GERENDE by the Project Case Officer. Meeting sites and times were varied to avoid establishing a pattern and most meetings were scheduled at the previous meeting. Several unscheduled meetings were held during this period and were arranged by the Case Officer telephoning GERENDE to establish the meeting time and site. Times and sites are coded when discussed by telephone and are arranged in such a way as to appear to be a normal conversation. Telephone calls to GERENDE are made from pay booths located away from the LNPURE installation.

4. GERENDE held twice weekly, clandestine meetings with LIEMPTY-4, -6, -9, -10, -11 and -13. These regular meetings are all prearranged and are held at various sites and at various times of the day so that meetings correspond with the regular habits and movements of the basehousekeepers and LIENTRAP operators.

5. All assets involved in the LIEMPTY project performed in a most satisfactory manner during the period under review. LIFEUD-4 has been extremely efficient in developing and printing negatives provided by the other assets.

PRODUCTION AND ACTIVITIES

6. LICALLA. During this period LIEMPTY -9, operator of the LICALLA basehouse, provided 1,239 frames of operational photographs covering the patio and garden of the PJSTEAL installation, the area where many of the officers, family members and visitors congregate. This coverage is especially valuable because the officers are usually at their leisure and often gather into functional groupings. LIEMPTY-9 is very observant and his comments and notes are considered of great value to the Station. All photos provided by LIEMPTY-9 are accompanied by a fixed-surveillance report.

7. LILYRIC. This basehouse is staffed by LIEMPTY-13, -14, and -27 with LIEMPTY-14 and -27 providing most of the coverage because of the full-time outside employment of LIEMPTY-13. During this period the LILYRIC basehouse provided 2,716 frames of operational photographs covering the only vehicle and pedestrian entrance into the target installation. All photographs were accompanied by fixed-surveillance reports on individual members of the staff of the target installation. The operators are often able to provide the license plate numbers of vehicles used by visitors to the target installation, which in many cases help to identify the visitor.

8. LIMITED. The operator of the LIMITED basehouse is LIEMPTY-6. The LIMITED basehouse also provides coverage of the only vehicle and pedestrian entrance to the PJSTEAL installation, but from a different angle, and the comments made relative to coverage in the section on LILYRIC also pertain to LIMITED. The LIMITED basehouse provided 557 frames of operational photographs during this period. LIMITED also serves as the radio alert for the LIEMBRACE surveillance team, although the practice of using a radio alert is being decreased. On two occasions during this period LIEMPTY-6 was alerting for the team in a deception exercise, since the team was not working the PJSTEAL target. This was done on instructions from the Station and LIEMPTY-6 was not told that these were deception exercises.

9. LIENTRAP. During this period as in the last reporting period, the LIENTRAP mobile surveillance unit was targetted mainly against the local Communist parties as well as members of other Hemisphere parties who are living or are in exile in Mexico. The LIENTRAP operators are LIEMPTY-10 and LIEMPTY-11 and during this period they produced 564 frames of operational photographs. LIEMPTY-10 and LIEMPTY-11 also service over 20 postal boxes which are used as accomodation addresses by the Mexico City Station, Headquarters and other field stations.

10. Raymond H. GERENDE. Aside from his regular duties as the Principal Agent for the LIEMPTY Project, GERENDE also provided valuable assistance in the furtherance of objectives involved in the JMROD operation. In this regard, Thomas G. URQUHART, Headquarters officer, held approximately seven operational meetings with GERENDE during this reporting period.

SECURITY

11. LIEMPTY-10 and -11 were afforded a SGSWIRL interview on 8 December 1966. There were no outstanding problems indicated in the results of the interview of LIEMPTY-11. The results of LIEMPTY -10's interview were discussed in Reference B.

12. A general security review of the LIEMPTY Project was forwarded in Reference D.

13. There were no known security problems or incidents during this period which may have jeopardized the operation or the assets involved in the Project. RJSTEAL interest in LIEMPTY-6/LIMITED was discussed in Reference D and apparently is a continuing matter.

PLANS

14. During the coming period no significant operational or administrative changes are planned, since the Project is producing in a timely and satisfactory manner.

FROM
Chief of Station, Mexico City

SUBJECT
LIEMPTY/Security of LILYRIC, LIMITED and LICALLA

ACTION REQUIRED REFERENCES

Action Required: For Your Information

1. In December 1966 Raymond H. GERENDE, Principal Agent for the LIEMPTY Project, was asked to prepare a security resume, including his opinions, on the security of the LILYRIC, LIMITED and LICALLA Basehouses vis-a-vis Soviet knowledge of their existence. The following paragraphs contain a slightly edited version of GERENDE's report, which was received on 28 December 1966. Station comments follow GERENDE's and are so noted.

LILYRIC

2. In its present new location LILYRIC is the newest of the photo bases under my control. According to LIEMPTY-13, there has been no indication of interest of any sort by the Soviets in the family's move to the new apartment nor was there in the past any show of interest or peculiar behavior on their (Soviet's) part with regard to the old base and the possibility that they might be under photo surveillance.

3. The cover for the work carried on by this base is good since the wife, LIEMPTY-14, who does most of the work has no trouble in justifying her presence at home all of the time. The son, LIEMPTY-27 is a medical student and attends his classes regularly and can justify his hours as study hours. (He continues to be an excellent student and was exempted from examinations at the end of this, his second year in medical school. Actually, he studies most of the night). LIEMPTY-13 requires no cover as he has a full-time job as production manager for a large concern and he usually makes his meetings with GERENDE on his way to or from work.

CLASSIFICATION
SECRET

HQS FILE NUMBER
50-6-32/3

4. The set-up in the old as well as the new base is the following: The equipment - camera, scope and tripod - is mounted in one bedroom behind venetian blinds with one slat removed. This room is locked to keep servants or any chance intruder from entering. The operators do not spend all their time behind the camera, but go to the adjoining bedroom where a table and typewriter are set up and where the daily logs are transcribed, knitting done, or some other activity that does not require full concentration is carried out. The curtains and blinds in this room are kept partially or fully open to allow good visibility and provide a normal appearance. Most of the daily movement of the Soviet personnel is followed from this room and when it is necessary to take pictures of visitors, unknown persons or newly arrived Soviets, the operators go to the other room and use the pre-set equipment.

5. GERENDE's Comment. It seems to me that any careful observation by the Soviets would have revealed the tell-tale position of the venetian blinds in both the old and the new bases. I have no doubt that the Soviets realize they are under photo surveillance. The move by the family from the old to the new building must surely have been noted by the Soviets. Possibly the Soviets think the family is working with the local authorities due to LIEMPTY-13's former association with the Mexican Army.

6. Station Comments. The Station agrees with GERENDE that careful observation by the Soviets would have revealed the missing slat in the venetian blinds and also the fact that these blinds are seldom open. The Station also agrees that the Soviets realize that they are under photo surveillance. This was pointed out recently when a Soviet shielded an LNERGO walk-in when they passed the front gate of the Embassy and made a sign to the walk-in indicating that they could be seen by someone watching with a telescope from the buildings across the street. Also, as Headquarters is aware, there have been numerous comments by residents of Mexico City to the effect that anyone entering the Soviet Embassy is photographed; however, seldom has it been rumored that the "Americans" are doing it, which might indicate most people believe the Mexican Government is doing any such photographing and thereby reaffirming GERENDE's statement that the Soviets possibly believe the Mexican Government runs the base.

7. Given the assumption that the LILYRIC base is blown, the Station at this point does not plan to terminate or revamp the LILYRIC installation. Any operational change by the operators would be spotted by the Soviets and if the Base were closed the Soviets would start looking for a new installation. The LILYRIC Base is performing a useful function and it is believed that it will continue to do so. The Soviets have had opportunities to complain to the Mexican Government about being monitored photographically and have not seen fit to do so and it is believed that they probably will not do so unless there is a radical change in Soviet and/or Mexican policy. The Station has instructed GERENDE to take every precaution during his meetings with LIEMPTY-13 to assure that LIEMPTY-13 does not lead the Soviets to him and thereby jeopardizing other operations, especially LICALLA.

LIMITED

8. The operator of the LIMITED Base, LIEMPTY-6, is, to my knowledge, the oldest hand in the photo surveillance of the Soviet target and possibly the most likely to be "burned". His residence for years at the former Base (now the site of the new LILYRIC building) and his move to the present base could not have gone unnoticed by the Soviets. His cover is that of an insurance salesman, but he actually does not work at the cover and is at a disadvantage in trying to explain his source of income. At times, in years past, he had to afford full-time coverage from the base, which allowed him no time to engage in credible cover activities.

9. GERENDE Comments. I do not believe that LIEMPTY-6/LIMITED is a security risk; however, his present means of working from an open door leading to his balcony probably can be spotted by the Soviets. LIEMPTY-6 is extremely cautious about checking himself for surveillance when making meetings.

50-6-74/3

S COPY

10. Station Comments. The same Station comments made in reference to LILYRIC also apply to LIMITED. Also, the use of LIMITED as the radio alert base for the LIEMBRACE surveillance team has weakened the security of this base. In regard to LIMITED, LICOWL-1 has reported that the Soviets are very interested in LIEMPTY-6/LIMITED and that so many Soviets have talked to him (LICOWL-1) about LIEMPTY-6 that he is convinced that the Soviets have a "fear" and an "obsession" about LIEMPTY-6. LICOWL-1 reported on 3 January 1967 that the Subject of 201-744341 and the Subject of 201-756168 asked him on 19 December 1966 for full details known to him about LIEMPTY-6 and Subject of 201-756168 went so far as to say that he believes that LIEMPTY-6 is "watching the Soviets".

LICALLA

11. When the Soviets raised the height of the wall in their backyard about two years ago, they could have blocked completely the view of this base's working window by making the wall a few inches higher. Since they did not do this, it would seem to indicate that they are not aware that their activities are being monitored from this point. On the other hand, in recent months LIEMPTY-9, the operator, has reported that activities in the back yard have been curtailed more and more. For example, the women no longer congregate there daily, the school children enter their classes by a route not visible to LIEMPTY-9 and the trees and shrubs have not been trimmed in years, making LIEMPTY-9's view poor in most directions. LIEMPTY-9 says that he has never noticed any undue interest in his house or his activities by the Soviets. Access to the operating room can be seen from the window which LIEMPTY-9 believes to be the commo room in the target installation.

12. The cover for this base is that of a normal residence. LIEMPTY-9's cover work is that of a car and insurance salesman in a local automobile agency in the afternoon only. LIEMPTY-9 does work in his cover. LIEMPTY-9's cover for the use of the operating room is that he does accounting work for client firms. The door is kept locked at all times and LIEMPTY-9 never allows the servant to enter, even for cleaning purposes. The equipment is kept locked in a trunk within the room when not in use and all logs and photos are kept in a safe located in LIEMPTY-9's bedroom closet.

13. GERENDE Comment. I believe the Soviets are aware of the photo surveillance being carried out by this base due to the position of the window and the curtains during the hours when LIEMPTY-9 is operating.

14. Station Comment. The Station does not believe that this photo base is known to the Soviets. This belief is based on the fact that the LICALLA coverage is excellent and there has been no indication that the Soviets act for the benefit of observers while they are in the backyard. It is interesting to note that the Soviets made no effort to "protect" the LNERGO walk-in mentioned in paragraph 6 above during a visit to the backyard and LICALLA did obtain photographs of the walk-in. The school children no longer pass through the backyard because the location of the school was recently changed and the children now go by another route. The Station has instructed GERENDE to take every precaution in order to protect the security of the LICALLA base.

15. As a general comment pertaining to the security of the bases involved in Project LIEMPTY, it should be noted that the Soviets are aware of the fact that LIMOUSINE is the owner/builder of the new LILYRIC building. LIMOUSINE is also the owner of the LIMESA complex, through a holding company.

16. The Station realizes that most of the details reported in this dispatch are known to Headquarters; however, the Station wanted to make the opinions of the Principal Agent and the Station a matter of record in a consolidated form.

SUBJECT: LIEMPTY/Progress Report
1 August through 31 October 1966

ACTION REQUIRED - REFERENCES

Action Required: For Your Information

References : A. HMMA-29775, dated 15 August 1966

B. MEXICO CITY-8526, dated 12 September 1966

C. HMMA-30203, dated 3 October 1966

D. MEXICO CITY-8807, dated 10 October 1966

E. HMMA-30403, dated 26 October 1966

1. SUMMARY OF PROJECT ACTIVITIES AND REPORTING

A. The last regularly scheduled LIEMPTY Progress Report, covering the period 1 May through 31 July 1966, was forwarded to Headquarters as Reference A. Noteworthy interim Project activities were reported in References B. through D. while Mexico City Station's Request for the Renewal of Project LIEMPTY was forwarded with Reference E.

B. Throughout the period under review, Project LIEMPTY continued to collect operational information on the LIMERICK installation, the LIMERICK personnel and their visitors. This activity was in consonance with various sections of the RMD as approved for Station Mexico City. The above cited program was accomplished through the daily photographic and fixed surveillance coverage provided by the LIMITED, LILYRIC and LICALLA basehouses. In addition, the LIEMPTY Project provided effective support to other Station and Headquarters (i.e. AMROD and AMLETTER) activities through the exploitation of the LIENTRAP mobile/photographic unit and the LIEMPTY principal agent, Raymond H. GERENDE.

2. AGENT COMMUNICATIONS, CONTACT AND PERFORMANCE

During the period under review, Raymond H. GERENDE was seen 2[illegible] times in regular operational meetings by the LIEMPTY Project case officer. No basic changes other than the regular preplanned variations in meeting sites and times were made in the Project communication channels. The up-dated and revised emergency communication system for contact with GERENDE (see HMMA-28333, dated 21 February 1966) remains in effect. All regular contact with the active LIEMPTY agents (LIEMPTYs -4, -6, -9, -10, -11, -13, -14, and -26) was maintained via Raymond H. GERENDE. GERENDE met each of the above cited agents, with the exception of LIEMPTYs -14, and -26, two times each week in clandestine meetings. The operational performance of all active LIEMPTY agents, including GERENDE was most satisfactory. The performance of LIEMPTY-4 in assisting the local WUACRE section with its photographic processing was outstanding.

3. ACCOMPLISHMENTS, PROGRESS AND ACHIEVEMENTS

A. SUMMARY - Throughout the reporting period, the LIEMPTY Project continued to provide the vast majority of the operational photographs and surveillance reports used by the Station in its planning and operations against the LIMERICK installation and personnel. The LIEMPTY coverage has proved to be a particularly reliable tool for: following the daily comings and goings of the LIMERICK personnel; providing leads to and confirming the identifications of new LIMERICK staffers and also visitors to the LIMERICK installation; providing leads to the relative rank and the specific intelligence service affiliation of various LIMERICK officers; keeping the Station abreast of construction and physical changes in the LIMERICK physical plant; and providing a reliable check on various Station and LNERGO access agents. During the quarter under review, Project LIEMPTY basehouses provided 5,003 frames of operational photographs (169 rolls) as well as 1,290 pages of fixed surveillance reports covering the movements of the LIMERICK staffers.

B. LIENTRAP - Throughout this period, the LIENTRAP mobile unit was again targetted heavily against leaders and meeting sites of the local Communist parties as well as other targets of opportunity, particularly Haitian, Guatemalan and Honduran Communist exile leaders now resident in Mexico. LIENTRAP provided up-dated and/or new identification photographs which are of value to both the JMTIGER and the Station recruitment/penetration program. This apparat provided a total of 237 operational photographs, while the personnel attached to this LIENTRAP unit regularly serviced 23 postal accommodation addresses used by Mexico City Station, Headquarters and other field Stations.

C. LIMITED - During this quarter, the LIMITED basehouse provided 724 frames of operational film as well as daily physical surveillance reports covering the arrival and departure of all LIMERICK personnel and visitors at the front gate of that installation during the evening and week-end hours. In addition, LIEMPTY-6, the LIMITED basehousekeeper, working from his excellent visual vantage point, dispatched the LIEMBRACE surveillance team via radio on several LIEMBRACE surveillance operations.

D. LILYRIC - During this reporting period, the LILYRIC basehouse provided 2,859 frames of operational photographs covering the same area and targets noted in the LIMITED section above, but during the morning and afternoon hours. In October the LILYRIC personnel (LIEMPTYs -13, -14, -26 and -27) successfully completed the move into the new LIMOUSINE building. While some photographic coverage was lost during the move, LILYRIC coverage at present is back to normal (see also paragraph 4 of Reference A.).

E. LICALLA - Throughout this period, the LICALLA basehouse provided both physical observation and photographic coverage of the garden and patio of the LIMERICK installation, an area where many of the officers, their families and visitors congregate. In providing this coverage LICALLA produced 1,183 individual photographs (of which 80 were color prints used in the Station's "mug book") as well as regular daily reports on the salient activities in this area.

CONTINUATION OF DISPATCH	CLASSIFICATION	DISPATCH SYMBOL AND NUMBER
	SECRET	HMMA- 30637

F. LIEMPTY-4 - With the exception of the color prints, all of the above cited operational film provided by the basehouses and the LIENTRAP unit was developed and printed by LIEMPTY-4 at the LIEMPTY photographic laboratory. In order to alleviate some of the pressure caused by recent adjustments in the Station's WOACRE section, LIEMPTY-4 also processed approximately 200 photographic enlargements which normally would not fall within the scope of this project.

G. Raymond H. GERENDE - Throughout the reporting period, GERENDE served as the full time principal agent for Project LIEMPTY, operating as the cut-out to the above cited basehouses and bearing the first echelon agent handling responsibility for all active personnel. In addition, GERENDE via hard leg work and his translating ability, made numerous and essential contributions to the AMROD deception operation.

4. SECURITY AND PLANS

A. There have been no known incidents during the reporting period which adversely affected the security of Project LIEMPTY or the personnel therein. Station plans to afford LIEMPTYs-10 and -11 SGSWIRL examinations during the ensuing period. All other active LIEMPTY agents have been SGSWIRLed during the past year.

B. No significant operational or administrative changes are planned for the ensuing period since this Project is producing in a satisfactory and regular manner.

MEMORANDUM FOR: Chief, WH/1

ATTENTION : Jane Zerance

SUBJECT : Identification of License Tag 1-105538

1. Identification of the above captioned license tag was made by JMWAVE security. They have furnished the following information.

2. The license tag is registered to Lewis Wolshin, born 1908; is residing at 684 SE 9th Avenue, Hialeah, Florida. The tag was issued on a 1964 Ford. Wolshin's wife is Olga A. Wolshin; he has been employed as Pool Manager or Assistant Park Manager by Dade County, Florida, since 1953. A credit check was conducted in Wolshin's name, and a October 1964 report indicated biographic data as listed above. He had been known to the credit bureau since 1951, had satisfactory credit, and no derogatory information was available. Police checks in Miami, Florida, indicated the following arrest record:

1934	New York City	Felonious assault charge reduced to simple assault
1941	Savannah, Ga.	Investigation of auto larceny, released to New York
1941	New York City	Violation of probation
1947	Las Vegas, Nev.	Peddling without license
1951	New York City	Petty Larceny

B. MEXICO CITY 7533, dated 6 June 1966

C. DIRECTOR 12138, dated 14 June 1966

D. DIRECTOR 19940, dated 14 July 1966

1. SUMMARY OF PROJECT OBJECTIVES, REPORTING and ACTIVITIES.

The last regularly scheduled LIEMPTY Progress Report, covering the period 1 February through 30 April 1966, was forwarded to Headquarters as reference A. Salient interim project activities and levied requirements were contained in references B. through D. Throughout the period under review, Project LIEMPTY continued to collect operational information on the LIMERICK installation, the LIMERICK personnel and their visitors, as well as various targets of opportunity. This activity was in consonance with and represented partial fulfillment of various sections of the RMD as approved for Station Mexico City. The above cited program was achieved through the daily photographic and fixed surveillance coverage provided by the LIMITED, LILYRIC and LICALLA basehouses, as well as the LIENTRAP mobil photo unit. In addition the LIEMPTY Project provided essential support to various other Headquarters (i.e. AMROD and AECUTLET) activities and other Station operations through the regular exploitation of the LIEMPTY principal agent, Raymond H. GERENDE.

2. AGENT COMMUNICATION, CONTACT AND PERFORMANCE.

During the period under review, GERENDE was seen 25 times in regular operational meetings by the LIEMPTY Project case officer. No basic departures, other than the regular pre-planned changes in meeting sites and time, were made in the regular and alternate communication channels. The up-dated and revised emergency communication system for contact with GERENDE as forwarded to Headquarters in HMMA-28333, dated 21 February 1966 remains in effect. During the period under review, the emergency contact arrangements pertinent to LIEMPTYs -4, -6, -9, -13 and -14 were reviewed by GERENDE and the respective agents. The operational performance of all active LIEMPTY agents was highly satisfactory. As per usual, GERENDE turned in the solid operational performance which the Station has come to expect from this long-time contract agent.

3. ACCOMPLISHMENTS, PROGRESS AND ACHIEVEMENTS.

A. Summary - Throughout the reporting period, the LIEMPTY Project continued to provide the vast majority of the operational photographs and physical surveillance reports used by the Station in its operational planning against the LIMERICK installation and personnel. The LIEMPTY coverage has proved to be a particularly reliable tool for: following the daily movements of LIMERICK personnel; providing leads to and confirming the identities of LIMERICK staffers and their visitors; providing leads to the relative rank and the specific intelligence service connection of various LIMERICK officers; keeping the Station abreast of construction changes in the LIMERICK physical plant; and providing a reliable check on various Station and LNERGO access agents. During the quarter under review, Project LIEMPTY basehouses provided a record 5,722 frames of operational photographs (184 reels) as well as approximately 1,200 pages of fixed surveillance reports covering the movements of the LIMERICK staffers.

B. LIENTRAP - Throughout this period, the LIENTRAP mobile unit was targetted against leaders and meeting sites of the local Communist parties as well as other targets of opportunity, particularly exile Communist leaders now resident in Mexico. LIENTRAP provided up-dated identification photographs of Communist officers which are of value to both the JMTIGER program and the Station's recruitment/penetration program. This apparat provided 282 operational photographs, while the personnel attached to the LIENTRAP unit also regularly serviced 21 postal accommodation addresses used by Mexico City Station, Headquarters and other Field Stations. In July, the LIENTRAP unit was repainted and completely overhauled.

C. LIMITED - During this quarter, the LIMITED basehouse provided 1,215 frames (47 reels) of operational film as well as daily physical surveillance reports covering the arrival and departure of all LIMERICK personnel, at the front gate of that installation during the evening and weekend hours. In addition, LIEMPTY-6, the LIMITED basehouse keeper, served as the radio dispatcher for numerous LIEMBRACE surveillance operations.

D. LILYRIC - During this period, the LILYRIC basehouse provided a record 3,301 frames (99 reels) of operational photographs covering the same area and targets as noted in the LIMITED section above, but during the morning and afternoon hours. As noted in paragraph 5 of reference A., Station completed the rearrangement of the LIMITED-LILYRIC working hours, based on the recent recruitment and clearance of LIEMPTYs -26 and -27. The LILYRIC basehouse now provides photographic and physical surveillance coverage from 0800 hours through 1700 hours, while LIMITED provides coverage from 1700 hours to 1930 hours on weekdays. LIMITED also provides morning coverage on Saturdays and Sundays.

CONTINUATION OF DISPATCH	CLASSIFICATION	DISPATCH SYMBOL AND NUMBER
	SECRET	HMMA-29775

E. LICALLA - Throughout this period, the LICALLA basehouse provided coverage of the garden and patio area of the LIMERICK installation, an area where many of the officers, their families and visitors congregate. In providing this coverage, LICALLA produced 1,206 individual photographs as well as regular daily reports on the salient activities in this area.

F. MISCELLANEOUS - All of the above cited operational film provided by the basehouses and the LIENTRAP unit was developed and printed by LIEMPTY-4 at the LIEMPTY Photo Lab. During this period, LIEMPTY-19 provided translations of numerous articles and documents in support of other Station activities not directly related to Project LIEMPTY.

G. Raymond H. GERENDE - Throughout the reporting period, GERENDE served as the full-time LIEMPTY P/A, operating as the cut-out to the above-cited basehouses and bearing the agent handling responsibility for the related personnel, as well as handling the operators of the LIENTRAP unit (LIEMPTYs -10 and 11), LIEMPTY-4 and LIEMPTY-19. GERENDE's overall operational assignment involved at least 12 clandestine meetings per week, in addition to his meetings with the LIEMPTY case officer. It should be noted that GERENDE also made numerous and essential contributions to the sensitive AMROD deception operation.

4. SECURITY AND PLANS.

A. There had been no known incidents during the reporting period which adversely affected the security of Project LIEMPTY or the personnel attached thereto.

B. In order to alleviate a portion of the pressure caused by the recent major adjustment in the Station's WOACRE section, the LIEMPTY photographic base, during the ensuing period, will process various Station photographic requirements which normally do not fall within the realm of this Project.

C. It is anticipated that the LILYRIC personnel (LIEMPTYs -13, -14, -26 and -27) will move into the new LIMOUSINE building during the forthcoming period. Little, if any, coverage will be lost during this move. Other than noted above, no significant operational or administrative changes are planned for the ensuing period.

Action Required: For Your Information.

1. SUMMARY OF PROJECT REPORTING AND ACTIVITY

The last regularly scheduled LIEMPTY Progress Report, covering the period 1 November 1965 through 31 January 1966 was forwarded to Headquarters as reference A. Salient interim operational and security activities and developments were included in references B. through F. Throughout the period under review, Project LIEMPTY continued to collect operational information on the LIMERICK installation, the LIMERICK personnel and their visitors, as well as various targets of opportunity. This activity was in consonance with, and represented partial fulfillment of various sections of the RMD as approved for Mexico City Station. The above-cited progress was achieved through the daily photographic and fixed surveillance coverage provided by the LIMITED, LILYRIC, and LICALLA basehouses as well as the LIEMTRAP mobile photographic unit. In addition, the LIEMPTY project provided essential support to various other Headquarters (particularly the AMROD operation) and Station activities

through the exploitation of the LIEMPTY Principal Agent, Raymond H. GERENDE.

2. AGENT COMMUNICATIONS AND CONTACT

During the period under review, GERENDE was seen 33 times in regular operational meetings by the undersigned, and on 2 occasions by the local KURIOT representative, Hugh T. FRANCOTTE. The meetings between FRANCOTTE and GERENDE were attended by the LIEMPTY Project Case Officer and dealt with the installation of a new PAKO print dryer in the LIEMPTY photo laboratory. In addition, GERENDE met four times, for extended periods, with LCFLUTTER examiner Daniel R. HOSKIER when he served as the interpreter for the LCFLUTTER examinations afforded LIEMPTYs, -6, -9, -14, -13, -26, and -27. No basic departures, other than the regular preplanned changes in meeting sites and times, were made in the regular and alternate communications channels to GERENDE. It should be noted that an up-dated and revised emergency communication system for contact with GERENDE was forwarded to Headquarters as HMMA-28333, dated 21 February 1966. This plan includes both verbal and physical bona fides and supersedes previous arrangements.

3. ACCOMPLISHMENTS, PROGRESS, ACHIEVEMENTS

a) SUMMARY - Throughout the reporting period, Project LIEMPTY continued to provide the vast majority of the operational photographs and physical surveillance reports used in Mexico City Station's operations against the LIMERICK installation and personnel. The LIEMPTY coverage has proved to be a most reliable tool for: following the daily movements of LIMERICK personnel; providing leads to, and confirming the identities of LIMERICK staffers and their visitors; verifying or providing leads to the relative rank and specific intelligence service connection of various LIMERICK officers; keeping the Station abreast of construction changes in the LIMERICK physical plant; providing a check on reports of Station and ODENVY access agents. During the three month period under review, Project LIEMPTY's basehouses provided 3,967 frames of operational photographs (146 rolls) as well as 650 pages of fixed surveillance reports covering this target.

b) LIENTRAP - Throughout this period, the LIENTRAP mobile unit was targetted against leaders and meeting-sites of the local Communist parties as well as other targets of opportunity, specifically the leaders of the strike group at the National University. LIENTRAP provided up-to-date photographs of numerous Communist officials, which are of value to both the JMTIGER program and the Station's recruitment/penetration program. This unit provided 330 operational photographs, while the personnel attached to this unit also regularly serviced 21 postal accommodation addresses used by Mexico City Station, Headquarters, and other field Stations.

c) LIMITED - During this period, the LIMITED basehouse provided 1,147 frames (45 rolls) of operational film and daily observation reports covering the arrival and departure of LIMERICK personnel and visitors at the front gate of that installation during the afternoon and rush-hours. In addition, LIEMPTY-6, the LIMITED basehouse keeper, served as the radio dispatcher for several LIEMBRACE surveillance operations.

d) LILYRIC - During this period, the LILYRIC basehouse provided 1,660 frames (56 rolls) of operational photographs, covering the same area and targets noted in the LIMITED section, but during the morning and early afternoon hours. In addition, the LILYRIC personnel prepared a detailed report on the daily comings and goings of each LIMERICK staffer and contributed the majority of this Project's physical surveillance reports.

e) LICALLA - Throughout this period, the LICALLA basehouse provided photographic coverage of the garden and patio area of the LIMERICK installation, an area where many of the officers, their families and visitors congregate. In providing this coverage, LICALLA produced 1160 individual photographs as well as regular, daily reports on the salient activities in this area.

f) LIEMPTY-4 - All the above cited operational film (160 rolls, 4,297 frames) provided by the basehouses and the LIENTRAP unit was developed and printed by LIEMPTY-4 at the LIEMPTY photo lab. As noted in paragraph 2 above, a new semi-automatic PAKO print dryer was recently installed in the photo laboratory. With the installation of this dryer, the Station's modernization of the LIEMPTY photo laboratory has been completed. (See paragraph 5 of HMMA-27653, dated 17 November for the details of this program).

g. Raymond H. GERENDE - During the reporting period, GERENDE served as the full-time LIEMPTY P/A, operating as the cutout to the LIMITED, LILYRIC, and LICALLA basehouses and bearing the agent handling responsibility for the related personnel as well as handling the operators of the LIENTRAP mobile unit, LIEMPTY-4, and LIEMPTY-19, a Station asset (translator) carried under Project LIFEAT. Gerende's overall assignment involved at least twelve clandestine agent meetings each week, in addition to his meetings with the LIEMPTY Project case officer. It should be noted that GERENDE also made numerous and essential contributions to the sensitive AMROD deception operation.

4. SECURITY

There have been no known incidents which adversely affected the security of Project LIEMPTY. During the period under review, LIEMPTYs -6, -9, -13, -14, -26, and -27 were afforded LCFLUTTER examinations, all with satisfactory results.

5. CHANGES AND PLANNING

As noted in paragraph 5 of reference A, Station is in the process of increasing the hours of both the photographic and physical surveillance coverage provided by the LILYRIC operations during the week-days. At present, the LILYRIC personnel are providing coverage from early morning to late afternoon, while LIMITED is providing week-end coverage. After the LILYRICs have moved into the new LIMOUSINE building, it is anticipated that they will be able to provide complete dawn to dusk coverage, the Station's ultimate goal.

for/Willard C. CURTIS

to be a memorandum from the [illegible] Office of Naval Construction to the Mexican Secretary of the [illegible] concerning the departure from Mexico City of the Chief of Naval Construction for the port of Mazatlan on official orders. The Station is attempting to determine just how the Soviets obtained this memorandum.

During April 1965, the American Embassy Protection and Welfare officer advised the Station that he had received a call from the States from a Mr. James Green, Sr. concerning his son, James C. Green, Jr. and a friend of his son's, Grant W. Crayne. He said that according to Mr. Green, his son and Crayne had called Mr. Green and told him that they were going to the Soviet Union. The two men later visited the U. S. Embassy and were interviewed by a Station officer. The following day on 12 April, Subject reported that two Americans (who fitted the descriptions of Green and Crayne) had visited the Soviet Embassy that same day. This fact was subsequently confirmed by LIMITED. LIEMBRACE surveillance was placed on the two men and this eventually led to their arrest and deportation from Mexico.

Also during the reporting period, Subject reported an incident which the Station felt could be used to discredit the Soviet Embassy in the eyes of the local population. The story, which is factual, was placed in the newspaper La Prensa by LILISP-E during July 1965. An English language translation of the article follows :

La Prensa, 19 July 1965 (Editorial page)

"The Men 'Made in Moscow'"

. . "The men made in Moscow lack sensibilities, are forbidden, because of their Marxist beliefs, to aid the suffering or to help those in need. On 3 July of this year, in front of the Russian Embassy, a Mexican was hurt by a large lamp which had been placed above the gate to the Embassy and which fell on him due to the strong wind. The wounded man, bleeding profusely, begged the Russian guards who were but a few feet away from a telephone to call the Red Cross. The guard answered that the Embassy was not responsible for the force of the wind and that the man should move on his way and not bother him. At this point, some local workers and students began to gather about the wounded man and several of them asked that the Russian guard telephone the Red Cross. The Soviet guard again refused this request and also refused the students permission to use the guard-house phone themselves. Meanwhile, the bleeding man had lost consciousness and the students demonstrated their feelings toward this monstrous lack of charity by shouting (names) at the Russians. The Russian answered (in Spanish) that the accident was of no interest to the Embassy and besides no one there spoke Spanish. A good Communist has no reason to show pity in the face of misfortune. deformers that they are, lacking sensibilities, they cannot find the goodness to pity anyone. . . . ."

8. Concerning the possible security questions raised by the Station in HMMA-27692 of 12 November 1965, the Station would like to comment that no new doubts concerning LICOOL-1 have arisen since this dispatch was written. We plan to give LICOOL-1 a LCFLUTTER test during March 1966.

2. AGENT CONTACT AND COMMUNICATIONS

During the reporting period, GERENDE was seen 34 times in regular operational meetings by the undersigned and on 5 occasions by the Headquarters' AMROD operations officer, Thomas G. URQUHART. All meetings were regularly rotated among eight selected sites. No basic departures were made from the standard meeting modus operandi; however, new contact arrangements, for meetings under emergency conditions, are being worked out with GERENDE.

3. ACCOMPLISHMENTS, PROGRESS, ACHIEVEMENTS

a) SUMMARY - Throughout the reporting period, Project LIEMPTY continued to provide the vast majority of the operational photographs and physical surveillance reports used in Mexico City Station's operations targetted against the LIMERICK installation and personnel. This activity is in direct support of, and in consonance with, the current RMD as approved for the Station. The LIEMPTY coverage has proved to be a most reliable tool for: following the daily movements of LIMERICK personnel; providing leads to, and confirming the identities of LIMERICK staffers and their visitors; verifying the relative rank and specific intelligence service connection of various LIMERICK officers; keeping the Station abreast of construction changes of the LIMERICK physical plant; and verifying reports of Station access agents. During the period under review, the LIEMPTY basehouses produced 4,212 photographs (149 rolls) as well as 640 pages of fixed surveillance reports covering this target.

b) LIENTRAP - Throughout this period, the LIENTRAP mobile unit was targetted against leaders and meeting-sites of the local communist parties as well as other targets of opportunity. Specifically, LIENTRAP provided up-to-date photographs of numerous communist officials, which are of value to both the JMTIGER program and the Station's penetration/recruitment program. The LIENTRAP unit and personnel also regularly serviced 21 postal accommodation addresses used by Mexico City Station, Headquarters, and other field Stations. The LIENTRAP unit provided a total of 404 operational photographs.

c) LIMITED - During the reporting period, the LIMITED basehouse provided 1,412 frames (54 rolls) of operational film and daily observation reports covering the arrival and departure of LIMERICK personnel and visitors at the front gate of the installation during the afternoon and early evening hours. In addition, LIEMPTY-6, the LIMITED basehouse keeper, served as the radio dispatcher on several LIEMBRACE surveillance operations. The value and need of the LIMITED fixed-radio dispatching base has been explained in detail in previous LIEMPTY Progress Reports.

d) LILYRIC - During this period, the LILYRIC basehouse produced 1,542 frames (54 rolls) of operational photographs, covering the same area and targets noted in the LIMITED section, but during the morning and early afternoon hours. In addition, LILYRIC prepared a weekly report on the comings and goings of each LIMERICK staffer and contributed the majority of this project's physical surveillance reports.

e) LICALLA - Throughout this period, the LICALLA basehouse provided photographic coverage of the garden and patio area of the LIMERICK installation, an area where many of the officers, their families, and visitors congregate. In covering this area, LICALLA produced 1,258 individual photographs as well as regular reports on the activities of various officials of special interest to the Station.

f) LIEMPTY-4 - All the above noted operational film (155 rolls, 4,616 frames) provided by the basehouses and the LIENTRAP unit was developed and printed by LIEMPTY-4 at the LIEMPTY photo processing base. As noted in reference A., much of the LIEMPTY photographic lab equipment was scheduled to be replaced during this period. With the advice of the local KODAK representative, both the LIEMPTY lab's film washing system and strip printer were replaced. In addition, a new semi-automatic drum-type print dryer was ordered by the Station for installation in this base during February 1966.

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NUMBER HMMA-28322

g) Raymond H. GERENDE - During the reporting period, GERENDE served as the full-time LIEMPTY P/A, operating as the cutout to the LIMITED, LILYRIC, and LICALLA basehouses and bearing the agent handling responsibility for the operators of the LIEMTRAP mobile unit as well as LIEMPTY-4 and LIEMPTY-19, a Station asset (translator) carried under Project LIFEAT. This overall assignment involved at least twelve clandestine agent meetings per week (in addition the 34 meetings held with the Project Case Officer). GERENDE also made numerous and essential contributions to the sensitive AMROD operation. It should be noted that GERENDE's alertness in spotting the PBRUMEN surveillance of one of the AMROD accommodation addresses, undoubtedly saved this sensitive deception operation from exposure by the opposition.

4. SECURITY AND PROBLEMS

Other than the attempted PBRUMEN surveillance of the AMROD accommodation address noted above (which was neutralized by GERENDE's alertness), there have been no known incidents which adversely affected the security of the LIEMPTY project or the related agent personnel. While several minor administrative problems arose, all such matters were resolved locally.

5. CHANGES AND PLANNING

a) One major operational change is planned for the ensuing period. Upon completion of the new LIMOUSINE structure (see HMMA-25352, dated 10 February 1965), the Station will move the present LILYRIC basehouse personnel (LIEMPTYs 13, 14, 26 and 27) into that edifice rather than the LIMITED (LIEMPTYs 6 and 7) personnel as originally planned. Ancillary modifications are: 1) To increase the hours of both the photographic and physical surveillance coverage provided by the LILYRIC operators (dawn to dusk) during the week days and 2) have LIMITED provide photographic and physical surveillance coverage on week-ends only, while remaining on daily stand-by for radio-dispatching assignments. These changes were dictated by the following considerations:

1) The new LIMOUSINE building will offer a much better vantage point for both photographic and physical surveillance than does the present complex which houses the LILYRIC and LIMITED bases. Therefore, the Station feels that the personnel occupying this new base should be those possessing the highest technical skills and also those able to provide the most thorough and complete coverage. Since the LIMITED base now has only one trained operator while the LILYRIC basehouse has three, the LILYRIC group is indicated.

2) Because it appears that the coverage of the LIMERICK installation will be a long-range and continuing requirement, the Station desires to staff the new base with personnel of long-range potential. Since LIEMPTY-6 is now almost 60 years old, it is obvious that he does not possess this potential; however, the LILYRIC agent complex happily combines experienced personnel with youthful agents.

3) Finally, the social and financial status of the LILYRIC personnel is much more compatible and consistent with the environment of the new building than is that of the LIMITED family.

While it is anticipated that these modifications and changes will initially cause various administrative and operational problems, it is believed that all such adjustments can be handled locally.

b) The requisite copies of the PRQ Part II pertinent to LIEMPTY-26 were forwarded to Headquarters with HMMA-27593, dated 8 November 1965 along with a request for a full Operational Approval for Subject for use as a cut-out to the LILYRIC basehouse. LIEMPTY-27 was granted a Provisional Operational Approval on 26 January 1966 for use as a part-time basehouse keeper/operator at the LILYRIC installation.

14-00000

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NUMBER HMMA-28322

c) Other than noted above, there have been no major administrative, operational, or personnel changes during the reporting period.

7. ACCOMPLISHMENTS, [illegible]

Throughout the reporting period, Project LIEMPTY continued to provide the majority of the operational photographs and surveillance reports used in Mexico City Station's operations against the LIMERICK installation and personnel. This activity is in direct support of, and in accordance with, the present RMD as approved for Mexico City Station. The LIEMPTY coverage has proved to be a most reliable tool for: following the daily movements of the LIMERICK personnel; providing leads to, and confirming the identities of LIMERICK staffers and their visitors; and verifying the relative rank and position as well as the specific intelligence service connection of various LIMERICK officers. During the period under review, the LIEMPTY basehouses produced 146 rolls ([illegible],666 individual frames and photographs) of operational pictures as well as approximately 675 pages of fixed surveillance reports dealing with this target. In addition, the LIEMTRAP mobile photo unit provided 441 photographs of other targets of interest to the Station. Specific examples of the contributions made by each component of Project LIEMPTY to the fulfillment of the RMD follow:

a) LIEMTRAP - Throughout this period, the LIEMTRAP mobile unit was targeted against leaders and safe-sites of the local communist parties and visiting or exile communists. Specifically, the LIEMTRAP unit verified the location of a PCM safehouse, provided up-to-date photographs of numerous individuals of interest to the Station Case Officer directing the communist party recruitment program, and, in addition, regularly serviced nineteen postal accommodation addresses used by the Station and Headquarters.

b) LIMITED - During the reporting period, LIMITED provided 1,[illegible] frames (66 rolls) of operational film and daily surveillance reports covering the arrival and departure of LIMERICK personnel and visitors at the front gate of the LIMERICK installation during the afternoon and evening hours. In addition, LIEMPTY-6, the LIMITED basehouse keeper, served as the fixed-radio dispatcher on four [illegible] surveillance operations. The crucial need for the LIMITED fixed-radio dispatching base has been amply explained in previous LIEMPTY Progress Reports.

c) LILYRIC - During the reporting period, the LILYRIC basehouse produced 1,766 frames (50 rolls) of operational film, covering the same targets noted above in the LIMITED section, but during the morning and early afternoon hours. In addition, LILYRIC prepared a weekly report on the comings and goings of each LIMERICK staffer and contributed the large majority of this project's physical surveillance reports. In addition, LILYRIC provided special reports on: all commercial deliveries made to the LIMERICK installation; the number, description, and apparent assignment of each official LIMERICK vehicle; and reports on construction activity within the installation.

d) LICALLA - During this period, the LICALLA basehouse provided photographic coverage of the garden and patio area of the LIMERICK installation, an area where many of the officers, their families, and visitors congregate. In this effort, LICALLA produced [illegible] individual photographs as well as regular reports on the activities of various LIMERICK officers of special interest to Station Mexico City. In addition, LICALLA is at present preparing a special series of photographs in response to a KUTUBE/D request.

e) LIEMPTY-4 - Throughout this period, all operational film (166 rolls, 4,0[illegible] frames) provided by the three fixed basehouses as well as the LIEMTRAP mobile unit was developed and printed by LIEMPTY-4. Given the condition of the processing equipment, which is now being replaced, LIEMPTY-4's finished product was extremely satisfactory.

f) Raymond H. GERENDE - During the reporting period, with the two-week exception noted in paragraph 2, GERENDE served as the full-time cutout to the LIMITED, LILYRIC, and LICALLA basehouses and had the agent handling responsibility for the operators of the LIEMTRAP mobile unit as well as LIEMPTY-4. This assignment involved at least twelve clandestine agent meetings per week as well as the corollary administrative/financial responsibility. GERENDE also made numerous and essential contributions to the sensitive [illegible] operation.

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NUMBER HMMA-27[illegible]

4. SECURITY AND PROBLEMS.

There have been no known incidents during the period under review, which adversely affected the security of the LIEMPTY project or the related agent personnel. While various minor administrative questions arose, the Station was able to resolve all such matters locally.

5. PLANS AND CHANGES.

a) In response to the Station's request, DIR-50873, dated 16 October 1965 granted a POA to LIEMPTY-26 for use as a cutout to the LILYRIC basehouse. LIEMPTY-26 was met by GARENDE and was used operationally during the absence of the regular LILYRIC cutout, LIEMPTY-13. The PRQ Part II and full OA request pertinent to LIEMPTY-26 will be submitted prior to 15 November 1965.

b) As in the past period, Station plans to continue to emphasize the quality of the LIEMPTY photographic product. To this end, much of the photographic lab equipment is being replaced and discussions are being held with the local KURIOT representative, Hugh T. FRANCOTTE, concerning the replacement of the basehouse cameras.

c) Other than noted above, there have been no major administrative, operational, or personnel changes during the reporting period.

Chief of Station, Mexico City

SUBJECT
Project LIEMPTY/Progress Report 1 May through 31 July 1965

ACTION REQUIRED - REFERENCES
References: A. HMMA-26027, 5 May 1965
B. HMMA-26243, 4 June 1965
C. MEXI-4167, 16 July 1965
D. MEXI-4248, 26 July 1965

1. REPORTING AND BACKGROUND.

The last regularly scheduled LIEMPTY progress report covering the period 1 February through 30 April 1965 was forwarded as reference A. Significant interim developments and activities were included in references B through D. Throughout the period under review, Project LIEMPTY continued to collect operational information on the LIMERICK installation, the LIMERICK personnel and their visitors, as well as various targets of opportunity, through the daily photographic and fixed surveillance coverage provided by the LIMITED, LILYRIC, and LICALLA photographic basehouses and the frequent use of the LIEMTRAP mobile photo unit. In addition, this project provided other essential operational support to various Station and Headquarters activities through the utilization of the services of long-time contract agent Raymond H. GERENDE.

2. AGENT CONTACT AND COMMUNICATIONS.

a) On 22 May 1965, the Principal Agent for Project LIEMPTY, Raymond H. GERENDE, departed Mexico for a two month period of well-deserved vacation. As per pre-planned arrangements, GERENDE's operational, administrative, and agent-handling tasks were turned over as follows:

To Oliver G. SCANTLING (P): Agent handling and funding of the LIMITED, LILYRIC, and LICALLA basehouses and the LIEMTRAP mobile unit;

To the LIEMPTY Case Officer - agent handling and funding of the LIEMPTY photo-lab/dark room; and the local AMROD responsibility.

SCANTLING was chosen for this turn-over and the accompanying workload since he had previously handled all but one of the agents involved and because he was familiar with the objectives and overall modus operandi of the LIEMPTY project. The above noted operational assignments will again be levied on GERENDE upon his return to Mexico in early August 1965.

b) Prior to [illegible]'s departure, he was seen by the undersigned [illegible] times in regular, operational meetings. After that date, Oliver G. SCANTLING was seen on twenty-five occasions and LIEMPTY-[illegible] (the photo-lab/safehouse keeper) nineteen times by the undersigned in connection with the operational [illegible] meeting requirements of this project. SCANTLING in turn met with each base-house keeper and with the LIENTRAP operator twice weekly. All meeting times and sites were rotated regularly during the period under review, and no basic departures (other than noted above) were made from the standard modus operandi of the LIEMPTY project.

3. ACCOMPLISHMENTS, PROGRESS, ACHIEVEMENTS.

Throughout the reporting period, Project LIEMPTY continued to provide the majority of the operational photographs and surveillance reports used in Mexico City Station's operations against the LIMERICK installation and personnel. This coverage has proved to be a most reliable and viable tool for: following the daily movements of the LIMERICK personnel; providing and confirming the identities of LIMERICK staffers and their visitors; and verifying the relative rank and position as well as the specific intelligence service connection of various LIMERICK officers. During the period under review, Project LIEMPTY produced 160 rolls (3,833 frames) of operational photographs as well as approximately 700 pages of fixed, physical surveillance reports dealing with this target. In addition, LIEMPTY produced 203 operational photographs of other targets of interest to Station Mexico City. Specific examples of the contributions made by each component of Project LIEMPTY to the fulfillment of the relevant portions of the Station's Related Missions Directive, follow:

a) LIENTRAP - Throughout this period, the LIENTRAP mobile photo unit was targeted against leaders and installations of the Partido Comunista Mexicano (PCM), visiting communist leaders, and other targets of special operational interest. Specifically, the LIENTRAP unit verified the current addresses and provided up-to-date photographs of two prominent Nicaraguan communists exiled in Mexico; photographic coverage of an Embassy of interest to KUTUBE/D for use in operational planning; and provided photos of the individuals and an installation linked with the local Spanish Republic Royalists. LIENTRAP produced a total of 203 operational photographs and regularly serviced seventeen postal accommodation addresses used by the Station and Headquarters.

b) LIMITED - During the period covered by this report, LIMITED produced fifty-seven rolls (1,672 frames) of operational photographs and regular surveillance reports covering the daily arrival and departure of LIMERICK personnel and their visitors at the front gate of the installation in question, during the afternoon and evening hours. In addition, LIEMPTY-6, the LIMITED basehouse keeper served as the fixed radio-dispatcher for three LIEMBRACE surveillance operations targeted against LIMERICK IS officers as well as serving as the spotter and dispatcher for five LIEMBRACE surveillances directed against PBPRIME nationals who visited the LIMERICK installation (see MEXI-4247, MEXI-4248, and MEXI-4250, all dated 26 July, for details).

c) LILYRIC - During the reporting period, the LILYRIC base produced sixty-three rolls (1,652 frames) of operational film, for the same purposes as noted above in the LIMITED section, during the morning and early afternoon hours. In addition, LILYRIC prepared a weekly report on the comings and goings of each LIMERICK staffer and contributed the large majority of the project's physical surveillance reports. Finally, LILYRIC provided special reports on all commercial deliveries made to the LIMERICK installation.

d) LICALLA - During this period, the LICALLA base provided photographic coverage of the garden and patio area of the LIMERICK installation, an area where many of the officers and their families congregate. In this effort, LICALLA produced forty rolls (1,110 frames) of operational photographs which were most useful to the Station in determining or confirming the intelligence service affiliation of various LIMERICK staffers. On [illegible] May [illegible], Harvey C. [illegible] and Joseph M. [illegible] made movie and audio tests from the LICALLA base in support of local and Headquarters operational planning (see reference B. for details).

4. SECURITY AND PROBLEMS.

There have been no known incidents during the reporting period which have adversely affected the security of the LIEMPTY project or the related agent personnel. While various minor administrative and personnel problems arose, the Station was able to resolve all such problems locally.

5. PLANS AND CHANGES.

a) Station Mexico City plans to have Raymond H. GERENDE reassume the agent-handling and administrative responsibilities that he previously had, upon his return to Mexico in early August 1965. As previously noted in reference A, SCANTLING has been removed from the aegis of Project LIEMPTY and integrated into the LIRAZOR project.

b) Other than noted above, no major administrative or operational changes are planned for the ensuing period.

SUBJECT
Project LIEMPTY/Progress Report 1 February - 30 April 1965

ACTION REQUIRED - REFERENCES

Reference: A. HMMA-25352, 10 February 1965
B. HMMA-25536, 11 March 1965
C. MEXI-3138, 19 April 1965
D. MEXI-2892, 24 March 1965
E. MEXI-2727, 8 March 1965

1. REPORTING AND BACKGROUND.

The last regularly scheduled LIEMPTY Progress Report covering the period 1 November 1964 through 31 January 1965 was forwarded to Headquarters as reference A. Significant interim developments and achievements of LIEMPTY were included in references C. through E. The Project Outline for LIRAZOR, which when approved, will provide for the maintenance of long-term contract agent Oliver G. SCANTLING who is now carried under Project LIEMPTY, was submitted for headquarters approval with reference B. Throughout the period under review, Project LIEMPTY continued to collect operational information on the LIMERICK installation, the LIMERICK personnel and their visitors, as well as various targets of opportunity, through the daily photographic coverage provided by the LIMITED, LILYRIC, and LICALLA photographic basehouses and the frequent use of the LIENTRAP mobile photographic unit. In addition, this project provided other essential operational support to various Station and Headquarters activities through the utilization of the services of long-time contract agents Raymond H. GERENDE and Oliver G. SCANTLING.

2. AGENT CONTACT AND COMMUNICATION CHANNELS.

During the reporting period, the primary LIEMPTY principal agent, Raymond H. GERENDE was seen forty-two (42) times in operational meetings by the undersigned, while principal agent Oliver G. SCANTLING was seen twelve (12) times. Other than frequent and intentional variations in meeting times and sites, no changes were made in the Project's communication systems. All operational contact with the action/sub-agents of the LIEMPTY Project was maintained through Raymond H. GERENDE.

3. ACCOMPLISHMENTS, PROGRESS, AND ACHIEVEMENTS.

Throughout the reporting period, Project LIEMPTY continued to produce the majority of the operational photographs used in Station Mexico City's KUDESK operations against the LIMERICK target. This coverage has proved to be a reliable and viable tool for: following the daily movements of the LIMERICK personnel; providing and confirming identities of LIMERICK staffers and their visitors; and verifying the relative rank and positions as well as the intelligence service connections of various LIMERICK officers. Specific examples of the contributions of each LIEMPTY Project component to the fulfillment of the Related Mission Directive, as approved for Mexico City Station, follow:

a) LIENTRAP - Throughout the reporting period, the LIENTRAP mobile photographic unit was targeted extensively against the leaders and installations of the Partido Comunista Mexicano, the Partido Popular Socialista, and other exile or visiting communist leaders. In mid-April 1965, the LIENTRAP unit provided an up-to-date photograph of ESLIME-1 which was passed to a visiting KUBARK staffer for his use in the recruitment attempt of ESLIME-1. Not only did this photograph serve as a means of identifying the target for the recruiter, but also served as bona fides for the recruiter during the successful recruitment of this communist/exile guerrilla. (See reference C. for details.) Overall, the LIENTRAP unit produced 49 rolls of 35 mm film which will be or have been used in support of planned recruitment attempts, and in providing identifications, locations or contacts of various targets of interest.

b) LICALLA - During the period under review, the LICALLA installation provided photographic coverage of the garden and patio area of the LIMERICK installation, where many of the personnel congregate. In this effort, LIEMPTY-9, the LICALLA basehouse keeper provided 52 rolls of 35mm still photographs which were most useful to the Station in determining or confirming the intelligence service affiliation of various LIMERICK staffers by their constant association and conversations with other known intelligence officers. In addition, LICALLA provided special physical surveillance reports on all deliveries made to the LIMERICK installation, the presence of suspect audio technicians, and the changes in the patterns of activity of various LIMERICK personnel. On 23 March, Dudley R. GHASTER, KURIOT specialist, entered LICALLA for an on-site survey in support of a sensitive technical operation being planned by the Station and Headquarters. (See reference A, paragraph 3, e. and reference D. for details.)

c) LIMITED - During the reporting period, LIMITED provided 57 rolls of operational film and daily surveillance reports covering the arrival and departure of LIMERICK personnel and visitors at the front gate of the LIMERICK installation during the afternoon and evening hours. In addition, LIEMPTY-6, the LIMITED basehouse keeper, served as the fixed radio dispatch base for five LIEMBRACE surveillance operations covering known or suspect LIMERICK intelligence officers or their contacts. Because of the protective security provided to the LIMERICK installation by local "Services" it would be impossible to provide LIEMBRACE surveillance of LIMERICK staffers without the LIMITED radio dispatching. LIMITED (as well as LILYRIC) also provided confirmation of the visit of subject of reference E (a PBPRIMEr in contact with a LIMERICK intelligence officer) to the LIMERICK installation. (See reference E. for details.)

d) LILYRIC - During the period covered by the report, LILYRIC produced 73 rolls of operational film covering the comings and goings of LIMERICK personnel and visitors to that installation during the morning and early afternoon hours. In addition, LIEMPTY-14, the LILYRIC basehouse keeper, provided approximately 300 pages of physical surveillance reports, covering the movements of LIMERICK personnel.

e. Oliver G. SCANTLING - SCANTLING was married in mid-February and honeymooned until late March; consequently, SCANTLING was "out of action" for approximately one-half of the reporting period. During the remainder of this period, however, SCANTLING continued as the alternate contact of LICASA-1, the principal agent in the LICASA LAURICLE operation, as well continuing to handle the PBRUMEN access agent he had recruited in January 1965 (see reference A, paragraph 3). In addition, at Headquarters' request, SCANTLING re-cased the United Arab Republic Embassy in support of a sensitive operation now in the planning stage.

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET	DISPATCH SYMBOL AND NUMBER HMMA-26027

f) Raymond H. GERENDE - Throughout this period, GERENDE continued as the Station's full-time cutout to the LIMITED, LICALLA, and LILYRIC basehouses as well as maintaining the cutout/agent handling responsibility for the LIENTRAP mobile photo unit and the LIEMPTY photographic-processing basehouse. GERENDE again made numerous and essential contributions to the sensitive AMROD operation as well as servicing numerous postal accommodation addresses.

4. SECURITY.

There have been no known incidents during the reporting period which have adversely effected the security of the LIEMPTY project. Various refinements have been made in the cover story to be used (if necessary) to explain the relationship between the case officer and GERENDE. (See also paragraph 2 re: meeting times and sites.)

5. PLANS AND CHANGES.

a) As noted in reference A. it had become obvious that many of the operational assignments levied on Oliver G. SCANTLING were falling outside the proper scope of Project LIEMPTY; consequently a new Project was prepared to cover the Station's relationship with SCANTLING. This Project Outline (Project LIRAZOR) was submitted for Headquarters' approval with reference B. and SCANTLING will be removed from the aegis of Project LIEMPTY upon receipt of Headquarters' approval of LIRAZOR.

b) GERENDE plans to take a well-deserved vacation from late May through July 1965. Station intends to have SCANTLING handle the photographic basehouses and the LIENTRAP unit (since SCANTLING is already witting of all but one of those LIEMPTY agents) while the LIEMPTY Case Officer will handle LIEMPTY-4 and the photographic basehouse.

c) Other than noted above, there are no major administrative or operational changes planned for the ensuing period.

OCC 65-0119

14 JAN 1965

MEMORANDUM FOR: Director of Logistics

ATTENTION: Mr. Edward Denison

SUBJECT: LIEMPTY, LIMOUSINE

REFERENCE: Mexi 2159

1. In conversation with the Headquarters officer concerned with LIEMPTY LIMOUSINE affairs, this Office was apprised of the fact that the proposed transaction, outlined in reference cable, would be executed without recourse to advice on the legal aspects of the sale under Mexican law and with no intention to make LIMOUSINE's commitment to this Agency legally binding. It is further intended that LIMOUSINE's "promissory notes" be unsecured.

2. Should the proposed transaction be carried out in this manner, this Agency would be unable to enforce LIMOUSINE's promise to pay his debt, and would have no legally cognizable instrument to present to an executor of his estate should he die before meeting his obligations to us. In addition, our right to continued possession of the apartment would be tenuous at best.

3. Thus it is planned to convey real estate appraised at $14,448 in exchange for $7,200 and a collection of unenforceable, unsecured promises. It is hard to believe that in this case, operational security precludes closer protection of Agency assets.

Operational/[illegible]
Francisco CAMPOS Herrera and Guillermo SALAZAR Polanco

Action Required: See Para 5
REF: HMMA 16039

1. The prospective [illegible] trip of above Subjects was discussed with Gerald F. [illegible] at Headquarters in light of the current [illegible] policy which is in the process of being formulated. We are still very much interested in Subjects' trip and agree with [illegible] that SALAZAR appears to be the principal target, rather than CAMPOS. However, we wish to note that the underwriting of the trip for SALAZAR is contingent on the fact that he and CAMPOS will spend a period of time at the Institute in a capacity other than that of a sightseeing tourist. If at all possible, it would be useful to determine the exact nature of the invitation made by the Soviets to CAMPOS in late 1960 and the manner in which the inclusion of SALAZAR was broached to the Soviets. It is noted that the letters forwarded as attachment to HMMA-16?09 do not indicate that an invitation has been extended.

2. There are requirements of intelligence interest on the Electro-welding Institute imeni Paton in Kiev which Subjects, because of their qualifications and technical knowledge, may well be able to fulfill. The Institute is the major center for welding research in the USSR. It has been identified in overt Soviet literature as having solved problems of mechanical arc welding with a flux of austenitic steel which is resistant to great heat, acidity, and rust. This was reportedly in connection with the development of contemporary rocket engineering. The Paton Institute undoubtedly is engaged in solving problems related to welding in guided missile technology.

WH/3

Item 13

3. The below are preliminary specific requirements on the Paton Institute which will be supplemented at a later date if the operation materializes. They may assist the case officer in assessing Subjects' potential to fulfill requirements of this nature.

a. Obtain information concerning new welding apparatus for, as well as new applications of, the following welding and cutting technology:

(1) Electron beam-welding or cutting
(2) Friction welding
(3) Ultrasonic welding for fine wire and thin strips - exotic metals
(4) Explosive welding
(5) Plasma arc - as used in cutting, coating and welding operations
(6) Vacuum chambers associated with welding

b. What types of automatic welding equipment, using an inert gas such as argon, has the Paton Institute developed? Give any details concerning these equipments such as model designation, characteristics, when and by whom designed and where the equipment was sent.

c. Is the Paton Institute working on the solution of problems related to the welding of special alloys, particularly aluminum, titanium, and stainless steel? Which laboratories of the Institute are working on these problems? Who are the engineers and designers working on these problems? (Two alloys known to be used in the Soviet missile program are AMG-[illegible] aluminum alloy and EI-[illegible] stainless steel).

d. Can the source elicit any information from Soviets at the Institute as to problems related to welding technology in the missile and space programs which was solved by them?

e. Identify other facilities (plants and institutes) with which the Paton Institute is associated, and in what manner. Identify personnel of the Welding Institute who are on detached duty at other facilities. Identify location of their detached duty, the facility, purpose, and dates of such duty. (Note: For example two engineers from the Paton Institute received awards in October 19[illegible]0 for participation in the equipping of the newly constructed Metallurgical Plant named Lenin in [illegible], a plant possibly involved in ICBM production). Source should try to determine what work these two personalities performed to merit receiving awards and also work performed by other engineers on detached duty to plants as indicated above.

4. In reply to Paragraph [illegible] of reference, both of the books which were forwarded to Headquarters for evaluation are already available to appropriate [illegible] offices.

5. Requests for extension of POA's on Francisco CAMPOS Herrera (POA expired [illegible] January 19[illegible]) and Guillermo [illegible] (POA expired 3 January 19[illegible]) have been initiated. The POA on Pedro Jose CAMPOS Herrera has been cancelled. Please advise if the station wishes the POA which expired [illegible] December 19[illegible], for Howard Carl [illegible] to be extended.

6. In accord with a forthcoming more stringent legal travel policy, it is advised that the station attempt to provide essential information represented by PRQ I and II before the extended POA's expire. In the same vein, attention is directed toward the security status of Francisco CAMPOS Herrera, who has exhibited an attitude since [illegible] in his dealings with the Soviets that is open to suspicion. We must assume that the KGB is aware of the correspondence between CAMPOS and Institute.

SUBJECT - LIEMPTY Project Renewal Comments

RE: (CHECK "X" ONE)
MARKED FOR INDEXING
X NO INDEXING REQUIRED
INDEXING CAN BE JUDGED BY QUALIFIED HQ. DESK ONLY

ACTION REQUIRED - None, for Headquarters information only.

REFERENCE(S) HMMW-8515, 25 February 1960

1. It would appear from paragraphs 2a and 2b of reference that KUDESK and KUTUBE Ops have not been completely informed of the background of the LIEMPTY Project and its agent-requirements. At the time HMMA-14093 (Request for Renewal of Project LIEMPTY) was written, it was assumed that the Mexico Desk and KUTUBE/D could answer any additional questions, based on reports and dispatches not normally available to the senior staffs, which might be raised during the renewal process.

2. In answer to paragraph 2a, Oliver G. SCANTLING first contacted Inez PARADA de Moreno in early 1957 to fulfill a KUTUBE/D requirement. He visited her as an architect interested in viewing the LIMERICK installation from the building where she lives. He was socially acquainted with her brother, a Catholic Priest, and knew the family to be unquestionably anti-Communist. However, it would be imprudent on the Station's and SCANTLING's part to assume that PARADA does not at least suspect that some anti-LIMERICK intelligence service is involved. PARADA suggested during SCANTLING's initial visit that he could return at any time for further observations. This was reported by SCANTLING on 21 March 1957 and it does not seem appropriate to query him again on the pretext for his recent visits.

3. While HMMA-14093 correctly referred to LIMITED, LILYRIC and LICALLA as "photographic basehouses," the Station would like to emphasize that photographic coverage is only one of their functions (please see HMMA-12095, 4 February 1959). LIMITED is used as a radio dispatch base for automobile surveillance teams in addition to physical surveillance of persons entering the front gate. Their photography is negligible compared to their other duties. The LILYRIC base performs the best photography of persons visiting the front gate, perhaps because the vantage point for taking the pictures is from the second floor and above the street traffic which partially blocks LIMITED photographs. LILYRIC also does individual reports on LIMERICK personnel entering and leaving the main gate. LICALLA is used almost exclusively to identify LIMERICK officials and to support KUTUBE/D requirements in connection with the LIMESA/LIMUST Project. As an indication of the effectiveness of LICALLA photographic coverage, the Mexico Station has all the LIMERICK officials identified. Before this base was activated more than two-thirds of the LIMERICK officials were unidentified. In order to support other operations, it is considered essential that the Station identify all LIMERICK officials. In this respect, LICALLA has provided most of the necessary information. The retention of this base is also considered vital to the security of the LIMUST portion of the LIMESA Project.

4. The Station does not agree that the color photography and moving pictures are a luxury. Color slides were made for identification purposes and have proved useful, particularly in identifying facial features and skin coloring. The motion pictures were made at Headquarters suggestion (Please see HMMW-7687, 29 May 1959 and HMMW-8438, 26 January 1960).

CONTINUATION OF DISPATCH	CLASSIFICATION SECRET/[redacted]K	DISPATCH SYMBOL AND NO. HMMA-14793 [redacted]K-1762

5. In conclusion, the Station would like to point out that the "photographic basehouses" represent an integral and significant part of the Station's counterespionage effort against the LIMERICK installation. These bases do not produce Foreign Intelligence and should not be considered in such a light.

SUBJECT
LIEMPTY/LIENTRAP/LIEMPTY-10 Security Incident - Liaison with ODENVY

ACTION REQUIRED
See paragraph 6 below.

REFERENCE(S)
HMMA-13951 (KAPOK-1705) 16 October 1959

30 NOV 59

1. On 13 October 1959 it was learned from source that the local ODENVY chief got a priority cable from his Headquarters asking why data concerning the Mexican apprehension of the (KUBARK) truck and photographer had not been reported to the U. S. Ambassador locally. The statement was made that "such matters as this should be immediately reported to the Ambassador."

2. This cable resulted from the report the ODENVY office sent in on the incident from the knowledge they had - as reported in reference.

3. The local ODENVY chief replied to his Headquarters that he did not agree that matters concerning KUBARK operations should be reported by ODENVY to the Ambassador.

4. Source stated that the cable was obviously a result of the KUBARK/ODENVY headquarters "ill feeling" which presently exists and which source believes is primarily (and principally) attributable to the article in TRUE magazine of September 1959.

5. Source is LIMEW.

6. It is requested that under no circumstances should the information contained herein be disseminated in any form whatsoever outside KUBARK.

REFERENCE(S)

1. At 1110 hrs., 20 September 1959, while on an operational assignment, LIEMPTY-10 and the LIENTRAP vehicle were temporarily detained by the Servicio Secreto de Mexico (Mexican Secret Service). LIEMPTY-10 was held under unofficial custody for approximately 26 hours before his release was obtained. There follows below an account of the more important details pertaining to this incident.

2. LIEMPTY-10 was instructed on 17 September to case the area surrounding the Theatre Iris, located at Donceles 36, preliminary to undertaking a photographic surveillance of all persons entering and leaving the theatre between the hours of 0930 and 1200 hrs., 20 September. In this instance, the Station's target was a pro-Cuban rally sponsored by the Circulo de Estudios Mexicanos (CEM). The Station had received information that many of the leading Mexican and Central American Communists would attend this rally and that this was an opportune time to establish which ones did attend and to collect their photographs. The Station did not know that the Mexican Secret Service would also be covering this meeting for the purpose of preventing a Communist-inspired demonstration.

3. The Station was advised at 1730 hrs., 20 September, by Raymond H. GERENDE (ps), the Principal Agent who handles LIEMPTY-10, that L-10 was being held by the Secret Service. Immediately following this notification, Allen W. WARE (ps) was requested to contact Philip K. TESSAROLO (ps) and request him to implement procedures through a criminal lawyer to effect the release of L-10. TESSAROLO was contacted and briefed at 2200 hours and immediately began attempts to locate a reliable criminal lawyer. However, as sometimes happens in an emergency situation, his two most appropriate contacts were out of town. It was not until the following morning at 0700 hrs. that TESSAROLO located another reliable lawyer who agreed to handle the case.

4. Since GERENDE was known to L-10 and since the Station could not be sure how much L-10 might be forced to tell the Secret Service, GERENDE was given the following instructions:

A. To disconnect immediately the LIFEAT/LIVERY lines in the base where he and his wife were living and to move all equipment to another safe location. It was believed appropriate to take this precaution even though L-10 did not know the location of the LIVERY base, the telephone number of the base, or even that GERENDE was living at a place other than his mother's residence in another part of the city.

B. To collect and deposit with his Case Officer any compromising papers presently in his possession.

C. To make a security inspection of the outside photographic lab at his mother's house.

D. To phone L-10's wife and inform her that procedures were underway to obtain L-10's release and for her not to become upset and talkative.

E. To suspend all operational contacts until L-10 was released and the extent of compromise was determined.

5. During the evening of 20 September the Station LIFEAT Case Officer was advised that GERENDE had been directed to disconnect the LIVERY lines and to transfer all LIFEAT equipment to a safe location. To further insure the security of LIVERY, all LIVERY lines were pulled externally during the early morning of 21 September.

6. At approximately 1000 hrs., 21 September, LIMEW informed the Chief of Station that a contact of his (LIMEW's) had just informed him that L-10 (true name) and the LIENTRAP vehicle were being held by the Secret Service. LIMEW stated that if L-10 was one of KUBARK's agents he would attempt to have his contact in the Secret Service obtain his immediate release. LIMEW was told that L-10 was, in fact, a KUBARK agent and that the Station would very much appreciate his efforts to effect his release. A short while later LIMEW again contacted the Chief of Station and informed him that it would be necessary for documented ODACID official personally to contact a Commandante fnu LIMON of the Secret Service and that L-10 would then be released. According to LIMEW, L-10 had told the Secret Service that he was carrying out his operational photographic assignment on a contract basis for ODACID; therefore, an ODACID official would have to establish L-10's bona fides.

7. As the Station learned later, the Secret Service agents were roughing up some of the individuals attending the rally; consequently, they were endeavoring to make sure that no photographs were taken which could be used against them by the Communists. L-10 and L-11, the LIENTRAP driver who left the scene before he was detained, were just preparing to leave the area after taking five rolls of film when a Secret Service agent demanded a search of the vehicle on the suspicion that it contained Communist propaganda. L-10, his camera with telephoto lens and the film were then discovered in the rear of LIENTRAP. It was at this time that L-10 was accused orally by the police officers of being a Soviet agent and later of being a local Communist agent. After being taken to Secret Service Headquarters, L-10 told LIMON, in private, about his association with ODACID and emphasized that he certainly was not a Communist agent. LIMEW's source (possibly Commandante LIMON), believing that there may be some truth in L-10's statement, contacted LIMEW. Based in part on assumption and in part on fact, this is the Station's opinion as to how ODENVY became involved in the case.

8. The Station, realizing that LIEMPTY-10 had not committed an illegal act by taking photographs, decided that WARE should personally visit LIMON and request L-10's release. WARE contacted LIMON and the sub-jefe of the Secret Service, Raul MENDIOLEA Cerecero, about 1230 hrs., 21 September, identified himself as an ODACID official and told them that L-10 did from time to time perform photographic assignments for ODACID, particularly in the field of local Communist activities. WARE also told LIMON and MENDIOLEA that L-10 was never permitted to do any task which was illegal under Mexican law and that if he had done so it was certainly not under the auspices of ODACID, but on his own volition. They implied that L-10 had not done anything illegal and that all they wanted to be sure about was that L-10 was not a Communist agent. L-10 was immediately released and the LIENTRAP vehicle returned to him with all equipment intact, including the five rolls of undeveloped film.

9. While WARE was on his way to see LIMON at the Secret Service Headquarters, the Chief of Station was advised by the ODACID Security Office that L-10 was being detained by the Secret Service. The Security Office was told that WARE was presently investigating the matter and should be at the Secret Service Headquarters at that time. By coincidence, WARE was talking to MENDIOLEA when the ODACID Security Office phoned to inform him that WARE was taking care of the matter. It was learned later that MENDIOLEA is a brother-in-law of the local investigator employed full time by the ODACID Security Office. This was how ODACID became involved in the incident. To the best of the Station's knowledge, the ODACID Security Officer has said nothing more about the incident and, at the time, did not attach any particular significance to it or seem especially concerned about

CONTINUATION OF DISPATCH	CLASSIFICATION	DISPATCH SYMBOL AND NO.
	SECRET/[redacted]	HMMA-13951 [redacted]-1705

L-10's statement that he did some photographic work for ODACID. There was no newspaper or other publicity pertaining to L-10 or LIENTRAP.

10. During his visit to Secret Service Headquarters WARE discovered that L-10 had not been booked or formally charged with an illegal act and that neither LIMON nor MENDIOLEA could recall L-10's name. L-10 was not placed in jail during the 26 hours he was at Secret Service Headquarters but, rather, was permitted to remain in the Secret Service agents' duty room. No bribes were necessary to obtain his release; however, per LIMEW's request, $500.00 pesos were given to LIMEW to give to his source. LIMEW said that in addition to notifying him about L-10's detention, the source was also responsible for all equipment and film being returned intact to L-10.

11. TESSAROLO was advised, as soon as LIMEW became involved in the case, that the criminal lawyer should not pursue the matter any further. Two bottles of scotch whiskey were given to the lawyer through TESSAROLO for the few tasks he had already performed.

12. After his release, L-10 reported that he was not interrogated and that he did not reveal any data about other operations he has worked on nor did he give the names of anybody connected with operational activities. Based on the developments in the case, the Station has no reason to doubt the veracity of L-10's statement. L-10 was reprimanded for his use of statements to the Secret Service about being employed by ODACID. He was told that the revelation of such employment was to be made only by the Station and that henceforth he is never to use such a cover story. L-10 was also reprimanded for his lack of judgment in remaining in an area where there was a strong concentration of police; it is believed safe to assume that L-10 will never make this same mistake again.

13. In retrospect, it is interesting to note that L-10's use of the ODACID employment story is possibly responsible for his not being interrogated and thus compromising other operations and individuals. This case has pointed out to the Station the desireability of having casual contacts in the Secret Service and other local police-type organizations so that the Station, rather than ODACID and ODENVY, is the first to learn of incidents of this type. Considering the multifarious activities handled by the Station, it must be assumed that the police will occasionally apprehend an agent and that the Station must be geared to handle such emergencies.

14. The Station is allowing a one month's cooling off period for the LIENTRAP vehicle and LIEMPTY-10. The vehicle will then be painted another standard color and re-registered in the State of Mexico. After these security precautions are observed, the Station sees no reason why carefully selected photographic surveillance operations should not continue with L-10 as a wiser and more prudent LIENTRAP operator.

SYNOPSIS OF DEVELOPMENTS

1. During the period covered by this report, a new Case Officer, Quinton N. OUSLER, assumed operational direction of several LIPSTICK assets (Oliver G. SCANTLING, Raymond H. GERENDE, LIMITED, LICALLA, LIENTRAP and several support agents), the LIJERSEY surveillance team and the LILYRIC Base. The Station has continued to use SCANTLING, primarily, to follow up LIMESA leads obtained from LIFEAT and the photographic bases; however, no positive returns have been realized from his prodigious efforts except the collection of a considerable amount of operational information. GERENDE performed his principal agent responsibilities for the photographic bases, LIENTRAP, LIJERSEY and until 10 December 1958 handled the LIFEAT/BGMORNING and LIFEAT/Cuban Exile operations. The LIJERSEY surveillance team has been used sparingly for pretext investigations and routine static surveillances; however, a principal agent, Simon D. CLACKETT, is currently being trained in Headquarters to assume the full-time direction, control, training and development of the LIJERSEY team. The new project, LIEMPTY, combining all the assets discussed in this report was submitted to Headquarters on 8 October 1958 with requested project year approval period from 1 December 1958 through 30 November 1959. An operational security review of Raymond H. GERENDE's activities was forwarded to Headquarters as an attachment to HMMA-11368, 22 October 1958.

ACCOUNT OF DEVELOPMENTS - OLIVER G. SCANTLING SEGMENT

2. Agent Information - Oliver G. SCANTLING has continued to perform his assigned tasks in an outstanding manner. SCANTLING's poise, common sense, education, ideology and native ability for the pursuit of clandestine activities make him one of the most valuable support assets available to the Mexico City Station. The fact that SCANTLING has full time overt occupation as Chief Engineer and Production Manager for a local manufacturing company adds to his long-range potential as a KUBARK agent. On two occasions during the past six months SCANTLING has indicated to his Case Officer that he would like to resign from his overt position and devote full time to his KUBARK operational duties; however, the Case Officer has discouraged him from doing this on the basis that he has more long-range potential when his cover occupation is legitimate. Of course, SCANTLING would be more valuable if he could work full time for the Station, but not sufficiently so to warrant his resignation from his overt job (his monthly salary in his overt job is in excess of $800.00 U. S.). The only significant limitation that SCANTLING has evidenced to his present Case Officer is his occasional delay in preparing written reports of investigations and other matters requiring reports for the files. However, this limitation gradually is being overcome and it is expected that SCANTLING's reports will continue to be factual, comprehensive and soon will be promptly submitted.

CS COPY

3. Security Developments - SCANTLING is constantly under a considerable amount of exposure and pressure when following up LIMESA leads obtained from LIFEAT and the photographic bases. Since time is always of the essence when using such perishable leads, SCANTLING frequently is directed to make approaches to individuals performing services for the LIME RICK target after routine, and sometimes only cursory, investigation. Therefore, the possibility always exists of his entanglement in an undesirable security incident. This necessarily

is a calculated risk which both SCANTLING and the Station must take if penetration of the primary target is achieved, whether technically or by a recruitment in place. It is to SCANTLING's credit that he has not yet become involved in an incident which the Station feels has compromised him and/or alerted the target of KUBARK's many operational efforts against them. The closest SCANTLING has come to being compromised and to being identified as a PBPRIME agent stems directly from the LIPSTICK surveillance team flap of June 1958. The office used by the surveillance team was rented by SCANTLING in his true name at the time that he was leader of the team. Not the slightest indication, however, has been uncovered which points to SCANTLING as a target of investigation by a local police service. SCANTLING and the Station have been alert and will continue to watch closely for any sign of local police and other opposition interest in his activities.

4. Operational Success and Effectiveness - Briefly discussed below are some of the many operational activities in which SCANTLING participated during the period covered by this report:

D-ZR

A. Juan *CASTRO (201-[illegible]) - SCANTLING continued seeing CASTRO through September 1958 following the last faint glimmers of mounting the original LIMESA/MKLIGHTING operation through CASTRO. As late as September 1958 possibilities still existed, or appeared to exist, that CASTRO would complete his work in the primary LIMERICK office and that it might be possible to install MKLIGHTING. While CASTRO, through SCANTLING, was the principal source of this information, portions were also confirmed by LIFEAT. During July, August and September 1958, SCANTLING had approximately eight meetings with CASTRO. In late September 1958 LIFEAT indicated that the LIMERICK target was using personnel under the supervision of one of their regular local employees, Antonio *ZEPEDA (201-239821), to complete some of the work CASTRO was supposed to finish and that other contractors were doing jobs around the target area which CASTRO would normally have been expected to do had he still been in the employ of the target. Also, LIMITED and LIFEAT confirmed that the LIMERICK target had lost interest in CASTRO - he was not seen visiting the target installation nor did the target people attempt to get in touch with him. In view of this, SCANTLING was instructed to cease all contact with CASTRO as of 1 November 1958.

B. Pablo *MON Rosas (201-237525) - During the period covered by this report SCANTLING had two interviews with MON Rosas. SCANTLING's most recent report was forwarded to Headquarters as an attachment to HMMA-11143, 1 October 1958. Unquestionably the Station has identified Mon Rosas as the technician who services LIMERICK safes and locks. SCANTLING will continue his development of MON Rosas (please see HMMA-11711, 10 December 1958).

C. Octavio *VIDALES (201-237524) - SCANTLING's activities in connection with this LIMESA/MKLIGHTING operation were summarized in HMMA-11397, 29 October 1958, and previous correspondence.

D. HERRERIA GABELICH - This is the firm that made the steel vault door for the LIMERICK installation. SCANTLING made two visits to this firm's workshop and succeeded in obtaining enough information to make an

REFERENCE(S)		

accurate drawing of the type door installed at LIMERICK. This drawing was forwarded to Headquarters via HMMA-11926, 21 January 1959.

E. Casing Report on West German Embassy - During June, July and August 1958, SCANTLING prepared a detailed casing report on the new West German Embassy. SCANTLING's engineering ability enables him to prepare accurate drawings and sketches from a minimum of data. Also, his personality and gregarious manner permit him to visit the inside of such establishments, with an appropriate cover story, and retain minute details which later he commits to paper and emerges with a comprehensive floor plan and important construction data.

F. LIMERICK Construction - SCANTLING's long association with this target from the casing standpoint provides the Station with an unparalleled source of information about LIMERICK construction activities, modifications and reasons for same. All of the LIMERICK casing reports on file in Headquarters are the product of SCANTLING's unusual ability and knowledge. Consultations with Station Officers about LIMERICK construction have been of benefit to the Station during this reporting period and they will continue to be of worthwhile importance.

G. Routine Investigations and Surveillances - Although the Station has several assets capable of performing investigations and surveillances, SCANTLING is still used in situations requiring the utmost in discretion and clandestinity. His activities in this connection are too numerous to list here; suffice it to state that he has contributed materially to the Station's collection of operational information through his investigative efforts. SCANTLING's interview of Paul Frederick Kirschhoff (201-43645) of LCMAYFOWL interest is an example of SCANTLING's use on investigations (see HMMA-11749, 17 December 1958).

H. ESGEM-15 - SCANTLING served as the cutout with ESGEM-15 during the latter's December 1958 trip to Mexico City. In this connection SCANTLING is a support asset which is trustworthy and dependable. SCANTLING never displays undue curiosity in operations such as the ESGEM-15 one; he accepts the minimum amount of information given and performs his duties in a professional and sincere manner.

I. LIEMPTY/3 - SCANTLING handles the administrative matters connected with L/3. Doris M. KILLGO provides operational direction to L/3. During this reporting period, the Station had hopes of SCANTLING taking over the operational supervision of L/3's activities. However, after a four-month trial period with both SCANTLING and KILLGO meeting with L/3, it was decided that it would be desirable for KILLGO to continue handling L/3. L/3's unusual personality and intellect indicated that he could best be directed by a PBPRIME citizen. Therefore, SCANTLING no longer attends KILLGO's and L/3's operational meetings, although he does continue to handle L/3's administrative problems.

J. Raymond H. GERENDE's Duties - During GERENDE's absence from

REFERENCE(S)

Mexico City in December 1958 and January 1959, it was considered appropriate for SCANTLING to handle LIMITED, LICALLA and LIENTRAP. Although this procedure defeats some compartmentation principles, it was the only manner in which the Station could maintain efficiency with the three operations listed above. SCANTLING has known the agents involved with LIMITED, LICALLA and LIENTRAP for several years. In fact, he was at one time the agent in charge of these three operations.

5. Operational Methods Evolved During the Period - The VIDALES operation (see paragraph 4 (C) above) indicated to the Station the necessity for thorough briefings and discussions with the agent making an approach to a target. This can hardly be described as a new operational method, but it does serve to illustrate the minimum efforts that should be followed. The forthcoming LINIMENT IV operation wherein SCANTLING must recruit the landlord of the target's building is offering SCANTLING and the Station the opportunity to prepare thoroughly for SCANTLING's recruitment pitch. The excellent documentation prepared by KURIOT and the story being created by SCANTLING and the Station should increase the batting average on SCANTLING's cold approaches. (See HMMA-11366, 22 October 1958, and HMMW-7038, 21 November 1958, for additional details on this Subject).

In a general sense, one other conclusion can be made about any Station's support apparatus - where technical and photographic operations are possible, the utility of the information obtained is enhanced considerably by accurate, comprehensive and timely casing reports. SCANTLING, as previously mentioned, is an excellent asset for this type of support.

6. Administration - SCANTLING's contract expires on 15 February 1959. As of that date SCANTLING will have received an annual salary of $3,600.00 U.S. for two years. The Station plans to raise his annual compensation to $4,000.00 U.S. No other significant administrative problems exist.

7. Outlook for Future Development - Station plans call for the continued utilization of SCANTLING in the same manner as he is presently being used. The Station will keep SCANTLING as an independent asset and, it is hoped, resist the temptation to make him a principal agent in charge of numerous sub-agents. It is believed that SCANTLING is the type of support asset that can be worthwhile to the Station for many years to come and that every effort should be made to protect his security and value to KUBARK.

ACCOUNT OF DEVELOPMENTS - RAYMOND H. GERENDE SEGMENT

8. Agent Information - Aside from the agent information given in HMMA-11368, 22 October 1958, the only significant development was GERENDE's December 1958 marriage to a U. S. educated girl of Dutch citizenship. The $500,00 U. S. for the purchase of two plane tickets as a wedding gift to GERENDE was designed to impress GERENDE with the fact that KUBARK thinks highly of him as an individual and that KUBARK has a great interest in his intelligence career. GERENDE is at the age and stage in life where he is beginning to wonder just what the future holds for him. In the near future, the Station will propose a salary raise for GERENDE

REFERENCE(S)

and request a new contract that provides for some type of retirement benefits - perhaps similar to the Civil Service Retirement program for KUBARK employees.

9. Security Developments - Again, the information on this subject was covered adequately in HMMA-11368. GERENDE was relieved of his LIFEAT/BGMORNING and LIFEAT/Cuban Exiles duties on 10 December 1958. This, of course, was in line with recommendations contained in HMMA-11368 and represents a definite security improvement. GERENDE was told that LIFEAT/BGMORNING was being terminated because it had not been productive of enough significant information and that LIFEAT/Cuban Exiles was being terminated because the occupants of the target apartment had moved (Note: This was true where the Cubans are concerned.) Additional security improvements will be made when Simon D. CLACKETT returns to Mexico and relieves GERENDE of responsibility for the LIJERSEY surveillance team.

10. Operational Success and Effectiveness - Briefly reviewed below are the separate operational activities which GERENDE managed during the period covered by this report:

A. LIMITED - This base functioned smoothly, securely and efficiently during the period July through December 1958. The base operator, LIEMPTY/6, demonstrated his usual competence and devotion to duty. In addition to the primary objective of taking photographs of individuals of interest, L/6 also prepared detailed daily logs on the arrivals and departures of all target personnel, weekly reports of workers activities at the LIMERICK installation, performed three one-man surveillances of Mexicans working at LIMERICK in an effort to identify them by name and home address, and provided SCANTLING with information on LIMERICK construction. During this six-month period, LIEMPTY/6 took approximately 800 photographs from the LIMITED base.

B. LILYRIC - This base is operated by LIEMPTYs/13 and 14, with LIEMPTY/12 serving as a cutout between the base and GERENDE. LIEMPTY/14 does most of the photography and reporting for the base since LIEMPTY/13 has a regular job and is not on the premises during regular daytime working hours. L/14 devotes approximately six hours (0800-1400) each day to photography and the remaining time is spent preparing reports. The Base personnel compile individual logs on each target personality indicating their arrivals and departures from the LIMERICK installation (Note: These reports are filed in the appropriate Station 201 file and are available to Station officers in analyzing a target personality's pattern of daily activity). LILYRIC also prepared a weekly report on workers activities at the Club and reports the license plate numbers of all vehicles discharging or picking up individuals at LIMERICK. (Note: These license plate numbers are then checked out through LIVESTOCK/2 for the owners names and addresses - in case of immediate or later operational interest.) During GERENDE's recent absence from Mexico City, OUSLER met directly with LIEMPTY/12. During this period approximately 2,000 photographs were taken from the LILYRIC base.

C. LICALLA - While LILYRIC and LIMITED are excellent bases for photographing individuals entering and leaving the LIMERICK installation, the LICALLA base is the Station's best source of photographs of LIMERICK

REFERENCE(S)

employees. LICALLA is so situated that photographs can be made of target personnel in the garden area of LIMERICK. LIEMPTY/9 is the base operator for LICALLA and in the Station's opinion performs his job in an outstanding manner. As reported in HMMA-11368, LIEMPTY/9 is the brother of former LIPSTICK/47 (the first LIPSTICK surveillance team member arrested in June 1958). No repercussions, or indications of any impending ones, have resulted in this family relationship. This, certainly, is the major security problem faced by L/9 during this reporting period. L/9 and his family soon will have to vacate the LICALLA base for the period of time required to remodel it. The Station is quite sure that L/9 does not know that his covert employer owns the LICALLA base and the three adjoining houses and every effort is being made to preserve this secret from L/9. (See HMMA-12032, 28 January 1959, for a more detailed explanation.) Of course, during the remodeling of LICALLA there will not be any LICALLA reporting or photographs. In addition to taking approximately 2,500 photographs during this six-month period, the LICALLA base also prepared weekly reports on LIMERICK garden activities. These reports indicate which LIMERICK employees are seen together each day, which vehicles different employees are accustomed to using, construction activities and other matters which appear of significance to L/9.

D. LIENTRAP - LIENTRAP continues to be a worthwhile Station asset. Approximately 1,400 clandestine photographs have been made of numerous targets during this reporting period and LIENTRAP type activities will undoubtedly remain one of the Station's best investigative assets. As explained in the Field Project Outline, forwarded to Headquarters on 8 October 1958, the Station is of the opinion that the LIENTRAP vehicle should be replaced as soon as possible. Nearly four months have elapsed without receiving Headquarters authority to replace the vehicle. The security situation is even more acute now than at the time of the request. LIEMPTYs 10 and 11 do an excellent job on LIENTRAP operations.

DH 13232

E. LIJERSEY - This operation can be characterized as somewhat dormant for the July - December 1958 period. Because of GERENDE's other important activities, he did not have the time to train and work with the surveillance team. Also, the Station considered that it would be stretching security just a bit too far to have GERENDE engaged in surveillance at the same time that he was handling the photographic base houses and performing monitoring chores for LIFEAT/BGMORNING and LIFEAT/Cuban Exiles. The expected arrival of Simon D. CLACKETT in April and his relieving GERENDE of LIJERSEY will enable the Station to train, within a year, an efficient mobile surveillance team. At present, LIEMPTYs/15, 16 and 17 compose the LIJERSEY team.

F. LIFEAT - Until 10 December 1958 GERENDE served as monitor in the base house containing LIFEAT/BGMORNING and LIFEAT/Cuban Exiles. In addition to living in the base house, GERENDE also transcribed the majority of the BGMORNING and Cuban Exile tapes. He performed these jobs satisfactorily even though his efficiency was handicapped by numerous other duties. Relieving GERENDE of his LIFEAT duties enables him to devote more time to his other operations with a corresponding increase in the security of all his activities.

REFERENCE(S)

G. LIEMPTYs/4 and 5 - LIEMPTY/4 does a truly professional job of developing and printing the base house photographs. No significant developments occurred in relation to L/4 except that OUSLER met directly with him during the December 1958 period that GERENDE was away from Mexico City. LIEMPTY/5, L/4's wife, continued doing routine translations in a very competent manner.

11. Administration - Other than the fact that LIJERSEY and the above-mentioned portions of the LIPSTICK projects were combined into this new project, LIEMPTY, there is nothing of significance to report to Headquarters.

12. Outlook for Future Development - Although not meaning to be repetitive by discussing again those recommendations made above, a summary of the Station's outlook on the future of the LIEMPTY GERENDE Segment is believed to be appropriate. With the arrival of CLACKETT in April, GERENDE will be free to devote full time to photographic base house operations. GERENDE can do a lot to professionalize these operations by preparing written communications procedures, by thoroughly debriefing base house operators on their methods of operation, by preparing detailed security reviews on each base and by supervising the trial of new photographic techniques. GERENDE will continue to be used on occasional sensitive investigations to rent operational hotel rooms and to perform other services for the Station which will not impair the security of his primary responsibilities. It is planned that CLACKETT will put some life into the LIJERSEY surveillance team and that the Station will soon have another first rate investigative group to support other Station operations.

FROM: Chief, WHD

SUBJECT: Request for Staff Agent to fill RAP-8100 Slot in Mexico City

1. It is requested that WH/Personnel locate a Staff Agent to fill the RAP-8100 IO (FI), GS-12 slot in Mexico City which was recently vacated by Wilfred O. CLOWER (p).

2. ~~This~~ This Agent ~~should~~ [illegible] be bilingual in Spanish and should have operational experience, especially in physical surveillance techniques. [illegible] He will be expected to spot, develop, recruit, and direct surveillance assets. ~~and~~ He will ~~give his~~ be given full responsibility for organizing an effective physical surveillance team.

3. It is requested that a suitable candidate be located as soon as possible so that the Contract Agent now performing the functions can be relieved of this responsibility and can devote his time to ~~his~~ other tasks.

SECRET

23 October 1958

MEMORANDUM FOR: C/WH

SUBJECT : Development of Physical Surveillance Assets in Mexico

REFERENCE : WH/FI Memorandum of 14 October 1958

1. The subject of the recruitment of a physical surveillance team in the United States for use in Mexico as well as other areas within WH has long been a topic of discussion at Headquarters. While it is palpably ridiculous to consider the use of a surveillance team recruited and trained in the United States and based in Mexico, operationally in other areas in Latin America, there is some merit, at least in theory, to the proposal in 2a of reference. Although one of the basic factors in the make-up of any surveillance team is that its members must be indigenous to the area of operation, it would be possible to recruit such a team as suggested in 2a and use this team in Mexico. However, I believe this would be time-consuming and very expensive for the following reasons:

a. Machine runs have already been made to spot candidates within the Agency of the Mexican/American type for the LIMESA/LIMUST project, with negative results.

b. In order to make it attractive to young men of the caliber desired, we would have to offer some kind of a career with a starting salary of somewhere between the GS 7 and GS 9 level, plus travel and allowances. Without attempting to even estimate this cost one can see that the figures for a team of fifteen would run into six digits.

c. It would take a minimum of three months for a recruiter to move into the southwest area and spot, contact, develop and recruit a team of fifteen.

d. Once a team of suitable candidates was recruited and cleared, it would then take a minimum of another three months to train these candidates in basic trade craft and surveillance techniques.

e. Upon completion of the training period, the candidates would have to be moved individually into the area of operation to become familiar with this area, the language, people, and atmosphere in general, etc. This would take another three months minimum.

f. After completion of the area familiarization period, the team would have to be assembled and put through various surveillance exercises as a unit to check them out prior to actual operations.

14-00000

g. There would be other problems confronting such a team from a security standpoint, such as cover credentials, which would always pose a threat to the operation.

2. To sum up, it would appear that the proposal in 2a of reference is not feasible because of the time and expense involved plus the always latent security hazard.

3. I agree with paragraph 2 b of reference. Not only should the personnel of the surveillance team be recruited at the station, but as outlined in paragraph 3 it should be relatively easy to find suitable candidates. For example it is proposed under the new LIEMPTY project (this consists of the remainder of the non-blown LIPSTICKs and the LIJERSEYs) to recruit a physical surveillance team. Two of the station's outstanding indigenous agents, Scantling and Gerende, are under this project and both are capable of spotting, developing, and recruiting agents.

4. I agree with paragraph 3b, c, and d, and believe that Headquarters should make every effort to find an experienced and competent case officer to fill Clower's slot as the outside surveillance case officer.

John B. Brady
WH/III/Mexico

14 October 1958

MEMORANDUM FOR: CWH

SUBJECT: Development of Physical Surveillance Assets in Mexico

1. On 8 October 1958 a meeting of representatives of SR Division and CI Staff was held, attended by the undersigned, to discuss means for building up physical surveillance assets in Mexico. The SR and CI representatives pointed out that their current and projected work on BGMORNING and their cases requires a considerable strengthening of physical surveillance assets, and it was the consensus that these assets would be used far into the future on Soviet targets. It was further agreed that since the LIPSTICK operation has encountered difficulties this year, new assets should be sought.

2. Various approaches to the problem were discussed, the most viable of which were as follows:

a. Recruiting of teams or basic elements for teams in the Mexican colonies of the southwestern U. S.

b. Dispatch of a new case officer to Mexico with the sole and specific duty of developing and running the new teams.

c. A combination of a and b.

3. Initially, it is believed the dispatch of a new case officer to Mexico would be the most successful and give the best immediate results, for the following reasons:

a. Headquarters and Station records contain the names of numerous cleared contacts or contacts who could be cleared and through whom introductions could be made to persons suitable for surveillance work. Hitherto these have not been fully exploited owing to the heavy workload on Station personnel and the unimpaired functioning till recently of the LIPSTICK group. Some of these contacts were felt out as recruiters and spotters in years past but the matter was never pushed since the need was not so great as now.

b. A new case officer is needed because the present Station staff is still too busy to devote the amount of time needed to build carefully and train thoroughly the new assets.

c. The new assets will require the full time direction and coordination of a case officer who has no other responsibilities. In this connection, it would be advisable to try to select, train and utilize at least twelve new agents as soon as possible.

d. In brief, a replacement of the former physical surveillance leader is indicated, but a more mature and competent case officer is needed.

4. Plan a, recruitment in the U. S., should not be dismissed from consideration. It would take longer than the other plan but might be beneficial in enabling the new agents to be trained in the U. S. They would then have to spend time getting into Mexico and familiarize themselves with operations and operational climate there. This plan, however, presents a problem as to who is to do the recruiting and training in the U. S. SR Division has offered to be of whatever assistance they can, but there is no indication they could do any better at this than WHD.

5. It may be of interest to you to know that the SR representatives said the best work done anywhere in the world on the BGMORNING case, which has wide international ramifications, was done by LIKAYAK-2 in Mexico.

RECORDS OFFICER STAMP

The following action is authorized:

DATE 16 January 1956

Signed:

R.O. #C30 - Unit 44/1/R

Note: If destruction, cite reasons and coordinate if appropriate.

TO Chief, WHD

FROM Chief of Station, Mexico

SUBJECT GENERAL Operational
SPECIFIC LIPSTICK/LICALLA

REF: a. MEXI 360; b. DIR 38861

1. On 16 December 1955 the daily check of property which this Station may desire to use for operational purposes(LICOOL run) showed that a house adjacent to the LIMERICK target installation was vacant. LIPSTICK-19 was contacted immediately to investigate the property. He reported that it was a one-story house(duplex) in very poor condition which was being repaired by the owner for rental. He further reported that from the maid's room on the roof a clear view of the entire LIMERICK compound was possible and, if he had understood the LIMERICK language, he would have been able to understand several conversations which were going on between LIMERICK officers in the game area of the compound. LIPSTICK-19 also reported that from the roof of this house it was a distance of only approximately fifty feet to the LIMERICK building across flat roofs with no obstructing partitions except for a small wall and several strands of barbed wire, all totalling about four or five feet high between the last roof and the LIMERICK building.

2. Based upon this favorable report, reference A was sent immediately to Headquarters requesting authorization to rent the house. Two days later reference B was received granting approval to rent the house. Consequently, LIPSTICK-21(the only cleared married man available to the Station, with the exception of LIBERTY, who would fit into the area) was approached and requested to rent the house. This posed a considerable problem to LIPSTICK-21, since the house has only two bedrooms and he already had two children, and at that very time his wife was in the hospital giving birth to a third child. Further, he had a very comfortable house (a duplex which he shared with his brother-in-law at a pre-devaluation rent) which he would never be able to again acquire after this operation was terminated. He did, however, agree to take the house and it was

SECRET [redacted]

56-6-74/3

apparent to all concerned that his decision was based upon loyalty to this Station and dedication to the fight against Communism. It is hoped that this unselfish and devoted act of LIPSTICK-21's will be made a matter of permanent record.

3. The reason for LIPSTICK-21 to move from very comfortable quarters at less rent into cramped quarters at a higher rental needed some explanation for his friends and relatives. There is a very fine private school approximately one block from this house which LIPSTICK-21 had often mentioned as the best in the city for his children, and consequently he told everyone that the reason for moving was to be as close as possible to this school so that his children could attend. It should be noted in this respect that, in reality, LIPSTICK-21 had been sending his children to one of the best public schools in Mexico City at no cost. Under the present circumstances, he will have to pay tuition at the private school because it is the only decent school in the area and it provides excellent cover for his residence in the area. It is requested that Headquarters authorize this Station to assist LIPSTICK-21 in the payment of his children's tuition for the above stated reasons. Approximate cost of the tuition would be $20.00 U.S. per child per month, or a total for LIPSTICK-21 of $40.00 US per month. Authorization is requested to assist LIPSTICK-21 by payment of $30.00 U.S. per month.

4. The house is one of a series of one-story houses that extend from the LIMERICK building to a four-story apartment building on the far corner. The fronts of the houses are all directly on the sidewalk with the doors opening onto a one-step stoop. The backs of the houses and the walls of the back patios all abut the compound of the LIMERICK installation. The rear windows of the house face a patio which ends in a brick wall. This brick wall is not as high as the roof of the house, ending about four feet below the level of the roof. There are stairs which ascend from this patio to the roof where the maid's quarters are situated. About halfway up these stairs one can turn and obtain an unrestricted view of the LIMERICK compound. However, the maid's room offers the best operational possibilities since it provides concealment for the observer and his equipment, plus a more advantageous view. LIPSTICK-21 told his maid that she would have to sleep out at a local pension since he needed her room for his radio experiments. This is a plausible story since LIPSTICK-21 is known to be an enthusiastic radio amateur.

5. The maid's room has a door that faces across the roofs in the direction of the LIMERICK installation and one window which faces across the house roof toward the street. A view of the LIMERICK compound is obtained by an observer who is back in the room looking through the partly opened door. Some better method of observation will be worked out which will eliminate the security hazard of a door partially opened at all times of operation.

6. At present we plan to allow LIPSTICK-21 considerable time to get settled securely into his new quarters before starting any operational efforts. After this waiting period is over and we feel that we can securely commence operations, we plan on using the base for the following efforts:

a. A supplementary photographic base. In this connection the request for additional Exactas and spotting scopes previously made should be expedited. It is anticipated that much operation information will be developed by this photographic work showing the various associations between the people when they are at play in the compound which can never be determined from the LIPSTICK-LIMITED coverage. Visitors who seldom leave the compound do engage in social activity within the compound and can be photographed for possible identification by the AEDIPPERS. Items which are loaded into the automobiles for transportation to unknown points may be identified through this coverage. Further, should LIPSTICK/LIMITED be terminated for any reason, we would be able to continue some coverage from this base.

b. Observation by LIPSTICK-21 of the buildings and the activities in the compound will furnish valuable information on the daily living habits of the residents and their guests.

c. The LIPSTICK/LIDOMINO base, presently being occupied by LINCHPIN, is about 75 yards away from the LIMERICK target while LIPSTICK/LICALLA is only about fifty feet. This base may assist the Headquarters technicians, who periodically use the LIPSTICK/LIDOMINO base, for reasons of proximity and the use of their equipment from a different direction. The exact use of the LIPSTICK/LICALLA base in this respect must be determined by the Headquarters technicians who are familiar with the equipment used.

d. Conversations in the LIMERICK compound are audible to someone who is listening from the maid's room. Naturally street noises and extraneous sounds interfere considerably with this eavesdropping so that the employment of some parabolic microphone and recorder must be used for optimum results.

e. Should future operations provide the opportunity to install a transmitter microphone (resonant cavity) in some item carried into the LIMERICK target, LIPSTICK/LICALLA would serve as an excellent base since it has direct line of sight to the back of the LIMERICK target.

f. Preliminary investigation reveals that the possibility does exist that physical access may be obtained to the LIMERICK target from LIPSTICK/LICALIA. This investigation will be intensified and a full report, together with available photographs, will be sent to Headquarters for study by **FEARSON** and NILES as to the feasibility of this type of operation.

7. As stated in paragraphs two and three above, LIPSTICK-21 has undergone considerable personal sacrifice to accommodate this Station in this operation. It has always been the practice to pay a base house operator a starting salary of approximately $120.00 U.S. per month, since the work of operating a base house is almost full-time. LIPSTICK-21 now earns $64.00 U.S. for work of approximately four hours per day. It is therefore requested that this Station be authorized by cable to increase the salary of LIPSTICK-21 to $120.00 U.S. per month.

MEMORANDUM FOR: Associate Deputy Director for Operations

THROUGH: MPS/BG

SUBJECT: Amendment and Termination of Project KDFACTOR

1. Project KDFACTOR supported a visual and photographic surveillance operation in Mexico City targetted against the Soviet Embassy. Assets included five agents and two basehouse surveillance sites. Termination of this project, effective 30 June 1972, was the result of a security review which revealed that the VWBLANKET principal knew the basic details of the KDFACTOR operations.

2. Agent termination was accomplished without any immediate difficulties; however, continued security will depend on the terminated agents' silence. In the event there is a compromise, the risk of damage to the Station's relations with the Mexican Government should be minimized because of the compatible nature of KDFACTOR's operations.

3. The ADDO approved Amendment No. 1 to the project in the amount of $9,844 for FY 1972 to provide for the agent terminations, but an overrun of $7,246 occurred as the result of miscalculation of termination costs. This project action requests this additional sum of $7,246 to cover these expenses.

4. The FI Staff recommends approval of this amendment/termination request.

SECRET

MEMORANDUM FOR: Associate Deputy Director
For Operations

SUBJECT : Project KDFACTOR - Amendment and Termination Request.

1. The KDFACTOR Project (until 1970 encrypted as the LIEMPTY Project) was initially approved in 1958 to provide financial and material support for visual and photographic surveillance operations targetted against the Soviet Embassy in Mexico City. In June 1972 the project supported five agents and two basehouse surveillance sites.

2. The KDFACTOR Project was approved by the ADDO in the amount of $19,000 for FY - 72 and $20,000 for FY - 73. Per DIRECTOR 285255, dated 30 June 1972, the ADDO approved Amendment NO. 1 to the KDFACTOR Project in the amount of $9,844 for FY - 72 to provide for costs of agent terminations.

3. The decision to terminate all agents and facilities under the KDFACTOR Project was based on a security review of the project activities which indicated that the VWBLANKET principal knew the basic details of the KDFACTOR operations, including the target, the location of the surveillance sites, and probably the true names and former cryptonyms of the agents covered by the project.

4. The cost of terminating the agents under the KDFACTOR Project amounted to $15,573; the cost of closing down the two basehouses under the project was $1,412. The total amount charged to the KDFACTOR Project in FY 72 was $36,090 which is $7,246 over the approved authorization of $28,844. The overage was incurred in terminating the agents and facilities associated with the KDFACTOR Project. Although Amendment No. 1 to the project was approved in the amount of $9,844 to cover the cost of terminating the agents in the

26 Apr 73

SECRET

E 2 IMPDET CL BY [illegible]

project, the actual payments made by Mexico City Station per the terms of each Memorandum of Oral Commitment (MOC) and in accordance with Mexican law and custom exceeded the estimate for termination costs made by Headquarters at the time the Amendment was requested. Termination payments made to each agent are as follows:

KDFACTOR-2	(Recruited 1956)	$8,160
KDFACTOR-5	(Recruited 1956)	2,366
KDFACTOR-6	(Recruited 1956)	2,830
KDFACTOR-8	(Recruited 1965)	649
KDFACTOR-9	(Recruited 1966)	1,568

The long tenure of three of the terminated agents, the relatively high monthly salary of KDFACTOR-2 ($440) plus the computation of the termination payments in accordance with Mexican law and custom were the primary reasons that the final agent termination costs amounted to $15,573.

5. All agent terminations were accomplished in an amicable manner. No visible security risks were apparent at the time of the terminations although any one, or all, of the terminated agents may at some future date decide to divulge to an interested party the details of the KDFACTOR Project operations. KDFACTOR-2, KDFACTOR-5, and KDFACTOR-6 have worked in photo surveillance operations for the Station since 1956 and, therefore, obviously have considerable knowledge of targets, former safesites, personnel, and modus operandi of the Station. However, since the KDFACTOR Project was not concerned with incompatible operations or targets, we believe the risks of damage to Station relations with the Mexican Government in the event of exposure of the KDFACTOR Project operations by a terminated agent are within acceptable limits.

6. It is requested that the KDFACTOR Project be amended to provide the sum of $7,246 for FY - 72 to cover the costs of terminating five agents and two basehouse surveillance sites under this project.

7. It is also requested that the termination of the KDFACTOR Project be approved effective 30 June 1972.

The decision to terminate all agents and facilities under the KDFACTOR Project was based on a security review of the project activities which indicated that the VWBLANKET principal knew the basic details of the KDFACTOR operations, including the target, the location of the surveillance sites, and probably the true names and former cryptonyms of the agents covered by the project.

4. The costs of terminating all the agents in the KDFACTOR Project amounted to $15,573.00 which was considerably more than had been initially estimated when Amendment No. 1 for FY-72 was requested and approved. The total amount charged to the KDFACTOR Project in FY-72 was $36,090 which is $7,246 over the project's authorization of $28,844. The overage was incurred in terminating agents and facilities associated with the KDFACTOR Project; the effective date of all terminations was 30 June 1972.

E 2 IMPDET CL BY 055372

5. All agent terminations were accomplished in an amicable manner. No visible security risks were apparent at the time of the ~~terminations~~ although any one, or all of the terminationed agents may at some future date decide to divulge to an interested party the details of the KDFACTOR Project operations. KDFACTOR-2 and KDFACTOR-5 have worked in photo surveillance operations for the Station since 1957 and, therefore, obviously have considerable knowledge of targets, former safesites, personnel, and modus operandi of the Station. However, since the KDFACTOR Project was not concerned with incompatible operations or targets, we believe the risks of damage to Station relations with the Mexican Government in the event of exposure of the KDFACTOR Project operations by a terminated agent are within acceptable limits.

6. It is requested that the KDFACTOR Project be amended to provide the sum of $7,246 for FY-72 to cover the costs of terminating five agents and two basehouse surveillance sites covered by this project.

7. It is also requested that the termination of the KDFACTOR Project be approved effective 30 June 1972.

Theodore G. Shackley
Chief, Western Hemisphere Division

KDFACTOR - Mexico City, Mexico -- Photographic Surveillance Team Support -- FY 1972, Cost $19,000 and FY 1973, Cost $20,000

Fiscal Year	Approved	Obligated
1971	$23,635	$27,586

Changes:

1. The processing of photographs obtained through this project now is performed inside the Station. KDFACTOR-1, who formerly processed the take in an outside safehouse, was terminated amicably in early March 1971. Security and efficiency have been increased by this change. KDFACTOR-1 was terminated in 1970, but the termination payments were made during FY 1971 causing an increase in that years obligations.

2. Howard T. BAGAUS handled the administration of this project to early April 1971 when project responsibility reverted from the Operations Support Section to the REDTOP Section. At that time Timothy H. ARCHBOLD assumed the inside administrative supervision, and agent meetings were turned over to the outside case officer Bruce H. FERNALD. When ARCHBOLD departed PCS on 7 June 1971, Oliver J. MANKUNAS assumed responsibility for this project, including agent meetings.

Accomplishments:

1. This project has provided continuous daily photographic and visual coverage of personnel and vehicles entering or leaving the Soviet Embassy. A total of 530 rolls of film were produced during the reporting period. U.S. citizens, visitors, and TDY personnel are given special attention. Identifications of license plates and automobile descriptions as well as drivers and their companions are identified under this project. Additionally, attendance sheets are maintained to establish who is at the Embassy on any given day and hour.

These photographs and reports have contributed operational support to the Station's Soviet operations which is not attainable elsewhere. For example, whenever the Soviets change all their license numbers the Station is able to compile a new, complete roster within a matter of weeks.

Costs:

1. General: $19,000 is requested for FY 1972 and $20,000 is requested for FY 1973. It is also requested that the Project be amended for FY 1971 in the amount of $4,260 to provide for the termination of KDFACTOR-1 and KDFACTOR-7.

2. Source of Funds: Project KDFACTOR is included in the Western Hemisphere Division's Operational Program in the amount of $23,735 for FY 1972 and $24,182 for FY 1973.

3. Project Budget:

	FY 1970 Estimated Obligations	FY 72	FY 73	FY 74

8 DEC 1971

MEMORANDUM FOR: Assistant Deputy Director for Plans

THROUGH: MPS/BG

SUBJECT: Renewal of Project KDFACTOR
in 1972 for $19,000
in 1973 for $20,000

1. This project covers photo and visual surveillance of the Soviet Embassy in Mexico City. One observation post covers the front gate of the building, and another covers the rear gate and walled compound. Five salaried agents man the sites, four in front and one in back. An official cover case officer collects the take (rolls of film and logs of visitors) once a week by car meetings with the OP keepers. The films are developed and printed inside the Station.

2. The production from this operation has consistently been rated high by the Bureau (which is the principal customer in the field), by other Government agencies and by SB Division. Photosurveillance of a Soviet Embassy might not be a high priority target in some countries. But the fact that the Soviet Embassy in Mexico is a large and active one and the fact that its primary target is operations against the United States make our effort important and valuable. This is the operation that produced the photographs of Lee Harvey Oswald visiting the Soviet Embassy in 1962.

This is in error,
D/IG,
17 Apr 77

3. This seemingly straightforward operation has not always been so uncomplicated. Both sites have been in operation and served by the same OP keepers for more than a dozen years. At one of the sites the OP keeper's wife and children take turns manning the equipment. A now-terminated principal agent was divorced several years ago from a wife who knew a lot about the operation. Some desk officers believe that the medical doctor who for years was supposed to be developing the films was simply too busy to do so and that the work was probably done by his uncleared secretary. Family relationships keep cropping up among supposedly compartmented agents. All of this is in the files but not in any one place. We

believe it is time for the Station to make an updated security review of the operation with particular attention to the knowledgeability of terminated agents and their families. We also believe that the Station should now address itself to the contingency that the present sites or personnel will be blown and to investigate alternative means of continuing their valuable coverage.

4. The ADDP last approved this project in May 1970 with the condition that termination payments to the principal agent and his divorced wife be made on a monthly basis. This condition has been met.

5. The budgets requested for the next two years are simple and straightforward. Salaries and the traditional bonuses for the five paid agents come to about $13,000. Rent and utilities on the two observation posts come to $5,600. The small balance is for operational expenses. This project action also requests amendment of the FY 1971 budget by $4,260 to cover that part of the cost of termination bonuses to the principal agent and his divorced wife which could not be absorbed by the project. The total of the termination bonuses was $12,500.

6. This is a valuable and productive project which helps fulfill a Priority A-1 Station requirement. The FI Staff recommends approval.

SUBJECT: FI Project KDFACTOR
FY 1971 Amendment No. 1
Biennial Renewal
Proposal for Fiscal
Years 1972 and 1973

1. On 10 December 1971 I approved subject actions in the amounts specified below:

a.	FY 1971 Amendment No. 1	- For $4,260, increasing the project's FY 1971 funds authorization (from $23,630) to $27,890.
b.	FY 1972 Renewal	- For $19,000 *
c.	FY 1973 Renewal	- For $20,000

2. I ask that the Station conduct an updated security review of this operation, giving particular attention to the knowledgeability of terminated agents and their families as discussed in paragraph 3 of referent memorandum.

3. Also, I ask that you provide me (via MPS/BG) with a memorandum report summarizing the results of the above (paragraph 2) security review by 31 March 1972.

Cord Meyer Jr.

Cord Meyer, Jr.

KDFACTOR - Mexico City, Mexico -- Photographic Surveillance Team Support -- FY 1972, Cost $19,000 and FY 1973, Cost $20,000

Fiscal Year	Approved	Obligated
1971	$23,635	$27,586

Changes:

1. The processing of photographs obtained through this project now is performed inside the Station. KDFACTOR-1, who formerly processed the take in an outside safehouse, was terminated amicably in early March 1971. Security and efficiency have been increased by this change. KDFACTOR-7 was terminated in 1970, but the termination payments were made during FY 1971 causing an increase in that years obligations.

2. Howard T. BAGAUS handled the administration of this project to early April 1971 when project responsibility reverted from the Operations Support Section to the REDTOP Section. At that time Timothy H. ARCHBOLD assumed the inside administrative supervision, and agent meetings were turned over to the outside case officer Bruce H. FERNALD. When ARCHBOLD departed PCS on 7 June 1971, Oliver J. MANKUNAS assumed responsibility for this project, including agent meetings.

Accomplishments:

1. This project has provided continuous daily photographic and visual coverage of personnel and vehicles entering or leaving the Soviet Embassy. A total of 530 rolls of film were produced during the reporting period. U.S. citizens, visitors, and TDY personnel are given special attention. Identifications of license plates and automobile descriptions as well as drivers and their companions are identified under this project. Additionally, attendance sheets are maintained to establish who is at the Embassy on any given day and hour.

SECRET

GROUP 1
Excluded from automatic
downgrading and
declassification

These photographs and reports have contributed operational support to the Station's Soviet operations which is not attainable elsewhere. For example, whenever the Soviets change all their license numbers the Station is able to compile a new, complete roster within a matter of weeks.

Costs:

1. General: $19,000 is requested for FY 1972 and $20,000 is requested for FY 1973. It is also requested that the Project be amended for FY 1971 in the amount of $4,260 to provide for the termination of KDFACTOR-1 and KDFACTOR-7.

2. Source of Funds: Project KDFACTOR is included in the Western Hemisphere Division's Operational Program in the amount of $23,735 for FY 1972 and $24,182 for FY 1973.

3. Project Budget:

	FY 1971 Estimated Obligations	FY 72	FY 73	FY 74
Salaries

LIEMPTY - Mexico City, Mexico -- Photographic Surveillance Team Support -- FY 1971, Cost $23,635.

Fiscal Year	Approved	Obligated
1966	$43,145	$36,294
1967	45,000	42,082
1968	42,185	42,158
1969	43,520	41,416
1970	38,970	49,468 (Projected)

Purpose:

Project LIEMPTY supports a visual and photographic surveillance of the Soviet Embassy in Mexico City. The aim is to identify and cover the movements of persons entering and leaving the Embassy, including Soviets and visitors. The intelligence collected through such activity contributes to the Station's overall Soviet operations program, mainly in support of Priority A-1, but to some extent, Priority A-4, of the Operating Directive for Mexico.

Description:

1. The Project operates through two fixed basehouse surveillance posts, a small photographic laboratory, a principal agent, and six sub-agents. A team of four sub-agents, operating from a basehouse, maintains visual and photographic surveillance of the Soviet Embassy front entrance. One sub-agent, operating from a second basehouse, covers an area in back of the Embassy, where Soviet officials meet, play and work. These units photograph all persons moving in or out of the specific target areas. They also maintain logs and provide written reports on observed activity. All of this material is passed to the principal agent, who passes the film to another sub-agent for processing at a laboratory equipped for that purpose. After the film is processed and printed, the principal agent passes the finished product, plus written reports and logs, to the Station case officer. A brief description of each unit, each agent and his role in the operation follows.

2. LILYRIC (MEXI-132) is a basehouse located near the front of the Soviet Embassy. This house has been in operation since October 1966. It is rented through LIMOUSINE (201-5762), a cleared American businessman. He is the ostensible owner of record and, as the landlord, collects rent from the tenants and then passes it to the Station case officer. LIEMPTY-13 and his family (see paragraph 3 below) live in the LILYRIC house and conduct their surveillance operation from it during daylight hours (0800-1800).

3. LIEMPTY-13 (201-119961) is the key member of the LILYRIC basehouse team. He maintains contact with the principal agent and does some photographic work. However, because LIEMPTY-13 is employed outside as an industrial engineer, he is unable to spend much time operating the LILYRIC photographic equipment, and most of this work is done by his wife, LIEMPTY-14, and their sons, LIEMPTY-26 and LIEMPTY-27 (see paragraphs 4, 5 and 6 below).

4. LIEMPTY-14 (201-167567) is the main photographer and observer at the LILYRIC basehouse. She works closely with her husband, LIEMPTY-13, in running the operation, including the preparation of observation reports and logs. She also does the LILYRIC housekeeping, as any housewife would do.

5. LIEMPTY-26 (201-762111), the son of LIEMPTY-13 and LIEMPTY-14, has been a student at the Mexican Technological Institute. In his spare time he operates the LILYRIC photographic equipment, and helps LIEMPTY-14 in maintaining the arrival and departure logs of target personalities.

6. LIEMPTY-27 (201-762112), another son of LIEMPTY-13 and LIEMPTY-14, has been a prep school student. He assists in operating the LILYRIC photographic equipment and transcribes notes into a finished typewritten log of events.

7. LICALLA (MEXI-03) is a basehouse located behind the Soviet Embassy. It has been in operation since 1957. The building, a four-unit affair, collectively known as LIMUST, is Agency owned. It was purchased through LIMOUSINE in September 1957, and the property is in his name. The LICALLA site is occupied by LIEMPTY-9 (see paragraph 8 below) and he runs the surveillance operation from it.

8. LIEMPTY-9 (201-136454) is the only agent operating from the LICALLA site. He does all the photography, maintains logs and prepares observation reports. He also maintains contact with the principal agent. LIEMPTY-9 is a part-time insurance salesman and is self-employed in the accounting business, which he conducts at the LICALLA site.

9. Raymond H. GERENDE (201-119523) has been the principal agent for this project. He is a Mexican national contract agent who is self-employed as an English teacher and also works as a salesman for a light bulb manufacturer. GERENDE has been mainly responsible for maintaining contact with the LIEMPTY agents, passing instructions to them, and collecting the product for passing to the Station case officer. He has also paid them and handled all other administrative matters. He is being terminated by the end of FY 1970 for security reasons (see Problems, paragraph 1).

10. Bruce H. FERNALD (P) (201-008189) replaced GERENDE (see paragraph 9 above) as the project's principal agent in early December 1969. FERNALD, a U.S. citizen born in June 1915, operates under non-official cover as a retired immigrant. He is responsible for maintaining contact with the LIEMPTY agents and collecting the product for passing to the Station case officer. He also handles administrative matters, including agent salary payments. FERNALD is financially covered under Project AEMAGNIFY.

11. The LIEMPTY photographic laboratory (MEXI-137) is located in a room at GERENDE's residence. It is equipped to process the photographs taken by the LIEMPTY surveillance units. The work is done by LIEMPTY-4. (See paragraph 12 below). Since GERENDE will be terminated by the end of FY 1970, the Station is taking steps to establish a new LIEMPTY photographic laboratory at a new safesite.

12. LIEMPTY-4 (201-117967) processes all the photographic film taken by the LIEMPTY photographers and makes the number of prints required. He does this work at night in the LIEMPTY photographic laboratory. He is self-employed as a medical doctor, and he is a brother-in-law of GERENDE, in whose home the laboratory is located.

Changes:

1. The LIENTRAP mobile unit, consisting of LIEMPTY-10 and LIEMPTY-11, is being removed from Project LIEMPTY and placed under Project LIEMBRACE, which supports a unilateral physical surveillance team. The purpose of this change is to increase the size of the LIEMBRACE team in order to meet a growing demand for operational surveillance support from the various Station operating sections. The transfer will become effective at the beginning of FY 1971 and both FY 1971 project budgets have been adjusted to cover financial aspects of the change.

2. Raymond H. GERENDE was removed as the LIEMPTY principal agent in early December 1969 owing to a security problem (see Problems, paragraph 1). He was replaced on 9 December 1969 by Bruce H. FERNALD, a career agent operating under cover as a retired immigrant. The change has caused some delay in the receipt of photographs because FERNALD is unable to meet LIEMPTY agents as frequently as GERENDE had met them, but operational effectiveness is not significantly reduced by this delay. The key issue is that security and reliability of the principal agent have improved considerably.

Accomplishments:

1. Project LIEMPTY has provided continuous daily photographic and visual coverage (Monday through Saturday) of the front entrance and rear areas of the Soviet Embassy in Mexico City. All Soviet personnel and their visitors entering or leaving the Embassy have been photographed. In addition, visual surveillance reports were prepared when appropriate. These photographs and reports have contributed essential operational support to the Station's Soviet operations program.

2. Recently, LIEMPTY photographs were exclusively used to produce an updated mugbook on Soviet officials in Mexico. The book has been loaned to the FBI, AF/OSI and the 902nd Military Intelligence Group for operational use in debriefing their agents engaged in dangle operations and double agent operations against the Soviet services in Mexico City. One 902nd controlled agent was identified from an LIEMPTY photograph taken when the agent tried to contact the Soviets at

the Soviet Embassy in Mexico City. Similarly, an AF/OSI controlled agent scheduled to meet a Soviet contact was unable to do so owing to illness, but LIEMPTY photographed another person who appeared at the meeting site and this person is believed to be the agent's Soviet case officer. Such coverage has been helpful to the 902nd, AF/OSI and the FBI in running their controlled double agent operations against the Soviets in Mexico.

3. Within one week after a biannual change of license plates on Soviet Embassy vehicles, LIEMPTY had provided a complete list of the new tag numbers, along with a complete identification of the vehicles. Among other things, this enabled the Station to identify the companions of Aleksandr Aleksandrovich NIKITIN, a known KGB officer, during his last few days in Mexico.

4. LIEMPTY has also determined that newcomers to the Soviet Embassy frequently gravitate to groupings with their RIS colleagues in the "safety" of the Embassy backyard. This fact enabled the Station to make certain tentative KGB and GRU identifications. In addition, certain TDYers have been linked up with their escort officers and clues to personal relationships have occasionally been exploited.

5. In the field of Soviet patterns of activity and associations, LIEMPTY has been able to report accurate changes in certain specific cases. LIEMPTY coverage showed that NIKITIN, mentioned in paragraph 3 above, changed his activity pattern following the defection of Raisa Yerofeyevna KISELNIKOVA, former secretary in the Commercial Mission in Mexico. The same applies to Oleg NECHIPORENKO, a Second Secretary at the Embassy and a known KGB officer. LIEMPTY also provided information on the patterns and associations of Yuriy Viktorovich KUPLYAKOV, a known KGB officer and on Valeriy Vladimirovich SOKOLIN, a known GRU officer. Coverage of Vladimir Viktorovich GORDEYEV, a suspect KGB officer, showed that he did, in fact, work in a "restricted area" at the Soviet Embassy and also established who some of his associates were. In the case of Oleg Konstantinovich IGNATYEV, who had arrived in Mexico City from Caracas, Venezuela, LIEMPTY was able to observe IGNATYEV entering and leaving in the company of Svyastoslav Fedorovich KUZNETSOV, Press Attache and First Secretary of the Soviet Embassy. IGNATYEV also visited the Soviet Embassy

several other times during his stay in Mexico City and had contact with other known Soviet intelligence officers while visiting. This kind of information is a basic contribution to the Station's continuing efforts to identify and assess certain Soviets for possible recruitment or defection.

6. At Headquarters, the Soviet Bloc Division uses LIEMPTY photographs, particularly photographs of Soviet Embassy officials, for identification purposes in connection with defector cases. The LIEMPTY material also keeps the Station's Soviet section up-to-date on which Soviet officers have been in the Embassy, which ones have been away; who has used which car; who has been in contact with whom; and other similar information useful in the conduct of Soviet operations.

Problems:

1. A security problem has developed involving Raymond H. GERENDE. According to GERENDE, his wife wants a divorce, apparently based mainly on incompatability of personalities. The problem basically is that both want custody of the children and this has sparked a dispute that has become more bitter and violent daily. In addition, the monetary settlement is in dispute. The problem is compounded by the fact that GERENDE's wife knows in some considerable detail of GERENDE's activities on behalf of the Agency. Thus, if the case does go to court, it could lead to the surfacing of GERENDE's Agency employment and possible compromise of LILYRIC, LICALLA and LIENTRAP. Even if the case does not go to court, GERENDE's wife could expose him as an Agency employee. Since late 1969, Mexico City Station has been in touch with both GERENDE and his wife on this problem, and every effort is being made by the Station to have both parties settle the divorce out of court, and to protect GERENDE's cover and that of the project. After weighing all factors, it has been decided that continued employment of GERENDE is not an acceptable risk, and the decision has been reached to terminate him by the end of FY 1970. GERENDE will be paid a termination bonus of $10,000 for 15 years service, about $1,250 more than the $8,750 his contract calls for, in order to ensure that the termination is amicable and thereby preserve

project security. In addition, his wife, LIEMPTY-19 will be given $2,500 as a security measure designed to keep her from revealing what she knows about project operations. The FY 1970 budget is being amended to cover this amount.

2. Other aspects of security continue relatively unchanged. All the agents still have jobs to backstop their Agency wages. The Station is compartmented from the action agents through FERNALD, whose contact with the sub-agents is reasonably well covered by his status as a retired immigrant. FERNALD has been meeting LIEMPTY-9 and LITEMPY-13 since 9 December 1969. Brief meetings are held once each week at pre-arranged times and places, well away from the target area. Occasionally emergency meetings are called, by phone, if special coverage is desired. FERNALD also meets LIEMPTY-4 to exchange films and prints. These meetings are held weekly at pre-arranged times and places. FERNALD can change meeting plans by calling LIEMPTY-4 directly by telephone. In addition, LIEMPTY-4 has been given a special extension in the Station through which he may call as "Dr. Carlos" to leave a message for "Victor" (FERNALD). The Station case officer maintains weekly clandestine contact with FERNALD in order to manage the operation and collect the product.

Coordination:

Ambassador McBride has not been briefed on Project LIEMPTY.

Future Plans:

1. The surveillance units are expected to continue to produce valuable information in the form of photographic coverage and visual surveillance reports on the daily movements, personal associations, and habit patterns of persons frequenting the Soviet Embassy, including Soviet officials. Operational procedures and the project mechanism will continue as it has in the past, except that Bruce H. FERNALD, a new principal agent, will be in charge of the operation (see Changes, paragraph 2).

2. The Project does not include an up-dated plan for emergency contact during violent action or government overthrow. The Station has been requested to prepare an updated emergency contact plan and submit it to Headquarters in the first FY 1971 quarterly progress report.

Costs:

1. General: $23,635 is requested for FY 1971. It is requested that the project be amended for FY 1970 in the amount of $10,498 (from $38,970 to $49,468) in order to cover termination payments to Raymond H. GERENDE and his wife, LIEMPTY-19.

2. Source of Funds: Project LIEMPTY is included in the Western Hemisphere Division's FY 1971 Operating Program in the amount of $40,000. Funds for the FY 1970 amendment will be absorbed in the current WH Division's finance allocation.

3. Project Budget:

	FY 1970 Estimated Obligations	FY 1971 Request	FY 1972 Projection
Raymond H. GERENDE Salary	$ 6,500	$ -0-	$ -0-
LIEMPTY-4 Salary	2,400	2,640	2,640
LIEMPTY-9 Salary	4,320	4,752	4,752
LIEMPTY-10 Salary	4,224	-0-	-0-
LIEMPTY-11 Salary	2,736	-0-	-0-
LIEMPTY-13 Salary	1,536	1,690	1,690
LIEMPTY-14 Salary	1,824	2,006	2,006
LIEMPTY-26 Salary	672	739	739
LIEMPTY-27 Salary	1,728	1,901	1,901
LICALLA Safehouse Rent (MEXI-03)	1,248	1,373	1,373
LILYRIC Safehouse Rent (MEXI-132)	2,880	2,880	2,880
Safehouse Utilities	1,100	1,200	1,300
GERENDE Dark Room Rent (MEXI-137)	960	-0-	-0-
MV-2823* and 2947 Maintenance	1,200	600	600
Property Maintenance and Replacement	500	500	500
Photographic and Other Supplies	1,000	1,000	1,000
Christmas Bonuses	2,140	2,354	2,354
LIEMPTY-19 Termination Bonus	2,500	-0-	-0-
GERENDE Termination Bonus	10,000	-0-	-0-
TOTAL	$49,468	$23,635**	$23,735

*MV-2823 to be sold in FY 1970 and not replaced.

**Decrease from FY 1970 figure due to GERENDE termination. His replacement is covered under Project AEMAGNIFY.

14-00000

4. Foreign Currency: There is no special need for foreign currency. No non-CIA funds are used.

5. Commitments: Christmas bonuses to all agents totaling $2,354 for FY 1971, and termination pay in an amount to be determined by the agents record and length of service.

6. Funding: Funds are hand-carried from the Station case officer to FERNALD, and from FERNALD to the sub-agents. The transfer of funds takes place under clandestine meeting conditions, and appropriate security measures are always taken.

7. Accountability: FERNALD accounts in detail to his case officer, who in turn submits receipts to the Station and certifies that funds were spent to cover expenses for which it was intended.

LIEMPTY - Mexico City, Mexico -- Photographic Surveillance Team Support -- FY 1971, Cost $23,635.

Fiscal Year	Approved	Obligated
1966	$43,145	$36,294
1967	43,000	42,082
1968	42,185	42,158
1969	43,320	41,416
1970	38,970	49,468 (Projected)

Purpose:

Project LIEMPTY supports a visual and photographic surveillance of the Soviet Embassy in Mexico City. The aim is to identify and cover the movements of persons entering and leaving the Embassy, including Soviets and visitors. The intelligence collected through such activity contributes to the Station's overall Soviet operations program, mainly in support of Priority A-1, but to some extent, Priority A-4, of the Operating Directive for Mexico.

Description:

1. The Project operates through two fixed basehouse surveillance posts, a small photographic laboratory, a principal agent, and six sub-agents. A team of four sub-agents, operating from a basehouse, maintains visual and photographic surveillance of the Soviet Embassy front entrance. One sub-agent, operating from a second basehouse, covers an area in back of the Embassy, where Soviet officials meet, play and work. These units photograph all persons moving in or out of the specific target areas. They also maintain logs and provide written reports on observed activity. All of this material is passed to the principal agent, who passes the film to another sub-agent for processing at a laboratory equipped for that purpose. After the film is processed and printed, the principal agent passes the finished product, plus written reports and logs, to the Station case officer. A brief description of each unit, each agent and his role in the operation follows.

2. LILYRIC (MEXI-132) is a basehouse located near the front of the Soviet Embassy. This house has been in operation since October 1966. It is rented through LIMOUSINE (201-5762), a cleared American businessman. He is the ostensible owner of record and, as the landlord, collects rent from the tenants and then passes it to the Station case officer. LIEMPTY-13 and his family (see paragraph 3 below) live in the LILYRIC house and conduct their surveillance operation from it during daylight hours (0800-1800).

3. LIEMPTY-13 (201-119961) is the key member of the LILYRIC basehouse team. He maintains contact with the principal agent and does some photographic work. However, because LIEMPTY-13 is employed outside as an industrial engineer, he is unable to spend much time operating the LILYRIC photographic equipment, and most of this work is done by his wife, LIEMPTY-14, and their sons, LIEMPTY-26 and LIEMPTY-27 (see paragraphs 4, 5 and 6 below).

4. LIEMPTY-14 (201-167567) is the main photographer and observer at the LILYRIC basehouse. She works closely with her husband, LIEMPTY-13, in running the operation, including the preparation of observation reports and logs. She also does the LILYRIC housekeeping, as any housewife would do.

5. LIEMPTY-26 (201-762111), the son of LIEMPTY-13 and LIEMPTY-14, has been a student at the Mexican Technological Institute. In his spare time he operates the LILYRIC photographic equipment, and helps LIEMPTY-14 in maintaining the arrival and departure logs of target personalities.

6. LIEMPTY-27 (201-762112), another son of LIEMPTY-13 and LIEMPTY-14, has been a prep school student. He assists in operating the LILYRIC photographic equipment and transcribes notes into a finished typewritten log of events.

7. LICALLA (MEXI-03) is a basehouse located behind the Soviet Embassy. It has been in operation since 1957. The building, a four-unit affair, collectively known as LIMUST, is Agency owned. It was purchased through LIMOUSINE in September 1957, and the property is in his name. The LICALLA site is occupied by LIEMPTY-9 (see paragraph 8 below) and he runs the surveillance operation from it.

8. LIEMPTY-9 (201-136454) is the only agent operating from the LICALLA site. He does all the photography, maintains logs and prepares observation reports. He also maintains contact with the principal agent. LIEMPTY-9 is a part-time insurance salesman and is self-employed in the accounting business, which he conducts at the LICALLA site.

9. Raymond H. GERENDE (201-119523) has been the principal agent for this project. He is a Mexican national contract agent who is self-employed as an English teacher and also works as a salesman for a light bulb manufacturer. GERENDE has been mainly responsible for maintaining contact with the LIEMPTY agents, passing instructions to them, and collecting the product for passing to the Station case officer. He has also paid them and handled all other administrative matters. He is being terminated by the end of FY 1970 for security reasons (see Problems, paragraph 1).

10. Bruce H. FERNALD (P) (201-008189) replaced GERENDE (see paragraph 9 above) as the project's principal agent in early December 1969. FERNALD, a U.S. citizen born in June 1915, operates under non-official cover as a retired immigrant. He is responsible for maintaining contact with the LIEMPTY agents and collecting the product for passing to the Station case officer. He also handles administrative matters, including agent salary payments. FERNALD is financially covered under Project AEMAGNIFY.

11. The LIEMPTY photographic laboratory (MEXI-137) is located in a room at GERENDE's residence. It is equipped to process the photographs taken by the LIEMPTY surveillance units. The work is done by LIEMPTY-4. (See paragraph 12 below). Since GERENDE will be terminated by the end of FY 1970, the Station is taking steps to establish a new LIEMPTY photographic laboratory at a new safesite.

12. LIEMPTY-4 (201-117967) processes all the photographic film taken by the LIEMPTY photographers and makes the number of prints required. He does this work at night in the LIEMPTY photographic laboratory. He is self-employed as a medical doctor, and he is a brother-in-law of GERENDE, in whose home the laboratory is located.

Changes:

1. The LIENTRAP mobile unit, consisting of LIEMPTY-10 and LIEMPTY-11, is being removed from Project LIEMPTY and placed under Project LIEMBRACE, which supports a unilateral physical surveillance team. The purpose of this change is to increase the size of the LIEMBRACE team in order to meet a growing demand for operational surveillance support from the various Station operating sections. The transfer will become effective at the beginning of FY 1971 and both FY 1971 project budgets have been adjusted to cover financial aspects of the change.

2. Raymond H. GERENDE was removed as the LIEMPTY principal agent in early December 1969 owing to a security problem (see Problems, paragraph 1). He was replaced on 9 December 1969 by Bruce H. FERNALD, a career agent operating under cover as a retired immigrant. The change has caused some delay in the receipt of photographs because FERNALD is unable to meet LIEMPTY agents as frequently as GERENDE had met them, but operational effectiveness is not significantly reduced by this delay. The key issue is that security and reliability of the principal agent have improved considerably.

Accomplishments:

1. Project LIEMPTY has provided continuous daily photographic and visual coverage (Monday through Saturday) of the front entrance and rear areas of the Soviet Embassy in Mexico City. All Soviet personnel and their visitors entering or leaving the Embassy have been photographed. In addition, visual surveillance reports were prepared when appropriate. These photographs and reports have contributed essential operational support to the Station's Soviet operations program.

2. Recently, LIEMPTY photographs were exclusively used to produce an updated mugbook on Soviet officials in Mexico. The book has been loaned to the FBI, AF/OSI and the 902nd Military Intelligence Group for operational use in debriefing their agents engaged in dangle operations and double agent operations against the Soviet services in Mexico City. One 902nd controlled agent was identified from an LIEMPTY photograph taken when the agent tried to contact the Soviets at

the Soviet Embassy in Mexico City. Similarly, an AF/OSI controlled agent scheduled to meet a Soviet contact was unable to do so owing to illness, but LIEMPTY photographed another person who appeared at the meeting site and this person is believed to be the agent's Soviet case officer. Such coverage has been helpful to the 902nd, AF/OSI and the FBI in running their controlled double agent operations against the Soviets in Mexico.

3. Within one week after a biannual change of license plates on Soviet Embassy vehicles, LIEMPTY had provided a complete list of the new tag numbers, along with a complete identification of the vehicles. Among other things, this enabled the Station to identify the companions of Aleksandr Aleksandrovich NIKITIN, a known KGB officer, during his last few days in Mexico.

4. LIEMPTY has also determined that newcomers to the Soviet Embassy frequently gravitate to groupings with their RIS colleagues in the "safety" of the Embassy backyard. This fact enabled the Station to make certain tentative KGB and GRU identifications. In addition, certain TDYers have been linked up with their escort officers and clues to personal relationships have occasionally been exploited.

5. In the field of Soviet patterns of activity and associations, LIEMPTY has been able to report accurate changes in certain specific cases. LIEMPTY coverage showed that NIKITIN, mentioned in paragraph 3 above, changed his activity pattern following the defection of Raisa Yerofeyevna KISELNIKOVA, former secretary in the Commercial Mission in Mexico. The same applies to Oleg NECHIPORENKO, a Second Secretary at the Embassy and a known KGB officer. LIEMPTY also provided information on the patterns and associations of Yuriy Viktorovich KUPLYAKOV, a known KGB officer and on Valeriy Vladimirovich SOKOLIN, a known GRU officer. Coverage of Vladimir Viktorovich GORDEYEV, a suspect KGB officer, showed that he did, in fact, work in a "restricted area" at the Soviet Embassy and also established who some of his associates were. In the case of Oleg Konstantinovich IGNATYEV, who had arrived in Mexico City from Caracas, Venezuela, LIEMPTY was able to observe IGNATYEV entering and leaving in the company of Svyastoslav Fedorovich KUZNETSOV, Press Attache and First Secretary of the Soviet Embassy. IGNATYEV also visited the Soviet Embassy

several other times during his stay in Mexico City and had contact with other known Soviet intelligence officers while visiting. This kind of information is a basic contribution to the Station's continuing efforts to identify and assess certain Soviets for possible recruitment or defection.

6. At Headquarters, the Soviet Bloc Division uses LIEMPTY photographs, particularly photographs of Soviet Embassy officials, for identification purposes in connection with defector cases. The LIEMPTY material also keeps the Station's Soviet section up-to-date on which Soviet officers have been in the Embassy, which ones have been away; who has used which car; who has been in contact with whom; and other similar information useful in the conduct of Soviet operations.

Problems:

1. A security problem has developed involving Raymond H. GERENDE. According to GERENDE, his wife wants a divorce, apparently based mainly on incompatability of personalities. The problem basically is that both want custody of the children and this has sparked a dispute that has become more bitter and violent daily. In addition, the monetary settlement is in dispute. The problem is compounded by the fact that GERENDE's wife knows in some considerable detail of GERENDE's activities on behalf of the Agency. Thus, if the case does go to court, it could lead to the surfacing of GERENDE's Agency employment and possible compromise of LILYRIC, LICALLA and LIENTRAP. Even if the case does not go to court, GERENDE's wife could expose him as an Agency employee. Since late 1969, Mexico City Station has been in touch with both GERENDE and his wife on this problem, and every effort is being made by the Station to have both parties settle the divorce out of court, and to protect GERENDE's cover and that of the project. After weighing all factors, it has been decided that continued employment of GERENDE is not an acceptable risk, and the decision has been reached to terminate him by the end of FY 1970. GERENDE will be paid a termination bonus of $10,000 for 15 years service, about $1,250 more than the $8,750 his contract calls for, in order to ensure that the termination is amicable and thereby preserve

project security. In addition, his wife, LIEMPTY-19 will be given $2,500 as a security measure designed to keep her from revealing what she knows about project operations. The FY 1970 budget is being amended to cover this amount.

2. Other aspects of security continue relatively unchanged. All the agents still have jobs to backstop their Agency wages. The Station is compartmented from the action agents through FERNALD, whose contact with the sub-agents is reasonably well covered by his status as a retired immigrant. FERNALD has been meeting LIEMPTY-9 and LITEMPY-13 since 9 December 1969. Brief meetings are held once each week at pre-arranged times and places, well away from the target area. Occasionally emergency meetings are called, by phone, if special coverage is desired. FERNALD also meets LIKMPTY-4 to exchange films and prints. These meetings are held weekly at pre-arranged times and places. FERNALD can change meeting plans by calling LIEMPTY-4 directly by telephone. In addition, LIEMPTY-4 has been given a special extension in the Station through which he may call as "Dr. Carlos" to leave a message for "Victor" (FERNALD). The Station case officer maintains weekly clandestine contact with FERNALD in order to manage the operation and collect the product.

Coordination:

Ambassador McBride has not been briefed on Project LIEMPTY.

Future Plans:

1. The surveillance units are expected to continue to produce valuable information in the form of photographic coverage and visual surveillance reports on the daily movements, personal associations, and habit patterns of persons frequenting the Soviet Embassy, including Soviet officials. Operational procedures and the project mechanism will continue as it has in the past, except that Bruce H. FERNALD, a new principal agent, will be in charge of the operation (see Changes, paragraph 2).

2. The Project does not include an up-dated plan for emergency contact during violent action or government overthrow. The Station has been requested to prepare an updated emergency contact plan and submit it to Headquarters in the first FY 1971 quarterly progress report.

Costs:

1. General: $23,635 are requested for FY 1971. It is requested that the project be amended for FY 1970 in the amount of $10,498 (from $38,970 to $49,468) in order to cover termination payments to Raymond H. GERENDE and his wife, LIEMPTY-19.

2. Source of Funds: Project LIEMPTY is included in the Western Hemisphere Division's FY 1971 Operating Program in the amount of $40,000. Funds for the FY 1970 amendment will be absorbed in the current WH Division's finance allocation.

3. Project Budget:

	FY 1970 Estimated Obligations	FY 1971 Request	FY 1972 Projection
Raymond H. GERENDE Salary	$ 6,500	$ -0-	$ -0-
LIEMPTY-4 Salary	2,400	2,640	2,640
LIEMPTY-9 Salary	4,320	4,752	4,752
LIEMPTY-10 Salary	4,224	-0-	-0-
LIEMPTY-11 Salary	2,736	-0-	-0-
LIEMPTY-13 Salary	1,836	1,690	1,690
LIEMPTY-14 Salary	1,824	2,006	2,006
LIEMPTY-26 Salary	672	739	739
LIEMPTY-27 Salary	1,728	1,901	1,901
LICALLA Safehouse Rent (MEXI-03)	1,248	1,373	1,373
LILYRIC Safehouse Rent (MEXI-132)	2,880	2,880	2,880
Safehouse Utilities	1,100	1,200	1,300
GERENDE Dark Room Rent (MEXI-137)	960	-0-	-0-
MV-2823* and 2947 Maintenance	1,200	600	600
Property Maintenance and Replacement	500	500	500
Photographic and Other Supplies	1,000	1,000	1,000
Christmas Bonuses	2,140	2,354	2,354
LIEMPTY-19 Termination Bonus	2,500	-0-	-0-
GERENDE Termination Bonus	10,000	-0-	-0-
TOTAL	$49,468	$23,635**	$23,735

*MV-2823 to be sold in FY 1970 and not replaced.
**Decrease from FY 1970 figure due to GERENDE termination. His replacement is covered under Project AEMAGNIFY.

4. **Foreign Currency:** There is no special need for foreign currency. No non-CIA funds are used.

5. Commitments: Christmas bonuses to all agents totaling $2,354 for FY 1971, and termination pay in an amount to be determined by the agents record and length of service.

6. Funding: Funds are hand-carried from the Station case officer to FERNALD, and from FERNALD to the sub-agents. The transfer of funds takes place under clandestine meeting conditions, and appropriate security measures are always taken.

7. Accountability: FERNALD accounts in detail to his case officer, who in turn submits receipts to the Station and certifies that funds were spent to cover expenses for which it was intended.

8. Annexes: None

COMMENT FOR INTERNAL STAFF USE (*Not to go forward to the Division*)

COMMENTS AND RECOMMENDATIONS (*To go forward to the Division*)

The CI Staff concurs in the renewal of this extremely valuable operational support project. The Staff desires to be kept informed on all security developments and repercussions resulting from the divorce problems of Gerende (P) and his wife. The Staff urges the Station to continue its all-our efforts to keep this divorce out of the courts.

19 MAY 1970

MEMORANDUM FOR : Assistant Deputy Director for Plans

THROUGH : MPS/BG

SUBJECT : Renewal of Project LIEMPTY

1. WH Division requests renewal of Mexico City Station's Operational Support Project, LIEMPTY, for $23,635 for Fiscal Year 1971 and a $10,498 amendment for FY 1970 to cover termination payments to a former Principal Agent and his wife. Last year LIEMPTY was approved for $38,970. One agent termination and the transfer of the cost of a mobile surveillance unit to another project are responsible for the reduced FY 1971 request.

2. LIEMPTY supports a visual and photographic surveillance of the Soviet Embassy in Mexico City. It includes a Principal Agent, Raymond H. GERENDE (P), and 6 subagents who maintain two separate safehouses, one in front and one in the rear of the Soviet Embassy, from which anyone entering or leaving the Embassy can be observed and photographed. The various members of the team handle and service the photographic equipment, develop and print photographs, keep observation reports and logs, including the arrival and departure of target persons, and maintain the two safehouses mentioned above.

3. This project does not provide positive intelligence, except incidentally. It is designed to furnish a running account, both photographic and in writing, of all Soviet Embassy personnel and their visitors arriving at, or leaving, the Embassy. Photographs taken by LIEMPTY personnel were used to produce an updated "mugbook" on Soviet officials in Mexico which has been loaned to other US security agencies for operational use in activities targeted against Soviet services in Mexico City. LIEMPTY agents also provided information which enabled the Station to identify the companions of known KGB officials, to identify the habit patterns of new arrivals at the Soviet Embassy and provided a wealth of other information of operational value concerning Soviet Embassy activities.

4. A security problem, resulting in a Station decision to restrict the activities of GERENDE, place him on half pay, and replace him with a career agent (a valuable asset who

GROUP 1
Excluded from automatic
downgrading and
declassification

also handles SB operations) arose during the project year. GERENDE has been having marital difficulties which may end in divorce. Along with other incompatible features of the marriage, which have resulted in numerous family fights, there have been long, bitter and violent arguments as to who will have custody of their 4 children and concerning a monetary settlement. The Station has become involved in these altercations because GERENDE's wife is knowledgeable of his CIA relationship and could, if she chose to do so, expose him as an agency employee. She has promised to keep quiet but there is no assurance that she will do so. In view of the risk involved, should GERENDE's wife expose his agency relationship and in view of the fact that, despite his 15 years of service and his undisputed ability and experience, other unfavorable qualities militate against his retention, the Station is considering terminating GERENDE. It is proposed to pay him a termination bonus of $10,000 for 15 years of service in accordance with Mexican law and his wife $2,500 as a security measure designed to keep her quiet. After discussion with the desk, FI Staff believes that, if GERENDE is paid the $10,000 termination money, it should not be given to him in one lump sum but should be paid on a monthly basis, the amount per month to be determined by the Station, thus eliminating the possibility of his squandering it all at once and possibly coming back for more of the same. The same procedure should be followed in the $2,500 payment to his wife. In both cases at least an element of control is assured in that both GERENDE and his wife will know that continued receipt of their monthly payments will depend upon their continued loyalty to the agency. In the meantime, we feel this man, whose morale, and ability have been seriously affected by his marital strife, given time, can perhaps be rehabilitated and once again become a valuable Station asset. This would ensure his continued loyalty and give him an income out of which to pay his alimony. Aside from the foregoing there were no other problems, security or otherwise. All meetings between the case officer and the new Principal Agent are held under secure conditions, or more often if necessary, at prearranged dates, times and places. Meetings between the P/A and the subagents are held under similar conditions. The Station has been requested to submit an updated emergency recontact plan to be included in the first FY 1971 quarterly program report for this project.

5. Agents' salaries, safehouse rentals, motor vehicle maintenance and travel, property maintenance and Christmas bonuses will total $23,635. Despite the security aspects related to the marital difficulties of the erstwhile P/A,

this is an excellent operation which has been described by the Station as representing a highly effective and highly useful support mechanism. SB Division has stated that, although relatively inexpensive, it is a very worthwhile and valuable project. FI Staff recommends approval with the stipulation that the recommendation with respect to payment of termination bonuses to GERENDE and his wife be carried out.

5 JUN 1969

MEMORANDUM FOR: Assistant Deputy Director for Plans

THROUGH : MPS/BG

SUBJECT : FY 1970 Renewal of Project LIEMPTY for $38,970

1. Project LIEMPTY, now in its eleventh year, is the Mexican Station's operation which provides visual and photographic surveillance of the Soviet Embassy from safehouses at the front entrance and back of the building, as well as from a mobile unit. All Soviet personnel and their visitors coming to the Embassy are photographed. From 1 November 1967 to 31 December 1968, approximately 21,367 photographs were taken and thousands of pages of surveillance reports were completed by personnel in this project. SB Division is pleased with the quantity and quality of the photographs and the Station finds them useful for operational purposes against the SB target. During the past year several U.S. citizens entered the Soviet installation in Mexico City and their photographs were identified by the FBI. There is a good relationship between the Station and the FBI in Mexico City and appropriately sterilized photographs are passed locally.

2. There have been no significant security problems.

3. The only changes in the project have been the elimination of one of the safehouses, which was used as an observation post, and termination of the agent who attended it. No real loss resulted from this change since the safehouse was so located that photographs taken from it overlapped those taken from another safehouse. The agent who serviced the facility was getting too old to do an efficient job and was terminated amicably. Also during the past year a new agent was added to the project.

4. Total funds requested for FY 1970 are $38,970. Salaries and legally required bonuses for nine agents come to $30,080; safehouse rental and maintenance amounts to $6,188; maintenance of two vehicles, $1,200; and photo and operational expenses, $1,500. FY 1969 approval was for $43,520 and estimated obligations for this period are $43,500. A new, $5,000 vehicle was purchased in FY 1969 and none is needed in FY 1970 which accounts for the reduction in costs for the present year.

SECRET

GROUP 1
Excluded from automatic
downgrading and
declassification

5. Project LIEMPTY contributes substantially to the Mexican Station's SB effort. The occasional identification of U.S. nationals in contact with the Soviets could have an important bearing on National Security. The operation is handled by an experienced and capable, outside contract agent under the direction of a Station officer which provides good security and personnel economy. It is a well managed and productive operational support mechanism necessary to Station operations. FI Staff recommends approval.

2[illegible] JUN 1969

MEMORANDUM FOR: Deputy Director for Plans

SUBJECT : LIEMPTY Project Renewal (FY 1970)

1. Renewal is requested for the LIEMPTY Project for the period 1 July 1969 through 30 June 1970 (FY 1970) in the amount of $38,970. Funds are available in WH Division. $45,000 was programmed for FY 1970.

2. LIEMPTY is a project supporting Soviet operations of the Mexico City Station. It provides for two basehouses, a photo surveillance vehicle, and personnel for photographic and visual surveillance of the Soviet Embassy. Presently, two fixed surveillance points near the Embassy provide the location from which the photographs are taken and observers are stationed. One basehouse is adjacent to the rear of the Embassy, where Soviet officials meet, play and work. The other basehouse is across the street from the front of the Embassy and gives a direct view of every person entering or leaving. There is also a mobile photographic unit (a VW van) which is now used in support of all Mexico City Station operations and in conjunction with the LIEMBRACE surveillance team (used primarily against Soviet targets). Raymond H. GERENDE, an indigenous contract agent, is the principal agent of the operation and meets daily with the basehouse keepers and subagents.

3. LIEMPTY contributes significantly to the Station's Soviet operations program and is considered an essential element of the Station's support apparatus. During the period 1 November 1967 through 31 December 1968, approximately 21,367 photographs were taken. In response to a request to SB Division for an evaluation of the project, the following comment was received: "There are few such sources of high resolution photographs of Soviets, especially giving good side views. These photos are welcomed by SB Division since they furnish a steady flow of up-to-date identity data..." The photos are useful to the Station in confirming the identities of Soviet personnel and visitors to the

Embassy, some of whom are U. S. citizens. During the past year, several of these U. S. citizens were identified with the help of the photos (which were passed to the FBI). Furthermore, the movements and habits of the Soviets are studied, and more knowledge is acquired on their friends and associates, especially Mexican nationals. This information is useful in target studies. For example, the senior TASS representative, a known KGB officer, is a recruitment target. He is under intensive operational scrutiny for leads developed from knowledge of his activities and contacts. LIEMPTY support is an integral part of this current developmental activity.

4. During the past year, one of the three basehouses was closed, leaving two, and the agent attending it was terminated. This was done because the agent was becoming less effective with age, and because there was some overlap between the photos taken from this basehouse and those of another. The termination was amicable, and the working hours of the personnel of the other basehouse were extended slightly. Another agent was also hired to help. This new agent is of the same family as the rest of the personnel occupying the basehouse, and no additional security risks are anticipated from this addition.

5. There have been no security or administrative problems. The Station and GERENDE are constantly on the alert for any sign that the Soviets are aware of the surveillance activities. While it is quite possible that the Soviets are aware of the surveillance, so far indications are that they are at least not fully aware, since no effort is made by them to avoid being photographed, even when having meetings with contacts in the rear of the Embassy.

6. Approval is recommended of this valuable operational support project.

COMMENTS AND RECOMMENDATIONS (*To go forward to the Division*)

The CI Staff concurs in the renewal of this extremely valuable project. The Staff strongly urges that the Station continue to be constantly alert for any Sov. interest in the project's agents and installations and in particular any Sov. investigation or activities against same--also, Station contingency plans should be formulated to cope with such Sov. interest or activities.

PROJECT BRIEFING

PROJECT : LIEMPTY WH - Mexico

ACTION : ADD/P approval of renewal (19 mos.) 1 Dec 67 - 30 Jun 69

PURPOSE : An operational support project providing three basehouses and a mobile surveillance unit to monitor primarily the Soviet Embassy, its personnel and its visitors, by physical and photographic surveillance.

BACKGROUND: The project covers three properties near the Soviet Embassy (two in front of the Embassy's sole entrance and one behind the garden) from which visual and photographic surveillance is carried out. It also covers a darkroom and a mobile photographic truck. Some of the project personnel are used at times for miscellaneous support tasks such as servicing postal boxes and for counter-surveillance and other protective services.

PROGRESS: During the past year the project provided nearly all of the operational photographs and physical surveillance reports used in the Station's operations against the Soviet Embassy and its personnel. SB Division says, "This rather unique operation has unquestionably made a major contribution to the increasingly effective Soviet Operations program of the Mexico Station."

The project produces primarily operational data and counterintelligence information. It provides leads, evidence of which Soviet officers have been in the Embassy and which ones have been away, who has used which car, who has been talking to whom or going out of the building with whom. (One photograph from this project was ✓ used in the Warren Commission Report.)

FUNDS : $69,725 (19 mos.) (Programmed FY 69 $46,000)

MEMORANDUM FOR: Assistant Deputy Director for Plans

THROUGH: MPS/BG

SUBJECT: Project LIEMPTY

1. WH Division requests renewal of LIEMPTY for the 19-month period 1 December 1967 through 30 June 1969 in the amount of $69,725. While this represents a slight reduction on a pro rata basis from the $45,000 for which LIEMPTY was approved for the 12-month period starting 1 December 1966, it reflects a proportionately modest increase in cost for the 19-month renewal period over the estimated total disbursement of $40,130 for the past project year. This will provide for small salary increases to meet the rising cost of living for certain of the agents involved in the project who have not received raises in some time as well as for slightly higher rental fees for the various basehouses. The project, now in its tenth year, is designed primarily to provide for the collection of operational information on the Soviet Embassy in Mexico City, including the identification and movements of its personnel and visitors. To this end, LIEMPTY provides for the maintenance and exploitation of three basehouses for fixed visual and photographic surveillance of the Soviet Embassy and a mobile basehouse in the form of a panel truck used for mobile photography against the Polish Embassy, leaders and meeting sites of local communist parties, and other targets of opportunity. An important corollary objective of LIEMPTY is operational support in the form of countersurveillance for Agency personnel and operations, including those of other bases and stations as the needs and requirements of the Mexico Station permit. The funds requested include $43,520 for the period 1 December 1967 through 30 November 1968 and an additional $26,205 to cover the period 1 December 1968 through 30 June 1969. The latter funds are asked for in a supplemental request to put the project on a fiscal year basis.

2. A long-term contract agent and eight other support agents are involved in the management and operation of the

LIEMPTY facilities and in surveillance activities directed at the primary Soviet target. Some of these agents are used also in dark room photographic processing, letter drop, and, on occasion, moving surveillance activities.

3. This project is only part of the complex of Mexico City Station instruments for meeting requirements from a number of U.S. agencies, including the FBI. It is clearly an effective, well-managed support operation serving important needs.

4. No major or significant changes in LIEMPTY personnel or operational techniques have been introduced nor have there been any known incidents adversely affecting the security of the project or its personnel since the previous project renewal period. As a unilateral operational support effort, LIEMPTY continues to be a most useful station asset supporting a number of station activities. In spite of small increases in costs as discussed above, the project is considered to be holding the line on cost and personnel.

5. The objectives of project LIEMPTY are in direct support of priority A objectives 1, 2, and 4 of the current Operating Directive for Mexico. It is considered by SB Division to have made significant contributions to the Station's well developed, high priority Soviet Operations Program. During the past year the various LIEMPTY basehouse installations produced valuable information in the form of photographic coverage and physical surveillance reports on the daily movements, personal associations and habit patterns of selected targets of special interest. In numerous instances this coverage confirmed the specific intelligence service connections of Soviet officers in the Embassy. Often the identities of Mexicans and nationals of other countries in contact with the Soviets were established. The mobile panel truck unit was exploited regularly to provide information on not only the Soviets but also the Cuban target as well as local Communist Party targets.

PROJECT BRIEFING

PROJECT: LIEMPTY . WH - Mexico City

ACTION : ADD/P approval of renewal 1 Dec 66 - 30 Nov 67

PURPOSE: Provides stationary surveillance against the Soviet Embassy and a mobile photographic basehouse which is used primarily against the Polish Embassy and local Communist party leaders.

PROGRESS: Three basehouses (LIMITED, LILYRIC and LICALLA) provide coverage of both the front and rear of the Soviet Embassy. Throughout the past renewal period each operational component contributed actively and concretely to the fulfillment of the operational tasks levied on the Station. In the first nine-month period approximately 17,000 individual frames of operational photographs were provided from the fixed basehouses. These served to confirm the identities of Embassy personnel and their visitors and provided detailed reporting on the movement and habit patterns of selected targets of special interest. The mobile unit (LIENTRAP) provided over 1,000 individual photographs. Of particular value were photographs of local and exile Communist leaders. Raymond H. GERENDE (p) continued in the role as principal agent for Project LIEMPTY. His overall operational assignment involved at least 12 clandestine meetings per week, in addition to his meetings with the LIEMPTY project case officer.

PROBLEMS: In mid 1966 LICOWL/1, who owns a small store near the Soviet Embassy, reported that a Soviet official had approached him and asked him to inform on his neighbors. Reportedly the Soviet named LIEMPTY/6 of the LIMITED basehouse by name and also asked about the tenants of the building housing LILYRIC. However, in view of LICOWL's previous history of lying, it is difficult to assess exactly what the Soviets requested and just what LICOWL/1 may have told them. The Station is still looking into this development.

	1 Dec 64 - 30 Nov 65	45,300
	1 Dec 63 - 30 Nov 64	49,700
	1 Dec 62 - 30 Nov 63	49,900
	1 Dec 61 - 30 Nov 62	49,500
	1 Dec 58 - 30 Nov 59	95,380

STAFF COMMENTS: FI and CI Staffs concur in renewal.

CI STAFF: Strongly urges the Station to continue its close monitoring of Soviet interest in the installation buildings and attempts to obtain information on sensitive project personalities. The Station should devise necessary contingency plans of action to eliminate any security hazards if it is determined that the Soviets are intensifying such efforts and could be getting "too close" to the project installations, personalities and activities.

14-00000

SECRET

8 JAN 1967

MEMORANDUM FOR: Assistant Deputy Director for Plans

THROUGH: MPS/BG

SUBJECT: Project LIEMPTY

1. This action seeks renewal of Project LIEMPTY covering Mexico City Station's stationary surveillance basehouses aimed against the Soviet Embassy. The activity will cost $45,000 for the period 1 December 1966 to 30 November 1967. Approval is recommended.

2. Project LIEMPTY has been in being for nine years. At present it supports three stationary basehouses near the Soviet Embassy and a mobile photographic basehouse. These are used to obtain photographic coverage and logs of Soviet movements and visitors to the Soviet Embassy. The mobile basehouse is used also to cover meeting sites of the local communist parties and targets of opportunity.

3. A principal agent and eight agents are used in the LIEMPTY activity. The agents are variously employed as basehouse keepers, photo lab technicians and surveillance operators.

4. Security has been generally good although one incident occurred in mid 1966 which may have some impact on the future security of the operation. An approach was made to an agent of the Station, who owns a small store near the Soviet Embassy, to report on his neighbors among whom are some of the LIEMPTY agents. One, LIEMPTY-6, was mentioned by name. The Station is watching this development carefully.

4. The LIEMPTY activity proved its worth during the past year when check was made on conflicting stories told by two Station agents. The LIEMPTY surveillance reports proved that one of the agents was lying about his contacts with the Soviets. LIEMPTY is well managed and continues to serve an important Mexico City Station need.

10 DEC 1966

MEMORANDUM FOR: Deputy Director for Plans

SUBJECT : LIEMPTY Project Renewal

1. It is requested that the LIEMPTY Project be renewed for the period 1 December 1966 through 30 November 1967 for a total of $45,000: $29,020 for FY 1967 and $15,980 for FY 1968. The Project is included in the FY 1967 Operational Program for $45,000. Funds are available within WH Division.

2. LIEMPTY covers stationary surveillance basehouses targeted against the Soviet Embassy. These basehouses provide photographic coverage and logs. Two of the basehouses (LIMITED and LILYRIC) cover the activity in the front of the Embassy, and LICALLA provides coverage of the back courtyard area. The LIEMPTY project also covers a mobile photographic basehouse in the form of a panel truck which is used against the Polish Embassy where we have no permanent surveillance basehouse, and against other targets of opportunity.

3. The value of Soviet Embassy photographic coverage during the past year was proven when the logs maintained by LILYRIC were used to double check on an operation involving LIRUSTIC-1 and LICOWL-1 who had told conflicting stories of certain events concerning the activity of some Soviets. Through the surveillance reports of the LIEMPTY Project against the Soviet Embassy, it was proven without a doubt that LICOWL-1 (who had just taken a polygraph without apparent deception) was lying about his contacts with the Soviets.

4. The LIENTRAP mobile photographic basehouse was targeted against leaders and meeting sites of the local Communist parties as well as other targets of opportunity, particularly exile Communist leaders now residing in Mexico. LIENTRAP provided up-dated identification

SECRET

GROUP 1
Excluded from automatic
downgrading and
declassification

photographs of Communist officers which are of value to both the JMTIGER program and the Station's recruitment/penetration program. The LIENTRAP personnel also regularly service twenty-one postal accommodation addresses used by the Mexico City Station.

5. One development which may affect the security of the LIEMPTY basehouses of LIMITED and LILYRIC occurred in mid 1966 when LICOWL-1 (who owns a small store near the Soviet Embassy) reported that a Soviet official, AEQUALITY-1, had approached him and requested him to inform on his neighbors. Reportedly the Soviet named LIEMPTY-6 (of the LIMITED basehouse) by name and also indicated all the tenants (unnamed) of the new building which now houses LILYRIC. The Soviet pinpointed the building by saying the one being built by a person who fit perfectly the description of LIMOUSINE. LICOWL-1 did not indicate that the Soviet reflected any interest in LIMOUSINE. The occupants of the LILYRIC basehouse were not mentioned. LICOWL-1 indicated to his Station contact that the only person he really suspected in the neighborhood was LIEMPTY-6 (of LIMITED) who doesn't go to work, is always typing, lives comfortably, and owns a car. He claims to have heard it rumored that LIEMPTY-6 was working for the Americans. (Since LIMITED is equipped with a radio and tips off the Station's surveillance team when it is used against Soviet targets, Headquarters has already assumed that the Soviets have identified this basehouse.) LICOWL-1 also listed several persons named by the Soviet who had no connection whatsoever with CIA.

6. The Station instructed LICOWL-1 not to become an informant on his neighbors. According to LICOWL-1, he therefore told AEQUALITY-1 he did not have time to collect the information the Soviet wanted. However, in view of the lies LICOWL-1 has been caught in, it is difficult to assess exactly what the Soviets asked of LICOWL-1 and just what LICOWL-1 may have told the Soviets. The Station is still looking into this development.

7. WHD recommends renewal of this Project.

PROJECT BRIEFING

PROJECT: LIEMPTY — WH - Mexico

ACTION : ADD/P approval of renewal — 1 Dec 65 - 30 Nov 66

PURPOSE: To provide support for mobile and stationary photographic surveillance of the Soviet Embassy and a dispatching base for a physical surveillance team.

PROGRESS: Assets included under the project include three basehouses which provide front and rear views of the Soviet Embassy, and a panel truck equipped for spot photo coverage. Raymond H. GERENDE (p), principal agent, meets the basehouse keepers regularly, maintains regular contact with the mobile photo unit and with the developing and processing base. He also performs many other support functions.

The photographs from all these operations have been of value to the Station in operational planning, for identification by surveillance teams, for mug books, and for Headquarters permanent files. The Station believes that this operation is essential to the fulfillment of the overall operational program levied on the Station by the RMD.

4 FEB 1966

MEMORANDUM FOR: Assistant Deputy Director for Plans

THROUGH: DDP/PG

SUBJECT: Project LIEMPTY Renewal

1. FI Staff recommends approval of the renewal of Project LIEMPTY. This project, costed at $41,500., supports the following Mexico City assets: a panel truck used for mobile photography, three base houses for fixed photographic surveillance, a contract agent manager and eight support agents. One of the base homes is used as a control point to dispatch a surveillance team. (The latter is not a part of the project, however.)

2. The LIEMPTY target is the Soviet Embassy and Soviet activities in Mexico City. LIEMPTY is part of the complex of station instruments by means of which requirements from a variety of U.S. agencies are met. One of the sites provided pictures later used in the Warren Commission Report, and the publication of the report created a security hazard. The Station moved the site and it is now back in operation.

3. The possibility of Soviet intercept of radio commo to the surveillance team has been carefully weighed recently by SR, the desk, O/C and TSD. The decision to accept the risk appears to have been taken with due deliberation.

4. This is clearly an effective, well-managed operation serving an important need. We recommend renewal without hesitation.

W. LLOYD GEORGE
Chief
Foreign Intelligence

Attachment
Project

SECRET

30 DEC 1965

MEMORANDUM FOR: Deputy Director for Plans

SUBJECT : Project LIEMPTY Renewal Request

1. Renewal is requested for the LIEMPTY Project for the period 1 December 1965 through 30 November 1966 for a total of $41,500; of this amount, $25,520 should be alloted for FY 1966 and $15,980 for FY 1967. This Project has been programmed in FY 1966 for $50,000. The last Project Renewal was approved at $45,300. Funds are available within WH Division.

2. The security of this Project appears to be good. The LIENTRAP photo truck was repainted a different color in January 1965 to preserve the security of this vehicle which operates extensively in the same general areas. There have been no apparent ramifications from the publication of the LIMITED Photograph in the Warren Commission Report in September 1964.

3. LIENTRAP is one of two mobile photo surveillance units at the Station, both of which are used extensively because of the many requirements for spot photo coverage of diplomatic installations, agent meetings, and current identification photos of targets among others.

4. Although there are three stationary photo basehouses under this Project all targeted against the Soviet Embassy, there is very little duplication of effort, and the coverage of this Embassy would be weakened through the termination of any of them. LICALLA covers the rear of the Embassy (garden and parking lot) and is in a unique position to observe informal meetings and activity there. In May 1965 a thorough assessment was made of this basehouse to determine whether an audio installation could be based here, directed against these garden conversations. It was determined that due to the high incidence of street and other noises, this was not practical. TSD and SR Divisions are conscious of this requirement, however, and if any new equipment is developed which might make this operation more feasible it will be tested. LIMITED and LILYRIC which both cover the front entrance, provide coverage during different parts of the day, and LIMITED also serves as a fixed radio

SECRET

GROUP 1
Excluded from automatic downgrading and declassification

dispatching base for the LIEMBRACE surveillance team.

5. The photographs from all these operations are of value to the Station in their operational planning, for identification by surveillance teams, for mug books, which are often used by surveillance teams and singleton agents in identifying Soviets, and for Headquarter's permanent files.

6. With reference to the FI Staff comment made last year at the time of the Project renewal that the radio dispatching from the LIMITED installation might have made this base a target for the RIS, the problem was discussed in depth with the Office of Communications, TSD, and SR Divisions. The Station has been alert to the Soviet's monitoring capability and they have developed a signaling system and intercar communications system that will leave the LIEMBRACE surveillance cars on the air for a minimum of time, and with limited open conversation. The result of Headquarters and the Station's research on this problem resulted in the conclusion that, if a surveillance team is to operate with automobiles, radios must be used if there is to be efficient surveillance, and regardless of what presently available type of scrambling or coding is used, radio is susceptible to monitoring by the opposition. It was therefore concluded that if the Station is to use the LIEMBRACE team against members of the Soviet installation, LIMITED must continue to be used as the radio dispatching center and the risk factor must be accepted until some new, more secure yet efficient commo system is devised.

7. The reporting on the administration of this Project is handled through regular quarterly progress reports. The appropriate Soviet, CP, or other Case Officers handle the reporting and exploitation of the product. During the past year there were no positive intelligence reports from this Project.

8. Both SR and WH Divisions recommend renewal of this Project.

SECRET

MEMORANDUM FOR: Chief of Operations, DD/P

SUBJECT : Project LIEMPTY (Renewal)
WH - Mexico City

1. The attached project, originating in WH Division, is presented for renewal for the period 1 December 1960 through 30 November 1961. The project provides for physical and photographic surveillance operations in support and exploitation of other Mexico City Station operations, particularly those targetted at Soviet personnel and installations.

2. Authority is requested to obligate $53,000 from the DD/P-WH Division budget: $31,900 in fiscal year 1961, and $21,100 in fiscal year 1962, subject to the availability of funds. The amount includes $38,000 compensation for two principal agents, one clerical support agent on an hourly basis, and eleven surveillance and support agents; $7,000 operational expenses (safehouse procurement, post office boxes, rented automobiles, purchase of information, vehicle maintenance, and operational travel); $2,500 replacement, repair and maintenance of photographic equipment; and $5,500 basehouse rental, utilities, and maintenance.

3. The field's renewal request, supported by a covering memorandum of the Division, sets forth accomplishments of the project in the past year in terms of objectives and estimates effectiveness. It is noted that one principal agent, Simon D. CLACKETT (p), resigned in October 1960, and the four-man surveillance team previously handled by him will be transferred to project LITEMPO, consequently being omitted from LIEMPTY in this renewal. Three basehouses continue to be operated under the project: (a) LIMITED, which compiles daily logs on arrivals and departures from the LIMERICK installation, together with attendance lists of LIMERICK employees, and handles the radio dispatch of the LIEMBRACE surveillance team on LIMERICK personnel and targets

SECRET

of opportunity. This basehouse also provides photographic coverage, concentrated on visitors. (b) LILYRIC which provides clandestine photographs particularly of visitors to, as well as employees of, the LIMERICK installation, prepares weekly reports on LIMERICK employees and their wives, and reports on license numbers of all cars visiting the installation. (c) LICALLA, which concentrates on photographic coverage of LIMERICK employees and their families, as well as providing observation on the apparent positions and jobs of the target employees, and as well as personnel changes. Additional photographic coverage is provided by the mobile LIENTRAP vehicle. Principal agent Raymond H. GERENDE (p) continues to coordinate basehouse activities; principal agent Oliver G. SCANTLING (p) continues to be an independent asset used to follow-up and exploit operational information on target personnel and installations, to case various installations of interest, to acquire property, etc. SCANTLING has managed the surveillance team being transferred to LITEMPO in the interim following the resignation of CLACKETT. The Station notes that activities at the LICALLA basehouse were suspended in September 1960 as the result of the arrest of a knowledgeable TSD technician in another area and it is not known precisely when it will be possible to resume these operations. The Station believes that the GERENDE segment is now operating under optimum arrangements and SCANTLING will soon be relieved from his interim responsibility for the surveillance team being transferred to LITEMPO and can concentrate more on his investigative and casing activities. It is not planned in the coming year to expand project activities.

4. Appropriate Special Staff components concur in recommending renewal. FI Staff notes the Division's assurance that the transfer of the unilateral surveillance team to LITEMPO will not affect its independent status, and remarks that the current project review presents a clearer picture of the usefulness of the several segments than the previous one.

8 JAN 60

MEMORANDUM FOR: Chief of Operations, DD/P

SUBJECT : Project LIEMPTY (Renewal)

WH - Mexico

1. The attached project, originating in WH Division, is presented for renewal for the period 1 December 1959 through 31 November 1960. The project provides for physical and photographic surveillance operations in support and exploitation of other Mexico City operations, particularly those targetted at Soviet personnel and installations.

2. Authority is requested to obligate $84,910 from the DD/P-WH Division operating budget: $48,485 for fiscal year 1960 and $36,425 for fiscal 1961, subject to the availability of funds. These sums include $61,910 compensation for five contract agents (three of whom serve as principal agents for segments of the project), and sixteen support agents; $3,500 for vehicle maintenance and commercial carrier travel; $7,500 for operational equipment; $5,000 for maintenance of three safehouses; $2,000 for additional safehouse, post office box, and vehicle rental; $1,000 exchange commodities; $2,000 "key" money, broken contracts, etc.; and $2,000 for the purchase of information, documents, payment of bribes, etc.

3. The attached renewal request, prepared in the Division and supported by a project review prepared in the Field, reviews the activities of the project during the past year and present a detailed breakdown of the funds requested. The project operates in three segments: (a) Contract agent Oliver G. SCANTLING is an independent asset who is used to follow-up and exploit operational information on target personnel and installations, to case various installations of interest, acquire property, etc.; (b) a photographic surveillance team, under principal agent Raymond H. GERENDE, utilizing three houses or apartments and one photo truck; and (c) a physical surveillance team under principal agent Simon D. SLACKETT, consisting of three trained members at the present time. The attached renewal request reviews the activities and accomplishments of the project in terms of these three segments and in relation to project objectives. SCANTLING's contribution to the collection of operational information pertaining to Soviet personnel and installations is regarded by the Station as unique. He also

trained CLACKETT in radio controlled mobile surveillance. SCANTLING also has rendered valuable support to the LITACIT operation having gained entry to the target under a fabricated cover. He has also cased and prepared reports on the LITABLY target in preparation for future operations and performed investigations of numerous other Station targets of opportunity. He investigated many leads from other audio-surveillance operations enabling the Station to maintain current data on various Soviet contacts and resulting in a recruitment attempt which, while unsuccessful, is believed to indicate future potential along this line. He has further been used to develop radio procedures for the mobile teams and to rent various properties in support of other Station operations. The GERENDE segment, using three base houses for photography, produced upwards of 12,000 photographs during the year. One base has recently begun taking motion pictures of Soviet personnel in the course of conversation which have been forwarded to FI/D for possible exploitation by lip reading analysis. This segment also operates the mobile radio surveillance vehicles. A mobile photography surveillance truck has been used during the project year for coverage of various Station targets which do not warrant the establishment of permanent photographic bases. GERENDE has also served to rent post office boxes, hotel rooms, etc., in support of other Station operations. During the past project year CLACKETT, who returned to Mexico in early April 1959 after Headquarters training, spent the following two months being trained by SCANTLING in mobile surveillance techniques. He then undertook training of a four member team which was judged ready for operational use toward the end of the project year. Two additional contract agents, Wilma J. FIORDALISI and Louise J. MACRINO, performed translation and support functions.

4. Appropriate staff components concur in recommending renewal.

(a) CI Staff notes that the CI value of the project is difficult to judge since it appears that much of the material produced remains in the Station for exploitation. However, CI Staff remarks that the value of the project should be increased when the CLACKETT surveillance team enters into active operation. CI Staff suggests that the Station be queried as to the pretext or circumstances under which SCANTLING frequently visits Inez Perada de Moreno, the occupant of the property adjacent to the Soviet installation.

(b) FI/OPS notes that while the project review presents a clear picture of the aims and objectives of the various segments, it does not provide, except in the case of SCANTLING, detailed indication of the value or usefulness of the other segments, particularly the photographic activity. FI/OPS requests that the Station provide such an appraisal during the first quarter of 1960. FI/OPS recommends strongly that the photo coverage be reviewed from the standpoint of value and usefulness with a view to determining whether the LILYRIC activity could not be safely eliminated and the additional photographic coverage conducted on a more selective basis, without materially affecting overall usefulness. FI/OPS notes that, in the absence of further proof of usefulness, the color photography and moving pictures appear to be an unnecessary luxury. FI/OPS commends the careful handling of the CLACKETT segment and requests that the next project action include examples of the team's progress.

5. I recommend renewal of Project LIEMPTY as presented with attention to the staff comments in paragraph 4 above.

MEMORANDUM FOR: Chief, FI

SUBJECT : Project LIEMPTY Amendment

HEADQUARTERS CASE OFFICER:

Name: J. B. Brady
Room: 2114 Barton Hall
Ext.: 2555
Date: 23 June 1959

1. It is requested that approval be granted to amend Raymond H. GERENDE's contract to provide him with a termination settlement of one month's salary for each full year that he works for KUBARK and to raise his salary effective July 1959 from $4,080 to $4,560.00 per year. His last salary increase was granted on 1 September 1957. The date, 18 March 1955, has been suggested by the Station as the beginning date for the computation of GERENDE's termination benefits. The Station believes that this benefit will provide GERENDE with the necessary incentive to make KUBARK a career and at the same time will give the Station an additional element of control.

2. As pointed out in the LIEMPTY Project Approval, GERENDE, an indigenous agent, is one of the Station's most valuable assets. He has a responsible full time job as the LIEMPTY Principal Agent who handles the LIMITED, LILYRIC and LICALLA base houses, the LIENTRAP operation, the outside photographic processing and translation service and all the agents participating in these activities. He performs his duties in a conscientious and professional manner and his already excellent abilities are showing continued improvement.

3. Money was already allocated in the LIEMPTY Project approval for the salary increase. With the effective date of 18 March 1955, for the termination clause, GERENDE will already have accrued $1,520 (his salary is $4,560 per year) if he should resign today. The LIEMPTY Project, as approved, has sufficient funds to cover this cost if it is necessary to obligate this amount during the present Project year. Therefore, no additional funds are requested.

MEMORANDUM FOR: Chief of Foreign Intelligence

SUBJECT : Project LIEMPTY (Amendment)
WH - Mexico City

1. The attached project, originating in the WH Division, provides the services of a surveillance activity to support Mexico City operations and is approved for the period 1 December 1958 through 30 November 1959. It is presented for your approval of amendment to include the addition of a contract agent, Louise J. MACRINO, to furnish administrative support, and also to formalize a special commitment made to one of the two principal agents, Oliver G. SCANTLING. A contract prepared in the Field and signed by the agent permits the payment of one year's salary to him or his assigned heirs in event of loss of life or total disability if incurred in the performance of duty. This has not previously been included in the project.

2. The LIEMPTY project has authorization for the expenditure of $95,380. No additional funds are required for the amendment. Sufficient funds remain in the project to absorb the salary expenses for MACRINO and funds to cover the extra year's salary for SCANTLING will not be requested until such time as they are needed.

3. Memoranda prepared in the WH Division supporting the request for amendment are attached, summarizing the important factors involved. These detail SCANTLING's performance and provide a resume of MACRINO's past activities in behalf of the Agency.

4. Staff Components have concurred in amendment to Project LIEMPTY.

5. I recommend approval of amendment of Project LIEMPTY as presented.

SECRET

MEMORANDUM FOR: Chief, FI

SUBJECT : Amend LIEMPTY Project to Include a Special Benefit for Oliver G. SCANTLING (ps) and to Include Louise J. MACRINO (ps)

HEADQUARTERS CASE OFFICER:

NAME J. B. Brady
ROOM 2114 Barton Hall
EXT. 2555 or 3152
DATE 5 March 1959

1. It is requested that approval be granted to give Oliver G. SCANTLING a special benefit of one year's salary to him or his assigned heirs in the event of loss of life or total disability if incurred in the performance of duty. This benefit was included in a contract prepared in the field and signed by Subject on 15 February 1957. The contract was not submitted to Headquarters for approval until December 1958. The Station and WH Division do not want to delete this benefit from Subject's contract at this time and we feel Subject deserves this benefit.

2. SCANTLING, a civil engineer, is a Mexican citizen, who is 40 years old. He was granted an Operational Approval on 2 December 1954. SCANTLING began his employment with KUBARK as a footman on the LIPSTICK physical surveillance team and gradually became a driver of a surveillance automobile, then team leader. As team leader he was responsible for the operational deployment and administrative direction of the entire LIPSTICK team, three automobiles, four photographic and radio dispatching basehouses and the attendant mobile and stationary radio equipment. He collated the fragmentary surveillance reports into finished intelligence reports for study by the Case Officer. SCANTLING developed into a fine investigator and has obtained information where other Station investigative assets have failed.

3. Almost all of SCANTLING's time now is spent following up leads obtained from telephone intercepts and photographic surveillances. From July through December 1958 he made approaches to individuals performing services for the Soviet Embassy and he made a detailed casing report of the West German Embassy. In addition, he conducted many routine investigations and surveillances. The Station plans to have SCANTLING attempt to recruit the landlord of the proposed basehouse for a LINIMENT (FI/D) operation. SCANTLING no longer handles the surveillance team and the Station plans to continue to use him as an independent asset. SCANTLING has in his possession official credentials of the Federal Security Police (DFS). He has used these credentials in making contacts with targets of various sensitive Headquarters' operations (i.e., LCMAYFOWL).

4. As a graduate engineer who has spent at least ten years in house construction in Mexico, he has been invaluable to the Station in submitting detailed casing reports, including detailed and professional plans of technical targets. He has been commended by TSS for the support role he has played for them. He has submitted several casing reports on the Soviet Embassy and is an unparalleled source of information to the Station for information about the Embassy's construction activities, modifications and reasons for same.

5. For your information there is attached the Station's review of SCANTLING for the period July through December 1958. It is believed you will find this report of interest and further support the justification outlined above for the granting to SCANTLING of the special death and disability benefit. This agent assessment states "Oliver O. SCANTLING has continued to perform his assigned tasks in an outstanding manner. SCANTLING's poise, common sense, education, ideology, and native ability for the pursuit of clandestine activities make him one of the most valuable support assets available to the Mexico City Station. The fact that SCANTLING has a full time overt occupation as Chief Engineer and Production Manager for a local manufacturing company adds to his long-range potential as a KUBARK agent". SCANTLING has excellent cover as half-owner of a local firm which manufactures farm instruments and he represents the high calibre of person which KUBARK requires for the institution of their long-term resident agent program.

6. The LIEMPTY Project (now approved for $95,330) will not be amended at this time to include an extra year's salary for SCANTLING ($4,000). In the event it becomes necessary to fulfill this commitment during the project year, and if the expense cannot be absorbed by the present project authorization, an amendment will be submitted.

7. It is also requested that effective 1 March 1959 the LIEMPTY Project be amended to include Louise J. MACRINO, a Contract Agent, who is a Station support asset. Her OA was reinstated on 8 August 1958 (C-41152). She was formerly included under Project LIFEAT. However, the Station requirements for general translation work increased to the extent that it was necessary to use MACRINO to translate reports other than those originating from LIFEAT. It was therefore decided it would be more appropriate to include her under LIEMPTY. She does typing of reports and non-sensitive translations. She is paid on an hourly basis of $2.00, an estimated yearly salary of $3,500. The Station stated that the present LIEMPTY Project could absorb the expense of her salary for the remainder of the Project year.

SECRET

MEMORANDUM FOR: Chief of Operations, DD/P 16 JAN 1959

SUBJECT : Project LIEMPTY (Approval)
WH - Mexico City

1. The attached project, originating in WH Division, is presented for your approval for an initial period from 1 December 1958 through 30 November 1959. The project provides for the development of operational information through physical and photographic surveillance operations in support of other Mexico City operations, particularly those targetted at Soviet personnel and installations. Previously these operations were conducted for the most part under Projects LIPSTICK and LIJERSEY. They are incorporated in this new project because of the June 1958 compromise of LIPSTICK and to accomplish a more orderly administration of certain operational support assets.

2. Authority is requested to obligate $95,380 from the DD/P-WH Division operating budget: $65,580 for the current fiscal year and $29,800 in fiscal year 1960, subject to the availability of funds. These estimates include: (a) funds for the compensation of the presently-recruited fifteen action and support agents, six new agents, and two principal agents: Raymond H. GERENDE (p) (LIEMPTY/1, formerly LIPSTICK/20) and Oliver G. SCANTLING (p) (LIEMPTY/2, formerly LIPSTICK/19); (b) funds for the compensation, travel, allowances and Headquarters' training of two contract agents, Simon D. CLACKETT (p) and Wilma J. FIORDALISI (p), his wife, who are hereby transferred from Project LIMESA; (c) funds for operational expenses and equipment, including the purchase of four new or used vehicles as replacements for previously authorized vehicles and their maintenance, and a CP vehicle for SCANTLING; (d) the rent, utilities and maintenance of safehouses; and, (e) other appropriate operational expenses.

3. The attached Field Project Outline, a covering memorandum from the Division, and an addendum to the Project Outline, review the personnel assets and facilities transferred from the LIPSTICK and LIJERSEY operations following the partial compromise of LIPSTICK in June 1958 and describe the concept of the physical and photographic surveillance operations to be conducted under this project directed primarily at the Soviet Embassy in Mexico City. These surveillances provide photographs and other operational data of persons entering and leaving the building or present in the garden area, and through additional foot and mobile surveillances, investigative information concerning their contacts and destinations. Agent personnel, particularly the principal agents, are used also to conduct separate investigations, make recruit-approaches to

SECRET

individuals of operational interest, and to rent rooms, and apartments and perform other support activities. The fixed surveillance bases, LIMITED, LILYRIC and LICALLA, have been in operation for almost three years without having been in any compromising situations insofar as the Station knows. The LIPSTICK unit, a panel truck equipped with cameras, etc., is considered a particularly valuable asset by the Field. As a replacement for a staff agent, Wilfred O. CLOWER (p), who directed and trained the LIPSTICK surveillance team, the husband and wife team of CLACKETT and FIORDALISI are proposed as qualified individuals to recruit, train, and direct the new LIEMPTY surveillance team and maintain its records. Appropriate notional cover was arranged for them while in their previous project, LIMESA, as they reside in Mexico under true names. One of the principal agents, GERENDE, will have no contact with the new surveillance team, but will be used to conduct special investigations, counter-surveillances, and for other support activities.

4. The CI Staff comments that LIEMPTY provides several types of physical surveillance, all of which provide information of CI interest, and as a support mechanism, a production review is not appropriate or necessary. The CI Staff states further, that with the compromise of the LIPSTICK surveillance team the Mexico City Station lost its only reliable and efficient surveillance team, LIEMPTY representing the Station's effort to replace that asset. Because of the great number of CI targets in Mexico City, the CI Staff believes it is essential that the Station be given the opportunity, through this project, to build another surveillance team capable of operating against sensitive targets. Additionally, the CI Staff believes the case officer should work at devising ostensible sources of incomes for the agents which will stand the scrutiny of friends, relatives and less friendly forces.

5. FI/OPS suggests that the Division consider a gradual reduction of the considerable financial and personnel commitments in this project in view of the favorably developing LIENVOY liaison relationship. FI/OPS believes that a smaller, more manageable support group, with greater Station emphasis on selectivity of tasks and targets could well result in more effective CI and FI productivity.

6. I recommend approval of the project and the transfer of the contract agents as outlined above. The Division is requested to take cognizance of the suggestions of the CI Staff and FI/OPS in the paragraphs above relative to the security and the overall direction of the surveillance activities to make them more efficient.

SECRET

Request for Amendment to LIEMPTY Project

1. It is requested that the LIEMPTY Project approval request be amended to include Simon D. CLACKETT (ps) and Wilma J. FIORDALISI (ps), U. S. citizens and contract agents, under this Project in place of the Staff Agent written into the field project outline. At the same time it is requested that the LIMESA Project be amended to delete these contract agents from the latter project.

2. CLACKETT and FIORDALISI are now approved under the LIMESA Project. They were recruited in the United States to occupy a sensitive LIMESA basehouse. Because of the sensitivity of the operation and the equipment to be installed in the basehouse Headquarters decided U. S. citizens should be used. The Station said appropriate documentation and backstopping could be secured for those agents so they could be given false identities under which they could live while they occupied the basehouse.

3. MEXI-2777 (IN 26519), of 14 November 1958, notified Headquarters that security factors and difficulty in obtaining adequate documentation and backstopping precluded the use of U. S. citizens under LIMESA and requested permission to use indigenous agents for this operation. After discussions between John BRADY, Chief of the Mexican desk, with the LIMESA/LIEMPTY Case Officer in Mexico City, and discussions between representatives of FI/D, OC, TSS, and WH at Headquarters, Headquarters concurred in the field's operational decision to use indigenous agents in the LIMESA Project. CLACKETT and FIORDALISI received only a very superficial briefing regarding the LIMESA Project. It is not believed Subject's limited knowledge of this sensitive operation will pose a security hazard.

4. Construction on the LIMEST houses is being kept about two weeks from completion until indigenous agents can be cleared and recruited. The delay in completion is normal because all construction money in Mexico has become extremely tight because of the recent presidential inauguration.

5. The Station believes CLACKETT will be an excellent replacement for Wilfred O. CLOWER (ps), former Staff Agent under Project LIPSTICK, who directed and trained that surveillance team. CLACKETT has shown a remarkable aptitude for clandestine operational activity and surveillance and investigative work in particular. He also is interested and enthusiastic in undertaking this assignment for KUBARK. The Station needs a good bilingual agent to recruit, train, direct, and develop a strong dependable physical surveillance team under LIEMPTY.

6. Clearances and Contacts: CLACKETT was granted a PCSA on 23 July 1958. A POA/CA for use under LIMESA was requested on 19 August 1958. FIORDALISI was granted an OA for use under LIMESA on 14 November 1958. Requests have been submitted to amend their clearances for use under LIEMPTY. CLACKETT and FIORDALISI have signed contracts effective 1 September 1958. The sensitivity of the LIMESA Project required them to leave their young son in

SECRET

the United States. Because of this a special benefit of periodic trips to their home in Arizona was included in their contracts. Under LIMESA their quarters were to be provided. An amendment has been requested to their contracts deleting the special benefit and adding educational and quarters allowances.

7. Motivation and Control: CLACKETT and FIORDALISI are extremely patriotic and highly motivated as evidenced in their willingness to undertake the LIMESA Project and be separated from their son. They have indicated they are more than willing to do whatever is requested of them, no matter what personal sacrifices and hardships are required. Their complete livlihood is dependent on their KUBARK income.

8. Tasks: CLACKETT will recruit, train, and direct the LIEMPTY surveillance team. The Station hopes to develop this team into a major Station support asset. He will receive instructions and direction from the Station Case Officer. FIORDALISI will be used to do all the clerical and administrative work for the LIEMPTY surveillance team.

9. Communication and Contact: CLACKETT will contact the Station Case Officer in a clandestine manner. All necessary security precautions will be taken. CLACKETT will also contact his surveillance agents under a cover which will be determined later by the Station and CLACKETT. In view of his Mexican background, CLACKETT can pass as a Mexican. Details of communication and contact arrangements with KUBARK will be arranged by the Station. Under LIEMPTY CLACKETT will be contacted by the same Case Officer he is now contacted by under LIMESA. CLACKETT and FIORDALISI will be in direct contact with relatives and friends in the United States. The cover company has, until now, been serving as a letter drop and contact point for emergency messages.

10. Cover: CLACKETT and FIORDALISI entered Mexico on United States documentation and it is planned they will continue to live in Mexico under true name. CLACKETT has a notional cover as a public relations consultant which was established by CCD/NC to use with friends and relatives in the U. S. The same cover story can be adopted to cover their proposed use under LIEMPTY vis-a-vis their United States friends. The Station is working on local cover for CLACKETT to use in Mexico.

11. Anticipated Costs: It is anticipated that the following expenses will be incurred by CLACKETT and FIORDALISI:

Compensation:			
CLACKETT	($7750/yr)	7100	
FIORDALISI	($4000/yr)	3700	
			10,800
Allowances:			
Educational allowance		320	
Quarters	($2500/yr)	2500	2,820

14-00000

Travel:		
PCS	300	
TDY to Headquarters for training (including 30 day per diem at $12 per day)	648	948
	Total	14,368

A total of $14,470 was included under the LIEMPTY Project approval request submitted on 24 November 1958 for a Staff Agent; therefore, no additional funds are required.

MEMORANDUM FOR: FI/OPS-Projects Branch

SUBJECT : Justification for Automobiles under Project LIEMPTY

1. It is requested that the Mexico City Station be authorized to purchase three used sedans for use by the LIEMPTY surveillance team. The Station plans to expand the LIEMPTY surveillance team into a larger, well-trained physical surveillance asset. They will need three automobiles. Private automobiles or commercial transportation will not be satisfactory since the cars must be outfitted with two-way radios.

2. Authority is also requested to purchase a panel truck to be used in the LIENTRAP operation under this Project which mounts mobile photographic surveillances.

3. It is also requested that a quasi-personal car be authorized for Oliver G. Scantling (ps). Scantling is an indigenous agent under oral contract. A car is a prerequisite for his work for KUBARK which includes casings, surveillances, and investigations. Because of the sensitive nature of his work, and the heavy use made of the car, the Station has decided that Scantling should be furnished a QP car.

4. LIEMPTY agents were formerly carried under the LIJERSEY and LIPSTICK Projects. The vehicles used by the LIEMPTY agents under these other Projects will be disposed of and new ones will be purchased after the above TVA has been approved. The vehicles which will be replaced are MV 2148, MV 2147, MV 2138, and MV 2041. One of the surveillance cars will be new and will not replace an old car. It was decided that these vehicles should be replaced rather than transferred to the LIEMPTY Project for security reasons and because of the age of the automobiles. The automobiles are 1951 and 1952 models and have been used for sensitive surveillance work for over two years. The panel truck which was used in the LIENTRAP Operation under the LIPSTICK Project has been operating for two years in all parts of the city and has become a security threat. The fact that the LIPSTICK surveillance team knows that the truck exists, even to the point that one of the team members is the listed owner of the truck, also dictates replacement of this vehicle.

MEMORANDUM FOR: Acting Chief, WH Division

SUBJECT: KDFACTOR Project Amendment and Termination

1. The KDFACTOR Project, which provided photographic surveillance from two vantage points of the Soviet compound in Mexico City, was determined to be compromised due to the VWBLANKET case. The five agents were terminated in July 1972, but the base houses could not be terminated until January 1973 because it was necessary to sell one and the termination of the second was tied to the termination of KDABBEY who owned the second base house. It was necessary to pay rent for several extra months until these other terminations could be effected.

2. The base houses and agents have now all been terminated and the Station already has rented a replacement safehouse with new agents to provide the same coverage (KDALCOVE).

3. Approval of the amendment and termination of Project KDFACTOR is recommended.

MEMORANDUM FOR: Assistant Deputy Director for Plans

THROUGH : MPS/BG/FI

SUBJECT : Project KDFACTOR - Security Review

1. The CI Staff is satisfied with the fine Security Review of the KDFACTOR Project activity and personnel.

2. However, the Staff urges the Station to remain constantly alert to any security repercussions pertaining to all the terminated assets particularly in view of their past knowledge of the project activity and the fact that some of them had family and relatives who also were aware of the project activity. Focus should continue regarding any security problems pertaining to KDFACTOR-7.

3. In addition, the Station should continue to monitor any Soviet investigation or probing of owners and tenants involved in the properties used under this project.

8 - MAY 1972

MEMORANDUM FOR: Assistant Deputy Director for Plans

SUBJECT: Security Review of Project KDFACTOR

1. At the time you approved the renewal of Project KDFACTOR in December 1971 you asked that the Station conduct an updated security review of this operation, which provides photographic surveillance of the Soviet Embassy in Mexico City. You asked that particular attention be paid to terminated agents and their families. The Station has made a security review and a detailed report on the findings, from Chief, WH Division, is attached.

2. The report discusses the history of the operation, describes security problems of the past and steps taken to remedy them, and discusses the security and operational situation of the agents presently covered by the project. The report notes that the two operational sites and their associated agents are compartmented from each other and that processing the film is now being done inside the Station. One section of the report discusses in detail the assets who were formerly involved in these operations but have been terminated. The final section of the report describes current security practices and notes that an alternate photographic surveillance site has been procured and is available for use should the present one be compromised.

3. The report demonstrates that the security of the operation is being kept up to high standards and that there are no potential security threats from former agents that the Station is not aware of. The FI Staff believes that the Station's security review and the attached report satisfy the requirements of your request.

DD/P 72-1719

17 APR 1972

MEMORANDUM FOR: Assistant Deputy Director for Plans

SUBJECT : FI Project KDFACTOR, Security Review

REFERENCE : ADDP Memo (DD/P 1-5899) to C/WHD dated 14 December 1971

1. In response to reference the following is a summary of the KDFACTOR security review:

The Station summary of the KDFACTOR Project security is as follows:

"There were no known problems of security relating to the Project. In response to the Headquarters request, we have reviewed all phases of the operation and believe that Project security is sound. The Project assets have all been with us for many years and have established themselves as respectable long-time residents of the area. All five assets, four in one family and one in another, are extremely security conscious and have all been SGSWIRLED. The assets derive a substantial portion of their livelihood from their Agency employment and would thus lose a great deal if security factors ever necessitated a termination of their work for us. As an additional safeguard, the KDLITERAL and KDABSINTHE operations are compartmented from each other, and there has never been any indication that either segment of KDFACTOR knows of the other's existence".

The Headquarters desk has also reviewed the security of the KDFACTOR Project and agrees with the Station that the security is sound. In fact, as presently constituted, the KDFACTOR Project is well compartmented, and each of the two KDFACTOR photo basehouses (KDLITERAL and KDABSINTHE) is run by long-term assets who draw a minimum of suspicion in their operational activities. Terminated assets could possibly expose the existence

SECRET

GROUP 1
Excluded from automatic
downgrading and
declassification

of this project, but that seems unlikely from the Headquarters review of terminated agents witting of present KDFACTOR operational activities. A Soviet investigation of property ownership around the Soviet Embassy and their awareness that the Soviet Embassy was under photographic surveillance in the past could result in a Soviet investigation of the activities and contacts of KDABBEY-1, the owner of an apartment building and four houses close to the Soviet Embassy. It is doubtful that KDABBEY-1's activities, which do not inter-relate with the activities of the KDFACTOR agents, would in any way expose the KDFACTOR Project operational activities.

2. A brief history of the KDFACTOR Project:

The KDFACTOR Project had its origins in the LIJERSEY and LIPSTICK Projects, both active in the mid-1950's. In 1958, after the arrest of two LIPSTICK surveillance team members, it was decided to break off the more sensitive, uncompromised LIPSTICK assets manning and supporting two basehouses for photo surveillance of the Soviet Embassy. These assets were consolidated with one photo basehouse against the Soviet Embassy and one surveillance team from the LIJERSEY Project into a new project (LIEMPTY), which was approved on 16 January 1959. The LIEMPTY Project, renamed the KDFACTOR Project in 1971, consisted of three photo basehouses, two viewing the front of the Soviet Embassy (LIMITED and LILYRIC) and one viewing the rear garden of the Soviet Embassy (LICALLA), plus a mobile surveillance team (LIENTRAP) tied closely with the LIMITED basehouse, which was the radio control point for dispatch of the LIENTRAP.

In 1959 the LIENTRAP surveillance vehicle and two team members were arrested at the scene of a Cuban demonstration in Mexico City. A Station review of the security implications of this incident stated that it did not materially affect the security of the project nor expose any of the LIEMPTY basehouse operations. (Note: As the basehouse operations were compartmented, the only exposure possible from this incident would have been of the LIMITED basehouse, which is no longer in existence.)

The LIEMPTY Project operated substantially as above until the Warren Commission report was published in late 1964. In this publication was a picture of a person entering the Soviet Embassy taken from the LIMITED basehouse. The LIMITED photo basehouse was closed in September 1964, and all photographic surveillance was suspended as a security precaution. In January 1965 the LIMITED basehouse was relocated, and ✓

later that year the building it had previously been in was razed by the owner, KDABBEY-1. From 1964 on it must be assumed that the Soviet Embassy in Mexico City believes it is under regular photographic surveillance.

Further project changes took place in 1966 when the LILYRIC basehouse was relocated to another apartment with approximately the same view. In May 1968 the LIMITED basehouse was terminated and LIEMPTY-6, the basehouse keeper, retired. This affected the LIENTRAP coverage of Soviet vehicular movement monitored and directed from the LIMITED basehouse. With the closing of LIMITED and the Station decision to replace Raymond H. GERENDE, Mexican national contract agent who handled the LIEMPTY Project since its inception, the LIENTRAP mobile surveillance team was underemployed, and the decision was made to move it to the LIEMBRACE Project. This was done in early 1970, soon after GERENDE had been relieved of operational responsibilities in December 1969.

The photo processing of the KDFACTOR (formerly LIEMPTY) film take is now being done by the Station. In the past, it was done by the Station, by GERENDE, and by KDFACTOR-1, who was terminated amicably in early 1971. The building housing the KDLITERAL (formerly LICALLA) photo basehouse was purchased in 1957 by KDABBEY-1 for the Station. KDLITERAL is in a row of four houses all owned ostensibly by KDABBEY-1 but actually by the Agency. This row also houses a basehouse for FID's KDVAULT Project. The apartment building housing the KDABSINTHE (formerly LILYRIC) photo basehouse is owned outright by KDABBEY-1, who has been most cooperative in assisting the Station in maintaining and occasionally moving (1965 and 1966) photo basehouses. The LIMITED photo basehouse was also located on KDABBEY-1's property when it was active.

The individual basehouse operations are and have always been compartmented one from the other. The only points of breakdown in the compartmentation have been: (a) the LIMITED basehouse was linked to the LIENTRAP mobile surveillance; (b) KDFACTOR-1 was processing films from all the basehouses and could, therefore, be aware of their exact locations; (c) GERENDE was aware of all aspects of the KDFACTOR operation, and has since been terminated; (d) Oliver G. SCANTLING, Station contract agent retired in 1971, was aware of the KDFACTOR Project through his past work with LIEMPTY-6 and with GERENDE on KDFACTOR Project activities; and (e) the fact that the two present basehouse properties are owned by KDABBEY-1, who is witting of the locations and general activity of both KDFACTOR basehouses.

3. Agents and Case Officers presently active in the KDFACTOR Project: ✓

As of March 1972, Oliver J. MANKUNAS is the case officer responsible for handling the operations of KDFACTOR; Bruce H. FERNALD is the alternate case officer. The following is a list of active agents in the KDFACTOR Project:

A. KDFACTOR-2 (201-136454)
DATE OF OA: 27 December 1956
DATE SGSWIRLED: 27 April 1966
PRESENT POSITION: KDLITERAL Basehouse Operator
COVER: Accountant for a local bus line - works cover job in the evenings.

B. KDFACTOR-5 (201-119961)
DATE OF OA: 9 May 1956
DATE SGSWIRLED: 2 March 1966
PRESENT POSITION: KDABSINTHE Basehouse Operator
COVER: Industrial engineer - works cover job during the day.

C. KDFACTOR-6 (201-167567)
DATE OF OA: 16 October 1967
DATE SGSWIRLED: March 1966
PRESENT POSITION: Wife of KDFACTOR-5.
Co-KDABSINTHE Basehouse Operator
COVER: Housewife

D. KDFACTOR-8 (201-762111)
DATE OF OA: 29 November 1965
DATE SGSWIRLED: 3 March 1966
PRESENT POSITION: Son of KDFACTORs-5 and 6.
Part-time KDABSINTHE Basehouse Keeper/Operator.
COVER: Part-time shopping (shopper) investigator for Sears Roebuck de Mexico.

E. KDFACTOR-9 (201-762112)
DATE OF OA: 27 July 1966
DATE SGSWIRLED: 3 March 1966
PRESENT POSITION: Son of KDFACTORs-5 and 6. Part-time KDABSINTHE Basehouse Keeper/Operator.
~~COVER:~~ Medical student

F. KDFACTOR-10 (201-254181)
DATE OF OA: 14 September 1959
DATE SGSWIRLED: Not tested
PRESENT POSITION: Non-salaried. Wife of KDFACTOR-2, (KDLITERAL).
COVER: Housewife

G. KDABBEY
DATE OF OA: 28 April 1954
DATE SGSWIRLED: Not tested
PRESENT POSITION: Non-salaried. President of Construcciones Aztlan. Owner and landlord of KDVAULT and KDFACTOR basehouses.

Regarding the security of the above active KDFACTOR agents, the KDLITERAL basehouse is handled by KDFACTOR-2 with the assistance of his wife, KDFACTOR-10. They have a long-time maid and a 13-year-old son who lives with them in the basehouse. Neither the son nor the maid is believed to be witting. The photographic equipment is kept in a locked room, and the product is kept in a locked safe. KDFACTOR-2 was recruited by KDCALVERT-1, who is an active, long-term Station agent in the KDCALVERT Project and who is not considered a threat to KDFACTOR-2's security. KDFACTOR-2's activities are also known to his brother, the former LIPSTICK-47, who was one of the two LIPSTICK surveillance team members arrested in 1958 and who gave the police considerable information regarding LIPSTICK surveillance activities. LIPSTICK-47 was terminated in late 1958 and is believed to have withheld from the police the information regarding KDFACTOR-2 and the KDLITERAL basehouse. KDFACTOR-2 and his family have occupied the KDLITERAL basehouse since 1957 and have been discreet and security conscious in their dealings with neighbors and relatives.

The KDABSINTHE basehouse is manned by KDFACTOR-5, his wife KDFACTOR-6, and his two sons KDFACTOR-8 and KDFACTOR-9. The SGSWIRL of 2 March 1966 went into detail on who is witting of KDFACTOR-5's work for the Station. The result was that his immediate family, including a married daughter who no longer lives at the basehouse, are aware of the photographic operation. KDFACTOR-5 was recruited by LIEMPTY-12, a U. S. citizen with a private company in Mexico City who is no longer working with the Station but who is considered patriotic and no threat to KDFACTOR security.

4. Terminated Agents Possibly Affecting Present Project Security:

A. Raymond H. GERENDE

GERENDE is a Mexican citizen and was a contract agent until his termination on 26 June 1970. He had been employed by the Station intermittently since 1955 and was used almost exclusively in support activities. Since the start of the LIEMPTY Project in 1958 GERENDE had been directly involved with this project serving as cutout to the basehouses, carrying and processing films, and giving general direction to the project as principal agent. In 1969, after years of excellent service with the Station, GERENDE had serious marital problems which ended in separation from his wife, KDFACTOR-7. From December 1969 to June 1970 GERENDE was not used operationally but was maintained on half pay with the hope the divorce proceedings would be completed quickly. When it became apparent the divorce would drag on interminably, the Station reluctantly terminated GERENDE and his wife. Bruce H. FERNALD, career agent, met with GERENDE monthly from July 1970 through May 1971 while paying him his termination bonus in ten installments. GERENDE is still living in Mexico City, where he owns some property and has an income as an English teacher to employees of two local firms. He visited his wife and children in Holland in December 1970. It appears he may now be financially pressed as his English class schedule has been cut back. The Station as of 10 April 1972 had no information that would indicate GERENDE has violated his secrecy agreement.

There is an indication that GERENDE came to the attention of the Soviets in 1968. A Mexican walk-in to the FBI office in Mexico City, who was later interrogated by the Federal Security Police in 1970, said that in 1968 he had been employed by the Soviet Embassy Second Secretary, Oleg Masksimovich Nechiporenko (201-305870), to investigate persons working with the Mexican Olympic Committee. The persons investigated included GERENDE, who apparently became a specific target of Soviet investigation. It is unclear from the report of the Federal Security Police how far the Soviet investigation of GERENDE had proceeded. Nechiporenko was PNG'd from Mexico in March 1971. GERENDE's possible exposure to the Soviets could have been through his work on the Olympic Committee as a translator or through his work for the Station, which used him for a wide range of support tasks against the Soviet and Cuban targets.

B. KDFACTOR-7 (wife of GERENDE)

KDFACTOR-7 is a Dutch citizen and the former wife of GERENDE. She returned to the Netherlands in July 1970 with her children. She had served as a support agent assisting GERENDE. She is believed witting, in general terms, of GERENDE's activities regarding the KDFACTOR Project. She was terminated on 26 June 1970 and signed both a secrecy agreement and quit claim. After termination it became apparent that she had considerable hard feelings toward both the Agency and GERENDE over financial problems between her family and GERENDE. While the Station was not directly involved in all the financial problems, the Station was involved in regard to her divorce claims against GERENDE's salary, a large part of which came covertly from the Station. In July 1970 KDFACTOR-7 came to the Agency Headquarters and complained about her financial settlement. In September and November 1970 she wrote two letters directly to the Agency on the same subject. In late 1970 she also asked a Hague Embassy political officer to put her in contact with the Agency; however, she did not tell him the nature of her business. In January 1971 the Agency contacted KDFACTOR-7's brother, a U. S. Army civilian with a "Top Secret" clearance living in Alexandria, Virginia, and was able to resolve the financial misunderstandings with KDFACTOR-7. In January 1971 the Hague Station reported KDFACTOR had, without Station influence, obtained a job as social secretary with the Department of State at the Embassy. It is believed that this job has probably solved many of her financial problems and should also inhibit her from exposing her past work with the Mexico City Station, as such exposure could jeopardize her job. The Embassy in the Hague was briefed in general terms on KDFACTOR-7's background.

C. KDFACTOR-1

KDFACTOR-1 is a Mexican citizen and the brother-in-law of GERENDE. He was hired by the Station in 1956 to assist GERENDE in processing the photographic take of the KDFACTOR Project (at that time the LIPSTICK Project and later the LIEMPTY Project). KDFACTOR-1 was later assisted in processing the photographic take by his wife, LIEMPTY-5, who is GERENDE's sister. KDFACTOR-1 was terminated in March 1971, and the photographic processing previously done by KDFACTOR-1 is now done in the Station. The termination was amicable and largely due to delays in film processing as KDFACTOR-1's medical practice expanded. There does not appear to be any security problem in the termination of KDFACTOR-1 as he is discreet and also a close relative of GERENDE. The security of processing the film in KDFACTOR-1's medical office was good as KDFACTOR-1's wife, LIEMPTY-5, was assisting him with the processing and with the security of the darkroom.

D. LIEMPTY-5

LIEMPTY-5 was hired by the Station in 1957 to assist KDFACTOR-1 with the processing of KDFACTOR films. She is the sister of GERENDE and wife of KDFACTOR-1. She was terminated along with KDFACTOR-1 in March 1971. Due to her close relationship with GERENDE and KDFACTOR-1, she is not considered a threat to the Project Security.

E. Oliver G. SCANTLING

SCANTLING is a Mexican citizen who worked as a Station agent from 1954 until his termination without prejudice in February 1971. SCANTLING is in an excellent financial position and has assisted the Station in recent years largely because his strong motivation to work against the Communists. SCANTLING worked as a surveillance team leader from 1954 to 1957 and then in the LIEMPTY (KDFACTOR) Project from 1958 through 1966. He was the cut-out to LIEMPTY-6 and a back-up principal agent for GERENDE. SCANTLING's termination was amicable, and he is not considered a security problem to the Station or the KDFACTOR Project.

F. LIEMPTY-6

LIEMPTY-6, a Mexican citizen and long-term Station asset, was retired in May 1968. He had manned the LIMITED photo basehouse with his wife and son assisting him. He had been working with the Station since 1954, but age and ill health had reduced his efficiency. LIEMPTY-6 knows GERENDE and SCANTLING, but is not aware of the names or locations of any of the present KDFACTOR agents and basehouses. While he could give information on his participation in KDFACTOR activities up to 1968, he has no motive to do this and is apparently happily retired on his Agency termination bonus plus some financial assistance from his son-in-law. He is not considered a threat to the security of this Project.

There was one indication that the Soviets were seeking out the LIMITED photo basehouse and may have had suspicions concerning LIEMPTY-6. This was a report by KDADAGE-10 that in mid-1966 Stanislav Sergeyevich Silnikov (201-271103), a Soviet Embassy guard, asked KDADAGE-10 to report on his neighbors near the Soviet Embassy. Silnikov expressed interest in all the occupants of the new apartment building which houses the KDABSINTHE photo basehouse, but did not mention the KDABSINTHE basehouse keepers by name. Silnikov did name specific persons he was interested in and these included LIEMPTY-6. KDADAGE-10, of unknown reliability, said he did not give Silnikov any information, but added that, between himself and the Station, he suspected LIEMPTY-6 and had heard it rumored he worked for the Americans. In 1966 Headquarters already assumed the Soviets were aware of the LIMITED basehouse because it was used for radio direction of the LIENTRAP mobile surveillance. In any case, the Soviets apparently took no action prior to the closing of the LIMITED basehouse and the relocation of LIEMPTY-6 in May 1968. It is believed this incident has no implications that would threaten the security of current KDFACTOR assets.

5. Current KDFACTOR Security Practices:

The two photo basehouses, KDLITERAL and KDABSINTHE remain compartmented, as they have been throughout the history of the Project. The Station case officer responsible for the project meets weekly with KDFACTOR-2, responsible for the KDLITERAL basehouse, and with KDFACTOR-5, responsible for the KDABSINTHE basehouse. In these meetings he picks up the product, provides new supplies, pays salaries and handles miscellaneous administrative matters. These are car meetings usually held in early morning or at night and the pickup points are changed regularly. Meeting time is kept to a minimum and meetings are prescheduled whenever possible. The photographic product is processed in the Station, thus increasing the security and timeliness of its handling over the past practice of having KDFACTOR-1 process it in his office darkroom. The case officer only meets with KDFACTOR-2 and KDFACTOR-5; however, in emergencies other witting family members of either basehouse can be contacted and met. In case the present sites or personnel are compromised, the Station has rented another apartment in the building housing the KDABSINTHE basehouse and has installed members of the KDCALVERT Project as residents. This new apartment offers as good a vantage point for photographic coverage as the KDABSINTHE and could quickly be activated if for any reason the KDABSINTHE basehouse becomes untenable.

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT: FI Project KDFACTOR
FY 1971 Amendment No. 1
Biennial Renewal
Proposal for Fiscal
Years 1972 and 1973

1. On 10 December 1971 I approved subject actions in the amounts specified below:

a. FY 1971 Amendment No. 1 - For $4,266, increasing the project's FY 1971 funds authorization (from $23,630) to $27,896.

b. FY 1972 Renewal - For $19,000

c. FY 1973 Renewal - For $20,000

2. I ask that the Station conduct an updated security review of this operation, giving particular attention to the knowledgeability of terminated agents and their families as discussed in paragraph 3 of referent memorandum.

3. Also, I ask that you provide me (via MPS/BG) with a memorandum report summarizing the results of the above (paragraph 2) security review by 31 March 1972.

SUBJECT
0 Project LIEMPTY FY 1971 Approval

ACTION REQUIRED - REFERENCES

Ref: DIRECTOR 038379

1. Project LIEMPTY has been approved for FY 1971 in the amount of $23,635. It has also been amended for FY 1970 in the amount of $10,498 (from $38,970 to $49,468) in order to cover termination payments to Raymond H. GERENDE and his wife, LIEMPTY/19. The approval carried a WOMACE caveat that termination payments to GERENDE and his wife must be made on a monthly basis as described in the referenced cable.

2. In submitting the project renewal request we wrote in paragraph 2 under Future Plans that the Station would submit up-dated emergency contact plans. Please submit these plans in your first quarterly progress report for FY 1971 so that we can meet our obligation to the approving authorities.

3. A copy of the approved FY 1971 renewal request is being forwarded by split transmission for your files.

PROJECT LIEMPTY

REQUEST FOR RENEWAL

1. CURRENT OBJECTIVES

A. The overall objective of Project LIEMPTY, now in its eleventh year of existence, is to collect operational information on the FJSTEAL installation, its personnel and visitors, as well as related targets of opportunity through stationary/mobile photographic and physical surveillance mechanisms. Corollary objectives which are to be fulfilled through use of the LIEMPTY installations, mechanisms, and personnel are as follows:

1. To provide detailed operational information pertaining to the daily movements and activities of FJSTEAL personnel, particularly those individuals of intelligence interest, as well as information on the FJSTEAL physical plant and visitors to the premises.

2. To collect operational information on persons associated with FJSTEAL personnel and on individuals known or suspected to have connections with the FJSTEAL intelligence services or other hostile groups which are inimical to the interests of LNFORT.

3. To provide operational support, counter surveillance, and/or other protective services to KUFIRM personnel and operations, as may be levied upon the Station or as may be deemed necessary.

B. The above objectives are to be fulfilled through continued maintenance and exploitation of the LILYRIC and LICALLA basehouses, the LIENTRAP mobile unit, and the services of long-time contract agent, Raymond H. GERENDE. The LIEMPTY Project is the cornerstone of the Station's operational program against the FJSTEAL target and as such is completely responsive to Priority A-1 of the Station's Operating Directive.

C. Throughout the Project year under review, Project LIEMPTY continued to contribute directly and significantly to the fulfillment of Station and Headquarters' requests and requirements for coverage of various targets falling within the above cited framework.

During the Project year Project LIEMPTY provided all of the fixed operational photographs and physical surveillance reports used in Mexico City Station's operations targetted against the FJSTEAL installation and personnel. Specific examples of the LIEMPTY Project's progress and contributions will be found in Section 3 below (EFFECTIVENESS).

2. CHANGES

A. Operational

1. The major change during the preceeding period has been the closing of the LIMITED basehouse and the termination of LIEMPTY-[illegible]. This has resulted in considerable financial saving with no loss in efficiency--to the contrary, as a matter of fact. The major reason for the change was the fact that LIEMPTY-[illegible] was growing less reliable with age. He was not always able to be on the job, and when he was, his fixed surveillance reporting was occasionally inaccurate, and his photography was often poor. There had been considerable overlap between LILYRIC and LIMITED reporting, and with the closing of LIMITED, the LILYRIC working hours were extended slightly so that full working hours of the FJSTEAL installation continued to be covered. The only disadvantage to this arrangement is that the vantage point of the FJSTEAL installation which had been shared by LIMITED and LILYRIC will now go uncovered during periods of annual leave by LILYRIC personnel (the LILYRIC personnel are all members of one family and normally take their leave together).

2. There have been no changes in the operating procedures and techniques of LIEMPTY-9 in the LICALLA basehouse. The refinements described in the previous Project Outline have been effective and have been maintained. The same can be said of LIENTRAP, which has become a much more flexible tool since its partial integration into the LIEMBRACE team. There have been no changes in LILYRIC procedures, other than expansion of coverage to include the entire working week.

B. Financial - LIEMPTY-9 was granted a salary increase, effective 1 May 1968, in recognition of his excellent job performance. LIEMPTY-14 and -27 were granted salary increases on 1 May 1968, largely as compensation for the extra hours they agreed to put in to insure full-time coverage of the FJSTEAL installation by LILYRIC. Memoranda of Oral Agreement covering these three salary increases were forwarded with HMMA-34573, 2 May 1968. Finally, LIEMPTY-11 was granted a salary increase effective 1 January 1969, in recognition of his increased work load with the LIEMBRACE team. MOA was forwarded with HMMA-3[illegible]131, 23 December 1968.

C. Personnel

1. As noted above, LIEMPTY-6 was terminated effective 31 May 1968 in connection with the closing of the LIMITED basehouse. Termination was completely amicable, and LIEMPTY-6 received a generous termination bonus.

2. LIEMPTY-26 was hired as of 1 May 1968 to help LILYRIC personnel maintain their expanded coverage. No security factor is involved, as LIEMPTY-26 is part of the same family as the rest of the LILYRIC personnel. LIEMPTY-26 had been granted an OA in 1965 and had been used sporadically since that time.

3. An amendment to GERENDE's contract has been requested. This amendment would guarantee GERENDE termination benefits equal to those provided for by Mexican law, in the event of GERENDE's termination by WOFIRM. The amendment would also provide GERENDE with a graduated scale of benefits should he decide to resign. See HMMA-36312, 27 January 1969, for details.

3. EFFECTIVENESS

Throughout the period under review, each operational component of Project LIEMPTY contributed actively and concretely to the fulfillment of the operational tasks levied on Station Mexico City. High-lights of the accomplishments and the achievements of each component are cited below:

A. Fixed Basehouses

1. LIMITED

Until its termination, the LIMITED installation provided daily photographic coverage and physical surveillance of the main gate of the FJSTEAL installation. During the seven-month period from 1 November 1967 through 31 May 1968, the LIMITED base provided 911 frames of operational photographs. In addition, the LIMITED base provided over 1,000 pages of physical surveillance reports.

2. LILYRIC

During the Project year under review, the LILYRIC installation provided extensive photographic and fixed visual surveillance of the front of the FJSTEAL installation. The LILYRIC basehouse provided the majority of the operational photographs produced by the LIEMPTY Project. During the 13-month period from 1 November 1967 through 31 December 1968, the LILYRIC basehouse provided 15,331 operational photographs and several thousand pages of physical surveillance reports covering the daily movements of all FJSTEAL officers. As a specific example of the importance of LILYRIC coverage, it was LILYRIC photos which made possible the identification of a WOLADY citizen who had been in clandestine contact with an AEGRIP officer. This information was turned over to LNERGO, which was pursuing the case. In general, LILYRIC provides the Station with a large percentage of the CI raw material collected on the FJSTEAL target, such as automobile license numbers, PCS and TDY arrivals ~~and~~ departures, unusual activities such as demonstrations, unusual or lengthy absences of personnel, etc. This information also has positive operational value, but its most important use is as the major source of identification of FJSTEAL personnel and of information on their movements. The Station has frequent requests from LNERGO which can only be fulfilled by LIEMPTY coverage, and this "permanent and complete record" of FJSTEAL activities is invaluable for servicing the CE requirements of both WOFIRM and LNERGO.

3. LICALLA

During the above cited 13-month period, the LICALLA installation provided photographic and physical surveillance coverage of the back of the FJSTEAL installation and its garden and patio area. This coverage provided 5,125 individual photographs as well as numberous surveillance and observation reports. These reports included daily, weekly, and monthly summaries of activities, semi-monthly attendance reports (of FJSTEAL personnel), various special reports, and special intensive coverage of targets selected by the Station. It should be noted that the LICALLA basehouse allows Station Mexico City to observe the FJSTEAL personnel during their off-duty and recreational hours. The LICALLA installation has become the most valuable of the basehouses, not only because of its unique vantage point but also because of the perceptiveness of LIEMPTY-9. His surveillance reports have frequently given us valuable insight into personal associations among the FJSTEAL personnel and have enabled us to introduce greater flexibility and effectiveness into the entire LIEMPTY operation. LICALLA reporting has the greatest positive operational value since it provides raw material for use in target selection. Finally, the LICALLA CP is occasionally used in support of various technical operations conducted from the LI[illegible]SA complex.

B. Summary of Fixed Basehouse Effectiveness

The fixed LIEMPTY basehouses (LIMITED, LICALLA, and LILYRIC) provided approximately 21,367 individual frames of operational photographs during the 15-month period reviewed above. This photographic coverage, linked with the physical surveillance reports prepared by each basehouse, has proven to be a most reliable and viable tool for:

1. Following the daily comings and goings of FJSTEAL personnel and indigenous employees.

2. Confirming the identities of FJSTEAL staffers and their visitors (some of whom are ECLADY citizens).

3. Ascertaining and verifying the relative rank and position as well as indicating the specific intelligence service connection of various FJSTEAL officers.

4. Providing detailed reporting on the movement and habit patterns of selected targets of special interest.

5. Providing physical facilities for the support of various operational, technical, and surveillance operations.

C. The Mobile Photographic Unit

1. During the period under review, the LIENTRAP mobile photographic unit covered 40 photographic assignments in support of Mexico City Station's FJSTEAL, PBRUMEN, and Communist Party operations. An average of two to three days is spent on each assigned target, usually rotating the time of day the coverage is provided. The LIENTRAP operators, LIEMPTY-10 and -11, have consistently turned in a useful and excellent quality photographic product.

2. In addition, while not on an assignment, both operators have regularly assigned duties. LIEMPTY-10 has the responsibility for obtaining, renewing, and servicing most of the Station's accommodation addresses. The addresses are serviced three times a week. LIEMPTY-11 has been serving part-time for the past year as the seventh member of the LIEMBRACE surveillance team and has performed well in this capacity.

D. Raymond H. GERENDE - LIEMPTY Principal Agent

During the period under review, Raymond H. GERENDE continued in his role as the Project LIEMPTY principal agent. GERENDE operated as the full-time cut-out to the LIMITED, LILYRIC, and LICALLA basehouses and bore the first echelon agent handling responsibility for the related personnel. In addition, GERENDE continued to bear the contact and handling responsibilities for the operator of the LIEMPTY photographic developing/processing laboratory, LIEMPTY-4. GERENDE's overall operational assignment involved at least 10 clandestine meetings per week, in addition to his meetings with the LIEMPTY Project case officer. It should also be noted that GERENDE made numerous and essential contributions to the sensitive JMRCP operation and assisted the Station greatly with his detailed area knowledge in many instances. He is used to make independent investigations and neighborhood checks. He assisted the Station in its MHRAVEL program. As a part of the Station's effort to broaden GERENDE's horizons and to take better advantage of his capabilities, GERENDE was made the handling officer for ERFAIN-3 under close case officer supervision. Similar tasks are envisioned for GERENDE in the future--agent handling as well as the spotting and assessment of operational leads. These tasks are all assigned with due regard for GERENDE's primary responsibilities, with the aim of getting the optimum use out of a capable and experienced field contract agent.

E. Overall Effectiveness

As outlined above, each individual operational component of the LIEMPTY Project, with the exception of the phased-out LIMITED basehouse, contributed regularly and significantly to the fulfillment of Station Mexico City's operational program. Based on the continued excellent performance of Project personnel and the overall contributions of this Project, the Station strongly recommends that this Project be continued during the forthcoming Project year as an essential element of the Station's operational support apparatus.

4. PROBLEMS AND SECURITY

During the Project year under review there were no known incidents which adversely affected the security of Project LIEMPTY or the related personnel. The termination of LIEMPTY-6 caused no problems, nor did the construction of a maid's room on the roof of the LICALLA installation, adjacent to LIEMPTY-9's photo point. There is no indication that FJSTEAL personnel had any suspicions about the construction work. The exposure of a LIEMBRACE surveillance vehicle (see MEXICO CITY 9283, 28 February 1969) caused momentary concern because the vehicle had been bought from a dealer where LIEMPTY-9 has a part-time job. Along with all other employees of the auto dealer, LIEMPTY-9 was questioned about the purchaser of the car. While LIEMPTY-9 was worried because he knew the purchaser of the car and was able to guess what had happened, the investigation was dropped and the case closed without any adverse effect on LIEMPTY-9 or the LICALLA basehouse.

5. LIAISON AND INTER-AGENCY COORDINATION

Not applicable to Project LIEMPTY.

6. PLANS

A. The changes made in the period under review have been largely technical. With the exception of a continued expansion of non-LIEMPTY-oriented operational activity by GERENDE, there are no significant operational changes contemplated. LIEMPTY is a project designed to support the Station's REDTOP program and is useful only as long as it supports that program effectively. The Station believes that the support has been effective, and that the product of the operation is valuable. Occasional minor changes will undoubtedly be made in response to specific requirements and to continual efforts toward improvement, but continuing emphasis on the FJSTEAL target for the foreseeable future means, among other things, that the LIEMPTY Project, in essentially its present form, will continue to be a necessary part of the Station's program.

B. No need for expansion, in terms of personnel or facilities, is foreseen, but costs will probably climb slowly but steadily to permit salary increases and to keep up with the rising cost of living as it affects utilities and supplies. Replacement of GERENDE's QI vehicle (which was not foreseen in the previous Project outline, as this was originally written by the Station to cover the period ending 30 November 19[illegible]) became necessary late in FY 19[illegible]. The current Project is being written on the assumption that the vehicle was in fact replaced in FY 19[illegible] and that no further replacement will be necessary in the foreseeable future.

7. COSTS

A. FY 1969 - Project LIEMPTY was approved for FY 1969 in the amount of 43,590 dollars. Station records project spending for FY 1969 at almost exactly that figure. Semi-monthly accountings with pertinent receipts and/or certifications were submitted by Raymond H. GERENDE to the Station finance officer via the Project case officer for all LIEMPTY Project expenditures made in the field. It is estimated that approximately three hours of case officer and eight hours of analyst time is required each week to fulfill the operational, administrative, and analytical requirements of this project. (This figure does not include the 40 hour-week put in regularly by Raymond H. GERENDE.)

B. FY 1970 - It is requested that Project LIEMPTY be approved in the amount of 38,970 dollars for FY 1970 (this figure represents roughly a 10 percent decrease from the amount programmed for the previous Project year). While no large expenditures are anticipated for the replacement of photographic equipment during the forthcoming period, inflation may result in rising cost of utilities and supplies, and salary increases may be granted as indicated above. A detailed breakdown of Project expenditures for FY 1969, 1970 and 1971 follows.

SECRET [redacted]

	FY 1969	FY 1970	FY 1971
SALARIES			
		7000	7400
Raymond H. GERENDE (P/A)	$ 6,500	$ 6,500	$ 6,500
LIEMPTY-4 (photo processor)	2,400	2,400	2,400
LIEMPTY-9 (LICALLA)	4,320	4,320	4,320

TOTAL	$4[redacted]	$38,970	$41,370

SECRET [redacted]

C. As in the past, Raymond H. GERENDE will submit semi-monthly accountings for all Project expenditures with appropriate receipts or certifications. There will be no requirements for foreign currency beyond the Station's capability to provide.

8. EMERGENCY CONDITIONS

A. In the event of civil disorders or the evolution of complete enforced neutrality on the part of the host government, it is believed that regular operational contact could be maintained with the majority of the active LIEMPTY agents via Raymond H. GERENDE or in his absence, Oliver G. SCANTLING.

B. In the most unlikely event of the establishment of a regime openly hostile to LNFORT, limited contact could probably be maintained with the majority of the active Project agents. However, under these circumstances, it is highly probable that the activities of this Project would be somewhat curtailed.

C. Revised and up-dated emergency contact plans for use with Raymond H. GERENDE and Oliver G. SCANTLING are on file in the Station and at Headquarters (see HMMA-28533, dated 21 February 1966 and HMMA-28252, dated 9 February 1966).

MEMORANDUM FOR: Assistant Deputy Director Plans

SUBJECT: Supplementary Appropriation for LIEMPTY

It is requested that the figures in the attached field project renewal be amended and that an additional $26,205 be approved to cover the period 1 December 1968 through 30 June 1969 in order to carry the LIEMPTY Project to the end of a fiscal year. This sum is identical to that requested for a similar period in 1968 as there is no present justification for projecting any change in the financial requirements. The supplement would bring the cost of LIEMPTY to a total of $69,725 for 19 months.

X

SECRET

MEMORANDUM FOR: Deputy Director for Plans

SUBJECT : LIEMPTY Project Renewal

1. Renewal of Project LIEMPTY for the period 1 December 1967 through 30 November 1968 in the amount of $43,520 is hereby requested. $26,205 would be spent in FY 1968 and $17,315 in FY 1969. The project was budgeted for $45,000 for FY 1968; funds are available within the Division. Estimated costs for the coming project year are a little less than the amount programmed for the previous year and a little more than what was actually disbursed.

2. LIEMPTY is designed to provide physical surveillance of the Soviet Embassy in Mexico City. It covers three nearby properties (two in front of the Embassy's sole entrance and one behind the garden) from which visual and photographic surveillance are carried out by experienced personnel. The project also covers a darkroom where a technician processes the photographs. In addition to collecting this basic information on a primary target, certain of the LIEMPTY personnel are also available for miscellaneous support tasks, such as servicing postal boxes, and running fixed and moving surveillances. The photo truck which comes under the project is used on other targets as well, such as CP members, satellite embassies, and Latin American exiles. One of the basehouses is also used as a radio dispatch point for the LIEMBRACE surveillance team, but this function has been minimized during the past year in an effort to prevent Soviet interception of the signal.

3. a. The Mexican desk asked the appropriate operational component of SB Division for specific comment on the value of LIEMPTY, and received the following:

> "This rather unique operation has unquestionably made a major contribution to the increasingly effective Soviet Operations program of the Mexico Station. On the positive side its principal value lies in the identification of the Mexican and

GROUP 1
Excluded from automatic
downgrading and
declassification

> third national contacts of the Soviets, from which we must select and develop the access agents so vital to our operations against the Soviet human target. LIEMPTY also provides us with a much clearer picture of the inner relationships and activity patterns within the Soviet mission itself, which in turn facilitates effective targeting. The CE value of a LIEMPTY type project as a monitor of real and potential agent contacts is of course obvious. It is important to note that LIEMPTY is not, as might be the case in stations of lesser overall capability, a simple case of photography (or observation) for the record. Rather it is an important facet of a concerted high priority effort to get at and recruit individual Soviets."

b. Station reporting has been in a similar vein. Information produced is largely for operational purposes and we often lack detail as to specific utility in a given situation, although we can produce statistics on numbers of photographs produced and numbers of pages of surveillance notes. It is clear that the FBI is an interested customer and they have received from LIEMPTY a great many reports on American callers at the Soviet Embassy, and valuable support to double agent operations.

c. During a conversation on 8 December 1967, the officer who heads the station's SB section told the branch that LIEMPTY is basic and essential to all of his branch's operational planning, that he "grabs the LIEMPTY material first thing in the morning" and studies it for leads, evidence of which Soviet officers have been in the Embassy and which ones have been away, who has used which car, who has been talking to whom or going out of the building with whom, etc. etc. New additions to the Embassy staff can be tabbed as KGB or GRU by their associates, their activity patterns and the cars they drive. (The I.S. men are often away from the Embassy, while the legitimate FSO's tend to spend more time in their offices. The KGB, GRU and regular diplomatic groups seldom cross lines but stay within their own tight groups.) When double agents are turned over from one case officer to a new one, known to them only in alias, we are often able, through surveillance and photographs, to establish the true identity of the new case officer, as was done in the case of AEGIMMICK in the spring of 1967.

4. In assessing the security of the operation, the station assumes that the Soviets realize that they are being watched, as was evidenced by a Soviet officer's trying to shield an FBI-directed walk-in from observation. There have been rumors that anyone entering the Soviet Embassy is photographed, but no allegations that the Americans are doing it have come to our attention; the probable assumption is that the Mexicans are doing this. A former source who lives in the neighborhood was asked on several occasions what he knew about LIEMPTY/6, one of the safehousekeepers, and the Soviets have said they think he is watching them. On the security of the LICALLA safehouse there is a difference of opinion. GERENDE, the outside case officer, thinks the Soviets are aware that they are being observed from this post, but station disagrees and produces good justification for its views, citing the fact that the above-mentioned FBI walk-in was not shielded when led into the back garden which LICALLA overlooks. We have no evidence that Soviet interest is any threat to the operation; rather it may be assumed that they accept the surveillance as a fact of life.

PROJECT LIEMPTY

REQUEST FOR RENEWAL

1. CURRENT OBJECTIVES

A. The overall objective of Project LIEMPTY, now in its tenth year of existence, is to collect operational information on the FJSTEAL installation, its personnel and visitors, as well as related targets of opportunity through stationary/mobile photographic and physical surveillance mechanisms. Corollary objectives which are to be fulfilled through use of the LIEMPTY installations, mechanisms and personnel are as follow:

1. To provide detailed operational information pertaining to the daily movements and activities of the FJSTEAL personnel, particularly those individuals of intelligence interest, as well as information on the FJSTEAL physical plant and visitors to the premises.

2. To collect operational information on persons associated with FJSTEAL personnel and on individuals known or suspected to have connections with the FJSTEAL intelligence services or other hostile groups which are inimical to the interests of LNFORT.

3. To provide operational support, counter surveillance and/or other protective services to WOFIRM personnel and operations, as may be levied upon the Station or as may be deemed necessary.

B. The above objectives are to be fulfilled through continued maintenance and exploitation of the LIMITED, LILYRIC and LICALLA basehouses, the LIENTRAP mobile unit, and the services of long-time contract agent, Raymond H. GERENDE. These objectives are in consonance with operational directives and Headquarters requirements as received by Station Mexico City.

C. Throughout the Project year under review, Project LIEMPTY continued to contribute directly and significantly to the fulfillment of Station and Headquarters' requests and requirements for coverage of various targets falling within the above cited framework. During the project year Project LIEMPTY provided nearly all of the operational photographs and physical surveillance reports used in Mexico City Station's operations targeted against the FJSTEAL installation and personnel. Specific examples of the LIEMPTY Project's progress and contributions will be found in Section 3 below (EFFECTIVENESS).

2. CHANGES

A. Operational - Since the institution of the changes described in the previous renewal request, it has not been found necessary or desirable to make further major changes. The following minor changes in operational technique have been made in an effort to obtain continued improvement in the finished product:

1. LIEMPTY-9's proven effectiveness as an observer (see paragraph 3 A (3) below) has enabled us to institute a system of special coverage on specific FJSTEAL personnel of interest, or special coverage of specific time periods of interest. The purpose is to permit the Station to gain greater insights into the activities and personal associations of certain individuals, or in overall activities during a certain time period. No change in LIEMPTY-9's overall working hours has been made; rather, flexibility has been introduced.

2. Flexibility has also been introduced into the handling of LIENTRAP, which is now working more closely with the LIEMBRACE team in order to take greater advantage of targets of opportunity. To this end, LIEMBRACE-1 has been placed in direct contact with LIENTRAP, relieving Raymond H. GERENDE of this responsibility and permitting GERENDE to devote time to MHRAVEL activity (see sub-paragraph (3) below).

3. In September and October 1967 GERENDE was employed by the Mexican MHRAVEL committee. This position gave him direct access to FJSTEAL and other delegations of interest, and supplemented the Station's MHRAVEL program. It is expected that GERENDE will obtain MHRAVEL employment again in 1968.

B. Financial - LIEMPTY-4 and -11 were granted salary increases effective 1 July 1967. Memoranda of Oral Commitment were forwarded to Headquarters in HMMA-32584 and HMMA-32585, 20 July 1967. There was no change in the salaries of the remaining LIEMPTY agents.

C. Personnel - None.

3. EFFECTIVENESS

Throughout the period under review, each operational component of Project LIEMPTY contributed actively and concretely to the fulfillment of the operational tasks levied on Station Mexico City. High-lights of the accomplishments and the achievements of each component are cited below:

A. Fixed Basehouses

1. LIMITED

Throughout the past project year the LIMITED installations provided daily photographic coverage and physical surveillance of the main gate of the FJSTEAL installation. In addition, the LIMITED base provided for a fixed radio dispatching station which was used to support the LIEMBRACE surveillance team. Due to the stringent security measures instituted in the immediate vicinity of the FJSTEAL installation by local security forces, normal stake-outs by this unilateral team are precluded. However, with the radio dispatching support from the LIMITED radio base, which allows the LIEMBRACE team to work from adjacent safe areas, secure surveillance coverage of this target can be provided. During the 12-month period from 1 November 1966 through 31 October 1967, the LIMITED base provided 1,834 frames of operational photographs. In addition, the LIMITED base provided over 2,500 pages of physical surveillance reports.

2. LILYRIC

During the project year under review, the LILYRIC installation provided extensive photographic and fixed visual surveillance of the front of the FJSTEAL installation. The LILYRIC base provided the majority of the operational photographs produced by the LIEMPTY project. During the 12-month period cited in the LIMITED section above, the LILYRIC base provided 12,137 operational photographs and several thousand pages of physical surveillance reports covering the daily movements of all FJSTEAL officers.

3. LICALLA

During the above cited 12-month period, the LICALLA installation provided photographic and physical surveillance coverage of the back of the FJSTEAL installation and its garden and patio area. This coverage provided 4,917 individual photographs as well as numerous surveillance and observation reports. It should be noted that the LICALLA base allows Station Mexico City to observe the FJSTEAL personnel during their off-duty and recreational hours. The LICALLA installation has become the most valuable of the three, not only because of its unique vantage point but also because of the perceptiveness of LIEMPTY-9. His surveillance reports have frequently given us valuable insight into personal associations among the FJSTEAL personnel and have enabled us to introduce greater flexibility and effectiveness into the entire LIEMPTY operation.

B. Summary of Fixed Basehouse Effectiveness

The fixed LIEMPTY basehouses (LIMITED, LICALLA and LILYRIC) provided approximately 18,888 individual frames of operational photographs during the 12-month period of the past project year. This photographic coverage, linked with the physical surveillance reports prepared by each basehouse, has proven to be a most reliable and viable tool for:

1. Following the daily comings and goings of FJSTEAL personnel and indigenous employees.

2. Confirming the identities of FJSTEAL staffers and their visitors (some of whom are WOLADY citizens).

3. Ascertaining and verifying the relative rank and position as well as indicating the specific intelligence service connection of various FJSTEAL officers.

4. Providing detailed reporting on the movement and habit patterns of selected targets of special interest.

5. Providing physical facilities for the support of various operational, technical and surveillance operations.

C. The Mobile Photographic Unit

1. Throughout the period under review, the LIENTRAP mobile photographic support unit was regularly exploited and used by Station Mexico City, not only on the FJSTEAL target, but also for PBRUMEN and Communist Party operations as well as the JMTIGER program. Over 2,000 operational photographs were provided. In addition, the LIENTRAP personnel and unit was used regularly to service and obtain various postal accomodation boxes used by Mexico City, Headquarters and other field stations.

D. Raymond H. GERENDE - LIEMPTY Principal Agent

During the period under review, with the exception of short vacation periods, Raymond H. GERENDE, continued in his role as the Project LIEMPTY principal agent. GERENDE operated as the full-time cut-out to the LIEMPTY, LILYRIC and LICALLA basehouses and bore the first echelon agent handling responsibility for the related personnel. In addition, GERENDE continued to bear the contact and handling responsibilities of the LIENTRAP unit (until mid-August 1967 - see paragraph 2 A (2) above) and for the operator of the LIEMPTY photographic developing/processing laboratory, LIEMPTY-4. GERENDE's overall operational assignment involved at least 12 clandestine meetings per week, in addition to his meetings with the LIEMPTY Project case officer. It should also be noted that GERENDE made numerous and essential contributions to the sensitive AMROD operation and assisted the Station greatly with his detailed area knowledge in many instances. He is frequently used to make independent investigations and neighborhood checks. As noted above, he contributed significantly to the Station's MHRAVEL program. Finally, he approached, developed and eventually attempted to recruit an agent for use in PBRUMEN operations.

E. Overall Effectiveness

As outlined above, each individual operational component of the LIEMPTY Project contributed regularly and significantly to the fulfillment of Station Mexico City's operational program. Based on the continued excellent performance and overall contributions of this project, the Station strongly recommends that this project be continued during the forthcoming project year as an essential element of the Station's operational support apparatus.

4. PROBLEMS AND SECURITY

During the project year under review there were no known incidents which adversely affected the security of Project LIEMPTY or the related personnel.

5. LIAISON AND INTER-AGENCY COORDINATION

Not applicable to Project LIEMPTY.

6. PLANS

A. As noted above, the technical and operational changes made in the past year have been effective and have resulted in a product which is as closely geared to operational requirements as possible. While no major changes are contemplated, every effort will be made to continue to improve the product, including greater use of GERENDE as an independent investigative asset, and as a spotter and assessor of selected agent candidates. Such utilization of GERENDE will be kept compartmented from other personnel of the LIEMPTY project and will normally be handled by GERENDE in operational alias.

B. The LIENTRAP vehicle has been replaced, and no major changes in personnel or material are contemplated. Salaries of LIEMPTY personnel will be reviewed, and it is foreseen that the rising cost of living will compel us to recommend salary increases for certain of the agents who have not received raises in some time.

7. **COSTS**

A. Past Project Year - Project LIEMPTY was previously approved for the period 1 December 1966 through 30 November 1967 for the amount of 45,000 U.S. currency. Station records indicate that through 31 October 1967, Project LIEMPTY has expended 37,040 in the field. It is estimated that a total of 40,130 will be expended in the entire project year. Bi-weekly accountings with pertinent receipts and/or certifications were submitted by Raymond H. GERENDE to the Station finance officer via the project case officer for all LIEMPTY Project expenditures made in the field. It is estimated that approximately 5 hours of case officer and 10 hours of analyst time is required each week to fulfill the operational, administrative and analytical requirements of this project. (This figure does not include the 40 hour-week put in regularly by Raymond H. GERENDE).

B. During Project Year - It is requested that Project LIEMPTY be approved in the amount of 43,520 U.S. currency for the period 1 December 1967 through 30 November 1968 (this figure represents a slight decrease from the amount programmed for the previous project year). While no large expenditures are anticipated for the replacement of photographic equipment during the forthcoming period, an increase in the rental of the various basehouses may be encountered as well as the above-cited expectation of salary increases. Of the amount requested above, 26,205 dollars should be allowed for fiscal year 1968 and 17,315 dollars for fiscal year 1969. A detailed breakdown of the project expenditure by category and by fiscal year follows:

SALARIES (INCLUDING CHRISTMAS BONUS)		FY 68	FY 69
Raymond H. GERENDE (P/A)........	$ 7,036		
LIEMPTY-4 (photo lab)...........	2,600

Maintenance and replacement of photographic equipment	$ 500	$ 300	$ 200
OPERATIONAL EXPENSES			
Purchase of film; rental of post office accomodation boxes; rental of vehicles; contingency fund	$1,000	$ 600	$ 400
TOTALS	$43,520	$26,205	$17,315

C. As in the past, Raymond H. GERENDE will submit bi-weekly accountings for all project expenditures with appropriate receipts or certifications. There will be no requirements for foreign currency beyond the Station's capability to provide.

8. EMERGENCY CONDITIONS

A. In the event of civil disorders or the evolution of complete enforced neutrality on the part of the host government, it is now believed that regular operational contact could be maintained with the majority of the active LIEMPTY agents via Raymond H. GERENDE or in his absence, Oliver G. SCANTLING.

B. In the most unlikely event of the establishment of a regime openly hostile to LNFORT, limited contact could probably be maintained with the majority of the active project agents. However, under the circumstances described above, it is highly probable that the activities of this project would be somewhat curtailed.

C. Revised and up-dated emergency contact plans for use with Raymond H. GERENDE and Oliver G. SCANTLING are on file in the Station and at Headquarters (see HMMA-28333, dated 21 February 1966 and HMMA-28252, dated 9 February 1966).

SUBJECT
ↄ LIEMPTY Project Renewal

ACTION REQUIRED REFERENCES

Reference: HMMA-30403

1. The LIEMPTY Project was renewed on 13 January 1967 for the period 1 December 1966 through 30 November 1967 for a total of $45,000. Of this, $29,020 is for FY 1967 and $15,980 is for FY 1968.

2. At the Station's convenience, Headquarters would appreciate receiving a sketch showing the exact position of the LILYRIC and LIMITED Basehouses in relation to the target building. We would also like to have a description of LIMOUSINE's new building--how many floors, how many apartments on each floor, who occupies the other apartments (or stores), and exactly where the LILYRIC base is in the building.

3. You are requested to continue reporting any unusual interest displayed by the target in the LIEMPTY Basehouses.

COMMENT FOR INTERNAL STAFF USE (*Not to go forward to the Division*)

COMMENTS AND RECOMMENDATIONS (*To go forward to the Division*)

The CI Staff concurs in the renewal of this very valuable Project. The Staff strongly urges the Station to continue its close monitoring of Soviet interest in the installation buildings and attempts to obtain information on sensitive project personalities. The Station should devise necessary contingency plans of action to eliminate any security hazards if it is determined that the Soviets are intensifying such efforts and could be getting "too close"to the Project installations, personalities and activities.

REQUEST FOR RENEWAL

PROJECT LIEMPTY

1. CURRENT OBJECTIVES

A. The overall objective of Project LIEMPTY, now in its ninth year of existence, is to collect operational information on the LIMERICK installation, its personnel and visitors, as well as related targets of opportunity through stationary/mobile photographic and physical surveillance mechanisms. Corollary objectives which are to be fulfilled through use of the LIEMPTY installations, mechanisms and personnel are as follow:

1. To provide detailed operational information pertaining to the daily movements and activities of the LIMERICK personnel, particularly those individuals of intelligence interest, as well as information on the LIMERICK physical plant and visitors to the premises.

2. To collect operational information on persons associated with LIMERICK personnel and on individuals known or suspected to have connections with the LIMERICK intelligence services or other hostile groups which are inimical to the interests of [illegible].

3. To provide operational support, counter surveillance and/or other protective services to WOFACT personnel and operations, as may be levied upon the Station or as may be deemed necessary.

B. The above objectives are to be fulfilled through continued maintenance and exploitation of the LIMITED, LILYRIC and LICALLA basehouses, the LIEMTRAP mobile unit, and the services of long-time contract agent, Raymond H. GERENDE. These objectives are in consonance with and represent partial fulfillment of the following sections of the current Related Mission Directive (RMD) as approved for Station Mexico City:

PRIORITY A
Section 1, subsection f
Section 2, subsections b & e

PRIORITY B
Section 1, subsection a
Section 2, subsection a

C. Throughout the Project year under review, Project LIEMPTY continued to contribute directly and significantly to the fulfillment of Station and Headquarters' requests and requirements for coverage of various targets falling within the framework of the above cited sections of the RMD. During the last 10 months Project LIEMPTY provided the vast majority of the operational photographs (approximately 16,000) and physical surveillance reports (4,000) used in Mexico City Station's operations targetted against the LIMERICK installation and personnel. Specific examples of the LIEMPTY Project's progress and contributions to the RND will be found in Section 3 below (EFFECTIVENESS).

2. **CHANGES.**

A. Operational - As noted in the previous Request for Project Renewal, the former LIMITED property was sold to LIMOUSINE, who as per formal agreement with the Station, demolished the old structure and constructed a new edifice. While it was initially contemplated to place the LIMITED (LIEMPTYs -6 and -7) personnel in the new building and to retain the same, equal division of workload between LILYRIC and LIMITED, it was later decided to move the present LILYRIC basehouse personnel (LIEMPTYs-13, -14, -26 and -27) into the new base instead, along with the following ancillary modifications:

An increase in the hours of both the photographic and physical surveillance coverage provided from the new base by the LILYRIC operators (0800-1600 hours) during the weekdays and to have the LIMITED base provide photographic and physical surveillance coverage from 1600-1830 hours on weekdays and from 0900-1300 hours on weekends. These changes were dictated by the following considerations:

1. The new LIMOUSINE building offers a much better vantage point for both photographic and physical surveillance than does the present complex which houses the LILYRIC and LIMITED bases. Therefore, the Station felt that the personnel occupying this new base should be those possessing the highest technical skills and also those able to provide the most thorough and complete coverage. Since the LIMITED base now has only one trained operator while the LILYRIC basehouse has three, the LILYRIC group and a revision of working hours was indicated.

2. Because it was apparent that the coverage of the LIMERICK installation would be a long-range and continuing requirement, the Station desired to staff the new base with personnel of long-range potential. LIEMPTY-6, now almost 60 years old, does not possess this potential; however, the LILYRIC agent complex happily combines experienced personnel with youthful agents.

3. Finally, the social and financial status of the LILYRIC personnel is much more compatible and consistent with the environment of the new building than is that of the LIMITED family.

The above-cited revised work schedule was initiated in July 1966 and the actual movement of the LILYRICs into the new base began in late September 1966.

[redacted]

B. Financial - After a detailed review of the then-existing LIEMPTY agent salary structure, selected agents (LIEMPTYs -6, -9, -10, and -11) were granted salary increases effective 1 January 1966. Formal notification and revised memoranda of oral commitment were forwarded to Headquarters with HMMA-28,136, dated 25 January 1966. There was no change in the salaries of the 8 remaining LIEMPTY agents.

C. Personnel

1. During the Project year under review, LIEMPTY-6, -9, -13, -14, -26 and -27 were afforded their initial SGSWIRL examinations, all with satisfactory results.

2. LIEMPTY-26 was granted an OA effective 29 November 1965 for use as a cut-out to the [illegible] basehouse (HMMW-14177, dated 9 December 1965). LIEMPTY-26 has been actively used during the past Project year for the above-stated purpose.

3. LIEMPTY-27 was granted an OA on 27 July 1966 for use as a part-time LILYRIC basehouse operator (HMMW-14757, dated 1 August 1966). While LIEMPTY-27's heavy university schedule has thus far precluded his regular use by the Station, it is anticipated that subject will be regularly employed after the end of the present school term.

3. EFFECTIVENESS.

Throughout the period under review, each operational component of Project LIEMPTY contributed actively and concretely to the fulfillment of the operational tasks levied on Station Mexico City by the RMD and other directives. High-lights of the accomplishments and the achievements of each component are cited below:

A. Fixed Basehouses

1. LIMITED

Throughout the past Project year (with the change in working hours noted in paragraph 2 above), the LIMITED installation provided daily photographic coverage and physical surveillance of the main gate of the LIMERICK installation. In addition, the LIMITED base provided for a fixed radio dispatching station which was used continually to support the LIEMBRACE surveillance team. Due to the stringent security measures instituted in the immediate vicinity of the LIMERICK installation by local security forces, normal stake-outs by this unilateral team are precluded. However, with the radio dispatching support from the LIMITED radio base, which allows the LIEMBRACE team to work from adjacent safe areas, secure surveillance coverage of this

[redacted]

[redacted]

target can be provided. During the 9-month period from 1 November 1965 through 30 July 1966, the LIMITED base provided 3,775 frames of operational photographs. In addition, the LIMITED base provided over 1,000 pages of physical surveillance reports.

2. LILYRIC

During the Project year under review, the LILYRIC installation provided extensive photographic and fixed visual surveillance of the front of the LIMERICK installation. The LILYRIC base not only provided the majority of the operational photographs produced by the LIEMPTY project, but also provided the most detailed physical surveillance reports. During the 9-month period cited in the LIMITED section above, the LILYRIC base provided over 6,500 operational photographs and 3,000 pages of physical surveillance reports covering the daily movements of all LIMERICK officers.

3. LICALLA

During the above cited 9-month period, the LICALLA installation provided photographic and physical surveillance coverage of the back of the LIMERICK installation and its garden and patio area. This coverage provided over 3,600 individual photographs as well as numerous surveillance and observation reports. It should be noted that the LICALLA base allows Station Mexico City to observe the LIMERICK personnel during their off-duty and recreational hours.

B. Summary of Fixed Basehouse Effectiveness

The fixed LIEMPTY basehouses (LIMITED, LICALLA and LILYRIC) provided approximately 17,000 individual frames of operational photographs during the first 9-month period of the past project year. Within the last year, this photographic coverage linked with the physical surveillance reports prepared by each basehouse, has proven to be a most reliable and viable tool for:

1. Following the daily comings and goings of LIMERICK personnel and indigenous employees.

2. Confirming the identities of LIMERICK staffers and their visitors (some of whom are WOLADY citizens).

3. Ascertaining and verifying the relative rank and position as well as indicating the specific intelligence service connection of various LIMERICK officers.

4. Providing detailed reporting on the movement and habit patterns of selected targets of special interest.

5. Providing physical facilities for the support of various operational, technical and surveillance operations.

[redacted]

[redacted]

C. The Mobile Photographic Unit.

1. Throughout the period under review, the LIENTRAP Mobile photographic/support unit was regularly exploited and used by Station Mexico City. This unit provided over 1,000 individual photographs and was used in support of Station operations and activities. Of particular value to Station Mexico City and the JMTIGER program were numerous photographs of local and exile Communist leaders provided by LIENTRAP. In addition, the LIENTRAP personnel and unit was used regularly to service and obtain various postal accommodation boxes used by Mexico City, Headquarters and other field stations.

D. Raymond H. GERENDE - LIEMPTY Principal Agent.

During the period under review, with the exception of short vacation periods, Raymond H. GERENDE, continued in his role as the Project LIEMPTY principal agent. GERENDE operated as the full-time cut-out to the LIEMPTY, LILYRIC and LICALLA basehouses and bore the first echelon agent handling responsibility for the related personnel. In addition, GERENDE continued to bear the contact and handling responsibilities of the LIENTRAP unit and for the operator of the LIEMPTY photographic developing/processing laboratory, LIEMPTY-4. GERENDE's overall operational assignment involved at least 12 clandestine meetings per week, in addition to his meetings with the LIEMPTY Project case officer. It should also be noted that GERENDE made numerous and essential contributions to the sensitive AMROD operation and assisted the Station greatly with his detailed area knowledge in many instances.

E. Overall Effectiveness

As outlined above, each individual operational component of the LIEMPTY Project contributed regularly and significantly to the fulfillment of Station Mexico City's operational program. Based on the continued excellent performance and overall contributions of this project, the Station strongly recommends that this project be continued during the forthcoming project year as an essential element of the Station's operational support apparatus.

4. PROBLEMS AND SECURITY.

During the Project year under review there were no known incidents which adversely affected the security of Project LIEMPTY or the related personnel. The only significant problem encountered in the operation and administration of this project stemmed from the physical move of the LILYRIC personnel to the new base in the LIMOUSINE building. Numerous delays arising from the faulty performance of the local contractors and construction crews hampered a timely relocation of this base. However, it is anticipated that the new LILYRIC base will be in full operation by the end of October 1966.

[redacted]

5. LIAISON AND INTER-AGENCY COORDINATION.

Not applicable to Project LIEMPTY.

6. PLANS.

A. As outlined in paragraph 6 of the Station's previous request for the renewal of Project LIEMPTY, a program was undertaken to reequip and modernize the LIEMPTY photographic processing base. During the past year, a significant portion of the equipment used in the developing and processing laboratory was replaced. As a result of this program, negatives and photographic prints of much higher quality are now being produced. Consequently, only minor changes in the operation of the photographic laboratory and its equipment are contemplated for the ensuing period.

B. The present physical condition, mileage and frequent use of the LIEMTRAP unit dictates the immediate replacement of this unit. Station Mexico City has received Headquarters approval for the replacement of this vehicle.

C. Other than noted above, Mexico City plans no significant operational, administrative or personnel changes, since it is generally felt that this Project is now operating at its optimum size and in a highly satisfactory manner. After 1 January 1967, the Station will review the existing LIEMPTY personnel salary schedule and consider possible raises, again on a selective basis or specifically keyed to the rising cost of living.

7. COSTS.

A. Past Project Year - Project LIEMPTY was previously approved for the period 1 December 1965 through 30 November 1966 for the amount of 41,500 U.S. currency. Station records indicate that thus far, Project LIEMPTY has expended 30,598.13 in the field. It is estimated that approximately 1,500 dollars has been expended by Headquarters, principally in the acquisition of new equipment for the LIEMPTY photographic laboratory. Bi-weekly accountings with pertinent receipts and/or certifications were submitted by Raymond H. GERENDE to the Station finance officer via the Project case officer for all LIEMPTY Project expenditures made in the field. It is estimated that approximately 12 hours of case officer and 5 hours of analyst time is required each week to fulfill the operational, administrative and analytical requirements of this Project. (This figure does not include the 40 hour-week put in regularly by Raymond H. GERENDE).

B. Ensuing Project Year - It is requested that Project LIEMPTY be approved in the amount of 45,000 U.S. currency for the period 1 December 1966 through 30 November 1967 (this figure represents only a slight increase over the amount programmed for the previous Project year). While no large expenditures are anticipated for the replacement of photographic equipment during the forthcoming period, an increase in the rental of the various basehouses will be encountered as well as the above-cited replacement of the

[redacted]

LIENTRAP unit. Of the amount requested above, 29,020 dollars should be allowed for fiscal year 1967 and 15,960 dollars for fiscal year 1968. A detailed breakdown of the Project expenditure by category and by fiscal year follows:

SALARIES (INCLUDING CHRISTMAS BONUS)

		FY 67	FY 68
Raymond M. GERENDE (P/A)	$ 7,000		
LIEMPTY-4 (photo lab)	2,600		
LIEMPTY-6 (LIMITED basehouse-keeper)	3,900		
LIEMPTY-9 (LICALLA basehouse keeper)	4,000		
LIEMPTY-10 (LIENTRAP operator)	4,400		
LIEMPTY-11 (LIENTRAP operator)	2,600		
LIEMPTY-26 (Cut-out to LILYRIC)	2,200		
LIEMPTY-13 (LILYRIC basehouse-keeper)	2,200		
LIEMPTY-27 (LILYRIC operator)	2,000		
	$30,900	$19,150	$11,750

VEHICLE MAINTENANCE

		FY 67	FY 68
MV 2606 (GERENDE)			
MV 2279 (LIENTRAP unit replace)		(3,500)	
	$ 5,000	$ 4,315	$ 665

REAL ESTATE (RENT, UTILITIES)

		FY 67	FY 68
LIMITED	3,000		
LILYRIC	1,800		
LICALLA	1,800		
Photo Lab	1,000		
	$ 7,600	$ 4,430	$ 3,170

EQUIPMENT

		FY 67	FY 68
Maintenance and replacement of photographic equipment			
	$ 500	$ 375	$ 125

OPERATIONAL EXPENSES

		FY 67	FY 68
Purchase of film; rental of PO accommodation boxes; rental of vehicles; contingency fund			
	$ 1,000	$ 750	$ 250
TOTAL	$45,000	$29,020	$15,960

[redacted]

[redacted]

C. As in the past, Raymond H. GERENDE will submit bi-weekly accountings for all Project expenditures with appropriate receipts or certifications. There will be no requirements for foreign currency beyond the Station's capability to provide.

8. EMERGENCY CONDITIONS.

A. In the event of civil disorders or the evolution of complete or enforced neutrality on the part of the host government, it is now believed that regular operational contact could be maintained with the majority of the active LIEMPTY agents via Raymond H. GERENDE or in his absence, Oliver G. SCANTLING.

B. In the most unlikely event of the establishment of a regime openly hostile to LNFORT, limited contact could probably be maintained with the majority of the active Project agents. However, under the circumstances described above, it is highly probable that the activities of this Project would be somewhat curtailed.

C. Revised and up-dated emergency contact plans for use with Raymond H. GERENDE and Oliver G. SCANTLING are on file in the Station and at Headquarters (see HMMA-28355, dated 21 February 1966 and HMMA-28252, dated 9 February 1966).

REQUEST FOR RENEWAL

PROJECT LIEMPTY

1. CURRENT OBJECTIVES

A) The overall objective of Project LIEMPTY, now in its eighth year of existence, is to collect operational information on the LIMERICK installation and personnel, as well as related targets of opportunity, through stationary and mobile photographic and physical surveillance mechanisms. Corollary objectives which are to be fulfilled through the use of the LIEMPTY installations and personnel are as follow:

1) To provide operational information pertaining to the daily activities and movements of the LIMERICK personnel, particularly those individuals of intelligence interest, as well as information on the LIMERICK physical facilities and visitors to the premises.

2) To collect operational information on persons associated with LIMERICK and on individuals known or suspected to have connections with opposition intelligence services or other hostile groups which are inimical to the interests of ODYOKE.

3) To provide operational support, countersurveillance, and other protective services to Station personnel and operations as may be deemed necessary.

B) The above objectives are to be fulfilled through the continued exploitation of the LIMITED, LILYRIC and LICALLA basehouses, the LIENTRAP mobile unit, and the services of long-time contract agent, Raymond H. GEREDE. These objectives are in consonance with and represent partial fulfillment of the following sections of the current Related Mission Directive (RMD) as approved for Mexico City Station:

PRIORITY A

Section 2, subsection b.

PRIORITY B

Section 1, subsection a.
Section 2, subsection a.

C) Throughout the project year under review, Project LIEMPTY continued to contribute directly and significantly to the fulfillment of the Station's and Headquarters' requests and requirements for coverage of various targets falling within the framework of the above cited objectives of the RMD. Specific examples of the LIEMPTY Project's progress and contributions to the RMD will be found in Section 3., EFFECTIVENESS.

SECRET [redacted]

2. CHANGES

A) Administrative - As noted in the regularly submitted LIEMPTY progress reports and the previous Request for Renewal of Project LIEMPTY (Section VI, subsection D), during the past two years it had become obvious that many of the operational assignments levied on Oliver G. SCANTLING (covered by Project LIEMPTY during six months of the past project year), while completely within the realm of the WHD, were falling outside the proper scope of Project LIEMPTY; consequently, a new Project was prepared by the Station and approved by Headquarters to cover KUBARK's relationship with and the support of SCANTLING. SCANTLING was therefore removed from the aegis of Project LIEMPTY on 1 May 1965 and integrated into the new close support Project LI[illegible]OR.

B) Operational - As noted in the previous Request for Project Renewal, all operational activity was suspended in late September 1964 at the LIMITED basehouse because of the potential security ramifications stemming from the overt publication of a LIMITED photograph in the Warren Commission Report. The Station subsequently acquired an apartment in the immediate vicinity of the LIMERICK installation and moved the LIMITED basehouse keepers into this temporary location. After a prudent cooling-off period, all LIMITED operational activities (photographic, physical surveillance, and radio dispatching) were re-initiated from the new location in early January 1965. During the interim period, and as a result of separate correspondence with Headquarters, the former LIMITED property was sold to LIMOUSINE, who as per formal agreement with the Station, demolished the old structure and began construction of a new edifice. Included in this formal agreement with LIMOUSINE is the proviso that one floor of the new building will be reserved for the sole use of Station Mexico City. Upon completion of the new structure, the LIMITED personnel and operational activity will be securely transferred from the temporary apartment to the new, more ideally located LIMOUSINE building.

C) Finance - After a detailed review of the then-existing LIEMPTY agent salary structure, 3 selected agents (LIEMPTY-9, LIEMPTY-11, and LIEMPTY-14) were granted salary increases effective 1 February 1965. (Formal notification and the pertinent revised Memorandum of Oral Commitment were forwarded to Headquarters with HMMA-26252, dated 1 June 1965). In addition, as per the Headquarters prepared contract ammendment, Raymond H. GERENDE was granted a salary increase effective 1 July 1965. There was no change in the salaries of the eight remaining active LIEMPTY agents.

D) Personnel - LIEMPTY-26 was granted a POA on 15 October 1965 for use as a cut-out to the LILYRIC basehouse. PRQ II information is being compiled and will be submitted in the near future. LIEMPTY-26 was actively used after receipt of the POA.

3. EFFECTIVENESS

Throughout the period under review, each operational component of Project LIEMPTY contributed actively to the fulfillment of the overall operational program levied on the Station by the WHD and other Headquarter's requests. Highlights of the accomplishments and achievements of each component follow:

A) LIMITED - Throughout the past project year, with the exception noted in paragraph 2, section B. above, the LIMITED installation provided daily photo coverage and physical surveillance of the main gate of the LIMERICK installation during the afternoon and early evening hours. (During the morning hours, the LIMITED basehouse keepers prepared the typewritten surveillance reports and photographic logs covering the previous day's activities). In addition, the LIMITED installation provided a fixed radio dispatch base, used regularly to support the LIEMBRACE surveillance team. Because of the tight security measures instituted by the local security forces in the immediate vicinity of the LIMERICK installation, normal stakeouts by this unilateral team are precluded. However, with the support of the LIMITED radio base, which can dispatch the team from adjacent safe-areas, secure and effective surveillance coverage of this target can be provided. During the ten-month period from 1 November 1964 through 30 August 1965, the LIMITED base provided 150 rolls of 35mm operational still photographs, which provided the Station with approximately 2,970 individual frames. In addition, the LIMITED base provided bi-weekly physical surveillance summary reports.

B) LILYRIC - The LILYRIC installation also provided extensive photographic and fixed visual surveillance of the front of the LIMERICK installation throughout the period under review, during the morning and early afternoon hours, with evenings being spent in the preparation of written surveillance reports and photographic logs. During the ten-month period from 1 November 1964 through 30 August 1965, the LILYRIC basehouse provided 5,060 individual frames (226 rolls) of 35mm operational photographs. In addition, the LILYRIC basehouse keeper provided 1,060 pages of physical surveillance reports covering the daily movements of the principal LIMERICK officers.

C) LICALLA - During the above-noted ten-month period, the LICALLA installation provided photographic and physical surveillance coverage of the back of the LIMERICK installation, the garden and the patio area. This coverage produced 153 rolls of 35mm film, which produced 4,174 individual photographs as well as bi-weekly physical surveillance summaries. In addition, various Headquarters specialists made night-time entries into the LICALLA basehouse for on-site clandestine surveys in support of a potential sensitive technical operation.

SUMMARY OF FIXED BASEHOUSE EFFECTIVENESS

The fixed LIEMPTY basehouses (LIMITED, LILYRIC, LICALLA) thus produced over 12,000 individual frames of operational photographs during a ten-month period within the last year. This coverage linked with the related physical surveillance reports prepared by each basehouse has proven to be a most reliable and viable tool for:

i) following the daily movements of LIMERICK personnel;
ii) providing and confirming the identities of LIMERICK staffers and their visitors (some of whom were PBPRIMErs);
iii) verifying the relative rank and position as well as the specific intelligence service connection of various LIMERICK officers;
iv) provided detailed reporting on the movement patterns of selected targets of special interest; and
v) providing physical facilities for the support of various technical and surveillance team operations.

D) LIENTRAP - Throughout the period under review, the LIENTRAP mobile unit was heavily used and exploited by Station Mexico City. This unit provided 1,797 individual photographs of various targets of operational interest to Mexico City Station, particularly local Communist leaders and installations as well as various communist exiles now residing in Mexico City. In addition, the LIENTRAP personnel regularly serviced approximately twenty postal accommodation boxes used operationally by Mexico City, Headquarters, and other stations.

Specifically, the LIENTRAP unit:

i) provided and serviced accommodation boxes for the sensitive AMROD operation;
ii) provided photographic/casing coverage of an embassy of interest to KUTUBE/D for use in operational planning;
iii) provided up-to-date photos of individuals and an installation linked with the Spanish Republican (loyalists) group in Mexico; and
iv) provided identifications, locations, and contacts of various local and exile communists in support of recruitment/penetration programs directed against the Partido Comunista Mexicano, the Partido Popular Socialista, and various exile communist leaders.

E) OLIVER G. SCANTLING - During the six-month period in which he was covered by the LIEMPTY Project (see paragraph 2, section a.) Oliver G. SCANTLING contributed heavily to the fulfillment of the RMD. Specifically, SCANTLING: Served as the alternate Station contact to LICALLA-1, the singleton agent in a sensitive and productive LAURICLE operation; prepared numerous detailed casing reports three of which were in support of KUTUBE/D operational programs; conducted several pretext investigations; successfully recruited and handled an agent with access to the PBRUMEN Embassy, which resulted in two technical penetrations (LITOMANCE) of that hostile installation; made essential contributions to the AMROD operation in the form of translations and physical leg-work; and handled various LIEMPTY agents during the absence of the regular LIEMPTY Principal Agent, Raymond H. GERENDE.

F) RAYMOND H. GERENDE - During the period under review, with the exception of short vacation periods, GERENDE continued in his role as the LIEMPTY Principal Agent. This assignment entailed regular meetings with the LIERIC, LICALLA, and LIMITED basehouse keepers (or cutouts to these bases); regular contact with the operators of the [illegible] mobile photo unit; regular contact with the LIEMPTY photographic developing and processing base; and numerous operational tasks in support of the [illegible] operation. Specifically, this effort involved at least twelve clandestine agent or Case Officer meetings per week, the first echelon financial accountability for the expenditure of $36,000 per annum, in addition to various cover-job duties.

SUMMARY OF EFFECTIVENESS

As outlined above, each individual operational component of the LIEMPTY project contributed significantly and regularly to the fulfillment of the overall operational program levied on the Station by the RMD and other directives. Based on the fine performance and overall contributions of this project, the Station concludes that this operation is essential to the fulfillment of the RMD and should be continued during the forthcoming year.

4. PROBLEMS AND SECURITY

The only significant operational/security problems which confronted the LIEMPTY project during the period under review, were those which stemmed directly or indirectly from the overt release of the clandestine LIMITED photographs published in the Warren Commission Report. The precise damage occasioned locally by the public disclosure of this clandestinely acquired information still cannot be measured. However, time-consuming personnel moves, with the attendant loss of coverage and additional cost as well as otherwise unnecessary expenditures of Station time and effort were required by this incident. (See paragraph IV of the 1964 LIEMPTY Project Renewal Request for details). Other than the above affair, there have been no operational, administrative, or personnel problems which the Station could not readily and securely resolve.

5. LIAISON AND INTERAGENCY COORDINATION

Not applicable to Project LIEMPTY

6. PLANS

A) As further implementation of a program initiated during the latter portion of the past project year, Mexico City Station will continue to give increased emphasis to improving the quality of the photographic product from the LIEMPTY basehouses. While no concomitant reduction in the quantity of photographs is anticipated, the Project Case Officer, with the assistance of the local KURIOT representative will continue to emphasis the quality rather than the number of photographs. An ancillary objective of this program is to replace a significant portion of the equipment now used in the LIEMPTY developing and processing lab. Much of this equipment is over eight years old and no longer lends itself to the production of high-quality negatives or photographic prints. The total cost of this equipment replacement program is not expected to exceed $300 and sufficient funds have been included in the cost section of this renewal request.

B) Other than noted above, Mexico City Station plans no other significant operational, administrative or personnel changes, since it is generally felt that this project is now operating at its optimum size and in a completely satisfactory manner. After 1 January 1966 the Station will review the existing LIEMPTY salary schedule and consider possible raises, again on a selective basis.

7. COSTS

A) Past Project Year - Station records indicated that Project LIEMPTY expended $30,549.99 during the ten-month period from 1 December 1964 through 30 September 1965. Bi-weekly accountings with pertinent receipts and/or certifications were submitted by CIRENDE and SCANTLING to the Station finance officer via the project Case Officer for all LIEMPTY Project expenditures. It is estimated that approximately fifteen hours of Case Officer and five hours of analyst time is required each week to fulfill the operational, administrative and analytical requirements of this project.

B) Ensuing Project Year - It is requested that Project LIEMPTY be approved in the amount of $41,500 for the period 1 December 1965 through 30 November 1966. (The project was previously programmed for $30,000; [redacted] Of this amount, $25,520 should be allotted for FY 1966 and $15,980 for FY 1967. A detailed breakdown of project expenditures by category and by fiscal year follows:

SALARIES (INCLUDING CHRISTMAS BONUS)		FY 66	FY 67
Raymond H. GERENDE (F/A)	$7,000		
LIEMPTY-4 (photo lab)	2,600		
LIEMPTY-5 (photo lab assistant)	1,000		
LIEMPTY-6 (LIMITED basehouse-keeper)	3,900		
LIEMPTY-9 (LICALLA basehouse keeper)	4,000		
LIEMPTY-10 (LIEMTRAP operator)	4,400		
LIEMPTY-11 (LIEMTRAP operator)	2,600		
LIEMPTY-26 (Cut-out to LILYRIC)	2,200		
LIEMPTY-13 (LILYRIC basehouse keeper)	2,200		
	$29,900	$18,400	$11,500
VEHICLE MAINTENANCE			
MV 2606 (GERENDE) MV 2279 (LIEMTRAP unit)			
	$2,000	$1,190	$810
REAL ESTATE (RENT, UTILITIES)			
LIMITED (to include moving costs)	3,000		
LILYRIC	1,800		
LICALLA	1,800		
PHOTO Lab	1,000		
	$7,600	$4,430	$3,170
EQUIPMENT			
Maintenance and replacement of photographic equipment	$1,000	$750	$ 250
OPERATIONAL EXPENSES			
Purchase of film; rental of PO accommodation boxes; rental of vehicles;contingency fund			
	$1,000	$750	$250
TOTAL	$41,500	$25,520	$15,980

C) As in the past, Raymond H. GERENDE will submit bi-weekly accountings for all project expenditures with appropriate receipts and certifications. There are no requirements for foreign currency beyond the Station's capability to provide.

8. EMERGENCY CONDITIONS

A) In the event of civil disorders or the evolution of complete or enforced neutrality on the part of the host government, it is now believed that regular operational contact could be maintained with the active LIEMPTY agents via Raymond H. GERENDE or in his absence, Oliver G. SCANTLING.

B) In the most unlikely event of the establishment of a regime hostile to ODYOKE, limited contact could probably be maintained with the active project agents through GERENDE or SCANTLING. However, under the conditions described above, it is doubtful whether this project would be able to operate against more than one-or two selected targets.

C) Emergency communications plans for Oliver G. SCANTLING and Raymond H. GERENDE are on file in the Station and at Headquarters (see HMMA-15982 and HMMA-15981, of 25 November 1960). In addition, in late 1964, a review was held with all active agents of their recontact plans and verbal recognition signals.

SUBJECT: LIEMPTY Project Renewal

ACTION REQUIRED - REFERENCES

Reference: HMMA 24650

1. The LIEMPTY Project Renewal request forwarded in reference, was approved on 29 January 1965 for the period 1 December 1964 through 30 November 1965 for a total of $45,300; $27,675 for FY 1965 and $17,625 for FY 1966.

2. At the time of approval, Assistant KUDOVE stated he expects this project to live within the sum authorized for the year, and that there will be no amendment for additional funds.

3. As you were informed in HMMW 13282 in the dispatch on the LIEMBRACE Project Renewal, KUTUBE is interested in the problem of hostile monitoring of any radio communications from LIMITED. You should remain alert to this problem, and inform us if Headquarters can be of any assistance in helping you maintain communications security.

4. You are reminded that the LIEMPTY Project, as approved, only covers the salary for Oliver G. SCANTLING through 31 May 1965. It is suggested that a separate project be written to cover SCANTLING if his new duties do not fall entirely under any other approved project.

MEMORANDUM FOR: Chief, EXO

SUBJECT : Project LIEMPTY

Renewal of this project is recommended. This operation continues to carry out the same type of activity it has engaged in for a number of years and its product continues to be important to our efforts against the Soviets and Communist Party in Mexico. The Station should carefully select the new operational assignment of Oliver G. SCANTLING so as to make best use of this long-time asset's considerable clandestine experience.

MEMORANDUM FOR: Chief of Operations, DD/P

SUBJECT : LIEMPTY (Renewal)

WH - Mexico City

1. The attached project, originating in WH Division, is presented for renewal for the period 1 December 1961 through 30 November 1962. This project provides for physical and photographic surveillance operations in support of Mexico City Station operations, particularly those directed against Soviet personnel and installations.

2. Authority is requested to obligate $43,500 from the DD/P-WH Division budget: $23,500 in fiscal year 1962, and $20,000 in fiscal year 1963 subject to the availability of funds. This estimate includes $33,500 for salaries of three contract agents and eleven indigenous agents; $3,500 for operational expenses, including QP vehicle operation and maintenance, new safehouse procurement, post office boxes, purchase of information, and rental of vehicles; $1,000 for repair, maintenance, and replacement of photographic equipment; and $5,500 for maintenance of three safehouses.

3. The attached request for renewal discusses project activities in the past period. Contract Agent Oliver G. SCANTLING (p), serving as an investigator, has continued to follow-up on leads developed from other operations; has been the primary source of information on residences of Soviet Embassy personnel; has provided investigative information on several cases of CI interest; and has trained surveillance assets in Monterrey. He also handled the LINLUCK surveillance team during the time Contract Agent Simon J. CLACKETT (p) was absent from Mexico. The project segment under the direction of Contract Agent Raymond H. GERENDE (p) continued to collect operational information on the Soviet Embassy through photographic surveillance; and to provide operational support

SECRET

50-6-74/1

to the Station in the form of rental of safe-quarters, counter-surveillance, and procuring and servicing letter drops. The Division feels that both aspects of the project are worthwhile to the Station's activities. It considers that the project is now operating at optimum size and does not plan to expand. In the coming period efforts will be made to refine and better use the existing organizational arrangements.

4. Appropriate Special Staff elements recommend renewal of this project.

5. I recommend renewal of Project LIEMPTY as presented.

LIEMPTY Project Renewal Request

1. It is requested that the LIEMPTY Project be renewed for the period 1 December 1962 through 30 November 1963 for a total of $49,500; $29,500 for Fiscal Year 1962 and $20,000 for Fiscal Year 1963. These amounts can be broken down as follows:

	FY 1962	FY 1963
Salaries	24,000	15,500
Transportation	1,100	900
Operational Expenses	3,900	3,100
Operational Equipment	500	500
Totals	29,500	20,000

2. It is not anticipated that any training will be required during the next project year.

3. Emergency recontact instructions for Raymond H. GERENDE and Oliver G. SCANTLING are on file at Headquarters.

4. This project is primarily a support asset and does not provide positive intelligence.

5. WH Division strongly recommends renewal of this project which covers some of the most valuable investigative and support assets available to Mexico City Station.

Review of Project LIEMPTY

(For the Purpose of Project Renewal)

I. CURRENT OBJECTIVES AND PRODUCTION

A. Oliver G. SCANTLING Segment (discussed in relation to project objectives):

1. "To collect operational information pertaining to LIMERICK personnel and physical facilities." SCANTLING has continued (See the last two Project Reviews forwarded as attachments to HMMA-14093, 13 November 1959, and HMMA-15979, 18 November 1960) to provide worthwhile information pertaining to this objective.

a. During the past year SCANTLING has continued to be used to follow up leads produced by LIENVOY. For example, operational information recently indicated that the LIMERICK target was using the services of a Mexico City firm to repair safes. Through discreet investigation SCANTLING was able to identify the firm, its location and the name of the owner in the event that we later wished to make an approach to him or to exploit this information in another manner.

b. SCANTLING is still the Station's primary source for keeping current records on the residences of the many LIMERICK personnel in Mexico City. This is accomplished in several ways; the most important being SCANTLING's follow up of all LIENVOY leads which indicate the LIMERICK people are interested in renting a given piece of property. (See previous project renewal request for additional details).

2. "To collect operational information pertaining to other targets of opportunity, foreign official installations and personnel of intelligence interest operating in Mexico." SCANTLING is very useful for collecting information on other Station targets:

SECRET/[redacted]

CS COPY

[illegible] HMMA-17[illegible]

50-6-[illegible]

a. On the basis of a request to the Station from the ODACID Chief, SCANTLING was sent to Puebla to be an eyewitness to the 4 June 1961 Catholic inspired anti-CASTRO demonstrations. Not only did SCANTLING obtain the desired information, and samples of many of the leaflets used, but he prepared his report for the Station in time for the COS to give the ODACID Chief a briefing at 1000 hrs., 5 June 1961. SCANTLING does an excellent job on this type of assignment due principally to his ability to observe and report objectively.

b. SCANTLING was instrumental in establishing that Fernando LLANES Cavero and his wife were living at a local Mexico City address. This case has been of considerable counterespionage interest to Headquarters.

c. SCANTLING has continued his contributions to the Paul Frederick KIRSCHHOFF case by periodic interviews with the subject's neighbors and associates.

3. "To exploit operational leads through recruitments, debriefings, and surveillances." SCANTLING has contributed to this objective both directly and indirectly as will be noted by the examples listed below:

a. SCANTLING devoted a lot of time to the surveillance and attempted recruitment of Abel ARTEAGA, a Mexican national employed at the Cuban Embassy. SCANTLING talked with ARTEAGA several times and undoubtedly was primarily responsible for the later success of the recruitment made by another Station agent.

b. Some additional time was devoted to the Cesar GONZALEZ Sanchez case in February 1961 when SCANTLING determined that GONZALEZ was still in Mexico City. See the last renewal for additional details on this case.

c. In connection with the above objective SCANTLING has performed numerous pretext and neighborhood investigations for the Station. SCANTLING also does most of the local investigations requested by ODACID and other ODYOKE components.

d. SCANTLING spent six weeks during July and August of this year giving tradecraft and surveillance training to LIPAILS 5 and 7 from Monterrey. Although this is not a direct contribution to the above objective, it is considered sufficiently related to mention here.

4. In addition to his contributions to the above objectives, SCANTLING is used for miscellaneous support requirements from the Station. For example, SCANTLING is now handling LIEMBROIL-2 and will continue to do so until the return of LIMOTOR-14 in June 1962. Also, during the past project year, SCANTLING handled the LIRICE surveillance team until July 1961 when Simon D. CLACKETT (ps) returned to Mexico City. SCANTLING is also used to spot and rent safe houses and apartments for other Station operations.

5. As stated in the preceeding Requests for Project Renewal, although SCANTLING's LIEMPTY Project objectives can never be completely fulfilled, it is the Station's opinion that SCANTLING has made important and valuable contributions to LIEMPTY Project objectives specifically and to other Station activities in general. SCANTLING's production, measured against monetary expenditures, case officer time and other intangible factors, unquestionably justifies his continuation as an integral part of Project LIEMPTY.

B. Raymond H. GERENDE Segment (discussed in relation to project objectives):

1. "To collect operational information pertaining to LIMERICK personnel and physical facilities through use of photographic base houses." Three photographic bases, LIMITED, LILYRIC and LICALLA, contribute to this objective. To avoid repetition, the Station is omitting the usual description of the functions of these three bases and how they contribute to the above objective. There has been no change in the coverage as described in the 1960 Request for Project Renewal.

2. "To collect operational information and identify operational leads pertaining to Station targets of opportunity." The LIENTRAP operation, handled by GERENDE, is still the major contributor to this

objective. In addition to performing numerous photographic assignments in support of other Station operations, LIENTRAP devoted nearly four months, on a fulltime basis, to coverage of the LIERODE operation. For several weeks the entire "take" from the LIERODE target was recorded from the LIENTRAP vehicle. Later, the LIENTRAP agents operated the LIERODE technical gear from the initial LIERODE stationary base.

3. "To provide operational support to Station operations, i.e., rent hotel rooms and apartments, and conduct counter-surveillances." GERENDE is used frequently to rent hotel rooms and apartments for other Station operations and activities. GERENDE's comprehensive area knowledge and personal operational capabilities combine to make him an extremely valuable Station asset for such support activities. GERENDE also procures and services post office box letter drops for the many Station operations requiring them.

4. The quality and quantity of operational information produced by the photographic bases and other activities under GERENDE's control and supervision is considered worthwhile. The Station concludes, therefore, that this segment of the LIEMPTY Project should be continued.

C. Relationship to Related Mission Directive Objectives:

As stated in the previous project renewal, it can readily be noted that Project LIEMPTY has provided support to many Station operations and in this manner has been a contributing factor to the furthereance of the Related Mission Directive. The project has not produced any positive intelligence nor has it been intended that it should do so. The project's sole purpose is to provide a mechanism for the development of operational information in support of other Station operations.

II. CHANGES

There have been no changes in the LIEMPTY Project during the past project year except that SCANTLING relinquished control of the LIRICE (formerly LIJERSEY) surveillance team in July 1961 in accordance with previous plans.

III. EFFECTIVENESS

There has been no change in Project LIEMPTY which would alter the validity of the remarks made in Section III of last year's project renewal request.

IV. PROBLEMS

The security problem in connection with the LICALLA operation, which was described in last year's renewal request, is still present but has not caused any known difficulty. At Headquarters suggestion in HMMW-9736, the LICALLA base was reactivated on 29 May 1961. The base operator has been cautioned to be ever alert for any unusual incidents which might indicate that the base has been compromised. This is the only problem experienced by the LIEMPTY Project during the past project year.

V. PLANS

The Station considers that the project is now operating at its optimum size and does not plan to expand it during the coming year. Rather, efforts will be devoted to refining and better utilizing the existing project organizational arrangements.

VI. COSTS

A. Past Project Year - Station finance records indicate that Project LIEMPTY expended $21,458.00 during Fiscal Year 1961 (1 December 1960 - 30 June 1961) and has thus far during Fiscal Year 1962 (through 30 September 1961) expended about $11,000.00. It is anticipated that about $8,000.00 will be expended during the last two months (October and November 1961) of the project year. This will make a total expenditure during the project year of about $40,500.00, or some $12,500.00 under the budget estimate of $53,000.00.

B. Ensuing Period - Of the total $49,500.00 budget, itemized below, $29,500.00 should be expended during the remainder of Fiscal Year 1962 and the balance, $20,000.00 should be expended during Fiscal Year 1963. Normal accounting procedures will be used for all expenditures.

AGENT	U.S. $ PER ANNUM	
Raymond H. GERENDE	$ 5,520.00

CRYPTONYM: LIEMPTY
HEADQUARTERS CASE OFFICER:
OPERATING DIVISION: WH
Charlotte L. Zehrung
FIELD STATION: Mexico City
ROOM NO.: 1015 Barton Hall
EXTENSION: 2555/3162
TARGET AREA: Mexico
DATE: 13 December 1960

1. It is requested that the LIEMPTY Project be renewed for the period 1 December 1960 through 30 November 1961 for a total of $53,000; $31,900 for fiscal year 1961 and $21,100 for fiscal year 1962. The LIEMPTY Project was programmed for $85,000. During the past project year, approximately $59,880 was obligated.

2. This Project provides operational support to the Station and is not a source of positive intelligence. Examples of operational data developed through this project are given in paragraph I of the attached Station Review of Project LIEMPTY. There have been no disseminations made at Headquarters of intelligence produced through LIEMPTY.

3. The only training provided LIEMPTY personnel during the period under review was given to Raymond H. GERENDE. He is being given training in basic flaps and seals techniques so that the Station will have a trained agent outside the Station who will be able to provide this service if required. No further training for GERENDE or any of the other LIEMPTY agents is being contemplated for the coming year.

4. Attached for the information of the Staffs is a dispatch from the Station (HMMA-14793) dated 8 April 1960 which answers the questions raised at the time of the last renewal.

5. With reference to Paragraph VII, Emergency Condition, contained in the attached Project Review, the Mexican desk has on record in the permanent file of Raymond H. GERENDE and Oliver G. SCANTLING, the details of emergency recontact instructions which have been agreed upon between the Station and each Agent.

6. It is requested that the LIEMPTY Project be renewed on the basis of the attached Project Review.

SECRET/[redacted]

REVIEW OF PROJECT LIEMPTY
(For the Purpose of Project Renewal)

I. CURRENT OBJECTIVES AND PRODUCTION

A. Oliver G. SCANTLING Segment (discussed in relation to project objectives):

1. "To collect operational information pertaining to LIMERICK personnel and physical facilities." SCANTLING has continued (See the last Project Review forwarded as an attachment to HMMA-14093, 13 November 1959) to provide worthwhile and significant information pertaining to the above objective. There follow a few examples of SCANTLING's production:

a. A detailed casing of the LIMERICK electrical power supply was forwarded to Headquarters as an attachment to HMMA-14496, 12 February 1960. The production of this type of operational information, which takes several weeks to compile accurately, illustrates the unusual talents possessed by SCANTLING together with his valuable contributions to the Station's operational information collection effort.

b. SCANTLING has been used frequently to follow up leads produced by LIFEAT/LIMERICK (now produced by LIENVOY). For example, in May 1960, LIFEAT indicated that the LIMERICK target was having considerable contact with an AGENCIA ROBLES concerning the handling of incoming and outgoing shipments. By discreet investigation, SCANTLING was able to provide the Station with additional pertinent information about the address, owner and type of business engaged in by the firm. Such information then becomes readily available for exploitation should a LIMERICK shipment of particular interest come to the attention of the Station.

c. SCANTLING is the Station's primary investigative asset for keeping track of current residence addressees of LIMERICK personnel. The Station considers it important from the counterespionage standpoint to maintain information on the location of all

CS COPY SECRET/[redacted] 50-6-74/1

LIMERICK residences. In addition, specific targets are continually considered for LICOOL installations. A recent example of SCANTLING's efforts in this connection would be the spotting and acquisition of the LIMOTOR base in the same apartment building with LITALOK -1. Contributions of this type operational information are quite time consuming due to the necessity for checking out several apartments that a LIMERICK individual may initially be considering as a residence.

2. "To collect operational information pertaining to other targets of opportunity, foreign official installations and personnel of intelligence interest operating in Mexico." As indicated below, SCANTLING is also extremely useful for collecting information on targets other than LIMERICK:

a. In March 1960 SCANTLING was instrumental in locating property adjacent to the LITABBY installation which the Station has since rented in anticipation of initiating photographic and technical operations. SCANTLING was able to accomplish this assignment only after a thorough casing and pretext investigations of the several pieces of property appropriate for such operations.

b. SCANTLING is also used to follow up sensitive leads in connection with LIFEAT and LIENVOY production from LITABBY and sister targets (See example as to type under I,A,1, b and c above).

c. SCANTLING was used as an investigative asset to determine the local address and exact employment of Gordon William GROVES (201-220025), a counterespionage case of interest to Headquarters and ODENVY.

3. "To exploit operational leads through recruitments debriefings, and surveillances." As examples of SCANTLING's contribution to this objective, the following cases are listed:

a. SCANTLING devoted a considerable amount of time to his attempts to locate Cesar GONZALEZ Sanchez, a known agent of a Communist Country. He followed various leads on GONZALEZ from March to August 1960 before

GONZALEZ was finally identified and his Mexico City home and business addresses were ascertained. See HMMA-15626, 9 September 1960, for further details on this case.

b. The preliminary investigative work on a KUSODA case of priority interest was conducted by SCANTLING. During this investigation it was necessary for SCANTLING to travel to Aquascalientes, Guanajuato and Minatitlan to obtain the information required by Headquarters. See the attachments to HMMT-1416, 20 May 1960, for the results of the investigation.

4. In addition to his contributions to the above objectives, SCANTLING is used for miscellaneous support requirements of the Station. For example, SCANTLING handled several of Raymond H. GERENDE's (ps) operations while the latter was away from Mexico City during August and September 1960. Also, SCANTLING has been managing the LIJERSEY surveillance team since the departure of Simon D. CLACKETT in August 1960. It is hoped that SCANTLING can be relieved of this assignment as soon as the LITEMPO project is approved. SCANTLING has also been used to spot and rent safe houses for various Station operations, a valuable operational support service.

5. As stated in the preceeding Request for Project Renewal, although SCANTLING's LIEMPTY Project objectives can never be completely fulfilled, it is the Station's opinion that SCANTLING has made important and valuable contributions to LIEMPTY Project objectives specifically and to other Station activities in general. SCANTLING's production, measured against monetary expenditures, case officer time and other intangible factors, unquestionably justifies his continuation as an integral part of Project LIEMPTY.

B. Raymond H. GERENDE Segment (discussed in relation to project objectives):

1. "To collect operational information pertaining to LIMERICK personnel and physical facilities through use of photographic base houses." Together with their extensive photographic coverage of the LIMERICK target, the photographic bases also contribute other types of operational information:

a. LIMITED - This base compiles daily logs indicating all arrivals, departures and, where possible, identities of every person visiting or working at the LIMERICK target.

This information is particularly useful in keeping track of LIMERICK personnel and assisting with the identification of visitors to the installation. Also, LIMITED maintains a summary attendance list of LIMERICK employees on a daily basis; this enables the Station quickly to ascertain the presence or absence of an employee on any given day. Finally, one other significant service is performed by this base, the radio dispatching of the LIEMBRACE surveillance team on LIMERICK personnel and targets of opportunity. LIMITED's photographic coverage is still concentrated on visitors, as opposed to employees, to the LIMERICK installation. A recent example of the base's contributions to Station efforts is the case of Joseph Ralph MAURI. In this case, a LIENVOY lead indicated that an American might visit the LIMERICK target on a certain day. The base was alerted to dispatch the radio-controlled surveillance team on any person appearing to be an American. The results of this assignment were indicated in MEXI-6392 and several other cables. LIMITED was also able to provide photographs, which when compared with photographs provided by Headquarters, left no question as to MAURI's identity.

b. LILYRIC - This base's output of high-quality clandestine photographs has been in about the same quantity as last year. In addition, the base operator, LIEMPTY-14, prepares weekly reports on LIMERICK employees and their wives. LILYRIC also performs the assignment of noting and reporting the license plate numbers of all cars bringing visitors to the LIMERICK installation. LILYRIC photographs also are concentrated on visitors to the target, as opposed to employees. It should be noted that LILYRIC operates for photographic coverage during the hours from daylight to 1400 hours each day of the week except Sunday. The LIMITED base maintains photographic coverage from 1400 hours to darkness each day except Sunday.

c. LICALLA - As reported in previous correspondence, the LICALLA base contributes to the collection of operational information through photographic coverage of LIMERICK employees and their families. Also, the base operator, LIEMPTY-9, supplies extremely worthwhile information pertaining to the apparent positions and jobs of the target employees. He accomplishes this objective by careful observation and analysis. LICALLA also maintains a daily attendance roster of all LIMERICK employees. LICALLA coverage of the target, both photographic and physical observations, enables the Station to keep abreast of LIMERICK personnel changes, a vital contribution to the Station's counter-espionage effort.

2. "To collect operational information and identify operational leads pertaining to Station targets of opportunity." The LIENTRAP operation, handled by GERENDE, is the major contributor to this objective. It has been possible for LIENTRAP to take photographs and to perform pretext investigations in support of numerous Station activities. The cases listed below are cited as examples:

a. In the case of Cesar GONZALEZ Sanchez (see I, A, 3, a, above) LIENTRAP was able to procure photographs of GONZALEZ at his Mexico City residence which, when compared to Headquarters provided photographs, left no doubt that GONZALEZ was the subject of interest to Headquarters.

b. LIENTRAP confirmed the identity of Olga CASTILLO de Ledon, a frequent visitor to the LIMERICK installation and an ardent supporter of the present Cuban regime, through a pretext investigation of the residents of an apartment building where CASTILLO was believed to live. Later, LIENTRAP supported the results of the investigation with excellent photographs of the subject.

3. "To provide operational support to Station operations, i.e., rent hotel rooms and apartments, and conduct counter-surveillances." GERENDE is used frequently to rent hotel rooms and apartments for other Station operations and activities. GERENDE's comprehensive area knowledge and personal operational capabilities combine to make him an extremely valuable Station asset for such support activities. GERENDE also procures post office box letter drops for the many Station operations requiring them.

4. It is the Station's conclusion that the money and case officer time expended on this segment of the LIEMPTY project is worthwhile and should be continued in view of the quality and quantity of operational information produced.

C. Simon D. CLACKETT Segment (discussed in relation to project objectives):

1. "To collect operational information and to identify operational leads pertaining to the LIMERICK target and Station targets of opportunity." During this project year the LIJERSEY surveillance team under the direction of CLACKETT began contributing to the Station's support efforts through pretext investigations and physical surveillances. Some examples of the team's work are listed below:

a. Rafael TISCHLER Guzman (201-64372) is a Guatemalan Communist which the team had under surveillance from November 1959 to April 1960. The surveillance, together with information acquired from other sources, eventually resulted in an unsuccessful recruitment attempt on TISCHLER.

b. Pericles FRANCO Ornes (201-64546) - FRANCO is a Dominican of interest to the Station. The LIJERSEY team devoted portions of five months, January to May 1960, collecting information on subject through physical surveillance.

c. Jose Maria "Chema" LOPEZ Valdizon (201-   ) was the subject of a physical surveillance during May and June 1960. LOPEZ was later deported from Mexico through the efforts of LITEMPO-2.

d. CLACKETT and the LIJERSEY team performed numerous pretext investigations on Station targets of opportunity and on three separate occasions during the project year served as a counter-surveillance escort for Station officers in other operations.

2. CLACKETT, just prior to his resignation in August 1960, spent about five weeks giving tradecraft and operational skills training to LITEA-1. Although not specifically covered by the project objectives, this ability on CLACKETT's part is considered a significant contribution to the Station's support efforts.

3. In view of CLACKETT's resignation, which was effective 31 August 1960, and the proposed transfer of the LIJERSEY team to the LITEMPO project, this segment of the LIEMPTY project will not be renewed. However, for the record, it is considered that the CLACKETT segment of LIEMPTY was worthwhile and the expenditure of Station assets in connection with LIJERSEY operations were justified.

D. Relationship to Related Mission Directive Objectives:

It can readily be noted that Project LIEMPTY has provided support to many Station operations and in this manner has been a contributing factor to the furtherance of the Related Mission Directive. The project has not produced any positive intelligence nor has it been intended that it should do so. The project's sole purpose is to provide a mechanism for the development of operational information in support of other Station operations.

II. CHANGES

A. Simon D. CLACKETT

The unexpected resignation of CLACKETT in August 1960 has necessitated the decision as how best to utilize the LIJERSEY surveillance team and still benefit from the training and experience gained by the team during the past year. As explained in the LITEMPO project outline, it was decided that the LITEMPO Staff Agent would have the time, the need and the requirements to handle and manage the LIJERSEY team on a regular basis; consequently, the Station believed that such a solution to this problem would permit the Station to continue to profit from CLACKETT's past efforts.

B. Oliver G. SCANTLING

Since CLACKETT's departure, SCANTLING has been handling the LIJERSEY team as an interim measure pending Headquarters approval of the LITEMPO project. SCANTLING has been exposed to, and likewise knows, only one of the team members, LIEMPTY-20. SCANTLING is known to L-20 only by an alias.

C. Personnel Changes

1. LIEMPTY-15 - Member of the LIJERSEY surveillance team - Transferred to Project LITEMPO and cryptonym changed to LITED-2.

2. LIEMPTY-16 - Member of the LIJERSEY surveillance team - Transferred to Project LITEMPO and cryptonym changed to LITED-3.

3. LIEMPTY-20 - Assistant Team Leader of LIJERSEY surveillance team - Transferred to Project LITEMPO and cryptonym changed to LITED-1.

4. LIEMPTY-25 - Most recent addition to the LIJERSEY surveillance team. Transferred to Project LITEMPO and cryptonym changed to LITED-4.

5. There have been no other personnel changes within the LIEMPTY project, excepting the resignations of Simon D. CLACKETT and Wilma J. FIORDALISI.

III. EFFECTIVENESS

A. General comments pertaining to the value of the project efforts to the Station's needs - The Station is of the opinion that its operations are only as good as the support mechanisms backstopping and contributing to them. The availability of unilateral support agents and organizations, such as the LIEMPTY Project, to investigate leads and to collect operational information is an indispensable ingredient to the Station's espionage and counterespionage objectives. The Station would be seriously handicapped in its operational activities should the support services of such agents as GERENDE, SCANTLING and the agents under their control be suddenly made unavailable.

B. LIMERICK Target - The basis for most of the Station's counter-espionage activities directed against the LIMERICK target require detailed knowledge of the identity, activities and fellow associates of LIMERICK personnel. The LIEMPTY photographic basehouses undoubtedly provide more of this type information than any other Station operation. The production from LIEMPTY photographic bases and from the LIENVOY project provide the Station with the large majority of LIMERICK leads.

C. Targets of Opportunity - The immediate availability of independent assets to perform investigations, photographic assignments and other essential types of support services in connection with Station targets of opportunity represent an operational advantage which this Station considers highly significant. It is due to such LIEMPTY assets that an agent can be sent to distant areas in Mexico to do investigations, that photographs can be made of individuals and places which are of operational interest and apartments and hotel rooms can be acquired in fictitious names in support of sensitive operations and activities.

D. Although the progress and success of any support project depends upon requirements from other Station operations, it must be concluded that Project LIEMPTY has indeed been effective during the past project year.

IV. PROBLEMS

A. Security - The activities of the LICALLA base were suspended in September 1960 as a direct result of the arrest of three KURIOT technicians by the Cuban Government. One of the technicians was known to have knowledge of the four LIMUST units (LICALLA is located in one of these units) and the Station considered it appropriate to suspend photographic operations pending resolution of the situation. At this time, there is no indication when LICALLA operations will be resumed. The LICALLA base operator has reported that there have been no unusual inquiries or other suspicious actions which might indicate that LICALLA has been compromised to LIMERICK personnel; however, such a possibility will exist until the release of the three technicians. No other security problems have occurred during the past year.

V. PLANS

A. Processing of Photographs - During the past year considerable progress has been made in the Station's handling, i.e., sorting, indexing, identifying leads and filing, of photographs produced by the several bases.

B. Photographic Techniques - The previous LIEMPTY Project Renewal Request indicated that the Station planned to try new techniques using HY-PAN film in night photography. HY-PAN film was used on a trial basis during daylight hours with poor results. Almost invariably, prints from HY-PAN negatives were too grainy and, consequently, were of little use in producing good identified shots of individuals. In view of these experiments, night photography has not yet been attempted. It should be noted that Eastman Kodak's new TRI-X PAN film, which all bases and LIENTRAP now use, is superior to any film previously used by the Station for clandestine photography. The quality of all base photographs have been increased considerably as a direct result of this new film.

C. General Comments - The Station believes that the GERENDE segment is now operating under optimum organizational arrangments and there are no plans for expansion contemplated at this time. It is expected that SCANTLING will soon be relieved of his interim responsibility for the LIJERSEY team and can concentrate more on his investigative and casing activities. The transfer of the LIJERSEY team to Project LITEMPO reduced Project LIEMPTY activities by an appreciable amount. It is not planned, during the coming year, to expand present LIEMPTY activities.

VI. COSTS

A. Past Project Year - Station finance records indicate that Project LIEMPTY expended $19,120.91 during Fiscal Year 1960 (1 December 1959 - 30 June 1960) and has thus far during Fiscal Year 1961 (through 31 October 1960) expended $16,734.69. Contract Agents salaries and allowances paid by Headquarters bring the total expenditures for 11 months of the project year to approximately $50,000.00. An additional $4,000.00 will be obligated during the 12th month of the project year. This will bring total project expenditures to about $54,000.00 for the entire project year.

B. Ensuing Period - Of the total $53,000.00 budget, itemized below, $31,900.00 should be expended during the remainder of Fiscal Year 1961 and the balance, $21,100.00, should be expended during Fiscal Year 1962. Normal accounting procedures will be used for all expenditures.

SECRET/[redacted]

AGENT	U.S. $ PER ANNUM

SUB-TOTAL		5,500.00	
GRAND TOTAL			$53,000.00

*LIMITED and LICALLA rents are returned to the Station by LIMOUSINE and credited to Station miscellaneous receipts.

VII. EMERGENCY CONDITIONS

As regards the requirement listed in CSI-F No. 230-60, Annex A, for communications arrangments in the event of "Emergency Conditions," the Station does not anticipate that this project would or could continue to function under its present objectives. However, both principal agents, SCANTLING and GERENDE, would very possibly be worthwhile sources of information to maintain contact with under any adverse conditions. Both of these agents identify themselfs, in terms of ideology, motivation and perspective, more as Americans than as Mexican nationals (which they are). It is reasonable to assume, therefore, that SCANTLING and GERENDE would become valuable contacts in any emergency situation.

CS COPY

The Station is aware that the previous project renewal stated that emergency communications arrangments were being made. The Station has finally obtained the U.S. addresses of relatives through whom GERENDE and SCANTLING could be contacted under most situations. This information will be forwarded separately.

SUBJECT - LIEMPTY Project Renewal

ACTION REQUIRED Paragraph 2 - Please submit detailed review of - usefulness and value of the photo basehouses. Are three justified?

REFERENCE(S) HMMA-14093, 13 November 1959

1. The LIEMPTY Project was renewed on 8 January 1960 for the period 1 December 1959 through 31 November 1960 for a total of $84,910; $48,485 for fiscal year 1960 and $36,425 for fiscal year 1961.

2. The following staff comments were made during the renewal process:

a. KUDESK notes that the CI value of the project is difficult to judge since it appears that much of the material produced remains in the Station for exploitation. However, KUDESK remarks that the value of the project should be increased when the CLACKETT surveillance team enters into active operation. KUDESK suggests that the Station be queried as to the pretext or circumstances under which SCANTLING frequently visits Inez Parada de Moreno, the occupant of the property adjacent to the Soviet installation.

b. KUTUBE/OPS notes that while the project review presents a clear picture of the aims and objectives of the various segments, it does not provide, except in the case of SCANTLING, detailed indication of the value or usefulness of the other segments, particularly the photographic activity. KUTUBE/OPS requests that the Station provide such an appraisal during the first quarter of 1960. KUTUBE/OPS recommends strongly that the photo coverage be reviewed from the standpoint of value and usefulness with a view to determining whether the LILYRIC activity could not be safely eliminated and the additional photographic coverage conducted on a more selective basis, without materially affecting overall usefulness. KUTUBE/OPS notes that, in the absence of further proof of usefulness, the color photography and moving pictures appear to be an unnecessary luxury. KUTUBE/OPS commends the careful handling of the CLACKETT segment and requests that the next project action include examples of the team's progress.

3. The TVA approval for the additional vehicle was forwarded under Dispatch No. HMMS-1211. The MV number assigned by JBECHO is MV 2320. The usual Delegation of Procurement authority is being forwarded by JBECHO channels.

MEMORANDUM FOR: Chief, FI

SUBJECT: Project LIEMPTY Renewal

HEADQUARTERS CASE OFFICER

Name C. Zehrung
Room 2121 Barton
Ext. 2555
Date 9 December 1959

1. It is requested that the LIEMPTY Project be renewed for the period 1 December 1959 through 30 November 1960 for a total of $84,910.00; $48,485.00 for fiscal year 1960 and $36,425.00 for fiscal year 1961. LIEMPTY was last approved for the period 1 December 1958 through 30 November 1959 for a total of $95,380; of which it is estimated $74,259 has been obligated.

2. It is requested that the Project be renewed on the basis of the Project review prepared by the Station which is attached.

3. The security incident referred to in paragraph IV.B on page 6 of the attachment, occurred on 20 September 1959. While on an operational assignment LIEMPTY/10 and the LIENTRAP vehicle were temporarily detained by the Servicio Secreto de Mexico (Mexican Secret Service). At the time of the incident the LIENTRAP vehicle was carrying out an assignment of photographing a Cuban rally which it was expected would be attended by many of the leading Mexican and Central American Communists. The police were also covering the meeting for the purpose of preventing a Communist-inspired demonstration and they searched LIENTRAP believing it might contain Communist propaganda. When they saw the film they seized the film, the truck and LIEMPTY-10 with the belief the Communists had filmed some rough-handed techniques used by the police against some persons attending the rally. LIEMPTY-10 was held under unofficial custody for approximately 26 hours before his release was obtained. When a member of the Station using State Department cover intervened with the police on behalf of LIEMPTY-10, the film, LIENTRAP, and all the equipment were also returned in tact. LIEMPTY-10 had not been interrogated and had not been formally charged or booked. Although the FBI representative and the U.S. Embassy Security Officer also learned of the incident, the Station does not believe that this incident has materially effected the security of the Project. The Station, however, is allowing a one month's cooling off period for the LIENTRAP vehicle and LIEMPTY-10.

PROJECT REVIEW

CRYPTONYM LIEMPTY

FIELD CASE OFFICER Quinton N. OUSLER

STATION Mexico City

CHIEF OF STATION Willard C. Curtis
Willard C. CURTIS

Based on the attached REVIEW OF PROJECT LIEMPTY, it is requested that the Project be renewed for the period 1 December 1959 through 30 November 1960.

SECRET[redacted]

SECRET/[redacted]

REVIEW OF PROJECT LIEMPTY
(For the Purpose of Project Renewal)

I. PRODUCT OF THE PROJECT

A. Oliver G. SCANTLING Segment (discussed in relation to project objectives):

1. "To collect operational information pertaining to LIMERICK personnel and physical facilities." During the past year SCANTLING has devoted a significant amount of time to the furtherance of this project objective. Although other Station operations and personnel are also concerned with the collection of operational information about LIMERICK personnel, SCANTLING's contributions are unique as to type and complement information received from other sources. For example, SCANTLING is used primarily as the source of information about LIMERICK physical facilities. He is constantly on the alert for building modifications, construction activities and the kinds of outside services utilized by the LIMERICK installation. He regularly visits Inez PARADA de Moreno, the occupant of property adjacent to LIMERICK, for the purpose of obtaining a close view of the interior grounds of LIMERICK and to debrief Senora de Moreno about any unusual activities which she may have observed. At the present time SCANTLING is preparing a thorough casing report on the electrical power supply used by LIMERICK and all other residences and establishments in the same block. This operational information is intended for KURIOT's use and will show all transformers in the block, electrical meters for measuring the amount of electrical power used and the precise points where wires enter each property. Because of his other sensitive activities and because other operational activities provide adequate coverage, SCANTLING has been used sparingly for physical surveillances and investigations which might conceivably impair his future usefulness to the Station. During the time he spent training Simon D. CLACKETT (ps) in radio controlled mobile surveillance, SCANTLING did perform some surveillance work at the LIMERICK installation; however, it was concerned mostly with briefing CLACKETT on dispatching techniques and the procedures used for the control of several vehicles on a surveillance team using two-way radios.

2. "To collect operational information pertaining to other targets of opportunity, foreign official installations and personnel of intelligence interest operating in Mexico." By far the most important contribution made by SCANTLING in connection with this project objective has been his support to the LITACIT operation and just recently actually gained entry to the LITACIT target using a pretext cover story. During this visit SCANTLING managed to collect highly valuable operational information about the security of the installation, which has added materially to KUBARK's knowledge about ~~the~~ target. SCANTLING has also cased and prepared reports on the LITABBY target in anticipation of mounting

SECRET/[redacted]

a photographic surveillance and in initial preparation for a future LINIMENT type activity. SCANTLING has performed investigations of numerous other Station targets of opportunity which, depending on their significance, have been reported in separate correspondence.

3. "To exploit operational leads through recruitments, debriefings and surveillances." This objective was included in the LIEMPTY project because SCANTLING is used to follow up LIFEAT leads and leads obtained from the LIEMPTY photographic bases. During the past year SCANTLING has investigated a quantity of leads obtained from the above sources. The information resulting from these investigations has enabled the Station to maintain current data on the various firms used by the LIMERICK target and in one instance, Octavio VIDALES (201-), caused the Station to make a recruitment pitch in an effort to carry out a technical penetration of the LIMERICK target. Although VIDALES was not recruited, the Station anticipates that SCANTLING will some day be successful in just this type of activity. SCANTLING is the Station's principal source for the follow-up of LIFEAT/LIMERICK and LIEMPTY photographic base house leads as they pertain to the primary target.

4. Not covered by a specific project objective but, nevertheless, of significant importance to the Station are SCANTLING's contributions to the overall Station support efforts. In addition to the extensive training given to CLACKETT, SCANTLING also prepared a detailed and sophisticated radio dispatch procedure for use by the LIEMBRACE surveillance team. He devised a superior method for numbering streets which enables the radio surveillance team to specify a location without reference to street names and areas. The entire radio dispatch code, when used properly, practically defies identification as the conversations of a clandestine surveillance team. From the standpoint of Station security, SCANTLING conducted an investigation of LIVESTOCK-2 based on two leads which were 30 years old and reported significant information which contributed to the Station's final decision to terminate LIVESTOCK-2. SCANTLING's other support activities consist of renting hotel rooms and apartments in fictitious names, supporting operations such as LICOOL-12 by performing sentry duty and by serving as a capable and responsible cutout between the Station and agents from other geographical areas.

5. Although SCANTLING's LIEMPTY objectives can never be completely fulfilled, it is the Station's opinion that SCANTLING has made important and valuable contributions to LIEMPTY Project objectives specifically and to other Station activities in general. SCANTLING's production, measured against monetary expenditures, case officer time and other intangible factors, unquestionably justifies his continuation as an integral part of Project LIEMPTY.

B. Raymond H. GERENDE Segment (discussed in relation to project objectives):

1. "To collect operational information pertaining to LIMERICK personnel and physical facilities through the use of photographic base houses." This continuing objective is carried out by three photographic base houses, LIMITED, LILYRIC and LICALLA. During the project year, LIMITED produced approximately 3600 photographs and LILYRIC about 4500 pictures of individuals entering and leaving the LIMERICK target. Most of these photographs were of non-LIMERICK individuals of which only a small, but significant, percentage could be identified through license plate checks or other types of routine investigation. The LICALLA base produced approximately 4300 photographs during the year. Most of the LICALLA photographs were of LIMERICK employees and their families and have been of considerable value in maintaining current and accurate listings of LIMERICK personnel in Mexico. The LICALLA base has recently begun taking motion pictures of LIMERICK personnel conversing in the garden area. These movies are being forwarded to KUTUBE/D for the possible exploitation of lip reading analysis. The LIMITED base, in addition to its photographic assignment, is also used as the radio central for dispatching the LIEMBRACE surveillance team on LIMERICK personnel targets. All bases make routine reports on the daily attendance of LIMERICK employees at the installation which facilitates the Station's reporting on the arrival and departure of LIMERICK personnel. Also, the bases devote time to reporting the personal associations among the numerous LIMERICK employees. Some of this latter type information is valuable from the standpoint of confirming that LIMERICK intelligence officers have a tendency to associate with their colleagues.

2. "To collect operational information and identify operational leads pertaining to Station targets of opportunity." This is a broad objective and one which is contributed to by the LIENTRAP operation. LIENTRAP is used to provide photographic coverage of important Station targets which do not justify a more permanent photographic base. During the period under review, LIENTRAP has been used for the timely coverage of various Central American exile group activities, the Confederacion de Trabajadores de la America Latina (CTAL) headquarters, several counterespionage targets, the LITACIT and LITABBY targets and other one-time operations of intelligence interest. The operational information produced by LIENTRAP is used by the Station for increasing operational knowledge about a target and, when appropriate, has been incorporated in separate reports to Headquarters with other information about specific targets.

3. "To provide operational support to Station operations, i.e., rent hotel rooms and apartments, and conduct counter-surveillances." GERENDE, because of his area knowledge and operational acumen, is used frequently by the Station for renting hotel rooms and apartments in fictitious names for use on other Station operations. He is also the Station's principal procurer of local Post Office boxes for use as letter drops. This objective pertains entirely to the operational support of other Station operations and is an invaluable ingredient to the security of important Station activities.

4. The production of operational information as represented by LIMITED, LILYRIC, LICALLA and LIENTRAP is an important adjunct to the Station's coverage of the LIMERICK target and Station targets of opportunity. It is the Station's conclusion that the expenditure of KUBARK assets, i.e., money and case officer time, is justified and that these activities should be continued.

C. Simon D. CLACKETT Segment (discussed in relation to project objectives):

1. "To collect operational information and to identify operational leads pertaining to the LIMERICK target and Station targets of opportunity." Very little production has been realized from this objective in terms of CLACKETT's contributions. CLACKETT returned to Mexico in early April 1959 after receiving surveillance, tradecraft and photography training in Headquarters. He then spent the rest of April, May and part of June being trained by SCANTLING in mobile surveillance techniques. Then LIEMPTYs 15, 16, 17 and 20 were placed under his supervision and he began training these agents in the arts of foot surveillance and mobile surveillance. This team, known as the LIJERSEY team, is just beginning to show the excellent effects of CLACKETT's intensive training sessions. Although LIEMPTY-17 has resigned and the team consists of only four agents, including CLACKETT, the Station believes that the team will be ready within the next month to begin its contributions to the above objective.

2. Based on the training time devoted to CLACKETT and to the LIJERSEY team and the anticipated production during the coming project year, it is the Station's opinion that this activity should be continued.

II. EXTENT TO WHICH THE RELATED MISSION DIRECTIVE HAS BEEN FURTHERED.

Project LIEMPTY has provided support, in varying ways, to a majority of Station operations and in this manner has been a contributing factor to the furtherance of the Related Mission Directive. The project is not intended nor designed to produce positive intelligence; its sole purpose is to provide a mechanism for the development of operational information in support of other Station operations.

III. PROGRESS OF THE OPERATION AND PLANNING FOR THE FUTURE.

A. Oliver G. SCANTLING Segment:

1. SCANTLING's duties and responsibilities are basically the same now as they were when the original LIEMPTY project outline was submitted. Since SCANTLING is the only major factor in this part of LIEMPTY, progress, other than covered in the above section on production, can be measured only by the fact that SCANTLING is a year older and has acquired a few more helpful tricks of the trade

and, consequently, has increased his own operational abilities.

2. Insofar as future planning is concerned, SCANTLING will continue to devote the greater portion of his time to the LITACIT operation. In addition, he will continue his work against the LIMERICK target, i.e., investigating LIFEAT and photographic base house leads in connection with the objectives of the LIEMPTY and LIMESA projects. The Station still plans to maintain SCANTLING as an independent Station asset free from the responsibilities of supervising other agents and operations.

3. SCANTLING will probably continue providing administrative support to LIEMPTY-3 (now covered under the LICOOL project), but will not be responsible for the operational direction of L-3.

B. Raymond H. GERENDE Segment:

1. During the past year the three photographic base houses have been trained in the use of a faster type film (HY-PAN) to facilitate the taking of photographs on dark cloudy days. One base, LICALLA, has made tests and recently begun making 35mm color slides using the new fast type Ektachrome film. This film is now processed in the Mexico Station dark room which heretofore was not possible. It is the Station's opinion that a few color photographs of target personnel will be useful for identification purposes. The LICALLA Base has also, during the past year, begun taking 16mm motion pictures in color with the expectation that Headquarters can eventually provide lip reading analysis of conversations taking place in the garden area of the LIMERICK installation.

2. Other operational progress has been made in connection with relieving GERENDE of responsibility for the LIJERSEY surveillance team. This now leaves GERENDE with a sufficient amount of time to supervise all photographic base houses, LIENTRAP and the outside photographic laboratory.

3. Future planning in relation to this segment does not call for expansion. Rather, the Station plans to perfect some of the photographic procedures now in use and to experiment with night photography possibilities using the fast HY-PAN film with telephoto lens of varying lengths. GERENDE will also concentrate on increasing the security and communications procedures used with each base.

C. Simon D. CLACKETT Segment:

1. CLACKETT's assumption of responsibility for the LIJERSEY surveillance team has been a progressive step for the development of an additional and much needed support asset. Although the LIJERSEY team has been in existence for several years, it was only during the past year, with the assignment of

CLACKETT, that an intensive effort was made to train the team members and to place them under the supervision of a full time team leader. As mentioned above, CLACKETT has done an excellent job during the past few months in getting the team ready for future operational assignments.

2. The Station plans, during the coming year, to increase the strength of the LIJERSEY team by at least two agents and one car. This would then give a total LIJERSEY complement of six agents and three radio cars. The Station will continue to take all necessary precautions not to rush the development of the team nor to give it assignments which are too complicated and too difficult. It is anticipated that the team will begin some surveillance work within the next month on targets connected with plans for an expanded Communist Party penetration program.

IV. PERFORMANCE OF PRINCIPAL AGENTS IN TERMS OF PRODUCTION, SECURITY AND COVER.

A. Oliver G. SCANTLING - As should be expected from a well trained and motivated agent, SCANTLING's production during the period under review was excellent. His production is in the category of operational information rather than positive intelligence and is based on leads and investigations given him by the Station. He never fails to do a thorough and detailed job on all assignments given to him. He is an unusually valuable principal agent. There have been no security problems or developments during the past year in connection with SCANTLING's assignments. Likewise, his cover is very good and places him in a position to maintain his work for KUBARK for many years to come.

B. Raymond H. GERENDE - Since GERENDE's marriage in December 1958, his performance has improved to a marked degree. He has become one of the Station's most dependable agents in terms of promptness for meetings, completing operational assignments as rapidly as possible and in doing any task, regardless of how menial it may be. Insofar as the Station and GERENDE know, his cover with LISTERINE's firm has held up very well. In fact, GERENDE recently was able to negotiate a sales contract with a customer having a very large sales capacity for the product manufactured by LISTERINE's firm. This, of course, endears GERENDE to LISTERINE in addition to contributing to GERENDE's cover employment. The only significant security incident pertaining, in part, to GERENDE was in connection with LIENTRAP (please see HMMA-13951, 16 October 1959, for details).

C. Simon D. CLACKETT - CLACKETT's performance has definitely measured up to the standards expected by the Station. He has proved that he is conscientious, dependable and very quick in grasping the details of clandestine activities. He will undoubtedly continue to improve his personal performance as he gains more experience. There have been no security problems or incidents in connection with CLACKETT's assignment to this Station. Although the notional cover provided by Headquarters has held up very well during the past few months, the Station had hopes of placing him in LILABEL's firm and obtaining Inmigrante papers for him. However, for reasons mentioned in other correspondence, this cover arrangement did not work out. The Station is continuing efforts to locate another suitable local cover job for CLACKETT.

V. CONTACT AND COMMUNICATION.

A. Oliver G. SCANTLING - The Station Case Officer meets with SCANTLING on the average of three times each week. For regular meetings, a total of eight prearranged contact points are used alternately with SCANTLING "walking the beat" and being picked up by the Case Officer in the latter's car. This procedure enables both the agent and the case officer to check themselves and to check each other for possible surveillance. Meetings are generally of short duration, seldom more than 30 minutes, and are held in the car. It is possible for SCANTLING to get in touch with his case officer by telephone, and vice versa, in case an unscheduled meeting is necessary. SCANTLING and the Station are currently working on the details of an emergency means of contact utilizing SCANTLING's wife's relatives in PBPRIME. Headquarters will be advised of these arrangements to facilitate contact with SCANTLING in the event Mexico is overrun by hostile forces and contact with the Station is severed.

B. Raymond H. GERENDE - GERENDE's Case Officer meets with him five times each week. Meetings are conducted in the Case Officer's car using the same procedures as outlined above. GERENDE and his Case Officer have a total of 11 contact points in different areas of the city and generally hold their meetings during the early morning hours, usually about 0800. As in the case of SCANTLING, GERENDE and his Case Officer are preparing an emergency contact procedure which will facilitate Headquarters communications with him through his relatives in PBPRIME Headquarters will be advised of these arrangements just as soon as they are completed.

C. Simon D. CLACKETT - The Station Case Officer meets with CLACKETT on the averageof three times each week. The same type of communications procedures as used for SCANTLING and GERENDE are employed with CLACKETT.

VI. PERSONNEL.

A. Personnel dropped from the Project:

1. LIEMPTY-3 - Now carried under the LICOOL Project.

2. LIEMPTY-17 - Resigned. Termination report forwarded to Headquarters.

3. LIEMPTY-18 - Wife of LIEMPTY-3. Now carried under the LICOOL Project.

B. New personnel not previously listed under the Project:

1. LIEMPTY-19 - Position: Support Agent. Wife of Raymond H. GERENDE. OA granted 13 August 1959 per HMMW-7988, dated 19 August 1959, and amended per DIR-41523, 26 August 1959. See PRQ, Parts I and II, for additional information. C [illegible]

2. LIEMPTY-20 - Position: Agent member of LIEMPTY/LIJERSEY surveillance team. OA granted 2 July 1958 per HMMW-6572, dated 12 July 1958. See PRQ, Parts I and II, for additional information.

3. LIEMPTY-24 - Position: Wife of LIEMPTY-9. She does not receive a salary nor does she actively participate in LIEMPTY-9's activities. OA granted 14 September 1959 per HMMW-8099, dated 25 September 1959. [illegible]

VII. ESTIMATED COST OF PROJECT FOR COMING YEAR.

Compensation: (Note: Sufficient funds are indicated to provide for later justified raises to agents.)

AGENT		U. S. $ PER ANNUM
Raymond H. GERENDE		$ 4,560.00
Oliver G. SCANTLING		4,200.00
LIEMPTY-4		2,000.00
LIEMPTY-5 at $1.75 per hour		2,500.00
LIEMPTY-6		2,500.00
LIEMPTY-7	No Salary	- 0 -
LIEMPTY-8		1,500.00
LIEMPTY-9		2,500.00
LIEMPTY-10		3,600.00
LIEMPTY-11		2,500.00
LIEMPTY-12		1,800.00
LIEMPTY-13		1,800.00
LIEMPTY-14		1,400.00
LIEMPTY-15		1,800.00
LIEMPTY-16		1,800.00
LIEMPTY-19		1,000.00
LIEMPTY-20		1,000.00
Wilma J. FIORDALISI		4,040.00
Louise J. MACRINO at $2.02 per hour		2,500.00
LIEMPTY-24	No Salary	- 0 -

Four additional agents at $2,000 per year		$ 8,000.00	
Simon D. CLACKETT -			
Salary	$ 7,750.00		
Quarters	1,800.00		
Education Allowance	360.00		
Travel	1,000.00	10,910.00	$ 61,910.00

Operational Expenses:

Automobiles (4 cars and 1 truck) (Maintenance, operational expenses, replacement of parts.)	$ 3,000.00	
Travel of agents by commercial carrier	500.00	3,500.00

Operational Equipment:

Purchase of one used auto for LIJERSEY Surveillance Team	$ 3,500.00	
Purchase of one base radio for LIJERSEY Team	1,000.00	
Repair and maintenance of radio and camera equipment	1,000.00	
Purchase of new photographic equipment and supplies	2,000.00	7,500.00

Real Estate:

Rent, utilities and maintenance of following safehouses:

*LIMITED	$ 2,500.00	
*LICALLA	1,500.00	
LILYRIC	1,000.00	5,000.00

*LIMITED and LICALLA rents are returned to the Station by LIMOUSINE and credited to Station miscellaneous receipts.

Funds for procurement and servicing of additional safehouses, post office boxes and renting automobiles	2,000.00

Exchange commodities (required as good will gifts)	**$ 1,000.00**
Damages (broken contracts, "key" money to obtain locations in choice areas, rent deposits, etc.)	**2,000.00**
Purchase of information, purchase of identification documents, payment of bribes, etc.	**2,000.00**
TOTAL	**$ 84,910.00**

1. Headquarters appreciates the reference dispatch which forwarded a revised PRQ, Part II, on LIEMPTY-20 and requests that Operational Approval be amended for his use under the LIEMPTY Project. In view of the fact that the Station plans to use Subject in a surveillance capacity, his original clearance, granted on 2 July 1958, authorizes use under the LIEMPTY Project.

2. [illegible] has been notified of Subject's present Project status and has been requested to note the change of cryptonym.

3. In view of the fact that the Station has not made any outstanding commitments to LIEMPTY-20 and because the LIEMPTY Project authorizes the recruitment of a surveillance team, it is not necessary to take formal action to include Subject under the Project at this time.

Extend Subject's contract and include under LIEMPTY

REFERENCE(S)
HMMW-7263, 13 February 1959

1. The Mexico City Station regrets overlooking the expiration of MACRINO's contract. During recent months, she has been able to work only a limited amount because of ill health (primarily a heart condition). Most of her work during the past eight months has been devoted to typing selected information reports on report mats and doing routine non-sensitive translation work.

2. It is requested that MACRINO's contract be renewed for one year with the same salary and other provisions. She can appropriately be placed under the LIEMPTY project as a Station support asset. For project administrative purposes, she is being assigned the LIEMPTY/23 cryptonym. Station believes that sufficient LIEMPTY funds are already available to cover her salary payments during the remainder of the LIEMPTY project year.

MEMORANDUM FOR: Chief, FI/OPS

FROM : Chief, WHD

SUBJECT : LIEMPTY Project

1. Reference is made to your comments on the LIEMPTY Project which was approved on 16 January 1959.

2. The LIEMPTY Project provides for the development of the former LIJERSEY surveillance team, the maintenance of photo surveillance bases, and other support facilities for the Mexico City Station. In their review of the Project before it was approved, FI/OPS suggested that WH Division consider a gradual reduction of the considerable financial and personnel commitments in this project in view of the favorably developing LIENVOY liaison relationship. FI/OPS believed that a smaller, more manageable support group with greater emphasis on selectivity of tasks and targets could well result in more effective CI and FI productivity.

3. The Mexican desk wishes to point out that rather than reducing the assets carried under the LIEMPTY Project, WHD believes that this project is an extremely important one and should receive Headquarters support. The only other Station surveillance teams, LIVESTOCK and LIEMBRACE, are both known to the Mexican authorities. Therefore LIEMPTY remains the Station's only secure surveillance asset. It is a very small untrained unit at present, but through this project it will be developed into a useable, valuable asset.

4. We are not passing FI/OP's comment to the field, because WH Division believes that unilateral assets should not be reduced in favor of liaison. First, the liaison has not yet been firmly established. Secondly, even with a good liaison relationship, the Mexican services must be considered anything but secure, and certainly could not be trusted with any sensitive operations. Thirdly, because of its proximity to the United States, and the activity of hostile intelligence groups there, the Mexico City Station is called upon to support many very sensitive operations which we would never wish to reveal to the Mexican authorities.

5. Experience in other Latin

5. Experience in other latin American countries where liaison has been established, has shown that many Station's tend to reduce their unilateral operations and capabilities in favor of the liaison. Under these circumstances, the production of the Stations have often been at the mercy of the liaison service and a change in the attitude of the service toward cooperating with this Agency has left these Stations virtually helpless. We certainly cannot recommend that the Mexico Station reduce any of it's unilateral support assets in favor of a proposed liaison relationship.

SUBJECT : Operational/LIEMPTY Project Approval

ACTION REQUIRED

REFERENCES:
HMMA-11257

1. The Field Project Outline submitted with HMMA-11257 was approved on 16 January 1959 without change, for the period 1 December 1958 through 30 November 1959 for a total of $95,380; $65,580 for the current fiscal year and $29,800 for fiscal year 1960.

2. An amendment to the original request for project approval was submitted before the original project was approved. This amendment requested approval to include Simon D. CLACKETT (ps) and Wilma J. FIORDALISI (ps) under the LIEMPTY Project effective 1 January 1959 and remove them from the LIMESA Project. The funds designated in the original FPO for the undesignated Staff Agent were used to cover the expenses for CLACKETT and FIORDALISI. Therefore no additional funds were requested for the project in this amendment. The approval on 16 January 1959 included this project amendment. A copy of the amendment request is being forwarded for your information and records.

3. Among the Staffs' comments on the LIEMPTY Project, the following recommendations were made. KUDESK suggested that the Case Officer should work at devising ostensible sources of incomes for the agents which will stand the scrutiny of friends, relatives and less friendly forces.

4. An amendment to CLACKETT's contract has been requested to allow for a quarters allowance. The educational allowance requested in paragraph 11 of the project amendment was disapproved because CLACKETT was a Contract Agent. The Quarters Allowance of $2,500 was turned down because it was too high in relation to CLACKETT's salary. Therefore, a quarters allowance of $1,800 has been approved and will be written into CLACKETT's contract. If, however, operational and cover reasons require CLACKETT to rent an apartment larger than the one he would normally obtain under his allowance, the Chief of Station can authorize the extra rent as an operational expense which will not be considered as compensation for CLACKETT and therefore not subject to federal income tax.

5. Please advise Headquarters whether you wish to have the cryptonyms for CLACKETT and FIORDALISI charged to LIEMPTY's.

MEMORANDUM FOR: FI/OPS - Projects Branch

CRYPTONYM : LIEMPTY

DIVISION : Western Hemisphere

STATION : Mexico City

HEADQUARTERS CASE OFFICER:

NAME: John B. Brady
ROOM: 2112 Barton Hall
EXT.: 2555
DATE: 24 November 1958

1. It is requested that the LIEMPTY Project be approved for the period 1 December 1958 through 30 November 1959 for a total of $95,380.00.

2. WH/Personnel has been requested to locate a Staff Agent to fill the BAP-8100 slot formerly under the LIPSTICK Project. This slot will be transferred to the LIEMPTY Project and will be filled by a person who will be responsible for the directions of the physical surveillance team under this project.

PROJECT OUTLINE

CRYPTONYM LIEMPTY

STATION Mexico City

FIELD CASE OFFICER Quinton N. CUSLER

CHIEF OF STATION Willard C. CURTIS

Willard C. Curtis

1. The attached project outline is presented for approval for the period 1 December 1958 through 30 November 1959.

2. Headquarters is requested to select a suitable contract or Staff Agent to replace Raymond H. GERENDE as leader of the LIJERSEY surveillance team. From the security standpoint, it is essential that GERENDE be relieved of this responsibility. The individual selected by Headquarters to fill the slot formerly occupied by Wilfred O. CLOWER (BAP-8100) should have had experience in surveillance operations and should speak Spanish fluently.

PROJECT OUTLINE

CRYPTONYM LIEMPTY

PART I

1. Area of Operations

The general area of operations will be Mexico and the specific area will be Mexico, D.F., Mexico.

2. Purpose

The purpose of this project is to provide a mechanism for the development of operational information in support of other Station operations. This purpose is in consonance with the Related Mission Directive for Mexico.

3. Background

As the reviewing authorities will be aware, this project includes several operations which were formerly carried under Projects LIPSTICK and LIJERSEY. Partially as a result of the June 1958 LIPSTICK compromise, when three surveillance team members were apprehended and placedin custody by the Mexican Police, and additionally as a means for the orderly administration of assets, this new project is submitted.

There follows below a background sketch of the separate support assets, excluding details concerning personnel which will be discussed later in the outline, which the Station proposes for inclusion in LIEMPTY:

LIMITED - The LIMITED Base is located in such a position across the street from the LIMERICK installation that photographs can easily be made of persons entering and leaving the LIMERICK main gate. These photographs are later developed and printed by LIEMPTY-4, then returned to the LIMITED operator for the proper annotations. After receipt of the photographs by the Station, the Case Officer reviews them for LIMESA leads, newly arrived LIMERICK personnel, local and other nationals of possible operational interest and PBPRIME citizens who have visited LIMERICK.

KUBARK owns the property housing the LIMITED Base, having purchased it in mid-1955; however, the ostensible owner is LIMOUSINE, to whom LIEMPTY-6 pays his rent each month through LIMOUSINE's bank.

LIMITED, with LIEMPTY-6 as base house operator, has been operating for nearly three years and has not yet been involved in a compromising security situation. Prior to April 1955, when Headquarters authorized the purchase of the LIMITED Base, the Station rented the Base and used LIPSTICK-7 (later LIMESTONE-6 in LIFEAT Project and now terminated) as the operator. This arrangement was in effect for about two years.

[redacted]

[redacted]

HMM-A-11257
KAPOK-1472

LILYRIC - This Base has been in operation for about two and one-half years and is located in an apartment building acros s the street from the LIMERICK installation. As in the case of the LIMITED Base, LILYRIC takes photographs of persons entering and leaving the main gate of the LIMERICK installation. The LILYRIC photographs are handled in the same manner as the LIMITED pictures. In addition to taking photographs, the LILYRIC operators also prepare daily logs on the activities of each LIMERICK employee, record the license plate numbers of most cars carrying people to and from the LIMERICK installation, and prepare an observation diary on all target personnel seen each day. (This permits the Station to tell when a target personality is out of town or not working for some other reason.)

The LILYRIC Base was originally acquired and made operative to provide for continuous coverage of the target in the event LIMITED is ever compromised. This is still the primary value of having two bases cover the same portion of the target. LILYRIC is compartmented from LIMITED and with the possible exception of GERENDE could probably weather any security flap involving LIMITED. Obviously, there is some duplication in the work of LIMITED and LILYRIC; however, the insurance value of having two basis is quite apparent.

LILYRIC has been operating for about two and one-half years and insofar as the Station knows, no compromising security situations have arisen.

LICALLA - The LICALLA Base is located in a position where photographs can be taken of people within the LIMERICK garden area. In addition, the operator of the LICALLA Base submits weekly reports on LIMERICK construction work, daily logs showing when a target individual was seen that day, and reports showing the association of target individuals with one another. LICALLA photographs are processed and handled in the same manner and by the people who handle the LIMITED and LILYRIC pictures.

The LICALLA Base was acquired and operations began about two and one-half years ago with the primary purpose of obtaining additional operational information concerning LIMERICK personnel, and operational leads which could be exploited for the physical penetration of the LIMERICK installation. Approximately one year ago the LICALLA Base was purchased by KUBARK through LIMOUSINE. LICALLA will probably remain at its present location and will continue to submit photographs and reports of the same type as are now being submitted. Other than the fact that LIEMPTY-9, the LICALLA operator, is the brother of former LIPSTICK-47, no security problems are currently known to the Case Officer. However, reports from LIPSTICK2 12 and 30, the local police, the attorneys involved in the case, the foreign embassy concerned and the LCFLUTTER tests give no indications that LIEMPTY-9 was ever mentioned during the LIPSTICK flap.

LIENTRAP - This is a panel type truck equipped with cameras, telescopic lens and other types of photographic equipment. It has been used during the past two years as an investigative asset. The truck is parked about 75 yards from a target of interest (usually a residence or apartment building) and the photographer in the rear of the truck photographs individuals or things of interest to the Station. LIENTRAP is a valuable asset for any station to have and has enabled this Station to get pictures of individuals which could have been obtained in no other way. LIEMPTYs-10 and 11 operate LIENTRAP.

[redacted]

50-6-74/1

[redacted]

The major security threat to LIENTRAP is the fact that it has been operating for about two years in all parts of the city and should soon be replaced by a truck of a different make. Provision for this is made in Section 15 of this Field Project Outline.

LIJERSEY - This is presently an approved project; however, it is believed advisable for administrative efficiency to include the LIJERSEY assets within the framework of the LIEMPTY Project. Other than LILYRIC, which has already been discussed, LIJERSEY consists of a foot surveillance team with three members, LIEMPTYs-15, 16 and 17. LIEMPTYs 15 and 16 have been employed for about one and a half years and LIEMPTY-17 for about one year. They have not developed into as competent a surveillance team as the LIPSTICK team was and probably never will become as good. The LIJERSEY team has been used mostly for stationary surveillances and observations of people of interest. LIEMPTY-17, however, has also been used as a pretext investigator. He has excelled at this type of work and the Station continues to use him in this capacity. The Station has been reluctant to use the LIJERSEY team as much as it could have been used because of the close association of the team with GERENDE and, in turn, GERENDE's knowledge and work on LIFEAT and the LIPSTICK surveillance team. The Station plans to recruit several agents of a type and social level more suitable for all types of surveillance work than the present LIJERSEY team.

Oliver G. SCANTLING - SCANTLING has been associated with KUBARK for several years in a number of different capacities. He was originally used as a member of the LIPSTICK surveillance team and later was head of the same team. He has been used to train new agents in the techniques of surveillance and investigation, to acquire office space and apartments for the Station's operations and to conduct investigations and make recruitment approaches to individuals of operational interest to KUBARK. SCANTLING is currently being used by the Station as an investigator of LIMESA leads and is still actively pursuing the LIMESA/MKLIGHTING operation. SCANTLING also maintains regular contact with LIEMPTY-3 and monitors his elicitation effort against the LICOOL-6 target. In this connection, both SCANTLING and LIEMPTY-3 meet regularly with Doris M. KILLGO for operational guidance. (Note: Please see the LICOOL Field Project Outline for additional details on LICOOL-6).

4. References:

a. LIPSTICK Project Outline and operational papers.
b. LIJERSEY Project Outline and operational papers.
c. Dispatch to follow in next pouch, Subject: Review of Raymond H. GERENDE's operational activities.

5. Objectives:

Oliver G. SCANTLING's activities:

a. To collect operational information pertaining to LIMERICK personnel and physical facilities.

b. To collect operational information pertaining to other targets of

[redacted]

[redacted]

opportunity, foreign official installations and personnel of intelligence interest operating in Mexico.

c. To exploit operational leads through recruitments, debriefings and surveillances.

Raymond H. GERENDE's activities:

d. To collect operational information pertaining to LIMERICK personnel and physical facilities through the use of photographic base houses.

e. To collect operational information and identify operational leads pertaining to Station targets of opportunity.

f. To provide operational support to Station operations, i.e., rent hotel rooms and apartments, and conduct counter-surveillances.

Staff Agent's activities:

g. To collect operational information and to identify operational leads pertaining to the LIMERICK target and Station targets of opportunity.

6. Targets:

Oliver G. SCANTLING - The primary target is, of course, the LIMERICK installation and personnel. However, SCANTLING devotes most of his time to following up LIFEAT leads which pertain to services provided the LIMERICK installation by individuals and firms, e.g. construction engineers, floor waxing firms, safe experts, furniture makers, interior decorators, etc. To an extent, these are considered targets of opportunity and it would be impossible to list specifically what future targets will be available. One specific target which SCANTLING is concerned with is the occupant of the LICOOL-6 apartment; however, LIEMPTY-3, whom SCANTLING handles, should more correctly be given credit for information produced on this target.

Raymond H. GERENDE - LIMITED, LILYRIC and LICALLA all have as their target the LIMERICK installation and personnel, plus any local nationals and PBPRIMERS who visit LIMERICK. LIENTRAP is concerned with targets of opportunity and follow-up investigations on operational leads obtained from other Station and Headquarters sources. The same targets apply to the LIJERSEY surveillance team as apply to LIENTRAP.

7. Tasks:

Field Case Officer - Quinton N. CUSLER

a. Supervise and direct the operational activities of Raymond H. GERENDE, Oliver G. SCANTLING, and the staff agent.

b. Provide guidance and maintain supervisory responsibility for all agents under GERENDE, SCANTLING and the staff agent.

[redacted]

c. Coordinate support requests from other Station Case Officers which involve either GERENDE, SCANTLING or the staff agent.

d. Process (indexing, traces, etc.) the photographic and other information from the LIEMPTY outside photographic assets.

e. Prepare operational and administrative correspondence pertaining to LIEMPTY.

Principal agent - Oliver G. SCANTLING:

a. Perform one man surveillances and investigations to identify individuals of operational interest.

b. Perform comprehensive and detailed casings of installations of interest to the Station and Headquarters.

c. Provide administrative support and some operational guidance to LIEMPTY-3.

d. Recruit individuals which have physical access to the LIMERICK installation (basically in support of LIMESA).

e. Spot prospective agent candidates for possible later use by the Station.

Agent - LIEMPTY-3

a. Cultivate and elicit information from the occupant of the LICOOL-6 apartment.

b. Where possible, broaden his contact with the LIMERICK people for the purpose of obtaining information concerning LIMERICK commercial matters in Mexico and to identify LIMERICK personnel who may be susceptible to defection and/or recruitment in place.

c. Support the LICOOL-6 technical operation by operating the recording machines and occupying the monitoring base as his family quarters.

Principal Agent - Raymond H. GERENDE

a. Manage and act as the Case Officer's principal in the supervision of LIMITED, LILYRIC, LICALLA, LIENTRAP, LIJERSEY surveillance teams (until relieved by new staff agent) and LIEMPTYs 4 and 5.

b. Set up and maintain proper clandestine communications procedures with all agents under his supervision.

c. Review periodically all aspects of his operations for possible security, personnel and management problems.

[redacted]

[redacted]

d. Prepare monthly activities reports for all projects under his supervision.

e. Perform investigations on targets of opportunity as directed by the Case Officer.

f. Until a replacement is located, monitor and process the LIFEAT BGMORNING and LIFEAT Cuban Exiles taps.

LIMITED Base House Operator - LIEMPTY-6

a. Photograph individuals of interest who enter and leave the LIMERICK installation through the main gate.

b. Prepare logs and other reports on individuals of interest who visit and/or work at the LIMERICK installation.

c. Maintain the cover of the Base as a family residence.

LILYRIC Base House Operators - LIEMPTYs 13 and 14

Same tasks as the LIMITED Base House Operator

Agent - LIEMPTY-12

a. Serve as a cutout between GERENDE and LIEMPTY-13, the LILYRIC Base House Operator.

b. Insure proper tradecraft procedures are employed by the LILYRIC base.

c. Spot and report on individuals who would make suitable agent recruits for the Station.

LICALLA Base House Operator - LIEMPTY-9

a. Photograph individuals of interest who appear in the garden area of the LIMERICK installation.

b. Prepare logs and other reports on individuals of interest who visit and/or work at the LIMERICK installation.

c. Maintain the cover of the Base as a family residence.

LIENTRAP - LIEMPTYs 10 and 11

a. Perform photographic and other investigative assignments as directed by the Station through GERENDE.

[redacted]

[redacted]

b. Protect the security of LIENTRAP and report all operational security developments involving the operation.

Staff Agent (to be selected by Headquarters)

a. Assume operational responsibility of the LIJERSEY surveillance team from GERENDE.

b. Develop the present LIJERSEY assets into a useable surveillance asset.

c. Train new surveillance team members in the art of discreet physical surveillance, including static, foot and mobile methods.

d. Spot, and where feasible, recruit new surveillance team members.

LIJERSEY Surveillance Team - LIEMPTYs 15, 16 and 17

a. Perform surveillances, pretext investigations and other investigative assignments as directed by the Station through GERENDE.

b. Strive constantly to improve their individual and collective investigative techniques.

Support Agent - LIEMPTY-4

a. Process and print film from LIMITED, LILYRIC, LICALLA and LIENTRAP.

Support Agent - LIEMPTY-5

a. Translate and type material as received from the Station through GERENDE.

8. Coordination:

This project will not require coordination with other field stations.

9. Personnel:

a. Pseudonyms and cryptonyms

(1) Raymond H. GERENDE, aka LIEMPTY-1 (formerly LIPSTICK-20),
Position: Principal agent - Contract Agent

(2) Oliver G. SCANTLING, aka LIEMPTY-2 (formerly LIPSTICK-19),
Position: Principal Agent Oral Contract effective February 1955.

(3) LIEMPTY-3 (formerly LIPSTICK-32), Position: Agent.

(4) LIEMPTY-4 (formerly LIPSTICK-38), Position: Support Agent

[redacted]

(5) LIEMPTY-5 (formerly LIPSTICK-40), Position: Support Agent

(6) LIEMPTY-6 (formerly LIPSTICK-14), Position: Agent, LIMITED Operator
Case contract effective 1 November 1957.

(7) LIEMPTY-7 (formerly LIPSTICK-27), wife of LIEMPTY-6.

(8) LIEMPTY-8 (formerly LIPSTICK-28), son of LIEMPTY-6. Case contract effective 1 December 1955

(9) LIEMPTY-9 (formerly LIPSTICK-39), Position: Agent, LICALLA operator.

(10) LIEMPTY-10 (formerly LIPSTICK-2), Position: Agent, Photo truck operator.
Case contract effective May 1955

(11) LIEMPTY-11 (formerly LIPSTICK-24), Position: Agent, Assistant photo truck operator.

(12) LIEMPTY-12 (formerly LIJERSEY-5), Position: Agent, cutout and spotter.
U.S. citizen.

(13) LIEMPTY-13 (formerly LIJERSEY-2), Position: Agent, LILYRIC Base House operator.

(14) LIEMPTY-14 (formerly LIJERSEY-12), Position: Agent, Assistant LILYRIC Base House operator. Wife of LIEMPTY-13.

(15) LIEMPTY-15 (formerly LIJERSEY-4), Position: Agent, LIJERSEY surveillance team member.

(16) LIEMPTY-16 (formerly LIJERSEY-8), Position: Agent, LIJERSEY surveillance team member.

(17) LIEMPTY-17 (formerly LIJERSEY-13), Position: Agent, LIJERSEY surveillance team member.

b. Personal Data:

Personal data on all personnel listed above have previously been provided to Headquarters, either in projects LIPSTICK or LIJERSEY or in each individual's PRQ, Parts I and II.

c. Operational Approvals:

(1) Raymond H. GERENDE, OA granted 29 February 1955, per HMMW-2067, dated 14 March 1955. C-32743

(2) Oliver G. SCANTLING, OA granted 2 December 1954, per HMMW-1894, dated 29 December 1954. C-26803

(17) LIEMPTY-17, OA granted 23 September 1957, per HMMW-5282, dated 1 October 1957. C-62507

10. Cover:

a. Raymond H. GERENDE is the only LIEMPTY agent who has cover provided by KUBARK. GeRENDE ostensibly is a salesman for LISTERINE's firm. However, he seldom spends any time pursuing his cover occupation, since his operational activities are so numerous and time consuming. GERENDE's cover with the LISTERINE firm was arranged by the Station and, so far, has been adequate for GERENDE's needs.

[redacted]

[redacted]

b. The Case Officer, Quinton N. OUSLER, is known only to GERENDE and SCANTLING. It would not be possible to develop a suitable cover story that would apply to the frequent meetings between the Case Officer and the Principal Agents; therefore, meetings are clandestine and are usually conducted in the Case Officer's car. However, suitable cover stories have been developed between the Case Officer and SCANTLING and between the Case Officer and GERENDE involving background information as to how we met and how our friendship developed, to be used in the event the Case Officer is apprehended with either of the Principal Agents.

c. None of the status cover occupations of any of the LIEMPTY agents is completely compatible with his operational activities. Action cover stories are decided upon before each assignment and devised to complement each agent's status cover as closely as possible. Base House operators, of course, generally conduct operational assignments within the confines of their quarters; consequently, the need for action cover stories is reduced. Appropriate cover stories exist between GERENDE and the agents in his network and between SCANTLING and LIEMPTY-3.

11. Contact and Communication:

Appropriate clandestine communications arrangements exist between the various echelons of LIEMPTY. At the present time these plans consist of regular and rapid-non scheduled (emergency) means of contact. GERENDE and SCANTLING are both in the process of preparing detailed written communications plans for their respective agents which include complete regular, alternate and rapid-non scheduled meeting arrangements. Provisions will also be made in these plans for oral recognition signals and physical bona fides that will enable a person unknown to the agent to contact him should the need ever arise. The Case Officer is currently working on a Warning System of Communications which will permit the expeditious exfiltration of GERENDE and SCANTLING from Mexico should a security situation arise which would necessitate this.

12. Control and Motivation:

a. Control - All LIEMPTY agents are local nationals. GERENDE and SCANTLING, both of whom spent a great deal of their childhood years in PBPRIME and still have relatives living in PBPRIME, are in many respects more pro-PBPRIME than many PBPRIME citizens. In the past, both GERENDE and SCANTLING have evidenced a high degree of loyalty to Matthew S. DINGLEY, their former Station Case Officer, and appear to be devoting that same loyalty to the present Case Officer. The control over GERENDE and SCANTLING stems directly from their pro-PBPRIME beliefs and their personal loyalty to their past and present Case Officers. The control over other LIEMPTY agents is based in part on pro-PBPRIME attitudes and on the financial remuneration and good handling they received from GERENDE and SCANTLING. Realistically, control over LIEMPTY agents is based on mutual understandings and confidence among individuals and should any agent decide to denounce PBPRIME or KUBARK, as the case may be, there is not much that the Station could do.

b. Motivation - With the exception of GERENDE and SCANTLING, whose primary motivations are ideological, financial compensation seems to be the basic motivational factor surrounding LIEMPTY agents.

[redacted]

13. Equipment and Other Support:

~~No special equipment or other support is required at this time.~~
See budgetary data sheet, pages 3-4 of [illegible] annexes.

14. Timetable:

The agents and operations listed in this project have previously been carried under the LIPSTICK and LIJERSEY Projects. It is the Station's understanding that the LIPSTICK Project was extended to 1 December 1958 to give the Station time to submit LIEMPTY. The LIJERSEY Project expires in 1959 or upon approval of LIEMPTY.

The LIEMPTY Project represents a major operational support asset of the Mexico City Station and, as such, will run for an indefinite period of time.

PROJECT OUTLINE

PART II

CRYPTONYM LIEMPTY

15. **Estimated Cost:**

Compensation:
(Note: Sufficient funds are indicated to provide for later justified raises to agents.)

Agent		US $ Per Annum	
Raymond H. GERENDE (to allow for possible raise)		$ 4,560.00	
Oliver G. SCANTLING		4,200.00	
LIEMPTY-3		2,000.00	
LIEMPTY-4		2,000.00	
LIEMPTY-5 @ $1.75 per hour		2,400.00	
LIEMPTY-6		2,400.00	
LIEMPTY-7 No Salary		- -	
LIEMPTY-8 No Salary		- -	
LIEMPTY-9		2,000.00	
LIEMPTY-10		3,600.00	
LIEMPTY-11		2,500.00	
LIEMPTY-12		1,800.00	
LIEMPTY-13		1,800.00	
LIEMPTY-14		1,250.00	
LIEMPTY-15		1,800.00	
LIEMPTY-16		1,800.00	
LIEMPTY-17		1,800.00	
Six additional agents @ $2,000		12,000.00	
Staff Agent (to be selected by Hqs)			
Salary	$8,330.00		
Quarters	2,500.00		
Education Allowance	640.00		
Travel	1,000.00		
Shipment of HHE	2,000.00	14,470.00	
Sub-total			62,380.00

Operational Expenses:

Automobiles (3 autos & 1 truck) Maintenance, operational expenses, replacement of parts.	2,500.00	
Travel of agents by commercial carrier	500.00	
Sub-total		3,000.00

[redacted]

[redacted]

Operational Equipment:

Replacement of 2 LIJERSEY autos (MV-2148 & MV-2147)	6,000.00	
Replacement of SCANTLING's QP auto (MV-2041)	3,000.00	
Replacement of LIENTRAP (MV-2138)	2,500.00	
Purchase of 1 used auto for LIJERSEY surveillance	4,000.00	
Purchase of 3 two-way radios & one base radio for LIJERSEY team	2,500.00	
Repair and maintenance of cameras and radio equipment	500.00	
Purchase of new photo equipment and supplies	2,500.00	
Sub-total		21,000.00

Real Estate:

Rent, utilities and maintenance of following safehouses: Per Annum

* LIMITED	500.00	
*LICALLA	1,000.00	
* LILYRIC	1,000.00	
Sub-total		2,500.00
Funds for procurement and servicing of additional safehouses, post office boxes, or renting automobiles		2,000.00
Exchange commodities (required as godwill gifts)		500.00
Damages (broken contracts, "key" money to obtain locations in choice areas, rent deposits, etc.)		2,000.00
Purchase of information, purchase of identification documents, payment of bribes, etc.		2,000.00
TOTAL		$ 95,380.00 U.S.

*LIMITED and LICALLA rents are returned to the Station by LIMOUSINE and credited to Station miscellaneous receipts.

16. Special Problems and Commitments:

a. No commitments, expressed or implied, have been made to any LIEMPTY agent by the present Case Officer, except as stated in the project outline and/or in the contracts of GERENDE and SCANTLING.

b. In the event of compromise to the local government of any LIEMPTY agent, KUBARK is morally responsible for doing all within its power, and within the limitations of security, for resettling or otherwise taking care of the LIEMPTY agents.

c. No special benefit commitments have been made to any LIEMPTY agent except those contained in the contracts of GERENDE and SCANTLING.

d. A change of government or political conditions in Mexico will not affect this project. It is a unilateral effort on the part of KUBARK.

SUBJECT LCIMPROVE/LIENVOY - Terro de WANSTRAM or WANSTROHM (phonetic)

ACTION REQUIRED - REFERENCES

1. Forwarded under separate cover as Attachment A are two LIENVOY transcripts of 12 November 1963 and two LIENVOY transcripts of 13 November 1963 which Headquarters may consider for transmittal to Station Stockholm.

2. Forwarded under separate cover as Attachment B is a photograph of an unidentified male (who was accompanied by an unidentified female whose photograph the Station asset did not obtain) who visited the Soviet Embassy at 1400 hours on 12 November 1963. The Station believes this male is identical with Subject since the male in the photograph is the only unidentified male who was also accompanied by a woman and, secondly, this male appears to be a nordic type. The Station recognizes, however, that Subject may have only claimed to be a Swede for cover purposes.

3. The following is the comment made by Douglas J. FEINGLASS, the Station's LIENVOY translator, concerning Attachment A:

> "The exact spelling of this name could not be determined. He started by saying that it is - W - Ä - N.. and then stopped, emphasizing the two dots above Ä. It is very strange that he, being a Swede did not seek the aid of his Swedish Consulate, but applied to the Soviet Embassy and asked for a man, whom he met by chance (?) in a restaurant. But stranger still is the response of the Embassy officials, who went out of their way to find a ship for him. Usually requests of this nature are brushed aside and quite often in a very rude manner. Judging from his non-British accent and almost flawless English, he must have lived in the United States or Canada for quite some time." (The Station REDWOOD officer agrees with FEINGLASS' comment regarding the usual reluctance of Soviet Embassy officials to help in a matter of this type.)

4. Station Mexico has no record of any member of the Soviet Embassy travelling to Oaxaca during this period.

5. Station Mexico has no traces on Subject.

B. HMMA-21331 dated 10 May 1963
C. HMMA-20408 dated 19 December 1962

1. Station Mexico regrets the confusion over the status of LIENVOY-8. He was terminated 29 February 1960. An Agent Service Record is attached.

2. The cryptonym LIENVOY-8 in HMMA-20408 dated 19 December 1962 should have been LIENVOY-6. Headquarters noted that LIENVOY-6 had been omitted and called this to the attention of the Station in HMMW-11457 dated 4 April 1963. It was not noticed at that time that LIENVOY-8 had been included in error in the project renewal request instead of LIENVOY-6.

Monthly Operational Report for Project LIENVOY

ACTION REQUIRED - REFERENCES

Action: None. For Headquarters information.

Reference: HMMA-22135, 13 September 1963.

1. There follows the monthly operational report for Project LIENVOY activities during September 1963.

2. Target Lines - September 1963.

The following lines were covered during the month of September:

20-30-18	General Lazaro Cardenas del Rio
20-83-46	General Lazaro Cardenas del Rio
24-18-18	Braulio Maldonado Sandez
43-01-85	Melquiades Maldonado Sandez
23-85-25	Alfonso Aguilar Monteverde
24-61-75	Jorge L. Tamayo Castellejos
45-59-52	David Alfaro Siqueiros
	Francisco Galindo Ochoa
13-21-14	
43-15-06	Enrique Gonzalez Pedrero
11-16-48	Ignacio Acosta Lagunez
19-15-06	Roberto Romero Adams

46-12-70	– C.T.A.L.
46-11-30	D.F.S.
46-09-50	– D.F.S. (disconnected 18 September 1963)
35-36-52	– Politica (Revista- Manuel Marcue Pardinas)
46-60-15	– Prensa Latina
46-60-16	Prensa Latina
14-42-37	Cuban Embassy
14-92-14	Cuban Embassy (disconnected 23 September 1963)
25-07-95	Cuban Embassy (apartment of Ramon Sinobas disconnected on 23 September 1963 when apartment became vacant)
14-13-26	Cuban Embassy
15-60-55	Soviet Embassy (Chancery)
15-61-55	Soviet Embassy (Chancery)
15-69-87	Soviet Embassy (Military Attache)
15-61-07	Soviet Embassy (Commercial Office)
15-12-64	Soviet Embassy (Film Representative)
45-61-80	Czech Embassy
45-61-81	Czech Embassy
20-38-98	Yugoslav Embassy (connected 18 September 1963)
20-68-69	Yugoslav Embassy (connected 23 September 1963)
20-68-23	Yugoslav Embassy (connected 23 September 1963)

Headquarters will note from the above that three lines were disconnected in order to cover three Yugoslav lines. Two of the lines which were disconnected were Cuban Embassy lines, both were not in use by the Cubans. One was in the apartment which had been vacated by Ramon Sinobas and not occupied by other Cubans. The other was a telephone in the Cuban Embassy which was never answered. The Cubans are trying to get Sinobas' line moved to the Embassy. They have also asked for the telephone company to repair 14-92-14. As soon as these lines are working again, coverage of two of the Yugoslav Embassy lines will be dropped in order to pick up all the Cuban lines which are presumed to have a much higher priority.

3. Processing of LIENVOY Information

The Station continues to receive full transcripts in Spanish on the Cuban lines (three), the Soviet Embassy lines (five), and as of 18 and 23 September the Yugoslav lines (three). These transcripts are received each morning for the day before. During September, the LIENVOY monitors transcribed 1396 pages in addition to the daily resumen.

The outside translators now working on LIENVOY transcripts are Orville HORSFALL, staff agent, who is used for almost any backlog which begins to occur.

David B. SCHLAGETER, field contract agent, who transcribes the Czech take.

Victor W. OBOLD, career agent, who transcribes the Yugoslav portion of the Yugoslav take.

Douglas J. FEINGLASS, staff agent, who continues to transcribe the Russian language portion of the Soviet take.

4. Exploitation of LIENVOY Information

Two leads from LIENVOY of operational interest in September 1963 were:

CONTINUATION OF DISPATCH	CLASSIFICATION	DISPATCH SYMBOL AND NO.
	~~S E C R E T~~ / [redacted]T	HMMA-22267

a. On 2 September 1963 a Russian speaking female contacted the Soviet Embassy and asked for Svyatoslav Fedorovich KUZNETSOV, KGB. She identified herself by name and as a professor from New Orleans. She gave the address of her apartment and asked for a meeting. This lead was promptly followed up by station investigative assets who identified the woman and learned that she was attending a philosophers' conference at the University of Mexico. She returned to the United States on 17 September. All available information was forwarded to Headquarters for passing to ODENVY.

b. MEXI-6135 reported the contact between an unidentified Czech woman and the Czech Embassy.

5. **Liaison**

On 18 September 1963 Oliver G. GALBOND and Willard C. CURTIS met with LIELEGANT and LIERGO. They also saw LIELEGANT on 20 September.

6. **Security**

There were no security problems during this month.

7. **Technical**

There were no technical problems which AREHART could not handle.

8. **Personnel**

Robert B. RIGGS continues to meet Arnold AREHART each morning before 0800 hours to receive all LIENVOY tapes and trascripts from the previous day. The daily meetings with Victor W. OBOLD and David B. SCHLAGETER, the two EE translators, were transferred on 18 September 1963 from the Station EE case officer to the KURIOT technician, Gregory D. PARMUTH who delivers and receives reels and transcripts from them each day. PARMUTH also acts as a cutout for Douglas J. FEINGLASS.

Paul V. LEVISTER, Headquarters KUTUBE officer, visited the Station from 22 September to 1 October to consult with LIENVOY and LIFEAT case officers in preparation for a report to be written on the two projects as examples of tap operations which produce both positive intelligence and operational leads.

9. **Production**

There is attached a list of reports,cables and dispatches forwarded to Headquarters during this month.

50-6-75/3

PERSONALITY BRIEF

1. **General Lazaro CARDENAS del Rio**

As a pro-Communist, anti-United States former (1934-1940) President of Mexico, CARDENAS plays an important role in the political activities of Mexico by virtue of his being the spirtual leader of a great part of the Mexican left. His leftist sympathies appear to fall primarily with the current regime in Cuba (He alledgedly is a close personal friend of Fidel CASTRO), secondarily with Communist China, and lastly with the USSR.

2. Braulio MALDONADO Sandez

MALDONADO is a politically unscrupulous pro-Communist former Governor of Baja California. He is a national leader of at least three Mexican leftist organizations: (1) FEP (People's Electoral Front), united single front of Mexican Communists and Leftists; (2) MLN (National Liberation Movement), rabidly anti-U.S., pro-Cuba Communist Front; and (3) CCI (Independent Peasants' Center), radical, anti-Mexican Government organization. Having been banished from Mexico until after the 1964 elections for anti-government activities, MALDONADO is currently in Europe and seeking admittance to the USSR, obstensibly to visit his daughter who is a student at the Friendship University in Moscow.

3. Alonso AGUILAR Monteverde

AGUILAR is a prominent pro-Communist Mexican intellectual who is the titular head of the MLN (National Liberation Movement), rabidly anti-U.S., pro-Communist front. He is a full-time professor at the National Autonomous University of Mexico and maintains active contact with several international leftist and Communist figures. He has recently travelled to Cuba and Warsaw.

4. Jorge Leonidas TAMAYO Castillejos

TAMAYO is a Communist professor at the National Autonomous University of Mexico. He is a leading member of many Communist front activities in Mexico including the CMP (Mexican Peace

50-6-75/3

Committee), the MLN (National Liberation Movement), and the CEM (Circle of Mexican Studies). He has been in contact with several leftist figures of various echelon, including Gen. Lazaro CARDENAS, the Cuban Ambassador to Mexico, and Polish, Soviet, and Chinese Communist officials. TAMAYO's son has studied in Warsaw and travelled to the USSR and Communist China.

5. Jose David ALFARO Siqueiros

ALFARO, one of Mexico's most prominent artists, has been imprisoned for eight (8) years as a consequence of the role he played in the Communist-inspired railroad stike of 1959. He is a leader of the PCM (Mexican Communist Party) and has visited the Soviet Union. He fought for the Loyalist Army in the Spanish Civil War and was later arrested in Mexico for complicity in the murder of Leon TROTSKY's secretary. ALFARO has a long history of pro-Communist, anti-U.S. leanings.

6. Roberto ROMERO Adams

ROMERO is an informant for the Cuban Intelligence Service in Mexico.

7. Enrique GONZALEZ Pedrero

Pro-Communist professor at the National Autonomous University of Mexico, GONZALEZ Pedrero has contributed to the writing or editing of at least five (5) leftist publications in Mexico. He is a member of the National Committee of the MLN, has alledgedly received training in the Soviet Union, and has travelled to Cuba twice in recent times.

8. Ignacio ACOSTA Lagunas

Pro-Communist ACOSTA, a lawyer, is an aide of General CARDENAS and a leading member of the MLN. He frequently has contact with high-level personnel of both the Cuban and Soviet Embassies in Mexico City. His political activities include travel to Cuba and the Soviet Union, aid in the management of the Communist Trade Fair in Mexico, and a great deal of participation in promoting sympathy for the Cuban Revolution in Mexico.

9. Direccion Federal de Seguridad - Federal Security Police

The principal functions of this security unit are to: (1) Provide a plain-clothed security detail for the President, (2) maintain an extensive telephone tap activity on both the Rightist and Leftist political opposition forces, and (3) perform investigations and arrests of primarily political offenses. The unit's agents are largely poorly trained, insecure, and unreliable. Their professional characteristics are best described as being dishonest, cruel, and abusive. The position, at this moment, of Manuel RANGEL Escamilla as Director General of DFS is precarious.

10. Politica

A Marxist anti-U.S. semi-monthly magazine published in Mexico, Politica is printed by Talleres Graficos de Mexico, the same shop which prints La Voz de Mexico. In addition to the modest revenues derived from a circulation of 15,000 to 25,000, Politica is financed by the Soviet Embassy, the MLN, the PPS, and possibly, the Cuban Embassy. As an indication of the Mexican government's assessment of the capability of this magazine to influence public opinion, it is worthwhile noting that Politica frequently experiences a great degree of difficulty in printing and circulating itself due to the government's repressive efforts.

11. Movimiento de Liberacion Nacional (MLN)

Organized under the influence of the PCM in August 1961, the MLN today is dedicated to the furtherance of the mutual interests of its adherents who are found primarily in the ranks of the PRI, the PPS, the PCM, the CNC and the UGOCM. The MLN's objective is to gain leftist political representation in the government by inciting PRI to accept leftists into its camp. As a consequence of this objective, the mission of MLN is to generate evidence of popular leftist sympathy by means of fomenting agitation among the popular, labor, and peasant masses.

12. Confederacion de Trabajadores de la America Latina (CTAL)

The CTAL has recently been replaced by the CUTAL (Single Confederation of Latin American Workers). Until recently, the pro-Communist, CTAL, which is described as being the liaison bureau of the WFTU (World Federation of Trade Unions) whose headquarters are in Prague, was headed by Vicente LOMBARDO Toledano.

13. Prensa Latina

Operating directly under the Cuban Communist regime, Prensa Latina is obstensibly a press service. In reality, however, it is the official propaganda organ of the Cuban Government. Prensa Latina works closely with Tass, the Soviet Agency; with Hsinhua, the Chinese Agency; and with Cetepka, the Czechoslovakian Agency.

: Victor Manuel GUTIERREZ Garvin (201-68248)

Refs: A. HMMW-11838, 16 August 1963

B. HMMA-22262, 8 October 1963

1. Reference is made to your question about the type information needed on GUTIERREZ. Headquarters is interested in "current" information on his activities, and especially on his travels and his contact with Manuel VEGA Perez, Chief of G-2 at the Cuban Embassy in Mexico City. The comment on HMM-7289 regarded only the non-dissemination of the report, and was not intended to discourage the Station from reporting information on meetings between GUTIERREZ and VEGA.

2. Headquarters would appreciate receiving, on a continuing basis, pertinent information on GUTIERREZ extracted from the LIENVOY take.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: TDY to Mexico City

1. After taking a good look at LIENVOY and LIFEAT, I would agree with the persons I talked with in Mexico; they maintain that any well-run tap operation should produce substantial intelligence information, provided the targets are of intelligence interest, and provided also there are people at the station who look for it and are able to recognize it. The case of LIFEAT is interesting in this respect: It has been deprived of its most productive lines in favor of LIENVOY, and yet its intelligence production compares favorably, with that of the other productive taps, except LIENVOY.

2. Mexico has people who can detect any little item of intelligence significance. This includes the Chief of Station, who goes over the highlights of the previous day's take every morning and marks certain items for action by station case officers or reports officers. The reports officers work on copies of the take at the same time.

3. There are several aspects of LIENVOY that make it an excellent operation and an outstanding producer of intelligence. I will describe them in detail when my notes get here from the station. The principal factors in the success of LIENVOY seem to be the following.

a. The agreement made with top Mexican officials, unlike many such agreements elsewhere, is as much in effect today as it was at the start: the targeting is not based on personal politics; the intercept staff has stayed on the job; the equipment is considered to be on loan from CIA.

b. The native monitoring staff has reached a peak of effectiveness that everyone at the station praises very highly.

c. The station is organized to handle the take speedily as soon as it comes in. The Chief of Station, the case officers, the reports officers, all work on it at the same time and exchange views on hot items. They do not let reports backlogs accumulate.

d. Each new item on a target person is linked to a past history; what appears as a fragmentary bit in a conversation becomes a meaningful development in a continuous story. Continuity on the job makes this possible.

e. The equipment is kept in good working order by complete cleaning and checking of each unit once a month. The 32 units in use today are those installed in 1959.

4. A detailed description of LIENVOY and its counterpart LIFEAT should provide good models with which to compare other tap operations. It should give criteria for good procedures. It should give some idea of the desirable size of such operations, considering the available targets, the size of the station, and the other tasks and operations of the station. It should show what the station puts into its tap operations and what it gets out of them. LIENVOY and LIFEAT are an interesting example of two interacting operations, one joint and the other independent.

5. My stay in Mexico was as interesting and fruitful as it was enjoyable. And I hope it was not too great a burden on the station.

SUBJECT Monthly Operational Report for Project LIENVOY

ACTION REQUIRED - REFERENCES

Action: None. For Headquarters' information.

Ref : HMMA-22005, 23 August 1963

1. There follows the monthly operational report for Project LIENVOY activities during August 1963.

2. Target Lines - August 1963.

There were no changes in the target lines during this reporting period. The Yugoslav lines have not yet been connected but one of them should be operating by the end of September.

3. Processing of LIENVOY Information.

HMMA-22000 dated 21 August 1963 transmitted the first group of copies of transcripts against the Cuban lines. Since that time, carbon copies have been forwarded to Headquarters on a weekly basis.

Orville HORSFALL, staff agent, has eliminated the backlog of some fifty reels from the Russian lines and at the present time is working on the Polish LIFEAT coverage which Woodrow GABBOTT (ps) has not been able to handle. HORSFALL will be used in this capacity only until the Station has a higher priority job for him or until his permanent assignment is determined.

There has been no change in Douglas J. FEINGLASS' assignment since the last progress report.

4. Exploitation of LIENVOY Information.

The following are some (not all) of the exploitations during August 1963 of leads from LIENVOY:

a. LIENVOY contributed support to the REDWOOD AEJUMBO operation during this period by confirming several contacts between the principals involved. Details of this case have been reported by the Station SR Case Officer.

b. On 8 August LIENVOY reported indications that an unnamed

DIZTAG diplomat stationed in Caracas planned to travel alone by plane to Mexico City via Panama carrying a diplomatic pouch for turnover in Mexico and return to Caracas with diplomatic mail received from DIZTAG couriers in Mexico. This was reported to Headquarters, Caracas, and Panama as a possible opportunity to obtain or copy these pouches. (MEXI-5681)

c. On 7 August this project revealed contact between the Partido Popular Socialista and the Soviet Embassy. Roberto JARAMILLO Flores, national leader of the Juventud Popular Socialista, the youth organization of the Marxist Partido Popular Socialista, arranged for an urgent meeting with Nikolaiy Sergeyevich LEONOV, Third Secretary and Cultural Officer of the Soviet Embassy. It will be recalled that LEONOV went to the Soviet Union and acted as interpreter for Fidel CASTRO on his visit there earlier this year. MEXI-5705 transmitted a report on JARAMILLO's contact with LEONOV.

d. On 5 August LIENVOY reported the presence in Mexico of one Doctor Paul BARAN who was in contact with Cuban Embassy officials and prominent Mexican Marxist intellectuals. BARAN appeared to be on a trip throughout South America. A check of Station files revealed that this was probably identical with Paul Alexander BARAN, Russian born naturalized U. S. citizen and professor of economics at Stanford University, Palo Alto, California. BARAN has visited Mexico in the past and made contact with American Communists and Mexican leftists. This information was sent to Headquarters in MEXI-5735 for dissemination to ODENVY.

e. On 12 August William ROSE, who identified himself as a student from the United States studying at the University of Mexico (UNAM) asked for an interview with Vicente LOMBARDO Toledano, Secretary General of the Popular Socialist Party (PPS). ROSE claimed to have letters of introduction to LOMBARDO from labor leaders in the United States. A check of Station files revealed William Maurice ROSE, 1474 Federal Way, Salt Lake City, Utah, as a student at the UNAM. This report was sent to Headquarters in MEXI-5752 for dissemination to ODENVY.

f. On 1 August Henry WALLSCHMIDT, 3662 Carrington Avenue, Los Angeles, California, contacted the Soviet Embassy and volunteered his services to them. The details of this contact were forwarded to Headquarters via HMMA-21905 for dissemination to ODENVY.

g. On 7 August a person who claimed to be a U.S. citizen with a name which sounded like ARNERO contacted the Soviet Embassy and referred to a previous visit at the Embassy when he discussed information on ship movements. He also asked for asylum and made an appointment to see Oleg NECHIPORENKO, Soviet Vice Consul and KGB officer. A person of American appearance was photographed by LIEMPTY at the time of the arranged appointment. A sanitized copy of this photograph together with information from LIENVOY was passed locally to ODENVY. MEXI-5784 forwarded the report to Headquarters.

h. On 9 August LIENVOY reported that an American pilot with wife and small son were at the Cuban Embassy trying to get a visa to go to Cuba. MEXI-5794 reported details for Headquarters. ODENVY was advised locally after receiving Headquarters' authorization.

i. LIENVOY covered the activities of Barry Terry PRIMUS, New York actor who was expelled from Mexico on 19 August for participating in Marxist-Communist public disturbances on 18 August. See MEXI-5854 and 5855 for further details.

j. On 20 August Moe FISHMAN, Secretary of Veterans of the Lincoln Brigade in the U.S. asked the wife of David Alfaro SIQUEIROS how the Brigade could help free SIQUEIROS. FISHMAN also made an appointment to meet with Margarita NELKEN, prominent Spanish Communist exile. MEXI-5864 transmitted this report to Headquarters for dissemination to ODENVY.

5. Liaison.

As reported in reference Willard C. CURTIS met with LITENSOR to arrange for a sensitive PBRUMEN case on 15 August 1963. The case is still pending.

CONTINUATION OF DISPATCH	~~SECRET/[redacted]~~	HMMA-22135

6. Security.

There were no security incidents within the project during this month.

7. Technical.

There were no technical problems which AREHART could not handle.

8. Personnel.

There have been no changes in personnel since the last report.

9. Production.

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

Willard C. Curtis

LIENVOY [illegible] ops
13 September 1963

Mr. Whitten:

I just learned that Mr. George sent his note to Mr. Scott directly to Colonel King. The note mentions my pseudo, Paul V. Levister. Perhaps Col. King would want to jot down my true name somewhere, GERARD CAMPAGNA.

I read our LIENVOY Project file yesterday and got excellent additional information from Tig Puckett. It's always encouraging to get into such good operations.

Jerry Campagna

Next week I would like to read further into LIENVOY and LIFEAT, especially the monthly reports and the disseminated reports.

12 September 1963

Dear Willard:

This may seem to you like a voice out of the void, but I always carry in my mind your repeated invitations to visit you and remember clearly your acquaintance and kindness to my brother. Strangely enough it seems to continue to be true that the only escape from this jail-like desk is back to my old area where I never expected to return--I even had one this Spring. Just now I have a specific reason for wanting to visit your place, that is, in addition to our own personal reasons.

For some time I have been bent on trying to push for more positive information from taps and audio. I realize that it is taken for granted around the world that the purpose of taps and audio is for operational leads, particularly in the KUDESK field.

In one or two places in the world, positive production is outstanding and we have been making a study for some time trying to see why it works in some cases and not in others. One of the outstanding examples is LIFEAT and especially LIENVOY. These seem to be far ahead of other similar operations around the world even though they seem to approach the problem somewhat similarly. It occurred to me that we might find out what makes yours so especially effective by having one of my people go to your station for a few days to talk with you and your officers and get the detailed story. I could then take another look at the other operations and see what's missing or what's wrong. I'm sure this would be of great help to the place as a whole. If you agree, I will send Paul V. Levister (Iden), the editor of our Foreign Intelligence Series (our Staff doctrinal papers, the first few of which have been dispatched to you). He could be in Mexico City on or about 23 September, or any time thereafter that is more convenient for you and your people. Could you let us know your reaction by cable, and if it's favorable, when you would prefer to have Levister arrive. We would confirm his ETA by cable.

Galbond is leaving tomorrow to make a visit down your way and I have asked him to be kind enough to pass this to you. The desk here concurs in our interest subject to your approval.

On 7 August 1963 the Station EE case officer requested LIENVOY coverage of the Yugoslav lines. Arrangements are being made to put these lines in within the near future.

3. Processing of LIENVOY Information.

The Station continues to receive full transcripts in Spanish from ten lines (five Cuban Embassy and five Soviet Embassy). DIR-60764 dated 13 August 1963 asked the Station to send to Headquarters one copy of the full transcripts from the Cuban Embassy lines. These are being forwarded on a weekly basis. The first group is being forwarded as an attachment to HMMA-22000 dated 21 August 1963. If they do not please Headquarters officers who desire them, it is requested that the Mexico Station be promptly advised with any suggestions for changes.

On 6 August 1963 Orville HORSFALL, staff agent, arrived in Mexico to work presently as a unilateral monitor but eventually as the supervisor of a tap center either under LIENVOY or LITEMPO. He has established himself outside and is presently at work eliminating the backlog of Soviet tapes.

Douglas J. FEINGLASS continues to do the Russian from LIENVOY, the Russian from two LIFEAT lines on Soviet targets, and the Russian from the LIPAWN audio operation. In addition, FEINGLASS sends clipped transcripts to the Station ready for 201 files.

4. Exploitation of LIENVOY Information.

HMMW-11831 dated 6 August 1963 indicated that Headquarters was not well informed on the way the Mexico Station exploits operational leads from LIENVOY. The outside staff agent, Arnold AREHART has instructions to alert the Station immediately if a U.S. citizen or English speaking person tries to contact any of the target installations. This is done by a telephone call from outside the tap center at a pay phone to Robert B. RIGGS inside the Station. Emergency meetings are arranged in double talk (meeting for coffee or lunch). RIGGS meets AREHART within fifteen minutes at a pre-arranged downtown location and receives the reel with an extract of the pertinent conversation. The reel is then taken to the Station and given to the case officer responsible for the target the person was trying to contact. Headquarters is notified by cable of the action taken. Only in rare cases is information on a U.S. citizen passed without prior Headquarters approval.

Other leads appear in the full transcripts or daily resumen. They also are exploited by the Station case officer responsible for the target where the lead appears. For example, on 12 August 1963 Boris KAZANTSEV, recently arrived Counselor of the Soviet Embassy and former defection target in Mexico, called his wife at their residence. The number was not listed but was immediately checked by Raymond GERENDE who determined that the number was the switchboard of the apartment house where KAZANTSEV and several other families live. The reason the Station checked out this number was to put unilateral coverage on it if possible; however, the switchboard was beyond the Station's capability to handle.

Maryknoll priest Felix McGOWAN contacted the Cuban Embassy on 31 July 1963. MEXI-5565 reported details of this contact. This cable was sent to Headquarters for dissemination and action by ODENVY.

Professor WEBB (fnu) of the University of Louisiana contacted Mexican Communist Jorge L. TAMAYO Castillejos, prominent Mexican Marxist intellectual and professor at the University of Mexico, and arranged to meet with him on 31 July 1963. MEXI-5568 reported this contact to Headquarters for dissemination and action by ODENVY.

Bartolo (fnu) contacted former Governor of Baja California, Braulio MALDONADO Sandez on 16 July 1963 regarding the sale of Cuban pesos. MEXI-5569 reported this contact to Headquarters for dissemination and action by ODENVY.

5. Liaison

On 15 August 1963 Willard C. CURTIS met with LITENSOR to arrange for a sensitive PBRUMEN case (MEXI-5789 reported the details of this meeting).

6. Security

There were no security incidents within the project during this month.

7. Technical

There were no technical problems during this period.

8. Personnel

Orville HORSFALL's arrival is the only change in personnel since the last report and he is handled as an independent agent by the Station, with no LIENVOY personnel aware of his presence in Mexico. Robert B. RIGGS sees HORSFALL daily to deliver and pick up tapes.

9. Production

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

Willard C. Curtis

FROM
Chief, WHD

SUBJECT
PBRUMEN/LIENVOY

ACTION REQUIRED - REFERENCES
References: A. MEXI 5448
B: MEXI 5487

1. The referenced cables describe two recent incidents in which the Mexico City Station made use of LIENVOY information to take investigative or punitive action against security suspects. The first reference reported the identifying and "trapping" of a PBPRIME citizen who was offering his services to the Cuban Embassy, and the second reported the deporting of a Cuban IS agent identified by LIENVOY material.

2. In both of these cases, there seems to have been departure from the extreme caution with which the Mexico Station has always handled the LIENVOY material. Admitting that the cables do not set out enough facts to enable us to make a final judgment, we still feel a little uneasy about this use of LIENVOY material. In the first case, the Station sent an agent to the suspect's hotel, posing as a Cuban Embassy official to "trap" him into revealing his intentions. The scheme, which was admittedly clever, succeeded, but we were concerned about what would have happened if the Cubans themselves had decided to contact the individual. Would not the LIENVOY operation have been exposed to some extent? We grant that the Cubans and other bloc personnel in Mexico City may suspect LIENVOY exists, but they do not know it --- yet. Incidentally, we had no traces on the PBPRIMER involved.

3. The second case involved the detection, apprehension and deportation of a Cuban IS agent whose whereabouts were learned through LIENVOY. From the few facts we know about this case, we cannot really judge the possible risk to LIENVOY. The Mexico Station created LIENVOY and has always guarded its security with scrupulous care. Has there been a change?

4. Finally, please note that both these cases should have been reported to Headquarters before action was taken. In general, arrests, deportation, trapping, or other action against security suspects should be approved by Headquarters, except where in the opinion of the Chief of Station, the added time needed would seriously impair ODYOKE security or the security of our operations. The Mexico Station has always done this, and the coincidence of two recent cases where it was not done inspires us to query you. Please let us know your views.

2. Target Lines - June 1963.

The following lines were covered during the month of June:

20-30-18	General Lazaro Cardenas del Rio
20-83-46	General Lazaro Cardenas del Rio
24-18-18	Braulio Maldonado Sandez
43-01-85	Melquiades Maldonado Sandez
23-85-25	Alonso Aguilar Monteverde
24-61-75	Jorge L. Tamayo Castellejos
45-59-52	David Alfaro Siqueiros
13-21-14	Francisco Galindo Ochoa
43-15-06	Enrique Gonzalez Pedrero
11-16-48	Ignacio Acosta Lagunez
19-15-06	Roberto Romero Adams
10-29-69	Movimiento de Liberacion Nacional
46-12-70	C.T.A.L.
46-11-30	D.F.S.
46-09-50	D.F.S.
35-36-52	Politica (Revista - Manuel Marcue Pardinas)
46-60-15	Prensa Latina
46-60-16	Prensa Latina
14-42-37	Cuban Embassy
14-92-14	Cuban Embassy
25-07-95	Cuban Embassy
25-09-14	Cuban Embassy
14-13-26	Cuban Embassy
15-60-55	Soviet Embassy (Chancery)
15-61-55	Soviet Embassy (Chancery)
15-69-87	Soviet Embassy (Military Attache)
15-61-07	Soviet Embassy (Commercial Office)
15-12-64	Soviet Embassy (Films Representative)
45-61-80	Czech Embassy
45-61-81	Czech Embassy

3. Processing of LIENVOY Information.

Of the lines covered, all are of interest to KUBARK and approximately one half of them are exclusively for KUBARK. The LIENVOY tap center monitors continue to prepare daily summaries of significant items from all lines. In addition, they prepare full transcripts in Spanish for ten lines (five Cuban Embassy lines and five Soviet Embassy lines). These transcripts are used by the Station Case Officers for Cuban and Soviet operations in following leads of interest.

CS COPY

50-6-75/3

On 5 June 1963 Douglas J. FEINGLASS, Staff Agent, arrived in Mexico to replace Howard G. SAFARANO, the Station translator for Russian language conversations appearing on LIENVOY and LIFEAT lines. SAFARANO departed PCS on 18 June thus freeing an inside slot for use by an operations officer. FEINGLASS' usefulness to the Station is handicapped by his inability to transcribe the Spanish portion of the reels from the Soviet coverage. This, despite Headquarters assurance that he could do these transcriptions. However, he has settled into outside living conditions with a minimum of difficulty. For the present, a monitor from the LIENVOY tap center is transcribing the Spanish portion of the above take. There is a Station backlog of Soviet tapes numbering about 50 which accumulated during the period when FEINGLASS was trying unsuccessfully to transcribe the Spanish. The backlog is being retained until Orville HORSFALL arrives. In addition to the Russian transcriptions, FEINGLASS also clips the transcripts for individual dossiers thus relieving the Station Case Officer for Soviet operations of a clerical task. After the arrival of HORSFALL, the Mexico Station will review requirements for outside translators and make recommendations for future use of FEINGLASS.

In early June to support the AMROD operation, the Station requested full transcripts of the Cuban Embassy lines. In addition, Thomas G. URQUHART (ps) while on temporary duty in Mexico was given access to the LIENVOY tap center to review the traffic on a current basis.

4. Exploitation of LIENVOY information.

Coverage of the Cuban, Czech, and Soviet Embassies provided details of their personnel, their contacts, travel and other useful CE data. In most all cases of official travel, LIENVOY gave the Station advance information when reservations were made. Confirmation of the travel is, of course, obtained through the LIFIRE project.

The traffic is reviewed for English speaking persons who might be U.S. citizens making contact with Soviet or Soviet Satellite Embassies for political or other reasons. On 20 May 1963 an English speaker identifying himself as Albert Kennedy called the Soviet Embassy and requested political asylum for himself, his wife and seven children. Subsequent investigation revealed that he was also a protection case at the U.S. Embassy in Mexico. Appropriate U.S. agencies were advised of Subject's contact with the Soviet Embassy.

5. Liaison.

During this reporting period there were no meetings between the Chief of Station KUBARK and LITENSOR; however, regular contact was maintained with LIELEGANT and LIERGO.

6. Security.

There were no security incidents within the project during this month. As reported in MEXI-5170, 26 June 1963, the true name of a KUBARK case officer was revealed to the Cuban Embassy by a caller who refused to identify himself. From the transcript it appeared that the Cuban Embassy was not interested in making contact with the caller who claimed to have details of KUBARK operations in Mexico.

7. Technical.

Arnold AREHART, staff agent, has kept the equipment working effectively. As Headquarters is being advised by separate cable, the Mexico Station does not plan to replace the present LIENVOY equipment until the next Presidential candidate is named, assuming of course that this will occur within the next few weeks.

8. Personnel.

On 17 June Robert B. RIGGS resumed meeting Arnold AREHART and routine case officer functions for LIENVOY. Gregory PARMUTH meets Douglas J. FEINGLASS daily to deliver and receive the Soviet Embassy traffic. PARMUTH's assistance in obtaining living quarters and necessary sterile office furniture was responsible for the ease with which FEINGLASS was able to settle into his ~~outside~~ staff agent status.

In the opinion of Thomas G. URQUHART, who has spent some time inside the tap center, Arnold F. AREHART is doing a commendable job in the management of the center. In addition, AREHART has a general awareness of the take from each line. When leads of interest appear, he notifies the Station immediately so that action can be taken.

Willard C. CURTIS contacts LIENVOY-2 when the Station desires contact with the Mexicans directly or when AREHART is absent.

9. Production.

The volume of paper produced by this project is hardly reflected in formal disseminations, operational cables, and dispatches which numbered 39 during June. The daily summaries, the transcripts from two Czech lines, five Soviet lines, and five Cuban lines are retained for background use in Station files. They could be more fully exploited for reporting purposes if personnel were available.

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

[illegible]
jueves 9 mayo 196[illegible]. 1.

07:58 El Ing. J[illegible] I[illegible] pregunta por el periodista [illegible] [illegible]. La sirvienta dice que todavía se encuentra dormido. [illegible] deja el siguiente recado: "que no vaya a la cita que tenía hoy en el despacho pues se acordó cancelarla hasta que yo hable con él".

09:46 VICTOR [illegible] pregunta al [illegible] que si ya leyó la [illegible], refiriéndose al artículo de hoy en la revista Siempre de [illegible]. [illegible] asiente y agrega que se necesita [illegible], pero que sin embargo tiene un párrafo muy bueno, donde dice que [illegible] lo regañó. Continúa [illegible] diciendo que le responderá con argumentos objetivos y sin meterse para nada en la cosa personal, aprovechando el [illegible] para volver nuevamente sobre la Ley Electoral. Cambiando de tema VICTOR pregunta que qué le pareció la [illegible], refiriéndose al artículo de él en Siempre. [illegible] opina que [illegible] bueno y que es lo mejor que [illegible] de este número, agregando que "de allí hubiera podido salir un cuento [illegible], [illegible] de la jerarquía y demás; el artículo es muy [illegible] y [illegible]mente por el retrato a [illegible], [illegible] por el [illegible] en todo". VICTOR comenta que lo de [illegible]. [illegible] dice que lo "[illegible]". [illegible] dice que "[illegible] de [illegible] llama la atención". [illegible] también [illegible] a VICTOR que "de lo otro luego platicamos, pues en principio ya se aceptó la integración de nuevos miembros; ayer [illegible] la reunión, y aunque no se discutieron individualmente [illegible] detalles, sí se aceptó en principio la idea".

09:55 [illegible] JULIO pregunta a la Embajada Cubana por [illegible]. Al contestar [illegible] pregunta a su vez a JULIO [illegible] cosas que le mandó. JULIO asiente y agrega que "[illegible] gusto que las cosas se han resuelto". [illegible] lo que le extrañaba era que [illegible]...... [illegible] que pasó fué que por desgracia [illegible] anterior [illegible] con [illegible] interés en verlo "porque tengo [illegible] pero van [illegible] se cerrado". [illegible] mismo lugar que JULIO señaló la vez [illegible]. [illegible] que sea en otro lugar como por ejemplo [illegible] en las calles de Misisipi por el cine [illegible] como él tiene un cargo sumamente [illegible] tiempo y le gustaría que fuera lo más pronto posible. [illegible] responde que ahora mismo como a las 10:[illegible]. [illegible] aclarando que está vestido con un traje gris [illegible].

10:[illegible] [illegible] Lomas, pregunta por el Lic. [illegible]. La [illegible] informa que no está y que tardará [illegible] en regresar a México, pero sugiere a JULIO [illegible] las oficinas de Medellín, pues allí hay personas que atiendan cualquier asunto.

10:46 CLARA PORCEL ofrece a la Embajada Cubana, 6 cajas de medicamentos, pidiendo a LLAGOSTERA mande a recogerlas. Así lo hará.

(NEW)

10:55 El tico JUAN CARLOS FERNANDEZ, desde Prensa Latina y por encargo de [illegible] se comunica al Hotel Fremont con la Sra. TIRSI para decirle que debe alojarse en la casa de [illegible], donde seguramente estará más cómoda. La TIRSI indica que llegó hoy en la madrugada en lugar de a las 21:00 hs. y se extraña de que de Río no les hayan enviado un cable comunicándoles su llegada. [illegible] dice no haber recibido nada y lo lamenta, pues hubieran ido a esperarla.

11:23 [illegible] pregunta a la hermana de [illegible] si el mexicano [illegible] tiene solicitud de visa. La hermana después de consultar con [illegible] indica que sí y que [illegible] ordenó la autoricen por ser amigo de [illegible].

11:35 El Sr. [illegible], que dijo ser amigo de [illegible], pregunta por el nombre completo del nuevo Embajador de Cuba en México. [illegible] se lo proporciona. El Sr. [illegible] quisiera concertar una entrevista con él, pues "tengo algo importante". [illegible] informa que el señor [illegible] todavía no ha llegado a México. [illegible] entonces quisiera ponerse en contacto con el Agregado Militar. [illegible] indica que no hay. [illegible] esperará entonces a que llegue el nuevo Embajador.

12:00 [illegible] de Prela México para el siguiente [illegible] Prela N.Y. atención [illegible], se encuentra aquí [illegible], compañera de [illegible]. Ve si es posible que [illegible] le envía por telégrafo su visa para que pueda salir en el vuelo de mañana. Saludos J. [illegible].

12:25 [illegible] S.M. [illegible], indica a [illegible] que la acompañe esta tarde, a la conferencia de [illegible] en la Asociación Mexicana de Periodistas, pues [illegible] tiene interés en asistir ya que tratará el tema de "[illegible] la Paz". [illegible] con gusto irá ya que estos actos "le hacen sentirse en ambiente".

14:25 El Cap. [illegible] manifiesta a la [illegible] que en las oficinas de Medellín hay una [illegible], pero ninguno de los dirigentes se presenta y ya se acaba la [illegible].

[illegible] En vista de [illegible] con [illegible] a la [illegible] Gral. [illegible] y ésta se encontraba [illegible], [illegible]...

RESUMEN
jueves 9 mayo 1968. -3.

Vasquez Gomez

1624 ELENA se puso en contacto con [illegible], quien manifiesta que la carta que quedó de enviarle al General no la mandará hasta la semana entrante, ya que casi todos estos últimos días ha estado muy enfermo. ELENA así se lo comunicará al Gral. CARDENAS. P-1993

14:28 ELENA VAZQUEZ-GOMEZ comunica al Lic. [illegible] AGUILAR y al Dr. GUILLERMO MONTAÑO, de parte del Gral. CARDENAS, que mañana por ser día de las madres no resultaría cómodo que se vieran, además de que el General tiene otro compromiso previo. Por tal motivo los espera el sábado a las 12:00 hs. en su casa de Andes. Ambos aceptan estar presentes. (5757)
Posteriormente el Dr. MONTAÑO indica al Lic. LUIS [illegible] FERRERO que en vista de que el sábado tendrá que ir a casa del Gral. CARDENAS se pospone la reunión que tenían prevista. (7354) 7752

14:34 VICTOR RICO GALAN queda en desayunar mañana con [illegible] a las 09:30 hs. en Sanborn's de Durango.

19:09 ALONSO AGUILAR dice a NACHO ACOSTA que ELENA tiene un texto y le pide que haga el mismo favor de ayer. NACHO indica que ya lo recogió y lo distribuyó. AGUILAR comenta que está bien, pues es una cosa que tiene actualidad. 2152

19:41 FERNANDO GAMBOA felicita calurosamente a ANGELICA ARENAL DE SIQUEIROS por el documento de hoy, es excelente. ANGELICA le pregunta que si leyó lo del mitote que se armó con la ida allí (ANGELICA fué a la sesión plenaria del Congreso de Procuradores con un ramo de rosas). FERNANDO asiente. ANGELICA dice que la cosa está un poco cambiada, pero estuvo sensacional. FERNANDO la felicita nuevamente " qué bueno que no te desanimes". ANGELICA comenta que " no, tengo que seguir luchando", y agrega que a DAVID le pareció magnífico el documento [illegible]. FERNANDO indica que le escribió [illegible] CARDENAS, y a pesar " de que andamos con muchos líos, parece que vamos por buen camino, de eso estoy seguro". (P-448) (6004)

Arenal Siqueiros

21:14 Desde la Escuela de Ciencias Políticas, LUIS [illegible] dice a HEBERTO CASTILLO quien se encuentra en el [illegible], que está platicando con los estudiantes y quieren ir a Salvador 36. HEBERTO no los puede esperar pues tiene un compromiso a las 22:00 hs. LUIS pone a HEBERTO en contacto con el estudiante VALERO. HEBERTO explica que en la última reunión se llegó al acuerdo de que el Comité del D.F., sea absorbido por el Comité Nacional " y como a mí me nombraron encargado de la Comisión de Organización del Movimiento, quiero ponerme en contacto con ustedes para llevar adelante lo de las brigadas, así como para que inviten a muchachos serios y responsables que quieran dar parte de su tiempo al Movimiento". VALERO propone conversar ampliamente el sábado en la C.U.

U.N.A.M.

09:50 Una mujer con acento norteamericano que dice ser amiga de [illegible], pide al Lic. [illegible] le ayude en un problema muy urgente. AGUILAR le propone verse esta tarde a las 17:30 hs. en la planta baja del edificio del Movimiento. La mujer concurrirá.

copy to p-1371

manuel 7721 copy p!

09:50 Un estudiante de la Universidad, con acento sudamericano, manifiesta a [illegible], a la Embajada cubana, que necesita verlo porque necesita despachar unas cosas. [illegible] le sugiere verse mañana a las 07:50 hs. El estudiante acepta esa hora, pues más tarde tiene clase. Ambos quedan de verse como de costumbre "en el número uno". [illegible] copy p

copy to U.N.A.M. file 50-16-3

12:00 Un ayudante de [illegible] se comunica al 27-28-61 (Rodolfo [illegible] Sánchez, Mar Blanco, 69-5) y dice al Sr. [illegible] que " estamos esperando la propaganda". [illegible] indica que ya está lista y que dentro de un rato se las llevará.

12:09 [illegible], de Ovaciones, quisiera que el Lic. [illegible], quien representa un sector fuerte en la política, le hiciera unas declaraciones sobre las pastorales que acaban de publicarse. [illegible], después de consultar, dice que como la cosa es de mucha importancia, mañana se reune la dirección del Partido y el lunes se sabrá qué declaraciones van a expedir.

copy p-1671

12:16 El Gral. [illegible] saluda al Lic. [illegible] y le agradece la atención que tuvo con el [illegible] de la Comisión, así como la indicación que le hizo sobre cómo resolver el problema. [illegible] dice que fué de acuerdo con la propia indicación del Lic. [illegible]. Agrega que estima mucho el honor de llamarlo, y le brinda la oportunidad de conocer el interesantísimo programa de [illegible] para la Comisión del Río Balsas. [illegible] dice que son programas del señor Presidente por el deseo que tiene de ayudar a Oaxaca y sobre todo aquella parte de la Mixteca que es una de las zonas más erosionadas que hay en el país, y de gente con mucha pobreza; y el programa se presentó por la iniciación del señor Presidente para este año. Le agradece sus frases de estímulo, lo saluda afectuosamente y se pone a sus órdenes. [illegible] replica que al contrario "soy yo quien está a las suyas, oficial y privadamente".

copy to p-1493

copy p 5420

copy p 270 5315

7331

13:02 [illegible], de Prensa Latina, dice a [illegible], de la Revista Política, que fué a hablar con [illegible], del Instituto Nacional de la Vivienda y "se trataba nada más de darme una orientación anónima sobre el voto que dio México, y no quiere él que se publique bajo su nombre, ve?". [illegible] comprende y cree que debe haber servido la información. [illegible]

12

5315 [illegible]A dice que como no. Agrega que [illegible] insistió en que quiere una colección completa de la Revista Política, pero parece que sólo hay ya encuadernada. RAQUEL va a ver éso. ANAYA pasará por las oficinas de la Revista hoy a las 16:30 hs.

1034

16:00 RAFAEL ayudante del Lic. BRAULIO MALDONADO pregunta a la imprenta Laura, sita en Fernando Alva Ixtlixochitl 145-A si el libro del Lic. MALDONADO ya ha sido empezado. El sobrino del Sr. DIAZ informa que ya y que pueden mandar a recoger una muestra para que lo lea, corrija y dé su autorización, además de que necesita le mande algo de dinero.

17:52 BUENAVENTURA REYES pide a MANOLO, del Consulado de Cuba en Veracruz que tome nota de que en comunicación num. 0361 de fecha 6 de mayo se le concedió visa de turista a AIDA MARIA QUIJANO [illegible]. Cambiando de tema BUENAVENTURA indica que irá a pasar el domingo a Veracruz pues "me hace falta ver a mi gente", por tal motivo saldrá el sábado en la noche en el autobus y regresará el domingo en la noche por avión. MANOLO toma nota de todo.

3578

18:10 El Lic. [illegible] TOLEDANO comentó con MARIA TERESA [illegible] que ayer tomó parte en una Mesa Redonda, que él en principio creyó se trataba de una conferencia solamente, pero resulta que como a las 6 de la tarde lo llamaron para recordarle que debería asistir a la Mesa Redonda. En fín así lo hizo y no obstante que en el mediodía se sintió enfermo al salir del Instituto Francés ya se sintió perfectamente. Agrega que él nunca en su vida había ido a dicho Institutot y tenía interés en ver qué clase de público asistía y grande fué su sorpresa al ver allí a SILVA HERZOG, [illegible] y [illegible] y unos cinco o seis historiadores pero afortunadamente todo salió bien.

1671

375

18:15 ARRIAGA del periódico EL DIA tiene interés en saber qué resolvió el Lic. [illegible] de concederle una entrevista. MARIA después de consultar indica que el Licenciado saldrá de la ciudad a descansar y que el lunes lo esperará a las 13:00 hs.

18:24 ADRIANA LOMBARDO pregunta a MARIA [illegible] que si el documento que hicieron esta mañana los compañeros fué revisado por "el maestro". MARIA no sabe y comunica a ADRIANA con su papá. ADRIANA pregunta que si va a ir a ver a ese señor. LOMBARDO responde que le hablaron para pedirle su opinión acerca del asunto y que él tiene la impresión de que Solidaridad está pidiéndola, pero que tal vez lo hayan mandado llamar para preguntarle cuales son sus pretensiones y le ofrezcan otra cosa. Probablemente le pregunten que extensión necesita. ADRIANA pregunta que si quiere que le mande esos datos. LOMBARDO dice

762

C. pgt. Adriana Lombardo (P-762)

que no es necesario que solamente se les dé por teléfono. ADRIANA indica que se necesitan dos salones, uno para teatro y cine y otro para conferencias, por lo menos 10 salones de clase, otro cuarto para biblioteca y lo que es indispensable es un salón para los compañeros que viene de fuera a estudiar los cursos intensivos, pues "el año pasado tuvimos en un cuarto de 3x3 a ocho compañeros". LOMBARDO toma nota de todo esto. Cambiando de tema ADRIANA informa que hoy en la mañana habló con el Lic. [illegible] y éste le dijo que no había tenido oportunidad de entregar el oficio al Lic. PALMARES, así que ADRIANA sugiere a su papá que llame directamente al Lic. PALMARES.

6081 / [illegible] Noe C. pgt.

20:33 A las 18:05 FERNANDO CARMONA preguntó a ESTELA AGUILAR por ALONSO. ESTELA informó que salió hace un momento, que iba a poner gasolina al coche y de allí iba al M.L.N. donde tenía una cita. CARMONA dice que no ha llegado al Movimiento, pues incluso no hay quien abra las oficinas. ESTELA se alarma. Posteriormente ESTELA ha estado tratando de comunicarse a las oficinas del M.L.N. sin lograrlo. A las 20:33 CARMONA vuelve a preguntar a ESTELA por ALONSO. ESTELA indica que no lo ha localizado y que él tampoco ha llamado a la casa y esto ya la está preocupando, agregando que esperará una hora más.

C. pgt. Alonso Aguilar (P-2152)

RESUMEN
sábado 11 mayo 1963. 1.

1671

LOMBARDO Toledano

copy to P-1671

03:30 FERNANDO CARMONA comenta con el Lic. AGUILAR que anoche estuvo preocupado. Este indica que se fué a tomar un café con la norteamericana con quien tuvo una cita, al café Florida [illegible]. Cambiando de tema FERNANDO pregunta que si vió el último número de Avante. AGUILAR niega. CARMONA agrega que "el ilustre Licenciado vuelve a meterse con nosotros". AGUILAR pregunta que en qué forma. CARMONA dice que negando nuevamente que el PPS esté en el M.L.N., además trae una entrevista que el Lic. LOMBARDO le cedió al Saturday Evening Post "de lo más chistosa" y CARMONA hasta ha pensado en [illegible] en su artículo. AGUILAR dice que es muy raro, pues él vió hace unos días un documento de la J.G.C.M. de Altar Son. en que manifiestan no comprender la actitud de sus dirigentes en contra del M.L.N. y hasta califican dicha actitud de anti-patriótica. CARMONA lamenta no tener dicho documento en su poder pues podría utilizarlo para atacarlos en su artículo. AGUILAR no está de acuerdo con CARMONA ya que eso sería tanto como colocar a estas gentes contra la pared y "nuestra actitud debe ser al contrario, debemos tratar de irnoslos ganando a ellos y a todos los que se pueda". CARMONA dice que entonces solo colocaría contra la pared al Lic. LOMBARDO, pero que de todas maneras le gustaría que AGUILAR revisara el próximo artículo antes de entregarlo. AGUILAR está de acuerdo y a las órdenes de CARMONA.

09:03 El tico JOSE CARLOS FERNANDEZ que trabaja en Prensa Latina, pregunta al francés [illegible] si se interesa por la suscripción del boletín diario informativo de Prela. C[illegible] manifiesta que desea además del Boletín un intercambio de noticias. FERNANDEZ comenta que el precio para las noticias es mayor cuando se trata para periódicos "además de que la agencia nuestra no está controlada por nosotros, sino la controlan de La Habana". C[illegible] dice que desea la información ya que es corresponsal de la Asociación Extranjera de Prensa y del Movimiento de Liberación Franco-canadiense. FERNANDEZ responde que podría arreglar que la tarifa del Boletín, Panorama Económico y Siglo XX sea especial. C[illegible] acepta y pide a FERNANDEZ pase a Benjamín Franklin [illegible] depto. 5 para que le entregue el cheque y que los periódicos se los envíe a la [illegible] de su esposa que está en las calles de Av. Jalisco [illegible]

(NEW)

10:20 [illegible], desde la casa del Lic. [illegible], pregunta por [illegible]. La esposa de éste informa [illegible] Sr. [illegible] pregunta que si podría [illegible] algunos trabajos (de imprenta). La señora no sabe pero [illegible] primeramente a la Imprenta. Posteriormente [illegible] logra ponerse en contacto con [illegible] y éste manifiesta que ya va para la casa de BRAULIO.

RESUMEN
sábado 11 mayo 1963 2.

10:40 RAMIREZ con acento centroamericano pregunta a VEGA de la Embajada de Cuba que si en el avión de ayer no llegó nada acerca de su visa. VEGA sin contestar a su pregunta le indica que venga a la Embajada, pero que adelante media hora a la que habían fijado. RAMIREZ allí estará.

12:10 RAQUEL necesita con urgencia para el próximo número de Política fotografías de las reuniones que ha habido en la Asociación Mexicana de periodistas en relación a la Paz y además todos los discursos de FIDEL CASTRO en Rusia. Con relación a lo primero BORGES se las proporcionará. Con respecto a lo segundo ALBERU procurará conseguírselos y en caso contrario sugiere a RAQUEL se ponga en contacto con [illegible] a su casa. Posteriormente ALBERU indica a [illegible] que ya le tiene una revista Bohemia y dos periódicos cubanos que contienen algunos de los discursos de FIDEL en Rusia, solo que se los facilitará en calidad de préstamo pues son de TERESA PROENZA. RAQUEL mandará a [illegible] por el material.

13:39 La Dra. MATILDE [illegible] CANO pregunta a ESTELA AGUILAR que si no sabe si el Dr. [illegible] es miembro del M.L.N. pues desde antier lo sacaron de su cuarto en el Hospital Colonia unos agentes de la Procuraduría y se lo llevaron, incluso del mismo hospital se han interesado mucho por su paradero pero no han sabido nada. ESTELA dice que ese nombre no le suena, pero de todas maneras lo pondrá en conocimiento de ALONSO.

7324

15:53 [illegible] MAIZ, de la Embajada Cubana, se comunica con el gachupín [illegible] y le indica que lo han destinado nuevamente aquí; que lo han ascendido y está mejor en todo sentido; que llegó ayer procedente de Cuba. Agrega que ha estado tratando de comunicarse con ANTONIO [illegible], pero no le contestan en el banco; y pregunta que si se siguen reuniendo los miércoles. [illegible] responde que sí. MAIZ irá el próximo miércoles para reunirse con los amigos.

20:34 FERNANDO CARMONA pregunta a ANGELICA ARENAL DE SIQUEIROS que cómo se encuentra DAVID. ANGELICA dice que más o menos pasándola, pues no hay ninguna cosa ni ninguna novedad por el momento. CARMONA comenta que "por cierto la semana que entra quiero ver si publicamos ese papel de que te decía; todo depende de que podamos juntar los centavos". Cambiando de tema dice que sería bueno que DAVID tuviera en la celda uno de esos aparatos inalámbricos "Walky Talky" para poder comunicarse con todos. ANGELICA pregunta que si realmente se podría. CARMONA no lo sabe bien, pero sería cosa de que ANGELICA lo consultara con un amigo que sepa; por ejemplo el hijo de [illegible] CIZABAL, que es un buen electrónico, pues a lo mejor sí se pueda. Agrega que esos aparatos tienen un radio como de 5 kiló-

David ALFARO Siqueiros
P-448

metros. ANGELICA dice que le alcanzaría hasta la casa y sería fantástico; lo malo es que estarían hablando todo el tiempo y ya no habría ni acción ni trabajo porque élla iba a estarle preguntando a cada rato que cómo se sentía. CARMONA cree que sí habría acción, pues DAVID a cada rato estaría preguntando qué pasó con el abogado; qué pasó con CARMONA; qué pasó con ALONSO, etc. ANGELICA dice que sería tremendo; pero si además le arreglaran un sistema para que DAVID "hablara con todos ustedes!". CARMONA comenta que si éso fuera posible, ya sería lo de menos. ANGELICA cambia de tema e indica que de todas maneras quisiera platicar con CARMONA la semana entrante, porque DAVID insiste en una serie de cosas, desde el punto de vista de la cosa electoral, y ANGELICA quisiera cambiar impresiones. CARMONA arguye que "nosotros tenemos una posición allí que ojalá que él entienda mejor". ANGELICA argumenta que independientemente de éso, élla cree que sí hay algo que se puede hacer. CARMONA dice que "estamos en la enésima fase de reorganización; pero es que no tiene remedio; éso hay que entenderlo; en ésto hay que armarse de paciencia; algunos compañeros pierden la paciencia, de los nuestros mismos muy buenos, como MONTAÑO por ejemplo.....yo hasta le decía: mire Doctor, cien mil veces hemos examinado estas cosas y doscientas mil más las vamos a tener que examinar si no las resolvemos bien; éso no tiene remedio". ANGELICA de todas maneras quisiera conversar con CARMONA. Este arguye que "pero estamos en pleno proceso de reorganización y espero que en dos o tres semanas se va a sentir ésto. A partir del mes que entra yo me voy a hacer cargo del periódico, con el ánimo de hacerlo muy modesto pero que salga quincenalmente". ANGELICA dice que éso será formidable, y a ver si la semana entrante se ven un ratito, pues élla le quiere plantear algunas cosas bastante interesantes. CARMONA acepta.

ALFARO 440 6a1

20:45 MANUEL TAMAYO, desde Calexico, Calif., quiere comunicarse con BRAULIO MALDONADO. CARLOTA la esposa dice que éste no se encuentra en la Capital. MANUEL dice que llegó con felicidad y llamaba a BRAULIO para ver si éste ya se comunicó con el JANIS a Casa Grande, Arizona, pues es muy urgente que así lo haga "y me escriba a mi lo más pronto que pueda para ver si le dijo al JANIS lo que yo le digo en la carta que le mande". CARLOTA dice que BRAULIO ya recibió su carta, pero que va a estar fuera de México unos 10 días. MANUEL dice que están puestos para lo que sea. CARLOTA indica que por allá ha mandado BRAULIO varia propaganda, folletos y todo éso. MANUEL dice que está bien, pues él necesita de éso. Termina deseándoles buena suerte.

21:02 Una mujer que dice llamar desde el Restaurante Jan[illegible] en Culiacán, manifiesta que [illegible] quiere hablar con BRAULIO MALDONADO. CARLOTA indica que está fuera de la ciu-

[illegible]
sábado 11 mayo 963 4

dad. La mujer pregunta que si se encuentra por ahí RAFAEL, un muchacho que viene de Culiacán a buscar a [illegible]O. CARLOTA dice que aquí a la casa no, que tal vez a la oficina, pero que allí no tienen teléfono. Asimismo le recomienda que le diga a ese señor ENRIQUE [illegible] que esté pendiente, porque el Licenciado les va a llegar por allá, pues va a recorrer muchos lugares; va hasta Sonora.

15-12-64	Soviet Embassy (Film Representative)
45-61-80	Czech Embassy
45-61-81	Czech Embassy

B. Material Processed

93 pages of daily resumes
53 reels of Czech Embassy taped conversations
120 reels of Soviet Embassy taped conversations
57 pages of Cuban Embassy transcriptions
41 pieces of miscellaneous material

There was a total of 544 reels of taped conversations recorded during the month.

C. Exploitation of Material

A sample of LIENVOY coverage was the uncovering of a harrassment operation against the Embassy by the use of forged routine forms to embarrass the Embassy and known anti-Communists. (See MEXI 4659 and HMMA-21431).

D. Security

No known security problems.

E. Technical

None

F. Production

During May, LIENVOY produced the fifty-two (52) reports listed in the attachment. The usual large amount of CI/CE personality and operational material was also obtained.

G. Liaison

Chief of Station has seen LITENSOR twice during May and these meetings were reported in MEXI-4544 dated 10 May 1963 and MEXI-4631 dated 22 May 1963.

ACT: FYI

REF: HMMA-21068, 12 April 1963

1. Returned herewith are two reels of LIENVOY coverage of the Cuban Embassy which were forwarded to Headquarters by the referenced dispatch.

2. Three conversations, including the SINOBAS/SCANTLING contact on 8 April 1963 have been excised from EC 11, 8 April, for retention at Headquarters. The conversations immediately before and after the SCANTLING contact were taken out so as not to pinpoint possible interest in that contact.

3. The Station's support in providing these documentary materials is greatly appreciated.

ACTION REQUIRED REFERENCES

FYI

1. Forwarded herewith are brief digests of Cuban Embassy calls monitored through LIENVOY during the first days of April 1963 by Thomas G. URQUHART.

2. A copy of this dispatch with attachment is being sent to COS Panama at his request because of that Station's interest in ARELLANO.

3. Owing to the occasional lack of logging, it was not always possible to ascertain the exact date a particular conversation took place. Hence, some of the summaries are attributed to a period greater than one day.

HIGHLIGHTS OF LIENVOY COVERAGE OF CUBAN EMBASSY, EARLY APRIL 1963

2 or 3 April 63

A man whose name sounds like "Specia" calls Vega, says he must see him very urgently. They will meet at 1400 or 1430.

Victor Rico Galan holds what appears to be social chatter with Sinobas. They mention a mutual friend (unnamed) and note things are getting better.

A man identified only as Horacio calls Buenaventura (Reyes). They talk about hotels and agree to meet at the Embassy at 1730.

The Bolivian Embassy calls for Sinobas about the case of a man named Arrellano or Arellano. Sinobas is out. Bolivian Embassy asks to be called back at telephone 14 08 56.

(Comment: Arrellano is of special interest to PACY)

Maria Lourdes de la Pena calls for Teresa Proenza, who is out. On a further conversation mention is made of Maria Elena (Vazquez Gomez?) and the two parties agree to meet at 2030 at some place located at the corner of Hamburgo and Genova.

Teresa Proenza calls to the fronton for Jose Luis "Azamendi" (probably a jai-alai player). He is out. She leaves a message for him that there is a letter for him at the Cuban Embassy for his daughter and he can come for it.

Vicente Rojo calls Proenza about the bulletin. An envelope was left at the Embassy gate.

Mirna Torres calles Buenaventura Reyes and they hold a sociable talk. She wants to send a package and letter (probably to Cuba) and they discuss the arrival of the plane 6 April. She says she will bring the things to the Embassy before that.

The Bolivian Embassy calls for Sinobas. He is out. (This probably has to do with the Arellano case).

Miss Gomez Sanchez calls for Sinobas, who is out.

Dr. Jaime Brana (visiting Cuban doctor) calls Hotel Carmen room 40 for someone and gets no answer. He then asks for the Cuban nurse in apt. 5, whose name is Graciela "Guty". She is also out. Brana says he wants to speak with Marta Valdez, something about the medical congress.

Brana calls Dr. Fausto Trejo, with whom he seems to have some social relationship. Trejo is out. Brana asks the woman who answers if he left a Czech notebook from KOVO firm at their home. She looks and says she does not see it there.

SECRET

Guillermo Gomez calls for Vega. Gomez is the man who left a letter this morning, which was a letter Vega asked for. Their business seems to have to do with passport and visa details. Gomez travels a lot and will call back when in town, possibly tomorrow.

A number of calls show that Heberto Jorrin, the gate man, has a local girlfriend he sees quite often and who also visits him at the Embassy. Her name is not known.

4 April 1963

Elena Vasquez Gomez and Teresa Proenza agreed to dine this evening.

Teresa Proenza spoke to someone about a passage to Cuba for one Margarita Calderon.

Celia Pascual, telephone 25 10 32, describing herself as the sister of Sara, calls Teresa Proenza. Celia says she can take some things over to "Edith" when she goes (presumably to Cuba). Someone's mother is sick.

(Comment: This could refer to Edith Buchaca, whose preoccupation with her mother has been noted in the past).

5 April 1963

Ascue in Havan calls Mariano Garcia. The connection is very poor and the Havana end is hard to understand. They mention travel approval for Rafael (?) Hernandez at telephone 35 44 35 and mention something was arranged for Eduardo Rodriguez de la Vega.

A woman identifying herself only as Socorro calls for Vega about a matter she says he already knows of. He is out.

An American or Canadian calls long distance and says he plans to leave wherever he is, probably Los Angeles, Cal., via Western Airlines, for Mexico.

Immediately after this call someone in the Embassy mentions reservations for Fred Brown from Canada.

Sinobas calls Tomas Marentes, who is out. Sinobas leaves the message that "Ramon called". (Marentes may be the former Governor of Yucatan. He has a plan to send money or passages to someone in Cuba. Sinobas is very anxious to help him and makes a lot of calls about how to do it. Marentes has told Sinobas he has a son working for Humberto Romero at the Presidencia, indicating the son is at Sinobas's disposition. How much this is a matter of mere courtesy could not be determined).

Arellano (the Bolivian deal) calls for Sinobas, who is out, and then asks for Vega. He asks Vega if there is any news, and Vega tells him to drop by on 7 April.

Miss Gomez Arias calls for Sinobas. He is out but will be right back.

One Mario or Mariano Zevada or Cobada for Sinobas. They talk about a plan the caller had to send money for passages to someone in Cuba and how the bank in Cuba has stated it is impossible.

Sinobas calls the Bolivian Ambassador about Arellano, who is going to travel from one country to another.

Dolores Gomez Arias to Sinobas (first name basis). She seems to be a journalist, says she wants to meet him to tell him some things.

6 April 1963

No conversations of salient interest noted.

7 April 1963

Largely taken up with several conversations between Jorrin and his girl-friend.

8 April 1963

Angel Hidalgo calls in for Vega, who is out. It appears Hidalgo and a couple of others are to drop by the Embassy in connection with passports and visas.

An unidentified man inside calls Cubana de Aviacion about a Canadian named Fred Brown who was around to ask about a visa. The man at Cubana says that he knows nothing of the matter.

Armona calls Fred Brown at the Hotel Agnes. He is paged in the restaurant. Armona and someone else will drop by the hotel for Brown at 1645. Brown speaks very little Spanish.

1. ON 17 APR 63, AT 1035, SCANTLING CALLED RAMON SINOBAS AND TOLD HIM THAT HE WENT EMBASSY ON 18 APR BUT SAW MANY STRANGE PEOPLE IN AREA AND WAS AFRAID ENTER. SINOBAS THEN ASKED SCANTLING GET TOGETHER WITH HIM SOME PLACE OUTSIDE EMBASSY ON 19 APR, SUGGESTING A CAFE. SCANTLING THEN TOLD SINOBAS THAT THE IMPORTANT THING WAS FOR SINOBAS TO FOLLOW THE INSTRUCTIONS IN HIS LETTER THAT HE SENT ON 7 APR 63. SINOBAS TELLS SCANTLING THAT THIS IS WHAT HE WANTS TO TALK ABOUT. SCANTLING GUARANTEES SINOBAS THAT IF HE FOLLOWS INSTRUCTIONS IT WILL BENEFIT BOTH SINOBAS AND HIM. SINOBAS THEN ASKED SCANTLING CALL HIM 20 APR AND THEY CAN AGREE ON TIME AND PLACE TO TALK. SCANTLING THEN TOLD SINOBAS THAT IF SINOBAS IS NOT IN AGREEMENT WITH THE INSTRUCTIONS HE WOULD BE OBLIGED TO GET IN TOUCH WITH ONE OF HIS SUPERIORS. IN REPLY SINOBAS SAID THAT WAS SCANTLING'S PROBLEM NOT HIS. SCANTLING CLOSED THE CONVERSATION BY SAYING HE WOULD CALL SINOBAS ON 20 APR. (LIENVOY B/2).

2. SCANTLING'S WRITTEN REPORT RE CONTACT WITH SINOBAS 17 APR SUBSTANTIALLY SAME.

45-61-81	Czech Embassy

B. Material Processed

In January, the LIENVOY LP provided the Station with 47 pages of daily resumes from all lines, 10 pages from the Cuban lines, 26 pages from the Czech lines and 57 pages from the Soviet lines. Thirty two pieces of other information were also received.

A total of 285 reels of recording tape were used during the month. (Note F, Technical).

C. Liaison

The Station continues to provide LITENSOR with situation reports on the Red Chinese-Indian border dispute.

D. Exploitation of Material.

Examples of information provided by LIENVOY were the beginnings and organization of the Central Campesina Independiente (CCI) (see MEXIs 3041 and 3053) and the contact made by a Hollywood television station with the Cuban Embassy in Mexico City in order to set up an interview with Fidel Castro. (see MEXI 3244).

E. Security

There were no known security problems.

F. Technical

The LP was inoperative from 8 January until 18 January. Workmen installing street lights in the neighborhood of the LP cut the cable leading from the telephone central to the LP in several places. Instead of replacing the damaged cable with a new one, telephone company workmen painstakingly repaired it. By the end of the month there were still seven lines out of operation.

G. Production

During January, LIENVOY produced twenty-three (23) reports listed in the attachment. In addition the usual quantity (except for the ten days lost by inoperation - see E above) of CE and biographic materials were obtained.

B. Material Processed

In December, the LIENVOY LP provided the Station with 70 pages of daily resumes from all lines, 38 pages from the Cuban lines, 30 pages from the Czech lines, and 77 pages from the Soviet lines. Fourteen pieces of other material were also received.

The LP was closed for the holidays from 21 December until 2 January.

C. Liaison

As gifts for Christmas, LIELEGANT was given a small, portable Sony television receiver by the Station. He was also given a religious statue by the employees in the LP to which the Station donated part of the cost.

Arnold F. AREHART, LP technician, gave LIELEGANT a paper weight made of plastic with United States coins showing in the center of the weight.

D. Exploitation of Material

Samples of intelligence obtained during the month was the attempt of Vicente Lombardo Toledano to arrange for the entry of a Chinese Communist trade delegation visiting in Brazil to enter Mexico (see MEXI 2839, 14 December 1962), and Japanese Embassy calls on Lombardo Toledano and Lazaro Cardenas to arrange interviews with them for a Japanese professor named (fnu) KATO (phonetic) (see MEXI 2881, 18 December 1962).

E. Security

There were no known security problems.

F. Technical

No technical problems were encountered that could not be handled.

G. Production

During December, LIENVOY produced thirty (30) reports listed in the attachment. As usual, much CI/CE personality and operational material was obtained.

45-61-81	Czech Embassy

B. Material Processed

In November, the LIENVOY LP provided the Station with 131 pages of daily resumes from all lines, 78 pages from the Cuban lines, 47 pages from the Czech lines and 110 pages from the Soviet lines. In addition, all of the Soviet and Czech tapes were turned over for the translations of the Russian and Czech conversations. Thirty pieces of miscellaneous material were also received.

C. Liaison

In addition to the PB Band reports passed to LITENSOR, the Station also passed situation reports to him on the India-Red Chinese border war. LITENSOR requested the Station to check a report which LITENSOR had received that 22 boxcars of ammunition was being shipped into Mexico from the United States. (See MEXI 2683)

On 5 November 1962 Chief of Station met with LITENSOR at the request of Ambassador MANN. LITENSOR had LITEMPO/2 sit in on the meeting. Ambassador MANN prepared a memorandum based upon a Department of State cable which The Ambassador asked Chief of Station to read to (but not to leave with) LITENSOR. When Chief of Station told LITENSOR that he was to read the telegram (which concerned GPIDEAL's statements and position on Cuba) to him, LITENSOR asked if he could dictate what Chief of Station read to him into his (new) dictaphone. This he did. Both LITENSOR and LITEMPO/2 were pleased with the strong, definite and concise position of GPIDEAL. They were also grateful that Ambassador MANN had got permission to give them this report.

D. Exploitation of Material

Samples of information obtained during the month shed some light on the private life of Carlos Lechuga, Cuban Ambassador to the United Nations, (see MEXI 2701) and the involvement of Braulio Maldonado Sandez in the uprisings in the State of Guerrero. (See MEXI 2713)

E. Security

There were no known security problems.

F. Technical

Likewise, there were not technical problems.

G. Production

During November, LIENVOY produced the eighteen (18) reports listed in the attachment. The usual large amount of CI/CE personality and operational material was obtained.

Willard C. Curtis
Willard C. CURTIS

B. Material Processed

In September, the LIENVOY LP provided the Station with 97 pages of daily resumes, 11 pages of resumes from the Cuban lines and 28 pieces of other material. There were also provided 125 pages of resumes from the Soviet lines and also 74 reels with the Russian conversations. In addition, there were 18 reels from the Czech lines.

C. Exploitation of Material

The following are examples of LIENVOY coverage:

1. A "George Sherman" contacted the Cuban Embassy about meeting with the Cuban Ambassador Carlos Lechuga. Sherman said that he knew Lechuga in Washington. (See MEXI 1925, 12 September 1962).

2. A "Gabino Fernandez", an employee of the Secretariat of the Presidency, made an appointment with Ramon Sinobas, First Secretary of the Cuban Embassy, because Fernandez wanted to speak to Sinobas before Fernandez went to Cuba for a visit. (See MEXI 1967, 18 September 1962).

D. Liaison

Briefing papers which were pouched by Headquarters according to DIR 31814 were provided to LITENSOR. LITENSOR requested a further situation report on his forthcoming trip to the Far East. He was ready to call off his trip if KUBARK felt that the world situation was gloomy. (See MEXI 1919, 11 September 1962).

E. Security

There were no security problems for the month of September.

F. Technical

None.

G. Personnel

A PRQ was forwarded to Headquarters for a POA on Guadalupe Hermosillo Quiroz in HMMA-19809.

H. Production

During the month of September, LIENVOY produced the forty-nine (49) reports listed in the attachment. The usual large amount of CI/CE personality and operational material was obtained in addition to the (attached) disseminable reports.

75/Sam/61
28Aug62

In /From Moscow/ MD calling from Moscow introduces himself to Samokhin as Kalugin. Kal says that he is in the office that prepares material for Sam to turn over to the press. Kal wants to have better contact with Sam. Kal says that Sam has to give his preferences to Kal on the kinds of articles that he wants for the press. Kal will be calling Sam to the telephone about two times a month. And then Sam can tell Kal what his preferences are in the way of articles. Secondly, Kal wants Sam to to be more observing in informing Kal what is being printed in /Mexico/. That these articles be sent to Kal. Kal says "we" see that there is considerable that is being printed /in Mexico/. But whatever Sam sends to Kal is very irregularly sent. Sam says that "we" always gave quarterly reports. Now Sam is being asked for monthly reports. /seems there part of conversation missing/ Kal says for Sam to send him a two-word cable saying when Sam wants Kal to call. Then Kal will call Sam. For instance, if Sam has anything to request, then he could send the cable. Kal asks if, for instance, Sam has any questions right now. Sam says yes, he would like Kal to send him material on the cosmonauts. Sam wants general material by specialists. Kal says that much has been sent to Sam. Sam says unfortunately, no. Not enough. Sam says it would be well if Kal could get together articles by Nikolayev and Popovich themselves. With their signature to the articles. For instance, a greeting to the Mexican reader. "And with their signature /to the article/." Kal asks if Sam wants this addressed to the reader "of our periodical?" Sam says no, simply to the Mexican reader. This can be published any periodical. Kal will do this. Sam says he wants articles on the situation of education – the middle education, the special education, and higher education. These articles to be based on specialists writing them. Not popular articles. Sam wants information of middle, higher and technical schools. "We are being asked for such material." Sam would also like articles on culture and art. Articles not about some specific art or cultural matter, but the problems in culture and art. Sam wants that more specialized articles be sent to him. Articles for the speacialized reader. Kal understands. Sam then asks when his replacement will be coming. Kal can't answer that. Kal says that he will call Sam on the 10th. Kal will try to give Sam an answer. Sam says he would like very much articles by Nikolayev and Popovich. Sam wants the photos of them also. Kal repeats that he wants very much commentary articles, Sam says this is very difficult to do for the month. "Because not so much is published." Kal asks that nevertheless everything be send for the month that is published. Kal asks Sam to send these articles by air mail. Very well. Kal says that there articlos that have to be answered. Sam asks Kal to give his regards to the comrades.

In Sokolovskaya asks Samokhin if she can come over. Yes.

Samokhin asks Yegorov if there will be any mail today. Yog says no.

For instance, if Sam has anything [illegible] to request, then he could send the cable. Kal asks if, for instance, Sam has any questions right now. Sam says yes, he would like Kal to send him material on the comments. Sam wants general material by specialists. Kal says that much has been sent to Sam. Sam says unfortunately, no. Not enough. Sam says it would be well if Kal could get/[illegible]/ together articles by Nikolayev and Popovich themselves. With their signature to the articles. For instance, a greeting to the Mexican [illegible] reader. "And with their signature /to the article/." Kal asks if Sam wants this addressed to the reader "of our periodical?" Sam says no, simply to the Mexican reader. This can be published any periodical. Kal will do this. Sam says he wants articles on the situation of education - the middle education, the special education, and higher education. These articles to be based on specialists writing them. Not popular articles. Sam wants information of middle, higher and technical schools. "We are being asked for such material." S m would also like articles on culture and art. Articles not about some specific art or cultural matter, but the problems in culture and art. Sam wants that more specialized articles be sent to him. Articles for the speacialized reader. Kal understands. Sam then asks when his replacement will be coming. Kal can't answer that. Kal says that he will call Sam on the 10th. Kal will try to give Sam an answer. Sam says he would like very much articles by Nikolayev and Popovich. Sam wants the photos of them also. Kal repeats that he wants very much commentary articles, Sam says this is very difficult to do for the month. "Because not so much is published." Kal asks that nevertheless everything be send for the month that is published. Kal asks Sam to send these articles by air mail. Very well. Kal says that there articles that have to be answered. Sam asks Kal to give his regards to the comrades.

In Sokolovskaya asks Samokhin if she can come over. Yes.

Samokhin asks Yegorov if there will be any mail today. Yeg says no.

FROM
Chief of Station, Mexico City

SUBJECT
Operational/Soviet LIENVOY Product

ACTION REQUIRED REFERENCES
Action: See paragraph 4 below

1. Transmitted herewith, for purposes of Headquarters familiarization, is a typical one day LIENVOY product of the Soviet lines. (Note that the Station has additional LIFEAT coverage on the personal lines of Colonel Aleksandr Georgiyevich SIDOROV and Svyatoslav Fedorovich KUZNETSOV, and on the office line of Vladimir Ivanovich SAMOKHIN).

2. Except for the weekend period, the Spanish language transcript reaches the Soviet case officer on the day following the actual transcription - at the most usually two days after the transcription. The Station's Russian language translator transcribes the Russian language portions immediately, and this product reaches the Soviet case officer about an hour or two after receipt of the Spanish reporting. Simultaneously, flimsy copies of the above have been given to the reports officer and to other interested Station officers. The first copy is kept in a Station chrono file, for purposes of permanent record. It is annotated for ZOHAR purposes.

3. The Soviet officer, Lucy A. Dillinger, and other officers, read the product quickly for the immediate purpose of obtaining exploitable LCIMPROVE or other operational leads, and/or reportable intelligence. After this initial scanning, the product is literally cut up, with each clipping of significant conversation sent to COS and to various Station officers for their information and/or action. Whenever pertinent, the actual LIENVOY clip is sent to Headquarters, for information or action - or a summary of the clip is sent to Headquarters in dispatch form. Each clip is eventually routed to the Station's registry where indexing and filing is completed.

4. The Station finds that this Soviet LIENVOY clipping program provides the files on the individual Soviet staffers with a rather good picture of their activities and personality. (These individual files are of course augmented with information derived from double agent operations, LIEMPTY reporting, Headquarters provided information, ODACID reporting, newspaper clippings and other miscellaneous reporting). In many cases, however, the backbone of a Station file on a Soviet may derive principally from bits and pieces of LIENVOY product.

CONTINUATION OF DISPATCH	CLASSIFICATION ~~SECRET~~	DISPATCH SYMBOL AND NO. HMMA-19729

Category station files receive the clips pertaining to Soviet commercial activities, propaganda activities, Soviet contacts, etc. Very often, a single clipping may have to be copied to be sent to the files of several individual Soviets and/or to one or more category files.

5. Unfortunately, the Station does not have sufficient personnel available to analyze and collate periodically the LIENVOY and other Station product in the individual Soviet files for transmittal to Headquarters for its information; or possibly more important, for eventual transmittal to another Station where a Soviet from Mexico City is reassigned. Headquarters attention is directed again to MEXI-9885 of 17 January 1962 and allied correspondence regarding the desirability of having a trained Headquarters TDYer work on these materials at the Station. Headquarters may now wish to reinvestigate the possibility of finding a qualified staffer for this TDY assignment.

B. Material Processed

In June, the LIENVOY LP provided the Station with 163 pages of daily resumes, 63 pages of transcript from the Cuban Embassy lines, 48 tapes from the Czech Embassy Lines, and 98 tapes and the transcriptions of the Spanish conversations from the Soviet Embassy lines. In addition, there were 29 other pieces of material from the LP.

C. Exploitation of Material

From the material processed above the following were some examples of pro- and anti-Communist information:

PAGE NO ONE

RECORD COPY

The Cuban efforts at propaganda in Mexico in which the Cuban Ambassador to Mexico conferred with Raul Roa, Cuban Foreign Minister, and suggested to him that Fidel Castro write a short message to the Mexican people in Siempre on its ninth anniversary of publication (see HMMA 19399).

The negative treatment to a Czech commercial representative by Mexican Immigration authorities (see HMMA 19158).

The refusal by the Pan American Institute of Geography and History of the Organization of American States to permit Teresa Proenza Proenza, Third Secretary and Cultural Attache at the Cuban Embassy, to attend the meeting held by it (see HMM 6438).

The embarrassment caused by the ~~immoral behavior~~ of Mexican female delegates to the Cuban 26 July celebration held in Havana in 1961 according to Manuel Marcue Parinas of the periodical Politica as told to Teresa Proenza Proenza.

D. Liaison

With the approach of the GPIDEAL visit to Mexico 29 June - 1 July, liaison activities greatly increased. COS visited LITENSOR on 28 June. LITENSOR assured that there would be no problems in the GPIDEAL visit and the safety of GPIDEAL was guaranteed and in the hands of LITENSOR. At this meeting LITENSOR indicated his annoyance with the Cubans. (See MEXI 1253).

LIELEGANT turned over to the Chief of Station a list of persons who were put under surveillance in connection with the GPIDEAL visit. The list also indicated those who were arrested. (See MEXIs 1244 and 1264).

At a meeting held on 28 May 1962, the Chief of Station, LIELEGANT, and LIENVOY/2 met with LIENVOY/1 and obtained his agreement to hire LIENVOY/14 to work under LIENVOY/3 as a technical inspector in Telefonos de Mexico. The purpose in putting LIENVOY/14 in this capacity is to have a man who would be more available to the LIENVOY Project and who "would see what others might be tapping telephones" in Telefonos de Mexico. Furthermore, LIENVOY/1 agreed to see to it that LIENVOY/14 would have "the range and authority" to do the work.

Putting LIENVOY/14 as a technical inspector within Telefonos, could create problems for the LIFEAT Project. At the same time WILSTED is restudying the LIFEAT system, improving it, tightening up the security and alerting the base houses to watch for any abnormal activity on present taps. It has been understood by the LIENVOY case officer that this has been done and it will be reported from time to time in future LIENVOY reports.

E. Security

For a report on security of the LIENVOY site for June 1962, see paragraph 2 E of HMMA-19319 (RYBAT-1397) dated 10 July 1962.

As was stated at the end of that paragraph, any surveillance or security threat of the LIENVOY basehouse or personnel can eventually be handled, should this be found necessary, by Chief of Station to LITENSOR.

F. Technical

The floor in the LP was recently covered with a linoleum which has greatly contributed to keeping the dust out of the recording machines and in excellent working condition. According to Arnold F. ARHEART, the LIENVOY technician, the machines are operating at top efficiency.

G. Personnel

The personnel remains the same as reported in the previous report.

H. Production

Production for the month of June was higher than usual. This increase was primarily due to the GPIDEAL visit. There were seventy-four (74) reports from LIENVOY material during June 1962. These are listed in the attachment.

A. HMMS 2430
B. MEXI 0346

1. As requested in reference, the station has polled all Station Case officers for possible or confirmed cases of surveillance while making operational contacts. The poll indicated five (5) cases of surveillance during recent months. For the sake of clarity and to give Headquarters an exact idea of the circumstances surrounding each incident, this report will treat each case individually with station comments pertinent to each case.

2. The five cases of possible or confirmed surveillance, related in the first person, are as follows:

A. Lewis J. SHOQUIST: 15 May 1962

"Following a meeting with Francis R. HEGARTY at the Hotel Alameda this date I noticed a Mexican standing quite close to us as we were discussing innocuous subjects just before parting. This fellow moved over and joined another Mexican who was standing at the Juarez Avenue entrance to the Alameda Hotel. I called HEGARTY's attention to these two and suggested that he leave, being very careful to check himself, while I checked these fellows to be absolutely certain they were interested in us. HEGARTY crossed Juarez and took a cab. Neither of these Mexicans showed any interest in his movements or made any type of observable signal. I walked back into the Hotel and spent about five minutes browsing at the magazine shop then left the hotel by the side entrance. As I departed I glanced toward Juarez Avenue and saw one of the same two fellows who had been at the Juarez entrance nudge the other and call his attention to me. These two fellows had moved in order to check both hotel entrances from the same spot. I walked to an arcade directly across from the hotel entrance and pretended to be looking in shop windows. I saw both Mexicans position themselves so as to observe the arcade. I made no attempt to dump the surveillance, being interested instead, in determining definitely that I was the target. As I moved out of the arcade, the two above fingered me to another pair of Mexicans who followed me as I moved through the Las Americas parking lot to Calle Independencia. For the next hour and one half to two hours I took these boys on a long tour, mostly on foot. I checked them by starting up streets then changing my mind and doubling back, following an erratic pattern as if shopping aimlessly, stopping in bookshops for periods during which they were forced to stand around somewhat obviously outside, etc. Briefly, it can be summarized by saying that there were at least five members of this team definitely on the surveillance, two others I am quite sure were involved, and one other about whom I am not absolutely sure. When, in my mind, there was no doubt whatsoever that I was the target I caught a taxi and headed toward Reforma Avenue, then to Rio Tiber St., and then toward Melchor Ocampo Street. As if changing my mind, I had the driver cut over to Sullivan St. to Shirley Courts where I went in and had lunch. During the cab ride I did not spot car surveillance but, shortly after my arrival at Shirley Courts, I saw three new men not previously on the job, whose actions indicated they were on me. I paid my bill, went into the bathroom for a minute then left through the covered garage and out into Villalongin St. in back of Shirley Courts. Once

FORM 10-57 53

SECRET RYBAT

☒ CONTINUED

PAGE NO.
ONE

out of the Courts, I walked rapidly out of sight of the exit and checked myself for the next ten minutes but could detect no further surveillance. I then walked up to Reforma, caught a cab, got out across the street from the Roble Theater, walked into the drug store at the Hotel Reforma, then out the front entrance, down to Woolworth's, through Woolworth's to the back entrance, up to Pasaje Latinoamericano, into the Pasaje where I stopped at a small counter shop to check as I made a purchase, then retraced my steps to Calle Madrid, on up to Reforma where I turned into the Reforma entrance to Sanborn's, checked for surveillance, then into the Embassy by the entrance from Sanborn's through the perfume section. There is no doubt whatsoever that these men were on me. The surveillance was not sophisticated from the standpoint of keeping me unaware, but was a very persistent one with these men not getting lost on the simpler tricks. Regardless of who is controlling these fellows, I have cancelled all operational contacts for today and will contact HEGARTY, Oliver Q. WIMPHEN and Simon D. CLACKETT tonight or early tomorrow morning to set up entirely new contact arrangements with each. I plan to make my contacts either early in the mornings or later at night in areas where surveillance can be spotted easily. I will instruct all agents to be unusually careful in checking before making any meetings, either with other agents or with me and that if there is any suspicion of surveillance skip the contact and check later at the alternate contact point in each case, if clear by the time of the alternate meeting. I called HEGARTY from a pay phone last night and set up an early morning contact with him to check on whether or not he was followed when he left the Hotel Alameda yesterday. HEGARTY said that he checked carefully but that there was no indication of interest in him. This is quite a relief since it now appears that I must have been picked up at the Embassy and that I, not HEGARTY, was the target. I cautioned HEGARTY to be even more careful than ever in his approaches to the LINLUCK safehouse and told him that, in our contacts, I was setting up entirely new contact arrangements immediately and that we would not use previous points uptown again. HEGARTY was told that we would use previously agreed upon points in the Polanco-Lomas area, that each point and time for the next meeting would be agreed upon at the previous one to avoid phone use as much as possible, and that most of our meetings would be held before 0900 hours or, when that not feasible, after dark. I suggested that he also inform LINLUCK that I had been under surveillance of some persistence and that he (LINLUCK) should be even more careful than ever in his contacts with HEGARTY, and in his approaches to the safehouse. I met WIMPHEN and CLACKETT later that same morning and made similar new contact arrangements with them and advised them of the even greater need for caution. I also advised them to park at least two to three blocks from points of contact and walk in, checking carefully before and after parking to be sure they are not surveilled and, if there is any suspicion of surveillance, do not make contact but make the alternate later if clear by them."

B. Algernon O. FORTYUNE, 16 November 1961

The abovementioned noted on the night of 16 November 1961 at approximately 2100 hours what seemed to be a suspicious situation in attempting to service the LINLUCK safehouse. As indicated on the attached diagram, the subject parked his automobile two blocks away as indicated on the diagram and approached the target by way of Panuco Street. In the approach run the subject noted a blue Fiat parked at the corner of Lerma and Hudson Streets with two male occupants. As the undersigned, on foot, approached the corner of Panuco and Hudson he noticed another Fiat parked at the very corner with three occupants. Remembering the other Fiat at the end of the block, which was quite visible from the corner of Panuco and Hudson, the undersigned decided to delay entry into the safehouse and casually walk down the block. The undersigned cut across Hudson Street to avoid walking close to the parked car and as he walked on Lerma, noticed the presence of a slow moving car behind him. This did not arouse too much suspicion since this area apparently specializes in street walkers and the local "tenorios" cruise the streets looking for them. As the undersigned reached the parked Q.P. car at the corner of Lerma and Duero the slow moving auto came abreast of the car and the driver almost stopped and stared at the undersigned as he attempted to unlock the car to depart the area. By this time the undersigned got suspicious and attempted to read the license plate, but the plate illumination bulb was out on the suspicious vehicle. The undersigned got in his own car, started down Lerma, passed the suspicious car which immediately fell in behind the undersigned. Not convinced yet of the intent of the following car, the undersigned drove toward Mississippi and made like he was continuing down on Lerma. At the last moment the undersigned swerved into Mississippi, narrowly missing getting clobbered by a vehicle coming down Mississippi. The suspicious vehicle, who was right behind, had to gun his auto to get out of the way so that he had to go straight across Lerma. The undersigned noted as he made the sudden turn into Mississippi that the other vehicle braked as soon as he passed Mississippi and, it seemed to the undersigned, was backing up toward Mississippi. At this point the undersigned poured the coal into the old Green Hornet and left the area. The undersigned then went to the Polanco Bowling Alley instead of home, bowled for approximately an hour and then returned at 2300 hours to inspect the area of action once more. The area was completely free of any parked autos. The undersigned cruised around the area for approximately 35 minutes but could not spot either one of the two Fiats.

Conclusions: (a) As previously stated, there may have been nothing to this incident, and perhaps the autos in question were merely the joy cars looking for customers, but at any rate the set-up looked suspicious therefore the undersigned did not service the safehouse in question.

(b) Douglas NISLEY reported to the undersigned that his records that a suspected Polish intelligence agent, Josef DEJ, resided at Hudson 11, two doors down from the LINLUCK safehouse. It is possible that the surveillance may have been on DEJ and that the undersigned blundered into an unpleasant situation.

(c) LINLUCK reported on 14 November 1961 that it was possible that he was under surveillance and it is possible that he was followed to the safehouse.

Francis R. HEGARTY, the regular case officer handling LINLUCK made the following comments pertinent to FORTYUNE's report of possible surveillance:

"On 22 November, HEGARTY visited safehouse at Rio Hudson to remove the typewriter and paper and inform the maid in charge that he intended to leave the apartment on the following day and also to arrange for the payment of the light bill which was due. After arranging these matters, HEGARTY left the safehouse and purposely took a circuitous route to his car, which had been parked more than a block away on another street. HEGARTY turned two corners and crossed two streets and detected an individual, Mexican in appearance, approximately six feet tall, 170 lbs., brown hair, ruddy complexion, wearing a tan suit and open sport shirt, and carrying a manila folder in his left hand, walking about 30 feet behind him. HEGARTY walked past his car and turned a third corner and walked rapidly to the middle of the block and then turned in his tracks. When HEGARTY reached the last corner he had turned he almost ran into the individual described above. The man opened his eyes wide, hesitated in mid-stride, but then kept on walking in the direction he had been going. HEGARTY walked to his car and after making sure that the individual did not turn back, immediately left the area." HEGARTY is certain that the safehouse at Rio Hudson was not under surveillance up until 10 November, the last time he visited it previously, and that the surveillance is on the house and not on himself.

Station Comment: See 2 a (Conclusions) above. In a later check of this area by HEGARTY, he could detect no surveillance either stationary or moving. SHOQUIST, however, instructed him to get a new safehouse for LINLUCK meetings immediately following his 22 November report and for neither he nor LINLUCK to go near the Rio Hudson safehouse again.

C. Andrew F. MERTON, 1 June 1962

"On 1 June 1962, while leaving a meeting with LITAU-1, I detected what could have been a possible surveillance. The meeting was in the Cafe Blanca on Juarez Avenue, between Lafragua Street and the Caballito Monument. Upon leaving the meeting, to which I had arrived "clean" to the best of my knowledge, I noted a peculiar flash of expression in the face of a tall, young, dark-haired man apparently waiting in the doorway for something. I had left the meeting first, leaving LITAU-1 to pay the check. Upon noting the expression I had a hunch that something funny might be going on. I turned right out of the door of the cafe and walked the short distance to the corner of Juarez and Reforma, doubling around the corner to the right. This left me on the north side of Reforma headed west in which direction I walked about a block. Two good-looking girls passed me headed south, and observing a good old Latin custom, I suddenly swiveled my head to watch them from the rear. I noted that my tall, dark-haired young man was behind me. As he noted that I could see him he suddenly turned right into a store which sells roof water tanks, a fairly obvious maneuver, or so it appeared. I resumed my way towards the Embassy but at a very slow pace [illegible] interest in the show windows. A few minutes later my friend passed me briskly walking towards Reforma and La Fragua, which latter street he crossed, eventually turning left and crossing the Reforma itself. I did a little counter-surveillance myself but soon lost the subject who disappeared somewhere down Avenida M Morelos. My "surveillant" was about 25 to 30 years old, dark tan skin, youthful looking, well-dressed in a dark suit and slightly nervous in his actions. While the whole matter could be coincidence, his action in dashing into the store, not just turning in as if engaged on legitimate business, made me suspect him all the more. If he were really a surveillant, he must have been on LITAU-1 rather than myself, since the Station had been alerted as to possible surveillance and I was checking myself".

D. Jeremy L. NIARCOS

Jeremy L. NIARCOS reported sometime in May, 1962 that he had spotted what definitely seemed like a one-man surveillance on him. Since he is presently on home leave the submission of a detailed report on the incident will be deferred until his return to duty.

E. Arnold F. AREHART/LIENVOY

"On Friday 15 June 1962, at approximately 0930, the concierge noticed two men standing on the corner of Tonala and Chihuahua, who seemed to have an unusual interest in the activity of the L.P. They were standing directly across the street from the L.P. One of the men was tall and thin with a mustache, well dressed and appeared to be about 30 or 35 years of age. The other was a short fat man and wore a white shirt coat of the Veracruz type and appeared to be around 50 years of age. They stood on the corner of Tonala and Chihuahua for about an hour and showed a great deal of interest in the activity of our building. Around 1030 hours the tall man left and later returned in a 1953 Fiat model 1800, with a brown body and a beige top with District Plates number 21-73-26. Both of these men then proceeded to observe our installation from the car, and from time to time appeared to be making notes on the comings and goings of the installation, as well as making notes on the cars used by the personnel of the L.P. At about 1200 hours AREHART left the L.P. to make a phone call and to see if any attempt would be made to follow any one leaving the building. No attempt was made to follow AREHART, however, his actions were observed from the car through the rear view mirror. Upon AREHART's return to the building it was noticed that the men appeared to be making notes in a small note book. Finally, around 1330 the tall man drove off in the car and the fat one took up a new position, about 50 to 100 feet down the block on Chihuahua where he could observe the front door of the LP. Around 1500 when the first shift was leaving, LIENVOY 16 left to go to lunch and was followed down Chihuahua. On spotting the surveillance he returned to the office. Just as he returned to the office LIENVOY 2 returned to the office and was told of the incident. LIENVOY 2 and LIENVOY 16 immediately approached the fat man (who had also returned to his former position), and asked him to explain his action of the day. They also asked him to identify himself. He showed them a driver's license with the name MARIANO VERA GONZALEZ. This information was checked at the Department of Traffic and found to be the license of another person. At this time it was decided to establish a stake out at the Traffic Department in order to discover and identify anyone who might show an interest in the names and addresses of the cars used by our installation. On the 16th of June, Unit "C" (Victor) informed LIENVOY 2 that around 1300 hours an old fr friend of his, Guillermo MUNEZ SANCHEZ, who was an agent of the Secret Service of the Police Headquarters, showed up and said that he was looking for a Mister CHOVO in order to obtain some information about the owner of a car with District Plates 723 (LIENVOY 2). Victor suggested that they check the files for the information. However, the information was not available. During their conversation Guillermo MUNEZ stated that he worked as a supervisor of the medical services of the Central Department and showed Victor his credentials signed by Dr. Julian GARZA TIJERINA. He also said that he had another job at the Health Department. While they were talking, another agent passed by and asked MUNEZ to give his regards to Colonel Manuel [illegible] Therefore, we suspect that Guillermo [illegible] is a member of an investigation group headed by [illegible], whose aim is [illegible] political information for Lic. ERNESTO URUCHURTU or to another [illegible], that reports political information to Dr. ALVAREZ AMEZQUITA. Since the 15th there have been no further attempts to place our [illegible] under surveillance that have been noticed. The attempted covert surveillance of the 15th was a crude operation and something we would expect to read about in a dime novel or a comic book; and certainly was not carried out by any one who had been trained in surveillance."

(Note: Any surveillance of LIENVOY basehouse or personnel can be handled, should this be found necessary, by COS to LITENSOR.)

3. Station Comments: The Station is unable to make any definitive conclusions relative to the reported surveillance incidents described above. It is not the Station's intention to minimize the seriousness of opposition surveillance attempts; nevertheless, it has not been possible to arrive at any substantive decision concerning which police or intelligence service is interested in the actions of Station Case officers. Based only on the above information, the Station, in fact, cannot be sure that Station officers are the only targets of surveillance in [illegible]. It is entirely possible that other ODACID employees have been under surveillance, but because of a lack of awareness of this investigative technique have not observed such actions. All Case Officers and operational personnel have been alerted to watch for and to report any surveillance attempts made against them. Headquarters will be advised promptly should the Station be able to derive any patterns of action pertaining to the above or any future incidents of hostile surveillance.

B. Material Processed

In May, the LIENVOY LP provided the Station with 152 pages of daily resumes, 47 tapes from three Czech lines and 93 tapes from four Soviet lines. The Spanish transcriptions of the tapes from the Soviet lines were also provided. In addition, 60 transcriptions were provided from the Cuban lines. The Station also received 22 other pieces of material from the LP.

C. Exploitation of Material

An example of the LIENVOY coverage was the long distance call from Habana indicating that a high-level functionary of the Cuban Government

CONTINUATION OF DISPATCH	CLASSIFICATION ~~SECRET~~/[redacted]	DISPATCH SYMBOL AND NO. HMMA-19233 [redacted]-1880

was ill. (See MEXI 0822, 17 May 1962).

D. Liaison

During the period under review the Chief of Station maintained regular contact with LIELEGANT and other individuals connected with the Project.

E. Security

There were no evident security problems for the month of May.

F. Technical

As usual, the equipment in the LP was checked and cleaned. However, during the month several of the lines were out of order. The Cuban Embassy was apparently still working on its telephonic system within the building. Other lines which were out of order were probably due to the inherent problems of the telephone company.

G. Personnel

There was no change in the personnel for the month and it kept the same schedule of work as reported for April.

H. Production

During May, LIENVOY produced the forty-five (45) positive intelligence reports indicated in the attachment and the usual volume of CI/CE personality and operational material.

ACTION REQUIRED For your information		

REFERENCE(S) HMM-W-10,620

1. An error was made by the person preparing HMM-A-18,752 (RYBAT-1833) or by the typist who chose the DFS list of taps (in HMM-A-18,246) instead of the correct LIENVOY list of targets.

2. The only explanation available is that with a change of Case Officers (Malcolm Q. EDELAND departed to become COS, Tegucigalpa), and with the delay in writing monthly reports on LIENVOY and lack of familiarity with the operation, the error was made--either by the drafting officer or by the typist.

3. This error will not occur again.

LIENVOY Targets

ACTION REQUIRED REFERENCES

ACTION REQUIRED: Per paragraph 3

REFERENCE : HMMA-18752, 23 March 1962 (KYBAT)

1. Referenced dispatch listed the target lines for LIENVOY for December 1961 and January 1962. Your attention is drawn to the fact that the targets listed coincide exactly with the list of IWS tape furnished in HMMA-18246 dated 1 December 1961.

2. The February 1962 LIENVOY target listing also furnished in referenced dispatch appears to be correctly labeled LIENVOY.

3. Your comments on paragraph one above are requested.

MEMORANDUM FOR: Chief, Task Force Washington

ATTENTION : John Caswell

SUBJECT : Feasibility of Effecting Release of Manuel URRUTIA, Ex-President of Cuba, Political Exile in Mexican Embassy, Havana

1. The Mexico City Station has the capability of approaching LITENSOR (Iden A) and requesting him to attempt to arrange for a safe conduct pass for Subject. The approach to LITENSOR can be made through three different channels; LITEMPO/2, (Iden B), LIELEGANT (Iden C), and LIEMGO (Iden D). Also, a direct approach by the COS to LITENSOR could probably be arranged if so desired by Headquarters for operational security reasons.

2. No assessment on the success of an approach of this type can be made because of the Mexican interest and position re Cuba.

3. If a decision is made to attempt to obtain a safe conduct pass for Subject, it is recommended that the COS Mexico City be informed in detail of Headquarters minimum and maximum goals and that he be requested to recommend the best channel to LITENSOR.

PRIORITY

1. Attached are copies of:

a. "Breviario de Cultura Economica" (Segunda Edicion-1960) written by (Marxist) Francisco BARRERA Valdes and, as can be seen on the inner first page, approved by the Textbook Commission of the Ministry of Education as the textbook in beginning economics courses in Mexican public schools.

Notes: i. This book is pure Marxism. Pages 19, 43, 44 and many others distinctly praise Marxism and condemn capitalism and capitalist countries (particularly England, the U.S.A. and France).

ii. Also attached is a copy of the work notebook for this text.

iii. This book and its Marxist contents has been called to the attention of LITENSOR, LIERGO and others by COS. To date, however, the approval of this textbook has not been withdrawn.

b. "Cuba, Despertar de America", written by (Marxist) Ramon RAMIREZ Gomez, who is one of the most important professors of economics in the School of Economics at the Universidad Nacional Autonoma de Mexico (U.N.A.M.). This book, which is pure Marxist, praises Castro's Cuba, Communist China and Marxism and condemns the U.S.A. This book was published officially by the National University of Mexico in 1961 and is used in the School of Economics there.

Note: Ramon RAMIREZ Gomez was one of the professors primarily responsible for expelling Luis Felipe COELLO Macias and Guillermo VELEZ Pelayo from the U.N.A.M. because they took part in anti-Castro, anti-Communist activities on 26 July 1961 (see HMMA-17935 and HMMA-18407).

2. Another textbook which is Marxist and which has been the subject of considerable publicity recently is "La Unidad de Trabajo y Estudio" by Clara O. CARDOUNEL, Professor at the Escuela Normal de Matanzas, Cuba, 1960. This book was one of the issues that provoked a mass demonstration against the leftist policies of Governor Eduardo LIVAS Villarreal of Nuevo Leon. (See MEXI-0842 and MEXI-0833.)

3. It will be recalled that on the evening of 31 January 1962 Thomas A. BRENT requested copies of the two (2) textbooks listed in paragraph 1. above, from COS. He wished to consider using them in presentations to (a) ODACID and (b) possibly to certain Senators and Congressmen.

REFERENCE
MEXI-9961, Para. 3

1. Attached is a copy of a long conversation obtained by LIERODE on 18 January 1962.

2. The conversation is amongst: Jose Antonio PORTUONDO Valdor, Cuban Ambassador; Berta PORTUONDO (his wife); Xiomara SANCHEZ Robert (PORTUONDO's secretary) and a Mexican visitor. The visitor pretends to be a student from the Instituto Politecnico Nacional (IPN). The two women--and later PORTUONDO--accuse the Mexican of being a provocateur; and PORTUONDO lectures him on the Cuban Embassy's policy of non-intervention in Mexico.

3. On 23 January 1962 LITALUS/2 reported the visit by one MOTA (new--five months), agent of the Direccion Federal de Seguridad (DFS). LITALUS/2 showed the case officer a copy of MOTA's report on his visit to the Cuban Embassy and his conversation there. (The DFS, according to LITALUS/2, do not believe the report!)

4. A copy of the portion of the tape with this (MOTA) conversation was played for LITEMPO/2. He found it extremely interesting and said the Cuban Ambassador "protested his innocence too much".

5. If Headquarters approves (as requested in reference) a copy of the attached will be given to LITEMPO/2 for him to "make public" as material collected by him. This and the additional materials specified in reference would, it is hoped, have sufficient impact to cause the Mexicans to break relations with Cuba.

d. MEXI-9914

1. Attached are copies of:

a. Transcript of the LIERODE tape of 24 November 1961. This is an authentic tape and transcript. The tape was sent to Headquarters with HMMA-18290; it was returned to Mexico City Station on 15 January (see DIR-35297).

b. "Transcript" of "IPN Student/Portuondo" conversation of "1 December 1961". Note: A conversation of almost this content took place on 11 December 1961 between an IPN student and Xiomara SANCHEZ Robert (Portuondo's secretary).

c. Copy of a "photograph" of Teresa PROENZA Proenza, Cultural Attache, in a student riot of 12 July 1960.

d. A copy of a "page" from a personal file on Angel BOAN, (then) Director of Prensa Latina in Mexico City. This "page" is dated 17 July 1961.

e. A brief summary on Francisco DELGADO Garcia. This is an authentic case which was handled by LITEMPO organization and this summary was promised merely as a reminder.

2. Both the tape and transcript of 1.a. have now been furnished to LITEMPO/2. This is authentic.

3. Only the "transcript" of 1.b. was given to LITEMPO/2. This, it was felt, had to be supplied because the Ambassador made a commitment concerning PORTUONDO (Cuban Ambassador) personally paying students at I.P.N., Note: The real tape was of a conversation between Xiomara SANCHEZ Robert (Portuondo's secretary) and an IPN student. No tape exists for this; and LITEMPO/2 will be told it has been erased if he requests it.

4. The "photograph" of Teresa PROENZA Proenza in the student riot of 12 July 1960 (see 1.c. -- and the attached) is a montage made by the capable Station photographer. A copy of this was given by COS to LITEMPO/2.

5. The "page" from the personal file on Angel BOAN, then Director Prensa Latina, Mexico City was put into that file by this Station at the time the file was furnished (for two hours one night) by LIFIO. A copy of this "page" (see 1.d. and attached) was given to LITEMPO/2.

FORM 53	USE PREVIOUS EDITION. REPLACES FORMS 51-28, 51-28A AND 51-29 WHICH ARE OBSOLETE.	CLASSIFICATION SECRET/RYBAT	☒ CONTINUED	PAGE NO.

6. The summary of the case of Francisco DELGADO Garcia is authentic and is a case of LITEMPO/2's organization handled.

7. Finally, LITEMPO/2 was orally reminded of the material furnished (personally) to LITEMPO/2 by Manuel VILLAFANA Martinez, Air Attache, Cuban Embassy, who defected. A tape of the interview between LITEMPO/2 and VILLAFANA Martinez was made—and the Station still has a copy.

8. The Ambassador was allowed to believe that all of the above material is authentic.

9. The Ambassador hopes that this material which now has been shown to LITENSOR by LITEMPO/2 will be helpful in convincing Mexico that they should break relations with Cuba. The Station feels that this cooperation in the effort to impress LITENSOR and LITEMPO/2 with these (which were said to be "some examples") illustrations of Cuban interference in the internal affairs of Mexico was good political action for ODYOKE and with the Chief, ODACID.

SECRET

23 January 1962

If this Headquarters and the Department of State approve, the Chief of Station plans to give to Minister of Governacion Gustavo DIAZ Ordaz:

a. A tape recording of a long conversation of one MOTA, a DFS agent, with Cuban Ambassador PORTUONDO, his secretary and Mrs. PORTUONDO. MOTA entered the Cuban Embassy on 18 January 1962, pretending to be a Politechnic student. The Cubans called MOTA a provacateur and loudly protested their innocence, saying they had not intervened in Mexican internal affairs. (The Chief of Station has played this tape for DIAZ Ordaz, who remarked, "They protest too much.")

b. A tape recording of a conversation between a group of Colombian revolutionaries and Ambassador PORTUONDO, in which the former said an armed insurrection had already begun in practice in Colombia. They said the Colombian revolution was a part of the Cuban and Mexican revolutions and asked for solidarity and collaboration of all revolutionaries. PORTUONDO said he would send their report to Habana so that Cuba would have news of the situation and know who they are.

c. A faked copy of a page from the personal file of Angel BOAN of Prensa Latina, who is now in Cuba.

SECRET

Lienvoy/ops

SECRET

25 January 1962

The following message has been received from Mexico City:

For King and Sayre from Ambassador Mann:

1. As you know, some weeks ago we became convinced that only chance of getting Mexico to break relations with Cuba would be on basis Cuban intervention Mexican internal affairs. This of course was on assumption two thirds Rio treaty vote could not be obtained at Punta Del Este.

2. With this objective in mind Dept and CAS authorized me to turn over materials described in IN 12549 to appropriate Mexican official. I chose Gustavo DIAZ Ordaz.

3. DIAZ Ordaz has informed CAS that he discussed this evidence with Lopez Mateos who expressed surprise and interest. We discount Lopez Mateos statements because as you know he has much better evidence of Cuban Embassy intervention which he keeps strictly to himself and has never told Cabinet about. The evidence we turned over to DIAZ Ordaz has psychological importance because President is now aware that DIAZ Ordaz also knows part of the story. He can never be sure that DIAZ Ordaz will not use this to support his own anti-communist convictions if a showdown between the Commies and anti-Commies should occur in Mexico.

4. DIAZ Ordaz has asked me through CAS whether I would have any objection if the information we furnished him were made public should an appropriate occasion arise in the future. He said there would be no mention of the U.S. Govt and that Gobernacion would present the evidence as collected by it.

5. I recommend that CAS and Dept authorize me to inform DIAZ Ordaz that we have no objection on the basis outlined by him. Reason for my recommendation is that on the one hand we lose little by blowing the microphone operation since battery is scheduled to expire soon in any case. We believe we are in a position where we can safely deny that we had anything to do with placing microphone. In this connection DIAZ Ordaz obviously believes our story that we picked up signal by routine dialing of different frequencies and that microphone was presumably placed by Soviets to check on their satellites. On other hand affirmative answer to DIAZ Ordaz will also implicitly suggest the possibility that the time may come when we ourselves might wish to make this information

SECRET

Lienvoy/Lopo

public. I can think of no better incentive to Lopez Mateos to break relations with Cuba than possibility Mexican public might eventually become aware of extent to which Mexico has tolerated Cuban intervention in spite of its vaunted devotion to the doctrine of non-intervention.

6. Finally I wish to say that I realise all of these maneuvers involve some risk to U.S. but I believe resurgence of Communist influence in last two months requires unusual counteraction on our part.

7. DIAZ Ordaz has returned material to CAS for safe keeping and it is now in our possession. He claims he made no copies and we believe this probably true.

FOR GALBOND AND SAYRE FROM AMBASSADOR MANN:

1. AS YOU KNOW, SOME WEEKS AGO WE BECAME CONVINCED THAT ONLY CHANCE OF GETTING MEXICO TO BREAK RELATIONS WITH CUBA WOULD BE ON BASIS CUBAN INTERVENTION MEXICAN INTERNAL AFFAIRS. THIS OF COURSE WAS ON ASSUMPTION TWO THIRDS RIO TREATY VOTE COULD NOT BE OBTAINED AT PUNTA DEL ESTE.

2. WITH THIS OBJECTIVE IN MIND DEPT AND CAS AUTHORIZED ME TO TURN OVER MATERIALS DESCRIBED IN MEXI 9855 TO APPROPRIATE MEXICAN OFFICIAL. I CHOSE GUSTAVO DIAZ ORDAZ.

IN 12549

3. DIAZ ORDAZ HAS INFORMED CAS THAT HE DISCUSSED THIS EVIDENCE WITH LOPEZ MATEOS WHO EXPRESSED SURPRISE AND INTEREST. WE DISCOUNT LOPEZ MATEOS STATEMENTS BECAUSE AS YOU KNOW HE HAS MUCH BETTER EVIDENCE OF CUBAN EMBASSY INTERVENTION WHICH HE KEEPS STRICTLY TO HIMSELF AND HAS NEVER TOLD CABINET ABOUT. THE EVIDENCE WE TURNED OVER TO DIAZ ORDAZ HAS PSYCHOLOGICAL IMPORTANCE BECAUSE PRESIDENT IS NOW AWARE THAT DIAZ ORDAZ ALSO KNOWS PART OF THE STORY. HE CAN NEVER BE SURE THAT DIAZ ORDAZ WILL NOT USE

LIENVOY

SECRET

HIS TO SUPPORT HIS OWN ANTI-COMMUNIST CONVICTIONS IF A SHOWDOWN BETWEEN THE COMMIES AND ANTI-COMMIES SHOULD OCCUR IN MEXICO.

4. DIAZ ORDAZ HAS ASKED ME THROUGH CAS WHETHER I WOULD HAVE ANY OBJECTION IF THE INFORMATION WE FURNISHED HIM WERE MADE PUBLIC SHOULD AN APPROPRIATE OCCASION ARISE IN THE FUTURE. HE SAID THERE WOULD BE NO MENTION OF THE U.S. GOVT AND THAT GOBERNACION WOULD PRESENT THE EVIDENCE AS COLLECTED BY IT.

5. I RECOMMEND THAT CAS AND DEPT AUTHORIZE ME TO INFORM DIAZ ORDAZ THAT WE HAVE NO OBJECTION ON THE BASIS OUTLINED BY HIM. REASON FOR MY RECOMMENDATION IS THAT ON THE ONE HAND WE LOSE LITTLE BY BLOWING THE MICROPHONE OPERATION SINCE BATTERY IS SCHEDULED TO EXPIRE SOON IN ANY CASE. WE BELIEVE WE ARE IN A POSITION WHERE WE CAN SAFELY DENY THAT WE HAD ANYTHING TO DO WITH PLACING MICROPHONE. IN THIS CONNECTION DIAZ ORDAZ OBVIOUSLY BELIEVES OUR STORY THAT WE PICKED UP SIGNAL BY ROUTINE DIALING OF DIFFERENT FREQUENCIES AND THAT MICROPHONE WAS PRESUMABLY PLACED BY SOVIETS TO CHECK ON THEIR SATELLITES. ON OTHER HAND AFFIRMATIVE ANSWER TO DIAZ ORDAZ WILL ALSO IMPLICITLY SUGGEST THE POSSIBILITY THAT THE TIME MAY COME WHEN WE OURSELVES MIGHT WISH TO MAKE THIS INFORMATION PUBLIC. I CAN THINK OF NO BETTER INCENTIVE TO LOPEZ MATEOS TO BREAK RELATIONS WITH CUBA THAN POSSIBILITY MEXICAN PUBLIC MIGHT EVENTUALLY BECOME AWARE OF EXTENT TO WHICH MEXICO HAS TOLERATED CUBAN INTERVENTION IN SPITE OF ITS VAUNTED DEVOTION TO THE DOCTRINE OF NON-INTERVENTION.

6. FINALLY I WISH TO SAY THAT I REALIZE ALL OF THESE MANEUVERS INVOLVE SOME RISK TO U.S. BUT I BELIEVE RESURGENCE OF COMMUNIST INFLUENCE IN LAST TWO MONTHS REQUIRES UNUSUAL COUNTERACTION ON

OUR PART.

7. DIAZ ORDAZ HAS RETURNED MATERIAL TO CAS FOR SAFE KEEPING AND IT IS NOW IN OUR POSSESSION. HE CLAIMS HE MADE NO COPIES AND WE BELIEVE THIS PROBABLY TRUE.

3 January 1962

MEMORANDUM FOR: Deputy Chief, WH Division

SUBJECT : Operations Proposed by Station Mexico City to Influence Mexico to Break Relations with Cuba.

1. In addition to the proposal advanced by Ambassador Mann to pass certain telephone tap transcripts to high Mexican officials, Station Mexico City has just forwarded the following suggested operations designed to influence the Mexican Government to break relations with Cuba prior to the OAS Conference:

A. To prepare the Mexican "version" of the paper on Cuban Subversive Activities for the Ambassador to pass to Foreign Minister TELLO.

B. To fabricate on tape a phoney conversation by the Cuban Ambassador and insert it into the joint telephone tapping operation we operate for the President.

C. To attempt to persuade a longtime Mexican employee of the Cuban Embassy to defect and make a public statement condemning Cubans for interference in Mexican affairs.

D. Should it not be possible to have the Subject above make a public defection, attempt through him to obtain incriminating documents or propaganda from the Cuban Embassy that are suitable for sensational exploitation. The Subject has claimed that the Cubans are running "indoctrination" classes for Mexican youth within the Embassy building.

E. If security considerations permit, attempt to arrange a "crash" of the automobile of the Cuban diplomat Rogelio RODRIGUEZ. The "crash" would involve a special under-car device containing weapons and propaganda examples to "prove" Cuban intervention in local labor problems.

2. In view of the highly sensitive nature of the operations proposed above and their timing (prior to 22 January) as related to the forthcoming OAS conference and the announced visit of President Kennedy to Mexico, it

SECRET

is suggested that these operations be discussed with the Department of State in detail. This may be an inopportune time for such activities, since the Mexican Government is likely to scrutinize with special care all events, whether bonfide or contrived, in the intervening period before 22 January.

15 October 1964

MEMORANDUM

24

SUBJECT: [redacted] CUBAN DEFECTOR Operation
Briefing in Guatemala of Chief of State Peralta
11

1. The briefing was held in a small luxurious government conference room on the afternoon of Friday 6 October 1964, lasting about 2 1/2 hours. Chief of State Colonel Peralta, Minister of Government Colonel Serrano and Intelligence Chief Colonel Porres attended for the Guatemalans. [redacted] TWO CIA OFFICERS WERE PRESENT

06.08.06.08.24

2. At the request of the [redacted] SENIOR CIA OFFICER I prefaced the operational briefing with a brief description of how the U.S. Intelligence community operates, of the role of CIA, of the need for compartmentation and security, and specifically of how the foregoing considerations make it imperative for the Guatemalans to adopt security precautions which will ensure that the information we provide and the joint operations we undertake are compartmented within the Guatemalan government (and, in fact, discussed by the Guatemalan government exclusively with our representatives in the field). 24

3. Following the introductory remarks outlined above, I briefed the group on the DGI structure, the DGI operational techniques, and specifically on DGI aims and operations in Guatemala. The president lent close attention throughout the briefing and examined the exhibits closely, including the DGI intelligence requirements for Guatemala 11 and the Salvadoran "Caso Zapote" file.

24

4. After the foregoing exposition, I explained our aims in exploiting the information [redacted] In this connection I asked for close cooperation and coordination of activities, promising that we shall do our utmost and making reference to our travel lists and watch list.

10JN

[redacted]

11

h. The effectiveness of his own actions against guerrillas in Guatemala and his determination to "meet violence with violence;"

i. Recognition of the importance of the information covered in the briefing and of its exploitation;

24 24

j. Reference to the case of the Mexican courier working for Cuban intelligence and now detained in Guatemala [redacted]

11

k. Acceptance of security restrictions and his decision to hold the information to those present.

7. In replying to the remarks of Colonel Peralta, 06 I said that we appreciate the cooperation of Guatemala in the 11 OAS and that we shall be most interested in the exploitation of the possibilities in the present case. I added that the matter of using force against Cuba is a policy matter on which I was not competent to comment but that the decisions made by the United States Government are based on careful study of detailed information including information on Soviet intentions and capabilities.

29 06

8. At the conclusion of the meeting, Peralta asked for a copy of the DGI requirements (which he already had gone over closely) and took the copy with him to study further.

[redacted]

[illegible]

8/18

ANOTHER 11

2. With reference to [redacted] case, because of the developments and plans in El Salvador, I explained briefly the status of the DALTON case and the possibility of his being transferred to Guatemala. 11 (This was in line with the discussion in El Salvador which included our [redacted] OFFICER [redacted], the President and the President's intelligence 24 06,08 advisor, Colonel MEDRANO.) I asked that the Guatemalan 11 government take no action unless requested by President 06 RIVERA or Colonel MEDRANO and said that, if DALTON 06 is transferred, one of our people probably would talk to 06 DALTON in Guatemala.) 11

06,08

3. The Chief of State Peralta made a rather impassioned speech in which he covered the following points:

a. His own long experience in the OAS, in Cuba and in Central America;

b. His early warnings about Castro--which were disregarded;

c. The extent to which Guatemala 11 has lived up to its obligations in the OAS; to which it has cooperated in efforts against Castro; and to which it has looked toward U.S. leadership;

d. The failure of the U.S. to take aggressive action against Cuba and the need for taking a hard line, including the use of force in support of military activity by the free Cubans and the other American countries;

e. His appreciation that the Soviets will not be willing to risk a nuclear war over Cuba;

f. Condemnation of Mexico for her dealings with Cuba, for failure to abide by her obligations in the OAS, and for permitting the Castroites to operate out of Mexico against other American countries;

g. The need for action against Mexico;

CIA OFFICER — CUBAN TARGET
1. MEETING [redacted] AND [redacted] AT HOTEL SAFESITE LASTED 1015 TO 1440 HOURS 27 SEPTEMBER. [redacted]

24 [CHIEF INTEL SERVICE] — [LIAISON] 24
SO FAR NEITHER [redacted] NOR [redacted] AWARE OF THIS OR REF MEETINGS.

[Chief INTel service — 24 — Cuban Target — CIA
[redacted] AND PRESIDENT] KNOW [redacted] IS [redacted] TARGET AND, AS HQS AWARE, HAVE COOPERATED IN PREVIOUS ATTEMPTS TO CONTACT HIM AND OTHERS

CUBAN DEFECTOR — CUBAN TARGET
INVOLVED IN EXPLOITING [redacted] LEADS. IN ADDITION [redacted] HAS BEEN

24 (LIAISON — [INTel Service]24
CONTINUING TARGET FOR [redacted] AND [redacted] FOR LONG PERIOD AND LIKELY TO

N — 24 [LIAISON] — [INTEL SERVICE]24
REMAIN SO. HENCE THERE IS HIGH RISK [redacted] AND [redacted] COULD DISCOVER

CIA
[redacted] CONTACT IN FUTURE HANDLING. IN VIEW OF FREE HAND GIVEN

CIA — 24 — [INTEL Service]24
[redacted] IN THESE OPS BY [PRESIDENT] AND [redacted], SUCH DISCOVERY COULD DAMAGE

CIA — US. GOVT — O
[redacted] AND ALL [redacted] RELATIONS. FOR FOREGOING REASONS, ALTHOUGH

CIA officer — CIA Officer — Cuban Target
[redacted] AND [redacted] MUCH DESIRE TO MAINTAIN THIS [redacted] OP UNILATERALLY,

[Chief INTel Service]24 — 24
THEY DEEM IT PRUDENT TO INFORM [redacted] AND [PRESIDENT] REQUESTING THEY MAKE NO RECORD OF RECRUITMENT AND SIMPLY ACCEPT FUTURE REPORTS AS COMING FROM TRUSTWORTHY SENSITIVE SOURCE, LEAVING MANAGEMENT TO

CIA
[redacted]

Cuban Target
2. IN LONG INTERVIEW [redacted] GAVE CONSIDERABLE AMOUNT OF INFO ON PCES ACTIVITIES AND HIS RELATIONS WITH OTHER COMMIE PARTIES AND

SECRET

rl/PV

CUBA [redacted] HIS INFO SEEMS SUBSTANTIALLY TRUE ALTHOUGH HE HAS WITHHELD OTHER INFO. UNDERSTANDABLY HE IS CONCERNED ABOUT ENTRAPMENT, CIA [redacted] COMPLIANCE WITH AGREEMENT TO REMUNERATE HIM, SECURITY LEAK LOCALLY WHICH HE FEARS COULD RESULT HIS DEATH. HE INDICATES WILLINGNESS CONTINUE IN PARTY ACTIVITIES [redacted], ATTEND CONFERENCES, STRENGTHEN CONTACTS WITH OTHER COMMIE PARTIES, STRIVE GAIN HIGH PARTY POSTS, BE ALERT FOR INTEL ON GUERRILLA WARFARE AND CUBAN [redacted] ACTIVITIES.

3. INFO FROM Cuban Target [redacted] INCLUDES FOLL:

A. HE ARRANGED MOSCOW TRAVEL RECENTLY (SEE SALV 5248) (IN 72[illegible]) FOR FOUR SALVS, LETTING THEIR PARENT GROUPS MAKE SELECTIONS. [redacted] RO[redacted]

B. HE BELIEVES PCES CENTRAL COMMITTEE INCLUDES SHAFICK HANDAL, JORGE ARIAS GOMEZ, RAUL CASTELLANOS FIGUEROA BUT SAYS HANDAL IS ONLY ONE WHOM HE KNOWS ON PCES EXECUTIVE COMMITTEE.

C. PARTY PSEUDOS FOR SELF, HANDAL AND CASTELLANOS RESPECTIVELY ARE [redacted]. HOWEVER HANDAL PSEUDO NOW CHANGED TO ANOTHER WHICH COULD NOT RECALL.

D. HE [redacted] TRAINED BY CUBAN [redacted] INTEL; HE HAD GW TRAINING ALSO.

E. PCES HAS ESTIMATED 600 MEMBERS, ALTHOUGH THIS HIS GUESS RATHER THAN HARD INFO. WELL ORGANIZED IN SAN SALV BUT WEAK IN COUNTRY ORGANIZATION DESPITE MANY CAMPESINO MEMBERS.

F. FUAR PRACTICALLY INACTIVE.

G. PCES HAS SUPPORTERS FOR CHICOM LINE AS WELL AS SOV LINE BUT DIFFERENCES HAVE NOT CAUSED SPLIT. LEADERS FAVOR SOV LINE.

H. ROQUE DALTON NOT MEMBER OF PCES NOW BUT PCES AND STUDENTS ARE CONCERNED ABOUT HIS DISAPPEARANCE. THEY ARE TRYING EXERT PRESSURE ON GOVT THROUGH DEPUTIES, WOULD BE WILLING ACCEPT HIS EXPULSION FROM COUNTRY RATHER THAN HAVE HIM LANGUISH IN SOME LOCAL JAIL. GOVT HAS NOT SAID ANYTHING ABOUT DALTON ARREST OR LOCATION.

[redacted]

24

4. IN LINE PARA I REASONING BELIEVE BEST TO INFORM [redacted] (CHIEF INTEL SERVICE) MEETING WITH HIM SCHEDULED 0900 HOURS LOCAL TIME 28 SEPTEMBER. REQUEST HQS VIEWS BY 0830 HOURS.

5. NEXT CUBAN TARGET [redacted] MEETING 1000 HOURS 29 SEPTEMBER. NEXT DALTON [redacted] MEETING MORNING 28 SEPTEMBER AFTER (INTEL SERVICE) 24 [redacted] MEETING.

B. DIR 53380

1. CIA OFFICER [redacted] AND CUBAN DEFECTOR [redacted], ONCE EACH ALONE AND ONCE TOGETHER SAW DALTON [redacted] MORNING 30 SEPTEMBER. DALTON [redacted] TOOK SAME POSITION AS PARA 2 REF A. DENIED KNOWING [redacted] CUBAN DEFECTOR DESPITE CASE OFFICER RELATIONSHIP, REFUSED DISCUSS ANYTHING ABOUT CUBAN INTEL, AND BEGGED FOR RELEASE AND EXILE TO START LIFE ANEW.

2. OBTAINING TRUTH FROM DALTON [redacted] WILL BE TIME CONSUMING. HE FULLY AWARE PROOFS AGAINST HIM BUT PROBABLY HOPES POLITICAL PRESSURE WILL FORCE RELEASE AND PROBABLY FEARS ADMISSION OF HIS COMPLICITY WILL NOT HELP HIM. SALV GOVT MUST CONVINCE HIM HE WRONG ON BOTH COUNTS. HE OF DUBIOUS VALUE INSOFAR AS CONTRIBUTING NEW INFO ABOUT PAST ACTIVITIES OF CUBAN INTEL OR PCES BUT OF CONSIDERABLE INTEREST AS AGENT IF HE CAN BE TARGETTED AGAINST CUBAN INTEL OR PCES. IF RELEASED WOULD BE DEFINITE OBSTACLE TO FURTHER OPS AGAINST CUBAN DEFECTOR [redacted] TARGETS. IF HE SHOULD BE DOUBLED, HIS IMPRISONMENT WOULD COVER RECRUITMENT AND WOULD TEND TO ENHANCE HIS VALUE. PROBABLY WOULD BE MOST USEFUL OUTSIDE SALV INCLUDING MEXI AND CUBA.

SECRET

3. AS MATTERS STAND MOST IMPORTANT TO PROTECT CIA [redacted] EQUITY IN Cuban Target [redacted] OP OF GREAT PROMISE. THIS OP COULD BE AFFECTED ADVERSELY BY SPREAD OF NEWS ABOUT Cuban Defector [redacted] EFFORTS ON BEHALF OF CIA [redacted] TO EFFECT RECRUITMENTS. BECAUSE OF VALUE OF Cuban Target [redacted] PREFER FOR PRESENT NOT TO PROCEED AGAINST OTHERS WHO RECEIVED INTEL TRAINING. AFTER Cuban Target [redacted] IS PRODUCING AND AFTER PRUDENT INTERVAL CIA [redacted] CAN PROCEED WITH RECRUITMENT EFFORTS AGAINST OTHERS [EITHER UNILATERALLY OR WITH LIAISON] 24 DEPENDING ON DEVELOPMENTS.

4. PROCEEDING WITH ARREST OF GUERRILLEROS TRAINED IN CUBA PROBABLY WOULD BE BENEFICIAL AS LONG AS NOT ATTRIBUTED TO CUBAN DEFECTOR [redacted]. [redacted], SOME OF THOSE DETAINED MIGHT BE DOUBLED AND TARGETTED AGAINST GUERRILLA GROUPS OR PCES.

5. APPRECIATE REF B TO WHICH WILL REPLY AFTER DISCUSSING FURTHER PROSPECTS AND GOVT INTENTIONS WITH [redacted] [LIAISON AND POSSIBLY PRESIDENT.] 24

INFO.

FROM
Chief of Station, Mexico City

SUBJECT
Technical Surveillance Soviet/Satellite Agents

ACTION REQUIRED · REFERENCES
HMMW-10893

1. Station fully agrees with Headquarters concerning the value of concentrating LIFEAT or LIENVOY coverage on suspected and/or known Soviet, Satellite and Cuban agents residing in Mexico City. The Station in the past has undertaken this type coverage and will continue such coverage in the future as LIFEAT and LIENVOY facilities become available for assignment to these targets. As Headquarters is aware, this Station can and will cover any possible target Headquarters considers of high enough priority to cover.

2. For example, Carmen BRUFAU Civit was covered for 1956, 1957, 1960 and 1961; the results were not considered of sufficient value to continue the coverage.

3. Presently, Elena VASQUEZ Gomez, one of the persons referred to in reference, works for General Lazaro CARDENAS del Rio, pro-Communist former President of Mexico. Coverage of CARDENAS by LIENVOY means a certain amount of coverage of VASQUEZ Gomez.

INFO:

FROM: Chief, WH Division

SUBJECT: LIFEAT Project Renewal

ACTION REQUIRED REFERENCES

ACTION REQUIRED: For Your Information

REFERENCE : HMMA-19129, 1 June 1962

1. Project LIFEAT has been renewed for the period of 1 July 1962 through 30 June 1963 in the amount of $99,000.00.

2. Please note that this means a cut of $3,193.00 from the Station's original request for $102,193.00 to $99,000.00. WHD was allocated $99,000.00 for this Project for FY 63.

3. This reduction was made by reducing "Miscellaneous Op Expenses" from $4,000.00 to $807.00.

4. KUTUBE and KUDESK Staffs concurred in recommending renewal. KUDESK reiterated that the facilities of this Project could and should be used for the coverage of known or highly suspected agents of the Soviet/Satellite and Cuban intelligence services in Mexico. KUDESK notes that some twenty of these agents have been documented in detailed target studies which were forwarded to the Station.

MEMORANDUM FOR: Assistant Deputy Director, Plans

SUBJECT : Project LIFEAT (Renewal)
WH - Mexico City

1. The attached project, originating in WH Division, is presented for renewal for the period 1 July 1962 through 30 June 1963. The project supports a unilateral telephone tap operation which provides daily information on the activities of official foreign installations in Mexico City and personnel thereof, as well as coverage of the activities of selected individuals and groups.

2. Authority is requested to obligate $90,000 from the DD/P-WH Division budget in fiscal year 1963, subject to the availability of funds. Of this amount $18,807 is estimated for administrative salaries; $43,415 for field agent salaries; $20,928 for basehouse rentals; $15,000 for equipment; $2,100 for local transportation; and $500 for miscellaneous operational expenses.

3. The Field Project Outline and review which are forwarded by the Division with a covering memorandum, give a clear description of the project activity and accomplishments. The project has been in continuous operation since 1951, starting with a single tap against the Soviet Legation in Mexico City and now covering as many as thirty lines in a given month. The project is staffed by an "outside" case officer (Career Agent David M. WILSTED (p) of Project LIMOG), four contract agents who do administrative work, and twenty-one field agents including monitors and linemen. During the past year the project provided coverage of the home phones of three Soviet Intelligence officers, the Polish Embassy, the Yugoslav Embassy, major firms dealing in the transshipment of U.S. goods to Cuba, American Communists in Mexico, and exile and revolutionary groups in Mexico. CI information was obtained and additional security was provided Station operations. Although coverage of the official Soviet and Czech installations became a joint operation with the Mexican Government in LIENVOY, Project LIFEAT remains available to resume coverage of these installations should a change in the local government or its attitude to CIA participation necessitate such change.

~~SECRET~~

~~SECRET~~

For the future, the Station has hopes of employing LIFEAT assets in "hot mike" operations which will require access to telephone centrals and cables. It is the opinion of the Station that the support provided the Station operations, the CI/CE information, and the ability to cover sensitive targets without revealing our interest to liaison services justifies the expenditure of funds, time, and personnel under this project. The overall performance of all agents in the complex continued to be good; no security problems were encountered which were not solved by the personnel involved.

4. Appropriate Special Staff components recommend renewal. The FI Staff notes that the project continues to be a most useful operational asset of the Station and in addition has produced thirty-seven positive intelligence disseminations, six of which were of particular interest concerning the illegal transshipment of goods to Cuba. FI/D comments that one item of direct interest to FI/D was received from Project LIFEAT and that the technical coverage of the diplomatic installations would afford valuable assistance to the planning and conduct of any FI/D endeavor to mount operations. The CI Staff reiterates that the facilities of this project could and should be used for the coverage of known or highly suspected agents of the Soviet/Satellite/and Cuban Intelligence services in Mexico. CI notes that some twenty of these agents have been documented in detailed target studies which were forwarded to the Station.

5. I recommend renewal of Project LIFEAT and invite the Division's attention to the recommendations of CI Staff in paragraph 4 above.

MEMORANDUM FOR: Assistant Deputy Director (Plans)

THROUGH: DDP/PG

SUBJECT: Project LIFEAT Renewal

FI Staff recommends renewal of Project LIFEAT. This unilateral audio effort continues to be a most useful operational asset of the station as indicated by the specific examples furnished in the renewal request. In addition, it produced 37 positive intelligence disseminations, six of which were of particular interest concerning illegal transhipment of U.S. goods to Cuba.

Project LIFEAT WH/Mexico

(Audio Operation)

1. FI/INT files contain 37 positive information disseminations attributed wholly or in part to Project LIFEAT during the year 1 July 1961 through June 1962. They were concerned principally with contacts between Mexican Communists or leftists and Cubans or individuals of the Soviet Bloc, and with the travel of Latin Americans to the Soviet Bloc and Cuba. Six reports of particular interest consisted of information on Transcontinental S.A., a company allegedly engaged in the illegal transshipment of US goods to Cuba. Other reports of significance dealt with the contacts and activities of former Guatemalan President Juan Jose AREVALO Barmeja, now living in Mexico. There was reporting on Nicaraguan and Spanish exile activity in Mexico and on the revolutionary sentiment and expectations of other Latin American nationals.

2. LIFEAT has provided positive intelligence of value and of relevance to customer requirements and to objectives of the PNIO. It has been pointed out in the renewal request that the production of positive information is incidental to the projects primary function as a support and CI/CE operation.

3. RENEWAL IS RECOMMENDED.

LIFEAT Project Renewal Request

1. It is requested that the attached LIFEAT Renewal Request be approved for the period of 1 July 1962 through 30 June 1963 in the amount of $99,000.00, all of which falls within FY 1963. $99,000.00 was programmed for FY 1963 in the WHD allocation.

2. This Project provides the Mexico City Station with a unilateral telephone tap operation which has been in existence for the past 11 years.

3. While the primary object of this Project is not the production of positive intelligence, it was in whole or in part the source of 30 positive information disseminations. In addition to this production and support of other Station operations, it provides ODENVY with information concerning the American Communist Group in Mexico.

4. Emergency recontact instructions have not been established for the agents of this Project since it is believed the operation would cease in case a situation should arise where they would be applicable.

5. No training programs for any LIFEAT personnel are anticipated during the renewal period.

6. WH Division recommends renewal of the LIFEAT Project based on the attached field request. WH Division has cut the field request from $102,193.00 to $99,000.00.

PROJECT LIFEAT

PROJECT REVIEW

I. Product of the Project

A. Soviet Coverage

As noted in last year's Project LIFEAT renewal request, LIFEAT coverage of the official Soviet installation was discontinued on 22 June 1960 when the parallel liaison project LIENVOY assumed coverage of this target. In early January 1962 LIFEAT undertook coverage of the home phones of three of the most active Soviet Intelligence officers. This was in response to the continuing Station CI program which includes the monitoring of Soviet contacts, and the guidance received from KUDESK Staff at the time of the last LIFEAT renewal. As of this date, this coverage has not been active for sufficient time to fully evaluate its usefulness. However, it is believed that such coverage has the potential to add materially to the Station's effort in the CI field. Although not designed to provide positive intelligence, some by-product of this type has been obtained. Samples are as follows:

HMM-6364, 8 May 1962 (Briefing of Mexican Pro-Marxist Journalist by Soviet Embassy)
HMM-6382, 15 May 1962 (Mexican Traveller to the USSR)
HMM-6376, 11 May 1962 (Refutation of Rumors that Soviet Cosmonaut TITOV will visit Mexico)

B. Polish Embassy

LIFEAT has remained the primary source of information on this target and the only successful, continuing penetration of the target. The information provided to the interested Case Officer has in the past been described as "unique" and "invaluable". This description holds with equal emphasis for the present as well as the past. Selective examples of the valuable positive intelligence product of this coverage are:

HMMA-17448, 28 July 1961 (Henryk POTASZ)
HMMA-17647, (LIFEAT/LAURICLE), 25 August 1961
HMMA-17694, 1 September 1961 (Irena Halina ZORAWSKA)
HMMA-17876, 29 September 1961 (Movement of Polish Nationals)

- HMM-5894, 14 September 1961 (Trade Between Mexico and Poland)
- HMM-5921, 26 September 1961 (Polish Plans to Buy Zinc from Mexico)

C. Cuban Coverage

LIFEAT was able to provide coverage of major firms dealing in U.S. goods transshipment via Mexico to Cuba. This technical operation not only provided initial leads which alerted the Station to these companies, but also was able to provide continuing information on the daily activities of the companies involved. Coverage of certain Cuban personages arranging for illegal transshipment of U.S. goods to Cuba was also provided including their contacts and general activities. Samples of the positive intelligence production from this Cuban commercial coverage are as follows:

- HMMA-18073, 31 October 1961 (Ruben SAUREZ Y Alvarez, Representative in Mexico of the Cuban Bank of Foreign Commerce)
- HMMA-18538, 2 February 1962 (Cuban Commercial Activities)
- HMM-5883, 26 September 1961 (Cuban Commercial Activities)
- HMM-5915, 22 September 1961 (Transcontinental, S.A.)
- HMM-6012, 14 November 1961 (Mexican Firm Shipping U.S. Goods to Cuba)
- HMM-6220, 27 February 1962 (Lorenzo L. SAUNDERS, Vice President of Transcontinental, S.A.)

D. American Communists in Mexico

As in the past, most of the targets in this group have been covered at the request of ODENVY, and the raw take has been partially processed by them. During the period July 1961 through May 1962, approximately 680 reels of take were passed to local ODENVY for their processing. The most valuable information gleaned from the targets in this field continues to deal with contacts, travel, and general activities of the American Communist Group in Mexico (ACGM).

[redacted]

[redacted]

[redacted]

Typical examples of the reporting based on LIFEAT coverage of the ACGM are:

HMMA-17318, 3 July 1961 (Albert MALTZ)
HMMA-17388, 14 July 1961 (Enos Regnet WICHER, Maria WICHER)
HMMA-17389, 14 July 1961 (Carl SEBORER)
HMMA-17419, 21 July 1961 (Clarina OVERGAARD, Anders OVERGAARD)
HMMA-17455, 25 July 1961 (Dalton TRUMBO, Cleo TRUMBO)
HMMA-17611, 18 August 1961 (Noah SEBORER/Albert MALTZ/ Charles SMALL)
HMMA-17760, 12 September 1961 (Maurice ZEITLIN)
HMMA-17806, 19 September 1961 (Albert MALTZ)
HMMA-17855, 26 September 1961 (U.S. Citizens Travel to Cuba)
HMMA-17860, 29 September 1961 (Albert MALTZ)
HMMA-18097, 3 November 1961 (Charles SMALL)
HMMA-18492, 23 January 1962 (Albert MALTZ/Noah SEBORER/ Charles SMALL)
HMMA-18827, 10 April 1962 (Albert MALTZ/Noah SEBORER/ Charles SMALL)

E. Exile and Revolutionary Activities

LIFEAT continues to provide information on the exile and revolutionary groups active in Mexico, which information is of the greatest value to the Station and not available from other sources. The emphasis of the LIFEAT effort in this area has been directed toward coverage of Nicaraguan, Guatemalan, and more recently Spanish Republican exiles. The product has been most rewarding in this coverage. Examples of productivity in this past project year:

HMMA-17489, 4 August 1961 (Alejandro GALINDO)
HMMA-18420, 5 January 1962 (Teodora MARTEN Rodriguez)
HMMA-18468, 16 January 1962 (Travel of Salvadorans to Cuba)
HMM-5920, 26 September 1961 (Activities of Nicaraguan Exiles in Mexico)
HMM-6142, 18 January 1962 (Plans of Guatemalan Army Officers to Attempt Coup)
HMM-6191, 17 February 1962 (Guatemalan Revolutionary Activity)
HMM-6230, 2 March 1962 (Contacts of Juan Jose AREVALO Bermejo in Mexico City)
HMM-6292, 2 April 1962 (Return to El Salvador of Colonel Oscar OSORIO)
HMM-6311, 13 April 1962 (Contacts of Juan Jose AREVALO Bermejo)

[redacted]

[redacted] [redacted]

HMM-6344, 1 May 1962 (Activities of Spanish Republicans in Exile)
HMM-6349, 4 May 1962 (Views of Juan Jose AREVALO on Peruvian Presidential Candidate)
HMM-6359, 4 May 1962 (Contact Between Claudio SANCHEZ de Albornoz, President of the Council of Spanish Republic, and Juan Simeon VIDARTE, Spanish Exile in Mexico)
HMM-6379, 11 May 1962 (Opinion of Spanish Republican Exiles on Current Strikes in Spain)

F. Counter-Intelligence Information

By its latest Related Mission Directive, Mexico City Station's major responsibilities continue to lie in the field of CI/CE matters. LIFEAT was able to provide a valuable contribution in the attainment of the Station's objectives in this field. Coverage included that on Carlos Humberto ILLESCAS, who is acting in a covert liaison capacity between the CP and the Soviet Embassy in Mexico City. Besides the continuing operational support in the CI/CE field, the following informational reporting was provided:

HMM-5742, 7 July 1961 (Travel of Mexican Leftists Behind Iron Curtain)
HMM-5836, 18 August 1961 (Activities of Mexican Student of the University of Peoples' Friendship)
HMM-5977, 24 October 1961 (Interview of Prominent Marxist with Polish Conselor)
HMM-6322, 20 April 1962 (Contacts between Carlos FUENTES Macias, Mexican Communist Writer, and Polish Diplomats)
HMM-6337, 27 April 1962 (Activities of Ernesto AYALA Mercado, Bolivian Ambassador to Mexico)
HMM-6377, 11 May 1962 (Scholarship for Study in Warsaw to Jorge TAMAYO, Jr., Mexican Marxist Intellectual)

G. Operational Support and Leads Provided other Station Operations

During the past project year LIFEAT continued actively supporting Mexico City Station through production of leads unobtainable through other assets and generally providing other Station operations the secure support only available through a unilateral telephone tap operation. The following is a selected list, together with a brief description, of major contributions of operational support and leads provided through LIFEAT:

[redacted]

LIFEAT/Cuban: The most noteworthy LIFEAT contribution to Station efforts in the Cuban operations field was that of providing leads pinpointing the activities of Transcontinental, S.A. in the illegal transshipment of U.S. materials to Cuba via Mexico. LIFEAT was able to continue coverage of the activities of this company despite the efforts of the company to lose itself in the Mexican business community by changing the name it operated under to Inversiones Mexicanas, S.A. and changing its location and telephone number. Valuable information on the commercial commodities needed by the Castro regime, methods and contacts used in their procurement, and information on the contacts of the Cuban Embassy in Mexico were obtained.

LIFEAT/Czechoslovakian: LIFEAT coverage of the home phones of two Czech intelligence officers provided some leads to their contacts, but more importantly, provided greater security to KUBARK when one of their CIS officers, Miloslav CECH, was singled out for a defection attempt. Through LIFEAT "livemonitoring" of both the original and followup defection attempts, the KUBARK assets were provided maximum protection from possible attempts by CECH to alert his coworkers or arrange entrapment of the KUBARK personnel involved.

LIFEAT/Polish: Probably the most "classic" example of the use of a telephone tap in providing a lead which could develop into a vital penetration of the Polish intelligence occurred recently in the BEKNAVE/BECHICK operation. LIFEAT provided the initial leads which made the Station aware of the possibilities of an operation and has continued to provide vital information for Station's development of the operation. It is the Station's opinion that this one instance of service by LIFEAT was well worth the cost of the entire project for the year. (Full information forwarded in MEXI 0462 and MEXI 0463). Also of great interest to the Station were the LIFEAT provided leads which revealed Jan SLUSARZ, Attache of the Polish Embassy in Mexico, had purchased an automobile which had been stolen in the U.S. and driven to Mexico. In this operation, in which a defection attempt was considered, LIFEAT provided not only the initial leads, but also daily operational information vital to the Station's efforts in this case.

LIFEAT/Yugoslavian: In this coverage of the Yugoslavian Embassy LIFEAT is providing the basic data necessary in establishing operations against this target. Since the Station is expanding its coverage of Yugoslavian activities, much vital data on personalities, contacts, and services obtained by the target establishment must be provided. It is this exact type of coverage that LIFEAT is geared to provide in addition to the operational leads which will be forthcoming as this coverage progresses. The interested case officer, noting LIFEAT is his only present source of information, feels the take which LIFEAT provides and will

[redacted]

continue to provide in this area is vital and basic to the mounting of any operations against the Yugoslav target.

LIFEAT/Soviet/Double Agent: LIFEAT support has provided needed supporting information in backing Station double agent operations. In this area the success of the operation is obviously dependent upon the veracity of the agent. LIFEAT provides information which enables the interested case officer to determine the veracity of the agent involved. LIFEAT also provides a needed check upon the activities of the double agent.

LIFEAT/Spanish Republican: LIFEAT coverage of Spanish Republican exiles in Mexico City have enabled the Station to monitor the activities of the various groupings of the exiles, including the projected attempt on the life of the senior ODACID official in Mexico. LIFEAT has covered personalities of exile factions both involved in planning this attempt and those opposed to it. Coverage of targets in this area also enables the Station to keep abreast of the plans and activities of the various groups which make up the Spanish Republican exile community in Mexico City.

LIFEAT/CI-CE Coverage: LIFEAT leads in this area are exploited in the reporting of travel of important Communists, particularly to Cuba and Iron Curtain countries, and the travel of U.S. citizens, especially Communists and Leftists, to Cuba. Through coverage of the American Communist Group in Mexico (ACGM) LIFEAT has provided ODENVY with an increasing amount of information on the leftist activities of relatives and friends of the ACGM who reside in the U.S. One of the noteable items in this regard is providing data on the overt and covert efforts of the blacklisted "Hollywood Ten" to regain their former status in the U.S. film industry.

Finally, and certainly not of least importance, Station security has been enhanced through LIFEAT periodic coverage of former Station assets, like LIVESTOCK-1 and LIVESTOCK-2, who could be a danger to particular Station operations or personnel. Monitoring of certain terminated agents is considered especially valuable where these agents were involved in the more sensitive operations.

H. Conclusion

It is the opinion of the Mexico City Station that the support provided other Station operations, the CI/CE information and leads, and the ability of the unilateral LIFEAT operation to cover sensitive targets without revealing Station interest

[redacted]

[redacted]

to the liaison forces, well justify the expenditure of funds, time, personnel, and security risk. As it has been noted in the past, that even with the Station's envolvement in the parallel, but liaison, LIENVOY operation, a change in attitude by the present local government administration or a change in government administrations could end KUBARK participation in that liaison project. For that reason, LIFEAT, in addition to maintaining its present heavy coverage, must be available to once again undertake coverage of the official Soviet and Czech official targets in Mexico City. Therefore, LIFEAT's present orientation, though toward supporting Station operations and CI/CE mission rather than toward targets which would provide positive intelligence, leaves it readily available for recall into the Soviet-Czech coverage. It is the Station's firm opinion that the LIFEAT project provides a substantial and vital contribution in fulfilling the several priority objectives of the Station's Related Mission Directive.

I. There is attached a list of the HMMs produced from LIFEAT provided material during the period July 1961 through May 1962 as a by-product of the project's prime responsibility of providing support to Station operations.

II. Progress of the Operation

The objectives of the LIFEAT Project are of a continuing nature and are therefore not considered for fulfillment during any given period of time. For this reason percentage figures as to completion of project objectives cannot be drawn. However, an indication of the coverage provided in working toward fulfillment of the objectives can be noted in that 14,000 pages of raw text were produced in the period July 1961 through May 1962. LIFEAT has been in daily operation during the review period with the average number of lines covered per month being 20, with a high in March 1962 of 28 lines covered.

III. Planning for the Future

As was indicated at the time of the last project renewal, LIFEAT hopes to remain uncommitted to coverages that require the expenditure of a great portion of LIFEAT resources but provide coverage of but one target...such as Soviet Embassy coverage. It is added emphatically, however, that should the need arise for LIFEAT to again assume such responsibilities, it is fully able to do so. Until such time LIFEAT will continue to enjoy greater flexibility in the employment of its assets, especially in the areas in which the Station does not wish to reveal its interest or operations to the liaison forces involved in the LIENVOY operation.

As to particular areas of operations, the Station has hopes of employing LIFEAT assets in "hot mike operations which require access to telephone

[redacted]

[redacted]

centrals and cables. The feasibility of using LIFEAT in this type of operation has already been proven, in a recent operation with the LIERODE installation as a target. Seven reels of "hot mike" take were obtained in test runs on checking both the operation (including installation of the "miked" instrument in the office of the head of the LIERODE official installation) and the equipment which was of radical design and conceived and built by the KURIOT technician assigned to Mexico City Station under deep cover. Unfortunately, before continuous operation could get underway, the LIERODE installation decided upon complete renovation of its telephone system, including the installation of a switchboard. This, at least temporarily, precludes further operation against this particular target, unless a direct line is installed there. However, it is the intention of the Station to attempt coverage of other targets of interest. In these plans LIFEAT plays the key role in installation, line and series cross maintenance, basehouse procurement and maintenance, and processing of take. From the brief test runs via the LIERODE operation noted above, it is believed that "hot mike" operations, supported and maintained by LIFEAT, can greatly aid the Station in its coverage of responsibilities under its present Related Mission Directive.

IV. Performance of Agents

The overall performance of all agents employed in the LIFEAT complex continued to be good during the period of the project review, with security being stressed in all phases of the operation. No security problems were encountered which were not solved by the personnel involved. Since the success of the LIFEAT operation depends largely upon the security of its personnel, Headquarters clearances and evaluation of new personnel will continue to be sought on those new additions who pass a strict field assessment.

V. Expenditures

Approval for renewal of Project LIFEAT was granted 8 September 1961 for FY 1962 in the amount of $98,973.00. The proposed budget for FY 1963 is broken down in the attached Field Project Outline Renewal Request, Part II, and totals ~~$102,168.00.~~ ~~98,993.00~~ 94,000.00

VI. Status of Commitments

There are no commitments other than those noted in the project outline submitted herewith and in the individuals contracts and oral agreements (memoranda of oral agreements were forwarded as necessary) of the various LIFEAT personnel.

[redacted]

[redacted]

Even now with the shift of operational emphasis to Station operations support, it is thought significant to include a list of HMM's produced through April 1962 (10 months of the project year) as a by-product in the LIFEAT operation.

PROJECT LIFEAT

PROJECT OUTLINE, PART I

1. Area of Operations

This operation is run from Mexico City Station and is concerned with targets located within Mexico City.

2. Purpose

The purpose of this project is to provide, unilaterally, daily information on the activities of official foreign installations in Mexico and the personnel thereof, as well as coverage of the activities of selected individuals and groups in response to both Station needs and Headquarters requests. Presently, LIFEAT stresses flexibility of coverage with support of Station operations and CI/CE coverage receiving the greatest emphasis.

3. Background

Project LIFEAT was originated on 3 October 1950 as a unilateral telephone tap operation. Actual initiation of operations under this authority occurred on 18 January 1951, and the operation has run continuously from that date. The project was opened with the installation of a single tap and has grown in the past eleven years to coverage of as many as thirty lines in a given month.

The LIFEAT Project is a unilateral operation completely independent from any liaison arrangement. It is staffed by KUBARK contract employees with the majority of personnel being indigenous controlled agents.

During the past eleven years, Project LIFEAT has produced more than 83,500 (estimate) pages of operational and intelligence information in direct support of Mexico City Station's specific objectives, and contributed materially to the intelligence gathering activities connected with the Soviet-Satellite Bloc and more recently with the Cuban representatives in Mexico. In addition, LIFEAT has been of considerable value in monitoring the activities of the American Communist Group in Mexico (ACGM), as well as the activities of the exile groups and local Communists.

[redacted]

[redacted]

With the LIENVOY's assumption of coverage of the Soviet and Czechoslovakian official installations in July 1960, LIFEAT assets were released from continuous coverage of these two targets. These assets were then employed in direct support of Station operations--a role ideally suited for a unilateral operation such as LIFEAT, and extremely important to the security and success of Station operations. LIFEAT, after spending much of Project Year 1961 - 1962 programing to this new role and redirecting its assets, has now adjusted to this role and is fully employed in this vital assignment.

4. References

a. HMMA-17199, 12 June 1961 (LIFEAT Renewal Request for FY 1962)
b. HMMW-10085, 14 September 1961 (Approval of LIFEAT Renewal for FY 1962)

5. Objectives

a. To identify Soviet and satellite intelligence personnel in Mexico and to provide information on the nature and extent of their clandestine intelligence and propaganda activities in Mexico.

b. To collect information of the Satellite officials both as to their activities as well as information of biographic nature.

c. To support specific Station operations, especially in the recruitment, defection, Communist Party penetration and counter-intelligence fields.

d. To collect information on prominent Mexican Communists and pro-Communists and their activities.

e. To collect information on prominent Communists, other than Mexican, active in Mexico, and to identify them and their associates and activities.

f. To collect information on exile groups and individuals active in Mexico.

g. To provide coverage of targets of opportunity in Mexico City in support of Station objectives and Headquarters' requests.

6. Targets

For objectives a and b:

a. Selected Soviet intelligence officers home phones.

[redacted]

[redacted]

b. Selected Satellite officials office and home phones.

c. Selected private phones being used by known and suspected Satellite intelligence personnel.

For objective c:

d. Selected telephones as requested by Station Case Officers in support of their going and/or projected operations.

For objective d:

e. Telephone conversations from residences of senior Communists and pro-Communists.

For objective e:

f. Telephone conversations from residences of known American Communists residing in Mexico City.

For objective f:

g. Telephone conversations from the residences or offices of prominent exile leaders or their contacts in Mexico City.

For objective g:

h. Telephone conversations which can be monitored from targets of opportunity.

7. Tasks

Case Officer - Jeremy L. NIARCOS

a. Supervise the operational and administrative activities of all LIFEAT personnel.

b. Maintain awareness of and provide direction in all matters pertaining to the operational management of the LIFEAT Project.

c. Provide guidance and day-to-day supervision of special operational phases of LIFEAT coverages.

[redacted]

[redacted]

d. Coordinate information received from the LIFEAT coverage with other Station operations, and coordinate as necessary with the Station personnel responsible for the parallel LIENVOY operation.

e. Maintain LIFEAT capabilities for mounting operations against targets of opportunity.

f. Maintain supervision over basehouses, equipment, and training of personnel assigned to the LIFEAT operations.

8. Coordination

a. Information produced by LIFEAT, primarily a Station operational support asset, is closely coordinated with other operations of the Mexico City Station. No operational coordination is required with any other geographical area, but they are advised of any information produced by LIFEAT which may be of interest to them.

b. Project LINOG which supports the principal "outside" Case Officer, David M. WILSTED, is effected in coordination with Project LIFEAT.

c. Coordination with the parallel, but liaison project - LIENVOY, is closely coordinated between the responsible Case Officers of both projects, particularly relating to the division of coverage between the two operations, thereby assuring that the unilateral LIFEAT operation will not be endangered by the indigenous personnel of the LIENVOY operation.

9. Personnel

a. Career and Contract Agents

(1) David M. WILSTED (201-009195), principal "outside" Case Officer.
(2) Wayne C. DRABAND (201-255095), outside assistant to David M. WILSTED. DRABAND was introduced into the LIFEAT operation in November 1961 as a replacement for Ralph B. RAFANELLI who was transferred from Mexico PCS in the fall of 1961. His OA was amended 14 November 1961 to cover his use in the LIFEAT Project. Although DRABAND possessed only limited knowledge of clandestine activity when first employed, under WILSTED's instruction and Case Officer guidance, plus his own willingness and capacity for work, it appears he will prove a valuable addition to the LIFEAT complex.

[redacted]

[redacted]

(3) LIEMBRACE-8 (201-111616) has been introduced to the LIFEAT operation as a standby technician backup to WILSTED, but will be actively employed in the operation only in the event of WILSTED's prolonged absence or incapacity. If and when such action is necessary, LIEMBRACE will then be carried under Project LIFEAT. LIEMBRACE-8's OA was amended to reflect this assignment on 7 April 1962.

(4) Carol K. ZINSMEISTER (201-117968), LIFEAT processor/translator and former basehousekeeper who can be temporarily reassigned basehousekeeping duties.

(5) Olga A. PARFINIK (201-117978), LIFEAT processor/translator. OA for LIFEAT employment dated 28 September 1954.

b. Field Agents

(1) LIFEUD-1, OA granted 17 October 1950 (201-182704)
(2) LIFEUD-2, OA granted 14 August 1951 (201-117971)
(3) LIFEUD-3, OA granted 14 December 1953 (201-117971)
(4) LIFEUD-4, OA granted 1 October 1953 (201-117743)
(5) LIFEUD-5, OA granted 16 December 1953 (201-117744)
(6) LIFEUD-6, OA granted 28 September 1954 (201-117978)
(7) LIFEUD-7, OA granted 21 October 1954 (201-117980)
(8) LIFEUD-8, OA granted 31 March 1955 (201-119521)
(9) LIFEUD-9, OA granted 27 April 1956 (201-117984)
(10) LIFEUD-10, OA granted 13 September 1956 (201-114085)
(11) LIFEUD-11, OA granted 21 August 1956 (201-113595)
(12) LIFEUD-12, OA granted 6 August 1956 (201-113569)
(13) LIFEUD-13, OA granted 13 September 1956 (201-115833)
(14) LIFEUD-14, OA granted 26 September 1956 (201-117972)
(15) LIFEUD-15, OA granted 19 January 1957 (201-126315)
(16) LIFEUD-16, OA granted 2 July 1958 (201-222786)
(17) LIFEUD-17, OA granted 13 August 1956 (201-114086)
(18) LIFEUD-18, OA granted 2 October 1957 (201-185370)
(19) LIFEUD-19, OA granted 18 May 1960 (201-262488)
(20) LIFEUD-22, (formerly LILILLY-1), amendment of OA requested 24 April 1962 (201-288248)
(21) LIFEUD-23, (formerly LILILLY-2), amendment of OA requested 24 April 1962, (201-305604)

[redacted]

[redacted]

c. During the past project year the following personnel were dropped from Project LIFEAT:

(1) Ralph B. RAFANELLI (201-176295), staff agent, was reassigned PCS after completing his second tour in Mexico on 8 October 1961.

(2) Olivia N. GLADMON (201-117751), LIFEAT processor, has given notice that due to her planned return to the United States for necessary eye surgery during June 1962, her employment with LIFEAT must be terminated. Agent quit-claim and secrecy agreement have been executed.

(3) Leona C. GANDARA (201-225710), employed by LIFEAT only for standby support during the past year and one half, now is employed for support and clerical work for MKCHARITY.

(4) LIFEUD-20, (formerly LIMITATION-5), (201-102308), and LIFEUD-21, formerly LIMITATION-6 (201-117981) will be terminated as of the end of the present LIFEAT project year (30 June 1962). Plans for use of this couple as basehousekeepers were cancelled when LIFEUD-22 and LIFEUD-23, who are more desirable choices, became available for LIFEAT use. Termination has been discussed fully with these indigenous agents, and termination arrangements were accomplished on a friendly and mutually agreeable basis (as in all LIFEAT terminations, separation is made on the basis of Mexican custom and/or law).

10. Operational Clearances

See Section 9 above.

11. Cover

There are no changes in the cover of personnel who have been previously employed in the LIFEAT operation. With the new agents employed since the last project renewal, cover is as follows:

[redacted]

[redacted]

a. Wayne C. DRABAND has natural cover of a retired U.S. civil servant presently in Mexico with his wife, an employee of a U.S. government agency.

b. LIEMBRACE-8 has natural cover of a retired U.S. businessman of many years residence in Mexico City.

c. LIFEUD-22 has natural cover of a Cuban exile employed by a Mexican firm in Mexico City. He works regular hours at his cover employment and partakes in LIFEAT activities before and after work and during lunch hours.

d. LIFEUD-23, the mother of LIFEUD-22, has natural cover of housekeeper for her son and performs her LIFEAT duties only in their home.

12. Contact and Communications

Daily contact is maintained between the Case Officer and the agents employed in the project. These contacts are made in a clandestine manner with varying patterns established for car pickups, foot contacts, and emergency meetings. Pre-arranged signals are employed in setting and accomplishing the meetings. When heavy or bulky material is to be passed, meetings are held at night. Entrance to the basehouses by other than the basehousekeepers is made only on the basis of strict necessity; such as need for equipment repair, installation for new line coverages, or line coverage cut off.

Telephone contact concerning the project and with the agents is kept to a minimum. Pre-arranged open code is used for phone conversations between Case Officers and agents. Alternate and emergency communications have been arranged and are reviewed frequently by the personnel using them.

These systems of contact and communication appear suitable for the project and function adequately from the security and utility standpoints. Locations and times of meetings are reviewed periodically and are changed frequently to decrease the possibility of arousing the suspicions of the residents of areas in which meetings are held.

[redacted]

[redacted]

13. Control and Motivation

Control and motivation are primarily based on two factors: ideology and financial gain. A secondary factor is the fear of reprisal from the local police should discovery occur.

14. Security

During the past project year there were no incidents which were beyond the capability of the personnel immediately involved to isolate and remedy immediately. In contrast to previous years, there was no instance of telephone work crews approaching a basehouse to check or remove the tap lines running to that basehouse. Some of the "crosses" made in the telephone centrals have been removed by the central's workmen, but these are of no danger to the operation unless a full investigation is made of one of these unusual connections. During the past project years no such investigation has been undertaken, and no suspicion of the LIFEAT linemen has been revealed to date.

As for the past few years the telephone company is continuing its efforts toward modernization of the Mexico City telephone system. This effort includes changing from overhead lines to underground cables, cleaning off of the unused overhead "dead lines" and installation of new equipment throughout the city. These innovations will continue to cause security problems for the LIFEAT complex, but it is believed that these problems are not insurmountable. To meet this challange to LIFEAT security and to prepare for the day when access to telephone distribution lines is further reduced by their placement in underground cables, LIFEAT has recently succeeded in having one of its linemen (LIFEUD-2) selected to attend a four month special course in cable work. When he completes this course (in July 1962), LIFEUD-2 will have working access to all cableways and cable termination boards in Mexico City. This access will be invaluable from both the present security and operational standpoints as well as for the future when LIFEAT will be forced to tap directly from the underground telephone cables. As a standard procedure the LIFEAT personnel continuously work to devise new methods to increase security, as well as train in security procedures, so as to continue the high level of security enjoyed by LIFEAT in the past.

15. Training

Initial training of new personnel and continuing refresher training for the experienced personnel are handled primarily by the "outside" case officer, David M. WILSTED. Minor repair and maintenance of equipment as well as emergency security procedures are stressed and continually reviewed with the agents.

[redacted]

16. Equipment and Support

As noted in last year's renewal request, LIFEAT equipment is generally old and much of it is now obsolete. With funds provided in last year's renewal, LIFEAT (within the past month) has begun to acquire some new equipment, particularly audio recorders. A review of the equipment situation in the LIFEAT setup has convinced both WILSTED and the responsible Case Officer that a near-complete modernization program of the equipment used in LIFEAT must be undertaken during the coming project year. The local KURIOT technician has on a number of ocassions expressed his amazement at the superior product produced by LIFEAT with the outmoded and ancient equipment (in terms of use hours) which the LIFEAT complex had to rely on. Therefore, with the funds requested in Part II of this renewal request, LIFEAT should be completely equipped with adequate gear, particularly audio and dial tape recorders, by the expiration of FY 1963. Admittedly, there is involved large, one-time expenses in complete replacement of such expensive items during a single project year. However, it is a necessary move, due entirely to great wear borne by the equipment. This wear is now causing such a rash of breakdowns that the outside principal agent must spend a disproportionate amount of his time in maintenance work.

17. Timetable

LIFEAT has been in almost constant operation since its inception in January 1951, and as a vital Station operational support asset, it is planned to continue it indefinitely.

/

[redacted]

PROJECT LIFEAT

PROJECT OUTLINE, PART II

18. Estimated Costs

The following are the estimated costs for Fiscal Year 196~~2~~3. All figures are U.S. dollars per year ($US 1.00 equals 12.50 Mexican pesos). Changes in estimated costs for particular items will be noted. These reflect not only the continued inflationary trend in the Mexican economy, but also the shift in operational emphasis from prime coverage of Soviet/Satellite activities to support of Station operations. In this latter case particular line coverage is of shorter duration, causing greater expense in installation and removal of tap lines and crosses. In the agent salary category total expense in contract agent salaries has been reduced somewhat, due primarily to dropping certain contract agents, while expenses for field agent category has risen, due to the granting during past project year of long overdue salary raises to all but three LIFEAT field agents.

a. Salaries

(1) Career and contract agents

David M. WILSTED (GS-12 equivalent) no expenses included in Project LIFEAT as he is supported entirely by Project LINOG		
Wayne C. DRABAND	$ 5,300	
LIEMBRACE-8 (since this agent is not used actively in LIFEAT, and is carried only as standby technician while employed under MKCHARITY he will continue to be funded out of other appropriate project.)		
Carol K. ZINSMEISTER	5,400	
Olga A. PARFINIK	4,500	
Replacement for Olivia N. GLADMON	3,600	
		$18,800

(2) Field Agents

LIFEUD-1	5,860
LIFEUD-2	2,750
LIFEUD-3	1,960

[redacted]

LIFEUD-4	2,115	
LIFEUD-5	3,650	
LIFEUD-6	3,500	
LIFEUD-7	2,640	
LIFEUD-8	2,785	
LIFEUD-9	2,115	
LIFEUD-10 (no salary)		
LIFEUD-11 (no salary)		
LIFEUD-12 (no salary)		
LIFEUD-13 (no salary)		
LIFEUD-14	3,650	
LIFEUD-15	845	
LIFEUD-16	1,585	
LIFEUD-17 (no salary)		
LIFEUD-18 (no salary)		
LIFEUD-19	1,500	
LIFEUD-22	2,400	
LIFEUD-23	1,800	
LIFEUD-1's assistant	160	
Christmas bonus (in accordance with local custom, this amounts to one month's pay) and gifts where necessary	4,100	
		$43,415

b. Basehouse Rentals

ANNEX III	2,688	
ANNEX IV	2,760	
ANNEX VI	2,500	
ANNEX VII	1,728	
ANNEX VIII	3.072	
ANNEX IX	2,880	
ANNEX to replace ANNEX I	2,000	
c. Basehouse utilities and expenses	2,000	
d. Allowance for customary rental increase when lease renewed	1,200	
		$20,828
e. Purchase of new recorders and dial tape recorder for necessary replacement/modernization	12,250	

ENCL -1- HMMA-19129

CS COPY

50-6-32/1

f. Local purchase of replacement parts, wire, expendable supplies (as paper, paper tape, carbon paper, typewriter ribbons, wrapping paper, manila envelopes) and emergency and special equipment	800	$13,050
g. Transportation		
QP car used by DRABAND	500	
LIFEUD-7, car rent	500	
LIFEUD-8, car rent	500	
LIFEUD-14, car rent	300	
ZINSMEISTER mileage	300	
		$ 2,100
h. Miscellaneous ops expenses (Included loss of rent deposits, fund for medical expenses and/or fatalities, termination payments *, bribes, expenses involved in moving and setting up basehouses, and expenses of covering targets of opportunity.)	~~4,000~~ ~~800.00~~ 807.00	
GRAND TOTAL		~~$102,193~~ ~~98,993~~ 99,001.00

NOTE: Station programed LIFEAT at $US 105,948 for FY 1963.

* All terminations of indigenous personnel will be in accordance with Mexican law and will include lump sum separation settlement, transportation and moving expense payments, and any bonus due at the time of the termination.

SUBJECT
LIFEAT Project Renewal

ACTION REQUIRED · REFERENCES

ACTION REQUIRED: For your information only

REFERENCE : HMM-A-17199, 12 June 1961

1. The LIFEAT Project was renewed on 8 September 1961.

2. LIFEAT Project was approved for $98,973. Please note that this means a cut of $12,700 from the Station's original request for $111,673. The cut at Headquarters was made for several reasons: 1) to fall within the approved programed figure of $99,000; 2) during FY 1961 only approximately $81,000 was obligated and since no expansion was planned, an increase of almost $30,000 could not be justified; 3) to keep the approving authority within KUDOVE.

The cuts were made in the following places:

	Station request	Approved
Equipment:		
Local purchase	$ 2,500	$1,800
New equipment	4,500	2,500
Other Ops expenses	15,000	5,000

3. KUTUBE and KUDESK Staffs concurred in recommending renewal. KUTUBE/D remarked that the project included coverage of highly selective KUTUBE/D interests through technical means and stated that the project provided several items of operational interest not otherwise obtainable, as well as operational leads and background data useful in target assessment. KUDESK Staff reiterated that coverage should continue to be given to carefully selected known or suspect Soviet/Satellite agents in support of the Station's intensified KUDESK type program.

SUBJECT: Request for Approval of Project LIFEAT

1. It is requested that the LIFEAT Project be renewed for the period 1 July 1961 through 30 June 1962 for a total of $98,974. This project has been programmed for $99,000 and funds are available in WH Division for FY 1962. During the last fiscal year approximately $81,000 was obligated.

2. No training programs for any LIFEAT personnel are anticipated for the renewal period.

3. Any number of emergency conditions could be listed which might affect the smooth running of this operation. Among them would be the break in diplomatic relations or hot war between Mexico and the United States or the discovery of this unilateral asset by the Mexican Government. Emergency recontact instructions have not been established for the agents of this project since it seems likely that the operation would cease in case of such conditions and the agents would be of no further value.

4. This project was the source of 128 intelligence reports during the past year, 85 of which were disseminated. The remainder were used for Headquarters background only since the information was either partially previously reported, overt, or of no interest to customer agencies. The following evaluations were received:

"Mexican Technicians Going to Work in Cuba" - State Department said this report was of moderate importance and that the information was new and useful.

"Nicaraguan Revolutionary Activities in Mexico" - State Department said that this report was of moderate importance and that the information was new and useful.

"Propaganda Activities of the Cuban Embassy in Mexico" - State Department said that this report was of moderate importance and useful as new information. USIA commented that the same report was of major importance.

"Mexican Government Purchase of Soviet Radioisotopes" - OSI reported that this dissemination was of little importance and that the information was already sufficiently known. ORR said that it was of moderate importance and more details were required.

"Projected Arrival in Mexico of Polish Travel Officials" - State Department said that this report was of moderate importance and the information was new and useful. They expressed a continuing interest in this type of reporting.

"New Policy of the Soviet Commercial Office in Mexico" - ORR reported that this information was new but only of moderate importance.

5. WH Division recommends renewal of the LIFEAT Project based on the field request attached. WH Division has cut the field's original request for $111,673 to $98,974.

1. Forwarded herewith and under separate cover for Headquarters processing is the LIFEAT Project Renewal Request covering FY 1962. This consists of a comprehensive review of Project LIFEAT for the period July ~~1960~~ through June 1961, and a Project Outline divided into Parts I and II.

2. It is noted that the total of funds requested for the coming project year exceeds that granted for the past year, but it is felt that the additional funds are necessary, and realistically reflect the needs of the operation.

3. It is requested that Project LIFEAT be renewed for the period July 1961 through June 1962 in the amount of $111,673.

PROJECT LIFEAT

PROJECT REVIEW

I. Product of the Project

A. Soviet Embassy

LIFEAT technical surveillance of the Soviet Embassy and Commercial Office telephone lines was discontinued on 22 June 1960 for security reasons. The withdrawal of LIFEAT from coverage of this target hinged on the 20 June 1960 suggestion by LITENSOR to Chief of Station, Mexico City, that the liaison tap operation LIENVOY undertake operations against the Soviet/Satellite targets located in Mexico City. In order not to reveal to LITENSOR that a unilateral tap operation was already providing coverage of these targets, it was necessary for the Chief of Station to agree to LIENVOY extending its coverage to include Soviet/Satellite operations. LIFEAT immediately severed its coverage of both Soviet and Polish phones so as not to jeopardize the continuing unilateral LIFEAT operation and the personnel involved therein. No security breach resulted from the switch from LIFEAT to LIENVOY coverage due largely to the thoroughness and speed of the LIFEAT personnel. LIFEAT security and compartmentation was not harmed to any degree whatever. (Note: LIFEAT again resumed coverage of the Polish Legation--now Embassy--when it developed that LIENVOY did not have the ready capacity to provide "take" from both the Czechoslovakian and Polish official installations.)

B. Polish Embassy

During the past project year, LIFEAT remained the primary source of information on this target and the only successful, continuing penetration of the target, technical or otherwise. The interested Case Officer has described the LIFEAT contribution as "unique" and "invaluable". Examples of the positive intelligence product of the LIFEAT/Polish coverage are:

HMMA-15431, 3 August 1960 (Aleksander BEKIER)
HMM-5133, 22 August 1960 (Promotion of Polish Minister in Mexico
   to Rank of Ambassador)
HMM-5144, 24 August 1960 (Polish Minister of Shipping to Attend
   Mexican Independence Celebration)
HMM-5186, 22 September 1960 (Projected Arrival in Mexico of Polish
   Travel Officials)
HMMA-15696, 28 September 1960 (Jan SLUSARZ)

~~SECRET/KAPOK~~

HMMA-15722, 30 September 1960 (Piotr WASILUK's Order for Tape Recorder)
HMM-5338, 9 December 1960 (Appointments to Polish Missions in Latin America)
HMMA-16255, 11 January 1961 (Gita STEN)
HMMA-16306, 20 January 1961 (EXCORN/RYBAT)
HMMA-16467, 15 February 1961 (Possible Polish Sponsored Audio Operation)

C. Cuban Embassy

The emphasis of the LIFEAT operation during the past year has been placed on coverage of Cuban official, intelligence and propaganda activities. Direct support of Station operations in the JMZIP area has rendered immeasurable assistance to the responsible Case Officers. On various occasions LIFEAT support has involved extended periods of live-monitoring target telephones, thereby providing excellent security for Station assets taking part in sensitive operations. LIFEAT/Cuban coverage has also enabled the Station officers to check the veracity and activities of various penetration agents in the Cuban Embassy, again providing increased operational security and increased exploitation of these agent assets. Although LIFEAT has been employed primarily as an operational support asset in the Cuban area, the following are examples of the valuable and abundant positive intelligence production furnished by LIFEAT:

HMM-5044, 9 July 1960 (Oil From Mexico For Cuba)
HMMA-15499, 17 August 1960 (AMSHAD-1)
HMM-5101, 10 August 1960 (Canadian Delegates to Cuban Youth Congress)
HMM-5207, 6 October 1960 (Dissension at Cuban Embassy in Mexico)
HMM-5330, 9 December 1960 (Cuban Propaganda Activities in Mexico)
HMM-5398, 4 January 1961 (Activities of Prensa Latina, Cuban News Agency)
HMM-5541, 17 March 1961 (Cuban Commercial Activities in Mexico)
HMM-5573, 7 April 1961 (Cuban Request for Mexican Co-sponsorship of UN Resolution)
HMM-5592, 19 April 1961 (Recruitment of Mexican Technicians to Work in Cuba)
HMM-5613, 28 April 1961 (Collection of Medicines for Shipment to Cuba)
HMM-5627, 3 May 1961 (Links Between Cuban Embassy and Pro-Cuba Demonstrations in Mexico City)
HMMA-17001, 12 May 1961 (Travel of U.S. Citizens to Cuba
HMM-5647, 17 May 1961 (Visit of Cuban Petroleum Technicians to Mexico)

D. American Communists in Mexico

As in the past, most of the targets in this group have been covered at the request of ODENVY, and the production has been partially processed by them. During the period July 1960 through May 1961, approximately 280 reels of raw "take" were passed to local ODENVY for their processing. The most valuable information gleaned from coverage of the targets in this field continues to deal with contacts, travel, and activities of the American Communist Group in Mexico (ACGM). The following is a sample of the reporting based on the LIFEAT coverage provided in this area during the past project year:

HMMA-15467, 10 August 1960 (Travel of Noah SEBORER and Family)
HMMA-15481, 12 August 1960 (Marianne de PERALTA (nee YAMPOLSKY)
HMMA-15917, 9 November 1960 (Berthe Neham SMOLIKOFF)
HMMA-16051, 30 November 1960 (Paul STEVENSON, aka Pablo O'HIGGINS)
HMMA-16111, 9 December 1960 (Max SPARER)
HMMA-16179, 21 December 1960 (Albert MALTZ)
HMMA-16214, 30 December 1960 (Samuel J. NOVICK)
HMMA-16328, 25 January 1961 (David HALPERIN)
HMMA-16342, 25 January 1961 (Enos Regnet WICHER)
HMMA-16404, 3 February 1961, (Noah, Anna, and Robert SEBORER)
HMMA-16565, 1 March 1961 (Margaret Larkin MALTZ)
HMMA-16747, 29 March 1961 (Enos and Maria WICHER)
HMMA-16802, 7 April 1961 (Noah and Anna SEBORER)

E. Exile and Revolutionary Activities

LIFEAT continues to provide data on the exile and revolutionary groups active in Mexico. The bulk of the LIFEAT effort in this field was directed toward the coverage of the Nicaraguan exiles, and the results were most rewarding in this area. Examples of productivity:

HMM-5264, 2 November 1960 (Nicaraguan Exile Activities in Mexico)
HMM-5197, 27 November 1960 (Edelberto TORREZ Espinoza)
HMM-5275, 30 December 1960 (Travel of Honduran Leonel Roberto SAVILLON to Cuba)
HMM-5376, 30 December 1960 (Travel of Nicaraguan Communist)
HMM-5386, 6 January 1961 (Views of Salvadoran Ambassador on Political Situation in El Salvador)
HMM-5452, 8 February 1961 (Americans in Nicaraguan Revolutionary Movement)
HMM-5549, 24 March 1961 (Use of Cuban Embassy as Guatemalan Communist Channel for Messages to Cuba)
HMMA-17025, 17 May 1961 (Travel of Guatemalans)

F. Counter-Intelligence Information

Mexico City Station's major responsibilities continued to lie in the field of CI/CE matters during the past year, and LIFEAT was able to provide a substantial contribution toward the attainment of the Station's objectives in this field. In particular, coverage of the following known

Communists added much to the Station's efforts: Xavier GUERRERO Saucedo and his wife, Clara Porcet de GUERRERO; Carmen BRUFAU Civit; and Juan Luis CAMPOS Villalobos. Besides the operational support in the CI/CE field, the following informational reporting was provided by LIFEAT:

HMM-5154, 31 August 1960 (Activities of Vicente LOMBARDO Toledano, Mexican Marxist Leader)
HMM-5333, 9 December 1960 (Clara Porcet de GUERRERO)
HMM-5339, 9 December 1960 (General Lazaro CARDENAS del Rio)
HMM-5533, 10 March 1961 (Activities of the Latin American Peace Conference)
HMM-5652, 19 May 1961 (Communist Support of Student Demonstration at Puebla)
HMM-5655, 19 May 1961 (Meeting of Luis MARTINEZ Menocal with Communists in Mexico)

G. Operational Leads and Support Provided Other Station Operations

During the past project year, LIFEAT continued to support Mexico City Station through the timely production of useful leads, notably in the field of Cuban operations, and provision of continuing support to other Station operations. The following is a selective list of the use made of leads provided by LIFEAT:

LIFEAT/Cuban: In this phase of the LIFEAT operation the most important operational function has been the use of LIFEAT leads in checking the veracity and activities of the KUBARK agents in the Cuban Embassy in Mexico. LIFEAT live-monitoring was employed in the case of Guillermo HERNANDEZ Vega to determine the success of this suspected Cuban penetration of the AMIRON program in contacting Cuban officials or pro-Cuban Mexican officials while he was held in custody by Mexican authorities and Station assets. In another case LIFEAT provided leads which enabled Station assets to monitor a clandestine meeting between a member of the Cuban Embassy staff and one Manuel ROJAS Villa (aka James Bradford STEWART), a fugitive from ODYOKE and a potential CASTRO agent, and ultimately return ROJAS to ODYOKE jurisdiction. LIFEAT was also able to determine the whereabouts of another suspected CASTRO agent, Oscar RODRIGUEZ Moruna. LIFEAT leads and support provided increased security for Station assets involved during the defection of Jose PARDO Llada, CASTRO "propaganda" minister, and provided leads for KUCAGE play on the reaction to the defection within the Cuban Embassy in Mexico.

LIFEAT/Polish: LIFEAT provided vital support in the BECORN recruitment attempt which increased the security of the operation and gave a quick and secure means of evaluating the chances of success of the operation. In this effort, LIFEAT support included long periods of live-monitoring three separate telephone lines. LIFEAT leads also pointed out a local cafe which is a front for much Polish intelligence activity in the

Mexico City area. It has been determined through LIFEAT leads that this cafe is headquarters for a suspected Polish technical operation directed against an official U.S. installation in Mexico City. LIFEAT also provided support for a Station mounted audio operation against the Polish Embassy in Mexico City. Through LIFEAT leads proper support for the operation was arranged.

Coverage of a CI/CE nature was exploited in covering travel of important Communists, particularly to Cuba, and the travel of U.S. citizens, especially Communists and leftists, to Cuba. Travel plans of American Communists were provided to ODENVY well in advance of the actual travel. Activities of local Communists and their participation in demonstrations and CASTRO-support projects was shown through LIFEAT information.

H. Conclusion

It is the opinion of the Mexico City Station that the support provided other Station operations, the CI/CE information, and in particular the ability of the unilateral LIFEAT operation to cover sensitive targets without revealing Station interest to liaison forces, well justify the expenditure of funds, time, personnel, and security risk. It is to be noted that even though the Station is involved in the parallel LIENVOY liaison operation, a change in the attitude of the local government or the change in local government administration could well end KUBARK participation in that liaison project. For that reason LIFEAT must be available to resume the coverage of the Soviet/Satellite targets which it previously provided. It is recognized by the Station that the LIFEAT complex, if allowed to disintegrate, could not be readily reorganized if need for its services in the Soviet/Satellite field was required at a future date. Therefore, LIFEAT's present orientation, though toward targets of a CI/CE nature rather than for providing positive intelligence, leaves it available for instant recall into the field of Soviet/Satellite operations. Of necessity, LIFEAT operations in certain areas have been curtailed to some extent and total coverage reduced during the trial period when guide lines were being formed in relation to operating with a parallel but liaison operation (i.e., LIENVOY). However, it is the Station's opinion that even with the temporarily reduced coverage provided by LIFEAT, this project still provides a substantial and essential contribution in fulfilling the several priority objectives of the Station's Related Mission Directive.

I. There is attached a complete list of the [illegible] produced from LIFEAT provided material during the period July 1960 through May 1961 (see attached page).

II. Progress of the Operation

The objectives of the LIFEAT Project are of a continuing nature and are therefore not considered for fulfillment during any given period of time. For this reason percentage figures as to completion of project objectives cannot be drawn. However, an indication of the coverage provided in working toward fulfillment of the objectives can be noted in that 12,000 pages of raw text were produced in the period July 1960 through May 1961. LIFEAT has been in daily operation during the review period with the average number of lines covered being 12. Generally, this coverage can be broken down as follows:

Cuban Embassy and related lines	4	
Polish Embassy and related lines	3	
American Communists	2	
Targets of Opportunity	3	
	12	TOTAL

III. Planning for the Future

Following the suggestion provided by Headquarters in renewing Project LIFEAT for FY 1961 (FY and project year coincide), the Station is expending every effort to maintain LIFEAT as a secure, compartmented, unilateral operation even though on the presently reduced scale, so as to have readily available for service this flexible support asset with its proven capacity for coverage of almost any target in Mexico City. Also in line with Headquarters suggestion LIFEAT will attempt to increase its coverage of those individuals suspected of maintaining clandestine contact with the RIS.

In the future, the unilateral LIFEAT operation, with the removal from its responsibility the coverage of the Soviet and Czech lines, will tend to be more flexible, with greater percentage of its capacity available for shifting to new targets as they are presented, and able to adjust readily to new situations. It is noted that this may result in a lower quantity of positive intelligence production, but will increase the CI/CE production which has always been basic to the LIFEAT project.

IV. Performance of Agents

The overall performance of all agents employed in the LIFEAT complex continued to be good during the period of the project review, with security being stressed in all phases of the operation. No security problems were encountered which were not solved by the personnel involved. Since the success of the LIFEAT operation depends largely upon the security of its personnel, Headquarters clearances and evaluation of new personnel will continue to be sought on those new additions who pass a strict field assessment.

V. Expenditures

Approval for renewal of Project LIFEAT was granted in August 1960 for the FY 1961 in the amount of $98,901.00. The proposed budget for FY 1962 is broken down in the attached Field Project Outline, Part II, and totals $98,973.00.

VI. Status of Commitments

There are no commitments other than those noted in the project outline submitted herewith and in the individual contracts and oral agreements (memoranda of oral agreements were forwarded as necessary) of the various LIFEAT personnel.

~~SECRET/KAPOK~~

The following is a complete list of the 118 HBMs which were based wholly or in part on LIMEAT supplied material during the period July 1960 through May 1961. This represents a 21% increase over the same period of last project year. However, with LIMEAT termination of Soviet and Czech coverage, a drop in the total HBM production can be expected during the coming project year.

PROJECT LIFEAT

PROJECT OUTLINE, PART I

1. **Area of Operations**

This operation is run from the Mexico City Station and is concerned with targets located in Mexico City.

2. Purpose

The purpose of this project is to provide, unilaterally, daily information on the activities of official foreign installations in Mexico and the personnel thereof, as well as coverage of the activities of selected individuals and groups in response to both Station needs and Headquarters requests. Presently, coverage of the official Cuban and Polish installations have top priority in the LIFEAT operation.

3. Background

Project LIFEAT was originally approved on 3 October 1950 as a unilateral telephone tap operation. Actual initiation of operations under this authority occurred on 18 January 1951, and the operation has run continuously from that date. The project was opened with the installation of one tap and has grown in the past ten years to continuous coverage of from 12 to 20 lines.

The LIFEAT project is a unilateral operation completely independent from any liaison arrangement. It is staffed by KUBARK staff and contract employees with the greater majority of personnel being indigenous controlled agents.

During the past ten years, Project LIFEAT has produced more than 76,000 pages of operational and intelligence information in direct support of the Mexico City Station's specific objectives, and has contributed materially to the intelligence gathering activities connected with the Soviet and Satellite Bloc and more recently with the activities of the Cuban representatives in Mexico. In addition, LIFEAT has been of considerable value in monitoring the activities of the American Communist Group in Mexico (ACGM), as well as the activities of exile groups and local Communists.

4. References

a. HMMA-15252, dated 29 June 1960 (LIFEAT Renewal Request for FY 1961)

b. HMMW-9086, dated 8 September 1960 (Approval of LIFEAT Renewal for FY 1961)

~~SECRET/KAPOK~~

5. Objectives

a. To identify Satellite intelligence personnel in Mexico and to provide information on the nature and extent of their clandestine intelligence and propaganda activities in Mexico.

b. To collect information on the Satellite officials both as to their activities as well as information of biographic nature.

c. To identify Cuban intelligence personnel in Mexico as well as determine the activities of Cuban officials which are inimical to the interests of the U.S.

d. To collect biographic information on Cuban officials assigned to Mexico and provide daily coverage of their activities.

e. To collect information on prominent Mexican Communists and pro-Communists and their activities.

f. To collect information on prominent Communists, other than Mexican, active in Mexico, and to identify them and their associates and activities.

g. To collect information on exile groups active in Mexico.

h. To collect information on targets of opportunity in Mexico.

6. Targets

For objectives a and b:

a. Selected Satellite officials' office and home phones.

b. Selected private phones being used by known and suspected Satellite intelligence personnel.

For objectives c and d:

c. Telephone conversations from the Cuban Embassy, including long distance calls from Havana, as well as selected telephone calls from residences of Cuban officials.

For objective e:

d. Telephone conversations from the residences of senior Communists and pro-Communists.

For objective f:

e. Telephone conversations from residences of known American Communists residing in Mexico City.

For objective g:

f. Telephone conversations originating from residences or offices of prominent exile leaders in Mexico City.

For objective h:

g. Telephone conversations which can be monitored from targets of opportunity.

7. Tasks

Case Officer - Edward F. SECHEN
Assistant Case Officer - Jeremy L. NIARCOS

a. Supervise the operational and administrative activities of all LIFEAT personnel; staff, contract and indigenous.

b. Maintain awareness of and provide direction in all operational matters pertaining to the management of the LIFEAT Project.

c. Provide guidance and day-to-day supervision of the operational phases of LIFEAT coverages in the field of Polish, Cuban, and American Communists operations.

d. Coordinate information received from the LIFEAT coverage with other Station operations, and coordinate as necessary with the Station personnel responsible for the parallel LIENVOY operation.

e. Maintain LIFEAT capabilities for mounting operations against targets of opportunity.

f. Maintain supervision over warehouses, equipment, and training of personnel assigned to the LIFEAT operation.

8. Coordination

a. Information produced by LIFEAT, primarily a Station operational support asset, is closely coordinated with other operations of the Mexico City Station. No operational coordination is required with any other geographical area, but they are advised of any information produced by LIFEAT which may be of interest to them.

b. Project LINOG which supports the principal "outside" Case Officer, David M. WILSTED, is effected in coordination with Project LIFEAT.

c. Coordination with the parallel, but liaison project, LIENVOY is closely organized within the Station in two fields: (1) the daily checking between Case Officers of both projects, particularly relating to the division of coverage between the two operations, to assure that the unilateral LIFEAT operation will not be endangered by the indigenous personnel of the LIENVOY operation; and, (2) the daily processing of LIENVOY/Soviet "take" by the LIFEAT processor and basehousekeeper Carol K. ZINSMEISTER. The Station believes this latter point does not "cross" operations unnecessarily since ZINSMEISTER's long and discrete service within the LIFEAT complex gives her both the sense of security and the background necessary for secure processing of the Soviet "take". (Note: The processed Soviet material is not returned to the liaison forces after receipt from ZINSMEISTER, but is returned to the Station where it is summarized by Station personnel and then passed to liaison as having come from KUBARK Headquarters.) ZINSMEISTER is equally valuable, and indeed essential, in her LIFEAT basehousekeeper assignement because of her experience in dealing with the security problems arising from conducting a technical basehouse, as well as her ideal natural cover as wife of one of Mexico's foremost medical doctors.

9. Personnel

a. Staff agents

Ralph B. RAFANELLI (201-176295), who for the past four years has functioned as the assistant to the "outside" Case Officer for the LIFEAT operation, completes his second tour in June 1961 and will return to Headquarters PCS during the fall or early winter of 1961. It is planned to replace him with a locally recruited person, ODYOKE citizen if possible, who possesses natural commercial cover. Several candidates are presently being considered for this position. As soon as the Station is able to determine the best qualified individual, full PRQ I and II and clearance request will be forwarded for Headquarters processing.

b. Contract Agents/Employees

(1) David H. WILSTED (201-009195), principal "outside" Case Officer.

(2) Olivia N. GLADMON (201-117751), processes tapes and performs clerical duties.

(3) Carol K. ZINSMEISTER (201-117968), LIFEAT basehousekeeper (ANNEX IV) and processes all tapes from LIENVOY/Soviet "take".

(4) Leona C. GANDARA (201-225710), presently employed only on a standby basis for LIFEAT support.

~~SECRET/KAPOK~~

c. Field Agents

(1) LIFEUD-1, OA granted 17 October 1950 (201-182704)

(2) LIFEUD-2, OA granted 14 August 1951 (201-117970)

(3) LIFEUD-3, OA granted 14 December 1953 (201-117971)

(4) LIFEUD-4, OA granted 1 October 1953 (201-117743)

(5) LIFEUD-5, OA granted 16 December 1953 (201-117744)

(6) LIFEUD-6, OA granted 28 September 1954 (201-117978)

(7) LIFEUD-7, OA granted 21 October 1954 (201-117980)

(8) LIFEUD-8, OA granted 31 March 1955 (201-119521)

(9) LIFEUD-9, OA granted 27 April 1956 (201-117984)

(10) LIFEUD-10, OA granted 13 September 1956 (201-114085)

(11) LIFEUD-11, OA granted 21 August 1956 (201-113595)

(12) LIFEUD-12, OA granted 6 August 1956 (201-113569)

(13) LIFEUD-13, OA granted 13 September 1956 (201-115833)

(14) LIFEUD-14, OA granted 26 September 1956 (201-117972)

(15) LIFEUD-15, OA granted 19 January 1957 (201-126315)

(16) LIFEUD-16, OA granted 2 July 1958 (201-222786)

(17) LIFEUD-17, OA granted 13 August 1956 (201-114086)

(18) LIFEUD-18, OA granted 2 October 1957 (201-185370)

(19) LIFEUD-19, OA granted 18 May 1960 (201-262488)

(20) LIMITATION-5, OA amended for LIFEAT 20 March 1961 (201-102308)

(21) LIMITATION-6, OA amended for LIFEAT 20 March 1961 (201-117981)

d. During the past project year the following personnel were dropped from Project LIFEAT:

(1) Alice M. CAILLETEAU (201-119967) was dropped in July 1960 when she returned to PEPRIME with her husband upon his resignation from KUBARK.

~~SECRET/KAPOK~~

(2) Woodrow D. GABBOTT (201-14465) is now employed exclusively as an outside contact for the Station's Satellite Case Officer and should no longer be considered as a member of the LIFEAT complex.

(3) Wallace L. KAWOHL (201-033959) was terminated as an active agent in June 1960 at his own request and with the concurrance of the Station. Agent quit-claim and secrecy agreement were obtained. No security problems are considered likely to occur since KAWOHL's parents continue to be employed as basehousekeepers for LIFEAT and are dependent upon continued LIFEAT salary for their livelihood. At the time of the termination, it was realized that he would continue to enter the basehouse which his parents controlled, and therefore his clearance was amended to reflect this situation. (Reference: HMMA-15946).

10. Operational Clearances

See Section 9 above.

11. Cover

There are no changes in the cover of the personnel presently employed in Project LIFEAT from that noted in previous project renewals.

12. Contact and Communications

Daily contact is maintained between the Case Officers and the agents employed in the project. These contacts are made in a clandestine manner with varying patterns established for car pickups, foot contacts, and emergency meetings. Pre-arranged signals are employed in setting and accomplishing the meetings. When heavy or bulky material is to be passed, meetings are held at night. All movement in and out of the basehouses by Case Officers is done in cars ostensibly owned by the agents residing in those basehouses. Entrance to the basehouses on foot by other than the basehousekeepers is made only in emergency situations.

Telephone contact concerning the project and with the agents is kept to a minimum. Pre-arranged open code is used for phone conversations between Case Officers and agents.

Alternate and emergency communications have been arranged and are reviewed frequently by the personnel using them.

These systems of contact and communication appear suitable for the project and function adequately from the security and utility standpoints. Locations and times of meetings are reviewed periodically and are changed frequently to decrease the possibility of arousing the suspicions of the residents of areas in which meetings are held.

13. Control and Motivation

Control and motivation are primarily based on two factors: ideology and financial gain. A secondary factor is the fear of reprisal from the local police should discovery occur.

14. Security

During the past project year there were no incidents which were beyond the capability of the personnel immediately involved to isolate and remedy immediately. One basehouse was closed for "cooling off" after a telephone company work party came to the basehouse to check the lines running to it. This party was stalled long enough to cut back the "tap" lines at the roof level and the house cleared of all compromising equipment and material. Later the work party entered and checked the lines which proved to be "dead" lines. The extra lines were then removed and the work party left the premises and there was no further trouble. (Note: In Mexico City there is much "dead line" running throughout the city which causes no end of difficulty for the telephone company in installation and repair work. Therefore, the phone company assigns work parties to various areas to clean up the extra unused "dead lines" in order to bring a degree of organization to the telephone system. This work is now being pursued vigorously and is approaching completion in large areas of the city.) The basehouse involved in the above incident has now been moved to a different location and is back in operation.

At the present time the telephone company is making a general effort to modernize the Mexico City telephone system. This effort includes changing from overhead lines to underground cables, cleaning off the unused overhead "dead lines", and installation of new equipment throughout the city. These innovations will cause increasing security problems for the LIFEAT complex, but it is believed that the problems are not insurmountable. Part of the solution will of necessity involve the use of a greater number of basehouses to diversify the coverage and to reduce the number of lines running to any one basehouse. This will cause an increase in expense for the project, but is considered desirable and necessary. It may eventually be necessary for LIFEAT to enter the underground cables in order to provide access to selected targets and maintain the security of the basehouses. The LIFEAT personnel are continually working to devise new methods as well as maintaining training in security so as to continue the high level of security enjoyed by LIFEAT in the past.

15. Training

Initial training of new personnel and continuing refresher training for experienced agents is handled primarily by the "outside" Case Officer, David H. WILSTED. Minor repair and maintenance of equipment as well as emergency security procedures are stressed and continually reviewed with the agents.

16. Equipment and Support

As has been mentioned in last year's renewal request, much of the LIFEAT equipment, upon whose reliability the success of the information collection is based, will require replacement in the near future. The great percentage of the equipment has been in long and continuous service, while much of the special equipment is no longer being manufactured. When present diminishing commercial stocks of replacement parts are exhausted, new units will be required for LIFEAT with the attendant large, one-time purchase expense.

17. Timetable

LIFEAT has been in almost constant operation since its inception in January 1951, and it is planned to continue it indefinitely.

PROJECT LIFEAT

PROJECT OUTLINE, PART II

18. Estimated Costs

The following are the estimated costs for Fiscal Year 1962. All figures are U.S. dollars per year ($1.00 U.S. equals 12.50 Mexican pesos). Some increases in particular items will be noted. These reflect the increased cost of living and especially the continuing rise in rental costs in the Mexico City area, plus the necessity of moving basehouses for security reasons discussed in Part I of this Project Outline.

a. Salaries

(1) Staff and contract personnel

Ralph B. RAFANELLI, GS-9 (for maximum of 6 months)		
Salary	$3,500	
Quarters	1,150	
Deep Cover Differential	525	
Replacement for RAFANELLI	4,000	
Carol K. ZINSMEISTER	5,500	
Plus 10% raise	550	
Olivia N. GLANTON	4,200	
Leona C. GANDARA	900	
		$20,325

(2) Field agents

LIFEUD-1		$5,760
LIFEUD-2		2,496
LIFEUD-3		1,776
LIFEUD-4		1,920
LIFEUD-5		3,648
LIFEUD-6		3,500
LIFEUD-7		2,400
LIFEUD-8		2,400
LIFEUD-9		1,920
LIFEUD-10	(no salary)	
LIFEUD-11	(no salary)	
LIFEUD-12	(no salary)	
LIFEUD-13	(no salary)	
LIFEUD-14		3,648
LIFEUD-15		768
LIFEUD-16		1,440
LIFEUD-17	(no salary)	
LIFEUD-18	(no salary)	
LIFEUD-19		1,200

~~SECRET/KAPOK~~

LIFEUD-1's assistant	144	
LIMITATION-5	760	
LIMITATION-6	300	
Due to the continuing rise in ~~the cost of~~ living, plus the fact that the majority of the above listed agents have not received the pay raise reflected in last year's project renewal, it will be manditory to grant an across the board 10% pay raise during FY 1962.	3,400	
Christmas bonus (in accordance with local customs, this amounts to one month's pay for each agent) and gifts where necessary.	3,200	
		$40,680

b. Basehouse Rentals

ANNEX I (formerly LIMERICK Main Base)	$2,200	
ANNEX IV	2,760	
ANNEX VI	2,200	
ANNEX VII	1,728	
ANNEX VIII	3,072	
ANNEX IX	2,880	
ANNEX X	2,688	
ANNEX to be selected	2,500	
c. Basehouse utilities and expenses	2,000	
d. Allowance for customary (for Mexico City) 10% rental increase when lease renewed	2,000	
		$24,028

e. Equipment

Local purchase of emergency and special equipment	$1,800	
New equipment, especially recorders and reels	2,500	
		$4,300

f. Miscellaneous

(1) Expendable supplies such as paper, carbon paper, paper tape, manila envelopes, wrapping paper,	$2,000

~~SECRET/KAPOK~~

(2) Transportation

RAFANELLI's QP car	$600	
LIFEUD-7 car rent	675	
LIFEUD-8 car rent	675	
LIFEUD-14 car rent	290	
ZENSMEISTER mileage	400	
(3) Other operational expenses (covers loss of rental deposits, fatalities, medical expenses, termination payments,* expenses involved in moving and setting up base-houses, expenses involved in covering targets of opportunity)	5,000	
		$7,640
GRAND TOTAL		$98,973

* Any termination of indigenous personnel will be in accordance with Mexican law and will include lump sum separation settlement, transportation and moving expense payments, and any bonus due at the time of termination.

☐ INDEXING CAN BE JUDGED BY QUALIFIED HQ DESK ONLY

ACTION REQUIRED
Per paragraph 2

REFERENCE(S)
HMM-A-15252, 29 June 1960

1. The LIFEAT Project was approved on 26 August 1960 for a total of $98,901. Headquarters reduced the original request from the field to bring the total Project budget more in line with the programmed figure of $90,000 and the actual obligations of the previous year, which were only $73,884. The following changes were made on the field's request:

	Field Request	Approved
Salaries: Ralph B. RAFANELLI (to reflect legislative pay raise)	$ 6,505.00	$6,995.00
Miscellaneous Operating Expenses	25,000.00	9,000.00

2. Staff comments on the Project renewal request were:

a) KUTUBE/OPS said that the Station is to be commended on its handling of the requested Bloc coverage by LIENVOY while maintaining LIFEAT capability and limiting coverage to those lines most profitable. KUTUBE noted the increased emphasis on exploitation of operational information. In order to continue this aspect of the operation, the Station is faced with the difficult problem of selectivity in targeting and processing take from these two large projects. Every possible effort should be made to increase the efficiency of processing to maintain LIFEAT at its present high level. In KUTUBE/OPS's opinion, LIFEAT personnel and capability must be carefully maintained in face of the easier but less secure LIENVOY.

b) KUDESK stated that this unilateral asset should be continued despite the fact that we are running a similar operation with the local government. It is hoped that the Station will soon be able to use this asset in the investigation of individuals known to be in clandestine contact with the RIS, for the purpose of determining whether or not they may be recruited.

c) KUTUBE/D notes that the project has been of high value.

3. Attached for the information of the Station is a copy of the memorandum prepared in WH to transmit the project for approval.

CRYPTONYM: LIFEAT
OPERATING DIVISION: WHD
FIELD STATION: MEXICO CITY
TARGET AREA: MEXICO CITY

HEADQUARTERS CASE OFFICER:
Charlotte L. Zehrung
ROOM NO: 2121 Barton Hall
EXTENSION: 2555 or 3152
DATE: 22 July 1960

SUBJECT: LIFEAT Project Renewal

1. It is requested that the LIFEAT Project be renewed for the period 1 July 1960 through 30 June 1961 for a total of $98,901.00. Last fiscal year the project was approved for $123,830 of which $73,884 was obligated. The approved programmed figure was $90,000 for Fiscal Year 1961. The extra $ 9,000 required would come from the following programmed projects:

LIHUFER - $2,000
LIVERY - $1,000
LIENVOY - $6,000

2. Subsequent to the preparation by the Station of the attached Project review and renewal request for LIFEAT, the following situation developed in Mexico which has directly affected the entire LIFEAT Project. At a meeting with the Chief of Station on 25 June 1960, LITENSOR asked the Station and LIELEGANT to immediately begin covering the Soviet, Polish and Czech Embassy under LIENVOY. LITENSOR suggested that the Mexicans translate the Spanish and that the Station forward the tapes to Washington for translation of the Russian, Polish and Czech portions. The Chief of Station had no alternative but to express great interest in the coverage of targets of such importance. In order to protect the security of the LIFEAT operations, the Station stopped the LIERICK and LITHAS (LIVERY had not been in operation for the past six months for security reasons) coverage on 22 June, prior to the LIENVOY activation. It was determined that LIENVOY would cover 5 Soviet and 2 Czech lines. The take continues to be processed by LIEHFISTER and LIELIPECH. The LIENVOY monitors extract from the Spanish only the most important points for the daily resumens which are passed to LITENSOR. LIELEGANT has been told we will inform him of pertinent information obtained (ostensibly from Headquarters processing) of the Soviet and Czech text for passing to LITENSOR. LIFEAT will continue its unilateral coverage of Polish and other targets of interest.

3. The Station does not anticipate any problem connected with the exploitation of leads since LIELEGANT has evinced no interest in this matter. In view of the lack of language capabilities by the Mexicans and our ability to control what is passed (ostensibly from Headquarters), the Station sees no problems arising from the present arrangement.

~~SECRET~~

~~SECRET~~

4. The Station does not intend to cut down on independent LIFEAT operations since there are plenty of targets to keep both LIENVOY and LIFEAT occupied.

5. The LIFEAT Project was the source of 99 positive intelligence reports, 72 of which were disseminated. Those not disseminated were considered by Headquarters to be of value for operational background or were outdated. IRR made the following evaluations of LIFEAT reports:

"Mexican Interest in Procurement of Naphthalene from Czechoslovakia," of value, probably true, and of importance to receive further reports.

"Soviet Commercial Activities," of value, probably true, and of importance to receive further reports.

"Soviet Plans to Sell Newsprint to Mexican Government Agency," of little importance.

"Soviet Negotiations for Mexican Cotton," of average value, useful as new information.

The Department of State made the following evaluations of LIFEAT reports:

"Mexican Efforts to Sell Sugar to the USSR," of value, possibly true, and of importance to receive further reports.

"Purchase of Soviet Tractors by Mexican Government," of slight value.

"Soviet Negotiations for Mexican Cotton," of average value, useful in confirming other reports.

6. The Station used LIFEAT information in the preparation of memoranda directed to the Embassy and FBI representatives in Mexico in reply to local requests for information. During the period July 1959 through May 1960, 154 memoranda were furnished the Embassy and 69 memoranda were furnished the FBI based on LIFEAT information.

7. WH Division feels that the positive and CE information received from LIFEAT is invaluable. Most of the information is not available from other Station assets. Reports on travel and the identification of target personalities often serve to confirm information previously received. LIFEAT assets also have been used effectively to check on recently-terminated agents to ascertain that the termination was secure. LIFEAT also has been used to check on reports by double agents that they have contacted or been contacted by their respective Soviet or Satellite contacts.

8. Information received from LIERODE is passed to WH/4 and any operations undertaken on the basis of such information are closely coordinated with that Branch.

~~SECRET~~

9. Information received from the LITMUS, LIVEXI, and LIMERICK phases is supplied the EE and SR Case Officers at the Station for exploitation of leads and extracting of pertinent background information. At Headquarters there is close coordination between EE, SR and WH on the dissemination of positive reports and the operational exploitation of CE/CI leads. C/EE/C stated on 18 July 1960 that the Czech desk fully endorses the renewal of the LIFEAT Project and that they have found the information obtained from this project to be especially useful in following the movements of persons of interest and the activity and identification of target personnel. Please see attached memoranda from EE/P and SR which express their support of this project renewal.

10. Project BESMOOTH, which supports Woodrow D. CALDOT, who processes the LITMUS take, is coordinated with Project LIFEAT.

11. Emergency recontact instructions will be arranged with the agents under this project if a situation which might require such instructions threatens Mexico.

12. It is requested that the LIENVOY Project be renewed on the basis of this memorandum and the attached review and renewal request prepared by the Mexico City Station.

COORDINATION:

PROJECT REVIEW - PROJECT LIFEAT

I. Product of the Project

A. Soviet Embassy

1) Soviet Commercial Activities:

During the past project year, the LIMERICK phase of Project LIFEAT has provided detailed and continuing reports on the increased Soviet efforts to participate in Mexican commercial markets. The following is a partial but representative list of the reports submitted on this subject.

HMM-4322, 12 June 1959, Soviet Commercial Activities in Mexico.
HMM-4567, 6 November 1959, Soviet Commercial Activities in Mexico.
HMM-4855, 1 April 1960, Soviet Purchase of Mexican Cotton.
HMM-4857, 6 April 1960, Soviet Purchase of Mexican Pineapple.
HMM-4858, 6 April 1960, Soviet Plan to Sell Newsprint to Mexican Government Agency.

2) Soviet Diplomatic Activities:

Project LIFEAT provided coverage of many of the Soviet Diplomatic activities in Mexico. It was able to show the relationships maintained between the Soviet and Satellite missions in Mexico, as well as the increased official contact between the Cuban and Soviet governments.

MEXI-4304, 21 August 1959, Meeting os Soviet and Cuban Ambassadors to Mexico.
HMM-4618, 20 November 1959, Increased Relations of the Soviet Embassy in Mexico with the Latin American Diplomatic Missions.
HMM-4768, 8 February 1960, Preparation of Soviet Propaganda in Mexico for Shipment to Cuba.

3) Soviet Cultural Activities:

LIFEAT has provided detailed information concerning the Soviet cultural activities in Mexico. Examples of such reports are:

HMM-4415, 5 August 1959, Soviet Plans to Bring Soviet Exposition to Mexico.

[illegible] CS COPY ~~SECRET/KAPOK~~

HMM-4449, 28 August 1959, Soviet Plans to Bring Pyatnitskiy Chorus to Mexico from Canada.

HMMA-14677, 16 March 1960, Soviet Cultural Activities.

4) Background Information on, and Movement of, Soviet Officials:

Through LIFEAT information, the Station has been able to maintain a current roster of the Soviet Embassy personnel assigned to Mexico. LIFEAT has been further utilized to give information on job assignments within the Soviet Embassy, and to determine in advance departures, arrivals, and replacements of Embassy personnel. Large quantities of background personality information concerning the official and private lives of members of the Soviet staff were also provided.

HMM-4323, 11 June 1959, Scheduled Travel of Soviet Officials.
HMMA-14065, 6 November 1959, Activities of Soviet Ambassador Vladimir Ivanovich BAZYKIN.
HMMA-13614, 24 August 1959, Retirement System for Soviet Diplomats.

5) Goods and Services:

Throughout the past year, LIFEAT information has been of use to Project LIMESA. Of particular note have been leads concerning various properties in which the Soviets were interested.

6) Miscellaneous Activities of the Soviet Embassy:

LIFEAT material which does not fall into any one category but which deals with the Soviets and their associations and related activities has been reported as necessary.

B. Czech Legation*

Information obtained on the Czech Legation during the period under review was essentially the same as that obtained from the Soviet Embassy. Although this target was covered only from July 1959 to January 1960 (due to the security problem posed by extensive telephone company cable renovation work in the vicinity of the basehouse serving the target), valuable intelligence was gained during the period of actual coverage. Examples of reports from this source are:

HMMA-13295, 10 July 1959, Czech Legation Activities.
HMMA-13522, 14 August 1959, Czech Embassy Activities.
HMM-4513, 30 September 1959, Czech Interest in Importing Mexican Copper.
HMMA-13919, 9 October 1959, Czech Diplomatic Couriers.
HMM-4576, 6 November 1959, Czech Plans to Setup Commercial Company in the Free Zone of Curacao.

(*Czech Legation raised to Embassy status during July 1959)

C. The Polish Legation

The type of LIFEAT information gathered on the Polish Legation closely parallels that gathered from the Soviet and Czech targets. LIFEAT remains the primary source of information on this target.

HMM-4458, August 1959, Proposed Mexican Art Exhibit in Poland.
HMMA-13718, 11 September 1959, Influence of Polish Minister on Mexican U. N. Voting.
HMM-4482, September 1959, Polish Commercial Interest in Cuba.
HMM-4544, 23 October 1959, Polish Commercial Activities.
HMMA-14843, 20 April 1960, Activities of Polish Technical Investigators.
HMMA-15055, 27 May 1960, Activities of Alexander BEKIER.

D. American Communists in Mexico

Most of the targets in this group have been covered at the request of ODENVY, and the production has been partially processed by them. Approximately 370 reels were passed to ODENVY for their processing during the period June 1959 - April 1960. The most valuable type of information obtained on these targets deals with travel, contacts, and activities of the American Communist Group in Mexico (ACGM). The following is a sample of the reports furnished through coverage of this target group.

HMMA-13792, 25 September 1959, Albert and Margaret MALTZ.
HMMA-14191, 4 December 1959, Albert MALTZ.
HMMA-14885, 27 April 1960, Maria WICHER.
HMMA-15135, 10 June 1960, Noah SEBORER.
HMMA-15144, 15 June 1960, Maria WICHER.

E. Cuban Embassy

LIFEAT has provided timely information on the activities and personalities of the Cuban Embassy. Of particular interest has been the indications provided by LIFEAT of closer relations and increasing contact between the Cuban and Soviet officials in Mexico. LIFEAT was also able to provide a firm indication of the Soviet-Cuban announcement of resumption of diplomatic relations two weeks in advance of the actual event. Examples of LIFEAT Cuban coverage are:

HMM-4489, 24 September 1959, Recall of Cuban Military Attaches in Mexico.
HMM-4649, 4 December 1959, Pro-Cuba Publication in Mexico.
HMM-4907, 27 April 1960, Projected Joint Announcement by Cuban and Soviet Governments.
HMM-4919, 29 April 1960, Travel to Cuba of Soviet Ambassador in Mexico.

F. Exile and Revolutionary Activities

LIFEAT continued to provide information on the exile and revolutionary groups active in Mexico. Coverage of the Nicaraguan Communist exiles was particularly rewarding for the operational information provided.

HMM-4317, 12 June 1959, Letter from a Guatemalan Communist Concerning the Seventh World Festival of Youth.
MEXI-4271, 13 August 1959, Travel of Nicaraguan Communists.
HMM-4450, 4 September 1959, Nicaraguan Revolutionaries' Efforts to Meet a Former President of Mexico.
MEXI-4488, October 1959, Travel of Dra. Concepcion PALACIOS Herrera, Nicaraguan Communist.
HMM-4967, 25 May 1960, Activities of Rafael RAMIREZ Delgado.

G. LAURICLE Information

During the period of the project review, LIFEAT, as in the past, continued to contribute materially to several matters of LAURICLE interest.

H. Counter-Intelligence Information

CI/CE matters continued to constitute a major portion of the Mexico City Station's priority objectives during the review period. Project LIFEAT was able to provide a substantial contribution to the attainment of these objectives. Of particular note in this respect has been coverage provided on known Communist Party members, especially valuable being that provided on Juan Luis CAMPOS Villalobos.

I. Operational Leads and Support Provided Other Station Operations

During the period covered by this project review, LIFEAT continued to support the Mexico City Station through its timely production of leads which were especially useful, and in most cases essential, in assuring the success of other Station operations. The following is a list, necessarily selective, of the use made of leads from, and support of other projects rendered by Project LIFEAT.

LIFEAT/LIMERICK: 1) Of special note is the support provided to the Station's AEIMPULSE operation. Leads and information rendered by LIFEAT enabled the responsible Case Officer to prepare adequately for this recruitment attempt of an officer of the Soviet Embassy. Following the actual attempt, LIFEAT/LIMERICK was used as a security device to protect the Station assets employed in the operation. 2) As noted in I A. (5) above, Project LIMESA was provided with continuing support by Project LIFEAT. Notable among the information and leads provided were those concerning specific properties which the Soviets were interested in renting and/or buying. 3) LIFEAT has provided a check on double-agent LITARDY-1, giving verification of his activities and contacts. A similar check has also been provided on the activities of informant LIPAGAN-1.

LIFEAT/LIVERY: 1) This phase of LIFEAT closely supported the projected LITACIT physical penetration operation aimed at the LIVERY establishment in Mexico City. LIFEAT provided essential information on the rosters of night duty officers as well as background information on the target. 2) LIFEAT/LIVERY provided support for the installation of technical surveillance against LITACH. Without the information provided by LIFEAT, this operation would have been extremely hazardous at best, and probably would have been entirely impossible.

LIFEAT/LITMUS: 1) LIFEAT provided information which lead to the successful recruitment of agent BEYAN who was in a position to provide information on BESOOT. 2) LITMUS leads also lead to the attempted, but unsuccessful, recruitment of one Una WARREN, believed to have been a contact of Polish officials in Mexico. 3) LIFEAT leads also lead to the surveillance of a clandestine meeting of Alexander BEKIER, Polish Counselor of Legation in Mexico. Due to the advance notice of the meeting given by LIFEAT, MKCHARITY was given time to plan technical coverage of the meeting and prepare especially fabricated equipment for this coverage. 4) LIFEAT was also responsible for the discovery of the location of a Polish Intelligence basehouse. This information was operationally important to the responsible Case Officer.

LIFEAT/LIERODE: In this phase of the LIFEAT project leads have been most rewarding in terms of agents actually recruited and operations supported by LIFEAT provided information. 1) LIERODE produced leads which were directly responsible for the recruitment of agents LITANGO-1 and LITAMIL-3, while providing security check and information which have increased the value of agent LITANGO. 2) The defections of LITAINT-1 and LITAG-1 were greatly aided by LIFEAT leads and information. The internal reaction to the defections in the target establishment were also readily available through LIFEAT. 3) At present LIERODE is providing coverage, both from a security and informational standpoint, of the attempt to place a recruited agent as Mexico-based advisor to a high official of the Cuban Intelligence. This operation is largely dependent upon LIFEAT leads and support for security coverage of the agent's activities. 4) LIFEAT/LIERODE has been unusually successful in providing information which has enabled the Station to identify nearly all the Cuban agents operating in Mexico. Due to the increasing importance of the Cuban target, these revelations are of utmost importance.

Coverage of a CI/CE nature was provided by LIFEAT targeted against a recruited member of the Mexican Communist Party, and has produced leads on semi-clandestine travel of party members behind the Iron Curtain, as well as providing a check on the veracity of the agent.

Project LIFEAT has been employed also in support of the highly sensitive LIEMIT operation.

J. Conclusion

It is the opinion of the Mexico City Station that the support provided to other Station operations, the CE information obtained, and the positive intelligence gathered by Project LIFEAT well justify the expenditure of KUBARK assets in terms of funds, personnel, time and security risk. The information produced by this operation has materially contributed to several priority objectives of the Station's Related Mission Directive.

K. There is attached herewith a complete list of HMMs produced from LIFEAT provided material during the period July 1959 through May 1960. (See attached sheet.)

II. Progress of the Operation

Since the Project LIFEAT objectives are unique in that they are of a continuing nature and not designed to be fulfilled within a given period, no statistics can be cited from which a percentage of coverage on each objective can be calculated. A general indication can be given of the coverage provided by the project when it is noted that approximately 15,000 pages of raw text were provided in the July 1959 to May 1960 period. LIFEAT has been in daily operation during the review period with the number of lines covered varying from 12 to 18. Generally, these can be broken down as follows:

Soviet Embassy	5 lines	
Polish Legation and Polish Counselor	3 lines	
Czech Legation (Embassy)	2 lines	(Coverage suspended January '60 for reason given in I. B above)
American Communists	2 lines	
Cuban Embassy	3 lines	
Targets of Opportunity	3 lines	

III. Planning for the Future

Following the suggestion and guidance provided by Headquarters when renewing Project LIFEAT for FY 1960, the Station plans to limit its coverage to no more than twenty lines at any given time, with the possible exception of targets of opportunity which could be covered for short periods in addition to the normal coverage. The coverage of Soviet and Satellite installations will remain basic to LIFEAT and will be exploited to the maximum degree possible. Due to the increased importance of information on Cuban activities, coverage of the Cuban Embassy and personnel staffing the Embassy will be increased during the coming project year. Targets of Opportunity will continue to be exploited as permitted by personnel, equipment, and access limitations.

IV. Performance of Agents

The general overall performance of the agents employed under LIFEAT continued to be good with security being stressed in all phases of the operation. No security problems were encountered which were not readily solved by the personnel concerned. Since a high degree of security is required for the operation of LIFEAT, it is planned that any possible agent candidates will be thoroughly screened and Headquarters clearance obtained before they are in any way approached for operational use.

V. Expenditures During the Period Under Review

Approval for the renewal of Project LIFEAT was granted on 16 July 1959, for the period 1 July 1959 through 30 June 1960, in the amount of $123,830. ~~In its continuing attempt to provide practical economy without decreasing operational efficiency, Station Mexico submits the itemized proposed LIFEAT budget for FY 1961 (contained in the attached Field Project Outline, Part II) in the amount of $114,411, a reduction of approximately $19,000 from the previous year's approved budget.~~

VI. Status of Commitments

There are no commitments other than those provided for in the project outline submitted herewith and the individual contracts of several LIFEAT personnel.

~~SECRET/KAPOK~~

PROJECT OUTLINE

PROJECT LIFEAT

PART I

1. **Area of Operations**

This project is run from the Mexico City Station, and is concerned with targets located in Mexico City.

2. **Purpose**

The purpose of this project is to determine Soviet and Satellite plans, activities and connections with other Communist elements through the use of technical surveillance. This purpose is in consonance with the Related Mission Directive for Mexico, dated 20 November 1959, Priority A, Objective one.

3. **Background**

Project LIFEAT was originally approved on 3 October 1950 as a unilateral telephone tap operation. Actual initiation of operations was on 18 January 1951, and the project has run continuously from that date. The project was begun with the installation of one telephone tap, and has been expanded to the present average coverage of 18 lines.

Project LIFEAT is a unilateral operation completely independent from any liaison arrangement. It is staffed by KUBARK staff and contract employees with a substantial number of local indigenous controlled agents.

During the past nine years, Project LIFEAT has produced more than 64,000 pages of operational and intelligence information in direct support of the Mexico City Station's objectives specifically, and has contributed materially to the intelligence gathering activities connected with the Soviet and Satellite Bloc. In addition, Project LIFEAT has been of considerable value and assistance in monitoring the activities of the American Communist community residing in Mexico City as well as activities of Cubans and exiles in Mexico.

4. **References**

a. HMMA-12936, 22 May 1959, Renewal Request for FY 1960.

~~SECRET/KAPOK~~

b. HMMW-7955, 14 August 1959, Approval of Renewal Request for FY 1960

5. **Objectives**

a. To identify Soviet and Satellite intelligence personnel and to collect information on the nature and extent of their clandestine intelligence and propaganda activities in Mexico.

b. To collect information on Soviet and Satellite commercial, diplomatic, cultural and military personnel and their activities in Mexico.

c. To collect biographic information of Soviet and Satellite officials.

d. To collect information of the movements, assignments and positions of Soviet and Satellite personnel.

e. To collect biographic information on Cuban officials assigned to Mexico and provide coverage of their activities.

f. To collect information on prominent Mexican Communists and pro-Communists and their activities.

g. To collect information on prominent Communists, other than Mexicans, active in Mexico and to identify them and their associates.

h. To collect information on exile groups active in Mexico.

i. To collect information on targets of opportunity in Mexico.

6. **Targets** (as related to project objectives)

For objectives "a" through "d",

a. Selected Soviet Embassy and commercial office telephone conversations.

b. Selected Satellite office and home phones.,

For objective "e",

c. Telephone conversations from the Cuban Embassy and selected telephone calls from residences of Cuban officials.

For objective "f",

d. Telephone conversations from the residences of senior Communists and prominent pro-Communists.

For objective "g",

e. Telephone conversations from the residences of known American Communists residing in Mexico City.

For objective "h",

f. Telephone conversations originating from the residences of offices of prominent exile leaders in Mexico City.

For objective "i",

g. Telephone conversations which can be monitored from targets of opportunity.

7. Tasks

Case Officer - Edward P. SECHEN
Assistant Case Officer - Jeremy L. NIARCOS

a. Supervise the operational and administrative activities of all LIFEAT staff, contract, and indigenous personnel.

b. Maintain awareness of and provide direction in all operational matters pertaining to the management of the LIFEAT Project.

c. Provide guidance and day-to-day supervision of the operational phases LIFEAT/LIMERICK, LITMUS, LIVERY, LIERODE, and the American Communist Group in Mexico activities.

d. Coordinate information received from LIFEAT/LIMERICK with other Station Mexico operations.

e. Maintain LIFEAT capabilities for mounting operations against targets of opportunity.

f. Maintain supervision over basehouses, equipment, and training of personnel assigned to the LIFEAT operation.

8. Coordination

a. Information produced by LIFEAT, primarily a Station support operation, is closely coordinated with other operations at the Mexico City Station. No operational coordination is required with any other area, but they are kept advised of any information produced by LIFEAT which may be of interest to them.

b. Project LINOG which supports the principle outside LIFEAT Case Officer, David M. WILSTED, is effected in coordination with Project LIFEAT.

9. Personnel

a. Staff Agents:

Ralph B. RAFANELLI - under unofficial commercial cover (201-176295)

b. Contract Agents/Employees:

1. David M. WILSTED (201-009195) - principle outside Case Officer. Career Agent
2. Alice M. CAILLETEAU (201-119967) - clerical work C-47041
3. Olivia N. GLADMON (201-117751) - processes tapes and does clerical work C-46946
4. Carol K. ZINSMEISTER (201-117968) - processes major portion of LIFEAT take. C-24742
5. Wallace L. KAWOHL (201-033959) - basehouse operator C-3977
6. CSR-24 June 1958 → Leona C. GANDARA (201-225710) - LIFEAT clipping. C-61657
7. Woodrow D. GABBOTT (201-14465) - processor for LITMUS tapes under Project LESMUTH

c. Field Agents:

1. LIFEUD-1, OA granted 17 October 1950, (201-183704) C-739
2. LIFEUD-2, OA granted 14 August 1951, (201-117970) C-1412

3. LIFEUD-3, OA granted 14 December 1953, (201-117971) C-7152
4. LIFEUD-4, OA granted 1 October 1953, (201-117743) C-6970
5. LIFEUD-5, OA granted 16 December 1953, (201-117744) C-7496
6. LIFEUD-6, OA granted 28 September 1954, (201-117978) C-30465
7. LIFEUD-7, OA granted 21 October 1954, (201-117980) C-31921
8. LIFEUD-8, OA granted 31 March 1955, (201-119521) C-33172
9. LIFEUD-9, OA granted 27 April 1956, (201-117984) C-45672
10. LIFEUD-10, OA granted 13 September 1956, (201-114085) C-50464
11. LIFEUD-11, OA granted 21 August 1956 (201-113595) C-50455
12. LIFEUD-12, OA granted 6 August 1956 (201-113596) C-50157
13. LIFEUD-13, OA granted 13 September 1956 (201-115833) C-50750
14. LIFEUD-14, OA granted 26 September 1956 (201-117972) C-32015
15. LIFEUD-15, OA granted 19 January 1957 (201-126315) C-54096
16. LIFEUD-16, OA granted 2 July 1958 (201-222786) C-70322
wife of LIFEUD-14 → 17. LIFEUD-17, OA granted 13 August 1956 (201-114036) C-63107
wife of KAWCHL → 18. LIFEUD-18, OA granted 2 October 1957 (201-185370) C-50457
19. LIFEUD-19, OA granted 18 May 1960 (HMMA-14933) (201-262488)
mother of Raymond H GERENDE (LIEMPTY) assists with LIVERY basehouse. C-79349

d. No personnel were dropped from the project during the past project year.

10. Operational Clearances:

See section 9 above.

11. Cover

The cover of personnel employed in Project LIFEAT remains the same as noted in the last project renewal.

12. Contact and Communications

a. Daily contact is maintained between the Case Officers and the agents in this project. These contacts are made in a clandestine manner with varing patterns established for car pickups, foot contacts, and emergency meetings. Pre-arranged signals are employed in setting and accomplishing the meetings. When heavy or bulky material is to be passed, meetings are held at night. All movement in and out of the basehouses by the Case Officers and Principle Agents is done in cars ostensibly owned by agents, except in the case of LIVERY basehouse where the agents are too old to drive. One of the indigenous agents is used to contact LIVERY base. Entrance to basehouses on foot by other than the residents of the house is made only in great emergencies.

b. Telephone contact concerning the project and with the agents is kept to a minimum. Pre-arranged open code is used for phone conversations between Case Officers and agents.

c. Alternate and emergency signals have been arranged and are reviewed frequently by the personnel using them.

d. These systems of contact and communication appear suitable for the project and function adequately from a security viewpoint. Locations and times of meetings are reviewed periodically and are changed frequently to decrease the possibility of discovery.

13. Control and Motivation

Control and motivation are primarily based on two factors: ideology and financial gain. A secondary factor is the fear of reprisal from the local police should discovery occur.

14. Training

Initial training of new personnel and refresher training for experienced agents is handled primarily by the outside case officer, David M. WILSTED. Minor repair and maintainance of equipment as well as emergency security procedures are stressed and continually reviewed with the agents.

15. Equipment and Support

It is believed that much of the technical equipment upon which the continued successful collection of LIFEAT material depends will require replacement in the near future. The largest percentage of this equipment has been in nearly continuous operation from the initiation of the project in January 1951 and much of this equipment is no longer being manufactured. When present limited commercial stocks of replacement parts are exhausted, new units will be required for LIFEAT.

16. Timetable

LIFEAT has been in almost constant operation since its inception in January 1951 and it is planned to continue it indefinitely.

PROJECT OUTLINE

PART II

PROJECT: LIFEAT

17. Estimated Costs

The following are the estimated costs for FY 1961. All figures are U.S. dollars per year. ($1.00 dollar U.S. equals 12.50 Mexican pesos) Due to the continued rise in the cost of living, and especially to the expected increase in rental costs that is a chronic feature of the Mexico City scene, a moderate increase in some LIFEAT costs will be noted, ~~even though the overall total requested is $10,419 under that approved for FY 1960.~~

a. Salaries:

1. Staff and contract Personnel

Ralph B. RAFANELLI GS-10	995.00
Salary	$ 6,~~505.00~~
Quarters	2,304.00
Carol K. ZINSMEISTER (salary)	5,500.00
Alice N. CAILIETEAU (salary)	2,000.00
Olivia N. GLADMON (piecework)	4,200.00
Wallace L. KAWOHL (salary)	1,728.00
Leona C. GANDARA (salary)	900.00

$ 23,137.00
490.00
$ 23,627.00

2. **Field Agents**

LIFEUD-1		5,760.00
LIFEUD-2		2,496.00
LIFEUD-3		1,776.00
LIFEUD-1's helper		144.00
LIFEUD-4		1,920.00
LIFEUD-5		3,648.00
LIFEUD-6		3,500.00
LIFEUD-7		2,400.00
LIFEUD-8		2,400.00
LIFEUD-9		1,920.00
LIFEUD-10	No Salary	
LIFEUD-11	No Salary	
LIFEUD-12	No Salary	
LIFEUD-13	No Salary	
LIFEUD-14		3,648.00
LIFEUD-15		768.00
LIFEUD-16		1,440.00
LIFEUD-17	No Salary	
LIFEUD-18	No Salary	
LIFEUD-19		960.00

Due to the continued rise in the cost of living, plus the fact that the majority of the above listed field agents have not received a pay raise in recent years even though the work load increased and the quality of work performed has imporved, it is anticipated that the 10% over-all pay raise provided for, but not given, in FY 1960 will be necessary in FY 1961:

3,200.00

Christmas bonus (In accordance with local custom, this amounts to one month's pay for each agent) and gifts where necessary:

3,000.00

$ 38,930.00

SECRET/KAPOK

b. Basehouse rentals, utilities, and expenses:

LIMERICK Main Base	$ 1,920.00	
LIVERY Relay Base	504.00	
ANNEX IV	2,760.00	
ANNEX VI	1,920.00	
ANNEX VII	1,728.00	
ANNEX VIII	3,072.00	
ANNEX IX	2,880.00	
Proposed Relay Base	480.00	
Plus 10% customary increase in rent when lease contract renewed	1,600.00	
		$ 16,864.00

c. Equipment:

Local purchase of emergency and special equipment	$ 2,500.00	
New equipment such as reels and recorders	3,000.00	
		5,500.00

d. Miscellaneous:

1. Expendable supplies such as paper, paper tape, etc.	2,000.00

2. Transportation

RAFANELLI QP Car	600.00
ZINSMEISTER mileage	400.00
LIFEUD-5 car rent	290.00
LIFEUD-7 car rent	675.00
LIFEUD-8 car rent	675.00
LIFEUD-14 car rent	290.00

att to HMMA 15252 SECRET/KAPOK 50-6-34/1

3. Other operational expenses (covering loss of deposits, fatalities, termination payments*, medical payments, emergency moving bills, renovation of basehouses, expenses in covering targets of opportunity)	~~25~~ 9,000.00	
		$ ~~29,930.00~~ 13,930.00
GRAND TOTAL		$ ~~114,411.00~~ 98,901.00

---

*Any termination of indigenous personnel will be in accordance with Mexican law and will include lump sum separation settlement, transportation and moving expense payments, and any bonus due at the time of termination.

MEMORANDUM FOR: Chief, WH

SUBJECT : Renewal of WH Division FI/CI Projects over $100,000

1. There is set forth below a list of WH Division FI/CI Projects, with an authorization of over $100,000, which expire as of 30 June 1960:

Project	Authorization
LIFEAT	$123,830

2. Possibly renewal actions are already in course of preparation for the above projects. If not, however, it is strongly urged that appropriate project action be submitted as soon as possible, and in any event not later than 15 July, so that these renewals can be submitted to DDCI for approval in timely fashion.

3. The same request applies to any other WH Division FI/CI projects, currently authorized for amounts under $100,000, if renewal will request authorization in excess of that figure.

DISPATCH	CLASSIFICATION S-E-C-R-E-T	DISPATCH SYMBOL AND NO. HMMW-7955	
TO : Chief of Station, Mexico City INFO		HEADQUARTERS FILE NO. 50-6-32/1	
FROM : Chief, WHD		DATE [illegible]	
SUBJECT : LIFEAT Project Renewal		RE "43-3" — (CHECK "X" ONE)	
			MARKED FOR INDEXING
		X	NO INDEXING REQUIRED
ACTION REQUIRED : Exploitation of LIFEAT leads			INDEXING CAN BE JUDGED BY QUALIFIED HQ DESK ONLY
REFERENCE(S)			

1. The LIFEAT Project renewal submitted in HMMA-12936 was approved on 16 July 1959 for the period 1 July 1959 through 30 June 1960 for a total of $123,830 for fiscal year 1960. The Station will note that monies requested for the support of Woodrow D. GABBOTT (ps) were subtracted from the request made by the Station for project funds. GABBOTT is supported by the BESMOOTH Project, an EE support project.

2. The following staff comments were made when the Project was submitted for approval:

a. "RQM has continued its rating of "C" on the disseminated positive information from the Project, noting a slight increase in the disseminations, and commenting that it provides interesting information to customers on the nature and extent of Bloc commercial activities in Mexico, data useful in economic analyses, and reports on exile activities in Mexico.

b. "KUTUBE/D recommended renewal of LIFEAT observing that the leads produced by the operation have been of operational value to LAURICLE activities conducted in Mexico City in the past year. KUTUBE/D comments also that the Project has afforded and can be expected to continue to afford CE protection from time to time for activities of particular LAURICLE interest.

c. "KUTUBE/OPS has observed that Project LIFEAT has been a most useful operational asset in the Mexico City Station for the past nine years, continuously providing KUBARK with a window into important targets. KUTUBE/OPS requests that the next project renewal point out what agent recruitments by the Station have resulted from or been supported by the operational information secured by the project.

d. "KUDESK commented that it well known that Mexico is being used by the RIS as a base for third country operations directed against the United States. Over a period of years LIFEAT has supplied valuable leads which have resulted in the identification of a large number of persons in clandestine contact with RIS officers; further investigation in several cases produced information which strongly indicated that the persons involved were actively assisting the RIS. While such information is, of itself, of interest and importance, our responsibility in the CI field imposes the obligation to determine what those persons are doing for the RIS and this can be done only by recruiting and doubling them. It is therefore suggested that LIFEAT leads and reports of investigations based on them be reviewed for the purpose of selecting a limited number of the more promising targets. Thereafter, Station assets including LIFEAT should be used to obtain the operational data necessary to determine that a target is recruitable, and then a pitch should be made. Much time and effort will be required for such a program, but the potential rewards fully justify it, and the value of LIFEAT, as a CI asset, will be materially increased.

3. Chief, KUTUBE, in recommending the Project for renewal to Deputy Director, KUBARK, requested that at the time of the next Project renewal, the Division should review the relationship and coordination of Project LIFEAT operations with those active and proposed under Project LIENVOY.

50-6-32/1

4. In addition to the formal comments cited above, during the process of obtaining approval for LIFEAT, the Project was subject to various and sundry criticisms in its present form. Therefore, Headquarters suggests that the Station bear this in mind and during the coming year make every effort to increase the operational value of this Project. If the LIENVOY Project is a success operationally and the leads are followed up and developed, WH Division anticipates that it will encounter difficulty in obtaining approval of a similar Project as large and as expensive as LIFEAT unless it is demonstrated to the complete satisfaction of Headquarters that the expense involved in the LIFEAT Project is justified and that the results of the exploitation of project developed leads prove useful in attaining the Station CS objectives. Among the comments received are:

a. Although the purpose and objectives of the project as stated in the FPO call for the collection of information, the operational intent is to make use of this information for an eventual recruitment of Sino-Soviet and Satellite diplomats and/or their contacts. It is realized that diplomats who are susceptible to defection or recruitment in place are few and far between and that the Station is always alert for such targets and is conscientious in their development. However, the Case Officer should keep in mind the more easily accessible and more vulnerable (though secondary) targets, i.e. the many contacts, friends, employees, etc. whose development could well lead to the primary targets. Headquarters feels it is this secondary category where more emphasis can be made. The recruitment in place of such individuals could be extremely valuable for the entire CI/CE program of the Station.

b. The lack of development and exploitation of leads from LIFEAT operations has been raised many times. In view of the limited reporting to Headquarters on the exploitation of operational leads, it has been difficult to state whether the leads are being followed up, who the targets are, and whether consideration is being given to recruitment approaches. Headquarters requests that in each monthly summary the Station supply more info under the section labeled "Exploitation of Leads". The statement "leads resulting from LIFEAT information are followed up by other Station assets" is meaningless without some explanation of the lead follow ups. Headquarters would like to know the names and some operational information concerning the persons who seem to be of most interest and who have been under investigation during the period covered by the monthly summary.

5. On page 6 of your covering memorandum on the FPO (HMMA-12936), you indicate that during the coming year the Station expects to expand its coverage to approximately 24 lines. Headquarters would like to suggest that consideration be given to limiting coverage to a number of lines which can be effectively exploited.

6. It is requested that Headquarters be informed in more detail in all cases where information obtained through LIFEAT has been used to support other important Station operations.

OLIVER G. GALBOND

MEMORANDUM FOR: Chief, FI

SUBJECT : Project LIFEAT Renewal

HEADQUARTERS CASE OFFICER:
Name: J. E. Brady
Room: 2114 Barton Hall
Ext.: 2555 or 5172
Date: 15 June 1959

1. It is requested that the LIFEAT Project be renewed for the period 1 July 1959 through 30 June 1960 for a total of $135,145.00.

2. Attached is the Field's Project Review, together with a revised Project Outline, which clearly set forth the present status of the Project. It is believed that the activity described herein continues to justify the time and expense involved, and hence merits renewal for the forthcoming year.

3. In March 1959 we asked the Federal Bureau of Investigation for their evaluation of the usefulness of information on American Communists which originated from LIFEAT and whether they wished to continue receiving such information. On 2 April 1959, the Federal Bureau of Investigation replied that the information has been of value to them from intelligence and investigative viewpoints and they wish to continue receiving such information.

4. LIFEAT was the source of information concerning the plans of Albert MALTZ and his wife for their trip to Europe and behind the Iron Curtain in May, June and July 1959. Through LIFEAT we learned that they were planning to try to contact Alfred Kaufman STERN and his wife Martha Dodd STERN and Maurice and Edith HALPERIN, American Communists who fled behind the Iron Curtain during the past two years. Based on information made available through LIFEAT, Headquarters has made arrangements for the MALTZ' to receive baggage searches and discreet surveillances at various points on their trip.

5. The Czech and Polish Desks in EE Division and the appropriate Desk in SR Division were asked to comment on the value of LIFEAT to them. All desks agreed that LIFEAT was a very valuable source of general background information on the Soviet, Czech and Polish diplomats and often provided information which could be obtained through no other source. The Czech Desk commented that LIFEAT was of most value as a support asset to the Station, providing leads which might be developed into operational assets by the Station personnel. In May 1959 the Polish Desk sent

Woodrow C. GABBOT (re-see LIFEAT personnel section) to Mexico PCS to process the take from the LITHUS phase of LIFEAT. They feel that with this Contract Agent processing LITHUS, this phase will greatly increase in value during the coming year. GABBOT will be in a position to call operational leads to the attention of the Station Case Officer immediately for exploitation. SR noted that LIFEAT has been an invaluable support asset for [illegible] and has been at times the only source of information for the important SR operation.

6. The State Department evaluated LIFEAT reports on the following subjects to be of value and probably true. They wish to continue receiving reports on these subjects.

"Soviet Commercial Activities in Mexico"
"Soviet Attempt to Barter Equipment for Mexican Coffee"
"Soviet Commercial Activities in Mexico"

ORR evaluated a report on "Soviet Attempt to Barter Equipment for Mexican Coffee" and a report on "Polish Embassy Interest in Mexican Copper Concentrates" to be of value.

1. According to Headquarters records, LIPSTICK-17, LIPSTICK-22, LIQUATION-4, and LIMITATION-7 have been cleared for use in the LIFEAT Project. Since the above mentioned agents are not included in the LIFEAT Field Project Outline, you are requested to notify Headquarters whether or not you wish their clearances to be kept active for future use in the Project. Please forward Agent Service Records on those who have been terminated.

2. You are also requested to submit an Agent Service Record for LIMESTONE-10 who, according to the referenced dispatch, was terminated last year for security reasons.

ACTION REQUIRED: Renewal of Project LIFEAT for FY 1960

REFERENCE(S): REF: HMM-W-6820, 24 Sept. 1958

1. There is attached a Review of Project LIFEAT for the period 1 July 1958 to 30 June 1959.

2. Part I of the Outline has been revised this year. Station Mexico felt that with the number of revisions which have been made since a complete project renewal request was submitted for FY 1958, this was warranted. It should be noted that for purposes of uniformity all indigenous personnel in the LIFEAT complex have now been given on cryptonym and at present this breakdown goes from /1 to /16. Any future personnel changes will be added to this numbering series.

3. Part II is submitted in its entirety.

4. It is requested that Project LIFEAT be renewed for FY 1960 for the amount indicated herein.

PROJECT REVIEW - LIFEAT

1. **Product of the Project**

The Soviet Embassy

a. Soviet Commercial Activities;

During the past year reports submitted from screening the LIFEAT/LIMERICK take of the two established Soviet commercial offices have provided a great amount of detail concerning Soviet efforts to sell in the Latin American market. Following is a list of a few of the reports submitted as a result of the intelligence gained from this source;

HMM-[illegible], 27 Aug. 1958 - Soviet Commercial Activities in Mexico

HMM-[illegible], 21 Jan. 1959, Soviet Commercial Activities in Mexico

MEXI-[illegible], 2 Feb. 1959, Identity of Soviet Technician

HMM-[illegible], 18 Feb. 1959, Soviet Commercial Activities in Mexico

HMM-[illegible], 18 Mar. 1959, Soviet Commercial Activities in Mexico

HMM-[illegible], 10 Apr. 1959, Commercial Contact of USSR and Poland in Mexico

HMM-[illegible], 17 Apr. 1959, Soviet Commercial Activities in Mexico.

b. Soviet Diplomatic Activities;

This project has provided coverage and details of some of the diplomatic activities of the Soviets in Mexico. It has served to show the relationships maintained, culturally, socially and diplomatically between the Soviets and the members of the Satellite establishments in Mexico.

HMM-A-11723, 17 Dec. 1958, Soviet Embassy Reception on 7 Nov. 1958

HMM-A-11794, 24 Dec. 1958, Soviet Delegates to Inauguration of President Adolfo LOPEZ Mateos

~~SECRET KAPOK~~

52-6-32/1

c. Soviet Cultural Activities:

Information produced by LIFEAT has given details of Soviet activities in connection with cultural activities. Examples of such reports are:

HMM-A-11594, 26 Nov. 1958, Soviet Representative at World Film Festival Held in Mexico City, 10-28 Oct. 1958 - Ivan A. PYRYEV

HMM-A-12225, 25 Feb. 1959, Soviet Participants in Pablo CASALS International Competition Held in Jalapa 18 Jan. - 1 Feb. 1959

HMM-3923 , 31 Dec. 1958, Pablo CASALS Participants

HMM-4004, 2 Feb. 1959, Pablo CASALS Competition Participants

MEXI-3634, 2 Apr. 1959, Contact with Chinese Ballet Troupe

d. Movement of Soviet Officials:

Through LIFEAT coverage a roster of Soviet personnel currently in Mexico has been maintained by Station Mexico. This has been the primary source of such information. LIFEAT has enabled the Station to determine in advance when departures can be expected and has also been a factor in determining job assignments and replacements for departing personnel.

e. Soviet Embassy Contacts:

Contact reports of the Soviets are compiled and provided for Headquarters as necessary. These reports are of considerable operational value in identifying regular and/or occasional local and foreign contacts of the Soviets. Following are examples of this type of coverage:

HMM-A-12295, 4 Mar. 1959, Soviet Contacts in Mexico - Haile ATSBEHA, Ethiopian

HMM-A-11838, 7 Jan. 1959 - Orville M. MULLIKIN

f. Personality Reports on Soviet Officials;

LIFEAT has provided the Station with the most productive source of information concerning the private and official lives of the Soviets assigned to Mexico. These reports have been submitted on individuals, e.g., HMM-A-11463, 5 Nov. 1958, Activities of Yevgeniy M. POPOV, Third Secretary, Soviet Embassy, Mexico City, June 1957 - October 1958; HMM-A-11569, 10 Dec. 1958, Boris G. PUTILIN, Employee, Military Attache Office, Mexico City; HMM-A-12755, 30 April 1959, Boris M. STRELTSOV, and HMM-A-12000, 28 Jan. 1959, Aleksandr M. BROVKIN.

g. Goods and Services;

Information on Goods and Services obtained from LIFEAT was used in Project LIMESA.

h. Miscellaneous Activities of the Soviet Embassy;

LIFEAT material which does not fall into any one category but which deals with the Soviets and their associates and related activities has been reported as necessary.

The Czech Legation

The information obtained on the Czech Legation during the period under review is essentially the same as that from the Soviet Embassy. Representative of the reports submitted from this information are the following personnel reports;

HMM-A-12069, 4 Feb. 1959, Alois LICEK

HMM-A-12067, 4 Feb. 1959, Jaroslav KREJZA

HMM-A-12091, 4 Feb. 1959, Bedrich PISTORA and

HMM-A-12128, 11 Feb. 1959, Oldrich SPORCR.

The Polish Legation

Information on this installation parallels that on the Czech and Soviet installations. The largest amount of information concerning the Polish Legation has been procured from LIFEAT. Following are examples of reports from this source;

HMM-A-12420, 18 Mar. 1959, Contacts of Aleksandr BEKIER, Polish Counselor

HMM-A-10883, 20 Aug. 1958, Mieczyslaw WLODAREK, Polish Minister

HMM-A-12376, 11 Mar. 1959, Antonio O. MARCEYNSKY

HMM-A-12393, 11 Mar. 1959, Polish Legation publication.

Mexican Communist Party and Communist Fronts

A significant amount of information concerning the Communist Party in Mexico and the Communist front organizations in Mexico was obtained from LIFEAT. Information from LIFEAT has been invaluable in supplementing agent coverage of the front-organizations which exist here. Examples of this type reporting include;

[illegible] CP [illegible]

HMM-A-11411, The Narciso BASSOLS Family and Polish Legation

HMM-A-11412, 5 Nov. 1958, Travel of Narciso BASSOLS.

American Communists in Mexico

Most of these targets have been covered at the request of ODENVY and the production has been partially processed by them. A total of 572 reels was provided them for processing during a 10-month period ending 30 April 1959. Samples of the reporting done from this source include;

HMM-A-12719, 24 April 1959, Noah and Anna SEBORER

HMM-A-12013, 28 Jan. 1959, Anna and Noah SEBORER

HMM-A-12460, 20 Mar. 1959, Albert MALTZ

HMM-A-11851, 7 Jan. 1959, Albert MALTZ.

Foreign Dissident Groups in Mexico

LIFEAT provided partial coverage of Cuban exile groups and gave current information on the status of the "26 July Movement" prior to its overthrow of the BATISTA government in Cuba and has continued to provide information on the current status of the Cubans in Mexico.

LAURICLE Information

LIFEAT has contributed materially to several matters having LAURICLE interest.

Counter-Intelligence Information

CI/CE matters constitute a major portion of the Mexico City Station's priority objectives. Project LIFEAT has contributed to the attainment of these objectives. The two BGMORNING installations have provided valuable information for the responsible Case Officer on the matters involved therein.

Conclusion

The Mexico City Station believes that the product of the LIFEAT Project measured against the expenditure of KUBARK assets in terms of personnel, time, security risks and funds well justifies its renewal. The information produced by this operation has materially contributed to several priority objectives of the Station's Related Mission Directive.

2. Progress of the Operation

Definite progress has been made in reporting on the objectives of the LIFEAT Project. However, since LIFEAT objectives are of a continuing nature and are not designed to be achieved, no statistics can be cited as to the percentage of coverage on each objective. A general indication of the coverage can be derived when it is realized that some 10,000 pages of raw text in 10 months are the direct result of the operation from which the statistics cited above were derived. Except for a period in July and August 1958, following the termination of members of the James O. AYCALL family, LIFEAT has been in daily operation with some 12-16 lines being covered. These may be broken down as follows:

Soviet Embassy	5 lines
Czech Legation	2 lines(moved during this period and only in operation for approximately 2 months)
Polish Legation	3 lines(third installed in April 1959)
American Communists	3 lines
Remainder	5 lines.

3. **Planning for the Future**

During the coming year Station capabilities will be expanded to permit monitoring of approximately 24 lines. Basic coverage of Soviet, Czech and Polish activities will be continued to the maximum extent possible and assets and capabilities will be maintained for exploiting important targets of opportunity. At the present time and with the new system effected for LIFEAT lines, Station believes that 24 will be the maximum number of lines which can be properly handled and handled securely by the personnel currently available for LIFEAT.

4. **Performance of Agents**

In general the performance of the LIFEAT agents has been good and secure during the past year. The personnel from the AYCALL group were terminated during this period and compartmentation has been employed in the re-assignment of tasks among LIFEAT chain. In view of the high degree of security necessary for the personnel involved in this operation, it is planned to screen very carefully any possible candidates before they are approached for use in this operation after prior approval has been procured from Headquarters for an approach.

5. Expenditures during Period under Review

Approval was granted for the period under review, 1 July 1958 - 30 June 1959 to spend $159,590.00. The proposed LIFEAT budget for FY 1960 is contained in the attached Field Project Outline Part II.

6. Status of Commitments

There are no commitments other than those provided for in the outline and the individual contracts of several LIFEAT personnel.

Page 7

PROJECT OUTLINE

PROJECT: LIFEAT

PART I

1. **Area of Operations**

This project is run from the Mexico City Station. It is concerned with targets located in Mexico City.

2. **Purpose**

The purpose of this project is to determine Sino-Soviet and Satellite plans, activities and connections with other Communist elements through the use of technical surveillance. This purpose is in consonance with the Related Mission Directive for Mexico, Priority A, Objective One.

3. **Background**

Project LIFEAT was initially approved on 3 October 1950. Actual operations began 18 January 1951 and have run continuously since that time. The LIFEAT Project was begun with the installation of one telephone tap and has been expanded since that time to where the present coverage averages 18 lines.

Project LIFEAT is a unilateral operation. It is completely independent from any liaison arrangement and is staffed by KUBARK staff and contract employees with a substantial number of local indigenous controlled agents.

During the past eight years Project LIFEAT has produced more than 55,000 pages of operational and intelligence information in direct support of the Mexico City Station's objectives specifically and has contributed materially to the intelligence-gathering activities connected with the Sino-Soviet and Satellite Bloc. In addition, Project LIFEAT has been of considerable value and assistance in monitoring the activities of Americans residing in Mexico City in which ODENVY has major interest.

4. **References**

a. HMM-A-10198, 31 May 1958, Renewal Request for FY 1959

b. HMM-W-6820, 24 Sept. 1958, Approval of Renewal Request for FY 1959.

~~SECRET KAPOK~~

~~SECRET KAPOK~~

5. Objectives

a. To identify Soviet and Satellite intelligence personnel and to collect information on the nature and extent of their clandestine intelligence and propaganda activities in Mexico,

b. To collect information on Soviet and Satellite commercial, diplomatic, cultural and military personnel and their activities in Mexico.

c. To collect biographic information on Soviet and Satellite officials.

d. To collect information on the movements, assignments and positions of Soviet and Satellite personnel.

e. To collect information on prominent Mexico Communists and pro-Communists and their activities.

f. To collect information on prominent Communists, other than Mexicans, active in Mexico and to identify them and their associates.

g. To collect information on exile groups active in Mexico.

h. To collect information on targets of opportunity in Mexico.

6. Targets

For objectives "a" through "d" -

a. Selected Soviet Embassy and commercial office telephone conversations.

b. Selected Satellite office and home phones.

For objective "e" -

c. Telephone conversations from the residences of senior Communists or pro-Communists.

For objective "f" -

d. Telephone conversations from the residences of known American Communists.

For objective "g"

e. Telephone conversations emanating from the residences and/or offices of selected targets, i.e., LIERODE, in Mexico.

~~SECRET KAPOK~~

For objective "h" -

f. Telephone conversations which can be monitored of targets of opportunity, e.g., BOMORNING.

7. Tasks

Case Officer - Edward P. SECHEN

Asst. Case Officer - Gene F. BRADDOCK

a. Supervise the operational and administrative activities of all LIFEAT staff, contract and indigenous personnel.

b. Maintain awareness and provide direction in all operational matters pertaining to the management of the LIFEAT Project.

c. Provide guidance and day-to-day supervision of the operational phases LIFEAT/LIMERICK, LITMUS, LIVERY, LIERODE, BOMORNING and American Communist Group in Mexico activities.

d. Coordinate information received from LIMERICK with other Station operations.

e. Maintain LIFEAT capabilities for mounting operations against targets of opportunity.

f. Maintain supervision over basehouses and training of the personnel therein.

8. Coordination

a. Information produced by LIFEAT is closely coordinated with other operations at the Mexico City Station. No operational coordination is required with any other area but they are kept informed of any information produced by LIFEAT which may be of interest to them.

b. Project LINOG, which supports David M. WILSTED, who is the principal outside LIFEAT Case Officer, is effected in coordination with Project LIFEAT. AW/+

c. Project BESMOOTH which supports Woodrow D CABBOT, the [illegible] [illegible] from the [illegible] [illegible] is effected in CO. coordination with Project LIFEAT

9. Personnel

a. Staff Agents;

d. personnel dropped from the project;

Following indigenous personnel were terminated for security reasons during FY 1959;

LIMESTONE-1
LIMESTONE-2
LIMESTONE-3
LIMESTONE-5
LIMESTONE-7
LIMESTONE-10.

Frances M. MENZIE resigned during FY 1959.
Janet N DELACCUR is not now active but her clearance is being kept open.
Daniel K. BROMUND returned PCS to Headquarters during this period.
Louise J MARINO was transferred to LIEMPTY Project in February 1959.

10. Operational Clearances

Please see 9.

11. Cover

~~Woodrow D. GABBOT enjoys fictional cover as Researcher for a PBPRIME Research Council.~~ [illegible] per C.O.

Other cover remains the same as that submitted in HMM-A-7063 except for David M. WILSTED who is engaged in insurance business since he has procured his "Inmigrado" status.

12. Contact and Communications

a. Daily contact and communications between the Case Officer and the agents and undercover personnel in this Project is maintained in a clandestine manner. Various patterns have been established by which the agents and case officers follow pre-arranged signals for meetings. When heavy or bulky material is to be passed, pre-arranged meetings are held at night. All movement in and out of bases by the Case Officers and Principal Agents is done in cars ostensibly owned by agents except in the case of LIVERY where agents are too old to drive. One of the indigenous agents is used to contact LIVERY base. Entrance to bases on foot is made only in great emergencies.

b. Telephonic contact concerning the Project and with agents is kept to a minimum and code is used for phone conversations between Case Officers and agents.

c. Alternate and emergency signals have been arranged.

d. In general these systems of contact and communication appear to be suitable for the Project and function adequately from a security viewpoint. Locations and times of meetings are changed frequently to prevent discovery.

13. Control and Motivation

Control and motivation seem to be based on two factors primarily; ideological and monetary. A third controlling factor would be fear of reprisal from local police should discovery occur.

14. Equipment and Support

It is believed probable that a great deal of replacement equipment will be required by the Project during FY 1960 since much of the current equipment installed and working has been in use for the length of the Project and since this equipment is no longer being manufactured, replacement parts will be unobtainable soon and new units will be required.

15. Timetable

LIFEAT has been in almost constant operation since its inception in January 1951 and it is planned to continue it indefinitely.

PROJECT OUTLINE

PART II

PROJECT: LIFEAT

17. Estimated Costs

The following costs are estimated for FY 1960. All figures are in U.S. dollars per year. It will be noted that owing to the rise in the cost of living and especially to much higher rents and to intended expansion, LIFEAT costs will be higher than in the past.

a. Salaries;

1. Staff and Contract Personnel

Ralph B. RAFANELLI, GS-9	
Salary	$5985.00
Quarters	2304.00
~~Woodrow D. GABBOT~~	
~~Salary~~	~~9890.00**~~
~~**(Since this subject's contract has not been received, this figure is based on statement he is GS-13 and minimum figure taken)~~	
~~Quarters~~	~~1728.00~~
Translator(LIMERICK) GS-12 not yet named(This is established in hopes that the Project will be able to live-monitor portion of LIMERICK traffic)	
Salary	8330.00

REFERENCE(S)

a. HMMA-10198, 31 May 1958
b. HMMW-6555, 3 July 1958
c. MEXI-2031, 22 July 1958

1. Project LIFEAT was renewed on 9 September 1958 for the period 1 July 1958 through 30 June 1959 for a total of $159,590.

2. KUTUBE/OPS recommended that the Station make an increased effort to reduce the amount of paper work for the case officer to allow him sufficient time to go beyond the surveillance-investigative phase of handling the many operational leads and be in a position for more agent recruitment efforts. KUTUBE suggested that several of the lines which are of marginal value be deactivated, temporarily at least, to assist in this effort.

3. The project review forwarded with HMMA-10198 was submitted for approval as prepared in the field with the exception of Part II which had to be retyped in view of the number of changes and additions required. The only changes made in the Project review - LIFEAT section was the deletion of several examples of reports originating from several LIFEAT sources. These deletions (such as the last five examples of reports on Soviet Commercial Activities) were made because the reports did not originate with LIFEAT eventhough they did concern the Subject being discussed. Part I of the Project Outline excerpts submitted by the field was also submitted for approval--the only change made was the omission of the field's request for a change in paragraph 6 of the Project Outline on Objectives. Headquarters did not think subparagraph "f" should be deleted.

4. Attached for our information and records is a complete copy of the Renewal Request. It is requested that you review the memorandum, "WH Division's Comments on the LIFEAT Project Renewal", and the new Part II, paying particular attention to the personnel included therein. This request is being made in view of the conflicting information Headquarters received from the Station Case Officer who was on TDY in Headquarters (DIR 31900-16 July 1958) and from the field (MEXI-2031) in reply to HMMW-6555.

MEMORANDUM FOR THE RECORD

SUBJECT: Project LIFEAT/LIMERICK

REFERENCE: Memorandum for Chief, SR from Chief, WH/III dated 2 July 1958

According to a telephone call from Herb Manell of SR/10 on 23 July 1958 SR Division believes that information produced by Project LIFEAT on the RIS and the Soviets is most valuable. He stated that this project is the chief source of information other than physical surveillance.

The only recommendation that SR Division would make is that the field be more selective in the reporting that is transmitted to Headquarters. (This recommendation has already been passed to the field)

John B. Brady
C/WH/Mexico

17 July 1958

MEMORANDUM FOR: Chief, WH/III

SUBJECT : LITMUS Phase of LIFEAT Project

REFERENCE : WH/III Memorandum dated 2 July 1958

1. Due to a period of dormancy, the LITMUS phase of the LIFEAT Project has furnished a relatively small amount of reporting, during the past year, concerning BEDOX officials and their activities in Mexico. While small in quantity, the information furnished has been of considerable operational value because of the nature of the operation and the fact that it serves as a major source of data on the BEDOX target. The LITMUS operation has furnished accurate travel data, information on the function and scope of activity engaged in by the BEDOX personalities we are interested in and has helped us determine the number of contacts the BEDOX installation maintains with the local citizenry in the course of its activities. In the last case, the LITMUS operation has linked a local citizen, long suspected of Soviet Bloc intelligence activity, with one known and one suspected BEDOX intelligence officer serving under diplomatic cover in Mexico. This local citizen is now the subject of an extensive effort to prove his Soviet Bloc intelligence role and to determine the extent of his activity. Finally, the LITMUS operation has begun to furnish valuable operational data on a BEDOX personality who has recently arrived to assume a consular post. This particular BEDOX official was recommended to the field as a target of interest because of his past intelligence background. We feel confident that the LITMUS operation will aid considerably in our effort to monitor the activities of this individual.

2. Now that the LITMUS phase of the LIFEAT operation has, once again, begun to function, we believe that the information obtained therefrom will show a steady increase in operational value during the coming year.

MEMORANDUM FOR: Chief, WH/III

SUBJECT: Project LIFEAT

REFERENCE: Memorandum for Chief, EE/Czechoslovakia from Chief, WH/III, subject as above, dated 2 July 1958

Before its suspension in January 1958, the LIVERY phase of Project LIFEAT provided biographic data on the members of the Czech Legation in Mexico City which EE/C found useful in the evaluation of these individuals as possible targets. If the LIVERY phase of the project is resumed, it is anticipated that it would continue to provide similarly useful information. For this reason EE/C is interested in seeing Project LIFEAT renewed.

WH Division Comments on LIFEAT Project Renewal

1. At the end of January 1958, telephone linemen discovered our tap on the LIVERY installation leading into one of our base houses. As a result of this all LIFEAT operations were suspended as of 31 January and 1 February 1958 pending the outcome of what appeared to be an involved investigation by the Mexican Telephone Company. The LIMEWATER's disclosed that the telephone company was not investigating the situation and the operation was secure. The first line from the LIMERICK group was put in again on 17 March 1958. During the same month coverage of one American Communist was also re-instated. As of the end of April, the Station had coverage on the following lines: 3 LIMERICK, 1 LITHOSPHERE, 1 LITMUS, 1 American Communist, 1 Target of Opportunity, and 1 Mexican Soviet Contact. Since the partial re-instatement of LIFEAT coverage there has been no indication that suspicion of the activity exists on the part of the Mexican Telephone Company or security services. In order to provide more secure LIFEAT coverage, a new system of installation of technical surveillance is now in effect. This system prohibits the opposition from detecting any LIFEAT lines with a voltage meter.

2. The following new personnel have been included in this Project renewal request:

a. LIENDY (Leona C. GANDARA - ps), a U. S. citizen and wife of a Staff Agent, was issued CSA on 24 June 1958 as a LIFEAT processor. The field is preparing a contract for her. (C-61557)

b. LIMENU-1 (Janet N. DELACOUR - ps), a U. S. citizen, was issued an Operational Approval on 31 January 1958 for use as a LIFEAT processor. She is motivated by patriotic loyalty. Financial remuneration will provide additional control. The field has been requested to prepare a formal contract for her. (C-64393)

c. LIMEWATER-6 is an employee of the Mexican Telephone Company and is LIMEWATER's assistant. His motivation at this time is believed to be financial. A POA was granted LIMEWATER-6 on 14 May 1958. An Operational Approval has been requested. (C-70322)

d. LIQUATION-4, wife of LIQUATION-1, occupies a basehouse with her husband. She received an OA on 2 October 1957. She will receive no remuneration.

3. LIMESTONE-9, LIMESTONE-10, LIQUATION-2, LIPSTICK-35, LIPSTICK-37 and LIMITATION-7 are still active under Project LIFEAT. They receive no remuneration. Therefore, their names do not appear on the list of LIFEAT agents on the attached Part II of the Project Outline.

~~SECRET~~

4. LIMITATION-5 (C-24845) and LIMITATION-6 (C-39418) who were included under Project LIFEAT when it was last renewed, have been withdrawn from this project and were included under the LIPSTICK Project renewal which was approved on 3 December 1957.

5. The LICOOL phase has been removed from Project LIFEAT since these two technical operations are completely compartmented. The funding for LICOOL and its facilities will be covered by another project.

KAPOK-1401

PROJECT REVIEW - LIFEAT

1. Product of the Project

The Soviet Embassy -

a. Soviet Commercial Activities:

During the past year reports submitted from screening the traffic of the two established Soviet Commercial Offices in Mexico have provided a great amount of detail concerning Soviet efforts to sell in the Latin American market, both heavy industrial merchandise and movies and literature. Knowledge of their methods of transshipping and attempts at concealment of point of origin of products has been gleaned from this take. As a result of this knowledge, reports on the firms with whom they are doing business have been procured and provided for background information. Following are a list of the reports submitted as a result of intelligence procured from this source:

HMM-3085 Soviet Commercial Activities in Mexico
HMM-3165, Soviet Commercial Activities in Mexico
HMM-3286 - Soviet Commercial Activities in Mexico, December 1957
~~HMM-3253 - Soviet Commercial Contacts in Mexico - Michoacana del Occidente, S. de R.L.~~
~~HMM-3264 - Soviet Commercial Contacts in Mexico - Servicio Agricola, S.A.~~
~~HMM-3139 - Anilinas y Productos Quimicos S. de R.L.~~
~~HMM-3404 - Imports into Mexico from Soviet Union~~
~~HMM-A-9519 - American Cyanid Co., Calco Chemical Division~~

b. Soviet Diplomatic Activities:

This project has provided coverage and details of some of the diplomatic activities of the Soviets in Mexico. It has served to show the relationships maintained, culturally, socially and diplomatically, between the Soviets and the members of the Satellite establishments in Mexico.

HMM-3215, Soviet Attendance at Yugoslav Reception
HMM-3351 - Reception at Soviet Embassy.
HMM-2992 - Diplomatic Activities of Soviet Embassy, Mexico City
HMM-2849 - Diplomatic Activities of Soviet Embassy, Mexico City

c. Soviet Cultural Activities:

Information produced by LIFEAT has given details of Soviet activities in connection with publications, cultural institutes, and related activities. Examples of such reports are:

HMM-2870 - Soviet Embassy Reception for Mexican Musicians
HMM-2847 - Cultural & Propaganda Activities of Soviet Embassy
HMM-3080, Cultural & Propaganda Activities of Soviet Embassy

~~SECRET/KAPOK~~

d. Soviet Military Activities:

Monthly reports on the activities of Soviet military personnel, knowledge of which was obtained from LIFEAT, and their contacts in military circles in Mexico have proved to be of especial interest to ODYOKE service attaches in Mexico.

e. Movements of Soviet Officials:

Through LIFEAT coverage a roster of Soviet personnel presently in Mexico has been maintained by Station Mexico. This has been the primary source of such information. LIFEAT has enabled the Station to determine in advance when departures can be expected for the Soviets, prior to their permanent departure, normally stock up on clothing and occasionally other items throught to be in short supply in the USSR.

f. Soviet Embassy Contacts:

Contacts reports of the Soviets are compiled and provided Headquarters as necessary. These reports are of considerable operation value in identifying local and foreign Communists with whom the Soviets are in regular contact. Following are examples of this type of coverage:

HMM-2841 - MONTES y BRADLEY (fnu)
HMM-3199 - Narciso BASSOLS Contacts with the Soviet Embassy.

g. Personality Reports on Soviet Officials:

LIFEAT has provided the Station with the most productive source of information concerning the private and official lives of the Soviets assigned here. These reports have been submitted on dindividuals, e.g. HMM-A-9504, Aleksey N. CHERKASOV, and also under one cover, HMM-A-9656, January 1958 Report of Personnel Activities.

h. Goods and Services:

Periodic reports of the persons and institutions known to be providing goods and services to the Soviet Embassy have been of considerable value in developing and mounting a LAURICLE operation. Information of this type has also been of considerable value to the Station in the LIMESA operation.

i. Miscellaneous Activities of the Soviet Embassy:

LIFEAT material which does not fall into any one category but which deals with the Soviets and their associates and related activities has been reported as necessary.

The Czech Legation

The information obtained on the Czech Legation during the period under review is essentially the same as that from the Soviet Embassy. To avoid repetition, only a brief summary of the information submitted will be given here.

a. Czech Personnel Reports:

HMM-3164, Activities of Zdenek KUTA and HMM-3230, Travel of Czech Legation personnel, are examples of the type of reports made from the personality and activity information acquired from LIFEAT coverage of this installation. HMM-3262, Cocktail Party at Czech Residence, is an example of the reports from this source on diplomatic activities of this installation.

b. Spot Reports on Czech Legation Activities:

Reports on a spot basis which were of interest included:

~~HMM-3074, Czech Concern over Possible Expulsion from Mexico.~~
HMM 32[illegible] [illegible] of Czech [illegible] Commercial Legation
and [illegible] Exposition

Polish Legation

Information on this installation closely parallels that obtained on the Czech Legation and the Soviet installations. The largest amount of information concerning the Polish installation has been procured from LIFEAT. An example of reports from this source is HMM-3161, Leon KILARSKI, Polish Commercial Attache. Another is HMM-3130, Suspicious Contact of Edward RUDSKI, Josef Isaak GENSCHAFT.

Mexican Communist Party and Communist Fronts

A significant amount of information concerning the Communist Party in Mexico and the Communist front organizations in Mexico was obtained from LIFEAT. Information from LIFEAT has been invaluable in supplementing agent coverage of the front-organizations which exist here. Examples of this type of reporting are as follows:

HMM-3193 - Narciso BASSOLS and Family;
HMM-3176 - Travel of Pro-Communists

American Communists in Mexico:

One of the most extensive and productive coverages maintained through LIFEAT during this past year was directed against American Communists in Mexico. Most of these targets have been covered at the request of ODENVY and the production has been partially processed by them for the justification of one of their slots in their local establishment. A total of 361 reels have been the result of the coverage since 1 July 1957 until 25 April 1958.

Foreign Communists in Mexico and Mexican Communists:

LIFEAT continued to provide partial coverage of Eduardo MACHADO Morales, Venezuelan Communist, until the time of his departure for return to Venezuela. LIFEAT also provided some 50 reels of coverage on Diego RIVERA, well-known Communist Mexican painter, until his dealth in November 1957. From this coverage it was determined that RIVERA was sufficiently concerned over the departure of the former Soviet Cultural Attache, Yuriy PAPOROV, that he arose from his sick bed in order to make the trip to Veracruz by car to insure that PAPOROV's departure was without incident.

LAURICLE Information:

LIFEAT has contributed materially to several matters having LAURICLE interest.

Counter Intelligence Information:

CI/CS matters constitute a major portion of the Mexico City Station's priority objectives. Project LIFEAT has contributed more leads and general information on the Soviet aspect of this subject than all other Station sources. A few representative samples of this type of information are the following:

HMMA-9121, Suspicious Soviet Contact
HMMA-9135 - Sergio KIRZEY Rassvetaef
HMMA-8552, Vladimir SOKOLOV; Col. Jesus de LEON Toral, 6 November 1957
LCHAYFOWL

Jewish Communist Activities:

Coverage of the Jewish Communist leader, Samual MAGIDIN Magidin, has confirmed the continuing decline of the local Jewish Communist movement. It has also provided the Station with information on those former members who continue to meet at irregular intervals on an informal basis.

Conclusion:

The Mexico City Station believes that the produce of the LIFEAT Project measured against the expenditure of KUBARK assets in terms of personnel, time, security risks and funds well justifies its renewal. The information produced by this operation has materially contributed to several priority objectives of the Station's Related Mission Directive.

2. Progress of the Operation -

Definite progress has been made in reporting on the objectives of the LIFEAT Project. However, since LIFEAT objectives are of a continuing nature and are not designed to be achieved, no statistics can be cited as to the percentage of coverage on each objective. A general indication of the coverage can be derived when it is realized that some 15,000 pages of raw text are the direct result of the operation from which the statistics cited above were derived. Except for a period from 1 February - 11 April 1958 LIFEAT has been in daily operation with some 18 to 23 lines being covered. Generally, these may be broken down as follows:

Soviet Embassy -	7 lines
Czech Legation -	2 lines
Polish Legation -	2 lines
American Communists -	5 lines
Remainder -	7 lines

Attachment to HMMA-10158
MXOI-1401

3. Planning for the Future

During the coming year Station capabilities will be expanded to permit monitoring of approximately 28 lines. Basic coverage of Soviet, Czech and Polish activities will be continued to the maximum extent possible and assets and capabilities will be maintained for exploiting important targets of opportunity. At the present time and with the new system being used for LIFEAT lines, Station believes that 28 will be the maximum number of lines which can be handled properly and securely by the personnel presently assigned here for LIFEAT.

4. Performance of Agents

In general the performance of the LIFEAT agents has been good and secure during the past year. It is hoped that within the coming year the remainder of the LICALL group will be securely and permanently removed from the Project and replaced by well-compartmented personnel. In view of the high degree of security necessary for the personnel involved in this operation, it is planned to screen very carefully any possible candidates before they are approached for use in this operation after prior approval for an approach has been secured from Headquarters.

Additional comments concerning the production, security and cover of individual agents will be found in the attached amendment to the field outline which was submitted with HMMA-5708.

5. Expenditures during Period under Review

Approval was granted for the period under review, 1 July 1957 - 30 June 1958, to expend $156,647. The proposed LIFEAT budget for FY 1959 is contained in the attached field project outline Part II.

6. Status of Commitments

There are no commitments other than those provided for in the outline and the individual contracts of several LIFEAT personnel.

Attachment to HMM-A-10198
KAPOK-1401

PROJECT OUTLINE
(Excerpts)

PROJECT LIFEAT

3. Background

Project LIFEAT was initially approved 5 October 1950. Actual operations began on 18 January 1951 and have run almost continuously since that time. The LIFEAT operation was begun with the installation of one telephone tap and has since expanded to an average of 23 telephone lines.

Project LIFEAT is a unilateral operation. It is completely independent from any liaison arrangement and it is staffed by KUBARK personnel, both staff and contract, together with a substantial number of local indigenous controlled agents.

During the time of its operation Project LIFEAT has produced more than 50,000 pages of operational and intelligence information in direct support of the Mexico City Station's objectives specifically and has contributed materially to the intelligence gathering activities connected with the Sino-Soviet bloc. In addition, Project LIFEAT has been of considerable value and assistance in monitoring the activities of Americans residing in Mexico City in which ODENVY has an interest and also has, at the direction of Headquarters, installed special taps on targets of opportunity.

HMM-W-5708, 16 December 1957 - Approval of Project for FY 1958.

6. Objectives - ~~[illegible]~~

7. Tasks

Case Officer - Edward P. SACHEN
Assistant Case Officer - Gene F. BRADDOCK

a. Supervise the operational and administrative activities of all ~~KAPOK~~ LIFEAT staff, contract and indigenous personnel.

b. Maintain awareness and provide direction in all operational matters pertaining to the management of the LIFEAT Project.

c. Provide guidance and day-to-day supervision of the operational phases LIFEAT/LIMERICK, LITHOSPHERE, LIEMUE, LIVERY and American Communist Group in Mexico activities.

Attachment to HMMA-10198
KapOk-1401

d. Coordinate information received from LIMERICK with other Station operations.

e. Maintain LIFEAT capabilities for mounting operations against targets of opportunity.

f. Maintain supervision over basehouses and training of the personnel therein.

9. Personnel

The following are changes from FY 1958 for FY 1959:

Daniel K. BROMUND arrived at Station Mexico to assume duties as translator of LIFEAT/LITMUS material and relief translator on LIFEAT/LIMERICK.

14. Equipment and Support

It is considered essential that new equipment be provided for LIFEAT for FY 1959 in view of the fact that much of the equipment in current use has been steadily in operation since the inception of the project in 1951. Also, in view of expected expansion of the project and the possibilities of live monitoring, additional equipment in first-class condition will be necessary. A backlog of 10 new recorders and 300 reels along with repair parts is considered a minimum for efficient continuance of the project.

LIFEAT PROJECT OUTLINE - PART II

17. Estimated Costs

The following costs are estimated for FY 1959. All figures are in U.S. dollars per year. It will be noted that owing to the rise in the cost of living and especially to much higher rents and to intended expansion, LIFEAT costs will be higher than in the past.

a. Salaries:

(1) Staff and Contract Personnel:

Ralph B. RAFANELLI, GS-7 (promotion to GS-9 in the mill)		
Salary	$5985.00	
Quarters	2100.00	
Daniel K. BROMURT, GS-12		
Salary	8810.00	
Quarters	2100.00	
Travel & TDY to border to renew tourist visa & to Washington, D.C. to pick up rentista papers.	400.00	
Translator (LIMERICK), GS-12 not yet named (This position has been indicated in view of the hope that the Project will be able to live-monitor at least a portion of LIMERICK traffic. There is a Staff Agent slot available under this project).		
Salary	8000.00	
Quarters	2100.00	
Transportation	1000.00	
HHE move	1500.00	
Janet N. DELACOUR (2.02/hr)	4000.00	
~~Nadine M. CHAROUSEK~~	~~3000.00~~	Dele
Leona C. GANDARA	4000.00	
Carol K. ZINSMEISTER - Salary	5400.00	
Francis M. MENZIE - Salary	2504.00	
Alice N. CAILLETEAU - Salary	2425.00	
Olivia N. GLARMON - Piece work	4200.00	
Louise J. MACHIMO - Salary	1850.00	
(Will be included under LIPSTICK Project when it is renewed 1 September 1958)	56,375	56,375
TOTAL	~~60014.00~~	~~60014.00~~

(2)

Field Agents	Presently	Possible Raise
LIMEWATER	5284.22	
LIMEWATER/1	2209.77

☒ NO INDEXING REQUIRED

☐ INDEXING CAN BE JUDGED BY QUALIFIED HQ. DESK ONLY

REFERENCE(S)

HMMA-10198

P R I O R I T Y

It is requested that you reply by cable to the following questions so that the request for renewal of the LIFEAT Project can be submitted.

1. Approval to insert the following persons at the salaries indicated. Please correct salaries listed below if they are wrong.

LIEDDY - $4,000
LIMENU/1 - $4,000
Nadine M. CHAROUSEK - $3,640

2. The following have been cleared for use under LIFEAT since the last Project renewal. Since they were not mentioned in your request for renewal, have they been activated under Project LIFEAT and should they be included in our request for renewal? Are any funds required to cover their use?

LIQUATION/4
Subject of HMMW-5906

3. The following agents were included under the LIFEAT Project renewal of last year. Since none of them receive pay their names did not appear on Part II of the Project Outline attached to reference. Therefore, Headquarters does not know whether they are still active under the Project. In our request for renewal we must indicate the names of all agents who have been dropped from the project during the past project year and the present use being made of each agent. Please indicate those agents who are no longer under Project LIFEAT and what use is being made of each. If they are not active, please submit agent service records on them. If they are being used for other work please submit new PRQ II's and requests to amend their Operational Approvals. Unless advised to the contrary, Headquarters will assume the following are still active under Project LIFEAT:

LIMESTONE-9
LIMESTONE-10
LIQUATION-2
LIPSTICK-35
LIPSTICK-37
LIMITATION-7

4. The covering dispatch to your request for LIFEAT Project renewal stated that LICOOL and the provision for Harvey C. MULFORD had been removed from LIFEAT. Since MULFORD is covered by Project MKCHARITY, Headquarters assumes you intend to carry out LICOOL operations under Project MKCHARITY. In view of the fact Project MKCHARITY is a KURIOT Project which supports KURIOT Staff Agents Harvey C. MULFORD and Alice N. HADZELLI and provides for technical equipment and technical services, Headquarters does not believe LICOOL belongs under MKCHARITY. If LICOOL were included under MKCHARITY, the latter project would have to be amended to provide for such operational activity and to provide funds for base houses, base house-keepers, and processors of LICOOL take.

CONTINUATION OF DISPATCH	CLASSIFICATION ~~SECRET~~	DISPATCH SYMBOL AND NO. HMMW-6555

PRIORITY

We believe LICOOL is best placed under LIFEAT, where it has been included in the past. The only alternative would be a new project to cover LICOOL operations. Therefore, it is requested that you comment by cable on the above by indicating a new Project Outline will be forthcoming, or requesting us to include LICOOL in our LIFEAT Project Renewal. If the latter is the case, please indicate the number of LICOOL base houses, rent per year for each, names and salary of any LICOOL base housekeepers and processors not already included in your request for LIFEAT Project Renewal request, and any additional expenses which should be included. Also indicate how many LICOOL operations are active at the present in addition to the one proposed in MEXI-1577, dated 30 June 1958.

5. With reference to MEXI-1816 (20 June 1958), Headquarters plans to leave LIMESTONE's 1, 2, 3, 5, and 7 in the LIFEAT Project when it is submitted for renewal. We will indicate that LIMESTONE's 1, 2 and 7 are not active under the Project but funds for continued payments to them are included because of security reasons emanating from their past use and knowledge acquired under Project LIFEAT. If it is decided to terminate any or all of them the money can be used for that purpose.

PROJECT REVIEW - LIFEAT

1. Product of the Project

The Soviet Embassy -

a. Soviet Commercial Activities:

During the past year reports submitted from screening the traffic of the two established Soviet Commercial Offices in Mexico have provided a great amount of detail concerning Soviet efforts to sell in the Latin American market, both heavy industrial merchandise and movies and literature. Knowledge of their methods of transshipping and attempts at concealment of point of origin of products has been gleaned from this take. As a result of this knowledge, reports on the firms with whom they are doing business have been procured and provided for background information. Following are a list of the reports submitted as a result of intelligence procured from this source:

HMM-3053 Soviet Commercial Activities in Mexico
HMM-3165, Soviet Commercial Activities in Mexico
HMM-3286 - Soviet Commercial Activities in Mexico, December 1957
~~HMM-3253 - Soviet Commercial Contacts in Mexico - Michoacana del Occidento, S. de R.L.~~
~~HMM-3264 - Soviet Commercial Contacts in Mexico - Servicio Agricola, S.A.~~
~~HMM-3139 - Anilinas y Productos Quimicos S. de R.L.~~
~~HMM-3404 - Imports into Mexico from Soviet Union~~
~~HMM-A-9519 - American Cyanid Co., Calco Chemical Division~~

b. Soviet Diplomatic Activities:

This project has provided coverage and details of some of the diplomatic activities of the Soviets in Mexico. It has served to show the relationships maintained, culturally, socially and diplomatically, between the Soviets and the members of the Satellite establishments in Mexico.

HMM-3215, Soviet Attendance at Yugoslav Reception
HMM-3351 - Reception at Soviet Embassy.
HMM-2992 - Diplomatic Activities of Soviet Embassy, Mexico City
HMM-2849 - Diplomatic Activities of Soviet Embassy, Mexico City

c. Soviet Cultural Activities:

Information produced by LIFEAT has given details of Soviet activities in connection with publications, cultural institutes, and related activities. Examples of such reports are:

HMM-2870 - Soviet Embassy Reception for Mexican Musicians
HMM-2847 - Cultural & Propaganda Activities of Soviet Embassy
HMM-3080, Cultural & Propaganda Activities of Soviet Embassy

~~[illegible]~~

CS COPY
50-6-52/1

~~SECRET/KAPOK~~

d. Soviet Military Activities:

Monthly reports on the activities of Soviet military personnel, knowledge of which was obtained from LIFEAT, and their contacts in military circles in Mexico have proved to be of especial interest to ODYOKE service attaches in Mexico.

e. Movements of Soviet Officials:

Through LIFEAT coverage a roster of Soviet personnel presently in Mexico has been maintained by Station Mexico. This has been the primary source of such information. LIFEAT has enabled the Station to determine in advance when departures can be expected for the Soviets, prior to their permanent departure, normally stock up on clothing and occasionally other items throught to be in short supply in the USSR.

f. Soviet Embassy Contacts:

Contact reports of the Soviets are compiled and provided Headquarters as necessary. These reports are of considerable operation value in identifying local and foreign Communists with whom the Soviets are in regular contact. Following are examples of this type of coverage:

HMM-2841 - MONTES y BRADLEY (fnu)
HMM-3199 - Narciso BASSOLS Contacts with the Soviet Embassy.

g. Personality Reports on Soviet Officials:

LIFEAT has provided the Station with the most productive source of information concerning the private and official lives of the Soviets assigned here. These reports have been submitted on individuals, e.g. HMM-A-9504, Aleksey N. CHERKASOV, and also under one cover, HMM-A-9856, January 1958 Report of Personnel Activities.

h. Goods and Services:

Periodic reports of the persons and institutions known to be providing goods and services to the Soviet Embassy have been of considerable value in developing and mounting a LAURICLE operation. Information of this type has also been of considerable value to the Station in the LIMESA operation.

i. Miscellaneous Activities of the Soviet Embassy:

LIFEAT material which does not fall into any one category but which deals with the Soviets and their associates and related activities has been reported as necessary.

The Czech Legation

The information obtained on the Czech Legation during the period under review is essentially the same as that from the Soviet Embassy. To avoid repetition, only a brief summary of the information submitted will be given here.

~~SECRET/KAPOK~~ 50-6-32/1

a. Czech Personnel Reports:

HMM-3164, Activities of Zdenek KVITA and HMM-3238, Travel of Czech Legation personnel, are examples of the type of reports made from the personality and activity information acquired from LIFEAT coverage of this installation. HMM-3262, Cocktail Party at Czech Residence, is an example of the reports from this source on diplomatic activities of this installation.

b. Spot Reports on Czech Legation Activities:

Reports on a spot basis which were of interest included:

~~HMM-3954, Czech Concern over Possible Expulsion from Mexico.~~
HMM-3126 New Location of Czech Legation Commercial Office and Skoda Exposition.

Polish Legation

Information on this installation closely parallels that obtained on the Czech Legation and the Soviet installations. The largest amount of information concerning the Polish installation has been procured from LIFEAT. An example of reports from this source is HMM-3161, Leon KILARSKI, Polish Commercial Attache. Another is HMM-3130, Suspicious Contact of Edward RUDSKI, Josef Isaak GENSCHAFT.

Mexican Communist Party and Communist Fronts

A significant amount of information concerning the Communist Party in Mexico and the Communist front organizations in Mexico was obtained from LIFEAT. Information from LIFEAT has been invaluable in supplementing agent coverage of the front-organizations which exist here. Examples of this type of reporting are as follows:

HMM-3193 - Narciso BASSOLS and Family;
HMM-3176 - Travel of Pro-Communists

American Communists in Mexico:

One of the most extensive and productive coverages maintained through LIFEAT during this past year was directed against American Communists in Mexico. Most of these targets have been covered at the request of ODENVY and the production has been partially processed by them for the justification of one of their slots in their local establishment. A total of 381 reels have been the result of the coverage since 1 July 1957 until 25 April 1958.

Foreign Communists in Mexico and Mexican Communists:

LIFEAT continued to provide partial coverage of Eduardo MACHADO Morales, Venezuelan Communist, until the time of his departure for return to Venezuela. LIFEAT also provided some 50 reels of coverage on Diego RIVERA, well-known Communist Mexican painter, until his death in November 1957. From this coverage it was determined that RIVERA was sufficiently concerned over the departure of the former Soviet Cultural Attache, Yuriy PAPOROV, that he arose from his sick bed in order to make the trip to Veracruz by car to insure that PAPOROV's departure was without incident.

LAURICLE Information:

LIFEAT has contributed materially to several matters having LAURICLE interest.

Counter Intelligence Information:

CI/CE matters constitute a major portion of the Mexico City Station's priority objectives. Project LIFEAT has contributed more leads and general information on the Soviet aspect of this subject than all other Station sources. A few representative samples of this type of information are the following:

HMM-A-9121, Suspicious Soviet Contact
HMM-A-9135 - Sergio KIREEV Rassvetaef
HMM-A-8552, Vladimir SOKOLOV; Col. Jesus de LEON Toral, 6 November 1957
LCMAYPOWL

Jewish Communist Activities:

Coverage of the Jewish Communist leader, Samuel MAGIDIN Magidin, has confirmed the continuing decline of the local Jewish Communist movement. It has also provided the Station with information on those former members who continue to meet at irregular intervals on an informal basis.

Conclusion:

The Mexico City Station believes that the produce of the LIFEAT Project measured against the expenditure of KUBARK assets in terms of personnel, time, security risks and funds well justifies its renewal. The information produced by this operation has materially contributed to several priority objectives of the Station's Related Mission Directive.

2. **Progress of the Operation** -

Definite progress has been made in reporting on the objectives of the LIFEAT Project. However, since LIFEAT objectives are of a continuing nature and are not designed to be achieved, no statistics can be cited as to the percentage of coverage on each objective. A general indication of the coverage can be derived when it is realized that some 15,000 pages of raw text are the direct result of the operation from which the statistics cited above were derived. Except for a period from 1 February - 11 April 1958 LIFEAT has been in daily operation with some 18 to 23 lines being covered. Generally, these may be broken down as follows:

Soviet Embassy -	7 lines
Czech Legation -	2 lines
Polish Legation -	2 lines
American Communists -	5 lines
Remainder -	7 lines

~~SECRET/KAPOK~~

Project Review

Attachment to HMM-A-10198
KAPOK-1401

3. Planning for the Future

During the coming year Station capabilities will be expanded to permit monitoring of approximately 28 lines. Basic coverage of Soviet, Czech and Polish activities will be continued to the maximum extent possible and assets and capabilities will be maintained for exploiting important targets of opportunity. At the present time and with the new system being used for LIFEAT lines, Station believes that 28 will be the maximum number of lines which can be handled properly and securely by the personnel presently assigned here for LIFEAT.

4. Performance of Agents

In general the performance of the LIFEAT agents has been good and secure during the past year. It is hoped that within the coming year the remainder of the AYCALL group will be securely and permanently removed from the Project and replaced by well-compartmented personnel. In view of the high degree of security necessary for the personnel involved in this operation, it is planned to screen very carefully any possible candidates before they are approached for use in this operation after prior approval for an approach has been secured from Headquarters.

Additional comments concerning the production, security and cover of individual agents will be found in the attached amendment to the field outline which was submitted with HMM-W-5708.

5. Expenditures during Period under Review

Approval was granted for the period under review, 1 July 1957 - 30 June 1958, to expend $156,647. The proposed LIFEAT budget for FY 1959 is contained in the attached field project outline Part II.

6. Status of Commitments

There are no commitments other than those provided for in the outline and the individual contracts of several LIFEAT personnel.

KAPOK-1401

PROJECT OUTLINE
(Excerpts)

PROJECT LIFEAT

3. Background

Project LIFEAT was initially approved 3 October 1950. Actual operations began on 18 January 1951 and have run almost continuously since that time. The LIFEAT operation was begun with the installation of one telephone tap and has since expanded to an average of 23 telephone lines.

Project LIFEAT is a unilateral operation. It is completely independent from any liaison arrangement and it is staffed by KUBARK personnel, both staff and contract, together with a substantial number of local indigenous controlled agents.

During the time of its operation Project LIFEAT has produced more than 50,000 pages of operational and intelligence information in direct support of the Mexico City Station's objectives specifically and has contributed materially to the intelligence gathering activities connected with the Sino-Soviet bloc. In addition, Project LIFEAT has been of considerable value and assistance in monitoring the activities of Americans residing in Mexico City in which ODENVY has an interest and also has, at the direction of Headquarters, installed special taps on targets of opportunity.

4. References

HMM-A-7063, 5 June 1957 - Request for Renewal of Project
HMM-W-5708, 16 December 1957 - Approval of Project for FY 1958.

6. Objectives - ~~Omit "f"~~

7. Tasks

Case Officer - Edward P. SECHEN
Assistant Case Officer - Gene F. BRADDOCK

a. Supervise the operational and administrative activities of all LIFEAT ~~KAPOK~~ staff, contract and indigenous personnel.

b. Maintain awareness and provide direction in all operational matters pertaining to the management of the LIFEAT Project.

c. Provide guidance and day-to-day supervision of the operational phases LIFEAT/LIMERICK, LITHOSPHERE, LITMUS, LIVERY and American Communist Group in Mexico activities.

~~SECRET/KAPOK~~

Attachment to HMM-A-10198
KAPOK-1401

d. Coordinate information received from LIMERICK with other Station operations.

e. Maintain LIFEAT capabilities for mounting operations against targets of opportunity.

f. Maintain supervision over basehouses and training of the personnel therein.

9. Personnel

The following are changes from FY 1958 for FY 1959:

Daniel K. BROMUND arrived at Station Mexico to assume duties as translator of LIFEAT/LITMUS material and relief translator on LIFEAT/LIMERICK.

14. Equipment and Support

It is considered essential that new equipment be provided for LIFEAT for FY 1959 in view of the fact that much of the equipment in current use has been steadily in operation since the inception of the project in 1951. Also, in view of expected expansion of the project and the possibilities of live monitoring, additional equipment in first-class condition will be necessary. A backlog of 10 new recorders and 300 reels along with repair parts is considered a minimum for efficient continuance of the project.

~~SECRET KAPOK~~

LIFEAT PROJECT OUTLINE - PART II

17. Estimated Costs

The following costs are estimated for FY 1959. All figures are in U.S. dollars per year. It will be noted that owing to the rise in the cost of living and especially to much higher rents and to intended expansion, LIFEAT costs will be higher than in the past.

a. Salaries:

(1) Staff and Contract Personnel:

Ralph B. RAFANELLI, GS-7 (promotion to GS-9 in the mill)			
Salary	$5985.00		
Quarters	2100.00

MEMORANDUM FOR: FI/OPS - Projects Branch

SUBJECT : Amendment to Project LIFEAT

1. It is requested that Project LIFEAT be amended to authorize the payment of $1820 compensation to Nadine E. CHARUHSEK for the period 1 January 1958 through 30 June 1958 (the expiration date of the project). Funds now available in Project LIFEAT are sufficient to cover payment to CHARUHSEK.

2. CHARUHSEK will serve as a processor of LIFEAT material. She received Provisional Operational Approval (C-6245) on 12 December 1957. A contract check list to provide a payment of $1.75 an hour compensation has been prepared for Contract Personnel Division.

3. CHARUHSEK has above average motivation to do the work required of her. Motivation is a prime consideration in work of this type. CHARUHSEK will listen to LIFEAT tapes (in English until her Spanish language ability permits work on Spanish tapes). She will type summaries of the material on these tapes. The handling of the tapes and summaries will be between CHARUHSEK and her father-in-law, LIMEWATER (C-739). Her cover will be that of housewife.

[redacted] #589

SECRET [redacted]
CLASSIFICATION

TO : Chief of Station, Mexico City

DATE

FROM : Chief, WHD

SUBJECT: GENERAL - Operational/LIFEAT
SPECIFIC - Project Renewal and Amendment

Reference: HMMA-7063

1. Project LIFEAT was renewed on 30 October 1957 for the period 1 July 1957 through 30 June 1958 for a total of $130,154 for FY 1958. The Station will note that Headquarters rewrote the Project Outline and Project Review which were submitted in HMMA 7063. This was done to facilitate subsequent renewals of the complex LIFEAT Project. As regards the Project Outline, if no major changes occur during the next project year, the Station will only have to submit a Part II to the Project Outline, and any changes which may have affected Part I, principally those concerning personnel. The rewritten Project Review should be used by the Station as a format for next year's Review. By following these procedures, it is believed that we can avoid the re-writing and retyping of the entire Project and make it simpler for the Field Case Officer to prepare the renewal request.

2. Project LIFEAT Amendment was approved on 5 December 1957 for a total of $26,493 for fiscal year 1958, thus raising the total amount authorized for the present project year to $156,647. This Amendment authorized the establishing of a bank account of $20,000 for Daniel K. BROMUND for cover purposes, against which a Letter of Credit will be obtained so that he may obtain Rentista status in Mexico. (See HMMW-5691 for details on this Letter of Credit).

3. The Amendment also requested authority to incorporate Roland K. WINGSNESS as an additional Staff Agent in the Project. A total of $6,493 for the remainder of the project year was requested to cover WINGSNESS' expenses and this amount was broken down as follows:

Salary ($7,785 per year)	$3,893
Allowances (Quarters up to $2,000)	1,000
Other (Educational-in accordance with R-20-610 dated 9 February 1956 estimated at	300

MEMORANDUM FOR: Deputy Director of Central Intelligence

THROUGH : Chief of Operations, DD/P

SUBJECT : Project LIFEAT (Amendment)

1. The attached project, originating in WH Division, is designed to determine Sino/Soviet/Satellite plans, activities, and connections with other Communist elements through independent audio-surveillance operations in Mexico. It is presented for your approval of two amendments: the first, to permit the utilization of Roland K. WINGSNESS (p) as an additional Staff Agent in the project, and the second, to establish for cover purposes a $20,000 U. S. bank account for Staff Agent Daniel K. BROMUND (p) in order that he may obtain Rentista status in Mexico.

2. Authority is requested to obligate an additional $26,493 from the DD/P-WH Division budget for fiscal year 1958. Sufficient funds are available in the WH Division budget. If approved, these two amendments will raise the total amount authorized for the present project year, 1 July 1957 through 30 June 1958, to $156,647. Project LIFEAT was renewed by the DDCI on 30 October 1957 in the amount of $130,154.

3. Attached is the LIFEAT Project Outline, which sets forth the important factors involved in the operation; a WH Division memorandum, dated 31 October 1957, which explains the proposal for securing Rentista status for BROMUND; and a WH Division memorandum, dated 13 November 1957, which requests authority to incorporate WINGSNESS into the project as a Staff Agent.

4. CCB/NC comments that according to Finance Division, establishing a bank account for BROMUND is the only means of satisfying the requirements of the Mexican government. The Letter of Credit must be irrevocable and allow a stated withdrawal per period (as in this case, per quarter) in order that the full amount cannot be liquidated before the expiration of the Rentista. CCB/NC recommends approval in this connection. In addition CCB/NC recommends approval of the proposed use of WINGSNESS, provided that his cover, which has not been determined as yet, be coordinated with CCB/NC sufficiently in advance to allow CCB/NC to state any objections deemed necessary and to take effective action toward establishing sound cover.

~~SECRET~~

MEMORANDUM

SUBJECT: LIFEAT Project Renewal

1. LIFEAT Project was renewed for the period 1 July 1957 through 30 June 1958. It is requested that this Project be amended to include Roland K. WINOSNESS as a Staff Agent.

2. WINOSNESS is a Staff Employee attached to ORR. He recently completed a four month TDY in Mexico City where he performed his work in a highly satisfactory manner and the Chief of Station, Mexico City, has specifically requested his PCS assignment under Project LIFEAT. Approval will be requested of Chief of Operations to transfer WINOSNESS to the DDP from DDI as soon as this Project Amendment has been approved. A Staff Agent slot is already available under Project LIFEAT which can be filled by WINOSNESS. As soon as WINOSNESS becomes a DDP employee, WHD plans to give him intensified language training and to send him to Mexico after the first of the year.

3. Although Daniel K. BROMUND was included in the LIFEAT Project Renewal as a Russian translator, the volume of material produced under LIFEAT in the Russian language is increasing at such a rate that the services of two Russian translators are required. WINOSNESS also will be used as an assistant Case Officer, will administer at least two base houses, will do regular line inspections and make technical repairs at the listening posts, and will be required to prepare finished operational and intelligence reports based on his own and other LIFEAT agents' raw reports. WINOSNESS is well qualified to perform all these tasks.

4. Authority is requested to obligate an additional $6,493 for Project LIFEAT for the last half of the present project year. A breakdown of this amount is as follows:

WINOSNESS Salary: ($7,785 per year)	$3,893
Allowances: (Quarters up to $2,000)	1,000
Other (Educational-in accordance with R-20-610 dated 9 February 56 estimated at-)	300
Travel: PCS Air to Mexico for family	500
Household Effects, Movement	800
TOTAL	$6,493

MEMORANDUM FOR: DI/OPS - Projects Branch

CRYPTONYM LIFEAT

AREA DIVISION Western Hemisphere

STATION Mexico City

HEADQUARTERS CASE OFFICER:

Name Louis D. [illegible]ckett
Room 2112 [illegible] 311
Ext. 2555 or 3162
Date 31 October 1957

1. It is requested that the LIFEAT project be amended to include authorization to open a bank account of $20,000 for Daniel K. BROMUND (Staff Agent). Project LIFEAT was approved for renewal for the period 1 July 1957 to 30 June 1958.

2. Subsequent to the renewal of Project LIFEAT, it was determined that the cover appropriate for Daniel K. BROMUND would be that of a Rentista. In order to obtain Rentista status from the Mexican Government, it is necessary to show documents which prove that the applicant has an income of approximately $350 per month for a period of five years. On approval of this amendment, it is planned to open an account for Daniel K. BROMUND for the amount of $20,000 against which the bank will issue him a Letter of Credit which will permit him to draw against this account at the rate of $1,000 quarterly. This Letter of Credit will then be used to obtain Rentista status for BROMUND. This Letter of Credit will be held by the Station and will be passed to BROMUND for use once every three months. BROMUND will use this Letter of Credit, withdrawing his $1,000 quarterly, and will immediately deposit this money and the Letter of Credit with the Finance Officer at the Station. These deposits will be accounted for in the Station's accountings.

3. To protect the United States Government's interest, the necessary Declarations of Trust and/or Assignment of Interest as determined by the Finance Division will be executed and filed with the Monetary Branch, Finance Division.

SUBJECT { GENERAL - Administrative/LIFEAT
SPECIFIC - Procurement of Recorders

Reference: HMMA-8143 (KAPOK 1106), 2 October 1957

ACTION REQUIRED: Clarification of request for recorders.

1. Paragraph four, e, of reference contains a request for ten used EKOTAPE recorders. However, it is not clear whether this request is in addition to or in place of the request contained in MEXI 918, dated 9 August 1957. The recorders requested in MEXI 918 were forwarded to the Station under cargo numbers 20369 and 20370 on 16 and 17 September 1957 (see DIR 35369 and DIR 35748), and probably arrived at the Station after the referenced dispatch was written.

2. There are no used EKOTAPE recorders available at Headquarters for shipment to the Station. However, KURIOT has advised the Desk that should any used recorders become available at Headquarters or at other field stations, they will make every effort to send them to Mexico City. As the Station probably knows, EKOTAPE recorders are no longer manufactured.

3. KURIOT requested that the Station be informed that KURIOT appreciates the technical report contained in the reference. They will investigate further the technical problems experienced by the Station; the Station will be advised of any significant developments. KURIOT considers that six months use from the Revere heads, under LIFEAT operating conditions, is quite good.

4. In view of the unavailability of used EKOTAPE recorders and the recent shipment of ten new REVERE recorders, Headquarters will take no further action on the referenced request unless requested to do so by the Station.

REVIEW OF PROJECT LIFEAT TO ACCOMPANY REQUEST FOR RENEWAL

1. Product of the Project

The Soviet Embassy

a. Soviet Commercial Activities

Reports submitted during the past year have conveyed a substantial amount of detail concerning Soviet economic and commercial policy in Mexico, and to a lesser extent, in adjacent areas. This information has reflected the types of products the Soviets are selling and purchasing in Mexico, the names of their intermediaries, details on prices, procedures used for arranging sales and purchases and the manner of affecting shipments. This information has been screened from extensive and prolonged coverage of Soviet Embassy commercial traffic and appears to be accurate and detailed. Within the past year traffic concerning the Soviet commercial office in Mexico has increased considerably and remains the Station's primary source for information on Soviet commercial activities. Pertinent examples of this type of information may be found in:

HMMA-2476, CS-3/[illegible] File, dated 1 March 1957 "Tentative Deal for Ecuadorian Coffee"

HMMA-1973, CS-[illegible] File, dated 15 October 1956 "Mexican Exports to the USSR"

HMMA-1760, CS-[illegible] File, dated 19 October 1956, "Sale of Soviet Ferrous Metal in the U. S."

b. Soviet Diplomatic Activities

Project LIFEAT coverage of Soviet diplomatic activities appears to have been quite thorough and enlightening during the past year. Reports submitted on these activities have indicated some relationships the Soviets are developing with the Mexican Government, with other Latin American governments, and with other foreign diplomatic representatives. LIFEAT operations have also established some facts concerning the relations among the Soviets, Poles and Czechoslovakians in Mexico City. Some indication has been received on the relations between the Soviets and the Yugoslavs. Reports of this type provide some evidence as to when the Soviets seem to be engaged in a drive to establish contacts in various departments of the Mexican

Government and when they appear to be conducting a drive to cultivate other Latin American diplomats. The reactions of both the Mexicans and the Latin Americans to these advances are often shown in later traffic. Briefly, the Soviets do not seem to get a very good reception from the Latin Americans, but are well received by the diplomatic representatives of India and Indonesia. The reports have shown an improvement in Soviet relations with the Yugoslavs, which were practically non-existent for several years in Mexico City. The reports show further that the Soviets, Poles and Czechs have frequent business and social interchanges. The following reports are cited as examples of this type of information:

HMM-2327, dated 15 January 1957, "Diplomatic Activities of the Soviet Embassy, Mexico City, November 1956."
CS-3/[illegible] RI

HMM-2395, dated 6 February 1957, "Diplomatic Activities of the Soviet Embassy, Mexico City, December 1956."
CS-3/[illegible] RI

HMM-2465, dated 27 February 1957, "Diplomatic Activities of the Soviet Embassy, Mexico City, January 1957."
CS-3/[illegible] RI

c. Soviet Cultural Activities

Information produced by LIFEAT reflects in detail Soviet cultural activities in connection with publications, cultural institutes, travel of Mexicans to the USSR for cultural purposes, visits of Soviet cultural figures to Mexico and data concerning how their local arrangements are made. Examples of such reports are:

HMM-2322, dated 18 January 1957, "Cultural and Propaganda Activities of the Soviet Embassy, Mexico City, November 1956."
CS-3/[illegible] RI

HMM-2377, dated 30 January 1957, "Cultural and Propaganda Activities of the Soviet Embassy, Mexico City, December 1956."
CS-3/[illegible] RI

HMM-2460, dated 27 February 1957, "Cultural and Propaganda Activities of the Soviet Embassy, Mexico City, January 1957."
CS-3/[illegible] RI

HMM-2326, dated 16 January 1957, "Visit of Soviet Artists to Mexico."

d. Soviet Military Activities

Monthly reports are prepared from LIFEAT information on contacts between Soviet and Mexican military personnel. They reflect the identities of the local military figures with whom the Soviets maintain contact and in most cases contain some data on the reasons for the contact. These reports are of particular interest to the U.S. service attaches in Mexico.

e. Movements of Soviet Officials

The arrivals and departures of Soviet officials have been reported in almost every instance during the past five years through LIFEAT coverage. Frequently the Station has determined forthcoming departures long before they took place by careful study and interpretation of LIFEAT materials indicating Soviet contacts with local clothiers and other merchants selling luxury items - it is the habit of Soviets, prior to departure from Mexico, to stock up on items which are not available in the USSR. This type of coverage is of particular interest to ODENVY.

f. Soviet Embassy Contacts

Monthly reports of contacts by members of the Soviet diplomatic corps are compiled and submitted to Headquarters. These reports are of considerable value in planning agent operations against the Soviets. They are also of operational assistance in identifying local and foreign Communists with whom the Soviets maintain regular contact. The following reports are examples of this type of coverage:

HMM-2376, dated 30 January 1957, "Contacts
25-5 34,772 of Soviet Embassy, Mexico City,
[illegible] December 1956."

HMM-2459, dated 27 February 1957, "Contacts
[illegible] of Soviet Embassy, Mexico City,
[illegible] January 1957."

g. Personality Reports on Soviet Officials

LIFEAT has been a very productive source for collecting personality information on Soviets. Such data as Soviet contacts, marital situations, official duties, etc., are of value in determining which officials may be susceptible to recruitment and/or defection. A case in point would be the present Soviet Naval Attache, Grigori [illegible]. A recent study of his background and habits indicated that his wife might be vulnerable to recruitment because she was having amorous relations with one of her husband's subordinates. A sample of the personality report series may be found in [illegible]-6001, dated 1[illegible] May 1957, subject: "Boris Pavlovich K[illegible]".

h. Goods and Services Provided to the Soviet Embassy

Periodic reports of the persons and institutions providing goods and services to the Soviet Embassy have been of considerable value in developing and mounting a [illegible] operation. This type of information is valuable in determining the identity of individuals having access to the Soviet Embassy who can later be recruited by the Station as controlled agents. [illegible]-2[illegible]2, dated 27 February 1957, subject: "Goods and Services Used by the Soviet Embassy, Mexico City, December 1956 - January 1957", is an example of the Station's reporting of this type of operational information.

i. Miscellaneous Activities of the Soviet Embassy

LIFEAT material relating to the Soviet Embassy, which does not fit into any general category, is set forth each month in a series of reports on miscellaneous activities. These reports include such random information as banking transactions, landscaping activities, evidences of internal construction, etc. The following reports are cited as examples of this type of information:

HMM-2375, dated 30 January 1957, "Miscellaneous Activities of the Soviet Embassy, Mexico City, December 1956."

HMM-2448, dated 27 February 1957, "Miscellaneous Activities of the Soviet Embassy, Mexico City, January 1957."

The Czech Legation

The information obtained on the Czech Legation during the past year is basically the same as the information obtained on the Soviet Embassy; consequently, to avoid repetition in this review, only the highlights of Czech Legation coverage are mentioned.

a. Data Pertaining to Czech Personnel

The LIFEAT collection effort in this connection has been productive. Reports have reflected personality data, official functions and domestic matters pertaining to Czech staff members and information suitable for use in planning defection approaches.

The following reports are cited as examples of this type of information:

HMM-1896, dated 28 September 1956, "Czech Legation Personnel."

HMM-1959, dated 17 October 1956, "Czech Legation Personnel."

HMM-2330, dated 18 January 1957, "Czech Legation Personnel."

b. Spot Reports on Czech Legation Activities

Spot reports are submitted periodically on matters of interest which pertain to the Czech Legation. Examples of these reports are:

HMM-1779, dated 10 September 1956, "Proposed Czech-Mexican Barter Transaction."
CS-104650
[illegible]

HMM-1814, dated 19 September 1956, "Travel of Czech Commercial Representatives."

HMM-1577, dated 9 October 1956, "Travel of Enrique CASTRO Garcia."
CS-107787
[illegible]

HMM-1987, dated 24 October 1956, "Czech Delegates to the XX International Congress of Geology."

Polish Legation

As with the Czech Legation, information pertaining to the Polish Legation parrallels closely the type of information reported about the Soviet Embassy. By far the largest amount of information obtained on the Polish Legation during the past year has resulted from LIFEAT coverage. Biographic information on Polish staff members has been forwarded to Headquarters. The following examples of spot reports were forwarded for Headquarters' dissemination:

HMM-1744, dated 29 August 1956, "Polish Legation Reception Commemorating 11th Anniversary of Day of Liberation."
CS-103442
[illegible]

HMM-1748, dated 31 August 1956, "Polish Legation Contacts with Polish Delegates to the Eighth International Radiology Congress."

HMM-2631, dated 20 February 1957, "Polish
Legation Contacts with Carlos
Augusto LEON (Venezuelan Communist)."

HMM-2532, dated 29 March 1957, "Release of
Rosendo GOMEZ Lorenzo."

HMMA-5941, dated 9 January 1957, "Julius
KATZ-SUCHY."

Mexican Communist Party and Communist Fronts

A significant amount of information was received from LIFEAT during the past year concerning the Mexican Communist Party and Communist Party front organizations. The latter included information on the Circulo de Estudios Mexicanos, the Mexican Peace Movement, the Society of Friends of China and various art fronts. This information has been of value in supplementing agent coverage of these organizations. The following reports are examples of this type of information:

HMM-1657, dated 18 July 1956, "Narciso BASSOLS."

HMM-2285, dated 29 November 1956, "Xavier
GUERRERO Saucedo and Clara Porset
de GUERRERO."

American Communists in Mexico

One of the most extensive and productive coverages initiated through LIFEAT during the past year was directed against American Communists in Mexico. Most of these targets were covered at the request of ODENVY and the production was processed in part by ODENVY. A total of 342 reels of information were recorded on three separate cases. A fourth case, LCMAYFO-L, was mounted at the suggestion of ODENVY just 15½ hours after the Station received the request from Headquarters. The Station has received three commendations from Headquarters on the LIFEAT coverage of this case and Edward P. [illegible] received a personal commendation from the DCI for his work on this operation. Over 90 reels of valuable information have been produced since the beginning of this operation on 9 February 1957.

Mexican Government

During the early part of 1957 LIFEAT coverage provided the means for the Station to assess reports from another source concerning the hardening of the Mexican Government's attitude toward foreign Communists. LIFEAT coverage of various individual targets provided reliable information on the arrests of the foreign Communists Mario [illegible] Navarro, Joaquin ORDOQUI, Jacobo [illegible]ITZ Zender and [illegible] [illegible] and tended to confirm data on the same matters obtained through other Station sources. LIFEAT also added details which were not available to other Station sources, such as the names of the persons who sought to help those imprisoned. For example, LIFEAT established that the Venezuelan Communist leader, [illegible] [illegible] Morales, was the person holding the passport of Joaquin [illegible] at the time of his arrest; this fact, among others, makes [illegible] appear to be one of the most important foreign Communists in Mexico. The below listed reports contain information of this type:

H[illegible]-A-6240, dated 6 March 1957

[illegible]-A-6242, dated 6 March 1957

[illegible]-1769, para four, dated 12 September 1956, is cited as containing an apparently reliable report to the effect that in 1956 the Mexican president told the editor of one of Mexico's leading newspapers that he should play down or omit anti-U. S. articles and opinions.

LA[illegible] Information

LIFEAT has contributed materially to several matters having LA[illegible]ICLE interest.

Counter Intelligence Information

CI/CE matters constitue a major portion of the Mexico City Station's priority objectives. Project LIFEAT has contributed more leads and general information on the Soviet aspect of this subject than all other Station sources combined. A few representative samples of this type of information are listed below:

H[illegible]-1958, dated 9 October 1956, and [illegible]-2286, dated 2 January 1957 describe contacts between Narciso BA[illegible]LS, leading Mexican pro-Communist, and Viktor N. G[illegible]V, his Soviet case officer.

[illegible]-7246
RI

[illegible]-2420, dated 8 February 1957, sets forth arrangements for clandestine contact between Colonel Jesus de LEON Toral, of the Mexican General Staff College, with his Soviet case officer.

[illegible]-2270, dated 19 December 1956, sets forth contacts between Nikolay R[illegible]IZOV, Soviet intelligence officer, and Jesus MAZO [illegible], Mexican Naval officer.

HMMA-4163, dated 23 April 1956, and HMMA-2276, dated 20 December 1956, describe a lengthy series of contacts between "Brana" HAILE, an Ethiopian student in Mexico, and Boris P. KAZANTSEV, Soviet intelligence officer.

Checks on Double Agents

Several of the Station's double agents have been monitored through LIFEAT while in contact with the Soviet Embassy, thereby enabling the Station to verify portions of their reports and hence providing means for establishing the veracity of the agents' reports to the Station. Among those monitored during the past year were LIBELKA, LIL[illegible], LI[illegible] and LISTOCK-1.

Jewish Communist Activities

LIFEAT coverage of the Jewish Communist leader, Aaron Jose PRZYSWA Margulos, has provided information on the decline of the Jewish Communist movement and the relative inactivity of PRZYSWA in Communist matters.

Coverage of the Jewish Communist leader, Samuel MAGIDIN Magidin, confirmed the decline of the local Jewish Communist movement and the final liquidation of its headquarters. It also produced the names of the few active members who continue to meet informally. It was of value in covering the arrest of Chone SHEINBAUM, a member of the Jewish Communist group, and the deportation of Jacobo HURWITZ Zender, known Communist agent.

Further, LIFEAT has established that the Liga Popular Israelita, a Jewish Communist front organization, is almost defunct and quite inactive.

Hidden Microphone Operation

One LI[illegible] type operation is presently active. It is directed against the residence of the Soviet Counselor of Embassy and has caused a great deal of concern with the technical problems of installing the equipment and recording conversations properly in order that acceptable production of operational data might be obtained. A TSS technician is presently at the Station correcting these deficiencies; and, recent cable reports have provided valuable information which tends to confirm previous tentative conclusions that the Soviet Counselor of Embassy is a suitable target for a concentrated defection approach. The Station is currently making the necessary plans to approach the target, having already received Headquarters' approval.

Conclusion

The Mexico City Station and the Headquarters Mexico Desk agree that the product of the LIFEAT Project measured against the expenditure of Agency assets in terms of personnel, time, security risks and funds well justifies its renewal. The information produced by this operation has contributed materially and substantially to several priority objectives of the Mexico City Station's Related Mission Directive.

2. Progress of the Operation

Definite progress has been made in reporting on the objectives of the LIFEAT project; however, all LIFEAT objectives are of a continuing nature and are not designed to be fully achieved. For this reason, no statistics can be cited as to the percentage of coverage on each objective. A general indication can be derived of the scope of the project by realizing that approximately 15,000 pages of summary text have been obtained from LIFEAT during the past year. An average of 23 simultaneous coverages on a 24 hour per day basis has been maintained during this review period. Generally, these coverages may be broken down as follows:

Soviet Embassy	8 lines
Czech Legation	2 lines
Polish Legation	2 lines
American Communists	3 lines
Remainder	8 lines

3. Planning for the Future

During the coming year Station capabilities will be expanded to permit monitoring approximately 30 lines. Basic coverage of Soviet, Czech and Polish activities will be continued to the maximum extent possible and assets and capabilities will be maintained for exploiting important targets of opportunity. At the present time the Station believes that 30 lines are about the maximum load the technical agents assigned to LIFEAT can properly handle and protect. The Station is currently preparing plans for submission to Headquarters which call for the establishment of a similar but separate and compartmented LIFEAT-type operation. Such a project would have new agents not previously associated with or knowledgeable about LIFEAT.

4. Performance of Agents

The Station has reported that in general the performance of the LIFEAT agents has been good during the past year. However, some of the agents connected with the group based on the family of the former head agent James [illegible] (deceased) have not been performing in a completely satisfactory manner. These agents are gradually being replaced by new and fully compartmented agents. The Station continues to face recruitment problems, however, since the LIFEAT employment qualifications are quite rigid. The basic qualifications are:

a. Absolute discretion

b. Willingness to cover a base 24 hours daily for long periods of time.

c. Willingness to obey complex orders for long periods of time.

d. Willingness to live in a situation of constant danger.

Additional comments concerning the production, security and cover of individual agents will be found in the attached field project outline.

5. Expenditures During Period Under Review

Approval was granted for the period under review, 1 July 1956 - 30 June 1957, to expend $113,931. The total amount of funds obligated for Project LIFEAT during FY 1957 was $99,167. The proposed LIFEAT budget for FY 1958 is contained in the attached field project outline.

6. Status of Commitments

There are no commitments other than those provided for in the field project outline and the individual contracts of several LIFEAT personnel.

PROJECT OUTLINE

CRYPTONYM LIFEAT

PART I

1. Area of Operations

This project will be run from the Mexico City Station. It will be concerned with targets located in Mexico City.

2. Purpose

The purpose of this project is to determine Sino-Soviet plans, activities and connections with other communist elements through the use of technical surveillance. This purpose appears to be in consonance with the Related Mission Directive for Mexico (dated 7 May 1957), Priority A, Objective One.

3. Background

Project LIFEAT was approved initially on 3 October 1950. Actual operations began on 18 January 1951 and have run continuously since that time. The LIFEAT operation was begun with the installation of one telephone tap and has expanded since that time to an average daily monitoring of 23 telephone lines and from one to four hidden microphone installations (the microphone operations were originally under a separate project—LICOOL).

Project LIFEAT is a unilateral operation. It is completely independent from any liaison arrangement and is staffed by Agency staff and contract employees together with a substantial number of local indigenous controlled agents.

During the past six years Project LIFEAT has produced more than 40,000 pages of operational and intelligence information in direct support of the Mexico City Station's objectives specifically and has contributed materially to the intelligence gathering activities connected with the Sino-Soviet Bloc. In addition, Project LIFEAT has been of considerable value and assistance in monitoring the activities of Americans residing in Mexico City in which ODENVY has major interest.

4. References

a. HMMA-4503, 9 May 1956 (Station's request for renewal of LIFEAT Project.)

b. HMMW-3710, 19 November 1956 (Headquarters' notification to the Station of the renewal of the LIFEAT Project.)

5. Objectives

a. To identify Soviet and Satellite intelligence personnel and to collect information on the nature and extent of their clandestine intelligence and propaganda activities in Mexico.

b. To collect information on Soviet and Satellite commercial, diplomatic, cultural and military activities in Mexico.

c. To collect biographic information on Soviet and Satellite officials.

d. To collect information on the movements, assignments and positions of Soviet and Satellite personnel.

e. To identify and collect information on prominent Mexican Communist Party (PCM) officials.

f. To collect information on the plans and activities of the Mexican Communist Party (PCM).

g. To collect information on the activities of prominent Jewish Communists residing in Mexico.

h. To collect information on the activities of American Communists and other targets of opportunity living in Mexico.

6. Targets

For Objectives "a" - "d":

a. Selected Soviet Embassy and Commercial Office telephone conversations.

b. Telephone conversations from the residences of selected Soviet Officials.

c. Conversations emanating from the residences of selected Soviet Officials (hidden microphone installations).

d. Selected Czech Legation, Czech Commercial Office and Polish Legation telephone conversations.

e. Conversations emanating from the New Polish Legation (hidden microphone installations).

For Objectives "e" and "f":

14-00000

f. Selected telephone conversations originating within the Mexican Communist Party (PCM) headquarters.

g. Telephone conversations from the residences of senior PCM and other Communist officials' residences.

For Objective "g":

h. Telephone conversations from the residences of selected Jewish Communists.

For Objective "h":

i. Telephone conversations from the residences of known American Communists.

j. Telephone conversations, and other conversations which can be monitored by technical means, of targets of opportunity.

7. Tasks

Senior Case Officer - Thomas G. URQUHART
Assistant Case Officer for LIMERICK phase - Arthur S. STOUGH

a. Supervise the operational and administrative activities of all LIFEAT staff, contract and indigenous personnel.

b. Maintain awareness and provide direction in all operational matters pertaining to the management of the LIFEAT Project.

c. Provide guidance and day-to-day supervision of the LIMERICK, LITHOSPHERE and LITHOGRAPHY phases of the LIFEAT Project.

d. Co-ordinate information received from LIMERICK with other Station operations.

e. Maintain LIFEAT capabilities for mounting operations against targets of opportunity.

Case Officer - Matthew S. BINKLEY

a. Provide guidance and day-to-day supervision of the LICOOL phase of the LIFEAT Project.

b. Conduct the training of all personnel assigned to the LICOOL phase.

c. Maintain LICOOL capabilities for mounting operations against targets of opportunity.

d. Insure that all operational and intelligence information receives appropriate handling by the [illegible] personnel involved and, where appropriate, other Station personnel.

Case Officer - Harvey P. [illegible]

a. Provide guidance and day-to-day supervision of the LIVERY phase of the LIFEAT Project.

b. Conduct the training of all personnel assigned to the LIVERY phase.

c. Insure that all operations and intelligence information receives appropriate handling by the LIVERY personnel involved and where appropriate by Station personnel.

d. Co-ordinate information received from LIVERY with other Station operations.

Case Officer - (To be assigned later)

a. Provide guidance and day-to-day supervision of the LITMUS phase of the LIFEAT Project.

b. Conduct the training of all personnel assigned to the LITMUS phase.

c. Insure that all operations and intelligence information receives appropriate handling by the LITMUS personnel involved and where appropriate by Station personnel.

d. Co-ordinate information received from LIVERY with other Station operations.

The tasks of all other personnel assigned to the LIFEAT Project are stated or implied in Sections 9 and 11, below.

8. Co-ordination

a. Information produced by the LIFEAT Project is closely co-ordinated with all other operations at the Mexico City Station. No operational co-ordination is required with any other area, but they are kept informed of any information produced by the Project, which may be of interest to them.

b. Project LIROC, which supports David W. [illegible], who is the principal outside LIFEAT Case Officer, is effected in co-ordination with Project LIFEAT.

c. LIFEAT Project is co-ordinated with Project [illegible] under which [illegible] and [illegible]-1, who perform work for Project LIFEAT, are carried.

d. In specific instances this project is co-ordinated with O NAVY representatives and activities in Mexico.

9. Personnel

The following persons will participate in the LIFEAT Project during Fiscal Year 1958.

a. Staff Agents:

(1) Ralph F. RAFAEL[illegible], who is under unofficial commercial cover, acts as assistant Case Officer.

(2) Daniel K. BRA[illegible], formerly a Staff Employee with SR Division, will be a Staff Agent with the Mexican Station to do translation of LI[illegible] material. He was granted a Security Approval on 23 February 1951. Until his arrival the Station is utilizing the Services of Rowland K. WINGENESS on a TDY basis.

b. Contract Agents/Employees:

(1) David M. WILSTED. With the death of James O. ATCALL (p) in March 1956, WILSTED has become the principal outside Case Officer in the LIFEAT Project, and also assists with the processing of some of the LIFEAT material. He is supported by and is the only agent under Project LINOO which was approved on 24 May 1957. The purpose of the LINOO Project, is to establish WILSTED as a long-term deep cover asset in Mexico City. WILSTED received an Operational Approval on 2 November 1951.

(2) Alice N. CAIL[illegible] does ZOMAR processing for LIFEAT material. She received a covert security approval on 28 May 1956.

(3) Olivia M. GLA[illegible] (LI[illegible]), is used to process LIFEAT tapes and prepare ZOMAR abstracts. She received an Operational Approval on 30 July 1956.

(4) Frances M. HENZIE does clerical work for Project LIFEAT. She received a covert security approval on 5 August 1955.

(5) Carol K. ZI[illegible]ISTER (LICALLA-1) processes a major part of the LIERICK material. She received an Operational Approval on 3 June 1955.

(6) Louise J. MACRINO (LI[illegible]) will process LIFEAT material. She received an Operational Approval on 6 September 1955. A covert security approval is being requested.

c. Field Agents:

(1) LILACS, David M. [illegible]'s wife, assists in translating and preparing reports from LIFEAT material. She received an Operational Approval on 28 September 1954.

(2) LIMESTONE-1 is a base house operator. He received an Operational Approval on 11 September 1953 and has an oral contract effective 1 October 1953.

(3) LIMESTONE-2 is an assistant base house operator. He received an Operational Approval on 25 November 1953 and has an oral contract effective 1 December 1953.

(4) LIMESTONE-3 is a base house operator. He received an Operational Approval on 29 December 1953 and has an oral contract effective 1 October 1953.

(5) LIMESTONE-4 is a base house operator. He received an Operational Approval on 21 October 1954 and has an oral contract effective 1 November 1954.

(6) LIMESTONE-5 is an assistant base house operator. He received an Operational Approval on 21 March 1955.

(7) LIMESTONE-7, wife of the late James O. AYCALL, has been used as a base house operator. She received an Operational Approval on 3 July 1956.

(8) LIMESTONE-8 is an assistant base house operator and processor of tapes. She received an Operational Approval on 27 April 1956.

(9) LIMESTONE-9 received an Operational Approval on 13 September 1956.

(10) LIMESTONE-10, wife of LIMESTONE-3, received an Operational Approval on 13 September 1956.

(11) LI[illegible] is an employee of Telefonos de Mexico, local telephone company. He provides the basic information necessary for running the Project. He received an Operational Approval on 17 October 1950 and has an oral contract effective 1 October 1950.

(12) [illegible]-1 is charged with aspects of the technical portion of the operation. He received an Operational Approval on 14 August 1951 and has an oral contract effective 1 October 1953.

(13) [illegible]-2, works with and has duties similar to his cousin, [illegible]-1. He received an Operational Approval on 11 December 1953 and has an oral contract effective 1 January 1954.

(14) LIMITATION is a base house operator. He received Operational Approval on 3 April 1951 and 30 September 1952 and is under an oral agreement effective 1 May 1951.

(15) LIMITATION-3, LIMITATION's father, is an assistant base house keeper and processor of LIFEAT material. He received an Operational Approval on 1 October 1953 and is under an oral contract effective 1 November 1953.

(16) LIMITATION-5 is a base house operator. He received an Operational Approval on 15 February 1954 and on 20 August 1954. He is under an oral agreement effective 1 March 1954.

(17) LIMITATION-6 assists LIMITATION-5, her husband, with the base house. She received an Operational Approval on 3 January 1956.

(18) LIMITATION-7 is an assistant base house operator. He received an Operational Approval on 13 August 1956.

(19) LIPSTICK-18 is a base house operator. He received Operational Approvals on 31 March 1955 and 25 October 1955 and is under an oral agreement effective November 1954.

(20) LIPSTICK-35 is an assistant base house operator and is the wife of LIPSTICK-18. She received an Operational Approval on 6 August 1956.

(21) LIPSTICK 37, a relative of LIPSTICK-18, is an assistant base house operator. She received an Operational Approval on 13 September 1956.

(22) LIQUATION has been a base house operator and may retire during the coming project year. He received an Operational Approval on 16 December 1953 and is under an oral contract effective 1 January 1954.

(23) LIQUATION-1, LIQUATION's brother, is a base house operator. He received an Operational Approval on 26 September 1955.

(24) LIQUATION-2, wife of LIQUATION, is a base house operator. She received an Operational Approval on 21 August 1956.

(25) LI[illegible]-3 is an assistant base house operator and processor of LIFEAT material. She received an Operational Approval on 19 January 1957.

(26) Unwitting assistant to LI[illegible] for routine office work.

LIPRIFORM and LIPRIFORM-1, who handle Czech languages tapes for the LIFEAT Project, are included under the LI[illegible] Project since the translation of the material and application of it to Czech operations are considered LI[illegible] functions. LIPRIFORM received an Operational Approval on 3 July 1951 and his wife, LIPRIFORM-1, received one on 5 May 1952.

ODENVY's local office processes certain taps from targets of primary interest to them.

There are a total of 41 persons who work full and part time on the LIFEAT Project. It is expected that two more processors and one additional technician will be added during Fiscal Year 1958.

d. Personnel Dropped from the Project:

The following Staff Agents returned to Headquarters on PCS during the last project year: Lewis D. NICKLAS, Chester D. POLLICOVE, and Norman F. WANGEROW.

LIPSTICK 13 left Mexico City.

10. Operational Clearances

See item 9.

11. Cover

(1) Ralph B. RAFANELLI: Fully documented employee of LIFINGER, who has in the past provided similar cover for undercover agents.

(2) Daniel K. BROWNEL: The Station is in the process of arranging LI[illegible]'s cover.

(3) David M. WILSTED: Partner in small family-run machinery business. His Mexican documentation is complete and legitimate.

(4) Alice H. CAULETEAD: Housewife

(5) Olivia N. GLADDEN: Retired woman residing with daughter and known to have independent income from retirement from former job.

(6) Frances N. MENZIE: Housewife

(7) Carol K. ZINSMEISTER: Housewife

(8) Louise J. MACHADO: Housewife, wife of LIPSTICK-19

(9) LILACK: Housewife

(10) LIMESTONE-1: She is an elderly person and hence can logically have an income from family estate. Does not attract attention.

(11) LIMESTONE-2: Brother of LIMESTONE-1 and resides with her. Is elderly and can pass as a poor relative and retainer.

(12) LIMESTONE-3: Has been engaged in obtaining small government contracts and moves in and out of various government offices. Unfortunately his cover is not really good and steps must be taken to improve it if he is to remain in our employ.

(13) LIMESTONE-4: Elderly woman who has had large business enterprises in the past and who does not need to explain her source of income for this reason.

(14) LIMESTONE-5: Father-in-law of LIMESTONE-3 and ostensibly dependent on him.

(15) LIMESTONE-7: Widow of James O. AYCALL, who was widely regarded as a man of means. Hence she ostensibly lives on his estate. This woman has a tendency to live beyond her means, however, and is a cause for anxiety.

(16) LIMESTONE-8: Relative of LIMESTONE-4. They reside together. This agent is a widow and ostensibly lives on an inheritance.

(17) LIMESTONE-9: Housewife

(18) LIMESTONE-10: Housewife

(19) LIMEWATER: His natural cover is of employee of the local telephone company, which he has been for a number of years.

(20) LIMEWATER-1: Enjoys natural cover as a telephone company employee.

(21) LIMEWATER-2: Enjoys natural cover as a telephone company employee.

(22) LIMITATION: He is an architect and follows an almost full time career in that business while his relatives manage the LIMIT Base.

(23) LIMITATION-3: Very elderly retired person who formerly had a large business and whose income therefore is not open to question.

(24) LIMITATION-5: Accountant with a large firm.

(25) LIMITATION-6: Wife of LIMITATION-5. She handles most of the routine work LIMITATION-5 has done for the Station in the past.

(26) LIMITATION-7: Housewife

(27) LIPSTICK-18: This agent's cover, that of plumber and electrician is not satisfactory. It appears, however, that he may be put into another type of operation sometime this year.

(28) LIPSTICK-35: Housewife

(29) LIPSTICK-37: Dependent relative of LIPSTICK-18.

(30) LIQUATION: Businessman with office in the city. He spends a good deal of time on selling machinery while LIQUATION-2 and LIQUATION-3 mind the base.

12. Contact and Communications

a. Contact and communications between the case officer and the agents and undercover personnel in this operation is maintained in a clandestine manner. Various patterns have been established by which the agents and the case officers follow prearranged signals for the meetings. When heavy or bulky material is to be passed, the meetings are always held at nights. All movement in and out of bases by the Case Officers and Principal Agents is done in cars ostensibly owned by the base agents, except in the case of LIVERY, where the agents are too old to drive. One of the local agents is usually used to contact the LIVERY base. Entrance to the bases by foot is made only in great emergencies.

b. Telephonic contact concerning the Project is kept to a minimum and a code system of digits and cryptonyms has been devised for use by the agents and case officers for phone conversations.

c. Alternate and emergency signals have been worked out.

d. In general these systems of contact and communication have been in practice for over six years and appear to have been suitable to the work. In detail, locations and times of meetings have been changed frequently.

13. Control and Motivation

The indigenous agents on this project are motivated by the following factors:

a. The LI[illegible]ATER group: Motivated by high salaries and LI[illegible], himself, by pro-PBPRIME feelings. One of his sons is at present studying there. They are further controlled by fear of police action.

b. The LI[illegible] group: Motivated by family loyalty, good salaries and pro-PBPRIME outlook. They are further controlled by fear of police action.

c. The LIMITATION group: Motivated by pro-PBPRIME sentiments, LIMITATION being a PBPRIME citizen and LIMITATION-1 having resided there for many years.

d. The LIPSTICK group: Motivated by family loyalties, good salaries and personal loyalty to LI[illegible].

e. The LIQUATION group: Motivated by family loyalty and good salary. LIQUATION, himself, is anti-Communist. Control is ideological and monetary.

14. Equipment and Support

It is believed that the supply of equipment for LIFEAT currently at the Station is sufficient to carry the operation through the calendar year 1957, but it is possible that simultaneous breakdown of quantities of the older equipment, dating from 1951 and in constant use since then, would necessitate the placing of separate orders for replacements.

15. Timetable

LIFEAT has been in almost constant operation since its inception in January 1951 and it is planned to continue it indefinitely.

PROJECT OUTLINE

CRYPTONYM LIFEAT

PART II

16. Estimated Costs

The following costs are estimated for FY 1958. All figures are in U. S. dollars per year. LIFEAT costs will be higher than in the past because of rises in the cost of living (especially increased rents) and intended expansion.

a. Salaries

1. Staff and Contract personnel:

Ralph B. RAFANELLI, GS-7				
	Salary	$4,525.00		
	Quarters	2,000.00		
			6,525.00	
Daniel K. Bremond ~~Unnamed~~ LIMERICK processor(GS-12)				
	Salary	7,570.00		
	Quarters	2,200.00		
	PCS Travel	2,000.00		
			11,770.00	
~~Unnamed LIDCE translator~~				
Included under New Project Besmooth	~~Salary~~	~~6,500.00~~		
	~~Quarters~~	~~2,000.00~~		
	~~PCS Travel~~	~~2,000.00~~		
			~~10,500.00~~	
Carol K. ZIMMEISTER	Salary	5,400.00	5,400.00	
Frances M. MENZIE	Salary	2,504.00	2,504.00	
Alice H. CAILLETEAU	Salary	2,425.00	2,425.00	
Olivia H. GLADMON	Salary	3,880.00	3,880.00	
Louise J. MACRIDO	Salary	3,360.00	3,360.00	~~46,364.00~~ 35,864.00

2. Field agents

	Presently		
LIMEWATER	5280.00	✓	
LIMEWATER-1	2208.00		
LIMEWATER-2	1440.00	✓	
LIMESTONE-1	1440.00		
LIMESTONE-2	576.00		
LIMESTONE-3	2208.00		
LIMESTONE-4	2208.00		
LIMESTONE-5	768.00	✓	
LIMESTONE-7	1538.00	✓	
LIMESTONE-8	1728.00	✓	
LIMITATION	2112.00		
LIMITATION-3	1920.00	✓	
LIMITATION-5(not hired yet)			
LIQUATION	3840.00	✓	
LIQUATION-1	3840.00	✓	
LIQUATION-3	768.00	✓	
LI[illegible]TICK-18	1728.00	✓	
LILACE (£2.02 per hour, 120 hrs. per month)	2504.00	✓	
LIMEWATER assistant	144.00		
Possible raises	2000.00		
Christmas bonus and presents (One month salary to each agent, in accordance local custom. Also special gifts in some cases)	3000.00		41,250.00

b. Base house rentals, utilities and expenses

LIMERICK base house	2050.00	
LITHUS base house	2000.00	
LIVERY base house	2000.00	
LITHOSPHERE base house	2000.00	
LCMAYFOWL base house	1800.00	
Proposed base house	2900.00	
LIPHAT base shop	2000.00	
Proposed base house	2700.00	
Proposed base house	2800.00	
LICOOL-6 base	600.00	
Proposed LICOOL base	600.00	
		21,450.00

c. Equipment

Local purchase of emergency and special equipment	5,000.00	5,000.00

d. Miscellaneous

1. Supplies (paper rolls, wire, tubes, tape, pens, parts)	2,000.00	2,000.00
2. Transportation		
LIMERICK car rent	300.00	
Carol K. ZINGMEISTER mileage	350.00	
LITMUS base car rental	700.00	
LIVERY base car rental	700.00	
LITHOGRAPH base car rental	400.00	
(MV 2047)	1440.00	
Proposed base car rental	700.00	
		4,590.00
3. Other Operational Expenses (To cover loss of deposits on rents, fatalities and other serious emergencies, separation payments, medical expenses, emergency moving bills; and to cover targets of opportunity)		20,000.00
Grand Total		~~140,654.00~~ 130,154.00

17. Special Problems and Commitments

DISPATCH NO. HMM-A-7370

[redacted] #1012

Mr. Dahlgren

[redacted]
CLASSIFICATION

TO : Chief, WH Division

DATE: 12 July 1957

FROM : Chief of Station, Mexico City

SUBJECT: GENERAL— LIFEAT/Operational

SPECIFIC— Operations report for June 1957

MICROFILMED
JAN 25 1962
DOCUMENT MICROFILM SERVICE

REF: HMM-A-7141

The following report is keyed to the headings required in FN 52-670 sec 3c2.

a. Processing of information: No change. The LCMAYFOWL phase of the operation was live monitored all day and during the early evening hours. A large number of ZOHAR abstract sheets, made out by Olivia Gladmon and Alice Gailleteau, were forwarded to Headquarters. Gladmon was also used on the processing of the Maurice HALPERIN target. During June the new system of making numerous carbon copies of the traffic was further developed and hence more copies were made available for clipping and putting into "P" (201) files. Routine reporting on monthly developments, particularly pertaining to the LIMERICK phase, was continued on the same basis as in the past.

15964

b. Exploitation of leads: Leads connected with the visit of the alleged Communist agent Jacobo UCHNIK, from Argentina were followed through the Maurice HALPERIN line and were coordinated with other activities on the case. From LIFEAT coverage it was also ascertained that LCMAYFOWL was in contact with Boris P. KOLOMYAKOV, RIS case officer stationed at the Soviet Embassy. This knowledge, obtained by voice recognition of KOLOMYAKOV in a single contact with the LCMAYFOWL target, resulted in the mounting of a physical surveillance of the LCMAYFOWL target which confirmed the existence of the contact and enable the station to derive further information of importance. In a third instance, LIFEAT contact between a Mexican Army officer and an RIS officer enabled the station to make plans to cover a meeting between them scheduled for 3 July 1957. Finally, coverage of LIMERICK targets commercial lines enabled the station to direct various investigations which resulted in the identification of several commercial contacts of that establishment.

c. Liaison: Not applicable.

d. Security: Security on the project remained without substantial change. Nothing further has developed from the alleged blackmail plot of April 1957. On the other hand, the activities of the local telephone company, which is now more solvent than in many years because of a new financial setup, continued to cause problems and temporary suspensions of work. LITMUS was not run during the entire month and the Maurice HALPERIN phase was suspended after about a week's operation owing to the presence of telephone crews in the same block as the base house as well as at other points along the LITMUS segment of the net. It was observed

[redacted]

that the telephone crew had the habit of putting a high ladder up to the roof of any house upon which they wished to work, whereas in the past it had been their custom to ring the doorbell, ask permission to go to the roof and do so through the house where they wished to work. This new custom brought about the need to study emergency procedures and redraw them. A limited experiment was made on one line with some success. This experiment consisted of leaving the hot stub of one line on the base roof as usual, but instead of leading it directly into the operations room, as previously, it was attached loosely to a lead-in made of softer wire of the type used for interior installations. In the moment of need, the base operator had merely to haul on the soft lead, which therewith parted from the outside wire. Upon reaching the roof, therefore, the telephone men found only a stub ending in random fashion. This emergency method is considered better than none but is satisfactory for no more than one line at a time. It is the further disadvantage in that the outside wire stub is "hot" and could be checked by the telephone crew who, as they have done in the past on a few occasions, might call the target on that hot stub to see where he was located. In general, the station continues to recommend that when telephone crews are working near a base or along its net, crosses should be pulled and the operation suspended till the crews have left the neighborhood. An exception was made in the Halperin case because it was hoped the line would shed light on LCMAYFOWL.

e. Technical: No technical problems were encountered in June 1957.

f. Personnel and Administrative: No problems of a personnel or administrative nature were noted.

g. Miscellaneous: LIFEAT Annex IV was rented early in June and is being readied for use on three to five targets during July. LIMERICK Annex II is still out of service owing to the absence of LICATION and the continuance of work in the zone by the telephone company. LIVERY is out of service owing to the retirement of LIMESTONES 1 and 2 from active duty on account of the alleged blackmail plot of April 1957. LIMERICK Annex III is out of service and will not be recommissioned. One of its LIMERICK target lines was changed over to LIMERICK main base on 28 June. The other two lines from Annex III should be installed at LIMERICK main base during July.

During June 1957 the following lines were monitored part or full time:

7 - LIMERICK office lines out of 8 existing. Two were suspended for some two weeks because of the telephone company activity in their zone.
2 - LITHOSPHERE lines
1 - LCMAYFOWL line
1 - Maurice HALPERIN line (for about a week only)

During June the following cables, HMMs and informational HMMAs were based entirely or in part on LIFEAT:

MEMORANDUM FOR: WH/3 Mexico

SUBJECT: Project LIFEAT

REFERENCE: Memorandum for Chief, EE/Czechoslovakia from Chief, WH, subject as above, dated 3 July 1957

The LIVERY phase of Project LIFEAT continues to provide considerable biographic data on the members of the Czech Legation in Mexico City, which EE/Czechoslovakia finds most useful in the evaluation of these individuals as possible targets for recruitment, either in Mexico City or upon their assignment to another overseas post. For this reason EE/Czechoslovakia is interested in seeing Project LIFEAT renewed.

PHILO DIBBLE
AC/EE/C

~~SECRET~~

9 July 1957

MEMORANDUM FOR: Chief, WH

SUBJECT: Project LIFEAT/LITMUS

1. Reference is made to your memorandum of 3 July 1957 concerning the renewal of Project LIFEAT for the period 1 July 1957 through 30 June 1958. The LITMUS portion of this project is of primary interest to the Polish Branch, and as part of the increasing priority of KUBARK interest in Poland and Polish targets, it is strongly recommended that the project be continued.

2. This reaffirmation of our interest in LITMUS is based on the coverage it afforded up to December 1956 at which time the case officer/monitor handling LITMUS departed Mexico. This coverage was mainly of operational value in providing the following types of information:

(a) indications of Legation plans to move which lead to the station's investigating the possibilities of installing microphones in strategic places which would have immeasurably improved our knowledge of Polish activities in Mexbo.

(b) Legation security practices which are useful in predicting or interpreting changes elsewhere.

(c) Repatriation effort which has been of interest in itself and is of potential value in determining what part of this effort is connected with the PIS activity in Mexico.

(d) Travel and other information concerning the TDY presence in Mexico of important PIS personalities which assists in the world wide coverage of these individuals.

(e) Some information about the PIS representatives assigned to the Legation.

(f) Confirmatory information concerning some basic aspects of developmental activities such as LIMETRIC.

(g) Biographic and personality information in varying degrees of completeness about each of the individuals

~~SECRET~~

assigned to the Legation and some indication as to their activities and contacts. This data is most useful in assisting in the assessment and selection of these individuals as potential recruitment targets.

(h) Positive intelligence concerning commercial, cultural/propaganda, and diplomatic activities of the Legation personnel. The fact that the disseminations have been relatively few, is due to the usual limitations inherent in this type of audio operation.

3. The method of reporting information from LITMUS (separate reports on Legation officials and on the various subjects of interest) has been extremely well done and most useful to EE/P in assessing any specific personality, or an operational situation. It is hoped that with this basic information from LITMUS now available in each case, the station will be able to put the operational leads to use. Our recommendation for the continuance of LITMUS is based on the assumption that KUBARK operations in Mexico against the Poles will now be aimed primarily at the clarification of the status of the PIS in Mexico, the recruitment of Polish officials within the Legation, and answering the basic question of what the Poles are doing in Mexico. It is believed that LITMUS is essential to the support of this effort.

4. As an example of our interest in Mexico and LITMUS, it is pointed out that a Satellite case officer from the EE Division is currently preparing to depart for Mexico. It is also planned that a Polish speaking contract agent, experienced in Polish operations including monitoring audio efforts, will be sent to Mexico in the near future to work on LITMUS and to assist this case officer.

CRYPTONYM: LIFEAT FIELD CASE OFFICERS Thomas S. URQUHART

Matthew S. DINGLEY

Harvey P. [illegible]

Not present

STATION Mexico City CHIEF OF STATION

Willard C. CURTIS

1. The attached Field Project Outline is submitted for approval for the Fiscal Year 1958. In accordance with Field Instruction No. 236-1, 7(d), (dated 23 October 1953), the following information is submitted.

Product of the basic project

During the current fiscal year production from LIFEAT has been quite voluminous. The Soviet phase alone has accounted for some 6,000 pages of summary text and constitutes somewhat less than half the coverage yielded by the total project. The following general categories of information have been developed through LIFEAT and are cited below with a few examples of production(see references to specific reports and dispatches in the following paragraphs).

2. The Soviet Embassy

Information on the Soviet Embassy derived from LIFEAT has been voluminous and extensive reports have been furnished on the following matters:

a. Soviet Commercial Activities.

Reports such as HMM-2498, 8 March 1957; HMM-2054, 6 November 1956; and HMM-1975, 19 October 1956 have conveyed a substantial amount of month-to-month detail concerning Soviet economic and commercial policy and actions in Mexico and to a lesser extent in adjacent areas. This information reflects the types of products the Soviets are selling or purchasing in the area, the names of their intermediaries, details on prices, manner of arranging deals, and manner of effecting shipments. This information was screened out and briefed from extensive and prolonged coverage of Soviet Embassy commercial traffic and appears to be fully authentic as well as rich in detail. Reference is also made to HMM-2476, 1 March 1957(Tentative Deal for Ecuadorian Coffee); HMM-1973, 18 October 1956(Mexican Exports to the USSR); and HMM-1760, 18 October 1956(Sale of Soviet Ferrous Metal in the US) as examples of specific spot reports based on information derived from the same source. During the past year traffic concerning the Soviet commercial office in Mexico has increased a great deal and remains this Station's primary source on all such matters.

RECORD COPY

~~SECRET~~ / [redacted]

Attachment to HMMA-7063
[redacted]986
5 June 1957

50-6-32/1

b. Soviet Diplomatic Activities

Reference is made to HMM-2327, HMM-2395 and HMM-2465 as examples of the type of monthly reports now being submitted relative to the diplomatic activities of the Soviet Embassy. These reports, based almost entirely on LIFEAT, indicate some relationships the Soviets are developing with the Mexican Government, with other Latin American governments, and with other foreign diplomatic representatives. They also shed some light on the relations between the Soviets, Poles and Czechs in Mexico City; and even on the relationships between the Soviets and the Yugoslavs. Reports of this type show when the Soviets seem to be engages in a drive to establish contacts in various departments of the Mexican Government and when they appear to be conducting a drive to cultivate Latin American diplomats. The reactions of both the Mexicans and the Latin Americans to these advances are often shown in the corresponding traffic. The Soviets, in general, do not seem to get a very good reception from the Latin Americans, but on the other hand, LIFEAT shows that they are well received by the diplomatic representatives of India and Indonesia. The diplomatic reports have also shown an improvement of relations with the Yugoslavs(which were non-existent for several years here). The traffic and reports further show that the Soviets, Poles and Czechs have frequent interchange and other join in days of sport or other entertainment.

c. Cultural and Propaganda Activities

HMM-2329, HMM-2377 and HMM-2460 are cited as examples of the monthly summaries of Soviet cultural activities based on LIFEAT materials. They reflect in detail Soviet activities in connection with publication, cultural institutes, travel of Mexicans to the USSR for cultural purposes, visits of Soviet cultural figures to Mexico and data concerning how their local arrangements are made. HMM-2326 is cited as an example of a separate report on the visit of some Soviet musicians to Mexico.

d. Contacts of the Soviet Embassy

HMM-2376 and HMM-2459 are examples of monthly summaries of contacts of the Soviet Embassy. These are of value in planning agent operations against the Soviets since they list various contacts known to be maintained by them. This type of report also lists the local and foreign Communists with whom the Soviets are in contact each month, together with a description of the nature of the contact when known.

e. Miscellaneous Activities of the Soviet Embassy

LIFEAT material relating to the Soviet Embassy, which does not fit into any general category, is set forth each month in a series of reports on miscellaneous activities. These reports include such random information

Attachment to HMMA-7063
[redacted]986
5 June 1957

[redacted]

as banking transactions, landscaping activities, evidences of internal construction, etc. Examples of this type of report are HMM-2375 and HMM-2446.

f. Military Activities of the Soviet Embassy

HMM-2391 and HMM-2450 are examples of monthly reports of Soviet contacts with Mexican military circles and are derived almost entirely from LIFEAT. They reflect the identities of the local military figures with whom the Soviets maintain contact and in most cases contain at least some data on the reasons for the contact. These reports are of considerable interest to American service attaches in Mexico.

g. Goods and Services of the Soviet Embassy

HMM-2452 is an example of periodic reporting on the persons and institutions providing goods and services to the Soviet Embassy. These reports have been of particular interest in developing the LIMESA project and resulted in the making of a contact in the cleaning business through which this Station obtained entry for one of its agents into the Embassy. (Cf HMM-A-6872).

h. Personality Reports on Soviet Officials

HMMA-6651 is a sample of a series of personality reports on Soviet officers prepared mainly from LIFEAT materials. LIFEAT reflects varying amounts of information on the Soviets. Some are frequently heard and much data accumulated on their contacts, marital situations, official duties, etc. These data have been used on occasion for studying possible defection pitches and will probably be used more in the future. In the case of the current Soviet Naval Attache, Grigori NIKIFOROVS, his habits were studied mainly through LIFEAT and note was made that his wife might be vulnerable because she was having amorous relations with one of her husband's subordinates. (MEXI 524; MEXI 495; MEXI 447).

i. Movements of Soviet Officials

The arrivals and departures of Soviet officials have more often been ascertained through LIFEAT than through any other source. The Station has been able to advise of movements out of Mexico through LIFEAT in almost every case where such travel took place in the past five(5) years. Frequently the Station has received notice of movement long before it took place by studying contacts of the Soviets with local clothiers, etc. since it has been the Soviet custom to stock up on clothing and various luxuries prior to leaving Mexico. The arrivals of many Soviets have been learned of only through LIFEAT, even in a number of cases when the Soviets travelled

Attachment to HMM-A-7063
[redacted]966
5 June 1957

[redacted]

through the U.S. MEXI-853, 4 March 1957, is an example of this type of coverage. Notice of this arrival first appeared in the traffic on 26 February 1957. HMMA-6842 is referred to as an example of this Station's coverage of unusual Soviet "courier" travel, in part based on LIFEAT.

2. Various Spot Reports

HMM-2081, describing the Soviet Embassy reception of 7 November 1956, is cited as an example of numerous spot reports on Soviet Embassy activites on which information was obtained mainly or entirely through LIFEAT. These reports are also put out to cover the travel of Soviets in the country of Mexico(MEXI-907, travel of Pavel IATSKOV, Soviet Consul, to Nuevo Laredo on 11 March 1957).

3. Czech Legation

LIFEAT has provided considerable information on the Czech Legation during the past year. The information thus obtained is roughly parallel to that obtained on the Soviet Embassy, and periodic general summaries have been forwarded in HMM-1605, HMM-1632, HMM-1693, HMM-1997, HMM-1747, HMM-2349 and others.

a. Personnel data

Personnel data on staff members of the Czech Legation have been forwarded in such reports as HMM-1896, HMM-1959, HMM-2330 and others. This data has been of use not only in reflecting personality data, official functions and domestic matters pertaining to Czech staff members but also in planning defection approaches.

b. Spot Reports

From time to time spot reports on matters of especial interest in connection with the Czech Legation have been forwarded, among which reference is made to the following entirely or partially based on LIFEAT:

HMM-1779, Proposed Barter Transaction;
HMM-1814, Travel of Czech Commercial Representatives;
HMM-1935, Vera Marie PLASILOVA;
HMM-1977, Travel of Enrique CASTRO Garcia; and
HMM-1987, Czech Delegation to Geological Congress.

c. LIFEAT Coverage

During most of the year LIFEAT coverage of the Czech Legation was confined to the two phones in the main Legation building but early in 1957 one of the two lines of the Commercial Office was crossed and very high production received. It is projected that this basic coverage will be continued to the extent circumstances permit.

4. Polish Legation

By far the greatest amount of information derived on the Polish

Legation in the past year, as well as every year since 1951, has been through LIFEAT. As in the cases of the Soviets and Czechs, this information is generally forwarded in periodic general summaries, of which HMM-1547, HMM-1610, HMM-1619, HMM-1667, HMM-1767, HMM-2018 and HMM-2173 are cited as examples. Biographic information on Polish staff members has been forwarded in such reports as HMM-1886, HMM-1800 and HMM-1929.

The following reports are cited as examples of spot reports on items believed to be of especial interest relating to the Polish Legation:

HMM-1744, Polish Legation Reception
HMM-1748, Polish Legation Contacts with Polish Delegates to Radiological Congress
HMM-2431, Polish Legation Contacts with Carlos Augusto LEON (Venezuelan Communist)
HMM-2532, Release of Rosendo GOMEZ Lorenzo and
HMMA5941, Juliusz KATZ-SUCHY.

5. Combined Reports

HMM-1789, entitled "Soviet Bloc Economic Penetration in Mexico" is an example of a report of a general nature based on LIFEAT coverage of Poles, Czechs and Soviets.

6. Counter-intelligence matters

Counter-intelligence matters constitute the major CI portions of this of this Station's related Mission Directive and LIFEAT has contributed more leads and general information on the Soviet aspect of this subject than all other Station sources combined. The following reports are cited as examples of many of this type of reports and information developed in this category:

a. HMM-1958, HMM-2286, describing contacts between Narciso BASSOLS, leading Mexican pro-Communist, and Viktor I. [illegible]LOTOV, his Soviet case officer who appears in LIFEAT under the name of "LOPEZ."

b. HMM-2218, HMM-2262 and HMM-1336, dealing with the contacts between the leading Venezuelan Communist, Carlos Augusto LEON and his Soviet case officer, Boris P. KOLOMYAKOV. A comparison of readings from LIFEAT/LIERICK with LIFEAT coverage on the Venezuelan Communist Party Officer Eduardo MACHADO Morales indicates that LEON is probably the intermediary between the Soviets and the Venezuelan exiles.

c. HMM-2420, setting forth arrangements for clandestine contact between Colonel Jesus de LEON Toral, of the Mexican General Staff College, with his Soviet case officer.

Attachment to HMMA-7063
[redacted]986
5 June 1957

d. HMM-A-4463, HMM-2232, HMM-2276, setting forth a lengthy series of contacts between "Franz" WILE, an Ethiopian student in Mexico, and Boris P. KOLOMYAKOV, Soviet intelligence officer.

e. HMM-A-6744, which sets forth the history of the contacts between Heracio SANDOVAL, ODENVY agent, and Boris P. KOLOMYAKOV.

f. HMM-2270, setting forth contacts between Nikolay [illegible], Soviet intelligence officer, and Jesus MAZO Mejucro, Mexican naval officer.

g. HMM-A-5416 and HMM-A-4216, which deal with the possible contacts of a Mexican parachutist named Edward Albert [illegible] with the Soviet Embassy and which possibly has some importance to counter-intelligence within the U.S.

h. HMM-A-5941, Juliusz KATZ-SUCHY (Polish Intelligence Matter), setting forth this subject's activities and contacts while in Mexico. This report was largely based on LIFEAT.

and i. Many others.

7. Double Agent Checking

During the past year, as in previous years, a number of this Station's double agents have been monitored through LIFEAT in contact with the Soviet Embassy, thus enabling the Station to verify certain portions of their reports and hence leading to a better chance to evaluate the agents. Among those heard in the past year were LIBEL R, LIBEL R's son, LIEMONADE, LIRACE and LINSTOCK-1. In each case LIFEAT tended to confirm the Station's good opinion of the agent. On the other hand, several recent contacts former Station agent LIVESTOCK-3 and the Soviets indicate that LIVESTOCK-3 may be "playing" with the Soviets or endeavoring to do so.

8. LAURICLE

Reference is made to HMM-A-5923 (HMM-OM-843) which sets forth data on Soviet LAURICLE matters, derived mainly from LIFEAT. Personality data on LAURICLE figures, especially in the Polish and Czech establishments, has been accumulated and studied as a major Station objective.

9. Intentions and Activities of the Mexican Government

During the early part of 1957 LIFEAT enabled the Station to assess reports it was receiving from another source concerning the changing and hardening of the Mexican government's attitude towards foreign Communists. LIFEAT coverage of various individual targets gave solid information on the arrests of the foreign Communists Mario SOSA Navarro, Joaquin ORDOQUI,

Attachment to HMM-A-7063
[redacted] 1966
5 June 1957

Jacobo HURWITZ Zender and Chone [illegible] and tended to confirm data on the same matters obtained from Station agent [illegible]-2. LIFEAT also added details which were not available to other Station sources, such as the names of the persons sought to help those imprisoned. For example, it was learned that the Venezuelan Communist leader Eduardo MACHADO Morales was the person who was holding the passport of Joaquin ORDOQUI at the time of his arrest, which fact, among others, makes MACHADO appear to be one of the most important foreign Communists in Mexico. Reference is made to the following reports which contain information of this general type: HMMA-6240 and HMMA-6242.

HMM-1769(p. 4) is cited as containing a seemingly reliable report to the effect that in 1956 the Mexican president told the editor of one of Mexico's leading newspapers that he should play down or omit anti-US articles and opinions.

10. Information on the Mexican Communist Party and Communist Fronts

During the past year considerable day to day detail was received from LIFEAT concerning the Mexican Communist Party and its fronts. The latter included the Circulo de Estudios Mexicanos(the intellectual author of which was covered in LIFEAT) and the Mexican Peace Movement, Society of Friends of China and various art fronts(through coverage of an officer of those movements.) This information was of value in supplementing agent coverage of those organizations and occasionally provided information unknown to the agents. (Cf HMM-1657 and HMM-2285)

11. American Communists in Mexico

One of the most extensive and productive coverages through LIFEAT in the past year was directed against American communists in Mexico. In this period several American targets were covered at the request of ODENVY and the production processed in part by them and in part by this Station. ODENVY assumed the task of reporting most of the information on these subjects but provided the station with carbon copies of their summaries of the pertinent reels and of the reports based thereon. The subjects thus covered for ODENVY were as follows, with a listing of the number of reels passed on each:

a. Noah SEBORER, possible American espionage agent for the Soviets (23 reels)
b. Frederich Vanderbilt FIELD, American Communist, and his wife, Anita Boyer FIELD(254 reels)
c. Asa ZATZ Dolinski, American Communist agent(55 reels.)

12. Of particular importance in the coverage by LIFEAT was the Alfred Kaufmann STERN // and Martha Dodd STERN case which was of particular interest not only to KUBARK but

Attachment to HMMA-7063
[redacted] 986
5 June 1957

[redacted]

also to ODENVY. This case was a part of the Jack SOBLE espionage case; and LIFEAT coverage of the STERNs has been outstandingly excellent. In fact, the Station has had three(3) commendations from Headquarters on the LIFEAT coverage of this case and Edward P. [illegible] had a personal commendation from ASCHAM on his work(LIFEAT) on the case. Over ninety(90) reels have been produced by LIFEAT on the STERNs between 9 February and 27 May 1957. Another interesting facet of this coverage is that on 8 February (at 1630 hours) 1957 a cable from Headquarters asked that the Station attempt to institute LIFEAT coverage on the STERNs. At 1000 hours on 9 February 1957 LIFEAT coverage had been completed and was producing.

13. Miscellaneous Coverages

During the past year the following individual targets have been covered for periods of time varying from one month to a full year:

a. Aaron Jose PSZYSWA Margules, Jewish Communist leader. The coverage reflected the decline of the Jewish Communist movement and the relative inactivity of PSZYSWA and was suspended.

b. Noah SEBORER, American Communist. He and his wife work for a travel agency and their traffic has reflected many details concerning the movements of Americans in and out of Mexico, many of them Communists.

c. Samuel MAGIDIN Magidin, Jewish Communist leader. This coverage confirmed the decline of the local Jewish Communist movement and the final liquidation of its headquarters. It reflected the names of the few active members who continue to meet informally. It was of especial value in covering the arrest of Chone SHEINBAUM, member of the Jewish Communist group, and in covering the deportation of Jacobo HURWITZ Zender, known Communist agent. From this coverage details were learned concerning the names of the lawyers used by the defendants, together with a considerable view of the methods and secondary contacts.

d. Alfred K. (and Martha Dodd) STERN(see para 12), which was probably the most outstanding technical surveillance operation ever mounted by this Station and which is still continuing.

e. Eduardo MACHADO Morales, Venezuelan Communist. This coverage conveyed a host of details on the machinations and activities of the Venezuelan Communists in Mexico and to a lesser degree provided information on their contacts with the Soviets and Mexican Communists.

f. Xavier GUERRERO. This coverage contained considerable detail on the Communist party, Society of Friends of China, Peace Front and other organizations of which GUERRERO was a member. It also contained details of great interest on various Latin American Communists and Americans with whom the GUERREROs were in contact. Information derived from this line

[redacted]

Attachment to HMMA-7063
[redacted]-986
5 June 1957

[redacted]
[redacted]

was used in inducing the Mexican Government to deport Mario SOSA Navarro and thus provided the Station with the means to test one of its more potent sources as well as check the accuracy of his progress reports.

g. Narciso BASSOLS. BASSOLS is a leading collaborator of the Soviets in Mexico. Coverage of his traffic showed him in contact with his Soviet case officer and gave details of interest on Mexican political matters and one important Communist front, the Circulo de Estudios Mexicanos, of which BASSOLS was the intellectual author though not a member.

h. Asa ZATZ Dolinski, American Communist mentioned above.

i. Headquarters of the Liga Popular Israelita, Jewish Communist front. This coverage reflected that the Liga was almost defunct.

j. Fernando Alberto MILIA, Argentine Naval Attache, who was covered briefly in connection with the proposed defection of a Soviet official with whom he was in contact.

14. Microphone Phase

LIFEAT Project also includes the LICOOL phase. Reference is made to [illegible] 006 which describes a current LICOOL installation directed against a Soviet official.

15. Summary

In summary, LIFEAT constitutes one of Mexico City Station's chief assets; and it is the belief of COS Mexico that this operation (which is wholly KUBARK's and has no liaison or other service involved) is by far the best operation of its kind KUBARK has in the world.

a. Accomplishments

On a general average over the past year LIFEAT has consisted of twenty-two (22) to twenty-three (23) simultaneous coverages, each of 24 hours per day. The targets covered have included major coverage of all those which rank highest in the Station's PRD (Soviets, Poles and Czechs) as well as a large number of selected targets of opportunity. Approximately 15,000 pages of summary text have been obtained from the project. This information, though fragmentary at times and at times difficult to understand, is nevertheless documentary in nature. In detail, average coverage of the targets at the Station has been as follows:

Soviets	8 Lines	American Communists	3 lines
Czechs	2 lines	Remainder	8 lines.
Poles	2 lines		

Attachment to HMMA-7063
[redacted]936
5 June 1957

~~SECRET~~ [redacted]
[redacted]

b. Planning for the Future

Current planning calls for the continuation of about 24 lines of coverage with bases and personnel being assembled to permit an increase to about 30 lines, local circumstances permitting. Basic coverage will be continued to the fullest extent possible on the Soviets, Poles and Czechs, which coverage of individual and targets of opportunity will be shifted so as to produce the greatest possible amounts of important information. At present it is believed that 30 lines is about the maximum the technical agents on this one operation can mount and protect properly. In order to get more coverage, the Station will likely establish (if Headquarters approves) a separate, independent LIFEAT-type operation, with new principals.

c. Performance of Agents

While in general the performance of the LIFEAT agents has been good in the past year, some of those connected with the group based on the family of former head agent James O. AYCALL have not been acting in a satisfactory manner. These are gradually being weeded out and new, more effective and fully compartmented base operators are being substituted for them. The Station's problem in this connection is difficult since it is hard to recruit persons who combine the following qualifications necessary for base house operations:

i) absolute discretion;
ii) willingness to cover the base 24 hours daily, year after year;
iii) suitable cover;
iiii) willingness to obey complex orders to the letter year after year;
and iiiii) willingness to live in a situation of constant potential danger.

d. Status of Approved Commitments

LIFEAT Project (as approved in HMM-W-3740) contains most of the elements which will be necessary in Fiscal 1958. The main difference that will be noted in the attached Field Project Outline is that costs will be higher and one more base house will be added to the current list.

PROJECT OUTLINE

CRYPTONYM LIFEAT FIELD CASE OFFICERS Thomas J. URQUHART

1. Area of Operations Mexico City, Mexico

Matthew S. D[illegible]

Harvey P. DE[illegible]HOLZ

(Open)

CHIEF OF STATION Willard C. CURTIS

2. Purpose

To mount various types of technical surveillance operations, mainly telephonic, against the Soviet, Czech and Polish diplomatic missions in Mexico; against important contacts of those installations; and against leading Mexican and non-Mexican Communists and Communist sympathizers.

3. Background

This project was first approved 3 October 1950 and has been extended each year thereafter. Actual operations began 18 January 1951 and have been continuous, with small breaks for security or other operational reasons from that date. The project was last approved in HMM-W-3740, 19 November 1956.

LIFEAT has been run since its inception without liaison and no plans now exist to change this arrangement.

Over the past 6 years and 3 months LIFEAT has expanded from coverage of one(1) line to coverage of an average of about twenty-four(24) lines, each being covered 24 hours per day. In all, over 40,000 pages of documentary information on prime station targets has thus been obtained from this operation.

4. Reference

HMM-W-3740, 19 November 1956, contains the last renewal of this project.

a. This project has been one of the outstanding KUBARK operations in the world. Certain elements at Headquarters recognize this. Chief, SR/CE states to this Station during his visit in January 1957 that this was the only "LIFEAT-type" operation which was wholly KUBARK's and he said it was

[redacted]

[redacted]

Attachment to HMMA-7063
[redacted]986
5 June 1957

the best such operation. From knowledge COS Mexico has, it is known that (unless something has developed very recently) LIFEAT is the best operation of its kind which KUBARK has.

b. Headquarters has stated:

i. In DIR-03198 of 18 Feb. 1957, "HQS commends Station prompt and effective coverage and handling this case";

ii. In DIR-09958 of 29 March 1957, "Good work";

iii. In DIR-11936 of 12 April 1957, "ODENVY and we(HQS) are most gratified by iniative and success your coverage".

All of these referred to LIFEAT coverages.

c. The Director has personally commended the Station officer for his work in one line's coverage in this operation; and has orally stated to COS, Mexico that this is an excellent operation.

5. Objectives

To carry out this Station's obligations in conformity with its Related Mission Directive, through technical surveillance operations. The product from this operation is coordinated with other Station operations, with especial attention to Soviet, Polish and Czech activities.

6. Targets

Primary targets covered in this operation are:

Soviet Embassy and residences of Soviet officials;
Czech Legation;
Polish Legation; and
Alfred Kaufmann (and Martha Dodd) STERN.

Secondary targets are:

Soviet, Polish and Czech agents;
Mexican and foreign Communists; and
American Communists.

7. Tasks

a. To maintain and operate existing project facilities and establishments;

b. To augment similar coverage when need or opportunity arises;

c. To recruit, train and administer such agents as the project requires;

d. To issue such reports as are deemed necessary, based on material acquired from the project;

e. To coordinate information obtained from the project with other Station operations;

and f. To provide [illegible] with operational information and reports on experience obtained from the project.

8. Coordination

LIFEAT information is very closely coordinated with all other operations at this Station but does not require operational coordination with any other area. However, when the project yields information of interest to other areas, these areas are informed.

9. Personnel

It is intended that the following personnel will participate in the LIFEAT Project during Fiscal Year 1958:

a. Case Officers

Case Officer: Thomas G. UNQUHART*
Case Officer for LICOOL phase: Matthew S. DINGLEY*
Case Officer, Czech Legation phase: Harvey F. DEMMHOLZ*
Case Officer, Polish Legation phase: to be named*
General asst. Case Officer: David H. WILSTED(U.S. citizen) - technical - contract agent(has own commercial firm which furnished his cover)
General Asst. Case Officer: Ralph FAFANELLI(U.S. citizen) - commercial
General Asst. Case Officer: Arthur S. STOUGH* /unofficial cover/

* Denotes Diplomatic cover

b. Operations agents

✓ 1. LIMEWATER. Field Agent, Operational Clearance 739, dated 17 October 1950. He is an employee of Telefonos de Mexico, local telephone company, who provides the basic information necessary for running the project.

✓ 2. LIMEWATER-1. Field agent. Operational clearance 1412, 14 Aug. 1951. He is charged with aspects of the technical portion of the operation.

[redacted]

[redacted]

3. LI[illegible]-2. Field agent. Operational Clearance 7452, 11 Dec. 1953. This agent works with LI[illegible]-1 and has similar duties.

4. LIMESTONE-1. Field agent, Operational Clearance 6799, 11 Sept. 1953. Base house operator.

5. LIMESTONE-2. Field agent. Operational Clearance 7347, dated 25 Nov. 1953. Asst. base house operator.

6. LIMESTONE-3. Field agent. Operational Clearance 7585, 28 Dec. 1953. Base house operator.

7. LIMESTONE-4. Field agent. Operational Clearance C-31989, 21 Oct. 1954. Base house operator.

8. LIMESTONE-5. Field agent. Operational Clearance C-32742, 21 March 1955. Asst. base house operator.

9. LIMESTONE-7. Field agent. Operational Clearance in HMM-W-3265, 13 July 1956.

10. LIMESTONE-8. Field agent. Operational clearance in DIR-09743, 1 May 1956. Asst. base operator and processor of tapes.

11. LIMESTONE-9. Field agent. Operational Clearance C-50464, 24 Sept. 1956

12. LIMESTONE-10. Field agent. Operational Clearance C-50758, 24 Sept. 1956.

14. LIMITATION-3. Field agent. Operational Clearance 6970, 1 Oct. 1953. Asst. base operator and processor.

13. LIMITATION. Field agent. Operational Clearance 5977, 30 Sept. 1952. Base operator.

15. LIMITATION-7. Field agent. Operational Clearance C-50457, 13 Aug. 1956. Asst. base operator.

16. LIMITATION-5 and LIMITATION-6. Field agents. Operational clearance in HMM-W-2800, 13 Jan. 1956, and HMM-W-1333, 19 Mar. 1954. To be used as base operator.

17. LIQUATION. Field agent. Operational Clearance 7496, 16 Dec. 1953. Has been base operator but may retire. However, he should be kept on the rolls until a definite decision is made.

Page 14
Attachment to HMMA-7063
[redacted]986
5 June 1957

[redacted]

18. LIQUATION-1. Field agent. Operational Clearance forwarded in HMM-W-2252, 5 Oct. 1955. Base operator.

19. LIQUATION-2. Field agent. Operational Clearance C-50455, 21 August 1956. Base operator.

20. LIQUATION-3. Field agent. Operational Clearance C-54096, 19 January 1957. Asst. base operator and processor.

21. LIPSTICK-18. Field agent. Operational ~~Clearance C-33182~~, dated 31 March 1955. Base operator.

22. LIPSTICK-35. Field agent. Operational Clearance C-50157, 6 August 1956. Asst. base operator.

23. LIPSTICK-37. Field agent. Operational Clearance C-50750, 13 Sept. 1956. Asst. base operator.

c. Processors of recorded tapes

24. Carol K. ZIMMEISTER, contract agent. Operational Clearance C-29842, 1 July 1954. Processes major portion of Soviet target material.

25. LILACE. Field agent. Clearance contained in HMM-W-1742, 15 Oct. 1954. General processing.

26. Alice M. CAILLETEAU. Contract employee. Cleared in HMM-W-3051, 20 April 1956. ZOHAR processing.

27. Frances M. MENZIE. Contract agent. Cleared in HMM-W-2763, 28 December 1955. General processing.

28. Olivia GLAHSON. Contract agent. Clearance by virtue of contract dated 1 January 1957. General processing and ZOHAR processing.

29. Unwitting assistant to LIENATER for routine office work.

(NOTE: LIERIFORM and LIERIFORM-1, who handle Czech language tapes, are included in the LIDOGTROT Project. In addition to the above processors, assistant Case Officers STOUGH and WILSTED also engage in processing. ODENVY's local office processes certain tapes from targets of primary interest to them. LIMESTONE-8 and LIQUATION-3 alternate assistant base operator duties with those of processing.)

Total personnel, part or full time on Project: 37.

NOTE: It is also expected that two(2) more processors; and one(1) additional technician will be added during Fiscal Year 1958.

[redacted]

10. Operational Clearances

Cf Item 9.

11. Cover

a. Cover for the case officers noted in 9a, diplomatic or commercial (unofficial) see 9 a.

b. Set forth below is a discussion of the cover of the non-diplomatic personnel in the operation.

1. David N. WILSTED: Partner in small famil -run machinery business. His Mexican documentation is complete and legitimate.

2. Ralph RAFANELLI: Fully documented employee of LIFIRER, who has in the past provided similar cover for undercover agents.

3. LIMEWATER: His natural cover is of employee of the local telephone company, which he has been for a number of years.

4. LIMEWATER-1: Enjoys natural cover as a telephone company employee.

5. LIMEWATER-2: Enjoys natural cover as telephone employee.

6. LIMESTONE-1: She is an elderly person and hence can logically have income from family estate. Does not attract attention.

7. LIMESTONE-2: Brother of LIMESTONE-1 and resides with her. Is elderly and can pass as a poor relative and retainer.

8. LIMESTONE-3: Has been engaged in obtaining small government contracts and moves in and out of various government offices. Unfortunately his cover is not really good and steps must be taken to improve it if he is to remain in our employ.

9. LIMESTONE-4: Elderly woman who has had large business enterprises in the past and who does not need to explain her source of income for this reason.

10. LIMESTONE-5: Father-in-law of LIMESTONE-3 and ostensibly dependent on him.

11. LIMESTONE-7: Widow of James O. McCALL, who was widely regarded as a man of means. Hence she ostensibly lives on his estate. This woman has a tendency to live beyond her means, however, and is a cause for anxiety.

[redacted]

[redacted]

12. LIMESTONE-8: Relative of LIMESTONE-4. They reside together. This agent is a widow and ostensibly lives on an inheritance.

13. LIMESTONE-9: Housewife.

14. LIMESTONE-10: Housewife.

15. LIMESTONE-11: Housewife.

16. LIMITATION: He is an architect and follows an almost full time career in that business while his relatives manage the LIFEAT base.

17. LIMITATION-3: Very elderly retired person who formerly had a large business and whose income therefore is not open to question.

18. LIMITATION-7: Housewife.

19. LIMITATION-5: Accountant with a large firm. His wife (LIMITATION-6) handles most of the routine work he has done for the Station in the past.

20. LIQUATION: Businessman with office in the city. He spends a good deal of time on selling machinery while LIQUATION-2 and LIQUATION-3 mind the base.

21. LIQUATION-1: Has been out of town working on a contract. Previously was a student and had adequate cover for part-time work. When he returns to LIFEAT his cover will be similar to that of LIQUATION.

22. LIQUATION-2: Housewife.

23. LIQUATION-3: Elderly widow who resides part time with her children, hence not likely to arouse suspicion.

24. LIPSTICK-18: This agent's cover, that of plumber and electrician, is not satisfactory. It appears, however, that he may be put into another type of operation sometime this year.

25. LIPSTICK-35: Housewife.

26. LIPSTICK-37: Dependent relative of LIPSTICK-18.

27. Carol K. ZEISMEISTER: Housewife.

28. LILACE: Housewife

~~SECRET~~ / [redacted]

30. Frances H. [illegible]: Housewife.

31. Olivia A. [illegible]: Retired woman residing with daughter and known to have independent income from retirement from former job.

12. Contact and Communication

Contact and communication between the case officers and the agents and undercover personnel in this operation is maintained in a clandestine manner in generally the same form as in previous years. Reference is made to HMMA-4503, 9 May 1956, for a general description of this system, which appears to have been successful.

13. Control and Motivation

Reference is made to HMMA-4503 under this heading.

14. Equipment and Other Support

It is believed that supplied of equipment for LIFEAT currently at the Station are sufficient to carry the operation through the calendar year 1957, but it is possible that simultaneous breakdown of quantities of the older equipment, dating from 1951 and in constant use since then, would necessitate the placing of separate orders for replacements.

15. Coordination

LIFEAT is coordinated with all other projects at this Station.

16. Timetable

LIFEAT has been in almost constant operation since its inception in January 1951 and it is planned to continue it indefinitely.

17. Estimated Costs

The following costs are estimated for FY 1958. All figures are in U.S. dollars per year. It will be noted that owing to rises in the cost of living and especially to much higher rents and to intended expansions, L[illegible] costs will be higher than in the past.

a. Salaries

1. Staff and Contract personnel:

Ralph G. RAFANELLI, GS-7			
	Salary	4,525.00	
	Quarters	2,000.00	
			6,525.00
David M. WILSTED			
	Salary	6,400.00	
	Quarters	2,200.00	
	Educ.All.	500.00	
			9,100.00
Unnamed LI[illegible] processor(GS-12)			
[illegible]	Salary	7,570.00	
	Quarters	2,200.00	
	PCS Travel	2,000.00	
			11,770.00
Unnamed LI[illegible] translator			
	Salary	6,500.00	
	Quarters	2,000.00	
	PCS Travel	2,000.00	
			10,500.00
Carol K. ZINSMEISTER	Salary	5,400.00	5,400.00
Frances L. MENZIE	Salary	2,504.00	2,504.00
Alice H. CAILLETEAU	Salary	2,425.00	2,425.00
Olivia H. GLADMON	Salary	3,880.00	3,880.00
Harvey C. HULWARD			
	Salary	10,320.00	
	Quarters	2,300.00	
	PCS Travel	2,000.00	
			14,620.00
			66,724.00

[redacted]

2. Field agents	Presently	Possible raise
LIEWATER	5200.00	
LIEWATER-1	2208.00	(at 2300, up 300)
LIEWATER-2	1440.00	(at 1500, up 250)
LIESTONE-1	1440.00	
LIESTONE-2	576.00	
LIESTONE-3	2208.00	(at 2300, up 300)
LIESTONE-4	2208.00	(at 2300, up 300)
LIESTONE-5	768.00	
LIESTONE-7	1536.00	
LIESTONE-8	1728.00	(at 1800, up 300)
LIMITATION	2112.00	(at 2200, up 400)
LIMITATION-3	1920.00	(at 2000, up 550)
LIMITATION-5(not hired yet)		
LIQUATION	3840.00	(at 4000, up 1100)
LIQUATION-1	3840.00(new deal)	
LIQUATION-3	768.00	
LIPSTICK-13	1728.00	(at 1800, up 200)
LILACE ($2.02 per hour, 120 hrs. per month)	2504.00	
LIEWATER assistant	144.00	
Christmas bonus and presents (One month salary to each agent, in accordance local custom. Also special gifts in some cases)	3000.00	39,250.00

b. Base house rentals, utilities and expenses

LILYRIC base house	2050.00	
LITMUS base house	2000.00	
LIVERY base house	2000.00	
LITHOSPHERE base house	2000.00	
LIMAYPOLE base house	1800.00	
Proposed base house	2900.00	
LIFEAT base shop	2000.00	
Proposed base house	2700.00	
Proposed base house	2600.00	
LICOOL-6 base	600.00	
Proposed LICOOL base	600.00	21,450.00

c. Equipment

Local purchase of emergency and special equipment	2,000.00	
New car - LIMITED	3,500.00	
		5,500.00

[redacted]

[redacted]

d. Miscellaneous

1. Supplies (paper rolls, wire, tubes, tape, pens, parts)	2,000.00	2,000.00
2. Transportation		
LIERICK car rent	300.00	
David H. [illegible] Auto expense	340.00	
7 Carol K. [illegible] mileage	350.00	
LI[illegible]US base car rental	700.00	
LIV[illegible]Y base car rental	700.00	
LI[illegible]OSPHERE base car rental	400.00	
(I.V 2047)	1440.00	
Proposed base car rental	700.00	4,930.00

3. Other Operational Expenses

(To cover loss of deposits on rents, fatalities and other serious emergencies, separation payments, medical expenses, emergency moving bills; and to cover targets of opportunity)	20,000.00
Grand Total	159,854.00

MEMORANDUM FOR: FI/CPS - Projects Branch

SUBJECT : Amendment to Project LIFEAT

1. It is requested that Project LIFEAT be amended to include the purchase of a LIFEAT/LIMERICK basehouse in the amount of $20,000. The lease on the present LIFEAT/LIMERICK base expires in April.

2. The LIFEAT/LIMERICK base is the principal base of operations covering Mexico City's number one priority targets. The location of this base must be moved since the lease on the present base cannot be renewed. Furthermore, a decision has been reached whereby new operational techniques will be initiated which will necessitate round-the-clock operations in the base by station cleared personnel in order to satisfactorily cover the targets. This will undoubtedly necessitate the acquisition of a more securely controlled base of operations. The station does not believe such a base can be acquired other than by purchasing the property indicated. However, every effort will be made to lease this property providing leasing arrangements can be made to meet the security requirements of the operation.

3. At present additional funds are not needed in the LIFEAT Project to cover the purchase of a new basehouse. Should more funds be needed before the project expires, they will be requested at a later date.

J. C. KING

1. LIFEAT REPORTS THAT MAN GIVING HIS NAME AS DON [illegible] Lowry [illegible] LOWRY (PHONETIC), EVIDENTLY AMERICAN, WAS IN CONTACT WITH SOVIET PRESS ATTACHE LEONOV 201-132139 ON 9 JAN AND ALSO WITH CUBAN CULTURAL ATTACHE RICARDO ESCARTIN FERNANDEZ SAME DAY. LOWRY SAID HE HAD NEWSPAPER AND MAGAZINE EXPERIENCE AND HAD ALSO BEEN RADIO AND TELEVISION ANNOUNCER. ESCARTIN FERNANDEZ HAD AGREED TO SEND HIS LETTER AND WRITING SAMPLES TO CUBA IN NEXT POUCH AND TOLD HIM CHANCES WERE MAYBE TWENTY PERCENT, EVIDENTLY OF HIS GETTING A JOB THERE. LOWRY HAS TO WAIT AROUND MEXICO FOR TWO WEEKS, APPARENTLY UNTIL HE HEARS FROM CUBA.

2. LEONOV WAS NON-COMMITTAL BUT SAID HE WOULD INTRODUCE LOWRY TO SOVIET CONSUL ON 10 JAN. CONVERSATION INDICATES THAT LOWRY HAD FIRST ASKED LEONOV ABOUT A JOB AND LEONOV HAD SUGGESTED HE TRY THE CUBAN EMBASSY.

3. REQUEST CABLED HEADQUARTERS TRACES. INFORMING LOCAL LNERGO.

SUBJECT: LIMUD/LIFEAT Disposition of Tapes

ACTION REQUIRED REFERENCES

Ref: DIRECTOR 68776, 23 January 1967
Action required. As determined by Headquarters.

1. As requested in reference, Station Port au Prince is pouching to Headquarters all of the LIMUD/LIFEAT cards currently on file at the Station. Please return to Station copies of those cards containing sufficient information to be of value to Station.

2. Station is in agreement with Headquarters that a hard copy of the tapes should be sent directly from Station Mexico City to Headquarters in order that Headquarters may expedite the processing of the material. However, Station suggests that in order to reduce the overall processing time and eliminate what could be duplication of effort, only Headquarters receive a copy of the tapes. Then Headquarters, when processing the original tapes, could retape those Creole portions and send a composite tape to the Station for translation.

3. Station currently has a backlog of the LIMUD/LIFEAT tapes. Please advise whether these tapes also should be sent to Headquarters for processing.

4. Headquarters comments and suggestions are welcome.

Action: FYI

1. Attached for addressees information are translations of the Creole language portions of the LIFEAT tapes forwarded in references. The translations were done by [illegible]-1. Conversations which have no operational or intelligence value have not been included.

2. In 29 GF 22 3.2 the journal Combatant cannot be identified by the station. Can Headquarters identify the journal?

3. The Judy in 29 GF 98 17.5 is probably Judith [illegible], the Costa Rican communist friend of the [illegible].

4. 29 [illegible] 101 [illegible] is a very interesting conversation. Evidently Pierre [illegible] has just returned from Miami and San Juan, Puerto Rico where he went to meet his mother. Don Jon CIBLAS is Fritz CIN[illegible] who is believed to have forged a signature while illegally ordering a new Haitian postage stamp issue. [illegible] planned to keep the stamps and sell them at a profit to stamp dealers. According to a PEP (Haitian CP) clandestine journal, an Edmond [illegible] was a Haitian delegate to the Tri-continental conference in Havana in January 1966. However this name was probably a pseudonym. Per Consulate files, Edmond [illegible], DPOB 3 December 1915, Cayes, Haiti traveled to and from the U.S. in June 1966. The Cuban approach to [illegible] in San Juan is the first direct confirmation of Cuban exile activity directed at Haiti in Puerto Rico. Gerard [illegible], [illegible]

CONTINUATION OF DISPATCH | SECRET | HTPA-1859

[illegible] [illegible]

19 June 1934 Gonaives, Haiti is a Haitian lawyer/economist/labor leader. [illegible]-1 knows him as an active intelligent leftist labor lawyer. Subject of HTPA-1715, a station contact, reported that on 29 October 1965, LATORTUE spoke before a symposium on Haiti in San Juan. LATORTUE called for the overthrow of the socio-economic structure of Haiti including the "money-grabbing" bourgeoisie. Past source reporting reveals LATORTUE as a very capable, energetic intellectual with a genuine gift of leadership. He received a Haitian law degree, studied economics in Paris for six years and received a U.S. Government grant to attend a Harvard seminar on marketing in 1962. While in Haiti he appeared to be pro-American. At the San Juan symposium LATORTUE declared that every Haitian would resist U.S. intervention in Haiti and condemned the U.S. State Department for meddling in Haitian exile affairs. MANIGAT is probably Leslie Fr MANIGAT (201-297822) DPOB 16 August 1930, Port-au-Prince, now a resident of [illegible]. Though MANIGAT is a known leftist, this is the first indication from within CP circles of his close ties with the Communist parties. It would appear from the information and implications in the telephone conversation that both LATORTUE and MANIGAT have ties with the Communist parties but that they are not bound by party discipline or dogmatism.

[illegible]

5. The "zero" (ph) mentioned in 29 CP 128 2.0 is unknown to station. Can addressees recognize the name as a clinic or hospital in Mexico or in the Soviet bloc? The zero is pronounced z e r o (Merriam-Webster pronounciation keys).

6. The [illegible] of 29 CP 137 18.5 is probably Joseph MARRON of HTPA 1791, 24 Feb 1966.

7. The DUVAL in 29 CP 139 8.7 is probably Guy DUVAL, DPOB 28 August 1935, Miragoane who accompanied Gerard PIERRE-CHARLES from Mexico City to Moscow in August 1964. Station notes that some mail for the GPCs is being received by the [illegible].

29 GP 82 3.2

This conversation is about "The Comedians", a book written about Haiti by Graham Greene. Gerard and Suzie are talking to Pierre Lelong. Pierre says the book was the novel of the month of February in the U.S. Book is about Duvalier. Gerard has heard that foreigners are making money on Haitian heads by writing such stories but he has also heard that Greene was in contact with a person who really gave him full information. Pierre says there was a review of the book in L'Edition and he has saved it. Gerard asks Pierre if he has the latest edition of the newspaper Combatant. Pierre has it and promises to return it.

29 GP 85 3.0

Suzie calls Gerard PIERRE CHARLES. Roger has left Suzie a note. Gerard failed to go where he had planned. Gerard called Dorce but Dorce wasn't there. He went to the Embassy for 15-20 minutes but he couldn't find him. (Conversation probably about Aldi Castor's visa.) Gerard asks how everything came out. The wife of the Chief of Police came over to fix the thing about the little girl. The police never suspected anybody and they don't think anybody like that had it. Suzie says Claudette finally found her passport. Claudette went to a (convent?) and someone stole her handbag which contained her passport, money and license to work. Everything was returned the next day with a check for $500. Claudette had to return the $500.

29 GP 85 9.0

Suzie with Gerard. Suzie asks Gerard if he saw a number on the front or back of something (papers)? No. There is nothing written by hand. Gerard received three copies and they are looking for two more.

29 GP 98 17.5

Suzie calls Gerard. Suzie asks Gerard if Aldi has come by. Suzie says she is going back to the Embassy. Gerard has changed everything and the man will come by around 2:00 to pick him up. Judy called to ask when she should come.

29 GP 103 4.9

Pierre Lelong calling Suzie Pierre-Charles. Suzie asks Pierre when he returned. He just arrived, but without his mother. Suzie asks Pierre how Lillian and her friends were. They were fine. Tonton CINEAS had been arrested and had been shot. Also, something is supposed to start in Haiti. Tonton CINEAS was in touch with someone named Maitre Edomond PIERRE. Clemerd CHARLES was also involved

att 1 to HTPA 1857   SECRET   CS COPY   50-6-32/4 in the affair. $[illegible],000 was involved. The person that gave him the news was a friend of Clemard CHARLES. A newspaper in N.Y. named El Tiempo has written about an invasion of Haiti. El Tiempo reported that someone named Vixama was involved. Pierre was in a store in San Juan, Puerto Rico buying some cloth when a Cuban girl approached him and asked him if he was Haitian. The girl was accompanied by a Cuban man and they asked Pierre questions about Haitian history. They asked Pierre if he knew anything about Duvalier. Pierre explained he was opposed to Duvalier. The Cubans said there were people in San Juan planning to "catch" Duvalier. Pierre implies that the Cuban man lives in Mexico. Gerard PIERRE CHARLES takes the phone. Gerard tells Pierre that someone named Silvie is on the border. Gerard asks Pierre if he has brought the merchandise. Yes. Pierre went to the post office to pick up a package and they were going to open the package to inspect it but Pierre told the clerk it was not necessary to inspect it. The post office clerk said the declared value was too high, and he had to open it. When he opened it he found it was a handwritten manuscript so the clerk asked no more questions. Everything went alright. Pierre mentions that during his trip overseas (San Juan) he met Gerard LATORTUE. Gerard asks Pierre what LATORTUE's financial status was. Pierre thinks LATORTUE is working at the University of Mayaguez. Pierre says there are a lot of Haitians in Puerto Rico that are interested in doing something (against Duvalier?) but most are without families. They are petty bourgeois or engineers working in San Juan. The bourgeois Haitians now have stores in Puerto Rico. Gerard asks Pierre if LATORTUE mentioned anything about his uncle Francois LATORTUE. No, he did not. LATORTUE might come to Mexico soon on a tourist visa. He has to go through some routine to get the visa. Gerard tells Pierre that Francois LATORTUE is up to his neck in politics in Haiti. LATORTUE said that the leftist party was really mistreating MANIGAT and LATORTUE didn't like it. Everytime MANIGAT opens his mouth something happens. The leftist parties likened MANIGAT to Castro. Like Castro, MANIGAT talked too much and did too many things. MANIGAT showed his card too much and that is why they are mistreating him. It was the Communist party that put MANIGAT where he is, just as the CP put Castro where he is. LATORTUE has written an article to counter what has happened to MANIGAT. Gerard says he knew MANIGAT 10 years ago in Haiti. LATORTUE has written an article condemning American intentions of landing in Haiti. LATORTUE x is Professor of Economics at the University of Mayaguez. LATORTUE is trying to leave Puerto Rico and go somewhere else where he can find better work.

29 GP 105 25.7

Gerard is talking to Suzie about a title of property. She cannot find it. She asks about Daniel.

29 GP 106 2.7

Gerard calls Pierre LELONG and asks Pierre to drop by tonight. Has Pierre found 2 packages of papers? One contains papers for Suzie's course and the other is a package of white blank paper for mimeographing.

29 GP 107 20.2

Suzie calls Gerard. Suzie is near the "guy's" house. She wants some money to get a large roll of paper and wants to write a check for the people that are going to send "those things" this afternoon. Gerard asks if she received any news. Yes. Gerard asks Suzie to buy some flash bulbs for his camera.

29 GP 118 3.0

Suzie with Benoit. Benoit excuses himself for not coming. He will come by tomorrow night about 8:00 p.m. when he gets out of school. Has Suzie received any news from Gerard? No. Suzie asks about Pierre Louis. Pierre Louis is doing alright.

29 GP 118 11.2

Suzie calls Vincent. Long time no see. Vincent kids Suzie about her travels, vacation, new house, and car. She asks about Angelica. Benoit is coming over tomorrow. Angelica's brother came in for a vacation. Vincent asks Suzie if there is any other news. No. Still the same as in February from the newspaper Ralliement. The same story. Vincent says that he has no news about Haiti but he got a letter from the family saying that the economic situation is very rough. Vincent asks about Aldi. He scored 9.10 on an exam. Suzie asks Vincent if he has seen CINEAS (ph) (sounds like somebody at the Mexican University). Vincent says everybody at the University is against him.

29 GP 128 2.0

Gerard is talking to an uidentified person. Gerard explains to the person that before he travels "they" will give him a test which will show if he has TB or not. If the test is positive, they will give him medecine to stop or cure it. The unidentified person is afraid and Gerard tries to tell him that it is not serious because if it were, "they" would have given him special treatment in the "zero". The unidentified person says that he has just come out of school and has had pneumonia.

29 GP 128 10.0

Gerard with Suzie. MARRON wants to know what time he should arrive because he is doing something very important. He should come around 2:00.

29 CP 129 12.7

Suzie with Sonya. Susie and Sonya are going to the theater. They mention Maggie who told them that they shouldn't go; they won't understand anything.

29 CP 137 18.5

M calls [illegible] and asks M to come right away.

29 GP 139 8.7

Pierre LELONG calls Suzie. Suzie has friends with her now. She asks if there is a letter. He said there is an open letter. When Pierre came in he found all the letters opened on the table. There is a letter from DUVAL. They must be yesterday's letters.

29 GP 140 16.2

Suzie ~~x~~ with Claudette LELONG. Suzie thanks Claudette for the gift and the translation. There had been a lecture at the University given by someone who spoke only French. The person came Tuesday night and left this morning. How does Suzie feel after all that translating? She is O.K.; its her field. She is moving today. Claudette tells her Gerard is going to be suprised when he comes back. Suzie tells Claudette that she will tell Pierrot to tell his friend in Miami that her brother Aldi is coming up soon.

29 GP 146 7.0

Suzie calls Bernard. They talk about Suzie's new house. She is a big bourgeoise now. She asks for Sonya's address.

22 GP 5 9.5

(Ti Ben is a nickname for Benoit.) Ti Ben with Suzie. B couldn't come because he was~~x~~ busy working but by Saturday he will try to have everything ready. She will call him and let him know. Suzie asks B if they are already on strike. B says medical school hasn't started yet. B proposed a plan for a strike but three of them didn't like the idea. They decided to wait and see what happens. Suzie asks B if he has news from Haiti. He heard some troops had landed in Haiti. Suzie asks what kind of rumors he had heard. B: "Duvalier has burned half of Cap Haitien. A Haitian told him that". Suzie has heard that there was a landing in Haiti and Duvalier killed 15,000 people. One Thursday a newspaper El ? announced a landing in Haiti. The newspaper Veridades announced that there had been a wave of repression in Haiti. Some American boats and airplanes were surrounding Haiti. The Haitian government protested to the Americans but the Americans said that it was just a routine check/protection of the islands. Suzie says that Monrod PHILLIPE was shot because of the CINEAS affair. Suzie asks B if he has heard from the Haitian Embassy. No. B's philosophy course had been suspended.

END

From 2050, 7 June (Tuesday) to 0700, 8 June 1966

2.0 Out to 25-20-00. Sergio (Martinez Barroso) with Cecilia, who answers. Has lost the address. It is Dante, behind the Hotel Tecali. Dante #23.

2.5 Out to 03. Time is 2200, 7 June.

2.7 Out to 03. No rings.

From 0700 to 2100, 8 June (Wednesday) 1966

After 0915, 8 June

2.7 In. Sra. Olga (v) with Juanita, who answers. The men aren't going to come to lunch. About what to fix lunch....

After 1115, 8 June

3.2 Out to 03, twice. No rings, complete. Time is 1146, 8 June.

After 1345, 8 June

3.5 Out to 03. Time is 1419, 8 June.

3.7 In. Sra. Olga (v) with maid, who answers. They (she and another woman) are coming home for lunch now...about lunch...

4.0 Out to 17-30-59. MI asks WO, who answers, for Jose Mora. Who is calling? A friend from Cuba.

Jose Mora takes phone. MI has a letter for JM from Carlos Mora. Could he come by tonight to pick it up at Cuban Embassy? ALL RIGHT, but if he can't come by tonight, please leave it with "portero" and MO will pick it up tomorrow. Fine. How is Carlos (Mora)? MO did not see him. He (Carlos) only left the letter there at MI's office.

4.5 Out to 24-99-72. Hangs up.

4.7 Out to 35-40-00. MI asks WO, who answers Aeronaves de Mexico, for 4 reservations for tomorrow's flight to Los Mochis. There is no flight tomorrow. There is one day after tomorrow. They fly Mondays, Wednesdays and Fridays, at 0945. They have to change planes in Culiacan, flight 125. The return flight leaves Los Mochis at 1335 on Tuesdays Thursdays and Saturdays. Then, they will reserve the tickets for day after tomorrow with return flight on Saturday.

WO checks and says the four are confirmed on flight 1009 to Culiacan and they have requested confirmation from there on. Call back tomorrow. Jose Civeira, Hugo del Pino, Enrique Lanza and Sergio Martinez are the ones going. Phone 25-04-14, his office phone. His home phone 31-01-06.

After 1500, 8 June

7.0 Out to 09, twice. No rings complete. Olga Martinez Barroso asks for operator 134.

WO takes phone. Re Habana call of Civeira. Still no circuit to Habana. They are out of order.

50-6-52-4

7.5 In. MO asks Olga (v), who answers, for Sr. Civeira.
Civeira takes phone. Blasin (?ph) called. Wanted to talk to C. Fine. They have to go by Aeronaves de Mexico before 1300 for tickets to Los Mochis. There is a flight leaving every day. Martinez Barroso called ~~and~~ there is no flight until day after tomorrow.
MI takes phone. There is no direct flight to Los Mochis. In any case they have to go to pay for tickets. Have to go before 1330. MI will go by so MO and MI can go by for tickets.

8.0 In. MO with maid, who answers...wrong number.

8.2 In. MO with maid, who answers. Asks if this is house of Ambassador. Yes, it is house of Sr. Martinez. MO then says it is wrong number. Maid thinks Martinez B. is Amb.

8.5 In. MO with Juana, who answers, for Enriqueta.
Maid comes to phone. About MO's work...maids...MO and (Sra.) went downstairs at 1500. Maid just got back. Sra. went on to the Embassy. About visiting Enriquita this Sunday. MI is not sure if she will be off on Sunday....MO's Mrs. is having guests on Saturday evening...

Reel off at RT 10.2, 2100, 8 June 1966

1966

From 2100, 2 June (Thursday) to 0650, 3 June 1966

From 0650, 3 June (Friday) to 0730, 4 June 1966

After 0900, 3 June

2.0 In. WO with WI, her mother (maid), who answers. Both are maid types...about why she has not called...will see one another tomorrow.

2.7 In. Sra. with maid, who answers, about fixing the fish....rice.

After 1240, 3 June

3.7 In. Sra. with maid, who answers, about lunch....They will be home around 1330 or 1400. Set table in dining room - for four people.

4.7 In. Sra. with maid, who answers. They are leaving now so she can start frying the fish.

After 1435, 3 June
After 1930, 3 June

5.0 In. No answer.

After 2120, 3 June

5.2 Out to 03. Time is 2253, 3 June.

From 0730, 4 June (Saturday) to 0955, 5 June 1966

After 0950, 4 June

5.5 In. Sra. with maid, who answers. Is everything all right? Yes. Has Juanita left (for my off)? Not yet.

After 1200, 4 June

5.7 In. Sra. with maid, who answers. Has Juanita left? No. Peal some potatoes to fry them...

After 1445, 4 June

6.0 In. MO with Sra., Olga, who answers. MO is her husband. MO is going home now. MO had to come to the Embassy with some things because he got the interview (appt) today. He is coming now.

After 1640, 4 June

6.2 Out to 14-13-26. MI asks MO, who answers at Cuban Embassy, if ????Rubio??? left. About 30 minutes ago. MO is Jerrin.

After 1900, 4 June

6.5 In, 4 times. No answer, complete. WO with maid, who answers.

6.5 contd.
Maid types...WO called a while ago, but got no answer. WI has been here....Is WI going home tomorrow? Yes. WO can't go because she doesn't have money...WI will lend her money....WO is going to quit her job. WI is not happy either....WI is Enriqueta. WO will see if she can go tomorrow....

After 2130, 4 June

11.0 In. WO with Enriqueta, who answers. WO is waiting for her. She has been ringing the bell...about going home...WO is on the corner of Melchor Ocampo right now...WI just awakened....

From 0855 to 1915, 5 June (Sunday) 1966

11.2 In. MO with Juanita (maid), who answers. Asks if ....? (Sra.) is there. Will see. Check to see (if she or he) is asleep.
Juanita takes phone. Yes, someone is asleep because (he or she) had guard duty. All right.

12.0 In. MO with Juanita, who answers. Asks if Sergio is up. No, went to sleep very late. Does MO want to talk to the Sra? No, just tell him when he awakens that they are waiting for him at the Embassy.

12.2 Out to 14-~~21~~13-26. Sergio with MO, who answers. Did MO call? Yes. They wanted to know if he was up. Sergio will be at the Embassy in 30 minutes. About sending a car for him if there is a car there - in 30 minutes. There is no one there now (with a car), but will send one if one arrives.

13.0 Out to 14-13-26. Sergio asks Nico, who answers, for Lasa (ph).
MO takes phone. Hasn't no one gone by (a car)? No one is there. Sergio will go there now.

13.2 In. Lanza (or Lasa) with Olga, who answers. Has Sergio left? Yes. He waited for a while for Hugo to come for him in car. Sergio has no~~t~~ car. But he has left now...Sergio spent all night at Embassy on guard duty.

13.7 Out to 14-13-26. Olga with Nico, who answers. Has Sergio left? He just left.

After 1230, 5 June
After 1530, 5 June

14.0 In. No answer.

Reel off at RT 14.2, 1925, 5 June 1966

60F

From 0810, 1 June (Wednesday) to 0645, 2 June (Thursday) 1966

After 1100, 1 June

2.0 In. WO with WI, who answers. WO needs some pamphlets for schoolwork. She has wrong number. This is house of Amb.

2.2 In. WO with WI, who answers. (Maid types...WI is WO's mother.) Why didn't WO call her yesterday, was woried about her....abot what WO has done....will come by to see her in a little bit.

After 1230, 1 June

2.5 Out to 03. Time is 1250, 1 June.

After 1500, 1 June

3.0 Out to 14-13-26. Dials without dial ~~ing~~ tone.
Out to 14-13-26. Olga (inside) with WO, who answers at Cuban Embassy. Olga has to do an errand and will be in a little late. Remember to get ready to go "there." Olga will go, but later on. Is Olga better? A little better...grippe. Olga is at home now.

3.0 Out to 03. Time is 1519, 1 June.

After 1635, 1 June

After 2120, 1 June

3.2 Out to 03. Time is 2251, 1 June.

Reel off at RT 3.2, 0645, 2 June 1966

JUN 6

From 0645 to 2100, 2 June (Thursday) 1966

2.0 Out to 03, twice. No rings, complete. Time is 0737, 2 June.

After 0900, 2 June

2.2 Out to 03. Dials without dial tone.

2.2 Out to 03. Time is 1042, 2 June.

After 1210, 2 June

2.2 Out to 03. Time is 1303, 2 June.

2.5 Out to 17-89-76. WI (maid) with WO, who answers. Want Sr. Torres to go by check a stove - Manuel Todos Santos. He has not come by (although they phoned previously). Manuel Todos los Santos 7-79A.

After 1410, 2 June

2.7 In. WO with Kata (maid), who answers. How is everything? Fine. Has child had lunch? Yes. Juanita is with child - upstairs. Had a good lunch....WO is child's mother.

After 1610, 2 June

3.0 Out to 03. Time is 1638, 2 June.

After 1830, 2 June

3.2 In. WO with WI (maid), who answers. Greetings. (WO is WI's daughter.) How did things go? Fine. Will they go home this weekend? WO can't. Doesn't have money. WI got her money. Is Sra. going to pay her every 2 weeks? Thinks so. How much did she pay her? $200. Sra. told Juanita that she didn't want WI to go to WO's house. Got very angry the other day and made a scene at the Embassy with WO's Sra., that it looked like she was trying to steel her maid. Made a scene in front of everyone. That is why she doesn't want WI to go to WO's house (WO works for a woman of Cuban Embassy too). WO went with the Sra. to Sears. They (people where she works) went out last night. WO was afraid. They were throwing stones from the other house. Sra. said that these were the Americans who are angry with the Cubans. That there may even be war if they continue this way (maids interpretation of U.S.-Cuba relations). WO says neither Sr. nor Sra. were there last night. WI says that she and her husband (that is couple for whom she works) have to be on gaurd duty tonight and won't be home until very late. Also they are not coming to have dinner.

Sra. where WO works paid her for 15 days yesterday, but WO prefers she pay her whole month. Will tell her.

3.2 contd.

WO thinks she won't stay long with Sra. They expect more and more of her. They went to Sears today and walked all the way. She (Sra.) won't pay for a cab. This time el Señor took them (there), but after that and other times, never pays for a cab. A lot of walking and WO's feet are swollen from so much walking. Then, WO is not bad off there. She is alone there (doesn't work with another person), not so much work...Will see about this.

WO will phone WI on Saturday. WI only goes out in the mornings. And not always...Juanita sometimes goes for chicken and tortillas...

EMBAJADA DOMINICANA.- 28-77-85.
2 mayo 66.
L2-M2-T21-
1045-1730 hrs.-

00- - Entrada.- 1045 hrs.- (conversación iniciada)- HD GUZMAN con HF hacen planes para verse pero GUZMAN dejó ayer el chqfer que tenia y CARLOS no puede salir solo porque tiene licencia de la Republica y que le digas " al amigo que estamos como un clavo arriba de la carretera con la punta para arriba y que no hay que apurarse por la otra cuestión y que le des un abrazo y ya sabes que estamos aquí por si no nos volvemos a ver o a hablar". HF que está bien.- 12-

12- - Bloqueado.- 24-

24- Entrada.- 1048 hrs.- HF pregunta que requisitos hay para sacar visa a Santo Domingo o ir a trabajar por dos meses allá. MARINA pregunta si tienen algún contrato para trabajar. HF que si que es de una oficina de contadores para ir a hacer unas auditorias en Santo Domingo y algunas poblaciones del interior y que la oficina esta acreditada y es la Hans & Hana. MARINA dice que hace falta una carta bancaria y otra de la oficina donde trabaja. certificado de conducta de la policia, tres fotografias y llenar un formulario y si es urgente pagar el cable para su contestación rapida ya que si es por oficio tarda de 20 a 25 dias y urgente son 5 o 6 dias. y que cabe aclarar si van a trabajar para el Gobierno entonces es distinto. HF que despues que pase a verla le dirá como están las cosas.- 59-

attach to HMMA-28843

ES COPY

50-6-32/

59- Salida.- MARINA reclama los sobres que no le han llegado. HF BERMUDEZ dice que hoy mismo pasa a dejarlos.- 74-

74- -Bloqueado.- ruidos.- 86-

86- Entrada.- HF por datos para visa para ir a Santo Domingo como turista. MARINA le proporciona los datos.- 108-

108- Salida.- (Carteros Zona Uno)- MARINA saluda al señor INCLAN y pregunta si hay alguna valija para la embajada. Este dice que no hay nada.- 118-

118- Salida al 03 por la hora.-1103 hrs.- 121-

121- Salida.- 1108 hrs.- MARINA por MIGNON. HF dice que no está.- 127-

127- Salida al 13-21-92.- GUZMAN pregunta por el Lic. ENRIQUEZ SAVIÑON. HF dice que anda por la sub-dirección. GUZMAN pide se le diga que le llamaré mas tarde porque ahora sale a la calle - 136-

136- Entrada.- 1155 hrs.- HF pregunta por el Embajador, de parte del señor GRULLON de la Republica Dominicana. TAPIA dice que el embajador no está y que el puede atenderlo. Despues HF GRULLON CORDERO saluda a TAPIA y dice que ayer llegó y queria avisarle a MARCIO si es que estaba lista la pelicula de nosotros o sea CAÑA BRAVA para hacer las pruebas. TAPIA dice que MARCIO tiene mas de 15 dias en Santo Domingo. GRULLON que ésta tarde a las seis van a tener la exhibición de la pelicula para que

(hoja dos) ...

... la vean. TAPIA aclara que MARCIO tiene mes y medio en Santo Domingo. GRULLON creia que la semana pasada se habia venido para acá. TAPIA que no que sigue allá y que hay como diez o doce compañeros dominicanos a las conferencias que hay y tiene compromisos con cenas, reuniones, etc. y que veran la forma de reunirse pronto. Despues HD MAZO (?) saluda a FRANK GRULLON CORDERO. Este dice que le manda saludos VICTOR y que anoche llegué. MAZO dice que hoy recibió una carta de FELLO y le dice que tu venias para acá y que iba a tratar en Gobernación lo de la visa. GRULLON dice que ya se la dieron y ya les avisó por cable y que hoy van a tener la exhibición de la - pelicula en el Condominio de los Productores de la avenida División del Norte a las seis de la tarde. MAZO tratará de estar allí pues conoce el lugar. GRULLON que trate de llevar a todos los que pueda pues es una pelicula "muy nuestra" y si algo se ofrece estoy en el Hotel Reforma. HD es el Coronel MARCOS JORGE MORENO y dice que tambien el lo puede llamar a su casa al 49-12-92. GRULLON que está bien.- 183-

183- Entrada.- 1208 hrs.- MIGNON saluda a TERE y pregunta por MARINA. Esta dice que acaba de salir y le avisa que ya está viviendo de nuevo en los apartamentos Carmen pues antes vivió dos años allí. MIGNON conoce a la dueña de los apartamentos o sea doña CARMEN y lo mejor que tiene TERE es que tiene su - tranquilidad de espiritu y no es espectadora de nada y además eres muy inteligente para llevar bien las cosas. TERE da las gracias y dice que presisamente por eso lo hizo. MIGNON pide diga a MARINA a su regreso que le llamó y que desea a TERE que resuelva sus problemas de sus hijos y se vuelva a casar y cambia de tema y dice que ella se va a fín de mes para la patria. TERE

(hoja tres) ...

...le dá gusto saber que se vá y cree que ya todo está en calma. MIGNON cree que le pueda tocar alguna bala. TERE que nada de eso pues ella hace poco regresó y encontró aquello muy distinto. MIGNON pregunta cual es la impresión que TERE traé de allá. Esta dice que " .. bueno.. pues JUAN BOSH.. tiene la mayoría". MIGNON que entonces nada hay que hablar " y como tu sabes que JUAN y yó somos como dos hermanos, tu puedes tener la absoluta seguridad y eso no te lo digo por hablar, porque a mí no me gusta hablar mucho; que si algo puedo hacer por tí, lo haré". TERE le da las gracias. MIGNON agrega " y con toda justicia porque te lo mereces". TERE sigue dando las gracias y ella bién sabe como MIGNON se lleva con los amigos dominicanos. MIGNON sigue ofreciendo su ayuda y comenta: " ..Pues.. JUAN lo primero que me va a decir.. mira vieja - porque asi me dice "vieja"-- y sientate aquí y dí lo que tu quieres", asi lo que yo pueda hacer por tí TERE basta y sobra que sea madre y tengas dos hijos para que yo te ayude con todo mi corazón. TERE que gracias y gracias.. gracias.- 217-

217- Bloqueado.- 224-

224- Salida.- 1215 hrs.- Coronel FERNANDEZ pide envien un agente de seguros de la AMA para que vean su auto y llenar los requisitos o bien pasar a su domicilio que es Herodoto 30-102 y con teléfono 45-98-23. MF toma nota y ofrece enviar al agente. - 254-

254- Entrada.- 1234 hrs.- MF por el Corl.JORGE MORENO. TAPIA dice que no está. MF es SONIA -pero antes dijo que era MIROSLAVA- y pregunta como está. TAPIA dice que bien pero la otra noche ...

(hoja cuatro)

... ella no se quiso dormir con él. SONIA dice que como quería "que me acostara contigo si allí estaba mi hijo, y ademas estabas muy borracho y traias una pistola que hasta de balazos le querias dar al perro.. y hasta me pusiste bien espantada y dige ..hay. en la madre.." TAPIA si recuerda algo de eso y tuvo que decirle a un chofer de taxi en la calle que se llevara su auto a su casa porque "yo ya no podia manejar". SONIA dice que " vi que estabas muy encabronado y no sabia que hacer" y que se acaba de cambiar de casa y su nuevo teléfono es 43-29-67 y que le avise lo mismo al Corl.MORENO y que alguno de ellos le preste $500.00 para acabar de cambiarse a su departamento nuevo. TAPIA está sin un centavo y están en espera de que llegue "la paga".- 324-

324- Entrada.- 1240 hrs.- MF de la agencia de viajes Ultra-Mar Express para datos o requisitos de visa. TAPIA proporciona los datos.- 355-

355- Salidas ocupadas y sin contestación.- 405-

405- Entrada.- 1250 hrs.- HF con su amor TERESITA para disculparse que ayer no le pudo hablar pues anduvo por la Universidad. TERE por estar esperando su llamada no salió del hotel. HF se apellida CARDOSO y dice que anduvo con ANGEL y con LEONEL y que despues del futbol se fueron a casa de LEONEL y pregunta si tiene dinero que le preste. TERE dice que no le han pagado. CARDOSO necesita dinero para comprarse zapatos y quiere que TERE aunque sea consiga dinero prestado. TERE tratará de ver si consigue porque ella tambien quiere comprarse zapatos.- CARDOSO si consigue el dinero pide le llame antes de las cinco y media al 17-81-00.- 479-

(hoja cinco)

479- Salida.- GUZMAN pide comunicarse a papeleria. MF dice que llame mas tarde porque la señora salió a comer.- 499-

499- Salida.- GUZMAN pregunta por el Lic. ENRIQUEZ. MF dice qu salió a comer y no tarda y ella lo llamará en cuanto llegue. GUZMAN que sea antes de las dos porque los pasaportes que dijo ENRIQUEZ que iba a enviar no han llegado y los está esperando para sus visas de cortesia tal como lo trataron en la mañana. MF va a investigar eso y despues le avisará.- 516-

516- Entrada.- 1325 hrs.- CRISTINA con GUZMAN y con TERE para saber si se ven mas tarde y se ponen a "cotorrear" sobre vestido y deudas que tienen.- 569-

569- Salida al 24-51-29.- 1333 hrs.- MARINA con MIGNON para avisar que ya está el Coronel MAURICIO FERNANDEZ en las oficinas pero si le quiere llamar a su casa es el 45-98-23 y que hay otro el de su recamara pero no recuerda bien que número es, y que le llegaron dos cartas y una es para el Patronato de las Actividades de Alta Especialización Docente del Instituto - Politecnico Nacional y otra de Santo Domingo que cree que es de NELSON ANTONIO ARCINIEGA dice que es para ella. MIGNON ofrece pasar o llamarle mañana a FERNANDEZ y recoger esas cartas.- 616

616- Salida.- (Instituto de Cardiología)- MARINA pregunta el teléfono de Nutrición. MF que es el 19-57-00.- 631-

631- Salida al 19-57-00.- 1349 hrs.- (Nutrición)- MARINA pregunta por el Dr. GARCIA PATRONI. MF dice que espere un momento. MARINA espera y despues cuelga.- 684- (hoja seis)

684- Entrada sin contestación.- 692-

692- Entrada.- MF por YADIRA.- ya salió.- 695-

695- Entrada.- 1602 hrs.- sin contestación.- 750-

750- Salida al 13-21-92.- 1720 hrs.- GUZMAN pregunta por el Lic. ENRIQUEZ. MF dice que regresa en una hora. GUZMAN le volverá a llamar.- 767-

767- Salida al 18-07-00.- 1725 hrs.- GUZMAN pregunta por el Dr. SCHEKER. MF dice que es la ext.808 pero no contesta. GUZMAN pide se le diga que le llamó.- 810-

810- Entrada.- 1728 hrs.- TERE pregunta que quieren con ella. GUZMAN dice que fué don RENE quien lo llamó y quiere saber si recogió el sobre que le dió YADIRA. TERE lo tiene en el cuarto y que despues le iban a decir con quien habia que mandarlo. TERE pregunta si la monja llegó. TERE no sabe pues ella acabad de llegar. GUZMAN que entonces mañana van a mandar ese sobre con TAPIA y que está lacrado. TERE dice que tiene un sello de la COPREDAL. GUZMAN que asi es.- 855-

855- Entrada.- 1730 hrs.- MF saluda a GUZMAN y pregunta que van a tomar "la fria". GUZMAN está aquí trabajando y que por eso llamó a YADIRA para recoger un sobre, pero ya se solucionó. MF si le da tiempo lo espera para tomar un café.- 890-

- -

. - . (..7.-12- 2 may.66)

EMBAJADA DOMINICANA.- 28-77-85.
2 mayo 66.
L2-M2-T22-
1755-1824 hrs.-

00- Salida al 18-07-00.- 1755 hrs.- GUZMAN pregunta por el Dr. SCHEKER.- sin contestación.- 18-

18- Salida al 13-21-92.- 1810 hrs.- GUZMAN pregunta por el Lic. ENRIQUEZ. HF dice que espere un momento. Despues ENRIQUEZ se disculpa con "el doctor" GUZMAN porque resulta que la camioneta del banco chocó y alli iban las personas que le entregarian los pasaportes. GUZMAN dice que de eso queria avisar pues llegaron a verlo a las dos y cinco con los pasaportes y ya se les dio la visa por un año con entrada y salida y asi que ya no hay problema y no se les cobró ningún centavo y cambiando de tema sobre el asunto que le consultó en la mañana, ENRIQUEZ que lo tiene pendiente pero uno de los que comisionó para eso se enfermó pero mañana sin falta se lo informa y ya recuerda que es sobre los datos de CORTINA PORTILLA (del Lic.EUSTAQUIO CORTINA PORTILLO de quien piden datos confidenciales para el gobierno dominicano). GUZMAN que si y que tiene entendido que uno de los hermanos de CORTINA es director de la Financiera. ENRIQUEZ va a pedir mayores datos y mañana se los informará. GUZMAN cambia de tema y pregunta si fué a ver al Dr.SCHEKER. ENRIQUEZ dice que no, pero que le consiguió la cita con SANCHEZ MIRELES (del ISSTE) y no se lo pudo comunicar porque tuvo que atender a la delegación belga y todo el dia estuvo con ellos. GUZMAN que entonces mañana le llamará.- 44- (hoja uno)

44- Salida sin contestación.- varias veces.- y ocupado.-75-

45- 1313 hrs. Entrada.- MP por el Coronel [illegible]. YADIRA dice que no vino hoy. MP que entonces con JOHN FRANK TAPIA. YADIRA dice que espere. Despues MP MARTA comenta con TAPIA que MARCOS es un bandido como todo dominicano pues lo está esperando que pase por ella para llevar unos papeles a Gobernación. TAPIA dice que lo puede llamar a su casa al 49-12-92. MARTA dice que ya lo tiene y que no solo le urge su asunto sino la visa de MARTINA RICUR que tiene mas de un mes que no sale. TAPIA que si pidió la visa como MARTA entonces no va a salir nunca. - risas. MARTA termina conque le llamará a MARCOS a su casa.- 69-

(hoja uno)

5008

69- Entrada.- MF equivocado.- 74-

74- Entrada.- MF por GUZMAN. HORTENSIA dice que ya salió y tal vez regrese mas tarde. MF que le diga que llamó la señorita GAMAS (CHELITO GAMAS amor de GUZMAN)-.79-

79- Entrada.- 1320 hrs.- RENE FIALLO pregunta por GUZMAN. MARINA dice que ya salió y que regresa al rato. FIALLO que entonces con TERESITA. Despues FIALLO pregunta a TERE si terminó el texto del mensaje cifrado que hicieron anoche con LEONTE. TERE se lo entregó ya a GUZMAN. FIALLO que vea si no se ha enviado, porque tambien dejó en el escritorio de GUZMAN... CORTAN. -- fuera.- 95-

95- Entrada.- FIALLO continua con TERE y pide vea si GUZMAN comparó el texto corregido en la parte final del cable y que se refiere a una constancia conjuntamente presentada por varios países tales como Argentina, Bolivia, Brasil, Colombia, Panamá, Venezuela y Dominicana; porque yo no sé si al corregir puse todos los países. TERE va a revisar eso porque ella no recuerda haber visto eso..- SE CORTA.- 114-

1326 hrs.

114- Entrada.- FIALLO continuá con TERE e insiste que vea esa copia corregida en el escritorio de GUZMAN y vea si hay otros papeles en que hicieron algunas correcciones porque temo que haya omitido alguna cosa en el cable y que tambien tenga bajo su custodia hasta que llegue GUZMAN y en caso que no llegue los meta en alguna de las gabetas del escritorio. TERE que está bien. -Despues FIALLO dice a TAPIA que bajando las escaleras me saltó un pensamiento desagradable pero que no tuvo tiempo de

(hoja dos) ...

... regresar para advertir que GUZMAN tuviera cuidado de dejar el mensaje en clave que dejé sobre su escritorio, ya que TAPIA recordará cuando en dias pasados se le llamó de Cuernavaca para que proporcionara la clave del descifrador, entonces debió GUZMAN tener cuidado de ese trabajo en la inteligencia de que TAPIA tambien se diera cuenta de ese trabajo, para no prestarse a malas interpretaciones. TAPIA dice que " yo lo tengo a usted en un concepto demasiado elevado para dejarse andar con niñerias y cualquier cosa que suceda, quiero que sepa que jamas yo preguntaré porque fué, ni tendré porque pensar mal de usted", o sea que para mi es usted uno de los hombres que he conocido y usted lo sabe en muchas ocasiones en su presencia y en su ausencia. RENE dice que dado a las circunstancias de sus ausencias quiere tener en TAPIA un amigo. TAPIA rie y dice que el puede depositar toda la confianza que guste y que el trabajará junto y de acuerdo y que no soy el tipo que anda con niñerias y esas cosas. RENE lo sabe y agradece sus conceptos.- 165-

165- Entrada.- 1329 hrs.- RF con YADIRA para hacer planes a salir a comer hoy o cenar por la noche entre las amigas de - siempre o bien mañana que no trabajan por ser día festivo.-203-

203- Entrada.- EMILIO CORDERO dice a TERE que GUZMAN le pidió le dijera que el cable que lo ayudó en la mañana a pasar y si a las dos no ha llegado GUZMAN por él, que entonces lo mande con HORTENSIA a Gobernación que es en donde están ahorita. TERE que don RENE le dijo que revisara ese cable si estaba completo de los paises en una corrección y que RENE ordenó dejara ese cable en una gabeta del escritorio de mismo RENE, asi que es mejor que GUZMAN le llame para ver que hacer.- 228-

(hoja tres)

228- Entrada.- MT con TERE para citarse en casa de ella por la tarde.- 242-

242- Salida al 03 por la Hora.- 1343 hrs.- 244-

244- Entrada.- GUZMAN pregunta novedades. HORTENSIA que le devolvieron el pasaporte que le dió y las franquicias las tuvo que llevar a Relaciones y hasta el viernes se las devuelven. - Despues GUZMAN con TERE. Esta dice que lo que le dió GUZMAN a copiar no es para cifrarlo, porque don [illegible] llamó y le dijo si ya lo había pasado y que revisara si estaban completos los países y que si GUZMAN no estaba que los dejara en una gaveta. GUZMAN está de acuerdo y el pasará más tarde.- 268-

268- Salida.- [illegible] con MT para saludarla y decirle que ayer por la tarde le estuvo llamando para invitarla a salir. MT dice que no salió y que el teléfono para nada llamó... bla.. bl...- - y planes para mañana que es día festivo y que no trabajan.-331-

331- Entrada.- MT por YADIRA para saber si van a salir por la tarde. YADIRA acepta. MT se llama VICTORIA.- 354-

L2-M2-T28-
1139-1236 hrs.-

107- Salida.- GUZMAN saluda a HERNANDEZ y dice que va a estar en la embajada hoy. HERNANDEZ le mandará su pedido y pregunta si el tiene la cuenta del Coronel FERNANDEZ. GUZMAN no está seguro pero son como mil ciento ochenta. HERNANDEZ tratará de pasar cuanto antes a verlo.- GUZMAN lo espera antes de las once.- 122-

123- Entradas sin contestación.- 141-

141- Salida.- (Suite Emperador)- GUZMAN pregunta por RENE FIALLO. MF dice que acaba de salir.- 154-

154- Entrada.- MF RENE FIALLO dice estar llamando desde hace rato y nadie contesta. GUZMAN dice que el contestaba pero nadie lo hacia fuere y que el lo llamo al Hotel para avisarle que se recibió un cable confirmando lo de la fecha que se mando en el otro cable, y es junio. RENE dice que se alegra y que pasará al rato a la embajada para ver eso sobre lo que ayer se estuvo escuchando y la razón a las reservas finales y ademas dando cuenta por si hay alguna presión de parte de ellos "allá con los paises interesados" ya que seria algun error lamentable o un mal entendido de compañeros. GUZMAN que está bien.- FIALLO ademas comenta que anoche lo llamó MARIA JOSEFA la esposa de FERNANDEZ CAMINERO

(hoja tres) ...

..y le dijo que habia extrañado su ausencia y que ofreció mandarle un cable y tambien ofrecio acompañarla hoy y para ese caso aunque sea se van en un taxi para ayudarla. GUZMAN que está bien.- 204-

204- Entrada.- 1139 hrs.- LD.- MF pregunta por el Lic. ~~XXXXXX~~ MARCIO VELOZ MAGIOLO. RENE FIALLO dice que no está en México ni regresará al país. MF pregunta entonces por la señora DE VELOZ. RENE que tambien se fué a Santo Domingo. MF pregunta quien se quedó en su lugar. RENE dice " tienen el gusto de hablar con el que se encargó de la Embajada y soy RENE FIALLO ENcargado de Negocios y Ministro Plenipontenciario".. MF dice que le habla MARUJA FEXEIRO DE LLAVONA de padres gallegos y dominicana de nacimiento y hace un mes y medio mandó a la ciudad de México porque ella vive en Torreón, Coahuila;dos pasaportes de sus hijos para renovarlos y son a nombre de MARIA ISABEL y JOSE ANTONIO LLAVONA FEIXEIRO y resulta que son menos de 4y3 años y ellos quieren ir a Santo Domingo y quiere tener la seguridad de que están en la embajada porque los mandó con un español VICENTE VIDARRETA - es VILLARDEL y ademas ella quiere ir a Santo Domingo porque ella es española de nacimiento no dominicana y tiene que renovar sus documentos que se vencen el 6 de julio y sus hijos si son dominicanos con domicilio en calle Abelardo Rodriguez Urdaneta #11 en Santo Domingo muy cerca de donde viven los padres de MARCIO VELOZ. RENE ofrece investigar eso y se lo informará despues. MARUJA dice que ella vive en la Avenida Mayrán #580 Colonia Jardín en Torreón o el teléfono de su esposo que es dueño del café Colón y se llama JOSE MANUEL LLAVONA FERNANDEZ - español-, con telefono 2-74-75. RENE que está bien y que va a hacer lo posible por resolver su problema. -- 356-

(hoja cuatro)

356- Salida.- (Apartamentos Carmen)- GUZMAN pide el departamento 28 con la señora TERESITA PEÑA. MF dice que salió.- 372-

372- Salida al 02.- LD.- 1225 hrs.- GUZMAN quiere hacer una llamada a Torreón con cargo al 2-74-75 con la señora MARUJA FEIXEIRO DE LLAVONA o su esposo JOSE MANUEL LLAVONA FERNANDEZ. MF toma nota y dice que espere un momento.- Despues GUZMAN informa a la señora MARUJA que los pasaportes que dice que mandó con un señor ya le fueron visados hace dos días y todos sus trámites quedaron arreglados. MARUJA dice que la señora esposa de MARCIO VELOZ es hermana de una cuñada que ella tiene y por eso se valió de enviar los pasaportes a visar. GUZMAN dice que ya quedaron autorizados sus visas y una persona los recogió y los llevó tal vez para Torreón. MARUJA que está bien y que gracias.- (lineas cruzadas)- Y MARUJA reconoce a LEONTE como hermano de JOSE y de JAIME y que ella es muy amiga de doña JOSEFA mamá de LEONTE.. bla.. bla..- Despues se ponen a platicar sobre las amistades y la familia que ambos son - conocidos.- 448-

448- Entrada.- MF Lic. ARRIETA por el Corl.MARCOS JORGE. GUZMAN dice que fué a la ceremonia del zocalo a una jura de bandera del Ejercito Mexicano y no vendrá.- 455-

455- Salida al 14-02-76.- 1236 hrs.- GUZMAN pregunta "por su señorita Coronel y etc.. TAPIA". MF pregunta de parte de quien. GUZMAN que " de la embajada de Nigeria". Despues GUZMAN saluda a TAPIA y dice que le quizo llevar sus mariachis para sus mañanitas. TAPIA ríe. GUZMAN la felicita en su día. TAPIA da las gracias. GUZMAN dice que acaba de recibir un cable y que ..

(hoja cinco)

.. dice: "Embajador de México, a TAPIA, recibe felicitaciones cumpleaños, abrazos para todos, firma MANUEL LARA Y BOLIVAR". TAPIA se entera y da las gracias, y dice que su esposa y su familia fueron a las piramides de Teotihuacan; cambia de tema y pregunta que lió traia RENE con el cable cifrado. GUZMAN dice que nada y que era otro cable grande y ya quedó todo arreglado, y que " ese hombre es mas bruto que el gobernador", cambia de tema y dice que hay que mandarle un regalo a esa muchacha. TAPIA pregunta por el papelito que le dio de unos cubanos residentes norteamericanos y que hay que ver en Gobernación ese asunto pues son tres cubanos que le trajo MARICH. GUZMAN no tiene ese papel pero lo va a buscar y a la vez pregunta si recuerda que se renovaron dos pasaportes de dos niños hijos de unos españoles que viven en Torreón. TAPIA que si que se lo dió a una vieja española fea. GUZMAN que está bien y saludos.- TAPIA antes de colgar comenta " que el viejo me llamó para pedirme disculpas sobre que no me habia enterado del cable cifrado que habian hecho entre "el viejo" y GUZMAN, y que me pusiera inmediatamente al habla contigo y que estaba molesto porque yo estaba pensando que me habian pasado por arriba, y que no lo tomara asi y que el me daba plena confianza, etc." - risas.- GUZMAN comenta que asi es mejor para que se de cuenta que no quiere nada " entre bastidores".- risas.- TAPIA comenta " que está loco ese viejo". GUZMAN rie y dice que hasta pronto.- 531-

531- Salida.- (Aeronaves)- GUZMAN pregunta por la hora de llegada del vuelo 411 procedente de Miami. HF que a las 16:00 hrs.- 539-

00- Entrada.-1058 hrs.- MF de parte del señor GEORGE KATKINGSON del diario Los Angeles Times que solicitó una visa para ir a Santo Domingo y que es de nacionalidad norteamericana y que ya tuvo una visa de periodista y la quiere renovar. MARINA dice que espere un momento. Despues MF GEORGE dice que el consiguió antes una visa que le dieron en San Juan de Puerto Rico para la Dominicana y que ahora quiere volver para el asunto de llevar la notas periodisticas de las elecciones de su país y se quiere evitar tener que ir a San Juan a renovar. MARINA que hay que hacer todos los trámites de nuevo aquí, ya que son otras reglas y es mejor que deje el número de su teléfono para llamarlo cuando llegue el Cónsul. GEORGE dice que es 35-89-69 y que es GEORGE NATANSON y está radicado ~~xadixa~~ en México para los asuntos de su periodico en Centro America.- 56-

56- Entrada.- 1104 hrs.- LUCHITA GAMES con GUZMAN su amor y saber si se ven hoy. Este dice que si y pregunta por el número de la agencia que le ofreció darle. LUCHITA a la tarde que se vean se lo dará porque no lo traé consigo. GUZMAN le llamará a las cuatro y media.- 68-

68- -Bocina descolgada.- 83-

83- Salida.-(Embajada de Corea)- MARINA dice que hay una correspondencia que llegó de Santo Domingo para esa embajada y no hay ..
(hoja uno)

... con quien enviarla y de ser posible pasen a recogerla. MARINA aclara que proviene del Ministerio de Relaciones de Santo Domingo. HF que está bien y que gracias.- 93-

93- Salida al 18-29-93.- 1115 hrs.- (Ceremonial)- MARINA pregunta por FLORES TEJADA. HF dice que salió a la calle. MARINA pide se le diga que el señor GUZMAN desea tener una conferencia con él, con fines de tratar un asunto de su - Gobierno y que se le señale una cita. HF que está bien.-104-

104- Salida.- sin contestación.- 110-

110 Entrada.- 1117 hrs.- HF informa que de León,GTO, llaman al Corl.MARCOS JORGE MORENO. Despues HF ANDRES saluda a MARCOS y pregunta si recibió su telegrama de felicitación por el santo de MARCOS. Este dice que si y que gracias. ANDRES que ha estado haciendo gestiones ante la Ferretera el Bajió para el prestamo de unos 200 y que será una letra de cambio a seis meses de pago con intereses. MARCOS le llamará mas tarde para darle la respuesta. ANDRES tiene una comida que [illegible] le da al Obispo para congraciarse. MARCOS le llamará tarde como a las siete. ANDRES que a su despacho o sea el 3-17-02 y alli espera su llamado. MARCOS que está bien.- 134=

134- Salida al 14-02-76.- 1124 hrs.- YADIRA saluda a TAPIA y dice que si va a venir a la embajada. FRANK TAPIA pregunta que necesita. YADIRA que sobre unos documentos y una visa que pide el corresponsal del diario Los Angeles Times o sea NATANSON que quiere ir a Santo Domingo y que la vez pasada se la dieron en Puerto Rico. TAPIA dice que entonces se vaya a Puerto Rico a sacarla, despues dice que pasa al rato.- 149- (hoja dos)

149- Salida al 19-55-93.- 1125 hrs.- YADIRA por DEL OLMO, pero todavia no llega.- 154-

154- Salida ocupada.-y sin contestación.- 168-

168- Entrada.- 1123 hrs.- MA ADELINA ELIAS DE MORENO con su esposo el Coronel MARCOS JORGE MORENO para avisar que va al salón y que despues pase por ella. MARCOS que está bien y que solo sacó reintegro en la Loteria.- 180-

180- Salida al 35-56-08.- 1133 hrs.- (Oficialia Mayor).- HORTENSIA pregunta por la señorita MONTERO. Despues GUZMAN saluda a la Licenciada MONTERO. Esta dice que sus dos oficios pendientes de firma desde el miercoles no los tienen sino hasta hoy mas tarde y de los otros dos están pendientes de que se despache. GUZMAN que está bien y explica que hay tres medicos dominicanos que vinieron a México con visa por tres meses y sus pasaportes son oficiales con visa diplomática y se vencen el dia 8 y que Relaciones explica que hay que llamarles o solicitar el cambio por oficio. MONTERO que asi es y que despues le mando los oficios para que se despachen luego.- 201-

201- Salida al 13-21-92.- 1139 hrs.- GUZMAN pregunta por el Lic. ENRIQUEZ para saludarlo. Este dice que estuvo un poco enfermo y con mucho trabajo, y que ya logró informes "sobre esa persona y que el último puesto que todavia tiene es en una compañia fraccionadora de terrenos y mas bien es al amparo de su hermano JUAN CORTINA PORTILLO, quien es la cabeza del grupo, y que he ocupado otros puestos siempre bajo la celula de su hermano JUAN y que "él" (EUSTAQUIO CORTINA PORTILLO) es una buena persona..

(hoja tres)

...completamente honorable y digna de todo crédito" y que el ultimo dato como antes lo dijo está como Presidente de una compañia de terrenos fraccionados, pero la persona que le dió ese dato dijo que eso era hacé seis meses y hasta la fecha no se ha logrado comprobar. GUZMAN pregunta si logró investigar de que filiación politica o social es mas o menos. ENRIQUEZ sabe que es igual que todos sus hermanos o sea de un grupo completamente catolico practicante y siempre ha estado en un circulo de hombres catolicos formados hace tiempo por un grupo de hombres que estuvieron o éstudiaron con el padre jesuita RAMON SILVA o RAMON MARTINEZ SILVA. GUZMAN toma nota y dice que no lo agradece mucho porque sus datos son valiosos. ENRIQUEZ que nada tiene que agradecer " doctor" si sus datos son en cierto punto cortos. GUZMAN que no y que verán que dia se reunen con las esposas a cenar juntos. ENRIQUEZ que está bien y que anoche estuvo platicando con el Dr. ROCHAC y dice que los conoce. GUZMAN dice que el Dr. ROCHAC es intimo amigo de mi padre y es una bella persona. ENRIQUEZ dice que salió hoy fuera y no sabe cuando podrá regresar a Santo Domingo hasta " que lo llamen". - 236-

236- Entrada.- 1143 hrs.- CRISTINA con MARCIA para saber si "está el señor". MARCIA que si que está platicando con don RENE. CRISTINA que va a esperar y al rato lo llamará porque lo quiero "coger a como dé lugar".- 248-

248- Entrada.- 1145 hrs.-MF quiere preguntar si para ir a Haití y Antillas Holandesas se tiene que sacar visa con la Dominicana. MARCIA dice que no es necesario porque no tienen que tocar Dominicana para llegar a esos otros paises.- MF platica que ..
(hoja cuatro)

.. ella tiene familiares en Santo Domingo trabajando en la Oficina Sanitaria Panamericana y en caso de poder ir a ese país podría gestionar su visa allá mismo. MARINA que le ayuda en mucho pero de todos modos tiene que hacer las gestiones desde la embajada de aquí.- 292-

292- Entrada.- 1150 hrs.- CRISTINA con MARINA y pregunta por MARCOS (JORGE MORENO). Este dice que espere un momento. Despues CRISTINA dice que sabe que hace mal en llamarle pero para ella es suficiente estar esperando tanto y lo que le hizo el miercoles está muy mal ya que ella desde el 21 de abril está tratando de hablarle por ultima vez sin tener que molestarlo más. MARCOS guarda silencio. CRISTINA que solo le quiere saber su opinión para un viaje a Santo Domingo que ella quiere hacer y que no habia salido antes porque su hija está enferma. MARCOS dice que aquí no se puede hablar para nada. CRISTINA que ya se que te molesta hablar con-migo pero será la ultima vez que lo hago pero yo quiero saber tú consejo para ir a Santo Domingo y lo demas está por demas hablar y quedamos como amigos y total. Y que ya con los desaires que me haces ya es suficiente. MARCOS que no es momento para hablar y menos aquí y que el lunes nos vemos y no puedo seguir hablando porque hay mucha gente. CRISTINA que entonces nos vemos el lunes "enfrente donde ~~xxxx~~ siempre". MARCOS que está bien.- 328-

328- Salida equivocada.- y sin contestación.- y siguen salidas equivocadas.- 427-

427- Salida al 19-55-90.- 1206 hrs.-(Hotel Emperador)- YADIRA por su amor DEL OLMO, pero no ha llegado y pide le diga que "su esposa lo llamó".- 433- (hoja cinco)

433- Entrada.- 1208 hrs. HORTENSIA pide a MARINA informa a GUZMAN que está en el zocalo, pero que estuvo en Gobernación y que todavia no estaban los oficios, y que si quiere que regrese a Gobernación. MARINA despues de informar dice que se venga mejor para la embajada pero rápido.- 449-

0904-1212 hrs.-

00- Entradas sin contestación.- 16-

16- Salida al 22-66-29.- 0904 hrs.- GUZMAN saluda a HERNANDEZ y dice que el sabado lo estuvo esperando y quiere verlo hoy. HERNANDEZ lo espera por la tarde en su casa. GUZMAN que está bien porque necesito eso hoy. (HERNANDEZ es de la distribuidora Benot quien les vende vinos, cigarrillos, etc. de importación).
- 25-

25- Entrada.- 0910 hrs.- HD MARCOS JORGE MORENO se reporta. GUZMAN dice que espere un momento. Despues HD saluda a MORENO y pregunta si no lo recuerda que es su viejo amigo de Santo Domingo y que tu estabas de Comandante de la Guardia en Palacio. MORENO lo recuerda y pregunta si es MINELLA. HD dice que si y que llegó ayer a dar un paseo y a saludar a los amigos y como no conocia esto a eso vino, y vino con su esposa y están en el Hotel Oxford en la calle Mariscal 67 y que vino a conseguir las visas de Guatemala. MORENO va al rato a llegar a la embajada. Despues otro HD saluda a MORENO y le dice "vagabundo" - risas. Y que se vino manejando desde Guatemala pero ahora que está en la ciudad de México no se atreve a meterse a las calles por el tráfico enorme. MORENO pide lo esperen un rato pues no tarda en llegar. HD dice que en Santo Domingo le mandaron un libro de PEREZ FERREIRA que se titula "Guerra o Patria" y lo dejó en ...
(hoja uno)

... Guatemala, pero en la pagina 128 te mencionan y dice sobre una forma brillante de las actuaciónes de MORENO o sea que dice: " el Coronel MARCO ANTONIO JORGE MORENO fué relevado de la - Victoria despues de haber derrotado a mas de cinco mil presos politicos y que eso le costo que lo sacaran de allí", asi que quiere decir que tu nombre está para la historia ya porque figuras en un libro. MORENO se alegra de saber eso y dice que al rato se verán. HD vino con GALLARDA con su esposa e hijos y despues irán a buscar a BRUNO para verse todos juntos.- 77-

77- Entrada.- 0959 hrs.- HF de parte de HORTENSIA pregunta por MARINA para avisarle que está enferma y que se tuvo que ir al Seguro y que llegará mas tarde. GUZMAN que está bien.- 85-

99 FEB No. 13 20 Nov 65

JUDY: Mujer, ya te arreglaron el teléfono?

AZ: Ya

JUDY: Te he llamado.

AZ: Sí, lo tuve muy mal, se mojaron los cables, porque los acomodadores de los teléfonos vinieron y lo plantaron y yo les dije que todavía no estaba puesto y dijeron no importa, ahora voy a tener que pagar la nueva instalación.

JUDY: Y eso no va por cuenta de ellos?

AZ: No. Y como le haces cómo le haces si no te quedas sin teléfono.

JUDY: Ah sí hay cosas que no puede uno ni pelearlas.
Cómo llegó tu mamá, quería en primer lugar saber eso.

AZ: Pues llegó muy cansada con la altura luego pues le dió gripa y luego pues la impresión, si a uno le produce impresión un viaje así, imagínate para ella que a su edad va a consumar el sueño de su vida y a ver de bulto todo lo que se imaginaba

JUDY: Pues fíjate que el otro día te quise decir, pero como estabas tan ocupada con..te acuerdas? allá en el Instituto que había recibido carta de Carlos y habla de tí por supuesto y me pone además..te voy a leer donde dice: Recibí también carta de ADELINA donde me dice cosas muy bonitas tuyas. Bueno me encanta que hayas conocido a (no entiendo nombre) me dices cuando viene...(Judita termina de leer y dice:, el muchacho se fuè sin avisarme desgraciadamente, yo quería mandarle una botella de Tequila y se fue;(pero está internado desde 2 días antes de que mi mamá llegara a Roma,- AZ habla)..JUDY: El muchacho? AZ: No, Carlos. JUDY: Ah sí el habla aquí de eso, que le traerá óptimos resultados.

Roco Saenz [illegible] had been [illegible] [illegible] [illegible] & travel [illegible] [illegible] Italy [illegible] [illegible] [illegible] 1st [illegible] [illegible] [illegible]

AZ: Llegando a Roma lo internaron y estará hasta hoy en el hospital.

JUDY: Depende mucho de las enfermeras nos pregunta (se ríen) (continúa leyendo la carta)..."tardaste mucho en escribirme, te espero la próxima vez en Trieste, un abrazo para tí, un abrazo para Adelina, dile que a pesar de mi buena voluntad no he encontrado a su madre.

— Contreras?

AZ: No la pudo encontrar porque se puso muy malo en Trieste; exactamente los días que mi mamá estaba en Roma él ya estaba en camino a Ferreri, porque le escribió a Carlitos y le dijo lo mismo y le dijo que me buscara y el maldito muchacho si no me encuentra en El Día no me lo dice, por cierto que le pregunté por su mamá y me dijo: "bueno, vive en Cuautla más tranquila, tú sabes.."

JUDY: Esta carta es del 30 y el muchacho salió el 30 y me dice: pasado mañana ingreso al hospital. Le voy a contestar esta semana-

AZ: Le voy a escribir yo también, él quisiera que todos los días le escribieran.

(cont..

cc # 12 HMMA-27835 (15 Dec 65) CS COPY 50-6-32/4 (cont...

JUDY: De pasada le mandaré un traguito de Tequila como recuerde de este hermoso país.

AZ: Tú sabes que no puede tomar nada, por eso lo encerraron

JUDY: No, lo encerraron por lo de su pierna.

AZ: Pero por eso, no puede tomar nada, Carlitos me dijo eso, que no se había querido internar y lo había estado alarga y alarga porque iba a tener una dieta tremenda entre ella ni gota de alcohol ni gota de vino, dice: "y tú ya sabes cómo es mi papá".

JUDY: qué otra cosa te iba a decir...mira, de lo de Carlos Pellicer que hablamos para digo tan a la carrera...

AZ: (interrumpe) yo hablé con él

JUDY: Sí él me dijo. te enteraste bien de todo domo fué (AZ la interrumpe y dice: Sí la leí.) Judy continúa: Ah leíste la carta..

aZ: Después me dijo, no hay nada que hacer, yo le hable al otro día. me dijo: mira vino el secretario del señor con su montón de excusas y me hizo un montón de halagos, se estuvo más de media hora conmigo y ante eso me ha desarmado completamente.

JUDY: Sí, pero sí se puede publicar la carta.

AZ: Pero en dónde, en El Día no la publicam.

JUD.: No la publican? Yo la mande a todos los lugares que pude, me entiendes? fuera.

AZ: No, ni de chiste, yo le dije: mira, yo podría hacer un comentario y me contestón: lo entiendo, además creo que no se puede hacer, así me dijo ese día.

JUDY: Yo estuve con él, en la casa.

AZ: (interrumpe) me dijo que había hablado a "Política" a ver si acaso pero a cualquier revista o periódico que la publique, le quitan el papel, así tranquilamente, yo compré "Siempre" pensando que ya saliera algo y ni una palabra, ni Sucesos fíjate tú.

JUDY: Ah, antes de que se me olvide, qué hay en lo de MADRAZO Angelina

AZ: Bueno mira él ya no aguantó, porque los intereses creados en el PRIson superiores a la buena intención de él.

JUDY: Espérate un segundito.,,, Ya perdona.

AZ: Bueno, entonces, él pues en verdad trataba de hacer un partido y.. de purificarlo vamos.. y los intereses creados más la propaganda en contra de él, pagada por esos intereses no le permitió realizar lo que él quería.

JUDY: Verdad que es un hombre muy honrado?

AZ: El es honrado, muy muy honrado, un poco desbocado como buen Tabasqueño, un poco arbitrario, porque él en su vida ha ido así a brincos y ha superado las cosas, pero pues las mañas de todo esto y además intereses personales terribles, en Chihuahua, en Sinaloa, en donde el latifundismo de los nuevos ricos de los nue-

(cont..

vos Porfiristas, pues no se deja ganar para nada y luego cuando no hay en realidad un movimiento popular desde la base, organizado donde no hay una militancia verdadera ningún partido e incluyo al (JUDY la interrumpe diciendo "claro, claro" y no se escucha el nombre del partido) qué puedes tu hacer, si yo a veces pienso que cómo López Mateos no aventó todo al diablo se fue a la Derecha completamente.

JUDY: Tú sabes que está muy enfermo.

AZ: López Mateos?

JUDY: Sí, porque yo tengo de cliente a la señora Alvarez Amézquita, que son muy amigos, bueno y un día de estos me estuvo dando las quejas de cómo está de mal el doctor, entre otras cosas, dice que está bueno, una cosa tremenda, que no quiere hacer caso y que se está matando, bueno y que va a ir con el Lic. López Mateos, van a Chile no? entonces yo misma le dije: pues si nadie tiene influencia sobre él porque usted no le habla como amiga del Lic. López Mateos que le hable a él, porque tiene una diabetes y no hace ningún caso, está malísimo, tiene una úlcera, toma tragos, en fin matándose no? pero entonces me contesta ella, pero si López Mateos está igual o peor, porque un día de estos casi se les muere de un dolor de cabeza, casi casi se les muere, me dice: pero ya usted sabe lo que es la cosa de la política y del poder y eso, dice: él estaba feliz esperando el nombramiento este, porque no pueden estar sin esas cosas.. me lo dijo ayer.

AZ: Yo me imagino que algo tenía porque..

JUDY: Interrumpe.. me lo dijo como cosa seria, que se les quiso morir..

AZ: Yo tengo una carta de él, contestando el telegrama del día de su santo y ..(JUDY interrumpe y le pide que espere un momento)..
AZ continúa: me puso una carta pero además le he tenido algunas cosas, sobre todo con esto de la Olimpiada y he estado llamando y entonces me pareció tan extraño que inclusive la secretaria de Humberto aparecía como enferma y el ayudante que por última vez tomó el teléfono me dijo: A. maestra, si es usted, le voy a dar el teléfono de San Jerónimo pero no diga usted que yo dije que la señora está enferma, me entiende usted?... Y yo pensé algo le ha de pasar, quizá allí se la ha arrebatado la gentetante a Adolfo que ha preferido encerrarse en su casa y hacerse todo y ya Humberto ya está allá, trasladado parte de su oficina y está trabajando allí. Luego le hablé a la Sra. Greger y me dijo: mire, el Lic. Romero está muy ocupado porque el señor tiene muchas cosas, pero yo no le pregunté porque ya sé cómo Patricia, pero sí me dió risa porque dije que estará enfermo, porque eso de que se encierre en su casa es muy extraño, por eso algo debe saber.
Yo quise hablar con Eva y le hablé a Amelia su hermana que es mi conducto porque aunque ya no es Presidenta todavía tiene una ola de gente allí y me dijo: vamos a hacer una cosa, espera a que pase el 15 de noviembre y que termine toda la preparación del viaje de Aldolfo (corr. Adolfo) y ya hacemos una cita para que la veas aquí mejor. Ahora que no sabía si Eva acompañaría a Adolfo y también eso me hizo pensar qué cosa será, porque los dos van uno por un

(cont..

lido y otro por otro cuando tienen trabajo, pero si ya Eva va a acompañarlo es que él está enfermo.

JUDY: No pues yo sse sé, que estuvo seriamente mal.

AZ: Tiene diabetes emocional, se le sube la azucar por horas y se le baja por horas. Yo lo había visto bastante bien y de repente se ha desaparecido, yo creía que estaba trabajando en la intervencion, en esto, en lo de Chile, pero mira las gentes que se ponen graves graves durar mucho.

AZ: Se murió Ana Mayeb, tenía anemia hemolítica. Del páncreas, no hay nada que hacer, además le dio bronconeumonía y se fué volando. Murió el martes 9, tú llegaste un día antes del acto verdad? bueno, entonces yo era la que iba a hablar, yo tenía 39 de calentura, ese día me viste muy mal.

JUDY: No hablamos por teléfono el día que tú estabas preparando el discurso. Entonces fué cuando quería yo hablar contigo de todas estas cosas, excepto de lo del Lic. López Mateos.

AZ: Era ese el día, había muerto un día antes. Había tenido tanto lío y tanta cosa, me había emberrinchinado porque me habían nombrado y no puedo dar conferencias, no tengo tiempo para preparar y así me dá mucho coraje ir a hacer porquerías y más en el caso de la Unión Soviética, entonces lo había escrito pero lo tenía que resumir porque eran muchas hojas y no tenía más del tiempo preciso para terminar, revisar y corregir y luego pues otras veces yo puedo hablar, pero ahora que tengo este ruidito en el oído, tú no sabes qué desesperación porque me pongo nerviosísima, luego tenía calentura, total al entrar al acto me dijeron murió Ana Mayeb.

JUDY: Yó hace mucho no la veía, porque yo donde solía encontrarme con ella era allá, ya tú sabes, con esta amiga que vive en la Av. Veracruz. Esa noche cenó allí con nosotros, pues todavía estaba Pere aquí.

AZ: Bueno pues ella fue la primera que me dijo que era un caso muy difícil en que en otra situación se podría hacer algo, pero que cómo íbamos nosotros a pedir cosas.

JUDY: Ah bueno, de esto te quería hablar también, de lo que me contó Carlos Pellicer, tú lo debes saber bien, de la gestión de un grupo de hombres de lo más destacado de México, de personalidades en todos los campos, de la gente muy honrada, etc. y pusieron en manos de Carlos Pellicer una petición al "barbón" no para que le libere ni nada de eso no? sino para que se sepa de ella y las razones, es una cosa muy respetuosa, me dijo Carlos y perfectamente humana. Entonces Carlos debió haber ido en representación del grupo a depositar en manos de...

AZ: No le van a contestar nada.

JUDY: No, no no, ir personalmente a la isla, me entiendes?

AZ: Pues no le van a hacer caso.

JUDY: Y resulta que entonces él se queja con mucha razón porque aquí estaba Luisa cuando eso, y estaba furiosa porque hagan cosas así. Entonces se fue aquí, donde una es su amiga o amigo, que es el

(cont..

embajador, porque son muy amigos, y le dijo y le pidió el visado y la negaron el visado. Francamente Adelina, eso da vergüenza.

AZ: Pues no me extraña.

JUDY: Y me dijo, están haciendo un Gobierno democrático o qué.

AZ: Bueno, eso no lo entienden.

JUDY: No, no Adelina no, ya esas líneas no se pueden tener a estas alturas.

AZ: Bueno, pues mira, ese día del entierro, yo hablé con una gente de allá, que fue porque esta mujer ayudó mucho en toda la represión y eso, fue al entierro, entonces yo fui en la mañana a las 8:30 y me estuve allí hasta las 10:30 en que me fui a mi trabajo ... (JUDY la interrumpe y le pide que espere un momento) AZ continúa: y le dije: yo no voy a ir al sepelio pero volveré al salir del trabajo, y efectivamente en la noche con todo y la calentura me fui pero andaba muy mal, la tarde estaba horrible. Estuve hablando con esa gente que ha estado allí en mayo de este año y me dijo que el "[illegible]" negaba todo y que allí había [illegible] todo, para absolutamente todo.

JUDY: Sí, el asunto no es que sea o no

AZ: (interrumpe) y grita que se está quemando pues se le derramó el té.

AZ: Te voy a decir que para mí es una cosa muy grave, porque esto debe haber creado una situación para los [illegible] terrible, desde que el papá fué a verla, que no lo dejaron hablar más que 10 minutos...

JUDY: (interrumpe) bueno mira nadie está pidiendo que la liberen, es una cosa de un respetuoso de los valores muy grandes de México que respetan a ese Gobierno y que yo creo que si a gentes que son como son se les ha dado visa...

AZ: Ya no se les da visa a nadie.

JUDY: Bueno, pero aquí hay gente que ha ido y ha vuelto y sigue allí y es [illegible], para esos sí hay visados y que no hay visado para un individuo que ha defendido todo el tiempo este gobierno que lo respeta como se debe, que se dirige en nombre e que va en representación de la gente más limpia de México, que no le están diciendo al DR. CA[illegible]O pónganla y le rogamos que haga esto o lo otro, me entiendes? porqué no le dan un visado que vaya personalmente y le diga tenemos [illegible] aquí [illegible], no se las podemos decir y se fue y ya, eso es lo que hacen Adelina eso lo hacen en todos los países del mundo sin excepción, entonces esto sí da una vergüenza y lo que ayuda aquí es a aumentar a que este grupo de gentes tenga que empezar con justa razon a hablar mal de este gobierno.

AZ: Bueno yo creo que Carlos ya no será más Presidente del Instituto

JUDY: El está invitado además para presidir el jurado de algo, que hay allí, un concurso, en la Casa de las Américas, entonces lo que cont..)

quería yo Adelina, es que tú le escribieras a tu papá.

AZ: Yo no puedo escribir, porque yo tengo que mandar la carta abierta, yo escribo con un gran cuidado, mira, lo operaron, tú sabes cómo es su estado? yo no, al fin supe de qué lo habían operado, porque una amiga mía que me ha mandado pedir medicinas y que me mandó los dos últimos libros de mi papá, fue la que me lo dijo, entonces yo metí una carta para la hija, le pregunto de los niños, de mi papá y le digo que estoy muy angustiada porque no sé de qué lo habrán operado, que me tiene muy intranquila la operación de mi papá, le platico cosas totalmente familiares, entonces esta persona me contestó diciéndome: a su papá lo operaron de hemorroides y ya está mejor, cosa que me dió gusto porque yo inmediatamente l mandé el "Herrolé" que es lo que yo temo y que me escapé de la tercera operación. No he recibido contestación, no sé nada, pero yo por intuición comencé a no escribir más de cosas permitidas, eso lo envié por correo, pero lo que yo llevo allí, a la Embajada, le digo al embajador aquí está la carta y el me dice: no Angelina no faltaba más, y le repito: léala, yo no me voy contenta si usted no la lee.

JUDY: Y porqué tú no hablas con él

AZ: No, porque entonces va a resultar lo siguiente: que no vuelvo a entrar a la Embajada, porque yo sé de una gente que hizo eso y no la dejan entrar.

JUDY: Entonces yo no quiero ir allí, ni que haya otra revolución, con toda honradez te lo digo, porque eso no es lo que uno quiere, así como lo oyes se lo suelto al primero que encuentre.

AZ: Yo voy a decir una cosa, las otras revoluciones están consolidadas y aceptadas.

JUDY: No y no, no se trata de estar dejando entrar al enemigo ni mucho menos, ni se les está irrespetando. O respetan las medidas democráticas o que no hagan revoluciones.

AZ: Pues no te puedo decir muchas cosas por teléfono, ya sé.

JUDY: Luisa estaba indignada, me dijo: esto da vergüenza, lástima que estuvo aquí nuestro papá días antes, si él hubiera estado aquí él hubiera hablado, si hubiera ido a plantear esta cosa como dá vergüenza.

AZ: Pues sí, no lo ve nadie, mis hermanas la vieron en julio, los dos días que estuvieron, dicen que está muy avejentado muy [illegible] a ellas les dijo que no sabía nada, entonces la otra persona, que es una persona que a mí me merece todo crédito, me dijo, bueno la cosa es que el cuñado y la [illegible] han dicho [illegible] que no.

JUDY: Pero ellos están presos o qué?

AZ: Sí, Joaquín estuvo muy enfermo, lo dejaron ir a la casa que le han desmantelado a la señora, ella está totalmente aislada, pero estaba con su mujer y con su hijo en cuanto se mejoró lo volvieron a encerrar.

JUDY: Pues eso era lo que quería yo hablar contigo, porque realmente cont..)

pues... ah, y ya la retacharon a [illegible].

AZ: absolutamente. Ya la retacharon.

JUDY: Mira, un día de estos el ex-marido de ella, andaba yo con unos amigos en la Comercial Mexicana y andaba él allí como sonámbulo hecho un viejito, ya no tiene ni pelo, pero qué barbaridad.

AZ: Yo lo vía él hace días y le pregunté por ella, porque siempre le pregunto y me dijo: ella... Yo le dije que la había visto en enero, que iba con los niños, así y allá, [illegible] que está allá. Entonces me dijo: sí vino dejó los niños y se regresa, pero me lo dijo así con una cosa de amargura terrible y entonces le dije y se va a quedar definitivamente? no, me dijo, regresa en tres días y creo que no volverá, entonces después alguien me dijo que seguro no le volverían a dar la visa.

JUDY: Pues qué barbaridad, que tenga la gente así que hablar, con la razón en la mano.

AZ: Quien sabe, yo ahora no adelanto juicios, yo no sé qué haría.

JUDY: No, mira por grave que sea, nadie se está metiendo a ver la gravedad o no gravedad.

AZ: Que al canoso lo llevaron a Checoeslovaquia, custodiado a carearlo etc etc, lo llevaron a París a carearlo y la investigación ha sido poco...

JUDY: Eso yo no lo discuto, ni discuto culpabilidad o no, justicia o no nadie se está metiendo en eso, es una cosa sumamente respetuosa la petición.

AZ: Bueno, te voy a decir a qué grado están las cosas de extremas, yo junto medicinas porque sé que hay casos de gastroenterolo la que no pueden tratar, la gente se les muere.

JUDY: Yo estoy horrorizada por lo de mi [illegible] que la acaban de operar de cáncer en Praga la trasladaron para allá.

AZ: No, no tengas eso.

JUDY: No Adelina, si ese cáncer está maligno, está pésimo,

AZ: Bueno pues medicinas sí puedes mandar.

AZ: Eso no se cura con medicinas Adelina sino con tratamiento.

JUDY: Los grandes especialistas no están ya allí y la experiencia es la experiencia. Está al cuidado de una de las mejores especialistas de allá, que la ve cada mes, imagínate.

AZ: Pues, yo mando medicinas y siempre llevo la caja, en eso he sido muy changa siempre, cuando el portero me dice: voy a avisarle al embajador, le digo: aquí está la caja, le dice que es de parte mía y que puedo revisar todito. Ahora cuando se abre la puerta y va a avisarle al embajador, entro y saco y todo lo extiendo, y le digo ahora ud lo empaqueta como quiera. A mí no me han vuelto a invitar a nada, yo sé que tienen recepciones muy cerradas a mi no me han invitado a nada, a nada.

(cont..

JUDY: Sí, ya se, aunque para uno es mejor.

AZ: A nada, siempre yo invito a los agregados culturales, a los [illegible]. Antes siempre iban, ahora no van. Creo que esta actitud les va a hacer perder al Instituto Mexicano-Cubano.

JUDY: Como no van a perder, pues no te digo la calidad de gentes, pregúntale a Carlos cuando regrese de Tabasco que te diga la lista más o menos de la gente, creo que serán 40 o algo así. Gentes escogidísimas.

AZ: Y ya te digo, de mi papá, directamente bueno ni su hija, ni la mamá, nadie de ellos me escribe, yo sé a través de esta persona y te digo, quiero que consiga usted esto que me imagino son parte de cuota para ellos, cómo se los podemos pagar. Inclusive yo le dije bueno mire si hay ocasión con algún diplomático, y se lo pidió que fuera con diplomático, mínimas 4 botellas de ron, que son las que pueden salir de allá y ojalá me llegaran para Navidad, salen en 90. pesos mexicanos así de que son como [illegible] dls. cada una. Y yo he estado ajustando a lo que se pueden enviar porque yo no estoy ahora en condiciones de enviar 500 pesos de regalos como antes lo hacía con tantos sacrificios porque JUDITH, me ha quedado una deuda de la casa de 20 mil pesos que yo tengo que salir en el año que entra y yo me jubilo, yo voy a tener una casa muy cómoda, muy agusto para trabajar, claro que hasta donde yo pueda sostener el coche, mientras me dan gasolina y chofer, el día que no, lo agarro lo vendo y me acabó, yo no puedo manejar con este oído lo intenté hace poco y me dí una mareada tan horrible que a las tres cuadras le dije al chofer, mire tome el volante, yo no puedo.

JUDY: Bueno, vamos a ver cuándo nos vemos de todas maneras Adelina.

AZ: Sí yo te tengo tu regalo

JUDY: Tenemos que hablar de verdad y vernos, tú me avisas porque ya sales en vacaciones.

AZ/ Cuáles vacaciones? Tengo vacaciones sólo en la escuela, pero nada más, lo que puedo hacer es fugarme del Instituto una tarde para que nos veamos, porque de otra manera no nos podremos ver y aquí hay todavía tanto polvo que no me atrevo a invitarte a comer.

JUDY: Ya tengo aquí a una muchacha, y por cierto ya te dejo porque le tengo que estar diciendo, es nueva, muy buena me está saliendo, voy a descansar un poco porque ya no aguantaba, 3 años y medio de estar como bestia de carga.

AZ: Yo prefiero pagar para que me trabajen, después a qué hora me pongo a hacer las cosas. Salgo a las 8 de la mañana regreso a las 3, como y con esto del oído son las 2 de la mañana y yo no me he dormido, amanezco aturdida.

JUDY: Bueno, me le da un abrazo a su mamá, dígale que pregunté por ella.

HMMA-27555

cont..)

AZ: Sí ya sabe que eres tú, nos vemos adiós.

JUDY: Adiós.

COLLECTOR'S COMMENTS AND QUESTIONS

We would appreciate your comments evaluating this report.

EVALUATOR'S COMMENTS AND FOLLOW-UP QUESTIONS

As a status report, document is of moderate value. Generally negative progress of Yugo attempts to establish a commericial foothold in Mexico not in itself of great interest to this office, at this time, but would increase in interest in direct relation to information on decision of Belgrade to grant a loan to Mexican govt.

EVALUATING AGENCY

DATE OF DISTRIB. 26 September 1960	DISSEM. NUMBER CS 3/451,014	Lifeat
Chief Country Mexico/Soviet Union	FIELD NUMBER HMM 5159	18 June 61

Subject **Mexican Government Purchase of Soviet Radioisotopes**

EVALUATOR: Please complete this evaluation within 30 days of receipt of request. Need for completion within this time is XXXXXX standard. Indicate choices by "x." If item marked is printed in italics, please explain under "Evaluator's Comments." Normally, put one x in each appropriate section. Otherwise, please cover each of these aspects in your comments. For further NOTES on use of this form, see reverse.

SUBJECT OF THIS REPORT IS OF: (IMPORTANCE IN RELATION TO OUR NEEDS.)
- 1. *Major*
- 2. MODERATE
- A3 3. LITTLE
- 4. NO

INFORMATION IN THIS REPORT:

CONTRIBUTES TO OUR KNOWLEDGE OF THE SUBJECT:
- 1. SIGNIFICANTLY
- 2. SUBSTANTIALLY
- 3. MODERATELY
- B4 4. NEGLIGIBLY

ACCURACY.
- 1. SUBSTANTIALLY TRUE
- C2 2. CREDIBLE
- 3. *Doubtful*
- 4. *False*
- 5. CANNOT BE JUDGED. SEE D.

RELATION TO OTHER INFORMATION.
- 1. USEFUL FOR CONFIRMATION
- 2. USEFUL FOR NEW INFORMATION
- D3 3. *Sufficiently known*
- 4. AT PRESENT WE LACK OTHER INFORMATION TO JUDGE ACCURACY OR USEFULNESS
- 5. *Conflicts with previous information*
- 6. *Appears to be fabrication*

USEFULNESS WOULD HAVE BEEN GREATER WITH:
- 1. *More detail*
- 2. *Less detail, more summary*
- 3. *Less fragmentary approach*
- 4. *Better organization*
- 5. *Better observation or better exploitation of source, or both.*
- 6. (STATED IN COMMENT)
- E7 7. NO DEFECT AFFECTING USEFULNESS.

OUR COLLECTION NEEDS

OTHER REPORTING MEETS:
- F1 1. OUR IMPORTANT NEEDS.
- 2. OUR MINIMUM NEEDS.
- 3. MOST OF OUR MINIMUM NEEDS.
- 4. FEW OR NONE OF OUR NEEDS.

(ONLY IF YOUR REQUIREMENT IS CITED.) REPORT SATISFIES IT:
- 1. FULLY. REQUIREMENT CAN BE CLOSED.
- 2. *Partially. Portion of requirement may be closed.*
- 3. PARTIALLY BUT NEED CONTINUES.
- 4. NEGLIGIBLY

(IF SUBJECT IS IMPORTANT TO YOU, OTHER REPORTING DOES NOT MEET MINIMUM NEEDS, AND YOU HAVE FILED NO REQUIREMENT:)
- 1. WE WILL PRESENT A REQUIREMENT SOON
- H2 2. OUR NEED DOES NOT WARRANT A REQUIREMENT FOR CS REPORTING.

- OUR NEED DOES NOT WARRANT A REQUIREMENT FOR CS REPORTING.

COLLECTOR'S COMMENTS AND QUESTIONS

EVALUATOR'S COMMENTS AND FOLLOW-UP QUESTIONS

It is impossible to tell if the USSR prices to Mexico are in line with world prices or not. According to a 1957 Soviet price list, potassium is 3 rubles per millicurie, iodine is 8 to 13 rubles per millicurie and gold is 1 to 3 rubles per millicurie depending upon the form of the carrier. According to the report the average price is $0.15 per millicurie. The quantities of each isotope however, are not given.

Radio isotope prices have changed in the US markedly over the past few years. For example, the price for gold 198 has changed from 20 cents per millicurie prior to May 1959 to 6 cents per millicurie after May 1959. Unless more detailed information is obtained, the information has only moderate value to us.

HMMA-4567

SUBJECT: Soviet Commercial Activities in Mexico

15 February 1960

What specific aspects of this report are of use? Of value? Please indicate and comment.

Information on the type of machinery offered or sold to Mexico or to Latin America is available from overt sources.

Information on prices is interesting and useful. Price quotations would be more helpful if specifications as well as serial numbers were available. Information indicating whether Soviet prices conform to or vary from world market prices.

Information on goods that the Soviets are interested in buying is of some importance, although this is generally available from overt sources.

ACTION REQUIRED: See para. 5

REFERENCE(S):
HMM-A-13934, 16 Oct. 1959
HMM-A-13828, 2 Oct. 1959

1. During the recent TDY visit to this Station of David M. FREDLUND(p) of KUTUBE D, the interrelationship between the conversations recorded under Project LIFEAT which bear on Soviet Communication and the regular provision of the hard copy of Soviet official diplomatic communications obtained by the LIENIT activity were discussed. The Station indicated that frequently LIFEAT obtained conversations which referred directly to specific messages: by content; by seeking clarification of garbled or missing groups; by officials who are to or have signed the message in question; and on one or two occasions the messages (admittedly not sensitive) were dictated to secretaries over the telephone.

2. Examples of the above conversations were forwarded to Headquarters in reference dispatches. The conversations with FREDLUND resulted in the suggestion that KUTUBE D should regularly receive the LIFEAT material when it relates to Soviet messages. Also that KUTUBE D in forwarding this type of LIFEAT material to ODINCH would record that the drop copies of the Soviet messages are normally forwarded to ODINCH (source LIENIT) and that if there is any value to ODINCH in tying the two sources together for further processing by ODINCH, the Station would cross-reference the forwarding dispatch numbers. This Station would appreciate receiving, at an early date, any Headquarters comments.

3. This Station is willing to continue to exploit LIFEAT material for LAURICLE purposes should this be judged of value by Headquarters. At the present time Willard C. CURTIS is personally handling this phase of LIFEAT reporting.

4. KUTUBE D should note that at the present time the LIENIT source is providing Soviet, Japanese, Czech and Polish drop copies to the Station. The traffic is over one-month old upon receipt and is in Station's hands only for a few hours. The source is capable however of obtaining traffic from all sources filing officially in Mexico City and the Station can do this without increasing the operational risk.

5. The Mexico City Station would appreciate any comments or guidance on either this phase of LIFEAT reporting or of LIENIT which KUTUBE D could give.

SOURCE: LIFEAT

1. Under reference B photographs of hard copies of Soviet traffic for November 1959 were forwarded to Headquarters. (SOURCE: LIEMIT)

2. On 27 November 1959 the following conversation took place:

> "Anatoliy Alekseyevich PAVLENKOV tells Vladimir KOLOKOLNIKOV that he just spoke with New York. PAVLENKOV says that BEGLOV(ph) called. PAVLENKOV says that Moscow wants to know how many luncheons and dinners there were yesterday. PAVLENKOV says he counted 3 luncheons and one dinner. PAVLENKOV says that a cable should be sent saying that on the 26th the bankers gave a luncheon for MIKOYAN and that MIKOYAN gave a dinner for the officials of the Government. Another thing Moscow wants to know what word was left out in KOLOKOLNIKOV's cable which was about KOLOKOLNIKOV's account at Poza Rica. In BELTRAN's speech there apparently was one word left out by the operators. KOLOKOLNIKOV will look at the text and see what it is. PAVLENKOV will come over and then they will send the cable. KOLOKOLNIKOV then suggests that they call BEGLOV in New York and give him this information. KOLOKOLNIKOV will do that.

> "KOLOKOLNIKOV tells WO(woman outside) to write down what he tells her. KOLOKOLNIKOV tells her that yesterday the Ministry of Industry and Trade, SALINAS, and the President of the Banco Exterior, ZEVADA, gave a luncheon for MIKOYAN at the Hotel Ambassador. In the evening A.I. MIKOYAN gave a dinner for officials of the Mexican Government. KOLOKOLNIKOV adds that the speech that ROLDAN(should be ROLDAN instead of BELTRAN) made the works "to show" were left out. KOLOKOLNIKOV tells her to send this to Moscow. KOLOKOLNIKOV will call tomorrow and let WO know when he will return. KOLOKOLNIKOV has to get his visa from the American Embassy."

1. The following is a quotation of a conversation held on 2 December 1959:

> A man outside called the Soviet Embassy, introduced himself as Yevgeniy N. VOYEVODIN and asked Yelena Ivanovna FILIPOVA, secretary of the Commercial Office, if he could still send a cable off(that late) on that date. FILIPOVA promised to try to get the cable off. VOYEVODIN then said he wished the cable sent to: RAZNOEKSPORT, Moscow, 9019, 9021 and then dictated:
>
> > "Exposition will close on 15th of December. To deliver the souvenirs is too late.
> >
> > VOYEVODIN."

A. HMMA-A-14372;
B. HMMA-A-14333.

1. Under reference B photographs of hard copies of Soviet Embassy traffic (Source: LIMIT) for November 1959 were forwarded to Headquarters.

2. On 28 November 1959 Vladimir KOLOKOLNIKOV spoke with Ivan Ivanovich (possibly [illegible]) in New York. KOLOKOLNIKOV said he wished a cable sent to Moscow concerning the departure of Anastas I. MIKOYAN (Soviet Vice Premier who had been visiting Mexico, 18-26 November 1959). KOLOKOLNIKOV said he himself would fly out "on Monday." A woman took the telephone and KOLOKOLNIKOV dictated the following:

> "Today at 0900 local time the First Deputy Minister of the Council of Ministers USSR, A.I. MIKOYAN, and his escorting party flew out of the Capital of Mexico on the Il-18 for the Fatherland. MIKOYAN was seen off at the airport by the Minister of Foreign Affairs of Mexico, Manuel TELLO; the Minister of Foreign Trade, Raul SALINAS; Minister of Education, TORRES Bodet; and officials of the Foreign Ministry. The Soviet Ambassador to Mexico also saw A.I. MIKOYAN off, V.I. BAZYKIN, and workers of the Soviet Embassy. Before the flight out A. I. MIKOYAN made a short speech in which he thanked the President of Mexico, LOPEZ Mateos, members of the Mexican Government, the whole Mexican people for the warm reception which was shown him and his escorting party in their country."

3. KOLOKOLNIKOV then dictated another cable. This cable was the message that MIKOYAN sent from aboard his plane to the President of Mexico thanking him for the reception that he received in Mexico. (NOTE: The translator "slipped" and did not transcribe this cable verbatim.)

SECURITY INFORMATION

FIELD INFORMATION REPORT

COUNTRY: Mexico

REPORT NO: HMM-1331

SUBJECT: Alicia ROMERO G.(Garzun)

DATE OF INFO: May - August 1956

DATE ACQUIRED: 12 Sept. 1956

PLACE ACQUIRED: Mexico City

DATE OF REPORT: 19 Sept. 1956

SOURCE, SOURCE EVALUATION, APPRAISAL OF CONTENT: Source A: Mexican business with contacts in journalistic circles B-2 (paras 1, 3, 4 and 5)
Source B: Source with access to Soviet official circles in Mexico B-doc (para 2)

The following information has been developed on Alicia ROMERO a suspicious contact of Grigori NIKIPORETS, Soviet Naval Attache, Mexico
201-160641

Av. Coyoacan 624-2,

1. An investigation of Avenida Coyoacan 624-2, the residence given as that of subject, showed it to be occupied by Maria Eugenia Romero de HARO. Her husband is related to Captain Antonio HARO Oliva, husband of Nadia HARO Oliva, who is an actress in a show called "The Four Colonels."
201-220883

2. It has been ascertained that on 7 May 1956 a man described as Major HARO Oliva, a movie producer, was in contact with Yuri PAPOROV, Soviet Cultural and intelligence officer. Mexico
201-082455

publication, Mexico

3. Alicia ROMERO G. has been identified as in charge of the photographic department of a magazine named ARRAZ, published at Avenida Juarez 20-22 in Mexico City.

COMMENT: A copy of this magazine is being retained in Station files.

The director of the magazine is Jorge HARO Cabrera, husband of Maria Eugenia Romero de HARO (noted above) and he resides at Avenida Coyoacan 624-2. He pays 750 pesos per month rent.

4. Alicia ROMERO G. is the sister-in-law of Jorge HARO Cabrera. She is the daughter of Maria de la Luz(widow) de ROMERO. Alicia ROMERO reportedly is the mistress of various politicians. She claims her home to be at Av. Coyoacan 624-2. Alicia ROMERO is reported to be pro-Communist and to be a member of the PRI. She is to be supported by that party in the forthcoming elections for the post of Federal Deputy.

COMMENT: Her connections with politics and politicians explain some of the report noted in the reference.

MEMORANDUM FOR: WH/Personnel

SUBJECT: Recruitment of a Retired CIA or Military Officer for Contract Status in Mexico

1. Mexico City needs a replacement in September or October 1963 to work on a technical operation. The Station does not want a staff employee, but a Contract Agent.

2. The Contract Agent would need the following requirements:

a. Must be retired, and move permanently to Mexico under cover of a retired U. S. citizen, with the appropriate guaranteed income required under Mexican law. ($320 for husband and wife per mo.)

b. Must have technical training which would enable him to work on a technical operation, possibly involving the care and upkeep of recorders, etc.

c. Must have a working knowledge of Spanish, or the ability to acquire this fluency prior to arrival in Mexico.

d. It will be necessary for the employee to work with people, make early and late meetings, and to spend a good deal of time driving around town. Therefore, the candidate must drive a car and be physically fit to work long hours.

3. It is requested that information on any candidates be furnished WH/3/MEXICO or C/WH/3 for consideration.

ACTION REQUIRED REFERENCES

REF: HMMA 20305, 3 December 1962

1. Reference problem was discussed by KURIOT with David N. WILSTED, during the latter's TDY at Headquarters in early December 1962.

2. KURIOT recommends the following solution and has furnished the attached material for delivery to WILSTED for his use:

a. The terminal identification system consists of two fluids. Vial "A" is collodion in which is mixed a small amount of phenolphthalein and is intended to be used by the person who originally connects the wires. Generously daubed on the end of the screw, this solution dries almost immediately in a water repellent, invisible coating.

b. The second vial "B" contains household ammonia. If the dauber in this bottle is drawn down the row of terminals in the connection box, the tip of any screw which was previously treated with the phenolphthalein will immediately turn a dark red color and then will vanish after a minute. The ammonia can be reapplied and this reaction will repeat itself a couple of times before more phenolphthalein has to be reapplied.

Chief, WH Division

FROM
Chief of Station, Mexico City

SUBJECT
LIFEAT Security

ACTION REQUIRED - REFERENCES

Action: See below.

1. The purpose of this dispatch is to request Headquarters' assistance in a problem involving clandestine markings for terminals in a telephone cable cross box.

2. Specifically, it is desired to have the capability of recognizing which cable terminals in a box are being used for telephone tapping without having any markings apparent to unauthorized persons. This system is needed for use in the event that taps must be disconnected quickly under the threat of a possible security problem.

3. The tap connections are made by LIFEAT telephone company personnel and the terminals could be marked by them at the time the tap is made. The connections sometimes have to be removed by another person who is not familiar with the connections.

4. It is felt that a quick drying, transparent glue or lacquer that would fluoresce brightly under UV illumination would be appropriate. A material that could be removed later by wiping or chipping it away would be desirable but this characteristic is not vital.

5. The system must be usable in open shade, although some additional shade might be had by partially closing the doors of the box, and the light source must be portable and if possible have the appearance of an ordinary flashlight. The light source can be brought within two inches of the terminals.

Ref: A. HMMA-20156
B. MEXI 2384

1. The following report is submitted in accordance with CSFHB-F 52-6-1, section V, paragraph 2 (d) (1).

A. EXPLOITATION OF LEADS

(1) LIFEAT/Soviet During the reporting period, LIFEAT coverage of Svyatoslav F. KUZNETSOV provided an important and valuable check confirming the reporting of a number of KUBARK controlled double agents targeted against this Soviet officer. Also, coverage of the Soviet Bulletin Office, although not considered vital, does complete Station coverage of the Soviet target and does provide daily information on the activities and contacts of the Bulletin Office personnel.

(2) LIFEAT/Polish LIFEAT continued to provide vital information concerning the BEKNAVE/BECHICK operation with coverage of both individuals and their daily activities.

(3) LIFEAT/Yugoslav Besides the usual coverage of day-to-day activities of the official installation, LIFEAT leads have indicated the possibility of a successful recruitment of a Mexican employee of that installation. LIFEAT information will become even more valuable for continuing assessment of the potential agent and forming of a plan for approach to the Mexican in question.

(4) LIFEAT/Communist Party Coverage in this area gave Station its first information concerning the second arrest of LINLUCK, as well as providing some information on important persons in the Mexican Communist movement.

HEADQUARTERS FILE NUMBER 50-6-32/3	

(5) LIFEAT/Exile LIFEAT provides continuing coverage of the daily activities and contacts of Juan Jose AREVALO Bermejo. Although most of the leads gathered will depend on future exploitation, one contact with an ODYOKE official was noted by LIFEAT (see reference b).

(6) LIFEAT/Cuban Of late, much of the emphasis of the LIFEAT operation has been directed toward support of Station operations in this area. Coverage included monitoring of the activities of AMSTET-1 for the interested Case Officer. This information provided daily leads for the Case Officer in his contacts with AMSTET-1. LIFEAT also covered three lines in support of the AMSTRUT operation. Of this support the interested Case Officer has noted LIFEAT provided very valuable coverage of the important AMSTRUT operation during October. The coverage gave valuable operational leads and resolved what would otherwise have been areas of uncertainty or groundless suspicion. This allowed the case officers to move with more certainty in developing the operation than would otherwise have been prudently possible. It is noted that LIFEAT's continuing coverage is proving to be most helpful.

(7) LIFEAT/American Communists LIFEAT continued to provide information of interest to ODENVY. Travel and contacts of the ACCM are particularly worthwhile.

(8) LIFEAT/Miscellaneous LIFEAT continued its coverage of former Station asset LIVESTOCK-2. This was in keeping with Station's policy of making periodic checks of the activities of former, potentially dangerous agents.

It should be noted that it is the Station's opinion that LIFEAT's excellent overall service, plus its ability to provide unilateral coverage of targets of opportunity on short notice (sometimes on as little as two hours notice), make LIFEAT a dependable daily contributor to the fulfilling of the Station's mission.

B. PROCESSING OF TAKE

No change from previous report.

C. LIAISON

During the month of October the two playback recorders used by the ODENVY processor broke down. These were repaired by the LIFEAT technician, David M. WILSTED. ODENVY continued to process take from the LIFEAT/American Communists in Mexico lines.

D. SECURITY

There have been no known adverse security incidents effecting the LIFEAT operation during the reporting period. LIFEAT meeting sites continue to be changed periodically. The fourteen regular and six alternate sites used for daily contact between the Station Case Officer and WILSTED and Wayne C. DRABAND are considered adequate. Numerous meeting sites are used for contacts between WILSTED/DRABAND and the basehouse keepers.

E. TECHNICAL

Audio and dial tape recorders ordered by the Station in support of the LIFEAT operation began to arrive at the end of October. These were placed in immediate service. It is noted that the automatic tape stop on the new model Revere audio recorder has thus far proven to be of no use to the operatio

CONTINUATION OF DISPATCH	CLASSIFICATION ~~SECRET/~~[redacted]	DISPATCH SYMBOL AND NO. HMMA-20261

and on occasion has caused some minor problems. It is believed that these problems are temporary and will be eliminated when WILSTED has time to by-pass this cut off switch.

The new Annex VI (see reference A) was placed in full operation on 23 October and presently provides coverage of four target lines.

F. COVERAGE

During the month of October 1962, LIFEAT covered a total of 25 target lines. Coverage by target was as follows:

1. Soviet Bulletin Office
2. Svyatoslav F. KUZNETSOV

25. Noah SEBORER

G. PERSONNEL

LIEMBRACE-8 was reintroduced to LIFEAT in order that he may brush up on its daily operation. LIEMBRACE-8 will temporarily replace David M. WILSTED as LIFEAT technician during the latter's home leave December 1962 and January 1963.

Steps were initiated to amend the clearance of LIEMPTY-19 for work as a part time LIFEAT processor/translator.

2. During the reporting period, LIFEAT operation provided a total of 62 reels of raw take from ACGM lines to local ODENVY for their processing. In addition, a number of memos were prepared by the Station for passing to local ODACID and ODENVY based wholly or in part on LIFEAT provided material.

SUBJECT: LIFEAT Progress Report for September 1962

ACTION REQUIRED · REFERENCES

Ref: HMMA-19843

1. The following report is submitted in accordance with CSFHB-F 52-6-1, Section V, Paragraph 2 (d) (1).

A. EXPLOITATION OF LEADS

(1) LIFEAT/Soviet In this reporting period LIFEAT provided vital information and live-monitoring support during the installation phase of a successful Station technical operation targeted against Aleksandr G. SIDOROV, Soviet Military Attache in Mexico.

(2) LIFEAT/Cuban This coverage provided valuable operational support during the period leading up to the recruitment of AMSTRUT-2 giving timely advance information of AMSTRUT-2's arrival in Mexico, as well as his day to day activities and contacts. Following AMSTRUT-2's recruitment, LIFEAT gave an excellent account of AMSTRUT-2's activities for those periods he was not under the control of his case officers. This was invaluable proof of his full cooperation with KUBARK and added a safety factor for the case officers making the recruitment and initial handling which would not have been otherwise available.

(3) LIFEAT/Polish and LIFEAT Yugoslav These coverages continue to provide excellent information of the daily activities of the Satellite officials assigned to Mexico. The LIFEAT support of the BEKNAVE/BECHICK operation continues as noted in reference.

(4) LIFEAT/Exile LIFEAT coverage of Juan Jose AREVALO Bermejo provides information and operational leads which, though valuable now, would be invaluable if ODYOKE's policy toward AREVALO becomes sufficiently defined to fully exploit all the information provided by LIFEAT.

(5) LIFEAT/American Communists LIFEAT continues to provide information of interest to ODENVY (who initially requested this coverage and processes this take.) Local ODENVY has noted recently that the information concerning travel of American leftists to Mexico and their contacts while here are particularly worth while.

(6) LIFEAT/Miscellaneous LIFEAT coverage was reinstituted on LIVESTOCK-2 in Station periodic check on the activities of this former agent.

B. PROCESSING OF TAKE

No change from previous report (see reference).

C. LIAISON

No change from previous report (see reference).

D. SECURITY

There have been no known adverse security incidents effecting the LIFEAT operation during the reporting period. The "coyote" incident noted in reference, paragraph 1. D. is now settled and should pose no further difficulty to this operation.

E. TECHNICAL

No change from previous report (see reference).

F. COVERAGE

During the month of September 1962, LIFEAT covered a total of 16 target lines. Coverage by target was as follows:

1. Soviet Bulletin Office
2. Svyatoslav F. KUZNETSOV
3. Aleksandr G. SIDOROV
4. BECHICK's place of employment.
5. Individual considered for cut out in BEKNAVE/BECHICK operation
6. and 7. Polish Embassy (two lines)
8., 9., and 10. Yugoslav Embassy (three lines)
11. Juan Jose AREVALO Bermejo
12. Peter WATKINS
13. LIVESTOCK-2
14. Albert MALTZ
15. Charles SMOLIKOFF (aka SMALL)
16. AMSTRUT Operation

G. PERSONNEL

LIFEUD-24 and LIFEUD-26 obtained a basehouse on 29 September which will take the place of the old Annex VI (closed when LIFEUD-5 and LIFEUD-11 were terminated due to their pending divorce). It has been decided to retain the same annex designation, i. e., Annex VI, since the area of coverage is the same as that provided by the old basehouse.

Memo outgoing

5 June 1960

MEMORANDUM FOR THE RECORD

SUBJECT: DEBRIEFING OF DAVID M. WILSTED (ps)

1. On 1 June 1960 Mr. John G. Hayn and Mr. John Kennedy of WHD, Mr. Robert Brown of CI/OPS, Mr. Robert Bryant of FI/OPS and Mr. Charles Bray of FI/D met with David M. WILSTED (ps).

2. WILSTED emphasized that the whole telephone system in Mexico City is undergoing a reformation. The company Telefonos de Mexico, S.A., has sub-contracted this work of cleaning up and reorganizing the phone system to the independent firm, Intel. They are cleaning up unused and old lines, putting in new and spare lines, redefining exchange areas, laying underground cables, etc. Eventually we should be better off because there should be more surplus lines. The renovation work has hampered much of the LIFEAT work, principally because many of the lines now are underground and we cannot get access to them before they enter the central. This is particularly true with respect to the Czech Embassy, to whose telephone lines we cannot obtain access from the vantage point we now occupy.

3. WILSTED said that we try to keep track of the activities of "Intel" but since they seem to attack "Colonias" at random, we have no prior warning of their presence in a certain area.

4. In the recent past, Mexico has been using houses for listing posts for security reasons. We have more control over the access of phone company inspectors or repairman to houses. However, under new regulations, all new apartment buildings must have telephone lines installed in the building by the phone company during the construction phase. This means that the lines and their destination are concealed. WILSTED proposed that this will mean we can again use apartments since we can siphon off a line destined for use by another tenant in such a way that the phone company cannot trace its destination without tearing the building apart and we can then install a separate line to the building and hook up the subscriber to this line which, if checked, will belong to a legitimate subscriber.

5. One system which has been used effectively is to take one-half of two separate pairs which have one faulty line each. These two half pairs then form one good pair which we can use.

6. WILSTED explained that it cost about 3000 pesos to get a regular telephone. This entails the purchase of a telephone company bond, which later can be sold.

~~SECRET~~

7. Personnel involved in the tapping of the lines are:

Rene - who has access to the centrals. He contacts the following men:
Two brothers
Jose - does exchange connections.

8. The take from each basehouse is collected early in the morning before office hours by RAFANELLI. He only enters one basehouse which is occupied by an elderly couple. All other contacts are in automobiles made at different spots each day of the week. RAFANELLI then takes the material to a meeting between him, WILSTED and SECHEN where RAFANELLI turns the material over to SECHEN and they all discuss the problems and plans for the day.

9. According to WILSTED there is no live monitoring done by any of the basehouse keepers.

10. There follows a list of the basehouses and the lines covered at each base:

a) Calero 39 - formerly covered American commies, now no lines. Being held for future use.

b) Juanacatlan 179 - Cuban residence
Russian Commercial
E. T. (Nicaraguan)

c) Atlixco 47 - 2 Polish
Seborer
Tropete
Bekier

d) Tenansingo - Cuban military office
Cuban Ambassador's office
Campos (travel agency)
1 spare

e) Aristoteles 80 - UAR
Ejercito Nacional 520 (name of person unknown)

f) Suderman & Horacio - facilities for three lines. Formerly processed the Czech lines. Now nothing but being held open.

g) Cuautla 131 - 3 Soviet Embassy (tapped in the Central)
1 Soviet propaganda office (tap in box)

SUBJECT: O LIFEAT Progress Report for August 1962

ACTION REQUIRED - REFERENCES

Ref : A) HMMA 19641
B) HMMA 19129

1. The following report is submitted in accordance with CSHB-F 52-6-1, Section V, paragraph 2 (d) (1).

A. Exploitation of Leads

(1) LIFEAT/SOVIET With the departure of Vladimir G. NOVIKOV during the month of August 1962, it was decided that LIFEAT should pick up coverage of his replacement Svyatoslav F. KUZNETSOV. The continued coverage of Aleksandr G. SIDOROV, which includes extensive periods of live-monitoring and special processing of the take, is considered essential to those Station assets involved in the attempt to place the technical surveillance noted in last month's report (see reference A). Coverage of the Soviet Bulletin Office continues to provide interesting personality data on Soviet officials assigned to Mexico.

(2) LIFEAT/POLISH LIFEAT coverage in support of the BEKNAVE/BECHICK operation continues to be vital to that operation. Additional coverage for this operation has been undertaken, leads from which will probably determine future direction of the operation as well as aid KUBARK in controlling the operation.

(3) LIFEAT/YUGOSLAV In this area LIFEAT provided the information that a cousin of a recently assigned KUBARK deep cover agent, Victor W. OBOLD (ps) will be travelling to Mexico in the near future. This cousin is a long-time Communist Party official and a chance meeting with him could have destroyed OBOLD's carefully prepared cover. Due to LIFEAT advanced warning, proper security safeguards have been arranged. LIFEAT has also provided travel information on Yugoslav officials from the United States which was of great interest to ODENVY.

CS Classification: [illegible]
JFK # [illegible]
Box: 74 Fold: 6

(4) LIFEAT/EXILE LIFEAT coverage in this area has been most rewarding in providing leads to the contacts of Juan Jose Arevalo Bermejo, former Guatemalan President. Spanish Republican Exiles were covered for approximately one-half month in August, at which time it was decided that the coverage no longer provided sufficient leads and information to justify continued LIFEAT effort.

(5) LIFEAT/American Communist Group in Mexico (ACGM) This coverage is at the request of the local office of ODENVY and the processing of take in this area is done by that office. One of the most interesting items provided from this coverage was the fact that the American Communists Albert MALTZ and Margaret Larkin MALTZ had separated and that Albert MALTZ would probably reside in the U.S. with Margaret remaining in Mexico. Concerning the LIFEAT coverage of the ACGM, the local office of ODENVY wrote on 23 August 1962: "This office feels that the coverage mentioned is quite valuable and many useful leads are obtained from this coverage, particularly with regard to travel in and out of Mexico of American Communists who are in contact with individuals on whom coverage is maintained".

B. Processing of Take

No change from that noted in reference A.

C. Liaison

No change from that noted in reference A.

D. Security

During the early part of August 1962 a group of "coyotes" was uncovered in the telephone company in Mexico City and a number of arrests were made. This group had organized a unit including linemen, centralmen, installation crew, warehousemen, and workers in the office responsible for providing service to new clients. It was the purpose of the "coyote" group to provide service, for a price, to those individuals whose requests for installations had been turned down by the telephone company due to limited availability of cables and contacts. (Note: The company generally keeps a certain number of "spare pairs" in each cable for its own use in providing special service, company phones, and for rerouting during repairs to other cables. It was these spare pairs and contacts which the "coyotes" used to provide illegal phone service.) This telephone company within the telephone company would also collect monthly fees from their "subscribers". When the story came out, the telephone company had special police stationed in each central and spot checks made of linemen and crews to prevent recurrence. It was therefore necessary for the LIFEAT linemen to refrain from any clandestine activity for a period of almost four weeks so as not to be accidentally picked up as a member of the "coyote" group. LIFEUD-1 has reported that the situation is now back to normal with the special police details and special checkups terminated. No compromise of the LIFEAT operation resulted from the above incident.

E. Technical

In addition to re-supplying LIFEAT with audio recorders (as reported in reference A), the Station has ordered ten new dial tape recorders for the project. Funds for this purpose were included in the latest Project Renewal Request (forwarded by reference B).

F. Coverage

During the month of August 1962, LIFEAT covered a total of 15 target

CONTINUATION OF DISPATCH	CLASSIFICATION	DISPATCH SYMBOL AND NO.
	~~SECRET~~/[redacted]	HMMA-19843 [redacted] 1942

lines. The coverage by target was as follows:

1. Soviet Bulletin Office
2. Svyatoslav F. KUZNETSOV
3. Aleksandr G. SIDOROV
4. BECHICK's place of employment (and place of contact with BEKNAVE)
5. and 6. Polish Embassy (two lines)
7., 8., and 9. Yugoslav Embassy (three lines)
10. Juan Jose AREVALO Bermejo
11. Peter WATKINS
12. Juan Simeon VIDARTE Franco Romero
13. Dr. Eugenio ARAUZ
14. Albert MALTZ
15. Charles SMOLIKOFF (aka SMALL)

G. Personnel

The basehouse operators for LIFEAT Annex VI, LIFEUD-5 and LIFEUD-1, after a long period of family disagreements, have mutually decided on a divorce. Both are being terminated by KUBARK since their usefulness as basehouse keepers for the project will end with their divorce. The agents have agreed to the termination and it will be accomplished on a friendly basis. (Agent Service Records will be forwarded). Therefore, it has been necessary to close Annex VI and terminate coverage of the lines provided by that basehouse. LIFEUD-24 and LIFEUD-26 have been recruited to replace the terminated couple and are presently looking for a suitable basehouse which could fully replace the old Annex VI. (Note: POA was granted for LIFEUD-24 on 28 June 1962 and OA was requested. Also, OA was requested for LIFEUD-26 on 30 August 1962.)

During the absence of Woodrow B. GABBOT (ps), the processor of the Polish language portions of the Polish Embassy take, a replacement in the person of contact agent BETUMBLE was provided by Headquarters. He performed well with no known security hazard to himself or LIFEAT. BETUMBLE departed Mexico City on 17 September 1962. Until GABBOT's return Polish portions of this take are being translated by the Station Satellite Case Officer.

2.A. During the month of August 1962, the LIFEAT operation provided a total of 45 reels of raw take from the ACGM lines to the local ODENVY office for their processing. In addition, a number of memos were prepared by the Station for passing to local ODACID and ODENVY based in whole or in part on LIFEAT provided material.

B. The following reports were based in whole or in part on positive intelligence which is provided as a by-product of the LIFEAT operation:

HMM-6605
HMM-6626

INFO

DESENSITIZED
per CSN 43-43

FROM
Chief of Station, Mexico City

SUBJECT
LIFEAT Progress Report for July 1962

ACTION REQUIRED - REFERENCES

1. The following report is submitted in accordance with CSHB-F 52-6-1, Section V, paragraph 2 (d) (1):

A. Exploitation of Leads

(1) LIFEAT/SOVIET LIFEAT coverage in this area was concentrated on known RIS officers: Vladimir G. NOVIKOV and Aleksandr G. SIDOROV. The most rewarding lead from this coverage during July was that SIDOROV would be absent with his entire family from his apartment for nearly two months, and more importantly, that no one would be continuously watching the apartment during that time. Based on this information, the Station has been able to make the necessary preparations for establishing technical surveillance of this apartment. LIFEAT coverage of the Soviet Bulletin Office, in addition to the above coverages, has provided information on the daily activities of individual Soviet officials assigned to Mexico, including collection of travel and biographical data.

(2) LIFEAT/POLISH LIFEAT coverage has been vital to the BEKNAVE/BECHICK operation. LIFEAT has even provided live-monitoring of an international call to BECHICK from a former admirer. Also in the Polish area, LIFEAT provided names of Polish Embassy contacts who were invited to Polish national holiday celebrations at the Polish Embassy, as well as information concerning the impending arrival of the new Polish Ambassador.

(3) LIFEAT/YUGOSLAV In the Station's increased operations against this target, basic biographical, personnel assignment, and personnel daily activity information is essential. LIFEAT has been providing just this type information since coverage commenced in May.

(continued)

HMMA-19641 [redacted]-1922

HEADQUARTERS FILE NUMBER
50-6-32/3

CLASSIFICATION
~~SECRET~~ [redacted]

(4) LIFEAT/EXILE LIFEAT coverage of exile and revolutionary groups has been concentrated on coverage of Central American and Spanish Republican groups and individuals. Coverage of Juan Jose AREVALO Bermejo, former President of Guatemala, has provided the Station with valuable information concerning his contacts and future plans. Further, LIFEAT covered LIGIRD-1's contact with AREVALO and later revealed AREVALO's conviction that the Station asset, LIGIRD-1, is involved in a plot to assassinate AREVALO. Coverage of Spanish Republicans displayed the internal dissensions aroused by the plans of a small group of the Mexico-based exiles to assassinate certain prominent persons with plastic bombs, and ultimately told of the departure from Mexico to Cuba of two individuals implicated in the plot.

(5) LIFEAT/American Communist Group in Mexico (ACGM) Targets covered in this category are in answer to a long standing requirement laid on by ODENVY and approved by Headquarters. In the past ODENVY has noted the coverage as valuable and worthwhile to them. As in the past reliable information was provided on the activities, travel, and contacts of the ACGM.

B. Processing of the Take

LIFEAT processors continue to process all take for the LIFEAT operation except for the three ACGM lines which are processed by the local ODENVY office.

C. Liaison

No change.

D. Security

No security incidents directly affecting the operation or future of LIFEAT were noted during July 1962. The assignment of special telephone company crews to make a survey of spare telephone lines available for use of new subscribers may cause problems when these crews uncover a "spare" line used in a LIFEAT coverage. However, since these crews have no authority (or desire) to trace down the lines to their ultimate destination, normal LIFEAT security practices should negate this danger. A second development which could cause future problems is the possible assignment of a LIENVOY technician to check telephone centrals to see exactly who else may be carrying on LIENVOY type work. As of this date LIFEAT personnel, who have been provided with the true name of this individual, have never heard of him working in any central in Mexico City. As of this moment it appears this will not develop into a threat to LIFEAT operations.

E. Technical

New recorders provided in May to LIFEAT are now in operation and appear superior to previous models used. It is planned, with the approval of Project LIFEAT for FY 1963, to completely re-equip LIFEAT with new recorders and possibly dial tape recorders.

F. Coverage

During the month of July 1962, LIFEAT covered a total of 16 target lines. Specifically, the coverage by target was as follows:

1. Soviet Bulletin Office
2. Vladimir G. NOVIKOV

3. Aleksandr G. SIDOROV
4. BECHICK
5. and 6. Polish Embassy (two lines)
7. and 8. Yugoslav Embassy (two lines)
9. Juan Jose AREVALO Bermejo
10. Peter WATKINS
11. Juan Simeon VIDARTE Franco Romero
12. Dr. Eugenio ARAUZ
13. LINEB-1 (one line covered for this double agent operation)
14. Albert MALTZ
15. Noah SEBORER
16. Charles SMOLIKOFF

G. Personnel

Clearance was received on LIFEUD-24 and he will commence work shortly to fill the gap left with the resignation of Olivia N. GLADMON (ps). (See project renewal forwarded HMMA-19129.) A deep-cover agent, OBOLD, was made available to process completely the take from the Yugoslav lines. He is working out well with no evident security danger to either himself or LIFEAT.

2. A. Since submission of the last Project LIFEAT Renewal Request and Project Review, 72 reels of LIFEAT on the American Communist Group in Mexico (ACGM) have been passed to the local office of ODENVY. In addition, a number of memos were prepared by the Station for passing to the local ODACID and ODENVY based in whole or in part on LIFEAT provided material.

B. Despite the fact that LIFEAT is used primarily to support Station operations, some positive intelligence is gathered as a by product of the operation. The following reports were forwarded to Headquarters based on LIFEAT material:

HMM-6421
HMM-6452
HMM-6479
HMM-6499
HMM-6565

3. The Station has applied the RYBAT control to this dispatch to ensure the Desk's control of the information contained herein.

1. The following report is submitted in accordance with CSHB-F 52-6-1, section V, paragraph 2 (d) (1):

a. Exploitation of Leads

(1) LIFEAT/LIERODE with related lines continued to provide valuable information for use in support of Station operations. However, coverage of the LIERODE official installation was cut on 19 May for security reasons. The following leads were provided: As a result of a LIFEAT provided lead, the Station was able to develop an operation in cooperation with the Mexican Government whereby Mario CHAVEZ, Guatemalan who is representative of the Castroite Bohemia, was placed under Mexican surveillance and ultimately arrested. LIFEAT also provided a check on the activities of LITANGO-1. Further, provision of travel information to and from Cuba by Nicaraguan and Guatemalan exiles was of continuing importance.

(2) LIFEAT was employed as a check of the activities of former KUBARK agents LIVESTOCK-2 and LIVESTOCK-3. This coverage has contributed measurably to Station security.

(3) LIFEAT/LITMUS provided vital coverage of the LITMUS official installation during the DECORN recruitment operation. Also of value were the leads pointing to two suspected LITMUS Intelligence Service agents. Other Station assets are now investigating these leads.

(4) LIFEAT coverage of the American Communist Group in Mexico City (ACGM) continues to provide excellent coverage of the activities, travel, and contacts of the American Communists living in Mexico. This information is of primary importance to ODENVY.

b. Processing of Material

LIFEAT processors continue to process the take from the LIENVOY/LIMERICK coverage.

c. Liaison

No change.

d. Security

No adverse incidents were noted during the reporting period. However, coverage of the LIERODE official installation was cut when LIENVOY technicians began regular checks of those lines.

e. Technical

No change.

f. Coverage

The number of lines covered by LIFEAT during the reporting period varied greatly due to the moving of two basehouses. However, the number covered averaged 12, with the breakdown as follows:

LIERODE, and related lines	2
LITMUS, and related lines	3
American Communists	3
Local Communists	2
Targets of Opportunity	2

g. Personnel

The assistant outside case officer, Ralph B. RAFANELLI (ps), will depart Mexico City for a new assignment within the next month. David M. WILSTED (ps) will undertake complete outside work for LIFEAT for a temporary period while a locally obtained replacement for RAFANELLI is being cleared and trained.

2a. During the reporting period information from 236 LIFEAT reels on coverage of the American Communists in Mexico was passed to the local office of ODENVY. In addition, numerous memos were prepared by the Station for passing to the local ODACID and ODENVY based on LIFEAT provided material.

REFERENCE(S)

1. The following report is submitted in accordance with CSHB-F 52-6-1, section V. paragraph 2 (d) (1):

a. Exploitation of Leads

(1) LIFEAT/LIERODE, with related lines, continued to receive emphasis from the LIFEAT operation during the reporting period. The appropriate Case Officer considers the check of penetration agents LITAMIL-3, LITAINT-7, and LITALUS-3 through LIFEAT to be of utmost value in controlling these agents and checking their activities. In addition, LIFEAT provided extremely valuable information in the defection of Jose PARDO Llada, giving leads for both FI and PP exploitation. Aid was also given in providing a check of the AMIRON AWOLS in Mexico. In a related occurance, LIFEAT provided information that indicates the Cuban Embassy in Mexico is being used as a Guatemalan Communist communication channel to exiles in Cuba. LIFEAT also provided daily information on travellers to Cuba.

(2) LIFEAT/LITMUS provided information for use in the BECORN operation. It is also of continuing importance as a daily check on the activities of the LITMUS personnel in Mexico.

(3) During the recent Latin American "Peace Conference", LIFEAT provided information on the delegates to the Conference, especially the U.S. delegates, as well as the activities of the Conference.

(4) LIFEAT coverage of Noah SEBORER provided advance information on the travel to the United States of Anna SEBORER and Maria and Enos WICHER. The actual departure and return of these American Communists was also confirmed through LIFEAT.

b. Processing of Material

There has been no change in the processing of the internally produced LIFEAT take. LIFEAT processors continue to process the take from the LIENVOY/LIMERICK coverage.

c. Liaison

No change.

1. The following report is submitted in accordance with CSHP-F 52-6-1, Section V, paragraph 2 (d)(1):

a. Exploitation of Leads

(1) LIFEAT/LI[illegible] continued to be an essential check on the activities and veracity of the penetration agents LITALUS-3, LITALUS-4, LITAINT-7, and LITAMIL-3. It also provided daily information on the activities of the Cuban official installation as well as coverage of long-distance calls received by that installation from Havana, Cuba. In relation to the A[illegible] AMOLS in Mexico, LIFEAT was able to help confirm that none of the AMOLS contacted the Cuban Embassy. LIFEAT also picked up the return from Cuba of Oscar RODRIGUEZ Moruna (person who desired employment as a Cuban G-2 agent).

(2) LIFEAT/LITMUS continued to provide the interested Case Officer with daily information on the activities of the officials of the LITMUS installation in Mexico City.

(3) LIFEAT, through coverage of Xavier GUERRERO Saucedo and his wife, Clara Porcet de GUERRERO, was able to provide information on preparation activities of the recent Latin American Peace Conference held in Mexico City. This line also provided information of GUERRERO's contacts with other Communists, particularly Francis W. and Libby Campbell PARK, Canadian Communists now residing in Mexico.

(4) Coverage of Noah and Anna SEBORER revealed the plans of Anna SEBORER to travel to the U.S., and gave precise itinerary and flight schedule for this travel. LIFEAT was also able to provide the plans and travel schedule on Enos and Maria WICHER's travel to California. This information is of interest to ODENVY and was passed locally to that office.

c. Liaison

No change.

d. Security

Contractual arrangements for a new basehouse, Annex VIII, have been all but completed. It is believed that this move will once again enable full secure use of the experienced basehouse keepers who were involved in the security question noted in paragraph 1 (a)(d) of Reference. In order to further improve LIFEAT's coverage and security, the Station is also considering a move of Annex I if a suitable new site can be located. Headquarters will be advised of any progress made in this respect.

REFERENCES:

1. The following report is submitted in accordance with CSHB-F 52-6-1, Section V, paragraph 2 (d)(1):

a. Exploitation of Leads

(1) LIFEAT/LIFRODE, with related lines, provided overall coverage of the local Cuban and exile activities, and was considered extremely valuable in support of Station operations in the Cuban area. LIFEAT coverage of the Cuban Embassy enabled the appropriate Case Officer to check the veracity and activities of the penetrations of that installation; particularly LITAMIL-3, LITALUS-3, and LITAINT-5. It was also invaluable in the debriefing of LICOOZE-1. LIFEAT material was the basis of an effective KUBARK inspired press release concerning derogatory activities of Cuban Embassy personnel.

LIFEAT leads were of special value in two "one-time" operations. The first of these was the ability of LIFEAT to provide advance information on a meeting arranged between Mario ROJAS Villa (aka James Bradford STEWART) and a Cuban Embassy official. As a result of the lead time given by LIFEAT, the Station was able to provide surveillance of the meeting and arrange for the detention of ROJAS. Ultimately, ROJAS (a fugitive from ODENVY) was returned to ODYOKE jurisdiction through Station action. In a second case LIFEAT provided follow-up information which, when provided to ODURGE, lead to the apprehension of Thomas Howard GRIGGS (aka Carl JOHNSON). He, too, had attempted to arrange a meeting with Cuban officials in Mexico, and was under warrant for abduction in Chicago, Illinois.

AN [illegible]
IAB X
IN
PS
EX
DES Nro
FI
DAP

LIFEAT information was heavily drawn upon in the case of Guillermo HERNANDEZ Vega, possible Castro agent, who was suspected of penetrating the AMIRON program. Through LIFEAT the Station was able to monitor HERNANDEZ's attempts to contact various Mexican and Cuban officials and to arrange for his return to MADD before any such contacts were made.

(2) LIFEAT/LITMUS continued to provide daily information on the official Polish installation in Mexico City which is described by the interested Case Officer as "invaluable and unique." During this reporting period, major contribution has been in providing the leads which determined that a local cafe is a front for much Polish intelligence activity in the area. It has been further indicated that this cafe is the Headquarters for a suspected Polish operation directed against the ODACID installation (previously fully reported to KUCLUB, KUBIOT, and KUTUBE/D in HMMA-15514, HMMA-15995, and HMMA-16222. The telephone of this cafe has been added to the LIFEAT coverage with resulting increase of Station knowledge of Polish Intelligence activity.

Also of major interest was the LIFEAT support of a Station audio operation against the Polish Embassy in Mexico City. In this, LIFEAT provided the information on delivery date of a KUBARK "bugged" piece of equipment ordered by the Polish Embassy. As a result of the lead time provided, the Station was able to promptly initiate base house procurement and other support for this operation.

☒ CONTINUED

50-6

As a continuing asset, LIFEAT provided daily notice of the activities and movements of Polish officials. In one case LIFEAT provided advance information concerning travel plans of one Jan KRZYWICKI, a person on the Polish Watch List.

(3) During the reporting period LIFEAT added to the security of the Station in checking on present and past agent assets. Of particular note was the coverage of the activities of LIFIRE, LIVESTOCK-1, and LIVESTOCK-2.

(4) Until terminated for security reasons (see SECURITY, below), LIFEAT coverage of the U.A.R. Embassy provided independent check of the activities of the members of that installation. Of note were the LIFEAT revealed meetings between Vicente LOMBARDO Toledano, former Mexican President Lazaro CARDENAS and the previous U.A.R. Ambassador Anouar HATEM. This coverage also provided information concerning the visit of an Algerian rebel delegation to Mexico.

(5) LIFEAT provided coverage of the local Communists, the American Communist Group in Mexico (ACGM), and lately on two important Canadian Communists living in Mexico. In its coverage of local Communists LIFEAT provided coverage of Carmen BRUFAU Civit (admitted former Soviet agent), Xavier GUERRERO Saucedo and his wife, Clara Porcet de GUERRERO, and Juan Luis CAMPOS Villalobos. LIFEAT provided leads indicated the place of employment of BRUFAU, as well as much of her daily routine, thereby allowing the Station to initiate physical surveillance of her. LIFEAT coverage of CAMPOS, of interest to the Station's Communist Party Penetration Program, revealed his insincerity in cooperating with KUBARK, and as a result efforts toward his full recruitment were terminated with minimum danger to Station assets. Recently, at Headquarters request, LIFEAT reinitiated its coverage of the GUERREROS. This coverage has already provided information of the continuing contact between the GUERREROS and Frank and Libby PARK, Canadian Communist "inmigrantes" to Mexico and members of the Labor Progressive Party (Canadian CP). The Station hopes to mount a more comprehensive coverage of the PARKS as a result of the LIFEAT lead. In the LIFEAT coverage of the ACGM, of particular interest was the advance travel plans of Albert MALTZ, Noah and Anna SEBORER (as well as the travels of their sons Carl and Robert SEBORER), Maria and Enos WICHER, and Grace and Sam NOVICK. Daily activities of the ACGM are provided through LIFEAT to the local office of ODENVY.

(6) The LIFEAT complex provided the security check of the private office telephones of the Chief of Station and Deputy Chief of Station, as well as checks of the home telephones of certain of the Station officers (as reported in HMMA-16465). Since this service is unique and of value to Station security, it will be utilized periodically to guard against hostile audio surveillance.

b. Processing of Material

There has been no change in the processing of the internally produced LIFEAT take. LIFEAT processors continue to process the take from the LIENVOY/LIMERICK coverage.

c. Liaison

In November 1960, the local office of ODENVY requested that coverage of Albert MALTZ be re-initiated. This was done for a short period. However, due to the start of telephone company cable work in the area of basehouse Annex IV, coverage had to be terminated. Technical surveillance will be resumed when cable work has been completed.

d. Security

Operations at basehouse Annex VIII had to be discontinued on 10 October 1960 when the telephone company's installation crews moved into the area of that basehouse and actually approached the annex to investigate the number of lines entering the house. The crew was put off until the next day with the standard, and normal for Mexico City, excuse that the "Senor" was not at home and they could not enter without his permission. By the time the crew returned on the following day, the basehouse had been completely cleared of all equipment, the lines cut back to the roof-line and their ends treated with acid to give them an aged appearance. The crew was allowed to enter the basehouse to check (and ultimately remove) the extra lines, with the admonition that it was about time they cleaned up that mess on the "Senor's" roof. Operations will be resumed when a suitable new basehouse site has been located and equipment installed. There have been no security repercussions since the removal of the extra lines by the telephone company.

The only other security note was in relation to Annex IV and was covered in LIAISON section above.

f. Coverage

The number of lines covered by LIFEAT during the reporting period has ranged from 9 to 15, but has averaged 12. The normal breakdown of the LIFEAT coverage is as follows:

LIERODE and related lines............3
LITMUS and related lines............3
American Communists.................1
Local Communists....................2
Targets of Opportunity..............3

It is hoped that once the telephone company has completed its present city-wide cable and installation work, at least in the areas of the basehouses, LIFEAT will be able to increase its coverage to 15 or 18 lines. The targets for this 3 to 6 line increase are already noted by the Station.

g. Personnel

No change since last report. Headquarters is reminded that the second tour of Ralph B. RAFANELLI (ps) will end in June 1961. It is requested that a qualified replacement be provided from Headquarters.

2. a. During the reporting period, information from one hundred thirty LIFEAT reels on coverage of American Communists in Mexico was passed to the local office of ODENVY for its information.

1. The following report is submitted in accordance with CSHB-F 52-6-1, section V, paragraph 2 (d) (1):

a. Exploitation of Leads

1) LIFEAT/LIERODE provided information which assisted in the press exploitation of the story of Gladys Izquierdo Martinez de DELGADO, wife of the recently deported (with the help of LIFEAT provided material) Cuban agent Francisco DELGADO Garcia. LIERODE coverage was also the origin of the lead which gave access to Cuban agent Elpi CASANOVA.

2) LIFEAT coverage was reactivated 18 July on LIVESTOCK-2 as a Station security operation to check the activities of the potentially dangerous former agent.

3) LIFEAT also continued to provide the only independent means of checking the veracity of Jose Luis CAMPOS Villalobos who is of interest to the Station's Communist Party Penetration Program.

4) LIFEAT coverage of the American Communist Noah SEBORER provided the itinerary of SEBORER's trip, which commenced 17 August, to Havana, New York, Moscow, and Tel Aviv.

b. Processing of Material

The LIFEAT complex continues to process the take from the LIENVOY Soviet coverage.

1. The following report is submitted in accordance with CSHB-F 52-6-1, Section V, Paragraph 2 (d) (1):

a. Exploitation of Leads

LIFEAT/LIMERICK continued to provide advance information on arrivals, departures, work assignments, and contacts of the Soviet officials in Mexico City. In this area LIFEAT provided the following: advance travel information on the return of First Secretaries Yevgeniy BOCHKOV and Yuriy ALEKSANDROV from consultations in the USSR, advance information on the arrival in Mexico of the Georgian Ballet on 1 June and its subsequent departure for Cuba on 20 June accompanied by Assistant Cultural Officer Aleksandr BROVKIN, and advance information on the assignment and arrival of new Consular Officer Serafim V. DUNIN. LIFEAT leads provided on the continuing attempts of the Soviets to rent apartments are being checked by the Station surveillance team.

LIFEAT/LIERODE continued to provide excellent coverage of the activities of the Cuban Embassy staff, particularly providing exploitable coverage of Cuban intelligence activities. Of major importance during the month of June was the acquisition of leads on the activities of Cuban "tourist" Francisco DELGADO Garcia. As a result of these leads, passed to the Mexican government in disguised form, DELGADO was arrested on the night of 7 July and thereafter deported. LIFEAT information also enabled the responsible Case Officer to alert agent LIMASK to threats made by DELGADO to have LIMASK arrested. The LIERODE related coverage of the telephone of Santiago GARCES Arroyo has enabled the Station to maintain a check on the activities of AMSHAD-1, including his possible role as middle-man in a "frozen pesos for sugar" deal reported in MEXI-5794.

LIFEAT/LITMUS provided information on the activities of the Polish Legation during June, particularly noting the travel plans of Polish Intelligence Officer Thadeusz ZIOLKOWSKI.

LIFEAT coverage of a member of the Mexican Communist Party (PCM) is used in checking the veracity of Juan Luis CAMPOS Villalobos who is of interest to the Station's Communist Party Penetration Program.

LIFEAT also agreed to support Project LIENVOY in the processing of the Soviet take when LIENVOY picked up coverage of the Soviet lines LIFEAT was forced to relinquish on 22 June 1960 (See SECURITY below). LIFEAT, though short of processors, agreed to the processing when it was learned that LIENVOY would be unable to process the added coverage it had undertaken.

Remove from Project: [illegible]
CS Classification: [illegible]
JOB # [illegible]
Box: ____ Fold: 6

b. Processing of Material

Due to the desire of COS that ZINSMEISTER continue to process the take it obtains from the Soviet lines, LIFEAT processor Carol ZINSMEISTER (ps) will undertake the processing of the take of these lines

FORM 53
USE PREVIOUS EDITION. REPLACES FORMS 51-28, 51-28A AND 51-29 WHICH ARE OBSOLETE.

CLASSIFICATION: ~~SECRET~~[redacted]

X CONTINUED

50-6-

which LIENVOY now provides. This is exactly the work previously done by ZINSMEISTER and the only difference is that tapes are made at a different location. However, this does require close coordination within the Station of these two operations.

A problem which has arisen with the withdrawal of the Soviet coverage from LIFEAT responsibility (see SECURITY below) and the "outage" experienced earlier in June on two of the most productive Soviet lines, is the extreme drop in the production of positive intelligence from LIFEAT coverage. It is hoped that with more intensive exploitation of the coverage still available, plus exploitation of new lines being installed by LIFEAT, that the production of positive intelligence will again measure up to that previously provided by LIFEAT.

c. Liaison

No change other than the closer inter-office liaison with Project LIENVOY due to the above noted LIFEAT processing of LIENVOY take and the increased reel and finished product exchange this entails.

d. Security

On 21 June 1960 LITENSOR suggested to COS that LIENVOY begin operations against the Soviet and Satellite targets in Mexico City. In order not to indicate that the unilateral LIFEAT operation was providing this coverage, it was necessary for COS to agree to this suggestion. So as not to jeapordize LIFEAT operations and personnel, LIFEAT coverage was suspended on the Soviet Embassy and Polish Legation, and the applicable "crosses" were pulled and cleaned. This was accomplished by 1030 on 22 June 1960. Coverage continued on the home of Aleksandr BEKIER, Polish Conselor of Legation, since no security problem seemed to be raised by continued coverage of this line.

e. Technical

The arrival in early June of a portion of the replacement parts requested for LIFEAT use has enabled LIFEAT personnel to perform much needed repair and maintenance work on the aging LIFEAT equipment.

f. Coverage

LIMERICK	5 lines (All pulled 22 June for security reasons)
LITMUS	3 lines (2 pulled 22 June for security reasons)
LIERODE and related lines	5 lines
American Communists	1 line
U.A.R. Embassy	1 line (Initiated 7 June)
Target of Opportunity	1 line

g. Personnel

No change.

2. a. During the month of June 1960, eleven (11) processed reels from LIFEAT coverage of American Communists in Mexico were passed to the local office of ODENVY as well as seventeen (17) reels from ODENVY's processing. Reels from the LIENVOY coverage of American Communist Sam BROOKS continued to be passed to ODENVY as LIFEAT material during the month of June 1960.

~~SECRET/RYBAT~~

HMMA-15400
RYBAT-1625

TO : Chief, WH Division

50-6-75

FROM : Chief of Station, Mexico City

27 July 1960

SUBJECT - Monthly Activities Report on LIENVOY

☐ MARKED FOR INDEXING
☒ NO INDEXING REQUIRED
☐ INDEXING CAN BE JUDGED BY QUALIFIED HQ DESK ONLY

ACTION REQUIRED - None. For your information.

REFERENCE(S)

REF: HMMA-15170, RYBAT-1402

On the evening of 18 June COS met with LITENSOR at the home of LIELEGANT (see MEXI-5761). Among other subjects discussed, LITENSOR urgently suggested that COS arrange coverage of the Soviet/Satellite installations. Since this coverage is obviously one of great interest to KUBARK, COS was left with no alternative but to enthusiastically accept LITENSOR's suggestion. LIELEGANT was equally enthusiastic about the suggestion and requested COS to furnish a list of target lines as soon as possible. On 21 June Malcolm Q. EDELAND passed to LIENVOY/2 a list of 4 Soviet, 2 Polish, 2 Czech and 2 Yugoslav lines. The Polish, the Czech, Yugoslav and 1 Soviet line were placed within two days. Meanwhile all LIFEAT Soviet/Satellite lines were removed. After due consideration it was decided to advise LIENVOY/2 that we would prefer to drop the 2 Polish lines and at least one Yugoslav line and use all remaining available lines (LIENVOY can handle a maximum of 30 lines, always keeping two spares) to cover a total of five Soviet lines and keeping the two Czech lines already in operation. This was agreed to but the four additional Soviet lines could not be placed immediately due to the temporary absence from the city of LIENVOY/3 whose aid was needed to fulfill this assignment.

The eventuality of a request from high Mexican officials for LIENVOY coverage of Soviet/Satellite with its attendant affect upon LIFEAT had been foreseen by the Station for sometime. On at least two previous occasions when a hint was made to COS by lesser officials than LITENSOR, COS was able to dissuade these officials on the basis of lack of qualified personnel for processing, transcribing, and exploiting the take that would come from taps against Soviet/Satellite installations. However, on the above occasion when LITENSOR even went so far as to suggest that the translations could be handled by language experts at Headquarters COS was in no position to argue this point with LITENSOR. The actual implementation of the change over of Soviet/Satellite coverage from LIFEAT to LIENVOY (LIFEAT went back on Polish Legation in late June) was accomplished smoothly, with no flaps and the Station does not envision any problems, certainly, in the immediate future.

The processing and transcribing is being handled in exactly the same fashion as before i.e., LIENVOY is doing the taps only, LIFEAT personnel are processing the tapes from LIENVOY. As far as the Mexicans are concerned, the tapes are being forwarded to Headquarters for processing with the transcriptions being sent back to the Station for our information. The Station has promised LIENVOY/2 and LIELEGANT a monthly summary of any interesting highlights that appear in these transcriptions.

FORM 53

~~SECRET/RYBAT~~

☒

Between the dates 9 to 14 June during the visit of DORTICOS, LIENVOY covered 10 of the 20 lines of the Del Prado Hotel where the DORTICOS party was staying. This coverage was for 24 hours daily and the LIENVOY personnel monitored all calls coming to and going from the DORTICOS suite (see MEXI-5731). This service was requested by the Station the day before DORTICOS arrival in Mexico City and was readily agreed to and immediately put into affect thru the efforts of LIENVOY/2. Considerable information of interest and value was obtained from this operation as well as quantities of operational data.

Also, during the month of June LIENVOY/9 was dispatched to Cuba on a special assignment per HMMW-5765. LIENVOY/9 successfully accomplished his mission, returning on 6 July. The results from this mission will be forwarded to Headquarters in a separate dispatch.

1. There follows the third monthly activities report on LIENVOY covering the month of June 1960:

A. Exploitation of Material Obtained

During the month of June a total of 29 lines were in operation against the following targets:

1. Gral. Lazaro Cardenas del Rio
2. Sam Brooks
3. Gral. Lazaro Cardenas Del Rio
4. Lic. Alonso Aguilar Monteverde
5. CTAL
6. Ing. Jorge L. Tamayo
7. Russian Embassy
8. Leopoldo Arenal Bastar
9. David Alfaro Siqueiros
10. Problemas Agricolas y Industriales
11. Vicente Lombardo Toledano
12. Czech Embassy
13. Joaquin Basanta Lopez
14. Ing. Jorge L. Tamayo
15. D. F. S.
16. D. F. S.
17. Jorge L. Tamayo
18. Francisco Galindo Ochoa
19. Francisco Galindo Ochoa
20. Amalia Solorzano de Cardenas
21. Dr. Lauro Ortega
22. Manuel Sousa Hermida
23. Lic. Enrique Gonzalez Pedrero
24. Czech Embassy
25. Prensa Latina
26. Embajada Cubana
27. Czech Embassy
28. Yugoslav Embassy
29. Armando Lopez Betancourt

Plus 10 lines - Hotel Del Prado - DORTICOS suite 9-14 June (see MEXI-5731)

B. Processing of Material

With the closing of Unit C (see HMMA-15200) the two processors retained under the project, LIENVOY/6 and LIENVOY/7 were transferred to the Intercept Center where they are now responsible for doing the full transcription of the tapes covering lines of interest to KUBARK.

C. Liaison

During the month of June COS was in contact with LIELEGANT on the average of four times each week. As stated in paragraph one above, COS met with LITENSOR on 18 June.

D. Security

It is believed that the security of the project has been improved with the closing of Unit C and the elimination of all Unit C personnel with the exception of LIENVOY/6 and 7 who were transferred to the Intercept Site. During the absence of Arnold F. AREHART, Malcolm Q. EDELAND was in direct contact with LIENVOY/2 and took advantage of this contact to repeatedly stress the necessity for tight security of this operation as well as personal security of the various LIENVOYs. For operational efficiency, contact once a week will be maintained between LIENVOY/2 and EDELAND.

E. Technical

Early in June AREHART returned to Headquarters to convert to Staff Agent and pick up his family to return Pcs Mexico City. He and his family arrived 24 June. AREHART reported on his return that some of the equipment was in need of attention but that there were no technical problems during his absence.

F. Personnel

With the elimination of Unit C the following personnel were terminated during the month of June:

LITABLE/2
LITABLE/3
LITABLE/4
LIENVOY/13

G. Production

The following fifty-seven (57) reports, cables and information dispatches were based wholly or in part on LIENVOY during the month of June 1960.

Attachment to: HMMA-15325

Subject: Douglas J. NISLEY's (p) Report for June 1960

13 July 1960

1. During June the LIENVOY project put taps on the telephones of the Czech and Yugoslav Embassies. Anticipating a possible LIENVOY tap on the Polish Legation, the LIFEAT project removed its tap on this installation lest it be discovered by LIENVOY. The Station now receives Czech and Yugoslav reels every day from LIENVOY. The LIFEAT tap on Aleksander BEKIER's line continues, a tap on Stanislaw ADAMOWICZ has just begun to produce, and a tap on the Polish Commercial Office is under consideration. Eventually, when the Station is confident that the LIENVOY project will not tap the Polish Legation lines, the LIFEAT project will be able to reinstitute its coverage of this target.

2. A daily flow of photographs is coming from Richard Z. SPATHAR (p) in the LIHABIT/2 installations. The Station now has possession of the LITABBY/2 basehouse, but for various reasons it will not be useable for a while, and consideration is being given again to using LITABBY/1 as a base for photographic surveillance of the Polish Legation. No photographic site is available, or under consideration, for the Yugoslav Embassy.

3. As of 30 June, then, the situation is as follows:

a. Czech Embassy: Daily photographic and telephone coverage, augmented by a considerable quantity of information from LIPIRE air passenger manifests, visa requests submitted to the U.S. Embassy, and LIMAT mail intercepts.

b. Polish Legation: No photographic coverage. Telephone coverage limited to the taps on the BEKIER and ADAMOWICZ lines. Relatively slight information from visa requests, since there are fewer Poles than Czechs in Mexico City, and also because the Poles are apparently unable to take home leave. Little information from LIPIRE air passenger manifests, for the same reasons. Rather more information from LIMAT.

c. Yugoslav Embassy: Telephone but no photographic coverage. Very little information from visa requests or from LIPIRE. LIMAT is a good source of information, but mostly on commercial topics.

d. Other EE Targets: No information worth mentioning, because of the lack of any other diplomatic installations. LIPIRE submits occasional reports on the arrival and departure of individual EE satellite personalities.

Secret

4. Processing the source material listed above absorbs a large part of NISLEY's time. LIBRIFORM handles the translation of the Czech material, and BESMOOTH of the Polish material. There is no translator for the Yugoslav mail and telephone intercepts. NISLEY listens to the Spanish conversations on the Yugoslav reels, and attempts an occasional translation of the more interesting bits of Serbo-Croat correspondence with the aid of the dictionary kindly supplied by Headquarters. NISLEY meets BESMOOTH every day to pick up the Polish translations. LIBRIFORM and SPATHAR are still being met daily by Harvey P. DENENHOLZ (P); after his PCS departure in July this will become NISLEY's responsibility, as will the handling of LIMITATIONs 4 and 5, LIFEBLOOD, LINILE and LIBALSA.

5. Beside the daily scanning of source material, one of the month's more important activities was the updating of the table of organization of the Czech Embassy. This has now been completed. Photographs of departed Czech personnel were forwarded to Headquarters in HMMA-15081, 15106, and 15120. Of the sixty Czechs (including wives, but not children) known to be stationed in Mexico City, photographs are lacking for twenty. SPATHAR has photographed about the same number of unidentified people repeatedly entering the Czech Embassy; copies of these photos are being given to the LIEMBRACE surveillance team, and it is expected that one by one these people will be followed home and identified.

6. The Polish table of organization had already been determined, with the possible exception of one newcomer to the Polish Commercial Office who has not yet been completely identified, and there were no changes during the month. It is believed that most of the Yugoslavs have been identified.

7. The process of accumulating information on Czech personnel has not yet gone far enough for the Station to pick one or two likely targets for concentrated attention. A newcomer, positively identified as a Czech Intelligence officer, arrived on 30 June and will naturally receive all possible coverage. The Station received a proposal from Headquarters for special attention to be paid to Jaroslav VALENTA, the Commercial Attache; unfortunately, VALENTA had just departed on home leave, so action is being deferred until his return in August.

8. Among the Poles, concentrated attention is being paid to Aleksander BEKIER and Stanislaw ADAMOWICZ by means of telephone taps. The newly arrived Polish Intelligence officer will, if technically possible, receive the same coverage as soon as his permanent address is determined, although this will probably mean dropping the BEKIER line. Physical surveillance was run on Tadeusz ZIOLKOWSKI and Henryk POTASZ during the month, the former being

an identified and the latter a suspected intelligence officer; in both cases the surveillance was dropped after the subject showed signs of becoming tail conscious. The ZIOLKOWSKI surveillance lasted several days and revealed a number of possible IS contacts which are now being followed up. The POTASZ surveillance was blown practically immediately.

9. File studies have now been completed and Target Personality Data Forms executed on all Poles except the custodial personnel, Henryk POTASZ (whose form is in the process of completion), and the three newcomers about whom little is yet known. As a result of this activity, Roman CZYZYCKI and Mieczyslaw WLODAREK have tentatively been selected as worthy of closer concentration, the former on a long-term basis and the latter on a short-term basis. CZYZYCKI is interesting because he is ambitious and apparently not intellectually committed to the regime, he is the close assistant of Aleksander BEKIER and hence has access to information of value, his entire family is with him, and he is young enough to be able to make a new life for himself if flight should become necessary. Attempts are now being made to develop a contact to him through one of his many acquaintances in the Mexican press.

10. WLODAREK is interesting mainly because he is Minister, and because he seems to be dissatisfied with his prospects. HMMA-15177 of 17 June transmitted information about a possible avenue of approach to him. Information received more recently disclosed that the doctor, who had been tentatively spotted as a means of access to Mrs. WLODAREK, is indeed anti-Communist but is also on unfriendly terms with Mrs. WLODAREK. ODACID personnel, who had been asked to cultivate WLODAREK at diplomatic functions, have reported that WLODAREK has not attended any at which they have been present. No likelihood is now foreseen of any means of contact to WLODAREK, and indications are that his recall may take place some time this summer.

11. An attempt early in June to recruit a source close to Tadeusz ZIOLKOWSKI failed when it was discovered that the individual did not have the access she had been believed to have. Details were sent to Headquarters in HMMA-15116 of 8 June.

12. Information on a possible source of operational intelligence on Czech personnel was obtained from LIKAYAK/2 and forwarded to Headquarters in HMMA-15082 of 3 June and HMMA-15199 of 22 June. The mail intercept on the Czech accommodation address has begun to function, but so far has produced nothing of value.

13. MEXI-5633 of 6 June and HMMA-15195 of 17 June transmitted information from and about BEFUNNY obtained from LIFEBLOOD.

1. The following report is submitted in accordance with CSHB-F 52-6-1, section V, paragraph 2 (d) (1):

a. Exploitation of Leads

During the month of May 1960, Project LIFEAT continued to provide excellent coverage of the activities of the official Soviet and Cuban installations in Mexico City, the Station's top priority targets. The following are specific, though necessarily selective, contributions made by LIFEAT through provision of exploitable leads and support to Mexico City Station.

1) The most outstanding single contribution of the LIMERICK phase of Project LIFEAT during the period of this monthly review was the providing of information to the responsible Case Officer which confirmed the validity of agent LITARDY-1. This double agent turned himself into ODENVY, and thus to KUBARK, during the latter part of the review period. LIFEAT/ LIMERICK provided data on the activities and Soviet contacts of LITARDY-1, thus enabling the case officer to adequately plan productive use of this new asset.

2) LIMERICK continued to provide Project LIMESA with support in the form of information on goods and services provided to the Soviets from the local economy. Of special interest was information on specific apartments which the Soviets were considering renting. LIMERICK also continued to provide valuable information on Soviet commercial activities which has been reported separately.

3) Also provided was information of a CE nature concerning specific assignments of personnel within the Soviet Embassy, advance travel plans of Soviet officials, and arrivals, departures, and addresses of Embassy staff members. The following are examples of this category of information:

a) Vitaliy Borisovich SHUBIN arrived 11 May 1960 and is probably the Intelligence Officer replacement for Yevgeniy LAPSHEV. The address of SHUBIN was also provided by LIFEAT.

b) Aleksandr BROVKIN was assigned duties as Assistant Cultural Officer to replace Vladimir NOVIKOV during the latter's home leave.

c) Valentin BAKULIN was appointed Soviet Film Officer in charge of distribution of Soviet films, including propaganda films.

d) Advance notice was given of the 20 May arrival of the Soviet delegation to the International Cotton Conference held in Mexico City, and noted that the delegation would be composed of Dmitriy MAITOV, Boris FIRSOV, Abdulla SULTANKHODZKAYEV, and Vladilyena TERESHCHINA.

Remove from Project [illegible]
CS Classification: 50-6-32/3
JOB # 73-177/71 [redacted]
Box: 26 Fold: 6

3) Advance information was provided on the following travel: Soviet Ambassador BAZYKIN to leave 21 June 1960 for home leave in the USSR; planned departure of Vladimir NOVIKOV, Cultural Officer, for home leave in the USSR and return to Mexico; departure for home leave 31 May 1960 of known RIS officer Colonel Dmitriy KUZNETSOV; that thirteen Soviet officials are returning to the USSR during the months of July and August 1960 with no indication that these are to be replaced (Five of these are known RIS officers; Yuriy CHELPANOV, Pavel KOVALEV, Yevgeniy LAPSHEV, Vladimir MAKOVKIN, and Grigori YEFREMOV).

4) Due to advance information provided through LIFEAT/LITMUS, the Station was able to cover a clandestine meeting of Alexandr BEKIER, Polish Counselor of Legation in Mexico, and provide identification of BEKIER's contact. Through coordination with MKCHARITY and the Station's KURIOT representative, both audio and photo surveillance of the meeting were arranged.

5) LIFEAT/LIERODE significantly supported the Station's efforts in the Cuban operations field by providing leads that lead to and assisted in the recruitment of agent LITALUS-3, a penetration of the Cuban Embassy who is to be handled by LITALUS-1. LIERODE is also utilized as a continuing check on the activities of the newly recruited agent.

6) The Station's CE priority has been supported through coverage of the phone used by PCM members Juan Luis CAMPOS Villalobos and Mario PEREZ Marin. This coverage has provided information of value concerning addresses, phone numbers, and contacts of other PCM members. It has also been employed as a cross-check of statements made by CAMPOS to Howard O. MOSCHIANO.

7) LIFEAT provided information on travel planned and accomplished by associates of the American Communist Group in Mexico (ACGM) particularly that of Maria WICHER to Moscow, the return of Albert MALTZ to Mexico, and the planned travel of Noah SEBORER to Moscow in August.

b. Processing of Material

During the month of May 1960, the quantity of raw information processed was noticeably reduced, and thus the amount of positive intelligence derived was also reduced, due to the "outage" on certain of the most productive LIFEAT lines. Principally involved were the Soviet lines, including one week break on an Embassy line, three weeks on the Soviet Motion Picture Office line, and one week on the Soviet Commercial Office line. These "outages" were primarily due to the telephone company pulling the LIFEAT crosses, or the target telephone being out of order.

c. Liaison

As in the past, the only liaison connected with Project LIFEAT is in passing reels from coverage of the American Communists in Mexico to ODENVY for their processing. No other liaison is considered necessary or desireable.

d. Security

No security problems arose that were not readily solved by the personnel concerned, nor did these jeopardize the operation.

e. Technical

The only technical problems encountered were those falling within the province of the telephone company, as noted in 1. b above, or the normal malfunctions encountered in the aging LIFEAT equipment. These last were repaired as rapidly as possible with the aid of the replacement parts recently forwarded by Headquarters. No major "outages" were due to LIFEAT originated technical problems.

f. Coverage

LIMERICK	5 lines (outages as noted in 1. b above)
LITMUS	3 lines
LIERODE and related lines	5 lines
American Communists	1 line
Targets of Opportunity	2 lines

g. Personnel

David M. WILSTED (ps) departed Mexico City on 21 May 1960 for home leave and Headquarters consultation of approximately two months duration. His duties as outside Case Officer and principal technician have been undertaken by Ralph B. RAFANELLI (ps) and LIFEUD-8.

2. a. During the month of May 1960, information from twenty-three LIFEAT reels on coverage of American Communists in Mexico were passed to the local ODENVY office for its information. During the period 10 May through 16 June LIFEAT processed this take as the ODENVY processor was on home leave. Twenty-six reels of LIENVOY coverage of Sam Brooks were also passed to the local ODENVY office under the guise of LIFEAT material.

b. The following reports, cables, information dispatches, and memoranda were based wholly or in part on LIFEAT material during May 1960:

8 June 1960

MEMORANDUM FOR: C/WH/3/Mexico

SUBJECT: LIFEAT

1. During my recent visit to Mexico I had a good chance to go over many of the ins-and-outs of this project with the Case Officer and with other officers in the Station. At Station staff meeting I stated that reporting on CI material derived from the project was inadequate and COS appeared to go along with this view. The concensus I got from the Case Officers was that the SR Case Officer is not sufficiently alert to the need for reporting on the CI aspects of the matter and is limiting himself to strictly servicing SR Division matters. Various Case Officers cited instances to me of conversations pointing to new clandestine relationships or containing previously known clandestine relationships in the Soviet field which have not been reported. Owing to a lack of time, I was unable to examine the records myself, but I am inclined to accept those statements as true.

2. The Case Officer gave me a general run-down of the situation of the agents on this project and it appears that everything is running very well. He told me that in his new project outline, which will be up in a week or two, he is including some raises to some of the agents. He told me that on his last round of pay raises he had some difficulty here at headquarters. If any difficulty seems forthcoming this time, I should like to have the matter brought to my attention because, as you know, I feel very strongly on this matter and fought the same battles with headquarters for at least five years.

3. In speaking with the Case Officers on the Cuban side, as well as on the CI, it was apparent that LIFEAT remains probably the biggest single source of information available to the Mexico City Station and that every effort should be made to continue its smooth functioning. If this means a couple of hundred pesos increase to each agent semi-annually or annually, it does not seem to be too much of a strain and I do not see why we should have any trouble. When I compare the salaries of the base operators and processers on this project, especially considering the illegal position they are in, with those of relatively unproductive agents elsewhere in Mexico and in many other Stations, I cannot help but feel that we are buying a great deal for our money in this project.

CHARLES W. ANDERSON
WH/FI

~~SECRET~~

6 June 1960

MEMORANDUM FOR THE RECORD

SUBJECT: DEBRIEFING OF DAVID M. WILSTED (ps)

1. On 1 June 1960 Mr. John G. Heyn and Mr. John Kennedy of WHD, Mr. Robert Brown of CI/OPS, Mr. Robert Bryant of FI/OPS and Mr. Charles Bray of FI/D met with David M. WILSTED (ps).

2. WILSTED emphasized that the whole telephone system in Mexico City is undergoing a reformation. The company Telefonos de Mexico, S.A., has sub-contracted this work of cleaning up and reorganizing the phone system to the independent firm, Intel. They are cleaning up unused and old lines, putting in new and spare lines, redefining exchange areas, laying underground cables, etc. Eventually we should be better off because there should be more surplus lines. The renovation work has hampered much of the LIFEAT work, principally because many of the lines now are underground and we cannot get access to them before they enter the central. This is particularly true with respect to the Czech Embassy, to whose telephone lines we cannot obtain access from the vantage point we now occupy.

3. WILSTED said that we try to keep track of the activities of "Intel" but since they seem to attack "Colonias" at random, we have no prior warning of their presence in a certain area.

4. In the recent past, Mexico has been using houses for listing posts for security reasons. We have more control over the access of phone company inspectors or repairman to houses. However, under new regulations, all new apartment buildings must have telephone lines installed in the building by the phone company during the construction phase. This means that the lines and their destination are concealed. WILSTED proposed that this will mean we can again use apartments since we can siphon off a line destined for use by another tenant in such a way that the phone company cannot trace its destination without tearing the building apart and we can then install a separate line to the building and hook up the subscriber to this line which, if checked, will belong to a legitimate subscriber.

5. One system which has been used effectively is to take one-half of two separate pairs which have one faulty line each. These two half pairs then form one good pair which we can use.

6. WILSTED explained that it cost about 3000 pesos to get a regular telephone. This entails the purchase of a telephone company bond, which later can be sold.

~~SECRET~~

7. Personnel involved in the tapping of the lines are:

Rene - who has access to the centrals. He contacts the following men:
Two brothers
Jose - does exchange connections.

8. The take from each basehouse is collected early in the morning before office hours by RAFANELLI. He only enters one basehouse which is occupied by an elderly couple. All other contacts are in automobiles made at different spots each day of the week. RAFANELLI then takes the material to a meeting between him, WILSTED and SECHEN where RAFANELLI turns the material over to SECHEN and they all discuss the problems and plans for the day.

9. According to WILSTED there is no live monitoring done by any of the basehouse keepers.

10. There follows a list of the basehouses and the lines covered at each base:

a) Calero 39 - formerly covered American commies, now no lines. Being held for future use.

b) Juanacatlan 179 - Cuban residence
Russian Commercial
E. T. (Nicaraguan)

c) Atlixco 47 - 2 Polish
Seborer
Tropete
Bekier

d) Tenanzingo - Cuban military office
Cuban Ambassador's office
Campos (travel agency)
1 spare

e) Aristoteles 30 -UAR
Ejercito Nacional 540 (name of person unknown)

f) Suderman & Horacio - facilities for three lines. Formerly processed the Czech lines. Now nothing but being held open.

g) Cuautla 131 - 3 Soviet Embassy (tapped in the Central)
1 Soviet propaganda office (tap in box)

REFERENCE(S)

1. The following report is submitted in accordance with CSHB-F 52-6-1, section V, paragraph 2 (d) (1):

a. Exploitation of Leads

1) The LIMERICK phase of the LIFEAT operation is able continuously to provide the interested case officers with background personality information on the members of the Soviet Embassy staff, as well as travel information on Soviet officials and diplomatic couriers. During the month of April 1960, this type of information was exploited for the following:

a) Viktor Nikolayevich GLOTOV, First Secretary, will be the replacement for Vladimir Georgiyevich NOVIKOV as Cultural Officer when the latter leaves for the USSR on 29 May 1960. He will also act as the Soviet Ambassador's executive secretary during the home leave of Vladimir Ivanovich CHERNYSHEV. CHERNYSHEV departed for leave on 17 April.

b) Nikolai ZHOUGANOV was the replacement for Anatoliy Konstantinovich YEMELYANOV, Commercial Office employee who works "upstairs" in the Chancellery rather than in the Commercial Office. This indicated that ZHOUGANOV may be a code clerk.

AN
AB
~~IN~~
~~PS~~
~~BX~~
DES
~~PI~~

c) Confirmation that four aliens are employed in the Chancery as teachers, one of whom teaches English.

d) Indications of increased contact between the Soviet and Cuban officials as noted in the travel of Soviet officers to Havana and conversations between the Cuban Embassy and the Soviet Ambassador indicating an announcement of importance was to be made on 8 May, possibly concerning the establishment of diplomatic relations between Cuba and the USSR.

e) Through the review of past LIFEAT traffic and the direct statements of the Soviet Embassy personnel in discussions of "duty rosters", it has been determined that a reduction in the Embassy staff is in progress. Future LIFEAT information should disclose whether this reduction is of a permanent or temporary nature.

f) Advance travel notice on Soviets such as CHERNYSHEV, NOVIKOV, Semeon FEDOROV, and couriers Vladimir BYKOV and Valentin KUZNETSOV.

LIFEAT/LIMERICK also revealed a serious rift which has developed between the Soviet Commercial Office and one of its primary commercial contacts, Mony DESWAAN, over the latter's failure to pay the Soviets for two shipments of Russian farm tractors for which DESWAAN has received payment from the Mexican Government, the ultimate purchaser. LIFEAT indicates DESWAAN has made himself unavailable to the Soviets since two of his checks have "bounced" for lacks of funds. LIFEAT further noted that the Soviets are concerned over reports that DESWAAN is planning an early summer trip to Europe with his entire family.

LIMERICK provided valuable support to the Station's AEIMPULSE operation by furnishing detailed information on the DeSwaan and Esteve Brothers commercial dealings with the Soviets. It was also employed as a security device after the conclusion of the above operation.

Leads were provided on two properties of interest to the Soviets, Calle Mazatlan #208 and Calle Chilpancingo #13, which were a valuable contribution to the LIMESA Project.

II) LIFEAT/LITMUS was the source of information on the arrival in and departure from Mexico City of Polish officials Jozef WINEWICZ, former Polish Ambassador to Washington, and Boleslaw JELEN.

III) LIFEAT/LIERODE continued to provide excellent operational leads concerning Cuban and exile operations. Of particular note was the ability of Station Mexico to warn an ODACID officer of a possible "walk-in" provocation attempt by an agent of the Cuban Embassy. LIERODE also provided information on four American citizens who entered Mexico on their way to Honduras to join an anti-Somoza revolutionary attempt.

b. Processing of Material

Although the LIFEAT project must be considered primarily a Station support project, an effort to further exploit LIFEAT for positive intelligence has been made by assigning the assistant case officer the task of coordinating the efforts of the appropriate area case officers and the Station reports officer in matters concerning LIFEAT produced information. Although this system has been tested only during the month of April, it is hoped that it will prove of value in increasing the positive intelligence take from LIFEAT provided material.

No change was made in the manner of processing the raw LIFEAT reels during the month of April.

c. Liaison

As in the past, the only liaison connected with Project LIFEAT is in passing reels from coverage of the American Communists in Mexico to ODENVY for their processing. No other liaison is considered necessary or desireable.

d. Security

LIFEAT/LIVERY continued to remain out of operation due to the extensive telephone company installation and renovation work being carried on in the vicinity of the LIVERY basehouse. No definite date can be given for the completion of the telephone company work.

e. Technical

No change.

f. Coverage

LIMERICK	5 lines	
LITMUS	2 lines	
LIERODE and related lines	5 lines	(one terminated 27 April due to lack of value.)
American Communists	1 line	
Targets of Opportunity	2 lines	(one installed 1 April, and one installed 25 April.)

g. Personnel

No change.

2. a. During the month of April 1960, twenty-two (22) reels were passed to the local ODENVY office from LIFEAT coverage of American Communists in Mexico. Reels from the LIENVOY coverage of American Communist Sam BROOKS continued to be passed to ODENVY as LIFEAT material until 12 April at which time LIENVOY coverage of BROOKS was discontinued.

1. The following report is submitted in accordance with CSHB-F 52-6-1, Section V, paragraph 2 (d) (l):

a. Exploitation of Leads.

LIMERICK continues to be extremely useful in providing background information on Soviet personalities for the SR case officer as well as movement reports on these personalities which are of interest to the local ODACID chief. The LIMERICK phase of LIFEAT also provided support to the Station's AEIMPULSE operation.

LITMUS provided information concerning the impending transfer of Polish Consul Tadeusz ZIOLKOWSKI.

LIERODE has provided important information enabling the Station to follow closely the defection of LITAG-1 as well as the ensuing reaction in the target establishment, and was employed as a security device and information media in the preparations for the defection of LITAINT-1.

LIFEAT provided excellent leads on Nicaraguan exile activities while also providing an independent check on agent LITANGO-1.

LIFEAT was employed for protective security in connection with the dismissal of LIVESTOCK-2 until 18 March, at which time it was decided that LIVESTOCK-2 no longer posed a threat to the Station's security.

1. The following report is submitted in accordance with FN 52-670, paragraph 3 (c) (2):

a. Processing of information

No changes have been made in the manner of processing LIFEAT material.

b. Exploitation of leads

LIMERICK provided the identitites of several contacts of RIS officer, Alexander PRIKHODKO. This coverage also revealed the possible sale of property located near the Soviet Embassy to the Soviets. LIMERICK further provided coverage of the activities of suspect RIS agent, Gabriel UKAEGBU. LIMERICK also provided support for the AEIMPULSE operation.

LIFEAT continued to be employed as a protective security aid in connection with the dismissal of LIVESTOCK-2.

LIERODE has provided an independent check on agent LITANGO-1, and coverage of Cuban intelligence operations. LIERODE also provided a lead on Santiago GARCES Arroyo, who is to establish a Cuban secret service.

c. Liaison

No change

d. Security

LIVERY continued to be out of operation due to telephone company renovation work in the vicinity of the LIVERY base house.

e. Technical

No new developments.

f. Personnel and Administration

Jeremy L. NIARCOS (p) reported to Mexico City Station to replace Gene F. BRADDOCK (p) as assistant case officer in the LIFEAT operation.

1. The following report is submitted in accordance with FN 52-670 paragraph 3(c)(2):

A. Processing of Information

No changes have been made in the manner of processing LIFEAT material.

B. Exploitation of Leads

LIFEAT continues to be utilized as a protective security measure in connection with the dismissal of LIVESTOCK-2.

LIVERY provided several useful leads for the Case Officer.

LITMUS provided information enabling the Station to identify a safehouse presently used by the Polish IS.

LIERODE continues to be a major source of information regarding exile activities.

LIMERICK material provided information on Soviet communications which was forwarded to HQS for KUTUBE D processing.

C. Liaison

No change.

D. Security

LIVERY lines were suspended due to the activity of telephone company personnel involved in the installation of new cables in the area contiguous to the LIVERY basehouse. No other security problems were encountered.

E. Technical

No new developments.

F. Personnel and Administration

No change.

G. Miscellaneous

During the month of January 1960 the following lines were in operation:

LIMERICK	5 lines
LITMUS	2 lines
LIVERY	2 lines(off for security reasons for a part of the month)
LIERODE and related lines	? lines(one discontinued during this period)
American Communists	1 line(off on 13 January)

1. The following report is submitted in accordance with FN 52-670, paragraph 3(c)(2):

A. Processing of Information

No changes have been made in the manner of processing LIFEAT material.

B. Exploitation of Leads

LIMERICK provided information for Station action and also through live-monitoring gave protection to personnel involved in the activity with the LUNIK.

LIFEAT is still being used as a protective security measure in connection with the dismissal of LIVESTOCK-2.

LIERODE has revealed the identities of Cuban agents on the outside, i.e., in an unofficial position.

LIVERY provided the CO with information used in the KACHTIK Operation. (HMM-A-14317, RYBAT-1300, 13 Jan. 1960.)

C. Liaison

No change.

D. Security

No problems encountered which have not been readily resolved by the personnel involved.

E. Technical

Nothing new to report.

F. Personnel and Administrative

No change.

G. Miscellaneous

20 September 1972

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT : Termination of Project KDAFGHAN

1. Project KDAFGHAN, approved for FY 72 and FY 73 in the amount of $11,950 each year, covered Mexico City Station's observation post targetted against the Cuban Embassy and Consulate in Mexico. OP operators KDAFGHAN-1 and his dependent mother KDAFGHAN-2, Cuban exiles resident in Mexico since 1960, were the only human assets in the project.

2. As a result of the JMYAK damage assessment and other security considerations it was decided that the project should be terminated and the agents resettled in another country. DIRECTOR 285255 amended the project for FY 72 to a total of $20,950 to provide for the termination and resettlement of the agents. The agents were terminated in August 72 and are now being resettled in Spain. DIRECTOR 300167 concurred in terminating the project as of 31 August 72.

3. In view of the developments in paragraph 2, above, WH/FI recommends approval of this termination request.

25 August 1972

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT : Project KDAFGHAN Termination

1. A request for termination action is contained in paragraph four, herein.

2. Project KDAFGHAN is a support project which provides the Mexico City Station with fixed photographic and physical surveillance of the Cuban Embassy and Consulate in Mexico City. The objectives of the project are to furnish photographic coverage of the Cuban installation during daylight hours, to assist the Station in compiling dossiers on officials of the installation, and to fulfill various requirements in support of other Station Cuban operations. The KDAFGHAN project encompasses two assets, KDAFGHAN-1 and KDAFGHAN-2, who have been associated with the project since 1962.

3. While this project may be of some value to the FBI (FBI compares KDAFGHAN photographs with the photographs of known leaders of extremist groups in the U.S. as well as with photographs of persons who are subjects of identification orders prepared on badly wanted fugitives in the U.S.), it is of little value, as presently constituted, to Mexico City Station. There are other means of obtaining photographs of PCS and TDY Cuban personnel.

4. In early 1972 the Station mounted a thorough CI review of all Cuban operations in an attempt to improve their overall security. Although KDAFGHAN-1 passed the SGSWIRL with no apparent deception, his Cuban exile status, the long period of time he has been operating his OP site in close proximity to the Cuban Embassy, and the potential (perhaps immediate) danger presented by his and KDAFGHAN-2's Cuban relatives made

E 2 IMPDET
CL BY 055272

SECRET

it clear that the agents should be terminated. In view of the aforementioned, as well as security considerations in the JMYAK case, WH/1 requests approval to terminate this project effective 31 July 1972. In order to meet termination commitments, project KDAFGHAN was amended on 30 June 1972 by DIRECTOR 285255 in the amount of $9,000, increasing the project's authorization from $11,950 to $20,950 for FY 1972. KDAFGHAN-1 and KDAFGHAN-2 were terminated on 1 August 1972. There were no security incidents during the termination.

KDAFGHAN - Mexico City, Mexico - FI/CI Support Project Targetted Against the Cuban Embassy in Mexico City. FY 1972 Cost: $11,950. FY 1973 Cost: $11,950.

KDAFGHAN Project Finance History

	APPROVED	OBLIGATED
FY 1970	$11,165	$11,165
FY 1971	$11,094	$11,094

Purpose

KDAFGHAN is a support project which provides the Mexico City Station with fixed photographic and physical surveillance of the Cuban Embassy and Consulate in Mexico City. The objectives of the project are to furnish photographic coverage of the Cuban installation during daylight hours, to assist the Station in compiling dossiers on officials of the installation and to fulfill various requirements in support of other Station Cuban operations.

Description

The KDAFGHAN Project continues to encompass two assets, KDAFGHAN-1 and KDAFGHAN-2, who have been associated with the project since 1962. Both agents continue to furnish information on a timely basis on the personalities and activities of the Cuban target. A description of the individual assets is set forth below:

a. KDAFGHAN-1 (201-288248): A Cuban lawyer in exile in Mexico who left Cuba in 1960. He has been the principal agent of the KDAFGHAN Project since 1962. KDAFGHAN-1's cover is that of a translator and would-be writer. Family holdings from his deceased father also provide financial backstopping. All photographic coverage of the main Embassy gate through final printing and mounting is processed by KDAFGHAN-1.

b. KDAFGHAN-2 (201-305604): KDAFGHAN-2 is the mother of KDAFGHAN-1. Her cover is that of a dependent mother. KDAFGHAN-2 acts as KDAFGHAN-1's assistant and fill-in whenever he is away from the basehouse.

GROUP 1
Excluded from automatic
downgrading and
declassification

Changes

The only major change during the project year was the installation of a TV monitor/robot camera combination during October 1970, the month designated as "Cuban month." This added coverage contributed to the compilation of target studies on several Cuban officials. These studies will be used as a starting point for future operations, namely the recruitment/defection of these officials.

Accomplishments

1. The main value of the production of the KDAFGHAN Project has been in establishing the pattern of various Cuban Embassy employees. The monitoring has also revealed which automobiles the various employees usually drive. Photographic coverage of the visitors to the main gate of the Cuban Embassy and logs of the movement of Cuban Embassy personnel have proved very useful in identifying new Cuban PCS employees in Mexico. Normally the Station has been able to match movements of new and old employees during the initial period when duties and contacts were being turned over to the new employees and so identify their duties. KDAFGHAN has provided current photographs of TDY and transiting Cuban officials and Headquarters has often provided positive identifications of these persons. Norberto Hernandez, a DGI headquarters officer visiting Mexico, was identified in this way.

2. The Station utilizes KDAFGHAN photographic coverage and logs to verify the visits of Station assets to the Cuban Embassy.

3. KDAFGHAN also provides coverage of what appears to be American visitors to the Cuban Embassy main gate. In the case of Americans who arrive in automobiles bearing U.S. license plates, the license plate number, car description, and sterile copies of photographs are given to the FBI for identification. A significant result of the KDAFGHAN operation included a photographic of a specific individual - an old FBI target - who had been seen visiting the Cuban installation.

4. KDAFGHAN also provided useful coverage for the KDACOUSTIC-3 operation, an operation aimed at the recruitment or defection of a DGI officer. This coverage enabled the Station to determine KDACOUSTIC-3's movements, an important factor in timing the calls and visits of our access agents. This use of the operation should prove extremely valuable during the coming year since a more aggressive recruitment program against the Cuban target is planned.

Problems and Security

No agent control or operational problems have been reported. Neither were there any security problems encountered during the period. Gerald D. FAHLANGER continues to be the Case Officer and handler of KDAFGHAN-1. FAHLANGER has met and could continue to meet KDAFGHAN-2 in an emergency. The alternate Case Officer is Terence D. SISTONE who meets KDAFGHAN-1 when FAHLANGER is not available. Both Case Officers are known to the assets in alias, and both meet KDAFGHAN-1 in a safehouse. During February 1971 the safehouse was changed in compliance with normal operational security. Meetings are generally held once a week. More frequent contact can be made by telephone. In an emergency, anyone can call KDAFGHAN-1 at his home and say they are a friend of "Pepe Simon." KDAFGHAN-1 will reply "I haven't seen him since last Christmas." KDAFGHAN-1 speaks English.

Coordination:

The Ambassador is aware of our efforts against the Cuban target in general. He has not been specifically briefed on this operation.

Future Plans:

The Station is constantly examining the possibility of an audio installation at the main gate of the Cuban Embassy. A successful audio device would serve, in most cases, to identify the individuals who are photographed by KDAFGHAN-1 since they normally identify themselves to the gate house attendant. There are a few Station assets who have occasional access to the gate house, and it is conceivable that one of them could place a quick plant device, provided security conditions are favorable. The Station currently has under consideration a recruitment effort against a lower level employee of the Cuban Embassy who would be of tremendous help in such an operation.

Costs:

1. General: This renewal request is for FY 1972 in the amount of $11,950 and FY 1973 in the amount of $11,950.

2. Source of Funds: Project KDAFGHAN is included in the Western Hemisphere Division's Operating Program in the amount of $10,844 for FY 1972 and $10,844 for FY 1973. The additional Funds required are to be absorbed from within the WH Division allocation.

3. Project Budget: The following is a cost breakdown for the preceding, current, and next fiscal years:

	FY 1971 Obligations (Estimated)	FY 1972 Request	FY 1973 Projection	FY 1974 Projection
KDAFGHAN-1 Salary	$ 4,800	$ 5,088*	$ 5,088	$ 5,088
KDAFGHAN-2 Salary	1,920	2,112*	2,112	2,112
Christmas Bonus	560	600*	600*	600
KDAFGHAN Basehouse Rent (Observation Post)	1,200	1,200	1,200	1,200
KDAFGHAN Safehouse (for Station meetings with KDAFGHAN-1)	864	1,200	1,200	1,200
Utilities for Safehouse and Basehouse	500	500	500	500
Miscellaneous Expenses (film, paper, chemicals, stationary)	1,250	1,250	1,250	1,250
TOTALS	$11,094	$11,950	$11,950	$11,950

*Increases reflect the "cost-of-living" granted effective 1 January 1971.

4. Foreign Currency: There are no special requirements for foreign currency.

5. Commitments: Upon termination, the agents will be paid a termination bonus not to exceed three month's salary.

6. Funding: Case officers pay the assets directly. The funds are accounted for with end receipts obtained from the assets. KDAFGHAN-1 has sufficient private income to cover the JKLANCE funds he receives.

7. Accountability: All funds are accounted for by receipts and/or certifications as required by Agency regulations.

Annexes:

None.

LIONION - Mexico City, Mexico - FI/CI Support Project Targetted Against the Cuban Embassy in Mexico City. FY 1971 Cost $11,094.

	Approved	Obligated
1966	$10,718	$ 9,142
1967	11,328	11,590
1968	11,466	9,726
1969	11,258	10,803
1970	11,994	10,844 (Estimated)

Purpose:

The LIONION Project provides the Mexico City Station with fixed, selective photographic and physical surveillance of the Cuban Embassy and Cuban Consulate in Mexico City. It is designed to provide information in support of Priority A, paragraphs 2 and 4 of the current Operating Directive, that is, the Cuban target present in Mexico and the support rendered by Cubans in Mexico to exile and other leftist groups in Mexico.

Description:

1. The LIONION Project currently encompasses two agents, LIONION/1 and LIONION/2, a basehouse directly across from the Cuban compound, and a safehouse for meetings with Station Case Officers. The two agents furnish photographic coverage during daylight hours of the main entrance to the Cuban Embassy. In addition, on a spot basis, photographic coverage and visual surveillance of the Cuban Consulate entrance is possible. The agents also act as dispatchers for the unilateral LIEMBRACE surveillance team when the LIEMBRACE team is being used against Cuban target individuals. A description of the individual assets is set forth below.

2. LIONION/1 (201-288248): A Cuban lawyer in exile in Mexico who left Cuba in 1960. He has been the principal agent of the LIONION Project since 1962. LIONION/1's cover is that of a translator and would-be writer. Family holdings in

Tampa, Florida, inherited from his deceased father also provide financial backstopping. LIONION/1 received his "immigrado" (permanent immigrant) status in 1965 and now has a good deal of immunity from harassment from Mexican immigration authorities. All photographic coverage of the main Embassy gate through final printing, cropping, and mounting is processed by LIONION/1. LIONION/1 and LIONION/2 maintain a log which indicates when a photograph was taken, and pertinent identifying data. License numbers of cars used by various Cuban Embassy personnel are recorded as well as license numbers of cars of unidentified persons visiting the Cuban Embassy.

3. LIONION/2 (201-305604): Mother of LIONION/1. Her cover is that of a dependent mother. As with LIONION/1, she has "immigrado" status and has been associated with the LIONION Project since 1962. LIONION/2 acts as LIONION/1's assistant and fill-in whenever he is away from the LIONION basehouse.

Changes:

During the project year, the pulse camera coverage of the Cuban Consulate entrance was discontinued. Little or no use was being made of the product from this camera. One reason for limited use was that there was no real way to readily fix the time--or the day-- a particular photo was taken. There were no other significant changes in the project during FY 1970.

Accomplishments:

1. The LIONION production for FY 1970 consisted almost entirely of photographic coverage of visitors to the Cuban Embassy main entrance and of logs of the movement of Cuban Embassy personnel and visitors. This proved very useful in identifying new Cuban Embassy PCS employees in Mexico. The monitoring also revealed which cars the various employees usually drove.

2. LIONION also took photographs of what appeared to be American visitors to the Cuban Embassy front gate. In the case of Americans who arrived in automobiles bearing U.S. license plates, the license plate numbers, car descriptions, and sterile copies of photographs were given to LNERGO for identification.

3. The Station also used the LIONION photographic coverage and log to check on the reports of Mexican and other JKLANCE assets who claimed to have visited the Cuban Embassy. In the case of some assets, LIONION/1 was given a photograph of the agent and told to be particularly alert at certain times of certain days to confirm the agent's entry and exit. This proved particularly useful in checking AVDIME/1's story of contact with the Cubans. It also confirmed LIRELIC/1's visit to the Cuban Embassy at an early stage in Station recontact with LIRELIC/1.

Problems:

1. No agent control or operational problems have been reported. Neither were there any security problems encountered during the period. LIONION/1 was met in a safehouse on an average of once per week by Andrew E. PELLEMENT, in alias. Following PELLEMENT's departure in late May, Gerald D. FAHLANGER took over the responsibility for the LIONION Project. FAHLANGER, in alias, meets LIONION/1 approximately once per week. In January 1970, the Station had LIONION/1 change the safehouse used for meetings with Station officers. He signed a one-year lease on the new apartment, in alias. LIONION/1 uses the apartment on weekends and evenings to lend credence to the cover story he used in renting; i.e., that he lives out-of-town and maintains this small apartment in Mexico City for use during his frequent visits.

2. Station visits to the LIONION basehouse were limited to three during the reporting period. These were made during non-daylight hours. LIONION/1 picked up the Station officer away from the LIONION basehouse area and drove the officer to the basehouse in LIONION/1's own car. The basehouse has a driveway off the street entrance-way which facilitates entry during non-daylight hours.

3. During the Project Year, the pulse camera and the electronic equipment used with the LISAMPAN operations were removed from the basehouse, thus reducing the amount of compromising equipment in the basehouse.

Coordination:

The Ambassador is aware of our efforts against the Cuban target in general. He has not been specifically briefed on this operation.

Future Plans:

1. The Station is re-examining the various points of view which the LIONION basehouse provides of the Cuban Embassy complex in order to determine what steps can be taken to improve the usefulness of the LIONION product. For instance, from the window in the room where the pulse camera previously was installed, an excellent view can be had of the Cuban Embassy garden and the walkways between the three Cuban Embassy buildings--as well as the Consulate. The Station plans to have LIONION/1, on a spot-check basis, observe the garden area. In this way, the Station hopes to update its information on the location of the various officers' offices, the general pattern of movement and activity, etc. This area will also be observed during the night to see if it can be determined which areas are being used for living quarters or offices.

2. It is also planned to assess LIONION/1's ability to observe and draw appropriate conclusions from his observations, and to write these up for the Station.

3. Depending on the need for Consulate coverage, the installation of closed circuit TV coverage of the Consulate entrance is being considered.

4. The Station is being queried as to emergency contact arrangements with LIONION/1.

Costs:

1. General: This renewal request is for the period 1 July 1970 through 30 June 1971 (FY 1971), in the amount of $11,094.

2. Source of Funds: Project LIONION is included in the Western Hemisphere Division's FY 1971 Operating Program in the amount of $10,000.

3. Project Budget: The following is a cost breakdown for the preceding, current and next fiscal years:

	FY 1970 Estimated Obligations	FY 1971 Request	FY 1972 Projection
LIONION/1 Salary	$ 4,800	$ 4,800	$ 4,800
LIONION/2 Salary	1,920	1,920	1,920
Christmas Bonuses	560	560	560
LIONION Basehouse Rent (Observation Post)	1,200	1,200	1,200
LIONION Safehouse (for meeting with case officers)	864	864	864
Utilities for both	500	500	500
Miscellaneous Expenses (Film, paper, chemicals, etc.)	1,000	1,250	1,000
TOTALS	$10,844	$11,094	$10,844

4. Foreign Currency: There is no need for foreign currency which the Station cannot provide. There are no non-JKLANCE funds involved in this project.

5. Commitments: LIONION/1 and LIONION/2 receive, in addition to their regular salary, the equivalent of one month's salary as a Christmas bonus. LIONION/1 is reimbursed for operational expenses related to the project. In the event of termination, each agent will receive thirty days actual notice.

6. Funding: All funds are passed by the case officers during the safehouse meetings with LIONION/1 who receipts for the funds on the spot. The amount of funds used under this project are not enough to arouse the suspicion of LIONION/1 by the authorities should he be apprehended. He has sufficient private income to cover the JKLANCE funds he receives.

7. Accounting: All funds are accounted and certified for in accordance with JKLANCE regulations.

8. Annexes: None.

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT : LIONION Project Renewal Request

1. Approval is requested of the LIONION Project for the period 1 July 1969 through 30 June 1970 (FY 1970) for $11,994. Funds are available.

2. Project LIONION is a support project which provides the Mexico City Station with fixed photographic and physical surveillance of the Cuban Embassy and Consulate in Mexico City. The surveillance is conducted by two indigenous agents located in a basehouse directly across from the Cuban compound. At times the principal agent also acts as a dispatcher for the LIEMBRACE surveillance team. Information is radioed to the team concerning the departure of Cuban officials, thus allowing the team to remain a more discreet distance from the target.

3. As reflected in the attached Project Renewal, an audio device planted in the gatehouse of the compound could be monitored at the LIONION basehouse, aiding greatly in identifying visitors. Since the time the Station submitted the renewal, however, this device ceased to function along with the rest of the LISAMPAN devices. This installation was monitored through carrier current from the LISAMPAN/LISASH basehouse, also situated in front of the compound. Since the connection between the two basehouses was by carrier current only, and since the agents in each basehouse are unaware of the other's activity, a possible compromise of the LISAMPAN/LISASH activity should not affect LIONION security.

4. Although the LIONION Project does not produce disseminable positive intelligence, it is considered by the Station as essential to its Cuban operations. The 4,100 or more selective individual photographs produced annually,

coupled with the visual observations, were effective in providing timely operational information. In addition, over 8,000 feet of pulse camera film is produced annually, recording the image of each visitor to the Consulate. The years of experience of the principal agent have given him intimate knowledge of the target personalities. He often brings matters to the immediate attention of the Station without having been levied the specific requirement to do so. As a result, the Station is aided greatly in keeping abreast of the day to day activities of the Cuban compound.

5. In recent months, the LIONION Project was useful to the Station in checking out statements made by ESMARROW-1.

6. In March 1969, the Project provided photos of three U.S. citizens who visited the Cuban Embassy and were suspected of being draft dodgers. The photos were passed to the FBI within three hours of the request for information.

7. Other than the loss of the audio device in gatehouse, there have been no changes. The operation continues to run smoothly.

8. Approval is recommended.

Action Required: Renewal of Project

Reference : HMMW-17154, 11 April 1969

1. Attached is the Station's renewal request for Project LIONION. The Project should be submitted for renewal for the period 1 July 1969 through 30 June 1970 for a total of $11,994.

2. Information concerning the performance of LIONION-1 and the project operations during the second and third quarters of FY 1969 has been elaborated, and a separate LIONION Progress Report for this period will not be prepared. The Station will submit a regular progress report to cover the period 1 April through 30 June 1969 in July 1969.

LIONION PROJECT RENEWAL

A. Objectives

1. Project LIONION, a long-term support project designed to provide fixed photographic, technical, and physical surveillance of the PBRUMEN Embassy and Consulate in Mexico City, has the following specific objectives:

a. To furnish photographic coverage during daylight hours of the main entrances to the target installation.

b. To operate as a listening post in support of technical operations against this target to complement the photographic coverage.

c. To radio dispatch physical surveillance teams against persons associated with the target.

d. To assist the Station in compiling information for individual dossiers on officials of the target installation.

e. To fulfill various requirements in support of other Station PBRUMEN operations.

2. The above-cited objectives are in agreement with the over-all objectives of Station Mexico City.

B. Changes

Oliver D. CIMOCH assumed administrative and operational responsibility for Project LIONION in December 1967 and continued this responsibility until his departure in December 1968. Pending arrival of CIMOCH's replacement, the Project was handled by Station Officer Gerald D. FAHLANGER and Station WOACRE representative, Walter W. CORNBURY. On 28 February 1969, LIONION-1 was introduced to Andrew E. PELLEMENT, who assumed Project responsibility effective that date.

C. Intelligence Production

As an operational support project, Project LIONION does not produce disseminable positive intelligence. Quantitatively, during CY 1968, the Project provided over 4,000 selective individual photographs of persons and/or vehicles entering the target installation and over 8,000 feet of pulse camera film. There has

[illegible] TRANSMISSION
NO [illegible] DISSEMINATION

been no formal audio product from Project LIONION since July 1968 when the transcription of the LISAMPAN/DOG traffic was terminated. As reported extensively in HMMA 36553, 19 February 1969, the Station has been unable to activate LISAMPAN/BAKER since 16 January 1969. A qualitative analysis of the LIONION product is discussed in paragraph D below. The Station is unable to evaluate the worth of the pulse camera operation since the bulk film, undeveloped, is pouched directly to Headquarters. The cost of this portion of the operation is minimal, however, since it is limited to the cost of the film and development at Headquarters. The camera works automatically and requires only minimal maintenance.

D. Effectiveness

1. Project LIONION is considered by Station Mexico City as essential to its PBRUMEN operations. It has consistently proven highly effective and responsive to Station requirements of both long and short range nature. LIONION-1, the Project's only full time agent, continues to furnish on a timely basis, information on the personalities and activities of the target personnel. LIONION-2 continues to backstop LIONION-1 and substitute for him when he is away from his post. At the age of 70, she is not able to man the LIONION base full time, and her sight is failing. She is able to photograph visitors, however, and live monitor the LISAMPAN/DOG traffic. LIONION-2's role as a backstop to LIONION-1 insures continuous coverage of the target during daylight hours, five days a week. LIONION-1's more than six years of experience working on the same target continue to produce an increasingly complete and accurate identification of the staff and visitors to LIRING. These years of experience have developed an agent knowledgeable of WOFIRM operational and security requirements who will often bring to the Station's attention those matters which he feels are of immediate interest without having special requirements levied upon him and without waiting for the next regularly scheduled meeting with his Station contact. He has on numerous occasions notified the Station of the presence of suspect PBRUMEN security types. He has also frequently passed along operational leads of use to the Station in other aspects of its PBRUMEN operations.

2. The addition of LISAMPAN/DOG to the LIONION basehouse has noticeably increased LIONION-1's ability to identify new visitors to the target and at times, determine the nature of their business. The LISAMPAN/DOG product was channeled to the LIONION basehouse by carrier current from LISAMPAN/LISASH on 10 April 1968. Since its primary value is as an aid to LIONION-1 in identifying LIRING visitors, its product has not been recorded

or transcribed since July 1968. LIONION-1 live monitors the traffic from his basehouse. LISAMPAN-1 who mans the LISASH base has been told nothing of the LIONION base and LIONION-1 was offered no explanation concerning the manner in which LISAMPAN/DOG production is channeled to him. Thus a possible compromise of the LISASH basehouse, linked directly to LIRING, would not compromise the LIONION basehouse which has no direct link with the target.

3. Project LIONION was of direct assistance to the Station on two separate occasions in recent months:

a. As a result of information received on a priority basis (the same day as requested) from LIONION-1, the Station was able to verify certain statements made by ESMARROW-1 concerning the location of LIRING officials at specific times. LIONION-1 reported the times at which these officials came in and out of the LIRING compound and provided a description of the clothes they were wearing at the time. LIONION-1's information raised the possibility that ESMARROW-1 might at least have been confused in his reporting of the times at which he met LIRING personnel, etc.

b. In March 1969, LIONION-1 was able to provide pictures of three WOLADY males, who, although unidentified, fitted the general description and time frame furnished by LNERGO. The latter suspected that two or three WOLADY draft dodgers might visit LIRING to arrange travel to PBRUMEN. The Station was able to furnish LNERGO with pictures of the three together with a report of their arrival and departure from LIRING within three hours of its request for information. Additional information was promptly forwarded to LNERGO as it became available from LIONION-1.

4. During the past year, LIONION-1 acted as a dispatcher for the LIEMBRACE surveillance team on a number of occasions. By utilizing his vantage point in the area of the target, he is able to radio information to the LIEMBRACE team on the arrival and departure of LIRING officials thus allowing the team to remain at a distance from the target unseen by possible counter-surveillance from the target. The Station plans to use LIONION-1 in this role more extensively in the coming year whenever surveillance of LIRING personnel entails the team's presence near the LIRING compound. Such utilization of LIONION-1 should lessen the risk of exposure of the team to the PBRUMEN IS.

5. LIONION-1, himself, continues to provide the consistently high level of productivity that has characterized his work in past years. As mentioned above his response to priority requirements continues to be most gratifying. He is prompt in submitting both operational and administrative reports to the Station. He is ready, at a moments notice, to change personal plans when a need for his services arises. After five years without a substantial vacation, LIONION-1 plans a three week trip from 4 - 25 May to Europe (Italy, Greece, France) and the U.S.A. He originally requested five weeks to make this trip for which he has long saved his money, but quite willingly shortened the trip to three weeks at the Station's request and added that he would postpone the entire trip if the Station thought his services were more needed at home. In order to help defray the cost of making a second trip to Europe to complete his original itinerary, the Station will give LIONION-1 a gift of $250 on 1 May 1969 and will tell him that consideration will be given in 1970 to providing an equal amount, but no decision can be made on that second gift until mid-1970.

E. Problems

1. LISAMPAN/BAKER: As reported in HMMA 36553, 19 February 1969, LISAMPAN/BAKER was turned off for security reasons on 16 January 1969 at 1345 hours. All subsequent attempts to reactivate it have been unsuccessful. Headquarters was requested to review all available Station information on this to decide whether BAKER's abrupt end was the result of a compromise or whether it was somehow connected with the installation of TELEX equipment at LIRING.

2. LISAMPAN/DOG: The LISAMPAN/DOG/METRAP installation is generally working well. There have been numerous occasions when due to unknown circumstances the audio reception has either been bad or non-existent. Walter W. CORNBURY and PELLEMENT visited the LISAMPAN/LISASH basehouse and found no problem with the monitoring equipment there. The trouble may have resided with the central office of the LIRISK company and was probably not the result of technical counter-surveillance of LIRING. As of 3 April 1969, LISAMPAN/DOG was working properly and automatically.

3. There have been no significant personnel, security, morale or administrative problems since the last project renewal.

F. Liaison

Not applicable to Project LIONION.

[illegible] BY SPECIAL PERMISSION
NO FIELD DISSEMINATION

G. Interagency Coordination

Not applicable to Project LIONION.

H. Plans

1. The Station plans to continue to exploit LIONION-1's experience, training and location to provide the photographic and technical coverage cited above. In addition, the Station will continue to make use of LIONION-1 as a dispatcher in surveillances of LIRING personnel.

2. In order to check the LISAMPAN/DOG take for items of possible value to other Station operations, LISAMPAN/1 will be instructed to record the DOG traffic for the three week period while LIONION-1 is on vacation. These tapes will be given to Richard C. HABOUSH for an analysis of their operational worth and technical quality. HABOUSH will transcribe them if the contents warrant.

I. Costs

1. For the past project year, 1 January 1968 through 30 June 1969, it is estimated that the total project cost will be about $16,250. It is approved for $16,632.

2. For the renewal period of 1 July 1969 through 30 June 1970, it is requested that $11,894 be approved. Estimated figures for FY 1971 are provided below together with the breakdown for FY's 1969 and 1970. The major addition to the FY 1971 figures is a possible raise for LIONION-1 and LIONION-2. These figures are broken down as follows:

	FY 1969	FY 1970	FY 1971
Salaries:			
LIONION-1	$ 4,704	$ 4,800	$ 5,200
LIONION-2	1,860	1,920	2,000
Xmas bonuses	550	560	610
Rents:			
LIONION Basehouse	1,200	1,200	1,200
LIONION Safehouse	864	864	864
Utilities for both	500	500	500
Operational Expenses:			
Film	700	1,000	1,000
Paper	400	450	450
Chemicals	250	300	300

[illegible]

NO FIELD DISSEMINATION

Miscellaneous:			
Operational	50	150	350
Special gift to LIONION-1	250	250	
Total	$11,328	$11,994	$12,474

3. A detailed accounting was prepared each month by LIONION-1 covering expenses chargeable to his revolving fund. His accounting has been most satisfactory in all respects, and such accountings will be continued during the ensuing project year.

SUBJECT Processing and Exploitation of Photographic Coverage of LIRING by the AMOT Organization.

ACTION REQUIRED REFERENCES

Action Required: FYI

Reference: HMMA-33841, 17 January 1968

1. The following comments are for the information and assistance of those officers who are in the process of determining the future of the LIONION operation:

a. The AMOTs have received and reviewed a number of the prints from the LIONION operation and report that it is a time-consuming and largely unproductive effort.

b. The practical results of such a review, i.e., the identification of the greatest number of visitors to LIRING, can be realized best through the widest circulation of the prints among the AMOT staffers, contacts, and informants. This practice would result in wide knowledge of the existence of the operation, and in the expenditure of many man-hours which, it appears, could be more productively spent in other pursuits.

c. The AMOT organization currently does not have either the qualified personnel or available space and equipment to process the film as suggested in paragraph three of reference. Until they move into new quarters, in, hopefully, mid-1968, the single AMOT photographer will be working in very tight quarters.

2. It would appear from JMWAVE's experience with AMOT exploitation of the LIONION operation, that further activity in this connection at JMWAVE would be unwarranted.

10 January 1968

MEMORANDUM FOR: Chief, WH Division

SUBJECT : Renewal of Project LIONION

1. Approval is requested to renew Project LIONION for the period 1 January 1968 through 30 June 1969 for $16,632 including $5,374 for FY 1968 and $11,258 for FY 1969. WH Division programmed $11,800 for this activity for FY 1969 and funds are available. Funds requested for this renewal are slightly less than the previous year due to a reduction in support costs.

2. This project provides Station Mexico City with photographic and physical surveillance of the Cuban Embassy and Consulate in Mexico City. In addition, the project principal agent is able to observe and record the patterns of activity and personal associations of various Cuban personnel and visitors to the Embassy and Consulate. This effort has been of assistance in planning recruitment attempts against target personnel. The principal agent also performs ad hoc functions for the Station such as dispatching the surveillance team against selected Cuban personnel and renting and maintaining a safehouse. This project naturally does not produce positive intelligence.

3. Plans for the forthcoming period include using the project basehouse and the two project agents as LP operators in the expansion of an existing technical operation targeted against the Cuban Embassy. There is also a possibility that the photo coverage of the Cuban Consulate entrance will cease shortly as this coverage has not proved particularly useful. It is not anticipated that these changes will substantially affect the cost of the project.

4. It should be noted that the $4,800 operational loan made to LIONION-2 in February 1966 has been completely repaid. The security of this project is considered satisfactory.

PROJECT LIONION RENEWAL REQUEST

A. Objectives:

1. Project LIONION is a long-term support project designed to provide fixed photographic, technical, and physical surveillance of the PBRUMEN Embassy and Consulate in Mexico City. The specific objectives are:

    a. To furnish photographic coverage during the daylight hours of the main entrances to the target installations.

    b. To maintain in readiness a listening post to support technical operations against the targets.

    c. To radio dispatch physical surveillance teams against persons associated with the targets.

    d. To provide for a mechanism which can fulfill various miscellaneous PBRUMEN support requirements.

2. The above-cited objectives are in agreement with the overall objectives of Station Mexico City.

B. Changes:

In late January 1967 the operational and administrative responsibilities for Project LIONION were transferred from Howard A. TRECKLER to Cornelius L. PEUVION. No agent handling, control, or administrative problems were encountered during the past year.

C. Intelligence Production:

As noted in Section A above, Project LIONION is an operational support project and does not produce disseminable positive intelligence. During the past year this project did provide over 5000 individual photographs of persons and/or vehicles entering or leaving the target installations, as well as approximately 8000 feet of pulse camera film. Information on the comings and goings of target personnel and visitors to the installations, which LIONION-1 provides in daily logs, has been incorporated into Station files and on occasion made available to other stations or LNHARP agencies, i.e., LNERGO. LIONION has been particularly useful in spotting new employees whose photos are then passed to LITAMIL-7 for identification.

D. Effectiveness:

1. Project LIONION is considered by the Station to be highly effective and essential. In addition to providing the valuable photographic coverage cited above, LIONION-1 continues to provide interesting observations on the personalities and activities of the personnel working in the targets. LIONION-1 reporting is being incorporated into the recruitment operations targeted against LIRING-2 and LIRING-16.

2. In early July LIONION-1 obtained and furnished a new safe apartment which is being used for sensitive or lengthly meetings with LIRESORT-1 as well as LIONION-1. The safe site has been stocked with a sufficient supply of food so as to allow two persons to live there for at least three days in the event the Station ever needs a cooling-off site for an agent or defector.

3. Throughout the past project year LIONION-1 continued to function effectively as the radio dispatcher for the LIEMBRACE Surveillance Team. Much of this effort was expended in estimating the movement/habit pattern of LIRING-2, a prerequisite for his pending recruitment.

E. Problems:

1. On 27 June LIONION-1 was hospitalized for emergency surgery to treat a perforated ulcer. Since LIONION-2's presence was required at the hospital during the operation and also throughout the postoperative convalescence period, photographic coverage was suspended until 10 July.

2. Other than a temporary postoperative morale slump on the part of LIONION-1, there have been no significant personnel, security, or administrative problems.

F. Liaison:

Not applicable to Project LIONION.

G. Interagency Coordination:

Not applicable to Project LIONION.

H. Plans:

1. The Station plans to continue to exploit LIONION-1's experience, training, and location to provide the photographic coverage cited above. In addition, the Station plans to make more extensive use of the operational log books and personality observations provided by LIONION-1 in support of an intensive physical penetration program.

2. During the ensuing period, the Station plans to utilize LIONION-1 and LIONION-2 as LP operators for a portion of the LISAMPAN technical penetration operation. It is anticipated that this additional task will not be levied on LIONION-1 and LIONION-2 until after 1 January 1968.

I. Costs:

1. For the past project year, 1 January through 31 December 1967, it is estimated that the total project cost will be about $9,000. It is approved for $11,666.

2. For the renewal period of 1 January through 31 December 1968, it is requested that $11,258 be approved. This is broken down as follows:

	FY 1968	FY 1969	Total
Salaries: (Including Xmas bonus)			
LIONION-1	$ 2,208	$ 2,576	$ 4,784
LIONION-2	900	1,050	1,950
Rents:			
LIONION Basehouse	450	450	900
LIONION Safehouse	264	264	528
Utilities	150	150	300
Supplies:			
Film	600	600	1,200
Paper	312	304	616
Chemicals	150	150	300
Miscellaneous	90	90	180
Miscellaneous Operational Expenditures	250	250	500
Total	$ 5,374	$ 5,884	$11,258

3. It should be noted that the operational loan made to LIONION-2 to enable her to qualify for inmigrado status in Mexico (see Cost Section of previous project renewal request) has been completely repaid. The loan, which was placed in an escrow-type account, was withdrawn in monthly increments by LIONION-1 and incorporated into his revolving fund. A detailed accounting was prepared each month by LIONION-1, a practice which will be continued during the ensuing project year.

J. Technical Annex:

Project LIONION continues to receive excellent technical support from the local WOACRE representative, Walter W. CORNBURY.

K. Other:

While LIONION-2's failing eyesight precludes her filling in for LIONION-1 over any extended period of time, she has continued to perform in an excellent manner in support of LIONION-1.

Action Required: See Below

1. Prior to submitting the LIONION project for renewal 1 January 1968, Headquarters requests the Mexico City station comment on the desireability of continuing the photography of persons entering and leaving the PBRUMEN Consulate. As the station is aware this film is no longer reviewed at JMWAVE and there are no present plans to resume this practice since in the past it proved unproductive and costly. The film has never been reviewed on a regular basis at Headquarters and has been referred to only once for identification purposes during the past year. At present the film as received at Headquarters is developed (negatives only) and placed into storage.

2. Headquarters realizes this coverage is potentially valuable and undoubtedly this film contains photographs of assorted revolutionaries and others of CI/FI interest; but the value lies in the ability to identify the persons being photographed and until we have this capability - and personnel to sort out and follow-up the leads - there seems

MEMORANDUM FOR : Chief, WH Division

SUBJECT : Renewal of Project LIONION
(Photographic/Technical Coverage
of Cuban Embassy in Mexico)

ACTION REQUIRED: Approvals Requested Paragraphs One
and Four

1. Approval is requested to renew Project LIONION for the period 1 January through 31 December 1967 at an annual expenditure of $11,666.00, including $5,574.00 for FY 1967 and $6,092.00 for FY 1968. WH Division programmed $12,000.00 for this activity for FY 1967 and funds are available. The Project cost has been increased by $668.00 over the previous year, occasioned by a small monthly raise for the Principal Agent and a new provision for miscellaneous operational expenditures.

2. Although this two-man Project does not produce positive intelligence, it contributes substantially and directly to the coverage of the Cuban Embassy and Consulate in Mexico, producing photographs in bulk of personnel and visitors as well as information on patterns of activity and personal associations, and supporting recruitment attempts. It is contemplated that the Project will afford support to the extensive technical penetration of the Cuban Embassy (LISAMPAN) currently scheduled for installation in mid-January 1967. One of these penetrations is scheduled for the Embassy gatehouse where visitors would normally identify themselves upon entering. Information from the gatehouse is to be transmitted securely to the LIONION basehouse as well as to the LISAMPAN listening post. By collating this and other LISAMPAN information with the photography, it is hoped to be able to identify photographically many of the visitors to the Embassy.

3. The physical security of the photo-basehouse has been improved and the overall security of the Project is considered to be satisfactory.

4. It will be noted that in February 1966 the Station assisted LIONION-2, a Cuban citizen, to qualify for Mexican immigrant status with a loan of $4,800.00, which was reduced to $2,640.00 as of 31 December 1966 at a repayment rate of $240.00 per month. This loan is being protected by an appropriate Memorandum of Trust. Approval is requested to continue this arrangement until LIONION-2's immigration status is settled, estimated to occur by 30 November 1967.

LIONION PROJECT RENEWAL

A. Current Objectives:

There have been no changes in the objectives of the LIONION Project as set forth in the renewal request of last year.

B. Changes:

Howard A. TRECKLER has assumed the duties of Case Officer for LIONION since the departure of Lawrence F. BARKER in August 1966. TRECKLER is known to LIONION-1 and 2 as "Jose" or "Joe". TRECKLER meets with LIONION-1 at least once each week and sees LIONION-2 only if he visits the LIONION basehouse. With the departure of Hugh T. FRANCOTTE (P) in August 1966, Walter W. CORNBURY (P) assumed the duties of technical consultant for the project. CORNBURY is known to LIONION-1 and 2 as "Jack". LIONION-1 is being given a pay increase of $8.00 (U.S.) per month effective 1 January 1967. There are no other changes contemplated for the coming year.

C. Intelligence Production:

The intelligence production is the same as that reported in the renewal request for last year. It is difficult to estimate the intelligence value in numbers of reports as there are so few positive reports made from this type of production on the photographic end of the project. But this photographic coverage is of inestimable operational intelligence value in coverage of the PBRUMEN target. Should the LISAMPAN operation become active, part of LIONION's time will be used in support of that operation.

D. Effectiveness:

The Station's estimate of the value of this project has not changed from that expressed in the renewal request of last year. LIONION has further established his importance to the Station's operational activities by demonstrating his ability to spot surveillance targets at LIRING from only a physical description provided by the Case Officer. If the planned LISAMPAN activity gets underway, LIONION observations and insight into activities of LIRING will be increased greatly.

The apartment spotted by LIONION-1 and obtained by the Station across from LIRING that was mentioned in last year's renewal request is scheduled to be utilized in the LISAMPAN operation. The location of LIONION-1 across from the target and his background knowledge built up over the years are invaluable assets to the Station's coverage of the primary target of the Related Mission Directive.

E. Problems:

There were no major problems during the past year. One security problem involved the claimed spotting of some of the photographic equipment from the street by David M. WILSTED (P). A thorough check of the basehouse by LIONION-1 and the Case Officer failed to reveal any such equipment as being visible from the street. However, additional security measures were taken by darkening the background in the room behind the equipment through hanging of heavier drapes on the window, drapes on the wall, and putting up a portable screen behind the equipment. This also serves as a security check against the prying eyes of the household servant as LIONION-1 can now open the door fully to the room when the servant pages him and she cannot see the equipment. The other problem is the obtaining of inmigrado status for LIONION-2. This involves the depositing of funds to a bank account and is discussed under paragraph I.

F. Liaison:

There is no liaison involved in the project.

G. Interagency Coordination:

Not applicable.

H. Plans:

It is planned to have LIONION-1 keep special logs on the activities of selected targets in LIRING as he has done over the past year. With the case officer handling LIONION-1 directly on a weekly basis, it is planned to continue picking his brains for additional details on the LIRING target. Hopefully LIONION-1 and 2 will be utilized for assistance in covering the proposed take from the LISAMPAN operation.

I. Costs:

For Calendar Year 1966:

1. In the period 1 January through 30 June 1966, $4,500.00 was expended. The projected expenditure for July 1966 through 31 December 1966 is $5,000.00. This total project year expenditure is approximately $1,000.00 under that approved by Headquarters. However, this amount is probably due to having drawn film and other supplies from overall Station support without their having been charged off against the Project

2. For the period 1 January 1967 through 31 December 1967

Expenditures for	FY 1967	FY 1968
Salaries:		
LIONION-1	$2,210.00	$2,578.00
LIONION-2	900.00	1,050.00
Rents:		
LIONION Basehouse	600.00	600.00
LIONION Safehouse	264.00	264.00
Utilities	150.00	150.00
Supplies:		
Film	600.00	600.00
Paper	360.00	360.00
Chemicals	150.00	150.00
Miscellaneous	90.00	90.00
Miscellaneous Operational Expenditures	250.00	250.00
TOTAL	$5,574.00	$6,092.00

The total for FY 1967 is $11,666.00. Approval of this amount is requested. Note that the salary figures include the salary raise for LIONION-1 and the usual one month pay Christmas bonus for LIONION-1 and 2. An additional provision has been made for miscellaneous operational expenditures as there may be a recurrence of same as in the past project year for which no provision was made. Provision is being made for charging of funds for supplies to the LIONION Project which was not done last year in order that more accurate bookkeeping may be followed.

In addition, the Station has had to make a loan to LIONION-2 for gaining status to qualify for inmigrado status in Mexico. This loan is held in a savings account in a Mexican bank to prove to the Mexican authorities that LIONION-2 can support herself. Funds are withdrawn from this account monthly, sometimes with interest, and deposited to a checking account where LIONION-1 withdraws the funds and they are applied to the revolving account for financing the operation. The initial balance deposited to the account in February 1966 was $4,800.00. Withdrawals have been made at the rate of $240.00 per month and as of 30 October 1966, the total account had been reduced by $1,680.00, leaving a balance in the account of $3,120.00 which should carry the account through November 1967. A separate dispatch follows with the Memorandum of Trust and necessary details on the account. Approval is requested for continuance of this account in order that LIONION-2 may obtain her inmigrado status.

J. Other:

LIONION-2 continues to perform in an excellent manner in support of LIONION-1.

L. SIDE OF ATT. #1 to HMMA-27754 R. SIDE OF ATT. #1 to HMMA-27754

A. Current Objectives. The original objectives of the project have not changed but have been added to in the last year. The project is functioning well as a technical (primarily photographic) surveillance operation against the PBRUMEN Embassy in Mexico City. It is designed to:

1. Furnish photographic coverage during daylight hours of the two entrances of the target installation.
2. Dispatch physical surveillance teams against persons associated with the target.
3. Keep in readiness a listening post (LP) for the monitoring and recording of technical penetrations of the target.
4. Assist the Station in building up individual dossiers on officials of the target installation.
5. Monitor Station activities involving direct contact with the target, and furnish an observation post (OP) for other Station assets.

Objectives 4 and 5 are additions to those objectives set forth in the original project outline.

B. Changes. There have been no changes in personnel and none are contemplated in the coming year. It is being proposed in separate correspondence that some of the work load now on LIONION-1 be shifted to Headquarters, specifically the development of film.

LIONION-1's pay was increased 40 dollars a month effective 15 March 1965.

C. Intelligence Production. The operation has produced thousands of excellent photographs, many of which are shared with Headquarters and Station JMWAVE. Information on the comings and goings of target personnel and visitors to the target installation has been incorporated into many Station files (primarily personality files -- individual dossiers). No precise statistics are available on this production. It has been very heavy. Station JMWAVE should perhaps be called upon for an independent evaluation of LIONION production it has received .

D. Effectiveness. The project is considered both highly successful and essential by the Station. In addition to excellent photographic coverage provided by the LIONION agents, the Station has found in LIONION-1 a first class asset for other operational duties. The LIONION basehouse was essential to mounting and monitoring the LIRHYME recruitment (and harassment) operation. C/O Wallace B. ROWTON sat with LIONION-1 for several weeks, observing the movement pattern of LIRHYME-1. LIONION-1 manned one of three radios used by the Station when LIRHYME was invited to appear for confrontation outside the Embassy. Without the LIONION base and the expert knowledge of LIONION-1 of target personnel and activities, such an operation as LIRHYME could not have been mounted. It might be noted that this operation was an attempt to satisfy the top priority requirement laid on Station Mexico by Headquarters. It is expected that additional similar operations will depend to a large extent on the facilities provided by the LIONION operation.

Another very effective performance by LIONION-1 was his obtaining -- by sharp observation and quick, intelligent, secure action -- an apartment in a building directly across the street from the target Embassy. The Station had been seeking an apartment in this building for many years.

E. Problems. The problem of cover for LIONION-1 worked out well during the year to the point where it ceased being a problem. By living his cover as a translator he was enabled to build in strong self protection when called upon to do some translations for the office of the President of Mexico. Toward the end of the year, LIONION-1 received the coveted status of "inmigrado" which confers a great deal of immunity from harrassment by Mexican authorities.

The only problem now besetting the project is LIONION-1's excessive work load. As indicated above, an attempt is being made to alleviate this load.

F. Liaison. The operation has no liaison connection. LIONION-1's connection with the Mexican Presidency is non-operational.

G. Interagency Coordination. Not applicable.

H. Plans. It is planned to make better use of LIONION-1's observations and operational log books during the coming year rather than settle for his excellent photographs alone. It has been found that he can often supply valuable additional information because of his "feel" for those persons who are under constant observation from the LIONION base. LIONION-1 can read significance into activity which might go unnoticed or be misinterpreted by observers with less experience. LIONION-1 will also be called upon for assistance in future recruitment operations as in LIRHYME. Several such operations are being contemplated for calendar 1966, the period for which project is being requested.

I. Costs.,

1. For calendar 1965:

In the period 1 January through 31 October 1965 $7,218.20 had been expended. At this rate some $9,200.00 will be expended in the concluding project year.

2. For the next period (calendar 1966):

Monthly costs

Salaries:	LIONION-1	$ 360.00
	LIONION-2	150.00
Rents:	LIONION Basehouse	100.00
	LIONION Safehouse	44.00
	Utilities	25.00
Supplies:	Film	95.00
	Paper	60.00
	Chemicals	25.00
	Miscellaneous	15.00
	Monthly total	$ 874.00

Allowing for customary year-end bonuses of one month's salary for both agents, the figures for FY 1966 and FY 1967 would be $5,244.00 and $5,754.00 respectively, or a total for the calendar year 1966 of $10,998. Approval of this amount is requested.

J. Other. LIONION-2, although not specifically mentioned above, continues to perform in a splendid manner as assistant to LIONION-1.

MEMORANDUM FOR: Chief, WH Division

SUBJECT : Renewal of Project LIONION (photographic/ technical coverage of Cuban Embassy in Mexico)

1. Approval is requested to renew Project LIONION for the period 1 January through 31 December 1966 at an annual expenditure of $10,998.00, including $5,244.00 for FY 1966 and $5,754.00 for FY 1967. WH Division programmed $10,750.00 for this activity for FY 1966. Funds are available. The Project cost has been increased by $520.00 over the previous year, occasioned by a small raise for the Principal Agent.

2. The Project has contributed substantially and directly to coverage of the Cuban Embassy and Consulate in Mexico and is considered highly successful and essential by Station Mexico City. It has produced a large quantity of excellent photographs of target personnel and visitors and has furnished valuable data on their patterns of activity and personal associations. It has also rendered valuable support to Station recruitment attempts against Cuban Embassy personnel and maintains an ever ready facility for support of any technical penetrations of this target accomplished by other Station activities. The Project has had no security or administrative problems. The Station has submitted regular progress reports.

W. J. Kaufman
C/WH/1

LIONION PROJECT RENEWAL

A. Current Objectives: This Project is a technical, currently primarily photographic, surveillance operation against the Cuban Embassy and Consulate in Mexico City. Its original objectives, still current, include furnishing photographic coverage during daylight hours of the Embassy and Consulate entrances; furnishing a control point for dispatching physical surveillance teams against persons associated with the target; and furnishing a listening post (LP) in readiness to monitor and record technical audio penetrations of the target. Two new objectives added during the Project year include assisting Station Mexico City to build up individual dossiers on target officials; and affording an observation post for Station activities involving direct contact with the target. These new objectives are in consonance with Priority A, Objective 1 of the current Related Mission Directive for Station Mexico City.

B. Changes: There have been no changes in personnel and none are contemplated during the coming year. Headquarters is assuming the task of developing some of the film exposed under this Project. LIONION-1's pay was increased $40 per month effective 15 March 1965.

C. Intelligence Production: The Project is not designed to produce disseminable information. It produced thousands of excellent photographs during the year which were shared with Headquarters and Station JMWAVE. Information on the comings and goings of target personnel and visitors to the target have been incorporated into many Station files, principally the dossier files. No precise statistics are available, but at least 100 exposures are made daily during target working hours.

D. Effectiveness: The Project is considered highly successful and essential by the Station. In addition to the excellent photographic coverage provided, LIONION-1, the Principal Agent, has developed into a first-class asset for other operational duties. The Project Basehouse was essential to mounting and monitoring the Station's attempt at recruitment and subsequent harassment of a sensitive target employee. The Case Officer in charge of the attempt sat with LIONION-1 for several weeks observing the movement pattern of the target employee. LIONION-1 manned one of the radio dispatch posts used to control the physical surveillance of the target employee while near the Basehouse.

Without the Basehouse and LIONION-1's expert knowledge of the target personnel and activities, such an operation could not have been mounted. The operation itself was an attempt to satisfy the top priority requirement laid on Station Mexico City by Headquarters. It is expected that future similar operations will depend to a large extent on the facilities provided by this Project.

Another very effective performance by LIONION-1 was his obtaining, by sharp observation and quick, intelligent and secure action, an apartment in a building directly across the street from the target. The Station had been seeking an apartment in this building for many years.

E. Problems: The only problem currently besetting the Project is the excessive work load on the Principal Agent. To alleviate this, Headquarters is assuming the task of developing some of the film produced by the Project.

Cover for LIONION-1 has ceased to be a problem. He has received his permanent immigrant status and now has a good deal of immunity from harassment from Mexican immigration authorities. He was able to get his translator cover backstopped directly out of the Office of the President of Mexico and thus has a strong protective security factor built into it.

F. Liaison: The Project has no liaison connection. LIONION-1's cover backstop with the Office of the President of Mexico is non-operational.

G. Interagency Coordination: Not applicable.

H. Plans: It is planned to make better use of LIONION-1's observations and operational logbooks during the coming year rather than to settle for his excellent photographs alone. It has been found that he can often supply valuable additional information because of his "feel" for those persons who are under constant observation from the Basehouse. He can read significance into activity which might go unnoticed or be misinterpreted by observers with less experience. He will also be called upon for assistance in future recruitment operations similar to the case mentioned in paragraph D above. Several such operations are being contemplated for calendar year 1966, the period for which the Project renewal is being requested.

I. Costs: For calendar year 1965:

In the period 1 January through 31 October 1965, $7,218.20 has been expended. At this rate, some $9,200.00 will be expended by the end of the calendar year 1965.

Monthly costs:

Salaries:	LIONION-1	$ 360.00
	LIONION-2	150.00
Rents:	LIONION Basehouse	100.00
	LIONION Safehouse	44.00
	Utilities	25.00
Supplies:	Film	95.00
	Paper	60.00
	Chemicals	25.00
Miscellaneous Operational Expenses:		15.00
	Monthly Total:	$ 874.00

One-time costs:

It is customary in Mexico to give a year-end bonus amounting to one month's salary:

LIONION-1	$ 360.00
LIONION-2	150.00
Total:	$ 510.00

3. Calendar Year Total

Fixed monthly expenses	$ 10,488.00
One-time expenses	510.00
Total	10,998.00

4. Fiscal Year Breakdown

Fiscal Year 1966	$ 5,244.00
Fiscal Year 1967	5,754.00
	10,998.00

J. Other: LIONION-2, although not specifically mentioned above, continued to render excellent support as an assistant to LIONION-1.

MEMORANDUM FOR: WH/EXO

SUBJECT : LIONION Project

1. LIONION is a new project which is submitted in the amount of $10,478. This is a photographic surveillance operation targetted against the Cuban Embassy in Mexico City. Two agents are involved; LIONION-1, a young Cuban lawyer in exile, and LIONION-2, his mother. The agents act as observers and photographers. LIONION-1 is also used as a dispatcher for the LIEMBRACE surveillance team, from which he is compartmented, to cover individuals associated with this target. These agents were previously used in connection with the unilateral telephone tap operation against the Cuban Embassy. The current photographic operation began in the latter part of 1962, and was previously funded under Cuban FI funds. The operation has provided valuable data for the identification of Cuban Embassy personnel and visitors, and on their patterns of action and personal associations.

2. The security of this operation, particularly the agent's cover for status and the communications arrangements, appear reasonably sound. Both agents know that they are working for AIS, and LIONION-1 was successfully FLUTTERED in October 1963. However, LITAMIL-7 and LITAMIL-9, who are penetrations of the Cuban Embassy, are aware of this activity, as they are used to help identify individuals photographed.

3. Approval for the LIONION Project is recommended. It is requested that, in order to assist Headquarters' evaluation, project reporting include details of CI/CE data furnished, and examples of leads developed from such information.

GERARD DROLLER

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT : Approval of Project LICHION

1. Approval is requested of the attached LICHION Project Outline, and authorization of an annual expenditure, effective 1 January 1965, of $10,478 (FY 65-$5,004; FY 66-$5,474). Funds are available for this project.

2. Mexico Station agents LITAMIL-7 and LITAMIL-9, penetrations in place of the Cuban Embassy, are aware of the existence of the LICHION photographic activity. This knowledge on the part of these two assets is essential to the exploitation of the photographic take.

3. WH/1 recommends approval of the LICHION Project.

SUBJECT	AQUATIC KDAFGHAN KDFACTOR ~~Replacement of Telephoto Lenses~~	

Reference: MEXICO CITY 15654

1. Two of the Station photographic operations, KDFACTOR and KDAFGHAN, have been using the [illegible] and [illegible] Balscope and [illegible] camera combination for approximately twelve years. These two operations provide valuable photographic coverage of two important targets and new equipment is required to improve the photographic quality and increase the capability for longer coverage during the day when light conditions are poor.

2. The Balscope in the KDAFGHAN-1 OP has a 15 X eyepiece and is located in a very small room. A full length true telephoto lens of 1000 mm will not fit into the space without taking out a concrete wall partition. Therefore a compact catadioptric lens is required for the project.

3. The Balscope in the KDFACTOR-2 OP should also be replaced by the same type of lens system mentioned in paragraph 2. The Balscope now in use is operated from the top of a table where KDFACTOR-2 must also stand to take pictures over a high wall in the foreground. The system must be removed from the table when not in use and stored in a locked foot locker. For these reasons the lens and camera should be light and compact to facilitate their use and storage.

4. As can be seen from paragraphs two and three a light weight compact lens system is desired for both projects and the Station

DISPATCH

AUDIT Report

[illegible]-8100787

November 1963, and we recommended that the matter be investigated. The current audit disclosed that little or no action has been taken on this matter.

Recommendation: We recommend that the Station determine whether FREAPANE owes WOFIRM for 1963 [illegible] company profits, and notify FREAPANE of the results of the investigation.

Safehouse Rent in Excess of Lease Not Adequately Documented

[illegible] The most recent lease for the LIONION safehouse (MEXI-82) was dated in 1962 and provides for monthly rental payments of MN 650. Since then, the rental payments have been increased to MN 1,450 per month, but the lease has not been changed because, in accordance with local custom, the landlord is reluctant to enter into a new lease due to the costs involved and the income tax implications.

Recommendation: We recommend that a memorandum for the record showing the revised rent be prepared and approved by the Chief of Station or other designated Station official.

Revision of Education Allowance Requires Adjustment of Amounts Paid

Education allowances for Mexico City were revised for some grades during the current school year; however, the Station did not retroactively adjust the allowances already paid, as required by section [illegible] of the Standardized Regulations.

Recommendation: We recommend that education allowances paid for the current school year be recomputed and adjusted to the revised allowances.

Proceeds of Property Sale Not Recorded in Finance Records

14. In our review of property transactions, we noted two instances (Vouchers [illegible] and [illegible]) where accountability was dropped because, according to the property vouchers, the property

AQUATIC/LIONION
Technical Information

Reference: HMMA 31767 dated 11 April 1967

1. LIONION 1 photographic results continue to be satisfactory for all concerned. It is therefore advisable that no changes in procedure be made at this time.

2. It is apparent that LIONION 1 relayed the incorrect developing formula for the pulse camera film. Perhaps this error is due to his inactivity in processing such film for over a year. Since the conception of this operation all pulse camera film has been developed in Microdol X. On the other hand, Tri X film used in the LIONION 2 operation (Pentax camera and Balscope) has traditionally been developed in Acufine.

3. All pulse camera film is processed at Headquarters by an automatic Huston system. Time and temperature information which the lab uses would be of little value to your development procedure. The results of your recent test indicate that it should be satisfactory for an occasional check on the equipment.

4. The difference between Plus X Negative and Plus X Pan film is worth only one half "f" stop, which should cause no problem if you decide to use the latter.

FROM
Chief of Station, Mexico City

SUBJECT
AQUATIC/LIONION Pulse Camera

ACTION REQUIRED - REFERENCES

Action: See paragraph 5.

1. The LIONION Pulse Camera has been working for well over a year with no major technical problem. A few months ago the 100 foot film magazine had to be repaired because the supply spindles had tightened and put an excessive strain on the motor.

2. More recently, the battery supply had dropped to about 22.5 volts or so causing erratic operation. The sensor relay between the VLS-2 and the camera suffered the most because of chattering and consequently arcing between the points.

3. To prevent failures of this type in the future, Raymond L. BARCENAS is making a small battery charger at a nominal cost that can be floated across the batteries keeping them fully charged. We are doing it this way rather than ordering a DC power supply because it is less expensive than a commercial model and will not be bothered by house current interruptions or fluctuations. If however, WOACRE/PB foresees any problems by doing it this way, please inform us.

4. On a recent visit to LIONION and a check of the equipment, it was found that the lens of his FOCOMAT 1C enlarger has a fungus like smudge between the elements. We cannot detect any degradation in print quality but would like to have a new one in case this is a fungus and it gets worse.

5. In summation it is requested that WOACRE/PB provide the following to Mexico City, charge 7135-2403.

a. Sensor Relay believed to be a Potter-Bromfield 5A5089 but please check;

b. Comments on the power supply;

c. Lens for a Leitz FOCOMAT 1C.

SUBJECT
AQUATIC/PBRUMEN/LIONION -- Transmittal of 35mm Pulse Camera

ACTION REQUIRED - REFERENCES

Reference: MEXI-3960

1. The attachment contains the defective 35mm Pulse Camera previously reported in referenced cable. Very little additional information can be supplied, concerning this mechanical failure, other than that reported in the reference. This particular camera was installed on 16 June 1965 and operated normally from that date until the afternoon of 28 June, at which time it began to continually blow fuses. Hugh T. FRANCOTTE entered the LIONION photographic basehouse that night, and when it was found that the problem could not be corrected on the scene, the camera was removed and taken to MKCHARITY for further troubleshooting. It was finally discovered that the shutter motor was malfunctioning and partially burned-out. Joseph M. RESCIGNO stated that since there was a definite "short" in the motor, this would cause the camera fuses to constantly blow.

2. Also included in the attachment are two (2), one hundred foot capacity, film magazines. Both of these magazines are faulty, causing the film to jam. They were both in use with the previous Pulse Camera which became inoperative during late May and was forwarded to KURIOT Headquarters for repair. FRANCOTTE had two (2) new magazines in stock, and they were issued to LIONION/1 for use with the camera presently being returned for repair or replacement.

TO: Chief, KURIOT Attn: Peter T. SWINEHART

INFO.: Chief, WH Division

FROM: Chief of Station, Mexico City

SUBJECT: AQUATIC/Operational -- Availability of the Nikon Television System

ACTION REQUIRED - REFERENCES

1. At the time of Hugh T. FRANCOTTE's departure from Headquarters, KURIOT had recently begun an extensive evaluation of the Nikon closed circuit television system. If this particular system is now considered "operational", FRANCOTTE wishes to be so advised, as there may be a possible application for it in support of an operation at the Mexico City Station. Lawrence F. BARKER was recently briefed by FRANCOTTE on the Nikon system, and is now interested in obtaining additional facts concerning it. BARKER, who is responsible for the LIONION Project, foresees a possibility for its use in the LIONION photographic basehouse.

2. It was thought that perhaps the system could be further "operationally tested" at this basehouse, and at the same time, the Station could examine the possibility of a permanent installation. Presently, LIONION/1 is utilizing a Balscope and Pentax camera for obtaining photographic coverage of the entrance to the PBRUMEN Embassy. Provided the television camera could be equipped with a telephoto lens of about the same focal length as the combination of the Balscope and 20X eyepiece, this system might be a suitable substitute for the equipment now in service.

3. It is requested that the Mexico City Station be advised if the Nikon television system is available, and Headquarters thoughts concerning the testing of it at the LIONION basehouse.

SUBJECT
KDFACTOR Project Amendment

ACTION REQUIRED - REFERENCES

1. Project KDFACTOR was amended 10 December 1971 for $4,260 for FY 1971 to cover the termination bonuses for KDFACTOR-1 and KDFACTOR-7. The Project amendment also provides funds of $19,000 for FY 1972 and $20,000 for FY 1973.

2. One of the provisos of the Project amendment is that the Station furnish Headquarters an updated security review of this operation with particular attention of the knowledgeability of terminated agents and their families. The Station should also address itself to the contingency that the present sites or personnel will be blown and investigate alternate means of continuing the KDFACTOR coverage. Please forward the security review to arrive at Headquarters no later than 15 March 1972.

SUBJECT: Turnover of LIEMPTY Project

ACTION REQUIRED - REFERENCES

ACTION REQUIRED: None. For your information.

REFERENCE : HMMA-39,679, 28 October 1970

1. Primary responsibility for the operational and administrative handling of the LIEMPTY Project was transferred, effective 1 December 1970, within the Station from the REDTOP to the Operational Support Section. This transfer was made as part of our effort to consolidate basic support functions in the Operational Support Section, and to relieve the REDTOP Section of activities which do not contribute directly to the pursuit of priority recruitment targets. However, the REDTOP Section will continue to be the principal consumer of the LIEMPTY product as received from the LILYRIC and LICALLA photo surveillance points. It will also be the main provider of guidance and requests for special LILYRIC/LICALLA coverage.

2. The previous REDTOP Case Officer (Bruce H. FERNALD) introduced the new Case Officer, Howard T. BAGAUS, to LIEMPTY-9, -13, and -14 in early December. LIMOUSINE, owner of the LILYRIC property, will continue to be handled by Timothy M. ARCHBOLD of the REDTOP Section.

HMMA 35208, 8 August 1968

LIEMPTY/6 terminated amicably and resettled by his son-in-law - was content with termination bonus of $4,736. Following termination, effective 31 May 1968, the LIMITED base house went out of existence - station did not retain apartment since coverage from LILYRIC is completely satisfactory. LILYRIC personnel have done such good work that station now has better coverage than ever and at less cost.

SUBJECT
C LIEMPTY Properties

ACTION REQUIRED - REFERENCES

REFERENCE: HMMW-15952, 27 November 1967

1. Headquarters' confusion regarding the various LIEMPTY properties is understandable, although each change in location was duly reported as it occurred, and at various times project renewal requests, progress reports, and other correspondence has pinpointed the locations of the base houses involved. The confusion undoubtedly stems from the unfortunate fact that LIMITED and LILYRIC in effect exchanged approximate locations in 1966 without changing cryptonyms. Up to this point, LIMITED had been in a building owned by WOFIRM (with LIMOUSINE fronting for WOFIRM). LILYRIC had been renting an apartment in a building in which WOFIRM had no financial interest. In 1965, however, LIMOUSINE bought the property containing the building in which LIMITED had been located, razed the building, and built a new building in which an apartment was rented to the Station (the rent, however, was to be returned to the Station for three years as partial payment on the loan which the Station had given LIMOUSINE so that he could buy the building). For various operational reasons it was decided to put the LILYRIC personnel into the new building, instead of the LIMITED crew. LIMITED was therefore moved into the building which LILYRIC had occupied. At this point, of course, new cryptonyms should probably have been assigned in order to avoid the confusion which has evidently developed. (This was not, however, simply a switch of personnel - each base house retained its organizational integrity, which is undoubtedly why crypts were not changed). As far as LICALLA is concerned, the confusion

HQS FILE NUMBER
50-6-74/2

probably stems from the fact that, while its location has not changed, it is located within the LIMUST building, which is owned by WOFIRM (with LIMOUSINE acting as "front") and which is administered within the LIMESA project. As stated, however, all of this has been carefully documented for Headquarters. The LIMOUSINE purchase of the old LIMITED building generated considerable correspondence (see particularly MEXI 2159 and DIR 77745 of January 1965). HMMA-28322 and HMMA-30403 spelled out the reasons for switching LILYRIC and LIMITED, and the completion of the move was reported in HMMA-30687. Finally, sketches and plans of the LILYRIC and LIMITED houses in their new locations were forwarded with HMMA-31303, dated 7 February 1967. As far as LICALLA is concerned, its location and status was never open to question, and its location in the LIMUST complex is regularly mentioned in LIMESA progress renewal requests. The Station understands that a memo describing the locations of the various base houses was attached to the most recent LIMESA project renewal request when it was submitted to the staffs by WH/1.

2. Personnel within the base houses is also well-documented (most of the LIEMPTY progress reports have identified each agent in each house), and the personnel have never been switched from house to house. Perhaps the best rundown of these personnel is Raymond H. GERENDE's security review, forwarded with HMMA-31164, 24 January 1967.

3. Station Real Property reports are also, with one exception (MEXI-41), up-to-date and they reflect current conditions. MEXI-03 does, of course, include LICALLA. Nevertheless, the Station asked for $1800 for rent and utilities for the following reasons: first of all, utilities are an unrecoverable expense no matter who owns the apartment. Secondly, the rent, even though returned to the Station because WOFIRM owns the building, must physically be paid by the occupant of LICALLA. He, in turn, is reimbursed by the Station via GERENDE. LIMOUSINE eventually returns the money, at which time it is credited to expense. This could, of course, be handled differently, but the Station has always found it convenient to finance in this manner, largely because finances with LIMOUSINE are handled on a semi-annual basis. The reimbursement, therefore, often comes many months after the payment.

4. The Station neglected to cancel MEXI-41, which should be done as it refers to LILYRIC in its old location, before the move in 1966. LILYRIC is now MEXI-132, and is in the building owned by LIMOUSINE. Rent payments are, as originally intended, being used to help liquidate LIMOUSINE's debt, and, as instructed in HMMS-4814, 15 June 1966, the Station is crediting this money to miscellaneous receipts. There can be, therefore, no question of the need to include money for LILYRIC rent and utilities in the LIEMPTY project. LILYRIC rent is, and has been since the apartment was occupied in October 1966, 3,000 pesos per month, which amounts to $2,880 per year ($3,200 has been requested in order to include utilities). Headquarters is correct in stating that the agreed-upon figure for the rent in this new building was 2,300 pesos per month. Station files indicate that the reason for the increase (and this apparently was not reported to Headquarters) was that the bank which holds the major part of LIMOUSINE's loan had determined that 3,000 pesos was a fair price for the apartment. The Station had, of course, no choice but to go along with this.

5. The Station has no record of MEXI-02, but it is likely that this is the old LIMITED apartment, which was indeed purchased by WOFIRM (via LIMOUSINE) in 1955. But since that building was later purchased and razed by LIMOUSINE, the old LIMITED apartment ceased to exist. The LIMITED base house was subsequently transferred to the building which had previously housed LILYRIC (but not to the same apartment), and LIMITED is

now carried, in its current location, as MEXI-113. As was the case with old LILYRIC, the rent money is not returned to the Station; WOFIRM has no financial interest in the building. Thus it is evident that the LIEMPTY project renewal, which used to say "LIMITED and LICALLA rents are returned to Station by LIMOUSINE and credited to Station miscellaneous receipts" should now carry the footnote "LICALLA rent is returned to the Station and credited to expense; LILYRIC rent is, and will be through September 1969, returned to the Station by LIMOUSINE and credited to miscellaneous receipts as partial payment on Station loan to LIMOUSINE."

6. Finally, the LIEMPTY darkroom is the room where the films taken by LICALLA, LILYRIC, LIMITED, and LIENTRAP are developed, printed, and (on request) enlarged by LIEMPTY-4. This darkroom is located in GERENDE's apartment, and he is paid 1,000 pesos per month for maintenance of the darkroom in recognition of the fact that one room in his living quarters has been turned into a darkroom, and his electric and water bills are substantially higher than they would normally be without a darkroom on the premises. GERENDE is building a house which he expects to occupy in February 1968. His plans for the house specifically include a LIEMPTY darkroom, and he will continue to be paid 1,000 pesos per month for this. To cover this payment in the new house, MEXI-137 has been written and will be forwarded to Headquarters shortly.

7. In answer to paragraph 5 of reference, it is hoped that the following summary will end the confusion:

a. LICALLA

(1) MEXI-03
(2) Address under separate cover (Identity-1). [illegible]
(3) LICALLA has been in operation at its present location since 1956, originally as a rented property. In September 1957 the building in which LICALLA is located (which consists of four units, collectively known as LIMUST) was purchased by the Station, with LIMOUSINE acting as a front.
(4) Actual cost is nothing, since property is owned by WOFIRM. The original purchase price for the four units was $40,000.00 with an additional $20,000.00 spent on renovation. Rent is paid for cover purposes at the annual rate of $1,248.00
(5) Cost of utilities is estimated at $552.00 annually.
(6) Since June 1957, LIEMPTY-9 (originally LIPSTICK-39) has operated the LICALLA base house. No other LIEMPTY agents are associated with LICALLA.

b. LIMITED

(1) MEXI-113
(2) Address under separate cover (Identity 2)
(3) LIMITED has been in its current location since December 1964, and it is a rented property. At its previous location, the LIMITED base had been in operation from 1953 until September 1964.
(4) Annual rent is $1,440.00
(5) Annual cost of utilities is estimated at $560.00.
(6) LIEMPTY-6 (originally LIPSTICK-14) has operated the LIMITED base house (in both locations) since 1955. No other LIEMPTY agents are associated with LIMITED.

c. LILYRIC

(1) MEXI-132

(2) Address under separate cover (Identity 3)

(3) LILYRIC has been in its present location since October 1966, when the new building was completed and ready for occupancy. It is a rented property, although for three years beginning 1 October 1966 the rent is to be returned to the Station as partial payment on a loan to LIMOUSINE. This loan was made to permit LIMOUSINE to purchase the property and construct the building in which LILYRIC is located. This property had previously belonged to WOFIRM and had contained the building in which LIMITED had been located. LILYRIC was previously (November 1956 to September 1966) located in a rented property (the same building, but not the same apartment, in which LIMITED is now located).

(4) Annual rent is $2,880.00.

(5) Estimated annual cost of utilities is $320.00.

(6) LIEMPTY-13 (originally LIJERSEY-2) has operated the LILYRIC base house (in both locations) since LILYRIC was established in 1956. He is supported by his wife (LIEMPTY-14), and his son (LIEMPTY-27). Another son, LIEMPTY-26, has also worked in LILYRIC. (Because LIEMPTY-13 has a full-time job, LIEMPTY-14 does most of the photographic work, assisted by LIEMPTY-27. LIEMPTY-13 does some of this work, and makes all meetings with GERENDE.)

d. LIEMPTY photo lab.

(1) MEXI-137

(2) Address (as of February 1968) under separate cover (Identity 4).

(3) Actually, no property as such is involved here. The Chief of Station authorized payment to GERENDE for the use of a room in his quarters as a darkroom in 1964, after GERENDE was moved out of a base house in which he lived (rent-free) and maintained the dark room.

(4) and (5) Annual cost is $960.00, including utilities.

(6) The occupant is GERENDE, although the photo processing is normally done by LIEMPTY-4.

8. It is hoped that the above will shed some light on the problem; the Station will be glad to answer any further questions Headquarters may have.

Chief of Station, Mexico City

Admin/Finance - Station Accounting for December 1967.

ACTION REQUIRED: Paragraph 3.

REFERENCE : A. HMMT-8387
B. Book Dispatch 0279

1. Attached is a copy of the subject accounting. The original was forwarded to the Office of Finance by reference A.

2. As requested in reference B, there are no FY-1966 unliquidated obligations. FYI: FY-1967 unliquidated obligations are as follows:

SUPPORT	$1,764.05
LIHALO	232.15
LIP	169.45
LILISP-X	2,023.50

In reporting upon receipt of [illegible] refunds for safehouse rent collections for the period January thru June 1967, Projects LIMESA and LIEMPTY will be credited in like amounts.

3. It is requested that FY-68 advices of suballotments for all Station's activities be forwarded as soon as available and that "Notifications of Project Approval Action" for Projects LICONGA and [illegible] be amended to increase FY-68 funds available in the field as follows:

LICONGA - to $9,700 (for quarters, operational travel, rental of safehouse, and miscellaneous operational expenses).
[illegible] - to $20,000 see HMMA-33489.

Attachment:
As Stated Above.

SUBJECT
LIEMPTY Properties

ACTION REQUIRED - REFERENCES

1. The presence of so many new desk personnel at headquarters - people who are unfamiliar with station history - means that we must turn to you with questions oftener than you might wish. Our present question concerns property involved in LIEMPTY. (We are submitting the project as received from the field, but do not understand the background very well.)

2. HMMA-11257 of 16 January 1959, a project renewal, said that "approximately one year ago the LICALLA base was purchased by KUBARK through LIMOUSINE", and we have not found any cables or dispatches which would show a change in that status. Does MEXI 03 LIMUST/LIMESA (see Real Property Report of August 1967) include LICALLA? If so, and if we own LICALLA, why does it cost us $1800 a year for rent and utilities? (Up until the submission dated 1963 the project renewal used to say "LIMITED and LICALLA rents are returned to station by LIMOUSINE and credited to station miscellaneous receipts" but after that time this sentence was eliminated.)

DISPATCH

3. LIMITED is a different problem complicated by the fact that we are no longer sure what the name refers to. Originally we bought LIMITED and then sold it in January 1965 to LIMOUSINE who put up a new building on the lot and saved an apartment for our use. LIMOUSINE now owns the new building, but "MEXI 02, LIMITED Safehouse" is shown on the Real Property Report as "purchased" by WOFIRM in 1955 - should this not be corrected? A further complication is that HMMA -31164, GERENDE's January 1967 security review, speaks of LILYRIC in its present new location, inhabited by LIEMPTY/13, /14 and /27. Has the old LIMITED been re-christened LILYRIC because of its new inhabitants? When was it completed and are we still withholding rent from LIMOUSINE in settlement of his payment to us for the property. The REAL Property Report shows LILYRIC, MEXI 41, as having been leased in 1958 and costing $1030 to maintain ($856 rent, $44 reparis, and $130 utilities). It also shows MEXI 132 LIMEPTY, LIMOUSINE, LILYRIC as having been rented in October 1966 for $2880 a year (which is more than the 2,300 monthly rent for the flat in his new building which LIMOUSINE agreed that we would withhold for a period of two years after completion in partial settlement of his purchase of the LIMITED property.) (HMMA 25310, 3 February 1965.)

4. What does the LIEMPTY darkroom consist of?

5. We are, as you can see, confused. Would you be kind enough to send us a brief summary of each of the four LIEMPTY properties.

a. name and property (MEXI) number

b. address (under separate cover)

c. date purchased, sold, rented, etc.

d. Basic cost (original cost if purchased, annual cost if rented)

e. cost of utilities

f. occupants

6. If rental money which we pay out for cover reasons is subsequently returned to us, should it be included in a project?

H. B

Theresa H. BACHARDY

SUBJECT: LIEMBRACE/LIEMPTY - Transfer of Responsibility for the LIENTRAP Vehicle

ACTION REQUIRED - REFERENCES

Action Required: For your information

References : MEXICO CITY-2600
MEXICO CITY-2654

1. In July 1967 the responsibility for the LIEMPTY Project passed from the Station Support Section to the REDTOP Section, where it more reasonably belongs. However, the LIENTRAP segment of the LIEMPTY Project has little to do with REDTOP activities and more rightly belongs in the Support Section. The Station, therefore, decided to transfer the LIENTRAP vehicle, LIEMPTY-10 and LIEMPTY-11 to the LIEMBRACE Project with LIEMBRACE-3 to be the Principal Agent. This decision was based on both security and operational efficiency considerations. The formal change of command was made on 10 August 1967 in a meeting between GERENDE, LIEMPTY-10 and LIEMBRACE-3.

2. Certain members of the LIEMBRACE surveillance team were already knowledgeable of the existence of the LIENTRAP vehicle and its operators from past operations and also from the old LIPSTICK Project. Conversely, LIEMPTY-10 was knowledgeable of the existence of the surveillance team and knew some of the members of the team (LIEMBRACE-4 is the step-son of LIEMPTY-10). By placing the vehicle under the command of LIEMBRACE-3, there was no breakdown of compartmentation.

continued...

Distribution:
3 - Chief/WHD

16 Oct 67: Oral message sent back to station via Al Reynolds to the effect that we feel it impolitic to present a surveil ance poject in the neighborhood of $62,000, so please keep the truck under LIEMPTY for admin. purposes (and use it anyway you want.) C/WH/1 did not want to send a written message on this. NP

CROSS REFERENCE TO: 50-6-74

DISPATCH SYMBOL AND NUMBER: HMMA - 33059

GROUP 1

DATE: 12 September 1967

CLASSIFICATION: SECRET

HQS FILE NUMBER: 50-6-72/1

3. On the other hand, the LIENTRAP vehicle was the most vulnerable part of the LIEMPTY complex and a roll-up of the truck could lead to Raymond H. GERENDE, Principal Agent for LIEMPTY, and from GERENDE to the sensitive LIEMPTY photo basehouses. Thus, by attaching the LIENTRAP vehicle to the LIEMBRACE surveillance team we have actually improved the security of the LIEMPTY Project somewhat.

4. On the operational efficiency side, the benefits which will accrue from having the truck tied-in with the surveillance team for use in dispatching are obvious. In many areas of the city, such as around the market areas and third class hotels, an ostensibly empty truck attracts much less attention than a person on foot or even a passenger car. The ability to dispatch a target and at the same time take photographs of the target and any companions has its operational advantages. Hopefully, in some of the target-of-opportunity coverages now provided by the surveillance team, it will be possible to take photographs of the person with whom the PBSTEAL officer meets. Certainly, if the team takes an unidentified subject home after a target-of-opportunity discovery, by allowing the team leader to place the photo truck on the home we will speed-up the receipt of photographs.

5. LIEMBRACE-3 was told that LIEMPTY-10 and 11 have certain accomodation addresses which they must check on a routine basis and that any assistance given the LIEMBRACE team should not interfere with this task. It was stressed to LIEMBRACE-3 that under no circumstances should team members transport or otherwise assist in the servicing of the accomodation addresses. LIEMBRACE-3 was briefed on the normal activity of the LIENTRAP truck in providing photographic coverage of addresses in which the Station has an interest. As for handling the use of the truck, the following caveats were laid upon LIEMBRACE-3:

a. LIEMBRACE-3 should discuss the normal activities of LIENTRAP only with LIEMBRACE-1, the assistant team leader.

b. The truck is not to be used in active mobile surveillance without the approval of the Station.

c. The truck will be used for dispatching purposes only in those areas in which passenger vehicle and/or foot dispatching are not feasible.

d. LIEMPTY-10 and LIEMPTY-11 will not be used for active surveillance nor will they be introduced to team members who do not presently know their true identities.

6. Operationally, the efficacy of the use of the LIENTRAP truck in coordination with the LIEMBRACE team has been proven in the coverage and surveillance of a letter-drop on Mexico City. Please see references for details of this operation, which could not have been accomplished in a secure manner without the truck assisting the team. No problems have been noted as a result of the change in command structure for the LIENTRAP truck.

7. Financially, one possible problem is evident in the new arrangement. Headquarters has limited the costs of the LIEMBRACE Project to US$ 50,000 per year and it will not be possible for the Project to remain within this figure with the LIENTRAP vehicle and personnel included therein. The Station does not see this as a great problem because the Operational Program includes the cost of those assets in the LIEMPTY Project and the transfer will merely mean a decrease in LIEMPTY equal to the increase in LIEMBRACE.

for/Willard C. CURTIS

[illegible] Support

14. As approved by Headquarters, the present LIENTRAP vehicle will be replaced by a new Ford "Econoline" truck in the near future. Before the old LIENTRAP vehicle is sold, it will be used to cover residences of the FJSTEAL/NYXIS opposition who are living in Mexico City.

HMMA - 32068

SUBJECT: LIMOUSINE/LIEMPTY/LILYRIC - Occupants of Building at Gelati #2

ACTION REQUIRED - REFERENCES

Action Required: For Your Information

References : A. HMMW-15157, 18 January 1967
B. HMMA-31303, 7 February 1967

1. Station wishes to correct somewhat the information provided in Reference B. Because of changing of plans and an error on Raymond H. GERENDE's part, the number of floors of the building located at Gelati #2 was given incorrectly in Reference B. The plans forwarded as attachments to Reference B were correct. The description in the dispatch should be corrected to show a ground-floor, three floors with two apartments each and a penthouse.

2. The occupants of the building, all of whom were checked and approved by the Station before leasing are:

Ground Floor Business - A beauty salon is located on this floor which is operated by Nelly Infante de Garcia. Her lease was signed on 1 December 1966 and is valid until 31 May 1969. She pays $152.00 US per month rent.

Second Floor - Apartment 1 - Dr. Hector MUNOZ Franco. His lease was signed on 1 September 1966 and is valid until 31 August 1967. He pays $128.00 US per month rent.

Apartment 2 - Alicia MADRIGAL Osorio rented this apartment on 1 November 1966 and she plans to vacate at the end of April 1967. She pays $84.00 US per month.

Chief of Station, Mexico City

SUBJECT
LIEMPTY/Status of LIEMPTY-5

ACTION REQUIRED - REFERENCES

Action Required: For Your Information

Reference : HMMW-15270, 23 February 1967

1. LIEMPTY-5 is the wife of LIEMPTY-4, the operator of the photography base used in processing the pictorial take received from the various units within the LIEMPTY complex. As such, she sometimes assists LIEMPTY-4 in the photo processing work. She is carried as a part-time basehousekeeper because she must remain at home as added security when photographs are being processed and/or being held until the scheduled meeting between LIEMPTY-4 and Raymond H. GERENDE takes place and the photographs passed for onward transmittal to the Station.

2. The Station regrets that LIEMPTY-5 was not included in the last Project Renewal Request, but the oversight probably resulted because LIEMPTY-5 does not receive a salary at the present time. The Station wishes to keep her present Memorandum of Oral Commitments, which calls for an hourly salary, in effect in case her services as a salaried asset are needed in the future.

MEMORANDUM FOR: Chief, CCS

FROM : WH Division

SUBJECT : Project Funding Plan/Project LIEMPTY (FI)

A. Identification of Activity

1. Project cryptonym: LIEMPTY

2. Approved for: 1 December 1965 - 30 Nobember 1966:
$41,500
FY 1966 - $25,520
FY 1967 - $15,980

3. Proposed successive fiscal year budget: Same

4. Brief statement of project aims, character and structure:

The purpose of this project is to provide support for mobile (1 truck) and stationary (3 base houses) photographic surveillance; one base house is also used as a dispatching base for a physical surveillance team. This project covers one Mexican Contract Agent who serves as Principal Agent for the eight Mexican field agents under the Project.

B. Funding History

1. The Contract Agent receives his salary directly from the Mexico City Station Case Officer ($540/month). He also receives money from the Station which he uses to pay the field agents their salaries (total of $1.700/month) and operational expenses. Receipts are received.

2. Funds have always been handled in this manner.

24 November 1958

MEMORANDUM FOR: FI/OPS-Projects Branch

SUBJECT : Justification for Automobiles under Project LIEMPTY

1. It is requested that the Mexico City Station be authorized to purchase three used sedans for use by the LIEMPTY surveillance team. The Station plans to expand the LIEMPTY surveillance team into a larger, well-trained physical surveillance asset. They will need three automobiles. Private automobiles or commercial transportation will not be satisfactory since the cars must be outfitted with two-way radios.

2. Authority is also requested to purchase a panel truck to be used in the LIEMTRAP operation under this Project which mounts mobile photographic surveillances.

3. It is also requested that a quasi-personal car be authorized for Oliver C. Scantling (ps). Scantling is an indigenous agent under oral contract. A car is a prerequisite for his work for KUBARK which includes casings, surveillances, and investigations. Because of the sensitive nature of his work, and the heavy use made of the car, the Station has decided that Scantling should be furnished a QP car.

4. LIEMPTY agents were formerly carried under the [illegible] and LIPSTICK Projects. The vehicles used by the LIEMPTY agents under these other Projects will be disposed of and new ones will be purchased after the above TVA has been approved. The vehicles which will be replaced are MV 2148, MV 2147, MV 2138, and MV 2041. One of the surveillance cars will be new and will not replace an old car. It was decided that these vehicles should be replaced rather than transferred to the LIEMPTY Project for security reasons and because of the age of the automobiles. The automobiles are 1951 and 1952 models and have been used for sensitive surveillance work for over two years. The panel truck which was used in the LIEMTRAP Operation under the LIPSTICK Project has been operating for two years in all parts of the city and has become a security threat. The fact that the LIPSTICK surveillance team knows that the truck exists, even to the point that one of the team members is the listed owner of the truck, also dictates replacement of this vehicle.

MEMORANDUM FOR: WH/Personnel

SUBJECT : Request for Staff Agent ~~to fill~~ BAP-8100 Slot in Mexico City

1. It is requested that WH/Personnel locate a Staff Agent to fill the BAP-8100, IO (FI), GS-12 slot in Mexico City which was recently vacated by Wilfred O. CLOWER(ps).

2. This Agent must be bilingual in Spanish and should have operational experience, especially in physical surveillance techniques. It would be helpful if the candidate also has area knowledge. He will be expected to spot, develop, recruit, and direct surveillance assets.

3. It is requested that a suitable candidate be located as soon as possible so that the Contract Agent now performing these functions can be relieved of this responsibility and can devote his time to other tasks.

FROM: Chief of Station, JMWAVE

SUBJECT: AKULE/MHSPAWN/AMMOP
Plans for ODCA Mid-April Congress

ACTION REQUIRED - REFERENCES

REF: JMWAVE 0180

1. The purpose of this dispatch is to report the comments of AMMOP-1 on 30 November regarding the forthcoming Organizacion Democrata Cristiana de America (ODCA) Congress. AMMOP-1 said that the precise date of the Congress is yet to be set though it is still scheduled for mid-April. He now feels that he will have a copy of the formal agenda by the end of December which is a full month earlier than reported in the reference. While AMMOP-1 is not a member of the committee preparing the agenda, he said that he is being kept generally informed of developments and that once the agenda is prepared he should be in a position to influence a revision of the agenda in the event that there are no items concerning Cuba or that the items listed are not satisfactory. He said that the principal person with whom he is in contact on this matter is Rafael CALDERA and that it will be through CALDERA that he would hope to make his influence felt. AMMOP-1 also said that he has been assured by CALDERA that the Cuban case will be prominent in the agenda.

2. We will continue to keep Headquarters informed of developments on this end.

INFO.

FROM
Chief, WH Division

SUBJECT
Christian Democracy in Latin America

ACTION REQUIRED - REFERENCES

ACTION REQUIRED: None, FYI.

The following analysis has been prepared in WH Division and is transmitted to all WH Division Stations and Bases as a review of the current status of Christian Democracy in Latin America and an updating of Headquarters' view on the movement. We believe the subject matter merits close and careful study by all Station operations and reports officers whose comments are solicited. FYI, this material, in a shorter and sanitized form was published in the 3 March issue of the Current Intelligence Weekly Review, and will thus be widely disseminated throughout the intelligence community. However, the WOGEAR study could not include much of the "Conclusions" section since it was interpretative and had operational overtones. Thus we've decided to send the full text herein in book dispatch form.

1. The decisive victory of Eduardo Frei in the September 1964 Chilean Presidential election led many to hope that Christian Democracy might develop significantly throughout Latin America competing with Communism on ideological grounds and offering an alternative, democratic route to social and economic progress. Christian Democracy's advocacy of "Third Force" concepts plus frequent manifestations of anti-Yankee syndrome caused some observers to swallow hard, but there was no denying that these concepts had an emotional appeal. This political charisma, coupled with a commitment to basic social reform and opposition to Communism, and presented within an ideological framework stressing the dignity of the human person, comprised a package of considerable attractiveness to the Latin American, particularly the student and middle class elements. This dispatch will review the current status of the CD parties and the role of organizations -- ODCA, CLASC, Party youth and student wings and European CD groups -- which

DISPATCH

represent key factors in the development of the Christian Democratic movement in Latin America. Our major purpose is to determine, some two years after the Frei victory, whether the generally enthusiastic assessment of Christian Democratic prospects engendered by this highly significant election was justified.

I - CURRENT BALANCE SHEET OF CHRISTIAN DEMOCRACY

2. Parties of Current Significance. Christian Democratic parties are generally agreed to be of current political significance in only four Latin American countries -- Chile, Venezuela, El Salvador and Peru.

a. The Chilean PDC is the only party with the responsibility of governing; the solid victory of Frei in the 1964 presidential election was followed by an even more impressive showing in the March 1965 congressional election. However, the Party's reform program is being implemented with less than deliberate speed, no progress has been made in weakening Marxist leadership domination of the urban labor force, and indications are that Frei's moderation will be increasingly challenged by the left wing of the PDC.

b. The COPEI Party of Venezuela has strong hopes of duplicating the victory of the Chilean Party in 1968 and appears to have narrowed the gap between itself (22 percent of the electorate in 1963) and the governing Accion Democratica Party (32 percent). COPEI Secretary General Rafael Caldera, one of the few Latin American CD leaders of international stature, is expected to be the Party's standard bearer in his fourth try for the presidency.

c. In El Salvador, the PDC garnered 29 percent of the votes in the March 1966 legislative election and one of its leaders, Jose Napoleon Duarte, retained the mayoralty of San Salvador. In less than six years the PDC has become the leading opposition party. It has little chance of capturing the presidency in 1967, but should be a strong contender by 1972, with Notre Dame-educated Mayor Duarte the likely candidate.

d. The Peruvian PDC formed a coalition with the Popular Action (AP) Party in 1963; it currently holds two cabinet positions. Some would argue that the Peruvian CD (with only 4 percent of the votes in 1963) has no real future in competition with the dominant AP and the long-established APRA, both reformist parties, and thus should not be included in a listing of significant CD parties. Some weight is added to this argument by the very recent split off of a dissident faction of the PDC into a separate party. However, the inclusion of the Peruvian party here is based primarily on the fact that it is the only CD group participating in a coalition government and thus contributes an element of stability to the political scene in Peru.

3. Parties of Moderate Potential. Applying even the most generous criteria to the judgement of potential, there are not more than four CD parties -- in the Dominican Republic, Panama, Brazil and Guatemala -- that might develop as moderately important forces over the next five years.

a. The Dominican PRSC stands as a prime example of CD irresponsibility from the time Caonabo Javier took over Party leadership in the wake of the Dominican Revolution in April 1965. It has collaborated with the entire spectrum of Marxist-lining parties, and moderation of its extreme militancy in the near future appears unlikely. The PRSC has developed a small but talented cadre of leadership, primarily from the university ranks, and is buttressed by the strongest CLASC affiliate (CASC) in the Hemisphere.

b. The Panamanian PDC was registered some five years ago and polled only 3.1 percent of the votes in 1964. Although it continues a miniscule party, it has made significant organizational strides and its philosophy of social justice gives it roots lacking by most Panamanian parties, which are largely personalistic or tied to financial interests. If the Panama CD succeeds in expanding its middle-class base and attracts militants from the predominantly negro and mestizo population, it could become a force of some importance.

c. While the Brazilian PDC polled a mere 4 percent of the vote in 1964, the Party has significant strength in three key states of the Center-South (Parana, Sao Paulo, and Guanabara). Like all other pre-Castello Branco political parties, the PDC was unable to campaign under its own banner in the presidential and parliamentary elections of late 1966. Expanded political activity will probably be permitted after the seating of President Costa e Silva in March 1967, but it is expected that the number of legally recognized political parties will be limited. It appears likely that the PDC will have to merge with another party if it is to compete in the legislative life of the country. If the PDC joins with a party that has strength outside the present PDC strongholds, and the PDC message and mystique sets the tone for such a new political entity, the net result could be expanded importance for Christian Democracy in Brazil.

d. The Guatemalan PDC was only recently recognized as a legally constituted party. This nascent group has good strength in the youth and student movement and growth potential in the important campesino sector. Current direction of the party leaves much to be desired; PDC leader Rene de Leon appears honest and intelligent but he has little organizational flair or charisma. His leadership is being challenged by a group of militant "Young Turks" on the left. With more vigorous leadership and the development of middle echelon cadres the party could develop significantly.

4. Parties of Insignificance. The remaining nine Christian Democratic parties -- in Argentina, Bolivia, Colombia, Costa Rica, Ecuador, Mexico, Nicaragua, Paraguay and Uruguay -- show scant promise of developing into forces of national importance over the next five years. Leadership of even modest stature exists only in Argentina (Salvador Allende, Horacio Sueldo) and Bolivia

(Remo di Natale). These parties appear doomed to the role of bridesmaids to the handful of parties that really count.

II - PARTY YOUTH WINGS

5. CD Strength in Universities Ahead of Party Strength. As with all political groups in Latin America, the vast majority of CD party militants are drawn from the ranks of student appendages active in the local universities. In most countries of the hemisphere, CD voting strength on the campus is much more significant than the political strength of the parent party. A few examples illustrate this point: In Panama, the Party polled 3.1 percent of the vote in 1964 (and probably would poll not more than 5 percent today), while its University youth got 12.8 percent in the January 1966 election. The Dominican PRSC received 5.4 percent of the vote in 1962 (and its present strength could well be lower because of internal divisions and leadership conflicts), but its youth wing on the campus garnered 40.2 percent of the vote in May 1966. In Venezuela, COPEI polled 22 percent of the vote in 1963; its student wing on the campus of the Central University, however, polled 40.2 percent of the vote in 1966. These comparitive figures suggest some conclusions which are presented in Paras. 19 and 20 below.

6. Radicalization of Youth Wings. Several CD leaders, most notably Frei and Caldera, have expressed considerable concern over the growing radicalization of party youth wings. That youth groups of every political stripe assume positions to the left of their parties is nothing new, but the situation in several CD groups has gotten badly out of hand. In several countries only an opaque line divides the positions assumed by CD youth groups (or important wings) from the stance assumed by Marxist youth elements. In Venezuela, the wing of the COPEI youth headed by Marta Sosa is so "far-out" it has earned the sobriquet "the Astronauts." Chilean President Frei reportedly told a German Christian Democrat that his youth wing is in danger of becoming Marxist. In Panama, the dominant wing of the CD youth has assumed positions at least as radical as the Communists. And in the Dominican Republic the Social Christian group in the National University is allied with the Communist students.

7. Youth Tending to Push Parties Further Left. The great concern of responsible party leaders is that youth input to the parties will swell the ranks of the radical wings and push the parties further left. Some observers believe that the CD youth problem has been exaggerated and that the "hot heads" will mellow once they participate directly in party life and cope with hard political reality. While this is partially true, we would take issue with this relaxed view. The raw material to be molded is far different than it was ten years ago; since that time the demand for revolutionary (even convulsive) change has mushroomed -- and among the youth the cry has assumed din proportions. The natural mellowing process will no longer produce the same magic.

8. Need for Training. Some believe that the only way of arresting the CD youth drift to the left in the foreseeable future lies in massive and intensive youth and political cadre training. Efforts in this direction to date (at IFEDEC, several national political training institutes, ORMEU and various student training

courses) have been discouraging. In most instances the teachers share identical biases with the students with the result that misconceptions are reinforced and no new horizons are opened up. Frei and Caldera have asked the German Institute for International Solidarity to increase its support in the student training field, but the Germans, while recognizing the serious need, have thus far declined to increase their commitment. To accomplish anything significant, the Germans believe a massive program must be launched (which would tax their current resources), and they wonder whether the CD youth situation has been permitted to drift too long to salvage.

III - THE IMPACT OF CLASC ON THE CHRISTIAN DEMOCRATIC MOVEMENT

9. CLASC Poses Serious Danger for CD Movement. A KUMONK study points out that "Organized labor could contribute substantially to the development of well-organized CD political parties in the hemisphere, but it also offers the best chance for CD extremists to cause harm to the movement." Few would argue that how the CD movement fares and the image it projects depend in not insignificant measure on the posture assumed and progress achieved by CLASC. More often than not, the judgement of a mass movement is based on the worst element comprising it -- and in this regard CLASC is challenged only by the party youth and student wings. As an organized labor force CLASC has been a dismal failure (with the exception of its campesino arm); its only impact and sole raison d'etre up to this time has been as a political action instrument with primary appeal to the working classes. It is unlikely that CLASC, under Maspero leadership, will mellow as do parties when they achieve the responsibility of government.

10. CLASC Has Maintained Posture of Independence. Despite its "Christian" label, CLASC has consistently maintained that it is not subservient to the Christian Democratic movement or any member party. The statement cannot be disputed, for while CLASC is guilty of most of the same aberrations as the least responsible of the CD parties, it invariably commits its follies independently, (often, in fact, setting an example that is emulated by the parties). But while CLASC can defend its claim of independence, it is also true that CLASC does not discourage the belief that it is the chosen labor instrument of the Christian Democratic movement, although this label has never been formally bestowed.

11. Closer Ties Between CLASC and CD Movement Appear Likely. It appears likely that a more organic participation of CLASC in CD affairs is in the offing. A Seminar was held in Montevideo from 11 - 23 April (sponsored by the Christian Democratic Formation Institute -- IFEDEC) for officials of CLASC who are also officers of Christian Democratic parties. The Seminar, called for the specific purpose of arranging closer coordination between the CD political movement and the Christian labor movement, resulted in the signing of the "Carta de Montevideo" on 20 April. The Act calls for formal representation of ODCA in both the Christian labor organization and CD party labor departments. To this end, a Coordinating Committee was formed -- the Comite Relacionador Y Coordinador De Organizaciones Laborales Y Funcionales De Los Partidos Democrata Cristianos. The Act appeals to the CD parties

to request ODCA approval of the creation of this Coordinating Committee and ODCA recognition of CLASC as its chosen hemispheric labor instrument. The eventual approval of the ODCA leadership appears likely; indeed, it is doubtful that the Act would have emerged from the Montevideo Seminar if informal agreement of the ODCA leadership had not been obtained in advance.

12. Negative CLASC Influence on Party Youth Wings. Closer CLASC identification with the CD political movement will likely rub off negatively on the CD youth wings which invariably are further left than their parent parties and identify much more closely with the revolutionary image and mystique CLASC has sown and propagated. It is perhaps significant that CLASC has intensified its efforts since January to establish youth appendages to the Christian labor movement. This initiative appears to have made greatest progress in Central America.

IV - THE ROLE OF ODCA

13. ODCA Contributes Little Positive Direction. The Latin American CD parties formed their regional organization in Montevideo in 1949 -- the Organizacion Democrata Cristiana de America (ODCA). The current officers of ODCA are:

President : Rafael Caldera, Venezuela

Vice President : Hector CORNEJO Chavez, Peru

Vice President : Rene DE LEON Schlotter, Guatemala

Secretary General: Tomas REYES Vicuna, Chile

ODCA has consistently assumed an anti-Yankee posture on a broad range of key issues (most forcefully on the American intervention in the Dominican Republic) but on balance has been less strident in its criticism than several of its member parties (notably the Chilean, Bolivian and Dominican CD's), probably because of Caldera's restraining hand. The Organization would merit much closer attention than we have given it to date if it had substantial influence on or authority over member parties, or could apply sanctions against national groups. But ODCA amounts to little more than a fraternity. Its member parties have little ideological homogeneity and the cement of their union appears to be based more on revolutionary mysticism (which most parties are careful to qualify with adjectives like peaceful, democratic and Christian) and on negative factors (hostility to the U.S., capitalism and the oligarchies), than on a foundation of CD doctrine or basic agreement on just what they want.

14. Efforts to Firm Up the ODCA Role. We have asked contacts in European CD circles to prod ODCA to set criteria for membership and behavior and that the Europeans weigh petitions for support from the Latin American parties and organizations against these criteria. DYVOUR officers have argued that while the Europeans cannot realistically require nascent and ill-trained CD groups in Latin America to hold to the same rigid standards of political morality that have evolved in Europe, neither should the Europeans

continue to tolerate and thus abet the irresponsibility of the Latin CD parties because there are no standards at all. ODCA leader Caldera appears to recognize the need for at least some basic ideological common ground among ODCA-member parties. But no signal success has been achieved in this direction to date and we are not at all sanguine that even modest progress will be made in this regard in the foreseeable future. Reporting on the Congress of the World Christian Democratic Union (WCDU) held in Lima in April 1966 indicates clearly that the Latin American parties will not submit without combat to any effort (whether initiated by the European financial backers of the CD movement or by ODCA) that aims at imposing standards and controls that will impinge on their complete freedom of action.

15. Formation of Central American Regional Grouping. The Central American CD parties met in El Salvador in July 1966 to establish a smaller regional grouping, The Union Democrata Cristiana de CentroAmerica (UDCCA). This action does not appear to reflect any element of pique with ODCA (the relations of COPEI and Rafael Caldera with the Central American parties appear close and cordial) but rather a desire to establish a smaller and more cohesive unit that can better address itself to the problems common to the area and, to a lesser extent, to the individual CD parties. UDCCA is comprised of five parties (in Guatemala, El Salvador, Nicaragua, Costa Rica and Panama), with the possibility that a sixth party will be formed in Honduras.

V - EUROPEAN CD ROLE AND INFLUENCE

16. The European Christian Democratic Union (ECDU). The European CD parties were first to establish a regional organization, the Nouvelle Equipe Internationales (NEI) in 1947. The NEI never played a major role in world Christian Democratic affairs. From the outset the Latin American parties maintained their closest ties with individual leaders of the CD movement in Europe, particularly those involved in financial operations with the sister parties and CLASC in Latin America. The NEI became progressively less significant and in recent years was virtually moribund. But in mid-1965 the organization was revamped and re-christened as the European Christian Democratic Union (ECDU). Its newly elected President, Mariano Rumor, Secretary General of the Italian PDC, appears intent on making the ECDU a strong organization which will at least match the Socialist International in stature.

17. European Financial Support to the CD Parties. The two CD organizations which have contributed most heavily to the support of the Latin American CD parties and related organizations are the Institute for International Solidarity (IIS) and the International Solidarity Foundation (FIS). Between them they will contribute an estimated $800,000 to $1,000,000 to the CD parties and CLASC in Calendar Year 1967. It was recently reported that the COPEI party of Venezuela will receive $480,000 for the 1968 election from FIS at the rate of $160,000 per year commencing in 1966.

a. The IIS. The Institute for International Solidarity, headed until recently by Dr. Peter Molt (the new Director is Adolf Herkenrath), is an arm of the Konrad Adenauer Foundation of the German Christian Democratic Union (CDU). Like its

Social Democratic counterpart (the Friedrich Ebert Foundation), the bulk of IIS's operating budget comes from the German Government. IIS maintains several permanent representatives in Latin America and supports several CD activities directly. But it also contributes more than fifty percent of the FIS budget.

S. The FIS -- The International Solidarity Fund was formally created on 30 March 1964 to avoid duplication of financial support efforts on the part of the European CD parties and other CD-oriented groups in Latin America. The name was later changed to the International Solidarity Foundation (FIS) to avoid confusion with the solidarity fund of CISC and other organizations. The FIS operates as an arm of the ECDU, with headquarters in Rome. Its most important leaders are: Dr. Johannes Schauff (President of the FIS, a German national and close personal friend of Konrad Adenauer), Mariano Rumor, Adolf Herkenrath and August Vanistendael (Secretary General of the International Federation of Christian Trade Unions -- CISC).

18. Difference in Function of IIS and FIS. From the start of its activities, the Germans and Italians have contributed almost the entire FIS budget (in 1964, for example, Vanistendael contributed only $15,000 from the CISC International Solidarity Fund). FIS appears to be the exclusive European CD channel for organizational support to the Latin American CD parties. While the IIS is the rich partner in the IIS-FIS tandem and could easily fund the Latin American parties directly, the FIS channel is preferred by the Germans and has two major advantages: First, since FIS is a regional solidarity instrument with representation (but not contributions) from all the European parties, the responsibility for support to certain controversial Latin parties is watered down and distributed among the European CD's collectively. Thus a Latin American government or party in competition with the local CD's cannot easily make a formal demarche to the IIS or the German government. Second, it is easier to obfuscate the magnitude of European organizational support to the Christian Democratic movement in Latin America if it is channeled through a multi-party organization. The Germans have limited IIS funding to less controversial areas -- support to youth and student formation, political training institutes and CLASC training institutes. (See Attachment A for a detailed flow chart.)

CONCLUSIONS

19. CD's Challenge Communist Domination of the University. It was noted in Para. 5 above that almost without exception CD strength in the university greatly exceeds the voting strength of the parent party. The same is true of the Communists, and it is a fact that Communist/Christian Democratic strength on the campus is overwhelmingly dominant throughout the hemisphere. Few would take issue with the conclusion that the vast majority of university youth are attracted to movements projecting an inspirational message (the word "inspirational" more accurately characterizes the CD movement than does "ideological") or an aura of revolutionary mystique. During the past few years Communist voting losses in the university have been picked up mainly by the Christian Democrats -- the vote has shifted from one movement with a message to another. It would appear that the Christian Democrats are the only political group capable of challenging the Communists' hemispheric domination of the campus.

20. CD Strength in University No Indicator of CD Party Strength or Potential. From the foregoing, however, it does not follow that the growth of CD strength in the university presages a corresponding increase in CD party strength. While voting patterns in the university provide valuable insights on population (particularly youth) attitudes and aspirations, these patterns are not a reliable barometer of either organized party strength or future potential. In no country of Latin America is the voting strength of the CD's or the Communists nearly as strong among the population at large as it is on the campus. One reason is that the university population of Latin America is less than 2 percent of the total population. The CD campus leader almost invariably graduates from student politics to more direct party involvement when he leaves the university -- even if the party has no discernable future. It would appear, however, that the non-university youth (lacking the pseudo-intellectual pretensions and the self-bestowed elite label of the university-trained) are much less inclined to vote and militate for Christian Democracy simply because it has emotional or inspirational appeal.

21. CD Failure to Transform Affinity of Lower Classes Into Votes. The inadequately educated and the lower social classes in Latin America are inevitably motivated by the pragmatism of the possible; to vote for a party that has limited potential to achieve national power, simply because it espouses views that hit responsive chords, is a luxury he believes he cannot afford. Better, he thinks, to vote for the least objectionable of the traditional parties. Christian Democracy remains basically a middle-class movement. With few exceptions (Chile, the Dominican Republic and to a lesser extent Venezuela) it has scant worker or campesino appeal. By and large, Christian Democracy has failed to reach those on the lower rungs of the social ladder.

22. Individual Party Fortunes Appear Unaffected by CD Progress Elsewhere. Many expected, or at least hoped, that the Frei victory in Chile would give impetus to the development of the CD movement throughout the hemisphere. This has not happened. There is no evidence that individual CD parties were either assisted or hindered in their development by the Chilean success story. And yet the view persists that the Chilean victory was a boon to the movement's potential and progress. During the past year COPEI leader Rafael Caldera has broadcast a variation on this theme that several European CD leaders have taken up. They argue that COPEI must emerge victorious in the 1968 election if the CD movement is to maintain its momentum, for an ideologically based movement cannot avoid peaking off, and gradually down, if it has only one significant victory to cite over a period of several years. We would reject the view -- based on election results in Argentina, Colombia, El Salvador, the Dominican Republic and Uruguay -- that individual party fortunes will be affected in any significant measure by the successes or failures of sister parties elsewhere. What appears to emerge from these elections is rather solid evidence that the national parties will sink or swim on their own devices, based largely on leadership abilities, the development of middle echelon cadres, organizational talents, appeal to the "socially disinherited," and the pragmatism of local issues and considerations. International events (with rare exception) count for little, and the influence of ODCA and the successful CD parties even less.

23. Growth Potential Exists, But Much Less Than Originally Anticipated. The CD movement has made only modest progress the past two years. Indications are that the development of the movement will be much slower and less extensive than many anticipated in the first flush of enthusiasm following the Frei victory, for it has many problems to resolve. Chief among these, perhaps, is CD failure to reach the lower social classes and to develop a significant worker base. The chances of CLASC contributing positively to correct this failure appear remote. Another major problem is the absence of an ideological commonground, despite the lip service paid to the Papal Encyclicals and the Catholic social philosophers, and the failure to enunciate minimum behavioral standards that these philosophical roots would impose. This deficiency is the root cause of two manifestations: First, a propensity to consort with Communist and assorted Marxist groups (e.g., in Colombia, Bolivia, the Dominican Republic and Panama). Second, the progressive radicalization of party youth wings which threatens to push the parent parties further left. The fact, remains, nevertheless, that Christian Democracy is the most unified non-Communist movement in Latin America. It cannot be labeled democratic or anti-Communist because of the behavioral aberrations of several national parties.

24. Need for Eclectic Operational Approach to CD's. The ranks of those who viewed Christian Democratic prospects with great enthusiasm two years ago -- including the European financial backers of the movement -- have dwindled considerably. But those who have been critics of Christian Democracy from the outset (many of whom might be described as the "visceral denigrators") have displayed no more perception in evaluating CD prospects. The head-in-the-sand generalization that Christian Democracy has no future does not stand the challege of investigation. Neither does the assertion that Christian Democracy is the hemispheric wave of the future. The only valid generalization that might be made on CD prospects is that all generalizations are false. We would submit that the only valid approach to the CD phenomenon is to assess the movement and make operational judgements on a country-by-country basis. There are some countries where the collapse of the party would be no loss. The key question is: Can the party develop as a positive element in national political stability? If so, it is incumbent on the Station to develop assets within the party and to examine the need for operational involvement. Station posture toward the CD movement must be based on the raw realities of the local situation, case by case.

CHRISTIAN DEMOCRACY IN LATIN AMERICA

The decisive victory of Eduardo Frei in the September 1964 Chilean presidential election led many to hope that Christian Democracy would develop significantly throughout Latin America, competing with Communism on ideological grounds and offering an alternative, democratic route to social and economic progress.

No such trend has yet developed. The Christian Democratic movement's appeal is to students and middle class, a relatively small percentage of the population in most Latin American countries. Its concepts of basic social reform and the dignity of the human person may appeal to the workers, but they still cast their vote on a pragmatic basis for the least objectionable of the established parties that have an immediate chance of governing.

The movement's progress is likely to be hampered by its lack of strong leaders and effective labor organizations to compete against the entrenched positions of other political movements.

Current Balance Sheet

The Christian Democratic movement is generally agreed to be of current political significance in only four Latin American countries--Chile, Peru, Venezuela, and El Salvador.

In only one of these--Chile--is the Christian Democratic Party (PDC) the governing party. Frei's solid victory in the 1964 presidential election was followed by an even more impressive showing in the March 1965 congressional election. However, the party's reform program has run into difficulty in the upper house of Congress, which is still controlled by the opposition; no progress has been made in weakening Marxist domination of the urban labor force; and Frei's moderation has been increasingly challenged by the left wing of his own party, which may capture control in the next two or three years.

The only other Christian Democratic party with a claim to a role in government is the one in Peru. It was brought into a pre-election coalition by the dominant Popular Action Party in 1963 and, although it gained only four percent of the votes, it holds two cabinet posts. Its voting strength has been weakened recently by the defection of a dissident faction which formed a separate Popular Christian Party.

Venezuela's Christian Democrats (COPEI) have strong hopes of duplicating the victory of the Chilean party in 1968 and appear to have narrowed the gap between their 22 percent of the electorate in 1963 and the governing Democratic Action's 32 percent. COPEI Secretary General Rafael Caldera, one of the few Latin American CD leaders of international stature, is expected to be the party's standard bearer in his fourth try for the presidency. He has recently come out in favor of a politically expedient move to the right, thus filling the vacuum of the center-right of the Venezuelan political spectrum and opening new sources of support.

In El Salvador, the PDC garnered 31.2 percent of the votes in the March 1966 legislative election and one of its leaders, Jose Napoleon Duarte, retained the mayoralty of San Salvador. In less than six years the PDC has become the leading opposition party. It has little chance of capturing the presidency in 1967, but should be a strong contender by 1972, with Notre Dame - educated Mayor Duarte the likely candidate.

Applying even the most generous criteria to the judgment of potential, there are not more than four other CD parties--in the Dominican Republic, Panama, Brazil, and Guatemala--that might develop as moderately important forces over the next five years.

The Dominican Revolutionary Social Christian Party (PRSC), led by Coanabo Javier, has abandoned, at least for the time being, the irresponsible policies it adopted after the April 1965 revolt and has moved toward the political center. The party has made its opposition to the Balaguer government clear, but has also indicated that it intends to operate within bounds acceptable to the President. The PRSC hopes that this moderate line will increase its following and enable it to improve on the poor showing it made in the 1966 elections. The party has developed a small but talented cadre, primarily from the university ranks.

The Panamanian PDC was registered some five years ago and polled only 3.1 percent of the votes in 1964. Although it continues a minuscule party, it has made significant organizational strides and its philosophy of social justice gives it roots lacked by most Panamanian parties, which are largely personalistic or tied to financial interests. The PDC is currently negotiating with the mass-based Panamenista Party of Arnulfo Arias--Panama's largest--in hopes of forming a coalition for the May 1968 elections. The CDs have offered to provide the Panamenistas with much-needed administrative skills in return for a share of the assembly seats in the next election. A long-range goal would be to acquire support within Arias' party and inherit his mass following when he passes from the scene.

The Brazilian PDC polled only four percent of the vote in

1962, but the party had significant strength in three important south-central states (Parana, Sao Paulo, and Guanabara). Like all other Brazilian parties, it was abolished during a political reorganization under the Castello Branco administration. Most of its members then affiliated with the progovernment ARENA party and campaigned under its banner in the November 1966 congressional elections. It is unlikely that there will be any significant expansion in the number of political parties--the new Brazilian constitution sets down stringent standards that virtually eliminate the possibility of a repetition of the former proliferation of parties. The former PDC has made no attempt to reconstitute itself, but its former members will probably join with like-minded congressmen to pursue policies consistent with Christian Democratic ideology.

The Guatemalan PDC was only recently recognized as a legally constituted party. This group, which is being financed by Catholic sources in Germany and Belgium, has some strength in the youth and student movement and some growth potential among the campesinos who make up more than half the population. Current direction of the party leaves much to be desired; its leader, Rene de Leon, appears honest, but he has little organizational flair or popular appeal. With more vigorous leadership and the development of a middle-echelon cadre, the party might develop significantly--particularly if the incumbent Revolutionary Party (PR) administration fails to resolve basic problems confronting it.

The remaining nine Christian Democratic parties--in Argentina, Bolivia, Colombia, Costa Rica, Ecuador, Mexico, Nicaragua, Paraguay, and Uruguay--show scant promise of developing into forces of national importance over the next five years. Leadership of even modest stature exists only in Argentina (Salvador Alende, Horacio Sueldo) and Bolivia (Remo di Natale).

Party Youth Wings

As with all political groups in Latin America, the vast majority of CD party militants come from student organizations in the local universities. In most countries of the hemisphere, CD voting strength on the campus is much greater than the political strength of the parent party. A few examples illustrate this point: In Panama, the party polled 3.1 percent of the national vote in 1964 (and probably would poll not more than 5 percent today), but its university youth got 12.8 percent in the January 1966 campus election and 24.4 percent in January 1967. The Dominican PRSC received 5.4 percent of the vote in 1962 (and its present strength could well be lower because of internal divisions and leadership conflicts), but its youth wing on the campus garnered 40.2 percent of the vote in May 1966. In Venezuela, COPEI polled 22 percent of the vote in 1963; its student wing on the campus of Central University, however, polled 40.2 percent of the vote in 1966.

Several CD leaders, most notably Frei in Chile and Caldera in Venezuela, have expressed considerable concern over the growing radicalization of party youth wings. In several countries the positions assumed by CD youth groups (or important wings) are almost indistinguishable from those of pro-Communist youth elements. In Venezuela, the wing of the COPEI youth headed by Marta Sosa is so "far out" it has earned the sobriquet "the Astronauts." Chilean President Frei reportedly told a German Christian Democrat that his youth wing is moving dangerously far to the left. In Panama, the dominant wing of the CD youth has assumed positions at least as radical as the Communists. And in the Dominican Republic the Social Christian group in the National University, while differentiating itself from the Communist students on certain issues, has frequently taken a parallel line.

The great concern of responsible party leaders is that these students, as they progress from campus to parent party, will swell the ranks of the radical wings and push the parties further left. Other observers, however, expect the "hotheads" to mellow once they participate directly in party life and cope with hard political reality. Both views can be defended. Some mellowing is inevitable, but in the past ten years the demand for revolutionary (even convulsive) change has mushroomed--and among the youth the cry has assumed much greater proportions.

Both German and American observers have commented that massive and intensive political training of youth and political cadres might arrest this drift to the left. Frei and Caldera have specifically asked the West German CD party's Institute for International Solidarity to increase its support in the student training field. However, the Germans, who have long been proponents of organizational programs in Latin America, appear inclined to the position in the youth and student field that party leaders have permitted the situation to deteriorate too long for even a massive training program to produce a moderating trend.

The Labor Arm

A major influence in the development of the Christian Democratic movement will be the actions and attitudes of its labor organization, the Latin American Confederation of Christian Trade Unionists (CLASC). So far, as an organized force, it has been a dismal failure except among the campesinos. Its only impact and sole purpose up to this time has been as a political action instrument with primary appeal to the working classes. In this role, it has earned a reputation for independent action and irresponsibility that has reflected negatively on the whole movement despite CLASC's vigorous claims that it is not subservient to the Christian Democratic political leaders.

In spite of the apparent differences between CLASC and the CD movement, a closer and more formal relationship appears to be in the offing. Last April, officials of CLASC who are also officers of the Christian Democratic parties met in Montevideo to arrange closer coordination between the two groups. To accomplish this goal, they proposed that both the CD party labor departments and CLASC be granted formal representation in the Christian Democratic Organization of America (ODCA), the regional grouping formed in 1949.

The plan has not yet been implemented, but eventual ODCA approval appears likely. Closer CLASC identification with the CD political movement may have an adverse effect on CD youth wings, which--being further left than their parent parties--have identified more closely with CLASC's revolutionary image. Since the first of the year, CLASC has intensified its efforts to create its own youth groups and appears to have made some progress, especially in Central America.

The Role of ODCA

In its 17 years of existence, ODCA has not evolved beyond a sort of fraternity held together more by negative factors such as hostility to the US, to capitalism, and to the oligarchies, than by any basic agreement among its members on doctrine or principles. Moreover, the individual parties have made very clear that they will fight any effort--whether initiated by ODCA or by the European financial backers of the CD movement--to impose standards and controls that will impinge on their freedom of action.

In general, ODCA takes a slightly less hostile line on US policies than that of its member parties. This probably results from the influence of its president, Rafael Caldera of Venezuela. The organization's two vice presidents are Hector Cornejo Chavez of Peru and Rene De Leon of Guatemala. Tomas Reyes Vicuna of Chile is its secretary general.

Only in Central America has there been any move toward a more cohesive unit geared to area problems. A smaller regional group, the Christian Democratic Union of Central America, was organized last July. It now has five member parties, in Guatemala, El Salvador, Nicaragua, Costa Rica, and Panama, and a sixth may be formed in Honduras.

European Role and Influence

Although Latin American Christian Democracy like the European variety, has its roots in the profoundly humanistic and democratic ideas of the French philosopher Jacques Maritain, it does not contain the European fascist concept of the corporate state. The European reaction to the growth of Communism in the 1930s had little effect on the Latin American CDs; consequently the Americans were moving to the political left as the Europeans were moving to the right.

Not until 1947 did the newly important and affluent European

CDs attempt to coordinate international CD activity through an organization they called the New International Team (NEI). This organization never achieved any significance because European influence in Latin America had already been undermined by a basic difference in political philosophy and because the Latin American parties had been maintaining individual relations with the various European groups. These ties were strictly on vague ideological grounds and for financial reasons.

The two heaviest European contributors to the Latin American parties are the Institute for International Solidarity (IIS) and the International Solidarity Foundation (FIS). Between them they will contribute an estimated $800,000 to $1,000,000 to the American CD parties and CLASC in calendar year 1967. In addition, it was recently reported that the COPEI party of Venezuela will receive $480,000 for the 1968 election from FIS.

The IIS, under the direction of Adolf Herkenrath, is an arm of the West German Christian Democratic Union with the bulk of its budget coming directly from the German government. It maintains several permanent representatives in Latin America and supports youth and student groups, political training institutes, and CLASC organizations.

The FIS, under the leadership of Dr. Johannes Schauff, operates as an arm of the European Christian Democratic Union (ECDU), successor to the NEI. Since its creation in 1964, Germans and Italians have contributed almost its entire budget. FIS appears to be the exclusive European channel for organizational support to the Latin American parties. It has assumed this responsibility because it is composed of representatives of all the European parties. Thus the responsibility for support to certain controversial Latin parties is watered down and distributed among the European CDs collectively. Furthermore, a Latin American government or party in competition with the local CDs cannot formally protest its funding activities to the German government.

Outlook

The modest progress made by the Christian Democratic movement in the past two and a half years suggests that its development will be much slower and less extensive than many anticipated in the first flush of enthusiasm following the Frei victory.

One major problem is its failure to reach the lower social classes and to develop a significant worker base. Its strength in the universities and its ability to compete with Communist groups on the campus create unfounded optimism. The "inspirational" approach that attracts the college student has no comparable appeal among the inadequately educated lower classes.

Neither does a victory for one party seem likely to have any major effect on the fortunes of another. What appears to emerge from CD gains or losses in recent elections is rather solid evidence that the national parties will sink or swim on the basis of their own leadership abilities, organizational talents, and approach to local issues. International events count for little, and the influence of ODCA and the successful CD parties for even less. (SECRET NO FOREIGN DISSEM)

SOURCE:

A member of a group of Cuban emigres trained in the techniques of information collection. This group has provided useful reports since 1961.

1. Summary: Laureano Batista Falla, leader of the Movimiento Democrata Christiano (MDC, Christian Democratic Movement), returned to Miami in late June 1966x from the Dominican Republic, where he allegedly obtained pledges of support for his anti-Castro undertakings from the Chief of the Air Force of the Dominican Republic, pending xxxxxxxx the aproval of President Balaguer. However, the military department of the MDC recently issued a document in which it voiced its discouragement, primarily [illegible] lack of funds. Xx Although representatives of the MDC have discussed the signing of agreements with representatives of the Students' Revolutionary Directorate (DRE), and the Cuban Representacion in Exile, (RECE), no alliances have yet been formed.

leader of the Movimiento Democrata Cristiano returned to Miami from the

with rep

(DRE) and the Cuban Representation

alliances have been made.

2. Laureano Batista Falla, organization secretary of the National Executive Committee of the MDC, left Miami on 6 June 1966 for Puerto Rico and the Dominican Republic, and returned to Miami on 26 June. On 29 June he met with other leaders of the MDC to inform them of the results of his trip.

3. Batista said that during ~~thxxxxx~~ discussions held with General Juan N. Folch Perez, Chief of the Air Force of the Dominican Republic, he had requested ~~xxatixxxwithxthexMDC~~ that Folch cooperate with the MDC by allowing the MDC to maintain ~~Fxixxtxxxxxz~~-Base Luna, located at Estero Balsa, near the town of Pepillo ~~Xxxx~~ Salcedo (N 19-43, W 71-45). ③ ~~According xxx to~~ Batista, Folch ~~xxxxxxxxxxxx~~ indicated his willingness to cooperate offered the following assistance, subject to the approval of President Balaguer, whom Folch said he will consult:

COORD. RELEASE.

a. The use of five islets facing Santiago de los Caballeros City for a military base. (sic.).

b. Authorization for MDC personnel to move ~~into~~ in and out of the Dominican Republic in a clandestine manner.

c. Transportation of MDC war materiel from Miami aboard Dominican Air Force planes.

4. Batista ~~said~~ that he had visited Base Luna and on several occasions ~~had~~ talked with Arnaldo Bazan, a Cuban xkpxiixaxxix residing in Santiago de los Caballeros, who is the recipient of $ 3500. per month xkixk xxxxixxxixyxthxxMD sent by the MDC to the Dominican Republic for the maintenance of Base Luna. Bazan, xxxxxxxxixBatistatax who had arranged Batista's meeting with Folch, was described by xxxtixxxxixkxxxixkx Batista as having ~~of~~ formerly been with the La Salle College of Camaguey. Batista claimed that the ~~procurement~~ chief of Santiago de los Caballeros had made arrangements for thexhxxxxxx the of a house to be occupied by the MDC members who are in charge of Base Luna.

...ve had made arrange-
ments for the house which is occupied by the MDC members who are in charge of Base Luna?

5. Batista expressed enthusiasm regarding Folch's proposals, and stressed the necessity of acting immediately, including sending MDC personnel to the Dominican Republic. He directed Angel Hernandez Rojo, second in command of the military department, to prepare a plan to operate from the Dominican Republic, and Placido Barbeite Freyre, chief of the military department, to prepare an estimate of the cost of the plans ~~in order~~ that the necessary money ~~can~~ could be obtained.

6. Although Barbeite agreed with Batista regarding the need for preparation of operational plans and an estimate of the cost, xXxixpixxxxixgxthxxx he basically wxxxxxxxxxxs Batixtx opposed Batista's advocation of initiating immediate action. He felt that it was inadvisable to attempt the implementation of the plans until Balaguer's reaction is known. Hernandez' views coincided with those of Barbeite. Nxxxixixxxtxxthxxxxxkixx xxxxxxxhxxxxyxtkxxxxixxfxthxxxx The meeting ended without a solution to the disagreement.

...g ended without a
solution to the disagreement.

7. At the meeting Batista reported that dissension xithixx exists bxtxxxxxixx within the MDC in Puerto Rico, particularly between Armando Palacios xxxxXxx San Juan and Humberto Perez Xxxxxxx Herrera, president and military chief respectively. [redacted] Palacios ~~feels~~ claims that Perez does not report to the president on military plans and activities. However, Barbeite defended Perez' action with the argument that Xxxxxixxxxixxtxxxxxtxxxxxxxxxxxxxxxxxxxly military matters do not really fall xxxxxxthx within the scope of responsibilities of the president.

president.

8. The military department of the MDC set forth its views in a document dated 29 May. This document included the following points:

a. Discontent is becoming evident because of the lack of activity which, in turn, results from the lack of funds. The sum mentioned is $10,000.[5]

b. No change in United States policy ~~regarding action against Cuba from the U.S.~~ [illegible] is anticipated. A base of operations outside of the United States is considered to be so vitally important that the military department would be willing to operate an illegal base if the resources were made available.

c. The condition of the boats is such that the MDC has no sea transportation. The boats are described as follows:

(1) The CADELLO I is docked across from Brito's Boat Yard at Stock Island, Florida.[6] The boat is in need of repairs on the deck and superstructure, and the installation of electronic navigational equipment would be required to put it in operational condition. Current docking and routine maintenance costs are not being paid. Efforts to make commercial use of this boat have not been successful. This boat is considered ideal for activities which might be undertaken if there were a base from which to operate, but under the present circumstances the expense which this boat represents is not justifiable. It is recommended that consideration be given to selling the CADELLO I if an operational base is not established within four months.

(2) The KYA-ORA[7] which was donated to the MDC by a member of the military department, is in drydock at Nuta's Boat Yard in Miami. There are leaks in the hull.

(3) The LANCHA AZUL[8] is in need of repairs, as well as trailer. Repairs on this boat are being given priority, and will proceed as money becomes available.

d. Informal discussions have been held with representatives of the Directorio Revolucionario Estudiantil (DRE, Students' Revolutionary Directorate), and there is an "agreement in principle" to coordinate future actions. There is no political commitment.

9. In July Jorge Mas Canosa, chief of press and propaganda of Representacion Cubana en el Exilio (RECE, Cuban Representation in Exile), proposed that the MDC enter into a pact with RECE, and indicated that some members of MDC ~~will~~ be offered full-time employment preparing military plans for the RECE. As of late July no formal agreement had been reached.

10. Hernandez, who feels that Ramon Font Saumell[9] is incapable of formulating military strategy, favors the formation of a pact between the MDC and RECE ~~xgax~~ which would exclude Font from participating in the preparation of plans for military operations. Hernandez also said that he plans to attempt the reorganization of the military department of the MDC in order to replace Barbeite in a less important position than that which he currently occupies.

department of the MDC in order

from his present position to an unimportant position in the department.

11. In early June Ignacio Valladares Rodriguez[10] expressed a desire to participate in action against Cuba with the MDC. Barbeite agreed to inform Valladares when an operation is to be carried out. Before Valladares left Miami on 6 June for Dover, New Jersey, he said that within a month he would send a 57mm recoilless rifle, a 50-caliber machine gun, and an unstated number of M-1 and Garand rifles. His address in Dover is Dover Cliff Apartments, apartment 21.

UFG-8473

1. Source Comment. At the time of his departure, Batista told the executive committee that he was going directly to Caracas, Venezuela. It was not until after his return that it was learned that he had not gone to Caracas or to Guatemala as he had planned. He later explained that while he was in Puerto Rico he telephoned his relative in Guatemala and was informed that the latter had "failed in his efforts."

Field Comment. Presumably he was referring to an interview with President Julio Cesar Mendez Montenegro which Batista had earlier said had been arranged by his cousin. (Cf. [illegible]

3. Headquarters Comment: In early August 1964, Folch was reported to have been in charge of Dominican ~~xidxtox~~ Armed Forces aid in a ~~x@~~ caching operation for Cuban exiles in the Monte Cristi area. See TDCS-314/01722-66. ~~In TDCSDB-315/00790-66~~. Another source reported ~~that~~ in September 1964 approximately 30 Cuban exiles were taking training at a camp near Punta Presidente(N 19-47, W 71-46). See ~~[illegible]~~ TDCSDB-315/00794-66 for more information.

4. The location of the house was not given.

5. Source Comment. The document, as originally drafted, was modified because Barbeite felt that the tone was too strong. Also, the amount of money requested was reduced to $10,000.

Field Comment. An earlier report from the same source reported that the document was being prepared, and that $75,000 would be requested. (Cf. UFG-8327) CS-DB-3[illegible]/01[illegible]-66).

Field Comments.

6. The CADELLO I (FL 7579 F), an 83-foot boat, is a former U.S. Coast Guard patrol boat. The boat yard referred to is the Syncrolift Boat Yard on Stock Island which is owned by Mike Brito. Stock Island is on U.S. Highway 1, between Key West and Boca Chica.

7. The KYA-ORA, or KIA-ORA, has Florida registration FL 8665 E.

8. The LANCHA AZUL has been described as a high-speed launch. (Cf. ~~UFG-8327)~~ CS DB-315/01727-66). Besides the CADELLO I, the MDC has been reported to own the VICKY I, a blue V-23; the PUNCHIN CHIA (FL 9256 SC), a 33-foot boat; and BERNARDO II.

9. Font is chief of military operations of Comandos L, which has an alliance with RECE. (Cf. UFG 8423) CSDB-315/02202-66).

10. Valladares arrived in Miami on 27 May with weapons which he gave to the MDC. He offered to supply weapons to the MDC and the Association of Veterans of the Bay of Pigs (Brigade 2506).

ADMIN/TYPIC
Station Files on Cuban Counterrevolutionary and Exile Organizations

REFERENCE: UFGT-16343, 31 May 1966

1. We are returning Volume VII of the MDC file which you sent with the reference for Headquarters to review as a sample of a group of 80 files which are no longer useful to the Station. Headquarters appreciates your interest in this aspect of records improvement, considering the need for retrieval, but would like to defer a decision until IDENTITY, a KUBARK employee who is retiring soon but is now engaged in writing historical studies, can visit the Station to survey those files with others.

2. IDENTITY plans to visit JMWAVE for several days about the end of July to size up and review certain records for writing a history of the Station. Therefore, we would like the 80 background files to be left intact for his visit. Afterwards a decision will be made on their retirement or other disposition.

3. If space for storing the files is critical we will authorize forwarding them to Headquarters, but will prefer your holding them temporarily to assist with the historical research cited above.

AMMOP Circular Letter to Identity A Leaders and Organizations

ACTION REQUIRED - REFERENCES

AR : FYI

REF: WAVE 9754

1. As indicated in reference, the AMMOP organization on 15 March 1966 sent a circular letter based on Fidel Castro's 13 March speech to Identity A individuals and organizations. The letter, which was signed and composed by AMMOP/1 and which was accompanied by transcripts of the speech, condemned Castro's attack on Chilean President Eduardo Frei; requested support for Frei's position; and asked the recipients to join the struggle maintained by the Cuban people to overthrow Fidel Castro and prepare for the freedom of Cuba from Communism.

2. The youth wing of the AMMOP group, headed by AMCRIB/1, mailed a letter to its Identity A youth contacts based on the 13 and 20 March speeches by Fidel Castro along the lines cited above. Included in this letter were the strong anti-Castro statements made by Identity B. Copies of both letters are forwarded under separate cover.

3. According to AMMOP/1, his letter was replayed by FUSEE and was the basis for an article in a Santiago newspaper by Identity C.

Marzo 15 de 1966

Estimado demócratacristiano:

Después de leer una copia literal del discurso pronunciado por Castro, en la escalinata de la Universidad de La Habana, el pasado 13 de marzo, me considero obligado con el Gobierno, el Partido Demócrata Cristiano y el pueblo chileno, que fueron innoblemente atacados por Castro durante el transcurso de su alocución, a expresar mi opinión con relación a dicha ofensa.

Digo obligado, porque el hecho de ser demócratacristiano cubano, integrante de esa gran comunidad de seres humanos que un día se dieron a la tarea de realizar una revolución en libertad y que lamentablemente vieron tronchadas sus aspiraciones al comprobar que las mismas eran ahogadas por la sangre vertida en los paredones de fusilamientos por héroes como Porfirio Ramirez, Presidente de la FEU de la provincia de Las Villas en Cuba y el Dr. Humberto Sorí Marín, Comandante del Ejército Rebelde y autor de la primera Ley de Reforma Agraria; debe servirme de experiencia para expresar lo que pienso decir a través de estas lineas. Digo obligado, porque en igual forma que nosotros hemos pedido en múltiples oportunidades, colaboración y solidaridad con nuestra lucha, solicitud que lamentablemente no ha sido respondida por algunos, alegando unas veces desconocimiento y otras imputándonos incomprensión con el "proceso revolucionario" que se está llevando a cabo en Cuba, no queremos que en esta oportunidad en que son los compañeros chilenos los que necesitan de nuestra solidaridad, vayamos a encontrar a alguien que por desconocimiento, no se decida a respaldar públicamente al Gobierno, Partido y pueblo de Chile en la actitud cívica y valiente adoptada frente a las ofensas expresadas por Castro durante su discurso, entre las cuales transcribimos las siguientes: "A decir verdad, siempre he creido que Frei es un representante de la burguesía chilena, que su gobierno es un gobierno de la burguesía. Jamás he creido que Frei vaya a hacer ninguna revolución".... posteriormente, al referirse a los sucesos provocados por los comunistas en la mina de cobre del Salvador donde murieron varias personas dijo: "Frei es un reaccionario Frei ha demostrado con este hecho, no ser un individuo de mano firme, sinó un individuo cobarde, que abusa del poder,......

SECRET

1/2

Frei ha demostrado ser un mentiroso. Frei ha demostrado ser un politiquero vulgar que para justificar su sanguinario gesto, trata de culpar a la Tri-Continental. Frei se desenmascara. Frei demuestra al pueblo de Chile y al mundo qué tipo de revolución es la que va a hacer, qué tipo de gobierno es el que va a llevar adelante. Es decir, no una revolución sin sangre, sinó una política de sangre sin revolución; sangre sin revolución, esa es la política de Frei, sangre sin revolución, ese es el gobierno de Frei, sangre sin revolución, esa es la política de la Alianza para el Progreso".

Después de estas expresiones, no podemos menos que salirle al paso a Castro y a la camarilla que desgobierna hoy a Cuba, e instar y pedir mayor colaboración con los patriotas que hoy ofrendan sus vidas por liberar a Cuba, a fin de evitar no solo la continuada masacre de cubanos que se lleva a cabo en la Isla, sino tambien ponerle fin a todos estos incidentes bochorhosos para la historia, en los que aparece un cubano, ofendiéndo públicamente ante el mundo a un Presidente, a un Partido y a un pueblo que a contrario sensus de lo que él esta haciendo en Cuba, sí está realizando una revolución en libertad, sí ha defendido en todo momento el sano nacionalismo, sí se ha puesto de frente cuantas veces las circunstancias lo han requerido a los oligarcas y explotadores.

Para terminar, sólo me queda reiterarle, que en nombre de la solidaridad que une a todos los demócratacristianos, exprese públicamente, su deseo de colaborar con la lucha que mantiene el pueblo cubano por derrocar al castrocomunismo y poder realizar en Cuba, una verdadera revolución en libertad, así como su respaldo a la actitud asumida por el Gobierno, el Partido Demócrata Cristiano y el pueblo chileno en los actuales momentos.

Pendiente de su atención y respuesta y dejando constancia de mi mayor consideración, quedo suyo

Cordialmente,

Ernesto Rodriguez
Sec. de Relaciones Internacionales del
MDC de Cuba

SECRET

JUVENTUD DEMOCRATA-CRISTIANA DE CUBA.
1732 N.E. 7th St.
MIAMI, FLA. U.S.A.

Miami, Marzo 17 de 1966

Estimado compañero:

La JDC de Cuba, fiel al pensamiento de nuestro Apostol José Martí que dice:"ver en silencio un crimen es cometerlo", no ha querido marginarse del daño que Castro quiere hacerle a la Revolución en Libertad, que está realizando el Presidente Eduardo Frei, su Gobierno y el Partido Demócrata Cristiano de Chile.

Consciente de que es posible que no te hayan llegado muchas de las informaciones relacionadas con los innobles ataques públicos de Castro a Frei y su Gobierno, calificándo al Presidente de "representante de la burguesía chilena", "reaccionario" "mimado del imperialismo yanqui y guardián de sus intereses en Chile".....etc. Hemos querido comunicarte, no sólo los ataques de Castro a Frei, sino una de las muchas respuestas que se le han dado a Castro. Nos referimos a la que en dias pasados hiciera el Diputado Demócrata-Cristiano Chileno, Alfredo Lorca y que a continuación transcribimos "Realmente, Fidel Castro es un caso digno de análisis. Hace pocos dias atrás, según expresaron diputados que estuvieron en Cuba, Castro dijo que Frei era un gran Presidente. Agregó que si el hubiera estado en Chile, habría hecho lo mismo que Frei.

Pero ahora, porque se le ha tocado la epidermis de la Tri-Continental, Frei se transforma en un Castro Cualquiera.

Yo estuve en Cuba -añadió Lorca- en 1959 cuando Castro subió al poder. En esa ocasión le pregunté al ver a tantos hombres armados, si pensaba reorganizar al ejército. Y él me contestó, con ese modo tan tropical: "chico, armas para qué cuando se tiene al pueblo".

Sin embargo, -añadió Lorca- en los siete años que Fidel tiene al pueblo detrás de él, anda mas armado que un militar en plena guerra. En Chile, todos los Presidentes que yo recuerdo, los

SECRET

radicales, el Sr. Ibáñez, el Sr. Alessandri, el propio Sr. Frei, han recorrido todo el pais sin gendarme, ni pistoleros a sueldo como los que utiliza Castro.

No se puede decir que Frei sea un cobarde, un mentiroso y un déspota como Fidel Castro afirma - añadió Lorca- . En cambio él está resguardado por metralletas y no puede dormir, ni se le conoce domicilio fijo porque los hijos de los muertos en el paredón le buscan. Además -puntualizó Lorca- vale la pena destacar que nadie se ha ido de Chile. En cambio, es público y notorio que más de 300 000 personas han huido del paraiso fidelista. Y me atrevo a pensar que si Fidel Castro diera libertad a quienes quieren irse de Cuba, se quedaría solo con sus barbas y su hermano Raúl, porque Camilo Cienfuegos ya no está. Dicen que se cayó de un avión.

Finalmente, Lorca recordó el caso del que fuera Presidente de los tribunales populares de Cuba, Sorí Marín."Es un hombre íntegro, puro y extremadamente justo", decía Castro de él. "Estoy seguro que núnca condenaría a quien no mereciera la pena de muerte". No obstante una mañana amaneció de mal genio y el Sr. Sorí Marín se convirtió en un agente de la Central de Inteligencia de los Estados Unidos. Resultado: hizo fusilar a ese hombre puro, íntegro y justo."

Estas palabras, expuestas por el Diputado D.C. Alfredo Lorca, señalando algunas de las muchas contradicciones de Castro, ratifican una vez más lo que la JDC de Cuba a través de sus dirigentes, le ha venido diciendo a toda la juventud demócratacristiana de América y que hoy, con más fuerza y moral que núnca nos permite pedirte en nombre de la solidaridad que nos une, que expongas públicamente tu respaldo a la Revolución en Libertad que viene realizando el Pueblo, Gobierno y Partido Demócrata Cristiano de Chile así como tu colaboración a la lucha que mantiene el pueblo cubano por derrocar al castrocomunismo existente en nuestra Patria.

Consciente de que nuestra solicitud será escuchada por tí, y seguros de que nos darás a conocer la atención que has de prestarle, quedo a tu entera disposición

Jesús Angulo
Presidente de la JDC de Cuba

THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

SOURCE: A member of a group of Cuban emigres trained in the techniques of information collection. The group has provided useful reports since 1961.

1. The Movimiento Democrata Cristiano (MDC, Christian Democratic Movement) in Miami will hold a congress from 24 to 27 February 1966.[1] Delegations of Christian Democrats from Venezuela, Peru, Chile, Colombia, and Germany will attend the congress.[2]

2. The MDC is preparing to hold elections for positions on the executive committee.

Field Comments:

1. The Eighth National Congress of the MDC was held in Miami from 19 to 21 February 1965. Delegations from Puerto Rico and Mexico attended. (Cf. CSDB-312/00790-65)

2. Another source, who is a member of the MDC, reported that invitations had been extended to delegations from these countries, but that no replies have been received, except from Peru, which only acknowledged receipt of the invitation.

THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

SOURCE OFFICIAL BRITISH SERVICE FROM "SOURCE WITH GOOD CONTACTS AMONG EXILES IN CARACAS". 24

1. MANOLO RAY, EXILE LEADER OF MOVIMIENTO REVOLUCIONARIO DEL PUEBLO (MRP - PEOPLE'S REVOLUTIONARY MOVEMENT) SAID IN EARLY OCTOBER THAT HE WAS FIRMLY OPPOSED TO ANY INVASION OF CUBA, INSISTING THAT CASTRO'S OVERTHROW WAS TO BE ACHIEVED BY INTERNAL RESISTANCE AND THIS HAD ALREADY STARTED.

2. THE MRP WAS ORGANIZED THROUGHOUT THE ISLAND AND SUPPORTED BY ALL CLASSES OF THE POPULATION. IT HAD MEMBERS IN ALL 33 TRADE UNIONS, THE G-2, MILITIA AND THROUGHOUT THE ADMINISTRATION. RAY ESTIMATED 80 PERCENT OF POPULATION WERE OPPOSED TO CASTRO, THOUGH MAJORITY WERE NOT ACTIVELY SO, HE CONSIDERED THE MRP AT PRESENT ENJOYED MORE SUPPORT THAN THE ORIGINAL REVOLUTION HAD

HAD AGAINST BATISTA.

3. THE MRP WAS PRESENTLY SHORT OF ARMS AND EXPLOSIVES BUT THE POSITION WAS IMPROVING. (A MILITIA CAPTAIN WAS RECENTLY SENTENCED TO 30 YEARS IN PRISON FOR PASSING ARMS TO THE MRP). NO HELP WHATSOEVER HAD BEEN RECEIVED BY THE INTERNAL RESISTANCE FROM THE "SOURCES IN THE UNITED STATES, WHO PROVIDED SUPPORT FOR THE INVASION". THESE SOURCES WERE STILL THINKING INEFFECTUALLY IN TERMS OF A FURTHER INVASION.

4. THE GENERAL ATTITUDE OF THE RESISTANCE IN CUBA TOWARDS THE EXILES WAS ONE OF INDIFFERENCE MOUNTING TO CONTEMPT FOR SPECIFIC MOVES SUCH AS THE PROPOSED PROMOTION OF A CUBAN GOVT IN EXILE. WHAT THE RESISTANCE WANTED WAS FUNDS AND THE RETURN, BY INFILTRATION, OF TRAINED EXILES, PARTICULARLY COMMUNICATION EXPERTS.

5. ON THE TIMING OF CASTRO'S OVERTHROW, RAY SAID CASTRO WOULD NOT LAST ANOTHER YEAR. HE ADDED THAT THE SITUATION IN CUBA IMMEDIATELY AFTER CASTRO'S DOWNFALL WOULD DE DANGEROUS AND COULD DEVELOP INTO A CIVIL WAR.

6. FIELD DISSEM: STATE. CINCLANT, CINCARIB.

Transmitted herewith, FYI, is a debriefing report on Santiago SANCHEZ de la Torre. Subject arrived in the U.S., via Mexico in late August, 1963. The debriefing contains information re the MRR roll up in May, 1963. Attachment "A" contains a list of subject's friends that are currently employed in power plants in Cuba. Attachment "B" is a debriefing report on Angel BENCOMO who Sanchez believes was responsible for the MRR roll up.

DEBRIEFING REPORT : Santiago *SANCHEZ de la Torre - aka "Jose Antonio"

DATE & PLACE : Safehouse #182, 29-30 August (0900 - 1300 hrs)

CASE OFFICER : Clarence E. SMERYAGE

1. Subject began to work against the CASTRO regime with the MRP in 1960. At that time he was employed in the Santa Clara power plant as a technician. His job was controlling the amount of electric current that was distributed. (Attachment "A" contains a list of Subject's friends currently employed in power plants in Cuba). On 17 April 1961 Subject made contact with a KUBARK infiltration team and began to assist the team. Team consisted of Segundo 04 *BORGES, "Pepe" 04 *GONZALES and *AMARGO/1. Case Officer Comment: AMARGO/1 has confirmed the fact that Subject worked with his team in Cuba. Subject permitted the team to install their RS-1 set in his house located at #219 Carretera de Camajuani in the City of Santa Clara. He also safehoused the team on occasion and permitted them to hold meetings at his house. After the failure of Playa Giron the team reorganized the MRR in Las Villas Province, selecting Subject to be the Civil Coordinator of the movement in that province. Enrique 04 *ORTEGA was selected as the Military Coordinator. On 21 July 1961, while 04 ORTEGA and Subject were in Havana for discussions with MRR leaders *AMHOOK/1 and Juan *FALCON 04 the KUBARK infiltration team and many other members of the MRR in Las Villas, including Subject's wife, were arrested. (Discussions were about actions to take place 26 July 1961).

2. 04 Maria *RODRIGUEZ Posa, from Santa Clara, age 50/55 yrs, called 04 ORTEGA in Havana and told him not to return to Santa Clara as many people had been arrested. 04 ORTEGA passed the 04 information to Subject but as subject thought it applied only to ORTEGA 04 he returned to Santa Clara late at night on 22 July. He went to his home and on 23 July proceeded to work at the power plant. Maria RODRIGUEZ Posa 04 intercepted him on his way home for lunch and told him that the G-2 was at his home and that they also were going to the power plant to arrest him. Subject also learned that there was surveillance on his home on the night of 22 July 1961, but the person watching the house had gotten drunk and did not see subject when he returned from Havana. From that moment until entering an Embassy on 6 September 1962, subject lived "black".

3. Subject proceeded to the outskirts of Santa Clara where a friend, Efrain *WAREN, resided. His friend told him to go to Havana. While driving to Havana Subject met another person who informed him that the G-2 had a roadblock on the highway at Colon, Matanzas, and that all cars were being searched. On 24 July 1961, Subject went to a beach called "GANUZA" located on the north coast of Las Villas near Corralillo. Subject's sister has a home at "Ganuza" so he left his car there and proceeded to Havana with some friends of his sister. Later the G-2 confiscated his auto. (It is interesting to note that the G-2, after confiscating subject's auto at the beach, believed that Subject had departed from Cuba. Subject thereafter communicated with his wife by sending her letters in jail via Miami where they were postmarked).

10/BR

4. On 25 July 1961 Subject went to the house of an MRR leader, FNU JIMENEZ in Havana. When Subject approached JIMENEZ house he noticed a "blind move as if someone was watching" so he did not go in. He walked two blocks to a bus stop. From the bus stop he could observe the house and he noticed that a car departed at a "high rate of speed". Later that day Subject made contact with ORTEGA at the house of Mario *IRIVE in Fontanar, Havana. (IRIVE still lives in Havana). ORTEGA told Subject of the MRR plans for the following day (26 July). ORTEGA said that the movement was "going ahead with their plans" even though they were aware of JIMENEZ' arrest. Subject resided for approximately one week at the home of Jose *MELGAREJO in Veradero. MELGAREJO continues to work for the GOC at this time. He is the Deputy Chief of "Asphalt Consolidated" for the entire country. (In April 1962 Subject's wife escaped from the Womens' Prison at Guanajay, Pinar del Rio. She also was safehoused at MALGAREJO's house). Subject claims that MALGAREJO is a "good man" who also has a home located at Avenida de los OCUJES #221 in Santa Catalina (outskirts of Havana). MALGAREJO's wife and sons reside with him. Subject spent approximately one month in the above house (Aug.-Sept. 61).

5. From October 1961 Subject resided with Ester *CRUZ, a person he had known for 10 years. While living with CRUZ he changed his appearance - lost much weight, dyed and curled his hair, obtained contact lenses. (C/O Comment: Ester CRUZ was arrested approximately 9 May 1962 during the "roll up" of the MRR. She is in jail at this time). In November 1961, Subject met Joso Luis *ARANGO from Camaguey. ARANGO was at that time military coordinator for the MRR and used the name "Angelito". FNU *REYES Aka LUCAS, who was the MRR Coordinator of Las Villas introduced Subject to ARANGO. REYES is from Yaguajay, Las Villas. Subject met REYES through Oscar *MADRUGA Aka "Anibel" whom he had known since 1959. ARANGO encouraged Subject to begin working for the MRR again. An ID card in alias from a medical laboratory was obtained for Subject. He then obtained a briefcase and began selling medical supplies. MADRUGA's cousin, Jose *FERNANDEZ, owned the laboratory "*ROMBERG LABORATORY". FERNANDEZ worked for AMBRONC/5. After AMBRONC/5 was captured two actual MRR members met FERNANDEZ and requested that he continue to work. FERNANDEZ did not know the men and denied that he worked for the movement).

6. In late November, 1961 Subject moved into a "guest house" where several other MRR members resided. House is called "*House of Maria de la *GALLEGA" and is located on "J" Street between 21st and 23rd Streets, Vedado. Subject met "Fernando", the Security Chief of the MRR at the guest house. Fernando continues to work in the underground. He also met Oscar MADRUGA there. He met Roberto *SANCHEZ who also continues to work in the underground. MADRUGA had gone to the hills of Las Villas but returned to Havana. Another MRR man residing there was Roberto *FERNANDEZ. Arturo *MUGARRA and #AMSALON/1 visited the house on occasion. Subject was once picked up at the house by AMSALON/1. During this period FNU REYES, Aka Lucas, was arrested and Subject began to work with MUGARRA. In December 1961 ARANGO took asylum. There was much conflict in the MRR during this period between AMHOOK/1 and AMBRONC/5. (Subject has many letters pertaining to this conflict but they were left in Mexico. AMBIDDY/1 is having someone pick up the letters. Case Officer will attempt to obtain these letters and review them. Subject claims he did not hand carry them to the U.S., as he thought our officials would seize them).

421BR

04 04

7. In January 1962, Arturo MUGARRA and Roberto SANCHEZ were preparing to depart from Cuba. When AMJAVA/4 and AMBRONC/5 arrived in Havana they changed their minds. (C/O Comment: A woman named Emilia del *MAS was 04 living with MUGARRA 04 This girl later came to the USA via the Brazilian Embassy) 04 MUGARRA's group consisted of Roberto 04 *SANCHEZ, Angel *CANETE, 04 04 Eddy *GALENO who "is bad, likes money, women, etc"., and subject. 04 GALENO called Subject here in Miami on 28 August and wants to talk with him).

04

8. MUGARRA informed AMBRONC/5 that he had doubts about Juan F *BUSTAMENTE, Aka "Roly", as he had asked too many questions re what AMBRONC/5 had brought to Cuba. AMBRONC/5 decided to call a "false meeting" of the chiefs of the movement to test BUSTAMENTE but "someone objected to this". In February 1962, a meeting of the leaders of the MRR took place and AMBRONC/5 reorganized the movement. 04 Subject met AMBRONC/5 only twice - once in February 1962 at the house 04 of Angel CANETE and another time in March, 1962 when the assassination of Juan *MARINELLO failed. The Operation failed as the automobile to be used in the assassination attempt was stolen on the day of the proposed Operation. The driver of the car was to be Orlando *CRUZ, brother of Ester CRUZ. The MRR suspected Orlando CRUZ after this incident as he is a person who "likes money" and the theft was"quite a coincidence". (Orlando CRUZ is presently in Miami. He called Subject on 28 August and wants to see him). AMBRONC/5 informed the group in March to suspend all operations until he returned from a 04 trip he was taking to the USA with 04 MUGARRA and Jose *RODRIGUEZ Pecheco 04 AMBRONC/5 placed 04 Angel *CANATE in charge of the radio sets. CANATE was 04 selected to be the only person in direct contact with the RADOP in place of Juan BUSTAMENTE, Aka "Roly" 04 MUGARRA gave subject two radio sets; one was placed in the apartment of a sister-in-law of subject located 08 08 at *23rd and I Sts., Vedado, Apt. #11. The other set was located at *A 08 Street between 3rd and 5th Sts., Vedado, the home of Carlos *CADENAS. 04 The only persons who knew the locations of the sets were the Radop, Juan 04 FALCON, the MRR Chief and Angel CANATE. 04 During AMBRONC/5's trip to the USA in April, 1962, Juan BUSTAMENTE, Aka "Roly" discovered where the radios were hidden. Subject had contact with FALCON and CANATE during April.

04 04 04

04 9. On 2 May 1962 AMBRONC/5 and MUGARRA returned from the USA. Enrique *CEPERO and MUGARRA's 04 common-law-wife waited for them in the Blue Studebaker Lark. AMBRONC/5 and MUGARRA were late in arriving, however, and the group had departed from the area. 04

10. Subject later discovered that the G-2 had captured a "large radio" in the apartment of a radio technician named *TROVADIUS. TROVADIUS, when captured, fired at the G-2 and was himself wounded in the shoulder. Later TROVADIUS reported that he had seen Juan FALCON in prison and that FALCON had said "people in the G-2 had told me that no one would be wounded or killed".

01

11. The Radop *(AMBUMP/1) informed subject on Wednesday (9 May 1962) to take the radio set out of the house. Rumors were already circulating that the Radop and FALCON were captured. Owners of the house where the radio was cached had moved to Santa Clara for Mothers' Day. As Subject was in contact with Congo PECHECO during this time he did not attempt to pick-up the radio until Thursday (10 May) at 0700 hrs. Subject entered the apartment building (12 stories high) by the rear. Upon arrival he discovered that the glass doors on the terrace were opened (apartment was located on the eleventh floor). These windows are seldom opened.

51/BS

Subject entered the building with his briefcase containing a pistol. He noticed two men "loitering in the lobby". He took the elevator to the 9th floor, departed, and walked to the eleventh floor. Subject was wearing soft shoes. He walked quietly to the apartment and heard a voice say "don't talk so loud as no one will come in:. Subject then proceeded to the next apartment occupied by a friend of the movement. The friend said she had heard noises since the preceding night in the apartment. Subject then took the stairs to the 9th floor and entered the elevator. He got off on the ground floor and proceded to the house on Carlos 08 Tercero Ave. where the other radio was cached (Owner's name is CABANES) 04. Upon arrival at the house he discovered that the woman who owned the house was outside in her housecoat talking to a stranger. Subject then departed from the area, called a friend of CABANES 04 who went to the house. The friend was arrested, held a week and released. Subject then tried to pass this information to Arturo 04 MUGARRA but MUGARRA had disappeared. He later discovered that MUGARRA knew that the radios were discovered and that TROVADIUS had been shot. 04

12. On 9 May 04 Juan FALCON, 04 the radio operator (AMJUMP/1) 01, Pepe 04 *GUTIERREZ, Aka 04 Peluza, Estar CRUZ and Jose 04 *SEOANE were arrested. When subject heard of these developments he hid in the Guanabo area. During this period 9th to 28th of May, he saw 04 MUGARRA approximately eight times. He later heard that the G-2 had taken over a house in Guanabo; located 3 blocks from where he was hiding. Subject heard that the G-2 had taken a "blond thin man there". (Possibly AMBRONC/5). G-2 remained at the house for four days.

13. Subject then departed from Guanabo for a few days. When he returned in June 1962 he met Sylvia LNU; the person who resided at the house where the "blond thin man named CARLOS" was taken". Sylvia and subject met in the water in front of their houses. Sylvia is the wife of a BATISTA Naval Captain who lives in Miami. She has two "little girls". Sylvia said that "CARLOS" used to live at her house and after being captured he was returned there with the G-2. The G-2 was searching for a "plastic case and envelopes" (pads and crystals). Sylvia told subject that she had seen the envelope and that when Enrique CEPERO's family informed her that he was captured she hid everything in the house that could incriminate "Carlos" under the dog house in the back yard". "Carlos" talked as if he had been drugged when he returned to the house with the G-2. They searched the entire house bringing "Carlos" back and forth several times for four days. Sylvia was forced to open the door whenever anyone arrived and the caller was arrested. Sylvia was interrogated and the house was under surveillance for approximately a month. A friend of Sylvia's from outside Cuba visited her during this period and was arrested and held for a week. Sylvia said the items she buried looked like "pads and maps wrapped in plastic". Although she claimed the material was turned over to the MRR subject has doubts that this was done.

14. During September 1962 Subject and his wife entered the Uruguayan Embassy to remain in asylum until 19 June 1963 when they arrived in Mexico City via Safe Conduct.

15. Attachment "B" is a report on Angel BENCOMO who subject believes was responsible for the MRR "roll-up".

ATTACHMENT "B"

Debriefing of Santiago SANCHEZ de la Torre

SUBJECT: Angel *BENCOMO (BENCOMO reportedly was responsible for the MRR roll-up per SANCHEZ - See MEXI-5507)

1. Angel BENCOMO is approximately 19 years old, has brown skin, short, stocky, approximately 150 lbs. BENCOMO was formerly a miliciaman in Camaguey and a friend of Arturo *MUGARRA 04 BENCOMO entered the MRR via Eddy *GALENO 04 during March 1962, when he was employed by the Abras Publicas in Camaguey. BENCOMO had trouble with his superiors, quit the militia, etc 04 GELENO brought BENCOMO to Havana where BENCOMO began working in resistance with Jose 04 RODRIGUEZ Pecheco and Santiago SANCHEZ. (BENCOMO did not meet Arturo 04 MUGARRA in Havana). SANCHEZ "tested BENCOMO" and he appeared to be OK i.e., disciplined, quiet, etc. SANCHEZ then began using BENCOMO to pick-up radios, minox cameras, etc. This activity took place between March and May 1962.

2. Arturo MUGARRA was arrested in May 1962 in a cafeteria in Havana where he went to dispose of an automobile. GALENO was to 04 meet MUGARRA at the cafeteria. MUGARRA and his brother arrived at the cafeteria, turned the car (Cadillac) over to the prospective buyer and sat down. A mechanic drove the car to test it and returned with two G-2 cars. Although GALENO was present and was questioned he was not arrested. 04

3. From May to September 1962, SANCHEZ saw BENCOMO often. In September SANCHEZ went into an Embassy but "heard that BENCOMO was arrested and held until November". In January 1963 SANCHEZ heard from BENCOMO via SANCHEZ' sister. BENCOMO wrote a letter (which SANCHEZ still has) saying that he was working for the MRR in the streets. BENCOMO said he did not want to seek asylum but was 04 considering going to the house of Luis *PERALES in Oriente (PERALES formerly was operating in the hills of Yayuajay but went to Havana to hide out in Jan.-Feb. 1962). In February 1963, SANCHEZ received another letter from his sister saying that BENCOMO was a G-2 man. BENCOMO identified himself as a G-2 man to 04 PERALES in December 1962, 04 and asked PERALES to cooperate with him 04 PERALES told SANCHEZ' sister of BENCOMO's proposition in January 1963. Since that time PERALES has disappeared. 04

Mr. William P. Barke
6300 Saint Charles Avenue
New Orleans 18, Louisiana

Dear Mr. Barke:

As you bring to a close eighteen years of service to your country, I want to join your friends and co-workers in wishing you well and hoping that you find the years ahead filled with enjoyment and satisfaction.

It takes the conscientious efforts of many people to do the important work of this Agency. You leave with the knowledge that you have personally contributed much to our success in carrying out our mission. Your faithful and loyal support has measured up to the high ideals and traditions of the Federal service.

May I express to you my appreciation and extend warmest wishes in the years ahead.

Sincerely,

(Signed) JOHN A. McCONE

REPORT OF HONOR AND MERIT AWARDS BOARD

DATE: 2 October 1962

The Honor and Merit Awards Board having considered a recommendation that:

NAME: (Last) BURKE,	(First) William	(Middle) Patrick, Jr.	POSITION TITLE: Chief, New Orleans Field Office
PRESENT GRADE: GS-15	OFFICE ASSIGNED TO: DDI/OO		STATION: New Orleans

BE AWARDED: Intelligence Medal of Merit

☐ FOR HEROIC ACTION, ON

☒ FOR MERITORIOUS ACHIEVEMENT OR SERVICE DURING THE PERIOD

☒ APPROVES THE RECOMMENDATION ☐ DISAPPROVES THE RECOMMENDATION

☐ APPROVES, BUT IN LIEU THEREOF, RECOMMENDS THE AWARD OF:

CITATION

Mr. William P. Burke, Jr., is hereby awarded the Intelligence Medal of Merit for his outstanding service to the Central Intelligence Agency. As Chief of the New Orleans Field Office since its inception in 1947, Mr. Burke labored unceasingly in developing programs which have produced important information on a continuing basis. In his role as Agency representative, he has been successful in establishing relationships which have furthered the mission of the Agency and enhanced its reputation in the area. In his role as office chief, he has provided leadership of the highest order to his associates, and leaves behind him a legacy of achievement in keeping with the best traditions of service to the United States.

(Recommendation approved by DD/I on 14 September 1962)

[illegible]

[illegible]

MY LAST WORKING DAY WILL BE: [illegible]

DATE SIGNED: [illegible]

SIGNATURE OF EMPLOYEE:

FORWARD COMMUNICATIONS, INCLUDING SALARY CHECKS AND BONDS, TO THE FOLLOWING ADDRESS (Number, Street, City, Zone, State)

[illegible] Ave.,
[illegible]

INSTRUCTIONS

Items 1 thru 7 and Items 9 thru 18a - The initiating office should fill in each of the referenced items. Items 3 thru 7 and 9 thru 18 require information which pertains only to the action requested, and NOT to the current status of the employee unless specific items remain unchanged.

Item 5 - "Category of Employment" should show one of the following entries:

Regular
Part Time
Temporary
Temporary - Part Time
Summer
Detail Out
Detail In
WAE
Consultant
Military

Item 9 - "Organizational Designations" should show all levels of organization pertinent to identifying the location of the position:

FIRST LINE
- Major Component (Director, Deputy Director, etc.)
- Office, Major Staff, etc.
  - Division or Staff (subordinate to first line)
    - Branch
      - Section
        - Unit

Item 11 - "Position Title" should reflect the standard abbreviated title given in the most current edition of the Position Control Register or reported on Form 261, Staffing Complement Change Authorization.

Item 18b - Signature should be that of the official authorized to approve for the Career Service to which the employee belongs. If more than one Career Service is involved, the gaining Career Service should approve and the other Career Service should concur in Item 18, Remarks.

ROUTING - The original only of this form will be forwarded to the Office of Personnel through the appropriate Career Service official(s). In the case of requests specified in HB 20-500-1, which require advance approval of or notification to the Office of Security or the Office of the Comptroller, one copy only will be sent to the Office(s) concerned.

MEMORANDUM FOR: Assistant Director for Operations

SUBJECT: William P. Burke, Memorandum of Performance

William P. Burke, Chief, New Orleans Field Office continues to manage his office in a thoroughly competent and efficient manner. He is extremely conservative by nature and finds it difficult to act without the most careful consideration of all factors involved. While this approach might be a handicap in some areas it tends to be an asset in New Orleans. In spite of this tendency he willingly and efficiently devotes all his time and energy to the solution of a problem in an emergency. He represents the Agency well and maintains the highest respect in his community.

Memo for File - William P. Burke

Subject: Longevity Step Increase

In reviewing this file under the Security reinvestigation program, it was noted that the 3rd LSI (as GS-15) was proposed to be made effective on 18 Sept 60, but that the effective date had been changed by Payroll to show 16 Oct 60. Reason for the change is presumed to be due to LWOP. Form 560 shows 225 hours of LWOP during the waiting period. If those figures are correct, then there was no "excess" LWOP, since the law provides that a maximum of 240 hours of LWOP is creditable toward completion of the waiting period in the case of LSI's.

I called this case to the attention of Joe Tracy, C/Payroll, who will review LWOP records and, if required, issue a memorandum to correct the effective date of the last LSI.

MEMORANDUM FOR: Assistant Director for Operations

SUBJECT: William P. Burke, Memorandum of Performance

William P. Burke, Chief of the New Orleans Field Office, continues to manage his office in a thoroughly competent and efficient manner. Mr. Burke is a conservative who sometimes finds it difficult without most careful and protracted consideration of all factors involved to adjust to changes in methods and objectives particularly those peculiar to clandestine support. While his conservatism added to his meticulous legalistic approach might be something less than desirable in certain areas it is a definite asset in New Orleans. When called upon in emergency he willingly and efficiently devotes his entire time and energy to the solution of the problem regardless of personal inconvenience. Mr. Burke represents the Agency well in his area and readily maintains respect in the community.

MEMORANDUM FOR: Assistant Director for Operations

SUBJECT: William P. Burke, Memorandum of Performance

1. William P. Burke, Chief of the New Orleans Field Office, continues to manage his office most efficiently and to demonstrate thorough knowledge of his area. His inherent conservatism and somewhat legalistic approach tend to make it difficult for him to accept change and methods peculiar to clandestine support without most careful consideration of all the factors involved.

2. Mr. Burke represents the Agency well in his area. His conservatism is to a degree an asset in New Orleans; it could conceivably be a handicap elsewhere.

5. SERVICE DESIGNATION OC	6. OFFICIAL POSITION TITLE Intelligence Officer (Contact)		7. OFF/DIV/BR OF ASSIGNMENT OO/CD/New Orleans

8. CAREER STAFF STATUS						9. TYPE OF REPORT			
☐	NOT ELIGIBLE	☐	MEMBER	☐	DEFERRED	☐	INITIAL	☐	REASSIGNMENT/SUPERVISOR
☐	PENDING	☐	DECLINED	☐	DENIED	X	ANNUAL	☐	REASSIGNMENT/EMPLOYEE

10. DATE REPORT DUE IN O.P. 31 May 1959	11. REPORTING PERIOD From To Sept 58 - Mar 59	SPECIAL (Specify)

SECTION B — EVALUATION OF PERFORMANCE OF SPECIFIC DUTIES

List up to six of the most important specific duties performed during the rating period. Insert rating number which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).

1 - Unsatisfactory	2 - Barely adequate	3 - Acceptable	4 - Competent	5 - Excellent	6 - Superior	7 - Outstanding

SPECIFIC DUTY	RATING NO.	SPECIFIC DUTY	RATING NO.
SPECIFIC DUTY NO. 1 Management of a domestic field office.	6	SPECIFIC DUTY NO. 4 Obtaining cooperation of non-governmental sources in his area.	6
SPECIFIC DUTY NO. 2 Analysis of assigned area for intelligence potential.	6	SPECIFIC DUTY NO. 5 Liaison with Federal and local agencies and officials in his area.	4
SPECIFIC DUTY NO. 3 Planning and carrying out effective intelligence collection.	6	SPECIFIC DUTY NO. 6 Support of other elements of CIA in his area.	3

SECTION C — EVALUATION OF OVERALL PERFORMANCE IN CURRENT POSITION

Take into account everything about the employee which influences his effectiveness in his current position - performance of specific duties, productivity, conduct on job, cooperativeness, pertinent personal traits or habits, particular limitations or talents. Based on your knowledge of employee's overall performance during the rating period, place the rating number in the box corresponding to the statement which most accurately reflects his level of performance.

1 - Performance in many important respects fails to meet requirements.
2 - Performance meets most requirements but is deficient in one or more important respects.
3 - Performance clearly meets basic requirements.
4 - Performance clearly exceeds basic requirements.
5 - Performance in every important respect is superior.
6 - Performance in every respect is outstanding.

RATING NO.: 5

SECTION D — DESCRIPTION OF THE EMPLOYEE

In the rating boxes below, check (X) the degree to which each characteristic applies to the employee

1 - Least possible degree | 2 - Limited degree | 3 - Normal degree | 4 - Above average degree | 5 - Outstanding degree

CHARACTERISTICS	NOT APPLICABLE	NOT OBSERVED	RATING 1	2	3	4	5
GETS THINGS DONE						X

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

OFFICE OF PERSONNEL
APR 29 12 12 PM '59
MAIL ROOM

Subject possesses complete integrity and thorough knowledge of his area. He is able to assess the potential of sources and to obtain their full cooperation. He is inclined toward a legalistic approach which makes him somewhat less than receptive to new ideas and methods particularly when understanding support of the clandestine services is required. His conservatism is, to an extent, an asset in his area; it could be undesirable in some other assigments.

SECTION F CERTIFICATION AND COMMENTS

1. BY EMPLOYEE

I certify that I have seen Sections A, B, C, D and E of this Report.

DATE	SIGNATURE OF EMPLOYEE

2. BY SUPERVISOR

MONTHS EMPLOYEE HAS BEEN UNDER MY SUPERVISION 100	IF THIS REPORT HAS NOT BEEN SHOWN TO EMPLOYEE, GIVE EXPLANATION Subject is located in New Orleans.

IF REPORT IS NOT BEING MADE AT THIS TIME, GIVE REASON.

☐ EMPLOYEE UNDER MY SUPERVISION LESS THAN 90 DAYS ☐ REPORT MADE WITHIN LAST 90 DAYS

☐ OTHER (Specify):

DATE 23 April 59	OFFICIAL TITLE OF SUPERVISOR Chief, CD/OO	TYPED OR PRINTED NAME AND SIGNATURE E. M. Ashcraft EMAshcraft

3. BY REVIEWING OFFICIAL

☒ I WOULD HAVE GIVEN THIS EMPLOYEE ABOUT THE SAME EVALUATION.
☐ I WOULD HAVE GIVEN THIS EMPLOYEE A HIGHER EVALUATION.
☐ I WOULD HAVE GIVEN THIS EMPLOYEE A LOWER EVALUATION.
☐ I CANNOT JUDGE THESE EVALUATIONS. I AM NOT SUFFICIENTLY FAMILIAR WITH THE EMPLOYEE'S PERFORMANCE.

FITNESS REPORT (Part I) PERFORMANCE

INSTRUCTIONS

FOR THE ADMINISTRATIVE OFFICER: Consult current instructions for completing this report.

FOR THE SUPERVISOR: This report is designed to help you express your evaluation of your subordinate and to transmit this evaluation to your supervisor and senior officials. Organization policy requires that you inform the subordinate where he stands with you. Completion of the report can help you prepare for a discussion with him of his strengths and weaknesses. It is also organization policy that you show Part I of this report to the employee except under conditions specified in Regulation 20-370. It ~~is recommended~~ that you read the entire form before completing any question. If this is the initial report on the employee, it must be completed and forwarded to the Office of Personnel no later than 30 days after the date indicated in item 8, of Section "A" below.

SECTION A. GENERAL

1. NAME (Last) (First) (Middle) BURKE, William P.	2. DATE OF BIRTH 10/22/00	3. SEX M	4. SERVICE DESIGNATION OC

☐ CONTINUED ON ATTACHED SHEET

I certify that any substantial difference of opinion with the supervisor is reflected in the above section.

A. THIS DATE 18 Sept 58	B. TYPED OR PRINTED NAME AND SIGNATURE OF REVIEWING OFFICIAL GEORGE G. CAREY	C. OFFICIAL TITLE OF REVIEWING OFFICIAL AD/O

SECTION C. JOB PERFORMANCE EVALUATION

1. RATING ON GENERAL PERFORMANCE OF DUTIES

DIRECTIONS: Consider ONLY the productivity and effectiveness with which the individual being rated has performed his duties during the rating period. Compare him ONLY with others doing similar work at a similar level of responsibility. Factors other than productivity will be taken into account later in Section D.

INSERT RATING NUMBER: 5

1 - DOES NOT PERFORM DUTIES ADEQUATELY; HE IS INCOMPETENT.
2 - BARELY ADEQUATE IN PERFORMANCE; ALTHOUGH HE HAS HAD SPECIFIC GUIDANCE OR TRAINING, HE OFTEN FAILS TO CARRY OUT RESPONSIBILITIES.
3 - PERFORMS MOST OF HIS DUTIES ACCEPTABLY; OCCASIONALLY REVEALS SOME AREA OF WEAKNESS.
4 - PERFORMS DUTIES IN A COMPETENT, EFFECTIVE MANNER.
5 - A FINE PERFORMANCE; CARRIES OUT MANY OF HIS RESPONSIBILITIES EXCEPTIONALLY WELL.
6 - PERFORMS HIS DUTIES IN SUCH AN OUTSTANDING MANNER THAT HE IS EQUALLED BY FEW OTHER PERSONS KNOWN TO THE SUPERVISOR.

COMMENTS:

FORM NO. 45 (Part I) REPLACES PREVIOUS EDITIONS OF FORMS 45 AND 45a WHICH ARE OBSOLETE.

C. RATINGS ON PERFORMANCE OF SPECIFIC DUTIES

DIRECTIONS:

a. State in the spaces below up to six of the more important SPECIFIC duties performed during this rating period. Place the most important first. Do not include minor or unimportant duties.

b. Rate performance on each specific duty considering ONLY effectiveness in performance of this specific duty.

c. For supervisors, ability to supervise will always be rated as a specific duty (*do not rate as supervisors those who supervise a secretary only*).

d. Compare in your mind, when possible, the individual being rated with others performing the same duty at a similar level of responsibility.

e. Two individuals with the same job title may be performing different duties. If so, rate them on different duties.

f. Be specific. Examples of the kind of duties that might be rated are:

ORAL BRIEFING
GIVING LECTURES
CONDUCTING SEMINARS
WRITING TECHNICAL REPORTS
CONDUCTING EXTERNAL LIAISON
TYPING
TAKING DICTATION
SUPERVISING
HAS AND USES AREA KNOWLEDGE
DEVELOPS NEW PROGRAMS
ANALYZES INDUSTRIAL REPORTS
MANAGES FILES
OPERATES RADIO
COORDINATES WITH OTHER OFFICES
WRITES REGULATIONS
PREPARES CORRESPONDENCE
CONDUCTS INTERROGATIONS
PREPARES SUMMARIES
TRANSLATES GERMAN
DEBRIEFING SOURCES
KEEPS BOOKS
DRIVES TRUCK
MAINTAINS AIR CONDITIONING
EVALUATES SIGNIFICANCE OF DATA

g. For some jobs, duties may be broken down even further if supervisor considers it advisable, e.g., combined key and phone operation, in the case of a radio operator.

DESCRIPTIVE RATING NUMBER

1 - INCOMPETENT IN THE PERFORMANCE OF THIS DUTY
2 - BARELY ADEQUATE IN THE PERFORMANCE OF THIS DUTY
3 - PERFORMS THIS DUTY ACCEPTABLY
4 - PERFORMS THIS DUTY IN A COMPETENT MANNER
5 - PERFORMS THIS DUTY IN SUCH A FINE MANNER THAT HE IS A DISTINCT ASSET ON HIS JOB
6 - PERFORMS THIS DUTY IN AN OUTSTANDING MANNER FOUND IN VERY FEW INDIVIDUALS HOLDING SIMILAR JOBS
7 - EXCELS ANYONE I KNOW IN THE PERFORMANCE OF THIS DUTY

SPECIFIC DUTY NO. 1 Management of domestic field office	RATING NUMBER 6	SPECIFIC DUTY NO. 4 Obtaining the effective support of non-governmental sources and contacts in his area	RATING NUMBER 6
SPECIFIC DUTY NO. 2 Analysis of assigned area for intelligence potential	RATING NUMBER 6	SPECIFIC DUTY NO. 5 Liaison with Federal and local agencies and officials in his area	RATING NUMBER 4
SPECIFIC DUTY NO. 3 The planning and carrying out of effective intelligence collection	RATING NUMBER 6	SPECIFIC DUTY NO. 6 Support of other elements of CIA in his area	RATING NUMBER 3

3. NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

DIRECTIONS: Stress strengths and weaknesses, particularly those which affect development on present job.

Subject possesses complete integrity and thorough knowledge of his area. He has the ability to assess the potential of sources and to obtain their full cooperation. He is inclined toward a legalistic approach which renders him somewhat less than receptive to new ideas and methods, particularly where understanding support of the clandestine services is required. This conservatism is to a degree an asset in the area and the duties to which he is assigned but could be undesirable in some other assigments.

SECTION D. SUITABILITY FOR CURRENT JOB IN ORGANIZATION

DIRECTIONS: Take into account here everything you know about the individual....*productivity, conduct in the job, pertinent personal characteristics or habits, special defects or talents*....and how he fits in with your team. Compare him with others doing similar work of about the same level.

RATING NUMBER: 6

1 - DEFINITELY UNSUITABLE - HE SHOULD BE SEPARATED
2 - OF DOUBTFUL SUITABILITY...WOULD NOT HAVE ACCEPTED HIM IF I HAD KNOWN WHAT I KNOW NOW
3 - A BARELY ACCEPTABLE EMPLOYEE...BELOW AVERAGE BUT WITH NO WEAKNESSES SUFFICIENTLY OUTSTANDING TO WARRANT HIS SEPARATION
4 - OF THE SAME SUITABILITY AS MOST PEOPLE I KNOW IN THE ORGANIZATION
5 - A FINE EMPLOYEE - HAS SOME OUTSTANDING STRENGTHS
6 - AN UNUSUALLY STRONG PERSON IN TERMS OF THE REQUIREMENTS OF THE ORGANIZATION
7 - EXCELLED BY ONLY A FEW IN SUITABILITY FOR WORK IN THE ORGANIZATION

IS THIS INDIVIDUAL BETTER SUITED FOR WORK IN SOME OTHER POSITION IN THE ORGANIZATION? ☐ YES ☒ NO. IF YES, EXPLAIN FULLY:

SECRET

SECRET
(When Filled In)

FITNESS REPORT (Part II) POTENTIAL

INSTRUCTIONS

FOR THE ADMINISTRATIVE OFFICER: Consult current instructions for completing this report.

FOR THE SUPERVISOR: This report is a privileged communication to your supervisor, and to appropriate career management and personnel officials concerning the potential of the employee being rated. It is NOT to be shown to the rated employee. It is recommended that you read the entire report before completing any question. This report is to be completed only after the employee has been under your supervision FOR AT LEAST 90 DAYS. If less than 90 days, hold and complete after the 90 days has elapsed. If this is the INITIAL REPORT on the employee, however, it MUST be completed and forwarded to the OP no later than 30 days after the due date indicated in item 8 of Section "E" below.

SECTION E. GENERAL

1. NAME (Last) (First) (Middle) BURKE, William P.	2. DATE OF BIRTH 10/22/00	3. SEX M	4. SERVICE DESIGNATION OC
5. OFFICE/DIVISION/BRANCH OF ASSIGNMENT OO/Contact/New Orleans	6. OFFICIAL POSITION TITLE Intelligence Officer (Contact) (CH)		
7. GRADE GS-15	8. DATE REPORT DUE IN OP 9 Sept. 1958	9. PERIOD COVERED BY THIS REPORT (Inclusive dates) 9/9/57 - 9/8/58	

10. TYPE OF REPORT (Check one)
☐ INITIAL
☒ ANNUAL
☐ REASSIGNMENT-SUPERVISOR
☐ REASSIGNMENT-EMPLOYEE
☐ SPECIAL (Specify)

SECTION F. CERTIFICATION

1. FOR THE RATER: I CERTIFY THAT THIS REPORT REPRESENTS MY BEST JUDGEMENT OF THE INDIVIDUAL BEING RATED

A. THIS DATE 17 Sept. 58 ~~27 August 1958~~	B. TYPED OR PRINTED NAME AND SIGNATURE OF SUPERVISOR E. M. ASHCRAFT	C. SUPERVISOR'S OFFICIAL TITLE Chief, CD/OO

2. FOR THE REVIEWING OFFICIAL: I HAVE REVIEWED THIS REPORT AND NOTED ANY DIFFERENCE OF OPINION IN ATTACHED MEMO.

A. THIS DATE 18 Sept '58	B. TYPED OR PRINTED NAME AND SIGNATURE OF REVIEWING OFFICIAL GEORGE G. CAREY	C. OFFICIAL TITLE OF REVIEWING OFFICIAL AD/O

SECTION G. ESTIMATE OF POTENTIAL

1. POTENTIAL TO ASSUME GREATER RESPONSIBILITIES

DIRECTIONS: Considering others of his grade and type of assignment, rate the employee's potential to assume greater responsibilities. Think in terms of the kind of responsibility encountered at the various levels in his kind of work.

RATING NUMBER: 2

1 - ALREADY ABOVE THE LEVEL AT WHICH SATISFACTORY PERFORMANCE CAN BE EXPECTED
2 - HAS REACHED THE HIGHEST LEVEL AT WHICH SATISFACTORY PERFORMANCE CAN BE EXPECTED
3 - MAKING PROGRESS, BUT NEEDS MORE TIME BEFORE HE CAN BE TRAINED TO ASSUME GREATER RESPONSIBILITIES
4 - READY FOR TRAINING IN ASSUMING GREATER RESPONSIBILITIES
5 - WILL PROBABLY ADJUST QUICKLY TO MORE RESPONSIBLE DUTIES WITHOUT FURTHER TRAINING
6 - ALREADY ASSUMING MORE RESPONSIBILITIES THAN EXPECTED AT HIS PRESENT LEVEL
7 - AN EXCEPTIONAL PERSON WHO IS ONE OF THE FEW WHO SHOULD BE CONSIDERED FOR EARLY ASSUMPTION OF HIGHER LEVEL RESPONSIBILITIES

2. SUPERVISORY POTENTIAL

DIRECTIONS: Answer this question: Has this person the ability to be a supervisor? ☒ Yes ☐ No If your answer is YES, indicate below your opinion or guess of the level of supervisory ability this person will reach AFTER SUITABLE TRAINING. Indicate your opinion by placing the number of the descriptive rating below which comes closest to expressing your opinion in the appropriate column. If your rating is based on observing him supervise, note your rating in the "actual" column. If based on opinion of his potential, note the rating in the "potential" column.

DESCRIPTIVE RATING NUMBER
0 - HAVE NO OPINION ON HIS SUPERVISORY POTENTIAL IN THIS SITUATION
1 - BELIEVE INDIVIDUAL WOULD BE A WEAK SUPERVISOR IN THIS KIND OF SITUATION
2 - BELIEVE INDIVIDUAL WOULD BE AN AVERAGE SUPERVISOR IN THIS KIND OF SITUATION
3 - BELIEVE INDIVIDUAL WOULD BE A STRONG SUPERVISOR IN THIS SITUATION

ACTUAL	POTENTIAL	DESCRIPTIVE SITUATION
3		A GROUP DOING THE BASIC JOB (truck drivers, stenographers, technicians or professional specialists of various kinds) WHERE CONTACT WITH IMMEDIATE SUBORDINATES IS FREQUENT (First line supervisor)
	3	A GROUP OF SUPERVISORS WHO DIRECT THE BASIC JOB (Second line supervisors)
	3	A GROUP, WHO MAY OR MAY NOT BE SUPERVISORS, WHICH IS RESPONSIBLE FOR MAJOR PLANS, ORGANIZATION AND POLICY (Executive level)
	3	WHEN CONTACT WITH IMMEDIATE SUBORDINATES IS NOT FREQUENT
	3	WHEN IMMEDIATE SUBORDINATES' ACTIVITIES ARE DIVERSE AND NEED CAREFUL COORDINATION
	3	WHEN IMMEDIATE SUBORDINATES INCLUDE MEMBERS OF THE OPPOSITE SEX
		OTHER (Specify)

SECRET
(When Filled In)

3. INDICATE THE APPROXIMATE NUMBER OF MONTHS THE RATED EMPLOYEE HAS BEEN UNDER YOUR SUPERVISION

92

4. COMMENTS CONCERNING POTENTIAL

Subject will leave New Orleans only for an overseas post. He will not do so for duty in Washington. In view of the fact that his intelligence experience is entirely in the field of domestic collection, it is difficult to conceive of such an overseas assignment. He is eminently qualified to continue in his present assignment.

OFFICE OF PERSONNEL
MAIL ROOM

SECTION H. FUTURE PLANS

1. TRAINING OR OTHER DEVELOPMENTAL EXPERIENCE PLANNED FOR THE INDIVIDUAL

No training or experience planned or required except periodic meeting of Contact Division Field Chiefs.

2. NOTE OTHER FACTORS, INCLUDING PERSONAL CIRCUMSTANCES, TO BE TAKEN INTO ACCOUNT IN INDIVIDUAL'S FUTURE ASSIGNMENTS

See Section G.4. above.

SECTION I. DESCRIPTION OF INDIVIDUAL

DIRECTIONS: This section is provided as an aid to describing the individual as you see him on the job. Interpret the words literally. On the page below are a series of statements that apply in some degree to most people. To the left of each statement is a box under the heading "category." Read each statement and insert in the box the category number which best tells how much the statement applies to the person covered by this report.

CATEGORY NUMBER
X - HAVE NOT OBSERVED THIS; HENCE CAN GIVE NO OPINION AS TO HOW THE DESCRIPTION APPLIES TO THE INDIVIDUAL
1 - APPLIES TO THE INDIVIDUAL TO THE LEAST POSSIBLE DEGREE
2 - APPLIES TO INDIVIDUAL TO A LIMITED DEGREE
3 - APPLIES TO INDIVIDUAL TO AN AVERAGE DEGREE
4 - APPLIES TO INDIVIDUAL TO AN ABOVE AVERAGE DEGREE
5 - APPLIES TO INDIVIDUAL TO AN OUTSTANDING DEGREE

CATEGORY	STATEMENT	CATEGORY	STATEMENT	CATEGORY	STATEMENT
3	1. ABLE TO SEE ANOTHER'S POINT OF VIEW	5	11. HAS HIGH STANDARDS OF ACCOMPLISHMENT	4	21. IS EFFECTIVE IN DISCUSSIONS WITH ASSOCIATES
5	2. CAN MAKE DECISIONS ON HIS OWN WHEN NEED ARISES	4	12. SHOWS ORIGINALITY	3	22. IMPLEMENTS DECISIONS REGARDLESS OF OWN FEELINGS
5	3. HAS INITIATIVE	5	13. ACCEPTS RESPONSIBILITIES	4	23. IS THOUGHTFUL OF OTHERS
5	4. IS ANALYTIC IN HIS THINKING	3	14. ADMITS HIS ERRORS	4	24. WORKS WELL UNDER PRESSURE
5	5. STRIVES CONSTANTLY FOR NEW KNOWLEDGE AND IDEAS	4	15. RESPONDS WELL TO SUPERVISION	4	25. DISPLAYS JUDGEMENT
4	6. KNOWS WHEN TO SEEK ASSISTANCE	4	16. DOES HIS JOB WITHOUT STRONG SUPPORT	5	26. IS SECURITY CONSCIOUS
4	7. CAN GET ALONG WITH PEOPLE	3	17. COMES UP WITH SOLUTIONS TO PROBLEMS	3	27. IS VERSATILE

27. Within the past 12 months, have you habitually used intoxicating beverages to excess?		X
28. Since your 16th birthday have you ever been convicted, or fined, or imprisoned, or placed on probation, or have you ever been ordered to deposit bail for the violation of any law, police regulation or ordinance (excluding minor traffic violations for which a fine of $25 or less was imposed)? If your answer is "Yes," list all such cases under Item 38 below. Give in each case (1) the date, (2) the nature of the offense or violation, (3) the name and location of the court, (4) the penalty imposed, if any, or other disposition of the case. If appointed your fingerprints will be taken.		X
29. Have you ever been discharged or forced to resign for misconduct or unsatisfactory service from any position? If your answer is "Yes," give in Item 38 the name and address of employer, date, and reason in each case.		X
30. Do you receive an annuity from the U. S. or D. C. Government under any retirement act or any pension or other compensation for military or naval service? If your answer is "Yes," give in Item 38 reason for retirement, that is, age, optional, disability, or by reason of voluntary or involuntary separation after 5 years' service, amount of retirement pay, and state what retirement act and whether retired from military or naval service.		X
31. Are you an official or employee of any State, Territory, county, or municipality? If your answer is "Yes," give details in Item 38.		X
32. Does the U. S. Government employ in a civilian capacity any relative of yours (by blood or marriage) with whom you live or have lived within the past 24 months? If your answer is "Yes," show in Item 38 for EACH such relative (1) full name, (2) present address, (3) relationship, (4) department or agency by which employed, and (5) kind of appointment.		X
33. Have you ever had a nervous breakdown? If your answer is "Yes," give complete details in Item 38.		X
34. Have you ever had tuberculosis? If your answer is "Yes," give complete details in Item 38.		X

Indicate "Yes" or "No" answer by placing X in proper column.	YES	NO
35. Have you any physical defect or disability whatsoever? (If your answer is "Yes," give complete details in Item 38.)	X	
36. (a) Were you ever in the United States Military or Naval Service during time of War?	X	
(b) Is the word "honorable" or the word "satisfactory" used in your discharge or separation papers to show the type of your discharge or separation?	Inactive Reserve.	
(c) Was service performed on an active full time basis, with full military pay and allowances?	X.	

(d)

Date of entry or entries into service	Date of separation or separations
8 Sept. 1942	Inactive duty 19 Dec. 1945
Branch of service (Army, Navy, M. C., C. G., etc.)	**Serial No. (If none, give grade or rating at time of separation.)**
USMCR	013458 Major USMCR

IF YOUR ANSWERS TO THIS QUESTION (No. 36) INDICATE THAT YOU ARE ENTITLED TO VETERAN PREFERENCE, SUCH PREFERENCE WILL BE CREDITED IN THE EXAMINATION. IF APPOINTED, YOU WILL BE REQUIRED TO FURNISH TO THE APPOINTING OFFICER, PRIOR TO ENTRY ON DUTY, OFFICIAL EVIDENCE OF SEPARATION FROM YOUR LATEST PERIOD OF ACTIVE SERVICE IN THE ARMED FORCES OF THE UNITED STATES DURING TIME OF WAR. DO NOT SUBMIT PROOF OF DISCHARGE OR SEPARATION WITH THIS APPLICATION.

Indicate "Yes" or "No" answer by placing X in proper column.	YES	NO
37. (a) If you served in the U. S. Military or Naval Service during peacetime ONLY, did you participate in a campaign or expedition and receive a campaign badge or service ribbon?		X
(b) Are you a disabled veteran?		X
(c) Are you the unmarried widow of a veteran?		X
(d) Are you the wife of a veteran who has service-connected disability?		X

IF YOUR ANSWER TO QUESTION 37 (a), (b), (c), OR (d) IS "YES" AND YOU WISH TO CLAIM VETERAN PREFERENCE, ATTACH TO THIS APPLICATION VETERAN PREFERENCE CLAIM (CIVIL SERVICE COMMISSION FORM 14) TOGETHER WITH THE NECESSARY PROOF SPECIFIED THEREIN.

WILLIAM P. BURKE

APPENDIX "A"

HISTORY OF EMPLOYMENT.

(Sec. 21 in Form [illegible]; Sec. 16 in USCSC Std. Form 57)

The following is a complete account of my business and professional activities since my return to New Orleans, from England, in the fall of 1924.

I had obtained a law degree from Harvard in 1923, but, as the law of Louisiana differs in many important respects from the Common Law, I entered Tulane University Law School, in October 1924, to study Louisiana Civil Code subjects. In the afternoons I worked as a researcher for the law firm of Spencer, Gidiere, Phelps and Dunbar, (now Phelps, Dunbar, Marks and Claverie) [illegible] United Fruit Co. Bldg., New Orleans, La.

In July 1925 I received the degree of LLB from Tulane, passed the Louisiana Bar examinations, and entered practise as an associate of the firm named above. My salary was, as I recall it, $100.00 per month, plus 75% of the fees on the business which I originated. Such fees were negligible. My work consisted in research on matters assigned by members of the firm, and the handling of minor matters of litigation.

Among the clients of the Spencer firm was the New Orleans Bank & Trust Co., a small bank which had been organized a few years previously. In 1928 the bank decided to open a Trust Department, and offered me the job of organizing and running it, at a salary of $[illegible] per year. I accepted, organized the department and operated it successfully until 1931. My work consisted in soliciting wills, trusts and custodianship accounts, investing the funds of beneficiaries, administering estates and handling receiverships.

In 1931 the discount department of the New Orleans Bank & Trust Co. got into difficulties, and, for the protection of the depositors, the entire bank was taken over by the Interstate Trust & Banking Co., of New Orleans. No loss was suffered by any of the customers of the Trust Department. I became Assistant Trust Officer of the Interstate Bank, and could have remained there indefinitely, but I disliked the environment and the policies of the management, and I could see very little prospect for advancement, so I resigned when the trust accounts had been transferred.

In the fall of 1931 I organized a corporation which was to erect a moving-letter on Canal St., similar to the one on the Times Building in New York. Revenues were to be derived from the sale of advertising which was to be interspersed among news dispatches. It proved impossible, however, to sell sufficient contracts to make the operation profitable, and I liquidated the corporation in the early part of 1932.

Two of my classmates at Tulane, Eberhard P. Deutsch and R. Emmett Kerrigan had been practising law together since graduation, and were becoming quite successful. They asked me to join them, and, in the summer of 1932, I became a member of the firm of Deutsch & Kerrigan & Burke. For the next five years we engaged in the general civil practise of law in all City, State and Federal Courts. Among others, we represented the [illegible] Engineering Co., the Item Co., Ltd., publisher of one of the local daily papers, the Standard Dredging Co., and a number of insurance companies, and local corporations and individuals.

My work covered the whole field of civil corporate and individual practice: the preparation of pleadings, interviewing witnesses, conducting litigation, writing briefs, arguing cases in the instant and appellate courts, examining titles, administering estates, handling taxation matters, etc. My income averaged approximately $7000.00 per annum.

I resigned from the firm in 1937 and continued practise, as an individual, with offices in the Canal Bank Building, until I entered military service in 1942. My income during that period varied between five and eight thousand dollars.

I was on active duty in the U.S. Marine Corps from September 1942 to December 1945. While I was overseas my mother died, leaving a considerable estate. I was named executor in her will, and, after my return, I spent several months in administering the estate, transferring the securities and working out some rather complicated taxation matters.

I had decided, while in service, that I did not want to return to active law practice. The clients I had had before the war were being adequately served by other attorneys, and it would have meant starting all over again from scratch. I did not want to do that, so I began looking for a business in which I could invest capital and my services. Naturally, I have found quite a few, but none, as yet, which meets my requirements.

I am a member of the Board of Directors of the following corporations: The National Service & Appraisal Co., of Chicago, Ill., which is in the credit reporting business; the Cahill Realty Co., of St. Louis, Mo., a family real estate company; The Equitable Real Estate Co., Ltd., of New Orleans; and Miracle Services, Inc., a company which some of my associates and I organized recently to operate "Launderettes" in this territory.

I have been active in Civic matters, acting as team captain in drives of the Community Chest, and have taken part in drives by the Red Cross, The Anti-Tuberculosis Society, the Cancer Society, etc. I am a member of the Board of the Children's Bureau, a Chest agency, and a member of its finance committee.

WILLIAM P. BURKE

APPENDIX "B"

MILITARY SERVICE.

(Sec. 16 in Form 2105; Sec. 17 in USCSC Std. Form 57)

In the spring of 1942 the war came pretty close to New Orleans. There were submarines in the Gulf, tankers were being torpedoed as they left the river, and the hospitals were filled with horribly burned seamen. I was anxious to do what I could, but I felt that at my age there was little hope of taking an active part. I became an Air Raid warden, and helped sell some War Bonds, and I thought that was about all I would be able to do.

Then the Marine Corps came out with an announcement that commissions were open in Aviation Intelligence to men up to 45 years of age. I saw the Recruiting Officer, and he recommended me for such a commission. Nothing happened for some time, so when I was next in Washington on business I went to Marine Corps Headquarters and looked p upColonel Welford, whom I had know in New Orleans.

He ascertained that Aviation Intelligence was filled up, but stated that he would be glad to have me in the Recruiting Division, and that I might transfer to Aviation Intelligence later on. I was delighted to get into the Marine Corps, and accepted a commission as Captain on 8 September 1942.

After an indoctrination course at Quantico, Va., I was ordered to San Antonio, Tex., as assistant recruiting officer. I remained there for three months, devoting most of my time to the Student Officer procurement program in the various Texas colleges.

In December, 1942, the Marine Corps, which had, prior to that time, been an exclusively volunteer organization, was placed under the Selective Service System, and Marine Corps Headquarters decided to follow the lead of the Navy and appoint a Marine officer as liaison to each state Selective Service Headquarters. I was one of those appointed, and was ordered to Raleigh, N.C. on 12 January 1943.

The post at Raleigh was one of some importance because of the large Marine Corps bases at New River, Cherry Point and Edenton, at which over one hundred thousand Marines were in training, and at which construction and maintenance programs involving several hundred millions of dollars were in operation. It was my duty to supervise the induction of all North Carolina selectees who were assigned to the Marine Corps through the Selective Service System, and to represent the various Marine Corps installations in their dealings and disputes with local draft boards concerning the deferment of about five thousand civilian employees.

In addition, I took an active part in the administration of the Selective Service Headquarters in Raleigh and throughout the state, interviewing registrants, their employers and dependents, advising local and appeal boards, setting up replacement schedules for various industries and passing on the merits of about eleven thousand appeals.

The work was interesting and productive, and living in Raleigh was certainly "good duty", but I had never lost my desire for overseas duty and made two attempts to transfer to Aviation, both of which were unsuccessful. Then, in September 1944 I heard that Marine Divisions overseas were badly in need of Legal Officers, and I immediately applied for transfer. I was ordered to Headquarters for indoctrination, and, after a tour of duty in the office of the Judge Advocate General of the Navy, I was sent to Camp Lejeune in February 1945 for further training. In April 1945 I sailed from San Francisco, and in May I joined the Fourth Marine Division, Fleet Marine Force, Pacific, at Maui, as Division Legal Officer. I continued in that post until the war ended and I procured a transfer to the inactive list.

A Marine Division consists of approximately [illegible] men. The Division Legal Officer is directly responsible to the Commanding General for the administration of military justice throughout the command, and supervises the work and findings of all General, Summary and Deck Courts, as well as those of all Boards of Investigation and Courts of Inquiry. He advises the Commanding General on the action to be taken as Convening Authority or Immediate Superior in Command. In addition he advises the Commanding General and Chief of Staff on all legal matters arising out of contact with natives, with civilian and military authorities and with the owners of training areas

WILLIAM P. BURKE

APPENDIX "B"

used by the troops. Moreover, he acts as Legal Assistance Officer to the Division, which involved, during my term of office, the giving of legal advice and service to about eight hundred individuals.

I returned to the United States on 25 October 1945, and completed my terminal leave on 19 December 1945.

During my term of service my superiors rendered reports on my fitness each ninety days. All of these reports were favorable, and many of them contained commendations. I was promoted to Major in August 1945, to rank from May 1943, and I hold a permanent commission as Major in the Reserve. My file number is 013458.
